Faculty
Usha S. Sinha, Ph.D., Professor of Physics, Chair of Department
Jeffrey A. Davis, Ph.D., Professor of Physics,
   Director of Electro-Optics Program
Calvin W. Johnson, Ph.D., Professor of Physics
Patrick J. Papin, Ph.D., Professor of Physics and Associate Dean for
   Academic Affairs of the College of Sciences
Alan R. Sweedler, Ph.D., Professor of Physics, Director of Center for
   Energy Studies, and Assistant Vice President for International
   Programs
Milton S. Torikachvili, Ph.D., Professor of Physics
Fridolin Weber, Ph.D., Professor of Physics (Graduate Adviser)
Matthew E. Anderson, Ph.D., Associate Professor of Physics
Arlette R.C. Baljon, Ph.D., Associate Professor of Physics

Associateships
Graduate teaching associateships in physics are available to a
limited number of qualified students. Application blanks and additional
information may be secured from the chair of the department.

General Information
The Department of Physics offers graduate study leading to the
Master of Arts degree in physics, the Master of Science degree in
physics, and the Master of Science degree in medical physics.

The Master of Arts degree emphasizes broad training and
intensive coursework. This is a non-thesis program designed to lead
the student to a comprehensive final examination. Specific courses, in
both pure and applied physics, are chosen to complement the
background of the individual student and achieve the desired
educational goals. The program is designed to provide students with
university-level teaching experience and access to community
college teaching positions.

The Master of Science degree emphasizes research experience in
a chosen specialty. It is designed to augment the student's undergradu-
ate training with a core curriculum of advanced courses, then
followed by a period of research and preparation of a thesis. Thesis
topics are encouraged in both pure and applied areas of physics. The
program is designed to provide students with university-level teaching experience and access to community college teaching positions.

The Master of Science degree in medical physics is designed to
train physicists in the use of radioactive materials and radiation-
producing devices such as those used in hospitals and related medical facilities, colleges and universities, industry, public health services, nuclear power installations, the military, the Department of
Energy, the Environmental Protection Agency, and the Nuclear
Regulatory Commission. The program emphasizes techniques of
radiation dosimetry, and instrumentation in addition to the fundamental
physics of radiation production and protection.

Admission to Graduate Study
Students applying for admission should electronically submit the
university application available at http://www.csumentor.edu along
with the $55 application fee.

All applicants must submit admissions materials separately to
SDSU Graduate Admissions and to the Department of Physics.

Graduate Admissions
The following materials should be submitted as a complete
package directly to:
Graduate Admissions
Enrollment Services
San Diego State University
San Diego, CA 92182-7416

(1) Official transcripts (in sealed envelopes) from all
   postsecondary institutions attended;
   Note:
   • Students who attended SDSU need only submit tran-
     scripts for work completed since last attendance.
   • Students with international coursework must submit both
     official transcript and proof of degree. If documents
     are in a language other than English, they must be
     accompanied by a certified English translation.

(2) GRE scores (http://www.ets.org, SDSU institution code 4682);
(3) English language score, if medium of instruction was in a
   language other than English (http://www.ets.org, SDSU
   institution code 4682).

Department of Physics
Master of Arts Degree in Physics

Master of Science Degrees in Physics

Master of Science Degree in Medical Physics

The following materials should be mailed or delivered to:
Department of Physics
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1233

(1) Letters of reference (two or three);
(2) Application for teaching associate position or graduate
   assistantship (if desired).

Master of Arts Degree and
Master of Science Degree in Physics

Admission to the Degree Curriculum
All students must satisfy the general requirements for admission to
the university with classified graduate standing, as described in Part
Two of this bulletin. In addition, the undergraduate preparation in
physics must have substantially satisfied the undergraduate
requirements for the bachelor's degree in physics. (Refer to the
General Catalog for a description of these majors.) If the student's
undergraduate preparation is deficient, he/she will be required to take
courses for the removal of the deficiency. These courses are in
addition to the minimum of 30 units for the master's degree.
Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy, as stated in Part Four of this bulletin, and satisfactory completion of Physics 604, 606, 608, and 610A.

Specific Requirements for the Master of Arts
Degree in Physics
(Major Code: 19021) (SIMS Code: 777702)
In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master’s degree as described in Part Four of this bulletin. The student’s graduate program must include Physics 604, 606, 608, and 610A. Eighteen additional units of 500-, 600- or 700-numbered electives must be selected with the approval of the Physics department graduate adviser. The Master of Arts degree in physics requires the completion of Plan B, a comprehensive written examination.

Specific Requirements for the Master of Science
Degree in Physics
(Major Code: 19021) (SIMS Code: 777701)
In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master’s degree as described in Part Four of this bulletin. The student must complete a graduate program to include Physics 604, 606, 608, 610A, 797 (3 units) and 799A. Twelve additional units of 500-, 600- or 700-numbered electives must be selected with the approval of the Physics department graduate adviser. The student is required to pass a final oral examination on the thesis.

Master of Science Degree in Medical Physics
Admission to the Degree Curriculum
All students must satisfy the general requirements for admission to the Division of Graduate Affairs with classified graduate standing, as described in Part Two of this bulletin under Admission to the Division of Graduate Affairs. In addition, the undergraduate preparation in biology, chemistry, mathematics, and physics must have substantially satisfied the undergraduate requirements for a baccalaureate degree in the life sciences or the physical sciences so that satisfactory progress can be made toward the master’s degree. If the student’s undergraduate preparation is deficient, he will be required to take courses for the removal of the deficiency. These courses are in addition to the minimum of 30 units for the master’s degree.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy, as described in Part Four of this bulletin.

Specific Requirements for the Master of Science
Degree in Medical Physics
(Major Code: 12251) (SIMS Code: 777768)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Four of this bulletin, the student must meet the following requirements:
1. The student must complete a graduate program to include Physics 560, 561, 565, 567. Eighteen additional units must be selected with the approval of the Physics department graduate adviser.
2. The thesis option (Plan A) requires the approval of the graduate adviser. Students in Plan A must include Physics 797 and Physics 799A in the 30-unit program, and are required to pass a final oral examination on the thesis.

Courses Acceptable on Master's Degree Programs in Physics (PHYS)
Refer to Courses and Curricula and Regulations of the Division of Graduate Affairs sections of this bulletin for explanation of the course numbering system, unit or credit hour, prerequisites, and related information.

UPPER DIVISION COURSES

PHYS 538. Polymer Science (3)
(Same course as Chemistry 538)
Prerequisites: Chemistry 200 or 202; and Chemistry 410B or Physics 360 or Mechanical Engineering 350.

PHYS 552. Modern Optics and Lasers (3)
Prerequisites: Physics 406 with minimum grade of C; credit or concurrent registration in Physics 400B.

PHYS 560. Radiological Physics and Dosimetry (3)
Prerequisite: Credit or concurrent registration in Physics 354.

PHYS 561. Nuclear Instrumentation (3)
Prerequisite: Physics 511 and 560.

PHYS 564. Nuclear Physics (3)
Prerequisite: Credit or concurrent registration in Physics 410.

PHYS 565. Radiobiology and Radiation Safety (3)
Prerequisites: Credit or concurrent registration in Physics 560 and consent of instructor.

PHYS 567. Nuclear Medicine Phthisis (3)
Prerequisite: Physics 560.

PHYS 570. Relativity (3)
Prerequisites: Physics 354 and 400B.

PHYS 580. Computational Physics (3)
Prerequisites: Physics 354; Computer Engineering 160; and credit or concurrent registration in Physics 400A.

UPPER DIVISION COURSES
PHYS 596. Special Topics in Physics (1-4)  
Prerequisite: Consent of instructor.  
Selected topics in classical and modern physics. May be repeated with the consent of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Credit for 596 and 696 applicable to a master’s degree with approval of the graduate adviser.

GRADUATE COURSES

PHYS 600. Seminar (1-3)  
Prerequisite: Consent of instructor.  
An intensive study in advanced physics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

PHYS 604. Electromagnetic Theory (3)  
Prerequisite: Physics 400B.  
Electrostatics, magnetic induction, and magnetostatics, Maxwell’s equations, electromagnetic waves and radiation, fields in macroscopic media, special relativity. (Formerly numbered Physics 604A.)

PHYS 606. Statistical Mechanics (3)  
Prerequisites: Physics 360, 410, 608.  

PHYS 608. Classical Mechanics (3)  
Prerequisites: Physics 350 and Mathematics 342B.  
Vector and tensor methods, motion of rigid bodies, vibration, coupled circuits, Lagrange’s and Hamilton’s equations, principle of least action.

PHYS 610A. Quantum Mechanics (3-3)  
Prerequisite: Physics 410.  
Physical and mathematical basis of quantum mechanics. Wave mechanics and the Schroedinger Equation, matrices and Hilbert space, angular momentum and spin, atomic structure, bound-state perturbation theory, many particle systems, transition rates and time-dependent perturbation theory, scattering, and relativistic quantum mechanics.

PHYS 670A-670B. Medical Physics (3-3)  
Prerequisites: Physics 560 and 561.  
Radiological physics, dosimetry, imaging, and radiation protection in medical environments including diagnostic radiology, nuclear medicine, and radiation oncology.

PHYS 672A. Radiation Therapy Physics Laboratory (3)  
One lecture and six hours of laboratory.  
Prerequisite: Physics 670A.  
Skills to perform radiation therapy physics procedures.

PHYS 672B. Diagnostic Imaging Laboratory (3)  
One lecture and six hours of laboratory.  
Prerequisite: Physics 670B.  
Skills to perform quality assurance and acceptance testing on radiological equipment in a clinical setting.

PHYS 680. Magnetic Resonance Imaging (3)  
Prerequisites: Physics 670B or Mathematics 342A and Physics 354.  
Nuclear magnetic resonance, relaxation theory, Fourier transform MR imaging physics, imaging sequences, optimization of signal and contrast, special imaging sequences to include MR angiography, functional MRI, diffusion and perfusion MRI, MR hardware and configuration.

PHYS 690. Medical Imaging Processing (3)  
Two lectures and three hours of laboratory.  
Prerequisite: Physics 670B.  
Digital image processing to include medical image formats, image enhancement, restoration, registration, segmentation, representation, and programming.

PHYS 696. Advanced Topics in Physics (1-3)  
Prerequisite: Consent of instructor.  
Intensive study in specific areas of physics. May be repeated with new content. See Class Schedule for specific content. Credit for 596 and 696 applicable to a master’s degree with approval of the graduate adviser.

PHYS 797. Research (1-3) Cr/NC/RP  
Prerequisite: Consent of graduate adviser.  
Research in one of the fields of physics. Maximum credit six units applicable to a master’s degree.

PHYS 798. Special Study (1-3) Cr/NC/RP  
Prerequisite: Consent of staff; to be arranged with department chair and instructor.  
Individual study. Maximum credit six units applicable to a master’s degree.

PHYS 799A. Thesis (3) Cr/NC/RP  
Prerequisites: An officially appointed thesis committee and advancement to candidacy.  
Preparation of a thesis in physics for the master’s degree.

PHYS 799B. Thesis Extension (0) Cr/NC  
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.  
Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

PHYS 799C. Comprehensive Examination Extension (0) Cr/NC  
Prerequisite: Completion or concurrent enrollment in degree program courses.  
Registration required of students whose only requirement is completion of the comprehensive examination for the master’s degree. Registration in 799C limited to two semesters.

Policy Studies in Language and Cross-Cultural Education  
Refer to “Education” in this section of the bulletin.
