President Stephen L. Weber

“San Diego State University is a wonderfully talented, diverse, energetic learning community dedicated to providing educational experiences, both in and out of the classroom, to develop abilities in all students. As a leading public university in California, SDSU has everything you need as you prepare for success in your career and community.

At SDSU, you’ll find a group of students, faculty, and administrators who live and learn together and share a common vision of academic excellence through teaching, research, and service.”
At San Diego State University, we are dedicated to preparing our students for success in today's world and for tomorrow's.

Academic Excellence

San Diego State University strives for excellence in all we do: as scholars, as community members, and as participants in the quest for human advancement.

SDSU is the oldest and largest higher education institution in the San Diego region and the second largest in the state of California. Founded in 1897, SDSU has grown to offer bachelor’s degrees in 79 areas, master’s degrees in 61, and doctorates in 13. As an SDSU student, you will participate in academic curriculum distinguished by research, direct contact with professors, and an increasing international emphasis that prepares you for a global future.

Designated a “Doctoral/Research University-Intensive” by the Carnegie Foundation, SDSU is among the top 6.7 percent of higher education institutions in the United States.

As SDSU has become an increasingly popular campus, known for the quality of its academic programs, admission to the University has become more selective. Students must meet admission criteria beyond those required by the California State University system.

Additionally, a number of SDSU’s majors are in high demand and require further criteria for admission to the major. The fall 2000 class of freshmen accepted into SDSU had an average high school GPA of 3.55. For upper division transfer students, the grade point average was 3.09.

During the 2000 commencement, SDSU honored 8,674 undergraduate and graduate students with degrees—a 36 percent increase over the number of graduates the previous year.

As an SDSU student, you’ll benefit from our national reputation for academic excellence coupled with our position among the most affordable universities in the nation.
“Being undeclared gave me the chance to explore different options. My advice to new students is to be open-minded and check out things that interest you. Don’t be pressured by other people into choosing a major. The Academic Advising Center is here to help you find your way. Don’t worry about being undeclared. In the end, it will be your own accomplishment and it will be right for you.”

Kloeung Phan, undeclared

Diversity

SDSU provides a diverse learning environment and a positive campus climate in which students from many different backgrounds can grow and prosper. More than 45 percent of our students come from various ethnic, cultural, or linguistic populations. The campus brings together students from all states and from more than 80 other nations.

Value

SDSU’s value can’t be beat! The cost of a bachelor’s degree is only 55 percent of the average cost of other 4-year public universities within the United States, according to the American Council on Education. California resident fees for undergraduate students at SDSU are $888 per semester—significantly lower than fees at many other California universities. If you are awarded a scholarship, consider that your scholarship dollars will go farther at SDSU.

SDSU’s 300-acre campus provides ample classrooms and laboratories, as well as on-campus housing. A state-of-the-art library, student union, recital hall, performing arts theatres, health center, modern recreation center, 12,000-seat arena, and top-quality baseball stadium all enhance student life. The campus also maintains two observatories, public broadcast radio and television stations, and seismology and weather stations. With Division I NCAA athletics and a multitude of opportunities outside the classroom, SDSU offers something for everyone.
San Diego: An International Hub

San Diego, the second largest city in California, is a thriving cultural, scientific, and educational center.

Bordering the Pacific Rim and Mexico, San Diego offers a wide variety of social and cultural activities. Known for its near-perfect climate, miles of sandy beaches, the world-famous San Diego Zoo, and fun-filled waterfront activities, San Diego is also recognized globally as a growing academic and research mecca.

San Diego’s geographic location and diverse regional population help make the area a dynamic international hub.

International Education

Students actively engaged in international education gain a competitive and compassionate edge. Each year SDSU welcomes students from all parts of the globe, enriching the campus environment and providing many opportunities for cultural interaction. The University also sends many students abroad to learn first hand about other cultures, languages, and people. Whether you’re visiting from another country or a native San Diegan, SDSU offers a variety of exciting international opportunities.

For international students—The International Student Center provides services and programs to meet the needs of international students. The American Language Institute provides English language instruction for international students and professionals.

For residents—Both the Study Abroad program and the Office of International Programs, which oversee exchange agreements with international universities, provide a variety of international exchanges that are affordable, safe, challenging, and fun. Living and studying in another country generates concrete benefits that place students at a distinct advantage.

For all—International academic programs include the Center for International Business Education and Research; International Security and Conflict Resolution; and the International Business major, which is the largest program of its kind in the nation.

“...”

Joaquin Valenzuela, Biology major
Get Involved!

SDSU enjoys a well-deserved reputation for an abundance of student activities outside the classroom. Whether you want to play a sport, join a club or honor society, lead a community service project, work for the student newspaper, or run for student office, you’ll find something to round out your college experience.

Clubs and Organizations

With nearly 300 clubs and organizations on campus, there is literally something for everyone. Clubs are organized around a variety of themes: academic, residential, cultural, political, religious, social action, honorary, and service.

Honor Societies

Honor societies represent the heritage of academic excellence within higher education and they symbolize this University’s proud commitment to that tradition.

Students with superior scholastic ability have the opportunity to join the following University-wide honor societies to include Phi Eta Sigma (freshmen), Golden Key (juniors and seniors), Mortar Board (seniors), Phi Kappa Phi (juniors, seniors, graduates), and Phi Beta Kappa (juniors and seniors).

In addition, the University recognizes 21 discipline specific honor societies which accord recognition to students who demonstrate superior scholastic and leadership in specific academic fields.

Leadership Programs

Student leadership programs include the freshman Emerging Leader program, leadership class for credit, SDSU Leadership Council, student awards, the Leadership Certificate program for non-freshman, and the annual three-day Leadership Institute Conference.

Fraternities and Sororities

SDSU is home to 42 Greek-letter social organizations, plus many culturally based organizations. Fraternities and sororities offer opportunities for life-long friendships, social activities, community service projects, academic assistance, and development of leadership skills.

Associated Students

Associated Students of SDSU (A.S.) is an independent, student-run corporation that provides a wide variety of services and programs. Student government is the backbone of A.S., representing students’ interests and overseeing the many services offered such as concerts, child care and recreation programs.

Community Service

Do you want to volunteer in community projects? SDSU’s Center for Community-Based Service Learning offers volunteer opportunities, a database of community service projects, events to promote service learning, a resource library, and much more.

Aztec Athletics

Athletics and recreation are a big part of life at SDSU. San Diego offers the weather and SDSU offers the programs. You’ll find several options for sports and recreation.

Campus activities include intramural sports, leisure classes, recreational sports, sports clubs, bowling, and games. Students interested in recreational sports should contact 619.594.6424.

Sports facilities on campus include the Student Activity Center, the 12,000-seat Cox Arena, Tony Gwynn Stadium, and Aztec Bowling. The Aztec Recreation Center provides a 76,000 square foot state-of-the-art facility including five full-size gyms, cardiofitness center, and rock climbing wall.

For more information, call the Athletic Department directly at 619.594.5163 or go to www.goaztecs.com.

“The athletic advisers and administration have really helped me progress with my academic career at SDSU. They’ve been a great help and carried me through. They really care how we grow personally, not just athletically. We are not just a number to them.”

Vanessa Villegas, Liberal Studies major, Shortstop—women’s softball team
What Makes San Diego State a Great University?

At San Diego State University, learning is our highest value and has been for more than a century. We are committed to creating educational opportunities that not only contribute to human intellectual development, but also equip our students to succeed in an increasingly technological and global society.

Our academic programs offer more than 200 fields of study. Students benefit both from excellent classroom instruction and from hands-on research opportunities as they work alongside faculty mentors at field sites and in classes, studios, and laboratories. This past year alone, SDSU researchers secured more than $105 million in funding for projects, bringing both cutting-edge equipment and the excitement of discovery into laboratories and classrooms.

Operating at a global level, our International Training Center provides educational leadership that stretches across continents to reach more than 300 sites worldwide. In addition, academic exchange opportunities and the nation’s largest undergraduate program in international business give SDSU students a competitive advantage as they step into professional careers or pursue graduate studies.

San Diego State University’s urban, cosmopolitan campus reflects the healthy diversity of our region and the world beyond. Students from all walks of life and more than 80 nations contribute to SDSU’s dynamic mix of ethnic, racial and social backgrounds. In fall 2000, more than 40 percent of our student population of 31,690 came from traditionally underrepresented groups.

New Challenges, New Programs

San Diego State University also embraces a key role as community resource and problem-solver. In the inner-city community of City Heights, we direct a six-year; $18 million educational pilot program designed to improve student achievement and teacher preparation.

“Originally, SDSU was not my first choice, but I’m so glad I came here. The business program has a lot of connections to local businesses, so there are a lot of recruitment and internship opportunities. The program really prepares you with real-world business problems and hands-on experiences, emphasizing teamwork and ethical decision-making. Plus the professors are awesome.”

Rommel Abad, Information Systems major
Through the National Center for the 21st Century Schoolhouse, located on our main campus, we serve as a nationwide resource on K-12 school design.

Responding to regional economic needs, SDSU was among the first universities in the nation to offer an advanced degree in regulatory affairs, a program created to meet the demands of the burgeoning biotech industry. We have also partnered with area hospitals to create Nurses Now, a program to alleviate the region’s critical shortage of nurses by expanding our nursing faculty and, in turn, the number of nursing graduates.

Campus Growth

A tangible mark of San Diego State University’s vitality is the current pace of campus construction. New projects under way total more than $1 billion in value. These facilities include a new Chemical Sciences Laboratory, parking structures, a dining and residence hall complex, and a new athletics administration building. The construction work also encompasses a 5.9-mile extension of the San Diego Trolley as well as redevelopment of the adjacent College Area neighborhood. These important projects promise to support academic and athletic programs and to enhance the learning and living environment of the campus community.

No one could have predicted this phenomenal growth in 1897 when San Diego Normal School opened its downtown doors to seven faculty and 91 students. Today’s main campus on Montezuma Mesa, founded in 1931, comprises 283 acres. In addition, the University offers classes at our Imperial Valley Campus and at satellite facilities in National City and Miramar. SDSU also operates the renowned Mount Laguna Observatory and manages four biological field stations totaling more than 9,000 acres.

Throughout the years and the changes, San Diego State University’s commitment to academic excellence and community involvement has never wavered. As we move ahead into a new century, a degree from San Diego State University remains highly sought, highly regarded and highly prized.

“My father is an engineer, and he taught me to write computer applications. I knew engineering was my goal. It’s like a family here—most students get to know each other well and help each other. There are different organizations within the college that also offer assistance, like MEP (Minority Engineering Program) and the NSB (National Society of Black Engineers). For students interested in computers, the SDSU program is bug-free.”

Gary Henderson, Computer Engineering major
Mission of the University

The mission of San Diego State University is to provide well balanced, high quality education for undergraduate and graduate students, and to contribute to knowledge and the solution of problems through excellence and distinction in teaching, research, and service.

The University serves to impart an appreciation and broad understanding of human experience throughout the world and the ages. This education extends to diverse cultural legacies; accomplishments in many areas, such as the arts and technology; the advancement of human thought including philosophy and science; the development of economic, political, and social institutions; and the physical and biological evolution of humans and their environment. San Diego State University accomplishes this through its many and diverse departments and interdisciplinary programs in the creative and performing arts, the humanities, the sciences, and the social and behavioral sciences.

Academic Goals

SDSU has adopted the following academic goals to sustain and strengthen our position as a leading university:

- To encourage the intellectual and creative development of a diverse group of students by helping them learn about themselves and others, their own and other cultural and social heritages, and their environment;
- To foster development of critical thinking, reading, oral communication, quantitative and qualitative analysis as well as a commitment to lifelong learning and international perspectives needed to contribute to communities and chosen fields of endeavor;
- To provide the basis for informed citizenship in a democracy;
- To offer advanced undergraduate and graduate students professional training and preparation for further study in a broad range of disciplines, with a special emphasis on the preparation of teachers;
- To support faculty in developing specialized contributions to knowledge, including innovative curriculum and pedagogy responsive to intellectual and professional needs of undergraduate, master’s, and doctoral students;
- To support faculty in their professionally related community activities and informed exchanges with diverse professional and lay communities that strengthen the University’s courses and scholarship;
- To encourage scholarship, including creative and performing arts, by students, faculty, and administrators from all areas of the University; and
- To continue our commitment to research, including the expansion of externally funded projects and doctoral programs where appropriate.

San Diego State University pursues its mission and goals through shared vision, a community-wide conversation out of which five goals were identified by a broad cross section of faculty, staff, students, administrators, alumni, parents, and community leaders:

- Academic excellence in all SDSU’s programs and offerings;
- Educational opportunities for the whole person, both inside and outside the classroom;
- The appreciation of diversity in its many manifestations and social justice within the University community;
- The wise use of our precious human and fiscal resources; and
- An international institution where pupils become global citizens.

The vision that first motivated our founders continues to energize us. We are a community of learners, of all ages and levels of experience, engaged in a continuous journey of invention, creation and discovery.

San Diego State University maintains and promotes a policy of nondiscrimination and nonharassment on the basis of race, religion, color, age, gender, disability, marital status, sexual orientation, and national origin.

The policy stands as a statement of this University's moral commitment to the right of all persons to equal opportunity in a nondiscriminating, harassment-free atmosphere. The Office of Diversity and Equity oversees that commitment to equal opportunity.

San Diego State University places high priority on that objective and expects all members of the University to support this policy fully.

Refer to the California State University policy pertaining to nondiscrimination university personnel guidelines. Part III-A-3 pertains to nondiscrimination and affirmative action as well as California State University Executive Orders 340, 345, and 675.

Mission and Purpose

Research has indicated that a strong academic advising system is an essential ingredient of undergraduate student success in higher education. A shared responsibility between adviser and student, academic advising serves to assist students in identifying and assessing academic alternatives and the directions in which they lead. Its purpose is to help students take ultimate responsibility for identifying and making decisions about life goals and making meaningful educational plans that are compatible with those goals. Through academic advising the University provides an environment that is welcoming and supportive.

Why Academic Advising Is Important

Completing the requirements for your degree in a timely manner requires PLANNING. Academic advisers can help you develop your academic plan. Don’t wait until you have a problem to see an adviser. Let the adviser help you prevent any problems! Planning saves time, money, and aggravation. The sooner you make the decision about what your major will be, the better you can plan your academic program. There are many program choices available at SDSU. An adviser can assist you with this decision process. Choosing the major that is right for you and compatible with your life goals will enhance your academic success. Requirements, policies, and procedures may change from year to year. Advisers can clarify which changes may affect you and which will not.

Advising Is Available to Help Students

• Understand graduation requirements
• Develop an academic plan
• Evaluate transfer credit
• Choose or change a major
• Plan your next semester’s schedule
• Clear mathematics and writing competencies
• Remove probationary status to avoid disqualification
• File for graduation
• Investigate job market opportunities
• File for graduation
• Prepare to enter a professional school (medical, dental, legal, etc.)

What Are the Students’ Responsibilities Regarding Advising?

Purchase a General Catalog. Know your catalog year (or years) for your General Education requirements and for your major requirements and be sure you have a copy of this catalog. Provided you maintain your enrollment at SDSU, this catalog or these catalogs establish the requirements you must complete for graduation. Details regarding catalog rights are listed under Graduation Requirements in this section of the catalog.

See your adviser regularly. Don’t wait until you encounter a problem before seeing an adviser. Check your degree progress regularly. If you plan to enter a professional school (medicine, dentistry, veterinary medicine), see your adviser during your first year at SDSU.

Keep an advising file. Advisers DO NOT have copies of your records. Keep a personal copy of transcripts (official or unofficial) from each college or university you have attended in a file and bring it to your advising session. You can obtain an unofficial copy of your SDSU record for a fee from the Office of the Registrar. SDSU does not release copies of other schools’ records. Evaluations, test scores, and other important academic information should also be kept in your advising file.

Plan your advising sessions during non-peak times. Advisers and advising centers are busiest during registration periods and the first weeks of classes. If you can avoid these busy advising times with a little planning, you will save yourself time and aggravation. Faculty advisers (major advisers) are not always available during the summer months or between semesters.

File for graduation. Graduation is not automatic, you must file a graduation application during the stated graduation application periods. Filing early will assure a final graduation evaluation before your last semester of enrollment.

Where To Go For Academic Advising

For general undergraduate advising regarding graduation requirements, General Education, competency requirements, probation and disqualification, and university policies and procedures; if you are undecided about a major; or if you are a Liberal Studies (elementary education) major; go to the Academic Advising Center, Student Services, Room 1563, (619) 594-6668.

For advising in your major, undergraduate and graduate students should contact the adviser or advising center assigned to your major and class level. A more detailed listing follows.

For advising for students in the Educational Opportunity Program, go to the Office of Educational Opportunity Programs/Ethnic Affairs, Student Services, Room 2209, (619) 594-6298.

For general requirements for the master’s or doctoral degrees (except for the major), students should contact the Graduate Division, Centennial Hall, Room 3320, (619) 594-5213.

For teaching credential advising, you should contact the adviser assigned to your specific area. A more detailed listing follows. Teachers holding preliminary California credentials issued on the basis of programs completed at other universities or in other states, may secure program advising from the Credentials Office, Education, Room 151, (619) 594-5964.

For specialized advising such as preprofessional advising (pre-medical, prelaw, etc.), you should contact the adviser assigned to your preprofessional area. A more detailed listing follows.

Academic Orientation is conducted by the Student Life and Development office, Student Services, Room 1602, (619) 594-5521, for new students (freshmen and transfers) and provides important pre-registration group advising. New students will be sent information through the mail.

The following chart lists more specific information regarding the location and telephone numbers of SDSU academic advisers. A more complete directory of academic advisers at SDSU is available on the Web site at www-rohan.sdsu.edu/~advising/uac/major_advising/index.html or via the printed Directory of Advising Services at SDSU available in the Academic Advising Center.

GRADUATE DIVISION
Associate Dean
Centennial Hall, Room 3320 ................................................. (619) 594-5213

   Monday–Thursday, 10:00 a.m.–4:30 p.m.

   Advisement concerning general requirements (except for the major). A departmental graduate adviser is available in all programs offering graduate degrees.

IMPERIAL VALLEY CAMPUS ADVISING

   It is recommended that Imperial Valley Campus students see an adviser prior to registration each semester.

   The following advisers correspond to the various majors and programs:

   **Undergraduate**

   Agribusiness, International Business
   Lorena Malo ................................................................. (760) 768-5503

   Criminal Justice Administration, Latin American Studies, Liberal Studies, Psychology
   Americo Yacopi ............................................................ (760) 768-5503

   English, History, Spanish
   Alicia Villalobos ........................................................... (760) 768-5506

   Public Administration, Social Science
   Miguel Rahiotis ............................................................... (760) 768-5507

   **Graduate**

   MA in Education
   Educational Leadership
   Dr. Stephen A. McNatt ................................................. (760) 768-5540

   Curriculum and Instruction
   Dr. Leslie Garrison ........................................................ (760) 768-5512

   Master of Public Administration
   Dr. Dana W. Murphy ..................................................... (760) 768-5544
   Dr. Richard W. Ryan ..................................................... (760) 768-5537

   MS in Business Administration
   International Business
   Dr. Michael J. Sabath .................................................... (760) 768-5535
   Miriam Ungson ................................................................ (760) 768-5505

   Teacher Education
   Dr. Leslie Garrison .......................................................... (760) 768-5512

Catalog, Bulletin, and Class Schedule

   The **General Catalog** is published annually in May and can be purchased at The Campus Store. The catalog carries information on admissions, fees and tuition, programs and degrees, courses, scholarships, residence halls, student services and activities, and a faculty directory. The catalog, bulletins, and class schedule are available on the SDSU Web site, as well as information on mail-orders, www.sdsu.edu.

   The **Bulletin of the Graduate Division** is published annually in May and can be purchased at The Campus Store.

   The **Class Schedule** with instructions for registration for Fall, Spring, and Summer is published prior to the opening of each semester or term and available at The Campus Store.

   The College of Extended Studies also publishes three catalogs each year, in Spring, Summer and Fall, listing extension, certificate, and professional development programs and courses available to the general public. The catalog is free and can be mailed to interested students by calling the College at (619) 594-5152.

13
Division of Student Affairs

The Division of Student Affairs is a student-centered partner in the SDSU learning community. Education is enhanced, both inside and outside of the classroom, through quality support services and programs that advance student learning and development.

The Division contributes to academic and personal success, encourages independent civic responsibility, and promotes the welfare of all students. Student Affairs helps connect students to the University and to their future, building alliances that foster retention and loyalty beyond graduation.

The Division of Student Affairs consists of the following departments:

- Career Services
- Communications Services
- Counseling & Psychological Services
- Disabled Student Services
- Educational Opportunity Programs/ Ethnic Affairs (EOP)
- Financial Aid
- Fraternity and Sorority Life
- Health Services
- Housing and Residential Life
- Information Systems Management
- International Student Center/Study Abroad
- Ombudsmen
- Scholarship Office
- Student Life and Development (formerly Student Resource Center)
- Student Rights and Responsibilities (formerly Compliance and Policy Analysis and Judicial Procedures)
- Test Office

Campus Tours

Student Services, Room 1602, (619) 594-6868

The SDSU Ambassadors conduct tours of the campus. The Ambassadors are carefully selected and trained in order to represent SDSU at new student orientation programs and at campus and community events. To find out how to become an Ambassador, or for information about scheduling campus tours, please contact the Office of Student Life and Development.

Career Services

Student Services, Room 1200, (619) 594-6851 career.sdsu.edu

Career counselors assist students in the exploration of their skills, interests and values as they choose a major and develop a career plan. A variety of computerized instruments are used in the career counseling and job search process. An extensive Career Library contains occupational/career information, employer reference materials, directories, video and audio tapes, interactive computer assisted programs, and Internet resources for the job search.

A centralized listing of career positions, part-time jobs, campus jobs, volunteer positions, and internships is available electronically and posted also in the Career Library and the Student Employment section of Career Services.

Career fairs are scheduled each semester allowing students to meet employers in an informal setting. A comprehensive career fair is scheduled in September followed by a graduate and professional school day. In the spring a series of specialty fairs are scheduled, including one for summer jobs. Access to a bank of SDSU alumni (through the Career Consultants Network) may also help students explore numerous career possibilities.

The on-campus interviewing program brings prospective employers and students together for career employment and internship interviews. Career Services’ Web-based program, Aztec Career Connection@http://career.sdsu.edu, allows students and alumni access to these interviews, plus additional online services and information. Students are assisted in preparing for these interviews and all other aspects of the job quest through workshops and individual career counseling.

Specialized programs are also available for those students with disabilities and students interested in preparing for careers in the nonprofit sector through the American Humanities Program.

Placement files are maintained for students primarily in education, social service, nursing, and graduate schools.

Various services are offered to alumni for a nominal fee.

Career Services is open 8:00 a.m.–4:30 p.m., Monday through Friday, and the Career Library is open until 6:00 p.m. on Thursdays during fall and spring semesters while classes are in session.

Counseling & Psychological Services

Student Services, Room 2109, (619) 594-5220

http://starter/cps/cps_home.html

Counseling & Psychological Services (CPS) offers individual and group counseling for the typical college student who wants assistance in coping with, and successfully resolving, the problems they face in everyday life. Issues relating to intimate relationships, self-esteem, personal independence, conflict, anxieties, self-confidence and academic performance are difficult and common obstacles for most college students.

Individual counseling services are designed for students who can benefit from short term counseling. If a student’s situation requires longer term therapy, referrals can be made to off-campus resources.

CPS has a stress management program and Personal Growth Resource Library equipped with over 200 video and audio tapes and a variety of free brochures on topics to assist students in their academic performance and personal growth.

Enrolled SDSU students who want help from the CPS staff in locating off-campus community services can call (619) 594-5220.

Counseling psychologists at CPS offer help in:

- Learning to reduce stress. Stress can interfere with concentration, memory, and mental processing.
- Dealing with relationship loss, feelings of helplessness or hopelessness, which may lead to a lack of motivation or prolonged depression.
- Developing communication skills and problem solving techniques to improve important relationships.
- Building self-esteem and improving coping skills.
- Clarifying values and career decisions.

Counseling & Psychological Services is open from 8:00 a.m.–4:00 p.m., Monday through Friday.
Fraternity and Sorority Life
6060 Montezuma Road, (619) 594-2939

The Center for Fraternity and Sorority Life oversees all aspects of Greek Life. Greek-letter social organizations create smaller communities within the larger University environment for the purposes of facilitating personal growth, leadership development, and academic support. Fraternities and sororities also offer students opportunities for friendship, small group living, campus involvement, community service, participation in social and recreational activities, and alumni networking. At SDSU there are 15 general fraternities, nine general sororities, six culturally-based fraternities, and 11 culturally-based sororities. Membership recruitment drives (sometimes referred to as "rush") occur at the beginning of each semester. The general fraternities and sororities and one of the culturally-based fraternities operate chapter houses where members can reside. New members should generally not plan on living in the chapter houses until their second year. For more information visit the Center for Fraternity and Sorority Life Web site at www.sa.sdsu.edu/cfsl.

Disabled Student Services (DSS)
Student Services, Room 1661, (619) 594-6473; TDD: (619) 594-2929

Disabled Student Services provides support services for students with mobility limitations, learning disabilities, hearing or visual impairments, psychological disabilities, attention deficit disorder, and other disabilities. Counselors are available to help students plan an SDSU experience to meet their individual needs. They assist students in making personal, academic, and vocational choices, and show how best to utilize campus facilities. Prior to receiving assistance, appropriate medical documentation must be submitted to Disabled Student Services.

Services available to all DSS students include a writing center/assistive computer technology lab (the High Tech Center) where students may use standard or assistive computer technology for assignments and may receive tutoring assistance with their writing. Other services available when appropriate include priority registration for students with special needs; close-in parking; transportation on campus and information about off-campus transportation; government benefits counseling; accessibility information, maps, and library study rooms; reader services and assistance with books on tape; sign language interpreters for deaf students; accommodated testing assistance; loan of educational support equipment (tape recorders, amplification equipment, wheelchairs, etc.); tutoring and notetaking services, referral to off-campus agencies for mobility orientation, financial benefits; and other services.

In addition, DSS offers special sections of classes aimed at helping students achieve academic success and fulfill university requirements. Rhetoric and Writing Studies 92A and 92B are designed to help students develop their writing skills and meet the lower division writing requirement. General Mathematics Studies 90A and 90B are review classes designed to help students meet university mathematics competency requirements. Rhetoric and Writing Studies 98A is designed to teach students effective test preparation, notetaking, and other strategies to help them improve their academic performance.

Educational Opportunity Programs/Ethnic Affairs (EOP)
Student Services, Room 2209, (619) 594-6288

The Office of Educational Opportunity Programs/Ethnic Affairs (EOP) at SDSU has helped many students with the potential for academic success and who are from low-income backgrounds enroll in and graduate from college. It is the purpose of the program to support those students who have the interest and motivation to obtain a college education, but who have not been able to realize their full potential due to economic, educational, or cultural factors.

Student services provided by EOP include preadmission counseling, summer program, priority registration, academic advising, personal counseling, referral services, individual tutoring, study groups, academic skills courses, work study, and multicultural activities. Financial aid is available through the Financial Aid Office.

To apply for the program, students must complete the CSU Application for Admission and check the appropriate box for EOP. Supplemental application forms will then be sent to students indicating interest. For assistance in filling out the application forms, or for further information about the program, please contact one of the EOP recruiters in the Student Outreach Services office, (619) 594-6966.

Health Services
Corner, Campanile Drive and Hardy Avenue, (619) 594-5281 shs.sdsu.edu

All regularly enrolled SDSU students have prepaid a health fee as part of their tuition and fees which entitles them to basic medical services. Some services, including annual Pap smears and pharmacy, require a minimal fee. Charges associated with these services are usually dramatically lower than those found elsewhere. This care is provided at Student Health Services, an on-campus center where health care providers offer a wide range of programs and services. Services include:

- Medical care by physicians board certified in family practice, internal medicine, orthopedics, psychiatry, dermatology, and preventive medicine, and by primary care nurse practitioners; nursing, x-ray, and laboratory services; a pharmacy which dispenses prescriptions and over-the-counter items at cost; health-related counseling and campuswide health education programming offered by the Health Promotion Department.

**REQUIRED: Proof of Immunity Against Measles, Rubella, and Hepatitis B**

New or readmitted students born on or after January 1, 1957 must present proof of immunity to measles and rubella (German Measles) during their first semester at SDSU. The minimum requirement is proof of at least one immunization for measles and rubella given after the first birthday and after 1968. (All students are encouraged to consider a second measles immunization.)

Students may fulfill the immunization requirement by bringing or sending medical documentation as proof of either previous illness or immunization to Student Health Services. (School records may not be acceptable proof unless signed by a physician or a nurse.) Students may also receive free immunization at Student Health Services. For more information, call (619) 594-5281.

**Important:** Students who have not complied with this California State University mandate prior to the registration deadline will not be able to register for their second semester.

**Hepatitis B**

All first-time enrollees who are 18 years of age or younger are required to present proof of immunity against hepatitis B during their first semester at SDSU. Hepatitis B vaccination consists of a three-dose series of injections that require four to six months to complete. (All students are encouraged to consider immunization against Hepatitis B.)

Students may fulfill the immunization requirement by bringing or sending medical documentation as proof of either previous illness or immunization to Student Health Services. (School records may not be acceptable proof unless signed by a physician or a nurse.) Students may also receive immunization at Student Health Services. For more information, call (619) 594-5281.

**Important:** Students who have not complied with this California State University mandate prior to the registration deadline will not be able to register for their second semester until they:

- a) provide proof of full immunity to Hepatitis B, or
b) provide proof of obtaining at least one of the required three doses of Hepatitis B vaccine. (Students who have not completed the series of Hepatitis B vaccine will be required to comply prior to the registration deadline for their third semester or will not be able to register for future classes.)

Immunization documentation should be mailed or brought to SDSU Student Health Services, Immunization Program, 5500 Campanile Drive, San Diego, CA 92182-4701.

In addition to demonstrating immunity to measles and rubella at Student Health Services, some students may be further required to present documentation to other campus officials. Students subject to this additional screening include:

- Students who reside in campus residence halls;
- Students who obtained their primary and secondary schooling outside the United States;
- Students enrolled in dietetics, medical technology, nursing, physical therapy and any practicum, student teaching, or fieldwork involving preschool-age children and/or school-age children or taking place in a hospital or health care setting.

**Strongly Recommended Health Screening**

Immunization from the following diseases may also protect students against potentially severe infections: tetanus, diphtheria, polio, mumps, meningitis, and hepatitis B. Like measles, these too can be particularly harmful in the college-age group. The chicken pox vaccine is available for students who have not had the disease. These immunizations are available at reduced cost at Student Health Services. Flu shots are available annually, as well.

Entering students are also strongly encouraged to have a screening test for tuberculosis (TB). The TB skin test is offered free at Student Health Services.

**Appointments**

Students without acute or urgent problems are encouraged to make an appointment. Those with problems requiring immediate medical attention should walk in. Student Health Services is open twelve months of the year. During the fall and spring semesters, the clinic is open from 8:00 a.m. to 4:30 p.m., Monday through Friday (call for extended hours of operation). During the summer, clinic hours vary. It is best to call for hours of service and to ask about the availability of services (619) 594-5281. All medical care provided at Student Health Services is **strictly confidential**. No one, on or off campus, other than Student Health Services staff has access to medical record information without written permission from the student.

**Student Health Advisory Board**

Students can participate in the clinic activities and offer important feedback about services through membership on the Student Health Advisory Board (SHAB) sponsored by Associated Students. Members not only work with clinic staff on a variety of health education projects, but also act as liaison between the SDSU student body and Student Health Services. SHAB keeps Student Health Services staff focused and current on major student health issues. Membership from all academic majors is encouraged.

**Accidents and Student Insurance Coverage**

First aid or urgent medical care is also provided to faculty, staff, and campus guests for accidents and injuries occurring on campus. Accidents requiring treatment and/or transportation to Student Health Services or a local hospital should be reported immediately to the SDSU University Police; telephone (619) 594-1991.

SDSU students are regarded by the University as adults. Accordingly, students are responsible for their own safety and health in connection with participation in campus activities and should exercise good judgment and due care at all times.

Specific questions regarding insurance coverage for campus programs, institutional safety regulations, and potential risks inherent in academic programs and student activities should be directed to the responsible faculty or staff member in charge of the activity.

Students participating in required or elective academic programs such as internships or practica may be covered under the University's Worker's Compensation program provided an internship agreement between the University and the facility has been executed by an authorized representative of the University. If the facility requires interns to provide and maintain professional liability insurance, it is the student's responsibility to secure professional liability insurance at their own expense. The University does not cover students' liabilities. This coverage is available through various companies, accreditation agencies, and memberships in professional organizations. Students should confirm the facility's requirement for this insurance and maintain acceptable limits in full force during the term of placement. The University makes no warranties as to the nature or quality of the coverage or the financial integrity of the insurers. The information on the availability of coverage is provided as a convenience to the students.

The University does not provide liability, accident or health coverage to students. Through the Associated Students, a supplemental health insurance policy is available and recommended to students having no private medical or accident insurance coverage. The insurance includes hospitalization benefits and specified medical and surgical services. The policy may be purchased per semester or yearly basis. An open enrollment period is available the beginning of each semester, and the policy may be purchased at the Aztec Center Ticket Office. The University makes no warranties as to the nature or quality of the coverage or the financial integrity of the insurers. The information on the availability of coverage is provided as a convenience to the students.

**Housing and Residential Life**

**6050 Montezuma Road, (619) 594-5742**

The Housing and Residential Life Office (HRLO) at SDSU is committed to fulfilling the University's mission of "educating the whole person" by offering students a living environment conducive to academic and personal success. According to research findings of the American Council on Education, students who live in residence halls have a better chance of succeeding in college; therefore, the University encourages students to live at SDSU at least two years while studying at SDSU. The HRLO is located at 6050 Montezuma Road, (619) 594-5742, and offers a variety of living environments convenient to campus facilities, to suit the varying needs of a diverse and dynamic student population. An active and nationally-recognized residence hall student government provides residents a chance to gain leadership experience and become involved with their on-campus community.

**Residence Halls**

Residence halls offer a number of accommodations and special interest living areas. Currently, special interest living areas include extended quiet study, substance-free, freshman Living/Learning Center, and Aztec Engineering Residence. These areas may vary from year to year depending upon student interest. Seven co-educational residence halls/complexes house about 3,500 students. Each hall includes sleeping accommodations, lounge areas, study rooms, a recreation room, and laundry facilities.

On the east side of campus are Zura Hall, a nine-story high-rise; eight-story Tenochca; and the freshman Living/Learning Center complex of two, three-story, red-brick halls (Maya and Olmeca). On the west side are 11-story Chapultepec Hall and the Templo del Sol complex (Tarastec, Toltec, and Zapotec) of three-story red-brick halls. Each red-brick hall accommodates approximately 210 students. High-rises house from 350 to 580 students each.

The new Cuicacalli residential suites and dining complex offers SDSU students a unique, new residence hall option complete with in-house dining facility. 2000-2001 SDSU hall residents will receive priority in contracting for Cuicacalli in fall 2001. The new dining facility will be open for all east side residents to enjoy. Cuicacalli will accommodate 694 residents.
Each hall offers double occupancy accommodations for single students, with a very limited number of single rooms available for returning students in some halls. Meal plans are included with contracts at any of these halls and students may choose from several meal plans. Apartment-style living is also available for returning students. The 90-unit Villa Alvarado apartment complex accommodates 354 students in furnished two-bedroom units (four residents per apartment).

For the 2001-2002 academic year, the costs for room and board range from $6,437 to $10,365 depending on double or single occupancy and the meal plan selected. Fees for Villa Alvarado, which do not include board, are $4,521 for the academic year. Rates for all halls are reviewed and adjusted annually to meet cost-of-living increases.

APPLICATIONS FOR ON-CAMPUS HOUSING ARE AVAILABLE STARTING NOVEMBER FOR THE UPCOMING ACADEMIC YEAR AND STARTING SEPTEMBER FOR THE FOLLOWING SPRING SEMESTER. APPLICANTS SHOULD NOT WAIT FOR ACCEPTANCE TO SDSU BEFORE APPLYING FOR ON-CAMPUS HOUSING. Students may apply for housing via the Internet at http://www.sa.sdsu.edu/hrlo. Or, to request an application for housing, students may call or write to the Housing and Residential Life Office before they are admitted to SDSU, or thereafter.

Confirmation of a room reservation is made after the following requirements have been met: (a) the student has been admitted to the University; (b) the signed contract has been returned to the Housing and Residential Life Office; and (c) the first payment has been received as specified. Though consideration will be given to a student’s request for an individual hall and roommate, a specific assignment cannot be guaranteed.

During the Summer Term, rooms are available on a receipt-of-check date priority. Full payment must accompany the application. Students should contact the Housing and Residential Life Office in mid-April for information concerning Summer Term housing.

**Piedra del Sol Apartments**

Piedra del Sol Apartments are designed for returning SDSU students who want a truly independent lifestyle, with preference given to graduate and upper division students. This complex offers two, three, and four bedrooms in a 66-unit complex. Apartments are unfurnished.

**Off–Campus Housing**

Since family housing is not available on campus, off-campus housing serves the needs of families and others. The Housing and Residential Life Office maintains an Off-Campus Housing Web site with current listings of off-campus rental units. In addition, listings of available dwellings and also of students seeking roommates are posted next to the Housing and Residential Life Office. Off-campus housing accommodations in the San Diego area include apartments, condominiums, houses, rooms in private homes, etc. To view listings posted on the Web site, visit the Housing main page at www.sa.sdsu.edu/hrlo.

**International Student Center**

International Student Center, (619) 594-1982 www.sa.sdsu.edu/isc

The International Student Center (ISC) serves as a global crossroads for over 1,100 students coming to SDSU from over 80 countries, and for all SDSU students wishing to study abroad. Students engaged in international education provide an invaluable resource to the SDSU campus and San Diego community by providing diverse cultural perspectives.

Through ISC’s support services, international students can find assistance in reaching their educational goals. Services include programs for prospective students, current students, as well as international alumni. The ISC provides pre-admission advising, orientation programs for new students, academic and immigration advising, and a housing referral service. SDSU students who wish to study abroad are encouraged to visit the ISC’s Education Abroad Resource Center and meet with an adviser who can assist in matching them with the right program.

The ISC also coordinates a variety of activities designed to foster intercultural goodwill, understanding, and friendship. One such activity is provided by the Intercultural Ambassadors Program that allows selected international students to make home-country presentation in San Diego public schools. The ISC also provides opportunities for international students to volunteer in the San Diego community through the International Partners Program linking students and community service organization in mutually beneficial relationships.

The ISC invites faculty, staff, and the community to assist international students new to SDSU and to participate in the many events listed in the Calendar of Events. These events include the weekly International Coffee Hour, the International Peace Village, the Intercultural Exchange Camps, the International Film Festival, field trips and excursions to San Diego sites, and workshops designed to meet the needs of students involved in international education.

**Ombudsmen**

**Student Services, Room 3635, (619) 594-6578**

Becoming a student at SDSU also means becoming a member of a special community which includes students, faculty, staff, and administrators. As a member of this community, students are responsible for knowing and complying with established rules and regulations.

The Ombudsmen are independent and impartial agents who help individuals and groups seeking the resolution and correction of complaints. The Ombudsmen act as liaisons between students and the University, assisting students through formal grievance procedures and functioning to mediate and reinforce other means of redress when possible. This office does not supplant existing avenues of redress. It exists to encourage appropriate and timely access to those existing processes which may best resolve the problem.

Examples of student complaints which have been resolved through this process include disputes over grades, faculty or staff conduct, academic disputes, appeals or waivers, administrative policies, and institutional compliance with federal and state nondiscrimination laws. Should a complaint not be resolved at the referral level, the Ombudsmen may act as mediators and suggest compromise solutions between parties. If the problem is still unresolved, the student may file a grievance with the student grievance committee. No student grievance can be filed with this committee later than the last day of the semester (excluding summer term) after the semester during which the student was allegedly aggrieved.

**Student Life and Development**

(Formerly Student Resource Center)

**Student Services, Room 1602, (619) 594-5221**

The Office of Student Life and Development responds to the needs of students and their families. Questions are answered or referrals are made through this office. Beginning with new student Orientation Programs, the office supports students throughout their years at SDSU in achieving academic goals and in enhancing the University experience. The staff provide the following for current students, prospective students, parents, and the community:

1. **Programs and Services**
   - **Academic Orientation** – assistance with course selection, General Education and competency requirements, and registration (for freshman and transfer students).
   - **Student Life Orientation** – introduction to the University programs, services, traditions and history; opportunities for involvement on campus (for freshman and transfer students).
   - **Annual Leadership Institute Conference** – workshops and seminars presented to students and advisers from universities throughout the western United States.
   - **Freshman Leadership Connection Program** – leadership skills and campus involvement opportunities for freshmen. (See Special Programs and Services for a complete description.)
Leadership and Personal Growth Workshops – the staff present sessions on a wide variety of topics as requested by student groups.

Leadership Certificate Program – support for non-freshman students in their leadership development.

Leadership Class – “Leadership in Educational Settings,” a three-unit, upper-division class, offered through the College of Education (Counseling and School Psychology 310).

Leadership Council – plans and promotes the Leadership Institute Conference; social and community service activities.

Quest for the Best Vice Presidential Awards – this student service award is presented annually to outstanding students and the faculty they nominate.

Center for Community-Based Service Learning – the Office of Student Life and Development oversees the CCBSL in providing community service opportunities for students and for faculty who want to integrate service learning into their courses.

Ambassadors – SDSU’s official student representatives and tour guides.

Campus tours.

Student internships for class credit.

Student activities

On-campus status for clubs and organizations.

Implementation of policies and procedures with regard to student activities.

Approval of all on-campus club activities, including fundraising events.

Parent/family and community programs and development

Aztec Parents Association – membership, programming, services and events, regional meetings.

Fundraising and development to directly support student programs.

Parents Orientation Program.

Interaction with administrators.

Liaison officer in support of parent involvement with the University.

Student services research and evaluation

Surveys of student needs, attitudes, and behaviors.

Evaluation of Student Affairs programs and services.

Student Rights and Responsibilities

Student Services, Room 2549

The Center for Student Rights and Responsibilities incorporates compliance and judicial procedures, two distinct components. The center serves to clarify for students their role as members of the campus community, setting forth what is expected of them in terms of behavior and contributions to the success of the University. This center also serves to further San Diego State University’s commitment to maintaining a campus environment free from harassment and promoting a policy of non-discrimination.

The center is charged with investigating complaints filed by students alleging discrimination or sexual harassment, providing sexual harassment prevention workshops, reviewing University policy, monitoring campus disputes, and serving as a resource to the administration on issues of regulatory law, constitutional law, and risk management.

The judicial component is responsible for acting on behalf of the University president regarding all aspects of student discipline. The center receives reports of alleged student misconduct relative to Title 5, California Code of Regulations, and investigates complaints in order to determine whether University disciplinary action is to be pursued. University disciplinary action may run concurrently with civil or criminal action initiated by the court system. Campus related violations include both academic and non-academic misconduct.

To review SDSU’s statement of student rights and responsibilities, visit www.sa.sdsu.edu/srr/statement.

Test Office

Student Services, Room 2549

Telephone: (619) 594-5216

FAX: (619) 594-5036

www.sa.sdsu.edu/testofc/testpage.html

The Test Office is an important resource for the entire University community, serving both students and faculty by administering paper and pencil and computer based tests for the purpose of admission, class placement, competency for graduation, licenses, credentials, counseling, and career planning. A library of standardized assessment instruments is maintained for use by faculty and students in testing classes. Test scoring and analysis services are provided for classroom tests.

Test dates for San Diego State University competency and placement tests are listed in the Test Information section of the current Class Schedule and on our Web site. Advance reservations as well as fee payments are required for most tests. The Test Office will provide students with test dates and registration procedures for major national examinations in the form of a bulletin of information or with the address of the testing service. Reservations for computer based tests can be made at the Test Office (619-594-0968). Students who are interested in assessments for counseling or career planning must contact Counseling & Psychological Services or Career Services. Special arrangements for disabled students are made through Disabled Student Services.

Although competency test requirements are monitored by various offices on campus, the Test Office will attempt to assist students in signing up for the required examinations or refer them to the proper agency.
Financial Aid

Student financial aid programs are intended to provide assistance to students who do not have the necessary financial resources to meet educational costs. Most students qualify for some form of assistance. For resources that recognize academic excellence, refer to the following information on Scholarships. Only United States citizens and eligible noncitizens can receive financial aid.

Information about all state and federal aid programs as well as some of the institutional programs is available from the Financial Aid Office located in Student Services, Room 3605. The phone number is (619) 594-6323. The SDSU Guide to Financial Aid describes the available programs as well as the academic standards that a student must maintain in order to remain eligible for such aid. The 2001-2002 Guide to Financial Aid can be accessed at http://www.sa.sdsu.edu/fao/intro.html/ beginning April 1, 2001.

Applying for Aid

Applicants who want to be considered for all types of state and federal financial aid should apply as soon after January 1 as possible by completing a Free Application for Federal Student Aid (FAFSA). Since new California grant program applicants must apply by March 2, we strongly encourage all applicants to apply by this date.

Applications are reviewed and awarded throughout the year based on available funding. January through May, however, is considered the optimum time period to apply for aid to receive funding at the beginning of the fall semester.

Cost of Living

San Diego State University establishes standard student budgets in coordination with The California State University system that meet federal requirements. Student budgets, updated annually to account for inflation are currently:

Costs of Attendance for the 2001-2002 Academic Year

<table>
<thead>
<tr>
<th>Living off Campus</th>
<th>Living on Campus</th>
<th>Commuting from Home</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fees ..................</td>

<tr>
<td>Total ..................</td>
<td>$12,648</td>
<td>$12,852</td>
</tr>
</tbody>
</table>

The registration fee for a postbaccalaureate student is $1854 for the academic year. In addition to the registration fee, nonresident (foreign and out-of-state) students pay tuition (see Schedule of Fees section). All fees and costs are subject to change without notice.

Refund Policy

Information concerning the refund policy of San Diego State University for the return of unearned tuition and fees or other refundable portions of costs is available from the University Cashiers Office, Student Services, Room 2620, (619) 594-5253.

Information concerning San Diego State University policies regarding the return of unearned aid to the federal Title IV student assistance programs is available from the Financial Aid Office, Student Services, Room 3605, (619) 594-6323.

Scholarships

Scholarships reward academic excellence and are not generally based on financial need. For financial aid not based on academic record, refer to the preceding information on Financial Aid. All students, regardless of nationality, citizenship, or residency status, are eligible, with the appropriate grade point average, to apply for scholarships.

Scholarships and Fellowships
Administered by Departments

Students receive fellowships, grants, or stipends through the various departments. Federal, state, and private industry support programs of this nature are largely directed to students doing graduate work or to students preparing for some special field of work. Students who have decided on some particular area of study should check with an advisor in the department of their major to determine what fellowship, grant, or stipend support might be available to them.

San Diego State University Scholarships

Scholarship Philosophy and Eligibility Requirements

A scholarship is a monetary award given to outstanding students to recognize them for their academic excellence, leadership, achievements and promise. They are provided by private donors, corporations, professional associations and alumni.

High school seniors and undergraduate or graduate students may apply for scholarships awarded by their major department and/or the San Diego State University Scholarship Committee.

Competition is based on outstanding academic achievement, campus and extracurricular activities, employment, and an essay. Undergraduates must have a 3.50 overall GPA or a 3.70 in the last 30 units of university work. Graduate and postbaccalaureate students must have a 3.50 overall GPA for work completed after the bachelor’s degree or, in the absence of completed postbaccalaureate units, a 3.50 overall undergraduate GPA or a 3.70 in the last 30 units of university work. High school seniors must have a 3.50 cumulative GPA (excluding physical education and military science) for work completed through the fall semester of the senior year.

Applications for the SDSU scholarship program are available in the Scholarship Office, from all department secretaries, and in San Diego County high school and community college counseling offices. You may also write or call the SDSU Scholarship Office, 5500 Campile Drive, San Diego, CA 92182-7438; telephone (619) 594-6180; Email: cfbox@mail.sdsu.edu or FAX: (619) 594-7303. Beginning September 1, 2001, applications will be available online. Visit www.sa.sdsu.edu/scholarship

Applications are available each year during one application period, November through early February. The SDSU scholarship application must be filed or postmarked no later than the established first Monday in February deadline. Students need to submit only one application for the SDSU scholarship program. Individual results will be mailed to all applicants during June for the following academic year.

The dollar amount per scholarship is subject to change based on registration costs and investments by The Campanile Foundation. There is no limit to the number of scholarships for which a student may be considered. Note: Freshman Scholar Awards are only available to entering freshmen who meet the University, merit-based eligibility requirements. Several awards are designed to cover the cost of registration fees for four years of undergraduate studies providing the recipient maintains a minimum 3.5 grade point average. Scholarships that include room, board, books, and in-state fees may be awarded to incoming freshmen providing a 3.5 minimum grade point average is maintained.
In addition to SDSU scholarships, the Marshall, Fulbright, Rhodes, and Rotary scholarships are prestigious international scholarships that are given annually to students pursuing educational goals outside the United States. Eligibility standards for these scholarships are closely related to those established for the SDSU scholarship program, but application forms and deadlines are separate from the program. Students may seek advisement regarding application at the SDSU Scholarship Office in late spring or September.

College of Arts and Letters

Administration
Dean: Paul J. Strand
Associate Dean: Carol O. Sweedler-Brown
Assistant Dean for Student Affairs: Leslie S. Johnson
Assistant Dean for Development: Vincent M. Blocker

General Information
The College of Arts and Letters is at the very heart of liberal arts education at San Diego State University. Its programs in the humanities and social sciences are offered through 19 academic departments and several interdisciplinary programs, each of which is designed to help students to understand their role in society and to develop aesthetic sensibilities. Arts and Letters courses are offered to explore the experiences of men and women in society, their cultural expressions and practices, their languages, and their philosophical concepts. The College’s highly trained, professionally active faculty seek to give students an awareness about the development of present knowledge and how to generate new knowledge. Students are encouraged to develop keen observation skills, the capacity to think critically, and the ability to express their views intelligently and sensitively as leaders.

Curricula Offered
Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Arts and Letters.

Research Centers and Institutes

Africana Center for Cultural Literacy and Research
JoAnne Cornwell and Norman E. Chambers, Co-Directors
The Africana Center for Cultural Literacy and Research provides independent and collaborative projects (across a broad spectrum of academic disciplines) that create professional development opportunities with an Africana cultural focus for students, faculty and staff; research opportunities for students and faculty; and culturally enhanced teaching opportunities for SDSU faculty. The Center’s programs also provide venues for community service which focus on Africana cultural groups.

The Africana Center is housed in the Department of Africana Studies and can be reached by calling the department office at (619) 594-6531.

China Studies Institute
William G. Tong, Director
The China Studies Institute coordinates and supports on-campus teaching and research related to China. The Institute develops and fosters faculty and student exchange programs with Chinese universities and institutions of higher learning. Various cultural programs on China and activities on campus and in the community promote cultural awareness and understanding. The development of Chinese publications, audiovisual materials, periodicals, newspapers, and other resources on campus fosters relationships between San Diego State University and the Chinese community, as well as nurtures friendship between the Chinese and American peoples.

Institute of Druze Studies
Samy S. Swayd, Director
The Institute of Druze Studies (IDS) is an academic non-profit organization dedicated to research and discourse on the Druzes and related topics. The Druzes are a Middle Eastern minority group that live predominantly in the mountainous regions of today’s Lebanon, Syria, Jordan, Israel, and with smaller numbers elsewhere around the world. More than 25,000 Druzes live in the United States with California as the main Center of the American Druze Society (ADS). The Druze sect began in Cairo and has survived for almost one thousand years.

The IDS aims to 1) provide information on Druze history, society, and faith; 2) encourage research and studies on historical and contemporary Druze communities; and 3) promote academic discourse
about the Druzes and other immigrant religious communities. The IDS pursues these objectives through an international annual multidisciplinary conference, a publication series, an academic journal, and a newsletter. The IDS participates in professional conferences and provides guest lectures to interested organizations.

For more information, call the IDS office at (619) 594-1880, the Department of Religious Studies at (619) 594-5185, FAX (619) 594-1004, or www.druzetudies.org.

**Donald I. Eidemiller Weather Station**  
**Edward Aguado, Director**

The Donald I. Eidemiller Weather Station serves as a teaching and research resource. The station also archives monthly and annual data published by the National Climatic Data Center and has been observing and recording local weather information for more than 40 years.

**Center for European Studies**  
**James L. Schorr, Director**

The Center for European Studies, through its associated faculty and students, is committed to the multidisciplinary study of Europe and its dynamic and evolving calculus of nations, cultures, languages, and perspectives. The Center is a vehicle for fostering appreciation of Europe, the societies and cultures within its geographical boundaries, and the ideas that make up various European realities. The Center will develop grant funded programs (e.g. colloquia, symposia, etc.), collaborative teaching and research opportunities, faculty exchanges, internship leads for partner programs, workshops, and related activities.

For more information regarding the Center for European Studies, contact James L. Schorr, Chair, Department of European Studies, (619) 594-5111 or 594-5671; jschorr@mail.sdsu.edu.

**Center for International Business Education and Research (CIBER)**  
**Michael L. Hergert and Paul J. Strand, Executive Co-Directors**  
**Steven J. Loughrin-Sacco and Kenneth E. Marino, Co-Directors**  
**David P. Earwicker, Managing Director; Tamara Dunn, Asst. Director**

The Center for International Business Education and Research (CIBER), one of 27 such centers of excellence in the United States, was established in 1989 under the auspices of a grant from the U.S. Department of Education and is administered by the Colleges of Arts and Letters and Business Administration.

CIBER promotes: (1) interdisciplinary programs which incorporate foreign language and international studies training into business, finance, management, communications systems, and other professional curricula; (2) interdisciplinary programs which provide business, finance, management, communications systems, and other professional training for foreign language and international studies faculty and advanced degree candidates; (3) evening or summer programs, such as intensive language programs, available to members of the business community and other professionals, which are designed to develop or enhance their international skills, awareness, and expertise; (4) collaborative programs, activities, or research involving other institutions of higher education, local educational agencies, professional associations, businesses, firms or combinations thereof, to promote the development of international skills, awareness, and expertise among current and prospective members of the business community and other professionals; (5) research designed to strengthen and improve the international aspects of business and professional education and to promote integrated curricula; and (6) research designed to promote the international competitiveness of American businesses and firms, including those not currently active in international trade.

CIBER is located in Business Administration 428; (619) 594-3075; FAX (619) 594-7738; ciber@mail.sdsu.edu; www.sdsu.edu/ciber.

**International Population Center**  
**John R. Weeks, Director**

The International Population Center (InterPop) promotes applied demographic research and the provision of technical assistance and consulting, especially focusing on population issues and policy within the San Diego/Tijuana region and the Middle East. Although it is located in the Department of Geography, InterPop is a multidisciplinary facility linking Center faculty from several departments on campus with Center associates from other organizations and universities in the San Diego region. The telephone number for the center is (619) 594-8040.

**Institute for International Security and Conflict Resolution**  
**Alan R. Sweedler and Dipak Gupta, Co-Directors**

The SDSU Institute for International Security and Conflict Resolution (IISCOR) encourages and facilitates teaching and research in the multidisciplinary area of international security and conflict resolution. Specifically, topics such as nuclear armaments, international and intranational conflict, sociopolitical violence, and global environmental issues as they relate to security are covered.

The Institute is a joint effort of the Colleges of Arts and Letters, Professional Studies and Fine Arts, and Sciences. IISCOR is administered by two co-directors, advised by an executive committee consisting of faculty members representing the different disciplines that provide input into the study of international security and conflict resolution.

The Institute promotes teaching and research by organizing public forums, faculty and student seminars, developing appropriate curricula for undergraduate and graduate instruction and facilitating research and scholarly activities. SDSU offers, through IISCOR, a multidisciplinary Bachelor of Arts degree in International Security and Conflict Resolution. More information is available by calling the IISCOR office at (619) 594-6240.

**International Technology and Trade Network (ITTN)**

The International Technology and Trade Network (ITTN), an institute of San Diego State University’s Center for International Business Education and Research (CIBER), is a collaborative offering of the College of Arts and Letters and the College of Business Administration. The objective of the ITTN is to promote methods for creating a stable economic environment for transnational business, trade, and research. The Institute will seek ways to use business as a catalyst for regional peace and cross-border economic development. This effort will focus on networking together business assistance organizations, academic institutions, and research centers in regions of conflict and emerging economies. We will establish a virtual business assistance network that will take advantage of the latest Internet, information, and telecommunications technologies to provide business-to-business and organizational links. We will use these technologies to share information as well as provide educational, training and distance learning opportunities to participating members of the network. For more information, contact David Earwicker with the SDSU CIBER at (619) 594-6023 or david.earwicker@sdsu.edu.

**Center for Islamic and Arabic Studies**  
**Paul J. Strand, Acting Director**

The Center for Islamic and Arabic Studies is charged with teaching and research focused on Islam and the lives of Islamic and Arabic-speaking peoples past and present. It sees Islam, rooted in the Arabic language and experience, as a system of beliefs and a way of life, richly cosmopolitan and of world-historical significance.

The Center includes in its scope of study the Arabic language; Islamic religion and law; the history of the Muslim peoples across Eurasia and Africa; the role of Muslim peoples and nations in world politics, economics, and social issues; political life in Muslim nations; Muslim communities in the United States; and Arabic-speaking peoples of all faiths worldwide.
Its ambition is to become a leading center in North America for the study of Islamic history, religion, society, economy, and culture as a global phenomenon.

**Latin American Studies**
The Center for Latin American Studies seeks to encourage teaching and research related to Latin America. It has primary responsibility for the administration of the Latin American undergraduate and graduate degree programs. The U.S. Department of Education has designated the center as one of 21 “National Resource Centers for Latin America,” in consortium with the Center for Iberian and Latin American Studies at the University of California, San Diego. In conjunction with this award, the Center administers programs that focus on a multi-disciplinary and problem-oriented approach to teaching and research activities focused on Latin American Studies; the development of innovative methods of instruction in Spanish and Portuguese; the provision of informative and in-service training programs for elementary and secondary school teachers; and the provision of services for the general public through the sponsorship of conferences, workshops, lectures and films. The Center also assists in the development of the University library’s Latin American holdings.

**Lipinsky Institute for Judaic Studies**
Lawrence Baron, Director
The Lipinsky Institute for Judaic Studies, located in the College of Arts and Letters, serves to coordinate the Judaic Studies minor at SDSU. Established with contributions from the San Diego community, the Institute provides financial support for an annual visiting professor from Israel, the annual Galinson-Glickman symposium on contemporary Israeli issues, the Robert Siegel Memorial Lecture, and the Jewish heritage video collection housed in the library’s Media Center. It also complements regular course offerings by sponsoring lectures, acting as a community resource on Jewish studies, and housing the Jewish Historical Society of San Diego archives in the Snyder Judaic Studies reading room (LL 363).

**Institute for Regional Studies of the Californias**
Paul Ganster, Director
The Institute for Regional Studies of the Californias (IRSC) provides San Diego State University with a forum for the investigation, discussion, and dissemination of information about the United States-Mexican border region. The Institute focuses on the border region of California and Baja California and is also concerned with important issues of the United States-Mexican interface and monitors border regions elsewhere in the world.

Created in 1983, the Institute has undertaken multidisciplinary applied research projects on important regional concerns including transborder environmental issues, policy perspectives of the Californias-Mexico relationship, quality of life, and sustainable development. IRSC also plays an active role in Mexico-related professional organizations and is frequently consulted on transborder issues by the media, nongovernmental organizations, the public sector, and other border stakeholders.

Other Institute activities include conducting binational symposia; improving communication between public and private sector representatives on both sides of the border; serving as a clearinghouse for information on transborder events, issues, and institutions; and encouraging the effective use of educational resources among the region’s universities. The Institute serves as a major link between SDSU and Mexican institutions.

IRSC has an ongoing publications program that includes books, monographs, and shorter items. Many titles are co-published with SDSU Press. IRSC serves as co-editor for the Journal of Borderlands Studies that is published by the SDSU Press.

IRSC has under way major applied research projects on border environmental issues and policy, regional economic issues, and transborder planning issues. IRSC serves as the SDSU link to the Southwest Center for Environmental Research and Policy, a congressionally established consortium of Mexican and U.S. universities for research and policy studies on environmental issues of the border.

**Social Science Research Laboratory**
Douglas S. Coe, Director
The Social Science Research Laboratory (SSRL) was founded in 1974 to support academic computing and social research within the College of Arts and Letters (CAL), the University, and the regional community. SSRL is organized into six units: Instructional Services, Research Services, Systems Support Group, CAL Help Desk, Data Resources, and South Coastal Information Center (SCIC). The department employs 12 full-time staff and over 50 part-time employees classified as lecturers, graduate teaching associates, laboratory consultants, research assistants and data collection specialists.

**Instructional Services** works closely with faculty to assimilate technological resources into the curriculum and to support academic computing among students and faculty. This is accomplished through four programs: (1) one-unit Social Science courses on the use of statistical, database, spreadsheet, and presentation software and on utilizing academic Internet resources; (2) workshops on the use of selected software applications; (3) class presentations requested by faculty to support computer-related instructional assignments; and (4) individual consultation for students using SSRL’s open-access computing classrooms.

**Research Services** offers a complete range of public opinion polling and survey research services, including sample design, data collection, data reduction, graphic presentation of data, statistical analysis, and data archiving. The section maintains computer systems to support faculty research. Undergraduate internships and research assistant positions are available. Typical research clients include units of government, community groups, and research projects conducted by faculty and SDSU administrative offices.

**Data Resources** assists faculty and students in searching for and using archived datasets. Principal sources of archived and electronically accessible information include the Inter-University Consortium for Political and Social Research (ICPSR), the Social Science Data Archive (SSDA), the U.S. Census, Field Institute California Polis, the Roper Center for Public Opinion Research and Lexis/Nexis Academic Universe. Assistance is provided for locating, downloading, installing, and subsetting datasets for instructional or research applications.

**Systems Support Group** provides technical support for College of Arts and Letters computing systems. Services include managing computer classrooms, network administration, installing operating systems, software applications and hardware, virus recovery, and procurement advice.

**CAL Help Desk** serves as the initial point of entry and triage for College of Arts and Letters faculty and staff who need assistance with computer-related problems. Work order requests for hardware and software problems are entered into an on-line system that schedules technical services. The Help Desk also conducts an extensive individualized software coaching program for individual faculty and staff in their office.

**South Coastal Information Center (SCIC)** contracts with the California Office of Historic Preservation (OHP) to provide information management for all cultural resources in San Diego County. SCIC is a source of valuable research data for archaeologists, historians, and architects. Databases in historic resources and prehistoric and historic archaeology are maintained and constantly updated. Site data and building information are electronically stored, and over 3000 historic and archaeological reports are available. Geographic information system software provides accurate mapping of archaeological site data. Student interns master the basics of historic preservation laws and regulations, while learning effective cultural resource information management.

The SSRL is located in Professional Studies and Fine Arts 140.
The College of Business Administration and the School of Accountancy are accredited by AACSB—The International Association for Management Education—at both the undergraduate and graduate levels. Several College of Business Administration programs are registered with the Certified Financial Planner Board of Standards. The College of Business Administration Web site is at www.sdsu.edu/business.

Administration
Dean: Michael L. Hergert
Associate Dean for Academic Affairs: Robert W. Wilbur
Associate Dean and Director of Graduate Program: Kenneth E. Marino
Associate Dean, Community Economic Development: Harold K. Brown
Assistant Dean for Student Affairs and Director of the Business Advising Center: Patricia N. L. Dintrone
Assistant Dean for Student Relations: Jeffrey W. Glaizer
Director of Communications: Shelley Herron
Director of Development: Christine A. Audette
Director of Executive Management Programs: Candace M. Williams
Director of Resource Management: Debra Tomic
Director of Undergraduate Programs: Kathleen A. Krentler

Mission of the College of Business Administration
The mission of the College of Business Administration is to create a learning environment which fosters excellence in business education through innovative programs, applied learning, research, and collaboration with the community.

General Information
All undergraduate and graduate programs have enjoyed continuous accreditation since their points of first application. In addition to a commitment to maintain a high quality accredited program, the College has the following goals: (1) to create and maintain a highly motivated educational environment for both students and faculty; (2) to evaluate all College activities, including formal classroom and research, in terms of their contributions to effective learning; (3) recognizing the dynamic nature of business and the society it serves, to instill within students an awareness of the necessity to embark on life-long careers of learning; (4) to prepare students for entry-level positions, which will provide advancement opportunities in their chosen careers; (5) to maintain an active, positive working relationship with the regional business community; (6) to offer graduate programs that prepare students for general management positions; and (7) to provide both degree and nondegree midcareer educational opportunities.

Curricula Offered
Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Business Administration.

Master’s Degrees
Accountancy (M.S.), Business Administration (M.S.), Business Administration (M.B.A.), Latin American Studies (M.B.A./M.A.; jointly with the College of Arts and Letters).

Bachelor’s Degrees
Accounting (B.S.), Finance (B.S.), Financial Services (B.S.), Hospitality and Tourism Management (B.S.; jointly with the College of Professional Studies and Fine Arts), Information Systems (B.S.), International Business (B.A.; jointly with the College of Arts and Letters), Management (B.S.), Marketing (B.S.), Real Estate (B.S.).

Minors
Accounting, Business Administration, Finance, Information Systems, Management, Marketing, Real Estate, Small Business Management (available at Imperial Valley Campus only).

Certificate Programs
Accounting, Business Administration (available at Imperial Valley Campus only), Personal Financial Planning.

Credential Programs
Teaching major in each business field for the single subject teaching credential.

Research Centers and Institutes
Center for Community Economic Development (CCED)
Harold K. Brown, Associate Dean and Director

Community economic development (CED) is an innovative and practical approach to helping communities and neighborhoods prosper through the use of business, economic, and leadership skills. CED is a systematic and planned intervention that is intended to promote economic self-reliance for communities and their residents.

The Center for Community Economic Development (CCED) was established in 2000 and culminated the offering of a certificate program in community economic development that began in 1995. The CED program is one of a few in the United States that offers a comprehensive and practical curriculum in community economic development.

The Center offers a non credit certificate program in community economic development which consists of eight business courses: Introduction to CED, Accounting, Consensus Community Organizing, Financing CED, Legal Structures for CED, Marketing Strategies, Organizational Management, and Small Business Development; a series of class related seminars; and a community project. Classes are held on alternate Saturdays from 10 a.m. to 4 p.m. The Center also offers consulting and technical assistance to educational institutions, businesses, local government, and community and civic organizations, in addition to a variety of seminars and workshops on topics related to community development and to community economic development.

The mission of the certificate program is to produce technically competent and community minded economic development professionals, and to produce graduates committed to the principle that residents of neighborhoods and communities should play a major role in the development of their areas.
Corporate Governance Institute (CGI)
Mark C. Butler and Craig P. Dunn, Co-Directors
The Corporate Governance Institute (CGI) is an education and research center dedicated to the study and application of corporate governance principles. Founded in 1998 as a joint venture between the College of Business Administration (CBA) and the Corporate Directors Forum, the mission of the CGI is to enhance the skills of organizational directors and senior executives in the private, public, and not-for-profit sectors through creating and delivering initiatives related to a) director and executive development, b) research, and c) curriculum innovation. CGI programs focus on identifying “best practices” in all aspects of corporate governance. All CGI initiatives are guided by the principle that corporate leaders hold a primary duty to insure the financial viability of the organizations they manage, while at the same time taking adequate account of the emerging reality that all institutions, including corporations, are imbedded within communities which justifiably deserve their attention.

The CGI conference room is located in Student Services 3375-A. CGI staff can be reached by telephone at (619) 594-0823, or by e-mail at corporate.governance@sdsu.edu. The CGI Web site is at www.sdsu.edu/corporate.governance.

Entrepreneurial Management Center (EMC)
Sanford B. Ehrlich, Executive Director
Richard D. Brooks, Director of Community Relations
Alex F. DeNoble, Director of Academic Programs
The Entrepreneurial Management Center (EMC) serves the emerging growth sector of the regional business community. The growth, development and success of new business ventures is essential to the future of the San Diego region. The mission of the EMC is to assist this sector of the economy through educational programs focused on the application of the underlying principles and perspectives of entrepreneurship offered to students, organizations, and individuals.

The range of entrepreneurial programs offered includes: (1) support for the M.S. and M.B.A. programs specialization in entrepreneurship; (2) individual knowledge and skill development; and (3) organizational consulting and development. The entrepreneurial topics presented include the outcomes of the entrepreneurial process: the creation of wealth, new enterprises, innovation, organizational change, increased firm value, and organizational growth. The EMC focuses program development on both the entrepreneur and the entrepreneurial process which results in a variety of outcomes essential to economic development.

The EMC sponsors an annual international student business plan competition that offers students with an opportunity to present their business ideas to a distinguished panel of judges. The competition involves students from colleges around the world. The EMC is located in Gateway 1502, (619) 594-2781, FAX (619) 594-8879.

Center for Hospitality and Tourism Management
Mark C. Butler and Gene G. Lamke, Co-Directors
The Center for Hospitality and Tourism Management represents a joint venture equally supported by the Colleges of Business Administration and Professional Studies and Fine Arts. The Center is an education and research center dedicated to the study and application of business and professional principles in the broad field of hospitality and tourism. The mission of the Center is to enhance the skills and knowledge of professionals and students in the field of hospitality and tourism management through the creation and delivery of initiatives in executive development, research, and curriculum innovation.

Programs associated with the Center focus on identifying “best practices” in all aspects of hospitality and tourism such as hotel operations, restaurant operations, global tourism, and attractions, events, and convention management. The Center’s mission is pursued in multiple venues, including private, public, and not-for-profit agencies. Our vision is to become the leading center for hospitality and tourism management education in Southern California and a prominent national and international resource for questions related to education in hospitality and tourism. The Center actively seeks to support SDSU, the College of Business Administration, the College of Professional Studies and Fine Arts, and members of the local and national community in matters related to hospitality and tourism.

Center for International Business Education and Research (CIBER)
Michael L. Hergert and Paul J. Strand, Executive Co-Directors
Steven J. Loughrin-Sacco and Kenneth E. Marino, Co-Directors
David P. Earwicker, Managing Director; Tamara Dunn, Asst. Director
The Center for International Business Education and Research (CIBER), one of 27 such centers of excellence in the United States, was established in 1989 under the auspices of a grant from the U.S. Department of Education and is administered by the Colleges of Arts and Letters and Business Administration.

CIBER promotes: (1) interdisciplinary programs which incorporate foreign language and international studies training into business, finance, management, communications systems, and other professional curricula; (2) interdisciplinary programs which provide business, finance, management, communications systems, and other professional training for foreign language and international studies faculty and advanced degree candidates; (3) evening or summer programs, such as intensive language programs, available to members of the business community and other professionals, which are designed to develop or enhance their international skills, awareness, and expertise; (4) collaborative programs, activities, or research involving other institutions of higher education, local educational agencies, professional associations, businesses, firms or combinations thereof, to promote the development of international skills, awareness, and expertise among current and prospective members of the business community and other professionals; (5) research designed to strengthen and improve the international aspects of business and professional education and to promote integrated curricula; and (6) research designed to promote the international competitiveness of American businesses and firms, including those not currently active in international trade.

CIBER is located in Business Administration 428; (619) 594-3075; FAX (619) 594-7738; ciber@mail.sdsu.edu; www.sdsu.edu/ciber.

International Technology and Trade Network (ITTN)
The International Technology and Trade Network (ITTN), an institute of San Diego State University’s Center for International Business Education and Research (CIBER), is a collaborative offering of the College of Business Administration and the College of Arts and Letters. The objective of the ITTN is to promote methods for creating a stable economic environment for transnational business, trade, and research. The Institute will seek ways to use business as a catalyst for regional peace and cross-border economic development. This effort will focus on networking together business assistance organizations, academic institutions, and research centers in regions of conflict and emerging economies. We will establish a virtual business assistance network that will take advantage of the latest Internet, information, and telecommunications technologies to provide business-to-business and organizational links. We will use these technologies to share information as well as provide educational, training and distance learning opportunities to participating members of the network. For more information, contact David Earwicker with the SDSU CIBER at (619) 594-6023 or david.earwicker@sdsu.edu.

Real Estate and Land Use Institute (RELUI)
Established in 1983, the Real Estate and Land Use Institute (RELUI) is the first systemwide research-oriented institute of its kind in the 23-campus California State University system. The San Diego regional office of RELUI is located in the College of Business Administration.
RELUI’s mission is to promote education and research in real estate and land use. In support of this mission, RELUI seeks to (1) support, coordinate, and manage systemwide and intercampus research activities; (2) obtain funding sources for education and research activities; (3) promote the general well-being of undergraduate and graduate study within the CSU system; and (4) maintain liaison with government agencies, private industry, and associated organizations with interest in public policy.

RELUI maintains a research and reference center in the College of Business Administration where specialized real estate and land use related materials are available for use by students and faculty. RELUI also sponsors an internship program for placement of qualified students with local firms to provide a combined working and learning experience. Additional benefits accrue to interns in the form of academic credits and stipends. For more information, call (619) 594-2301. E-mail: relui@mail.sdsu.edu

Strategic Technologies and Research (STAR) Center for Electronic Business
Annette Easton and George Easton, Co-Directors

The Internet is reshaping business and the future of business is electronic business (e-Business). The Strategic Technologies and Research (STAR) Center for Electronic Business is dedicated to exploring the strategies, technologies, and business models associated with conducting business electronically.

The interdisciplinary STAR Center engages in activities that focus on information technologies, management strategies, markets and operational issues of electronic business. The goals of the Center include creation and implementation of educational programs in electronic business; creation of research and professional development opportunities with an electronic business focus; creation of opportunities for professional and community service that focus on electronic business; creation of effective development strategies to ensure long term viability; and creation of effective methods of information sharing and outreach. The STAR Center provides the framework for the College of Business Administration to manage the curriculum, grow the research programs, and harvest opportunities provided by this new discipline.

The STAR Center is located in the College of Business Administration’s electronic boardroom (SS-2601). STAR Center staff can be reached at (619) 594-2759, via e-mail at starcenter@sdsu.edu or at starcenter.sdsu.edu.
General Information

The mission of the College of Education is broad and multidimensional. The College is concerned primarily with preparing teachers, administrators, resource specialists, and support personnel for various educational settings; providing continuing professional educational opportunities for education personnel; continually assessing the quality and appropriateness of all education activities; contributing to the knowledge base of both educational theory and practice through research and scholarship; providing appropriate public service/technical assistance to individuals and agencies locally, regionally, nationally, and internationally; and contributing to the general intellectual climate of the University community. The College has had an ongoing commitment to programs serving culturally diverse communities and bilingual individuals.

The College of Education is organized into six academic units including the School of Teacher Education and the following departments: Administration, Rehabilitation and Postsecondary Education; Counseling and School Psychology; Educational Technology; Policy Studies in Language and Cross-Cultural Education; and Special Education. The Master of Arts degree in Education is offered in ten academic areas of education. The Master of Science degree is offered in two additional academic areas. A doctoral program in education is offered jointly with Claremont Graduate University. This unique program features a multicultural education emphasis. Approved teaching credential programs are offered for the multiple subject credential and the single subject credential, as well as for a number of specialist and service credentials.

Curricula Offered

Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Education.

Specialist Credentials

Reading/Language Arts
Resource Specialist Certificate of Competence
Special Education:
  - Education Specialist for the Deaf and Hard of Hearing, Level I (Department of Communicative Disorders)
  - Early Childhood Special Education, Levels I and II
  - Mild/Moderate Disabilities, Levels I and II
  - Moderate/Severe Disabilities, Levels I and II
  - Moderate/Severe Disabilities, Internship Credential

Service Credentials

Administrative Services
Clinical-Rehabilitative Services (Department of Communicative Disorders)
Pupil Personnel Services:
  - Child Welfare and Attendance (School of Social Work)
  - School Counseling (Department of Counseling and School Psychology)
  - School Psychology (Department of Counseling and School Psychology)
  - School Psychology, Internship Credential (Department of Counseling and School Psychology)
  - School Social Work (School of Social Work)
  - School Nurse Services (School of Nursing)
Certified Programs

Bilingual (Spanish) Special Education, Cross-Cultural Language and Academic Development (CLAD), Mexico B/CLAD, Developing Gifted Potential, Early Childhood Special Education, Instructional Software Design, Instructional Technology, Rehabilitation Administration, Resource Specialist, Supported Employment and Transition Specialist, Teaching the Emotionally Disturbed/Behaviorally Disordered, Workforce Education and Lifelong Learning.

Research Centers and Institutes

Center for Counseling and School Psychology
Valerie Cook-Morales, Director

The Center for Counseling and School Psychology is a unit within the College of Education designed to provide support for activities such as (1) securing and administering grants and other support for research and development in counseling and school psychology, (2) encouraging cooperation with faculty members from other relevant disciplines such as anthropology, economics, psychology, social work, sociology, and Counseling and Psychological Services, and (3) conducting programs or rendering services designed to promote counseling and school psychology at San Diego State University. The Center is administered by the Department of Counseling and School Psychology; fiscal matters are coordinated through the San Diego State University Foundation.

Center for Educational Leadership, Innovation, and Policy
Ann I. Morey, Director

The Center for Educational Leadership, Innovation, and Policy examines issues that affect policies and practices of educational institutions, including their implications for leadership, planning, innovation, and organizational development. The Center engages in research, development, and dissemination activities that focus on a few critical educational issues. As a result of its policy analysis and research, the center develops plans and programs which enhance organizational capacity to respond to the challenges and opportunities which lead to the improvement of practice.

Interwork Institute
Fred R. McFarlane and Ian R. Pumpian, Co-Directors

The Institute's efforts focus on promoting the integration of all individuals, including those with disabilities, into all aspects of school, work, family, and community life. The Institute conducts research, training, and education using a variety of strategies including distance learning technologies. Educational and research efforts involve organizations and individuals in the states, the Pacific Basin, Asia, and Europe. Faculty and staff associated with the Institute are uniquely prepared to promote the meaningful participation and productivity of each member of the community. The Institute's mission is supported through local, state, federal, and international organizations. The Institute's facilities are located at 5850 Hardy Avenue, Suite 112.

Center for Educational Leadership, Innovation, and Performance Technologies
Brockenbrough S. Allen, Director

The Center's faculty and staff conducts research on the design and use of technology-based systems for enhancing human learning and performance, monitors trends in advanced applications of educational technology and allied disciplines, and evaluates the effectiveness and usability of educational products and services. The Center consults with corporations, agencies, and SDSU affiliates on the design of products for education and training, arranges for on-site and electronic delivery of professional development courses and seminars by the nationally recognized faculty of SDSU Department of Educational Technology, and coordinates fieldwork and internship opportunities for advanced graduate students. The Center also offers the services and capabilities of the College of Education's Educational Design Research Laboratory to clients who are interested in rapid prototyping and formative evaluation of educational products and services. A principle focus of the EDRL is the use of high technology video and computer systems to capture and analyze data about the usability and learnability of prototype products.

Center for Social Equity Technical Assistance
Ruben W. Espinosa and Alberto M. Ochoa, Co-Directors

The Center conducts training and research on issues of social equity and bilingual/multicultural policy, and provides technical assistance to districts throughout southern California. The Center conducts research in public equity and school finance. The Center houses projects funded by federal, state, and private sources. Current projects include the Parent Institute, and the Social Equity project. The Center functions within the Department of Policy Studies in Language and Cross-Cultural Education at San Diego State University.

Center for the Study of International Education
Donn C. Ritchie, Director

The Center for the Study of International Education is a unit of the College of Education. It promotes faculty and graduate student research, explores study abroad and exchange possibilities for faculty and students, and disseminates information about international education to interested persons in the San Diego area. It also seeks to complement regular course offerings through sponsorship of lectures, conferences, and the development of bibliographic resources. The Center seeks to foster not only a network of interested faculty within the College of Education, but also encourages faculty involvement from other colleges on campus as well as from other organizations and universities in the San Diego area.
College of Engineering

Administration
Dean: Pieter A. Frick
Associate Dean and Director of Doctoral Program: Gordon K. F. Lee
Assistant Dean for Student Affairs: Greg W. Bailey
Director of Development: Pamela Becker

General Information
The College of Engineering was established as a distinct unit of the University in 1958, although first courses named “Engineering” appeared in the 1922-23 catalog. The 1942-43 catalog was the first to announce the establishment of a “General Engineering” program leading to the Bachelor of Arts degree. The College is now organized into the Departments of Aerospace Engineering and Engineering Mechanics, Civil and Environmental Engineering, Electrical and Computer Engineering, and Mechanical Engineering.

At the undergraduate level, the College of Engineering prescribes certain patterns of its courses, combined with those of other academic divisions of the University, leading to the Bachelor of Science degree in six specific major fields of engineering. At the graduate level, the College offers the Master of Science degree in four of these fields, a Master of Engineering degree in manufacturing and design, and a doctoral degree in Engineering Sciences/Applied Mechanics jointly with the University of California, San Diego.

Consistent with the role and mission of The California State University System, the faculty of the College of Engineering at San Diego State University believes its mission to consist of the following integrated components:

• To provide a high quality, practice based undergraduate engineering education, emphasizing a student learning model of instruction and a total quality design paradigm throughout the curriculum.
• To provide a high quality graduate level education with particular research emphasis on problem areas that confront Southern California and to contribute to the economic development of the region.
• To exploit the teacher-scholar model of our faculty in order to provide a platform for the dissemination of topical technical information and to act as a brain trust supporting local area industry.
• To provide life long learning opportunities for the practicing professional engineering community in Southern California.

Because the engineer’s work is predominantly intellectual and varied, and not of a routine mental or physical character, this program places emphasis on the mastery of a strong core of subject matter in the physical sciences, mathematics, and the engineering sciences of broad applicability. Woven throughout the pattern is a continuing study of the social facets of our civilization, because engineering graduates must expect to find their best expression as leaders, conscious of the social and economic implications of their decisions.

Although the profession of engineering presents in practice a variety of specialties, undergraduate students initially focus their attention on a pattern of coursework emphasizing engineering fundamentals. Students then are able to apply this knowledge of fundamentals in developing special expertise in their areas of specific interest.

Accreditation and Academic Association
The College of Engineering is a member of the American Society for Engineering Education, and all undergraduate engineering programs are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.

Registration of Engineers
Registration of engineers is required for many fields of practice. The engineering graduate cannot acquire registration as an engineer immediately upon graduation; however, early application for the required state examination is advisable. Graduation from an accredited program such as San Diego State’s facilitates registration as a professional engineer.

Curricula Offered
Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Engineering.

Doctoral Program
Engineering Sciences/Applied Mechanics

Master’s Degrees
Master of Science (M.S.)
Aerospace Engineering, Civil/Environmental Engineering, Electrical Engineering, Mechanical Engineering

Master of Engineering (M.Engr.)
Manufacturing and Design

Bachelor’s Degrees
Aerospace Engineering (B.S.), Civil Engineering (B.S.), Computer Engineering (B.S.), Electrical Engineering (B.S.), Environmental Engineering (B.S.), Mechanical Engineering (B.S.).

Minor
Engineering

Certificate Program
Rehabilitation Technology

Research Centers and Institutes
California Institute of Transportation Safety

Sheila Sarkar, Director

The California Institute of Transportation Safety (CITS) was created to conduct research, administer programs, and teach courses in transportation safety. Several renowned professionals in engineering, public health, and psychology are affiliated with the Institute, and GIS is used for transportation safety work. CITS offers courses for traffic engineers as well as opportunity for students in transportation engineering to work as interns. Current programs include California Network of Employers for Traffic Safety, Southern California Local Traffic Safety Program, and Aggressive Driving and Road Rage behavior modification program.

Communications Systems and Signal Processing Institute
Madhu Gupta, Director

This Institute supports educational and research activities in communication systems with an emphasis on radio frequency and digital signal processing aspects. Faculty, students, and industrial partners participate in developing cores of expertise in specific related areas.
meaningful to the technical community such as R-F circuitry, modems, receivers, transmitters, synthesizers, A-D and D-A converters, digital signal processing algorithms and hardware, antennae, and networks. Specific activities include research and design projects; development of products, software, algorithms, and techniques; and training programs including short courses.

Concrete Research Institute

M. Ziad Bayasi, Director

The Concrete Research Institute supports educational needs in civil engineering curriculum and concrete research performed for sponsors from industry and governments. The Institute encompasses a wide range of topics. The main emphasis is currently on concrete materials and structures. Civil and environmental engineering faculty members are involved with finding optimum design solutions in bridges, seismic resistant structures, residential buildings, and retaining walls.

Energy Engineering Institute

Asfaw Beyene, Director

The Energy Engineering Institute has supported educational and research activities in energy related areas since 1985. Undergraduate and graduate students and faculty from the mechanical engineering and electrical and computer engineering departments are involved in obtaining solutions to problems presented by industrial sponsors. Institute research projects cover a wide range of areas from optimizing energy resources to international energy studies.

Facility for Applied Manufacturing Enterprise (FAME)

James S. Burns, Director

The centerpiece of San Diego State University's manufacturing endeavors is the Facility for Applied Manufacturing Enterprise. FAME was planned as an interdisciplinary center-of-excellence dedicated to science and technology in the area of manufacturing. Its mission is to provide students with a complete and emersive product development environment in which to augment their job experiences with next-century tools and strategies. This facility evolved from the Computer Integrated Manufacturing (CIM) center founded in 1988. Since then, it has grown considerably in physical size and scope. FAME resources include 3000 square feet of dedicated floor space in the Engineering and Engineering Laboratory Buildings and another 2000 square feet for student projects. Manufacturing-related equipment includes plastic injection, compression, extrusion, pultrusion, resin transfer molding and vacuum forming equipment, a composite repair station, ultrasonic scanning equipment, platen presses, mechanical testing machines, ovens, CNC lathe and mill, automated parts bin, and four multi-axis robots. A 3” diameter by 15” long, high-pressure and temperature autoclave facility is currently under construction.
College of Health and Human Services

Administration
Dean: Dolores A. Wozniak
Associate Dean: Olita D. Harris
Assistant Dean for Student Affairs: Selma E. Reed
Director of Development: Kathy Drucquer Duff

General Information
The College of Health and Human Services offers professional education in the health and human service disciplines. The College consists of the following group of professional schools, and departments: Department of Communicative Disorders, School of Nursing, School of Social Work, the Gerontology program, and the Graduate School of Public Health.

The College of Health and Human Services faculty, through advising, teaching, and supervising, offers students a balanced education of academic study, field placement, clinical experiences, and research opportunities. Thus, faculty and students share an understanding of the relationship between California's diverse populations and life styles. The common goal of each of the College’s professional programs is to assist students in developing competence in professional practice and research methods that develop their expertise to gather information, plan, and evaluate professional actions. This commitment to students produces alumni who will continue to work effectively with our professional schools and departments to preserve and promote the well-being of individuals, groups, and communities.

Bachelor of Arts, Bachelor of Science, Master of Science, Master of Public Health, Master of Social Work, and Ph.D. in Language and Communicative Disorders and Public Health degrees are conferred. In addition, students may receive national accreditation, state credential or state licensure, and national or state professional certification depending upon the program and the legal requirements and obligations for practicing the profession. All programs also provide continuing education for professionals already in the field.

Curricula Offered
Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Health and Human Services.

Doctoral Programs
Language and Communicative Disorders
Public Health

Master's Degrees
Communicative Disorders (M.A.), Nursing (M.S.), Public Health (M.S., M.P.H., M.P.H./M.S.W), Social Work (M.S.W., M.S.W./M.P.H., M.S.W./J.D.; jointly with California Western School of Law).

Bachelor's Degrees
Health Science (B.S.), Nursing (B.S.), Social Work (B.A.), Communicative Disorders (B.A.), Gerontology (B.A.).

Minors
Communicative Disorders, Gerontology, Health Science, Social Work.

Certificate Programs
Early Intervention, Gerontology, Human Services Paraprofessional, Preventive Medicine Residency, Professional Services Multicultural/Bicultural.

Credential Programs
Child Welfare and Attendance Services, Clinical-Rehabilitative Services, Pupil Personnel Services (School Social Work), School Nurse Services, and Special Education Specialist for the Deaf and Hard of Hearing.

Research Centers and Institutes
University Center on Aging
E. Percil Stanford, Director
The University Center on Aging offers the B.A. in Gerontology. The Center is involved with such activities as supporting interdisciplinary educational and curriculum efforts; undertaking research, demonstration and evaluation activities; providing technical assistance and agency consultation for the community; coordinating workshops and seminars; and providing opportunities for student involvement in aging activities. The Center is also responsible for the coordination of a certificate program in conjunction with the College of Extended Studies and administers an undergraduate minor in Gerontology. The Center serves as a central point for the development and dissemination of data related to diversity and aging and long-term care and is administratively responsible for the National Resource Center on Aging and Injury.

Center for Behavioral and Community Health Studies
John P. Elder, Director
The Center for Behavioral and Community Health Studies is housed at 9245 Skypark Court, Suite 221, San Diego, CA 92113. The Center, formerly known as The Center for Behavioral Medicine, was established in 1982 for the purpose of promoting research and academic programs relevant to the applications of behavioral science principles to medicine and health care. Administratively, the Center has three co-directors who report to the deans of the College of Sciences and the College of Health and Human Services. The interdisciplinary center encourages participation from all of the University colleges and departments. Currently, active investigators come from the Departments of Physical Education, Psychology, and the Graduate School of Public Health. Current Center projects involve collaboration between scientists and physicians from a variety of specialties as well as a variety of other institutions, including Scripps Clinic and Research Foundation, the University of California, San Diego Medical Center, and the Children's Hospital and Health Center. Funding for the Center comes from federal and private foundation grants including several National Institutes of Health agencies. Current sponsors include the American Heart Association, Department of Defense, National Cancer Institute, National Heart, Lung and Blood Institute, the State of California Department of Health Services, and the University of California Tobacco Related Disease Research Program.

The Center provides important research experience to students who intend to pursue related careers and offers opportunities for project staff and graduate students to participate in community interventions.
Communications Clinic for Speech, Language, and Hearing Disorders
Kathee Christensen, Charlotte Lopes, Diane Williams, Directors

Administered by the Department of Communicative Disorders, the Clinic provides assessment and remediation services for SDSU students, staff, faculty, and the community. Comprehensive diagnostic and treatment programs are available for children and adults in the areas of delayed speech/language development, voice, fluency or articulation disorders, aphasia, diet palate, cerebral palsy, loss of communication function, hearing loss and deafness. Also provided are services for bilingual/multicultural clients and speakers of English as a second language. The Assistive Device Assessment Program provides language, cognitive, and technical assessments related to augmentative/assistive devices and systems for individuals who have communication disabilities. Audiologic services provided by the Clinic include hearing assessment, hearing aid evaluation and selection, assistive listening device evaluations, earmolds, ear protectors, hearing conservation and speech reading/aural rehabilitation therapy. In addition, the Clinic offers opportunities for research, consultation, supervised field internships, continuing education, and other service activities. The clinic is located at 6330 Alvarado Court, Suite 100, San Diego, CA 92120-4917, (619) 594-6477.

Consensus Organizing Center
Michael Eichler, Coordinator

The Consensus Organizing Center administered through the School of Social Work is a community laboratory for the teaching and practice of consensus organizing in San Diego. As an organizing method, consensus organizing, rather than relying on confrontational techniques, draws upon innovative solutions to social problems. This method works community by community and neighborhood by neighborhood to develop and implement comprehensive strategies for bringing people together and providing them with the tools to achieve tangible reforms. Working in partnership with local organizations, the method explores the interests and concerns of people and institutions, and sophisticated networks of relationships, which foster civic engagement and social change.

Heart Institute
Christopher C. Glembotski, Director

The Heart Institute is sponsored by the College of Health and Human Services and the College of Sciences. The goals of the Institute are to enhance basic and clinical research in the cardiovascular sciences, to foster undergraduate and graduate education in cardiovascular physiology and medicine, and to provide a community outreach service focused at heightening the awareness of cardiovascular disease and its prevention in the San Diego region surrounding SDSU. The Institute is comprised of faculty members representing four different colleges at SDSU, as well as physicians and scientists from local hospitals and clinical research centers. Importantly, the Institute also sponsors SDSU undergraduate and graduate student memberships, which strengthens the involvement of students in all aspects of Heart Institute activities. The unusual blend of talent and expertise that comprise the Institute membership results in an interdisciplinary approach to cardiovascular research, education, and community outreach that is unique to the Heart Institute. The Institute sponsors special seminars, on- and off campus, which cover a wide range of topics in the field, and provides funding for the support of graduate students who are involved in cardiovascular research at SDSU. Areas of focus for the Institute include studies of the molecular basis of cardiovascular disease, establishment of unique approaches for the early detection and prevention of cardiovascular disease, and the promotion of cardiovascular health in San Diego area K-12 schools. An important feature of these efforts that distinguishes the Heart Institute is the central role that SDSU students play in each of these areas. Funding for Heart Institute activities comes from a variety of sources, including the National Institutes of Health, the American Heart Association, the Muscular Dystrophy Association, the Rees-Stealy Research Foundation, and several San Diego-based biotechnology companies. For more information contact the Heart Institute office at (619) 594-5504.

International Institute for Health and Human Services Development
Dolores A. Wozniak, Director

Administered through the Office of the Dean of the College of Health and Human Services, the purpose of this International Institute is to respond to the urgent global need for human resources, particularly in the fields of health and human services. Specific activities include the development of education and training programs; promoting relevant research and model demonstration programs and projects; encouraging technical cooperation with developing countries; promoting exchange of information and experience at the international level; and engaging in the convening of conferences. The Institute also provides a comprehensive, centralized source of data and information on human resource development, linking it to internationally recognized networks, and serving as a repository and a clearinghouse for information.

Center for Injury Prevention and Research
Dolores A. Wozniak, Director

Administered through the College of Health and Human Services, the purpose of the Center is to prevent intentional and unintentional injury among all segments of the community and in all age ranges, from birth to old age. The Center accomplishes this purpose by: 1) Coordinating a multidisciplinary group of professionals dedicated to injury control and prevention including traffic safety; 2) Assisting in the coordination of existing local and state resources for injury intervention and prevention; 3) Conducting ongoing injury data surveillance; 4) Supporting appropriate injury related intervention and prevention strategies aimed at individual and community change; 5) Stimulating injury intervention and prevention based research and program development; 6) Disseminating the results of injury intervention and prevention research activity generated by the Center; and 7) Providing technical assistance, training, and continuing education to appropriate target audiences in California and outside of California, as requested. Specifically, the Center will identify injury problems and gain extensive community information which will be used to develop strategic plans to control and prevent injuries. In addition, the Center will define the changes required to reach desired solutions. A systems approach will be used to address these issues as such an approach also recognizes the comprehensive nature of injury problems and the need to develop equally comprehensive solution sets.

Institute for Nursing Research
Martha J. Shively, Director

Administered through the School of Nursing, the purpose of the Institute is to promote collaboration in the conduct, dissemination, and utilization of nursing research which will contribute to the quality of patient care and service. The Institute provides a forum for research interests and activities, and also fosters collaborative research efforts among Institute nurse clinicians and SDSU Nursing faculty. This includes identifying research priorities for individual and multi-site research projects, and providing consultation for design, method, analysis, computer services, instrumentation, and manuscript preparation. The Institute also facilitates the dissemination of research findings. Web site for the Institute is at www-rohan.sdsu.edu/dept/chhs/nursing/inr.html.
Institute for Public Health
Kenneth J. Bart, Director

Administered through the Graduate School of Public Health, the mission of the Institute is to serve as a vehicle for the development and support of functional linkages between the SDSU Graduate School of Public Health, local public health agencies, and private organizations in the San Diego community and neighboring areas, including Mexico. These linkages expand the availability of University-based public health expertise, research and information in the areas of biostatistics, environmental health, epidemiology, health services administration, health promotion, industrial hygiene, maternal and child health, occupational health, and toxicology. Specific activities include collaborative research, technical assistance, program evaluation, consultation, continuing education and professional development, student field placement, faculty/practitioner exchange, information dissemination, and various service activities. The Institute serves to bridge public health academics and practice by facilitating meaningful partnerships between faculty, students, and local practitioners. The Institute offices are located at 6505 Alvarado Road, Suite 115, (619) 594-2632.

Social Policy Institute
Terry Carrillo, Coordinator

Administered through the School of Social Work, the mission of this Institute is to assist local and state, public and private sector leaders in the development of policies and programs that better meet the needs of the people of San Diego County and the State of California. This is fulfilled by examining health and human service issues and problems through conducting research and evaluations; reviewing existing studies and reports at the local, state, and national levels; and preparing recommendations for dissemination to elected officials, special commissions, task forces, business executives, community leaders, and administrators of major institutions. Results, findings, and information are communicated through published professional monographs and journal articles, professional meetings and conferences, op-ed newspaper essays, testimony to political bodies, such as the County Board of Supervisors and State Legislators, a computer web site, news conferences, and interviews with electronic media representatives. Scholars from several departments within the University individually and in collaboration lend their expertise to the analysis of regional health and human services problems. Issues of focus include children, youth, and family concerns, aging and the elderly, mental health, health care delivery, welfare reform, family violence, immigration, community economic development, diversity and discrimination, and homelessness. The Web site for the Institute is www.sdsu-spi.org.

Center on Substance Abuse
Anita S. Harbert, Director
Annette R. Smith, Coordinator

Administered through the School of Social Work, the Center was established in 1985 with a primary mission of facilitating the development of knowledge and skills for the prevention and treatment of alcohol and other drug problems. Goals include developing and supporting projects in substance abuse research, curriculum, and community service. The Center serves as an administrative umbrella for several projects, including Student to Student, providing campus-wide substance abuse prevention, the SPAN certificate program in Human Services for persons recovering from chemical dependency and related problems, and the Central District Driving Under the Influence Program, providing education and counseling for court-ordered offenders in the central judicial district of San Diego County. Other projects have included the College Life Alcohol Prevention Project, providing awareness of issues related to family alcoholism, the Child Welfare Substance Abuse Training Project, the Neighborhood House Head Start Substance Abuse Training Project, and the production of a substance abuse training video for child welfare workers. In addition, the Center has been involved in the training of several hundred community professionals in substance abuse intervention, and participates in the San Diego Intercollegiate Consortium for Alcohol and Drug Abuse Prevention and on the professional development committee of the California Addiction Training and Resource Center at UCSD. The Center office is located at 9245 Sky Park Court, Suite 101, (619) 467-6828. The Student-to-Student office is located on-campus, (619) 594-5803. The DUIP and the SPAN program are also at Sky Park Court. DUIP (619) 467-6810. SPAN (619) 715-0860.
The College of Professional Studies and Fine Arts is at the forefront of meeting and integrating the needs of community, corporate, government and educational goals. The College is uniquely positioned to enhance the human enterprise. Composed of 11 departments and schools, the college is recognized for its excellent academic programs that create a bridge between university and community life by preparing students for professional careers in a wide spectrum of cultural, educational, social, economic, and technical fields.

Bachelor's degrees, and master's degrees in most disciplines, are awarded in art, design and art history, communication, child and family development, journalism, television, film and new media production, music and dance, physical education and foods and nutrition, public administration and urban studies, recreation, parks and tourism, and theatre arts. The College also houses three ROTC programs which lead to commissioned officer status upon graduation. The International Center for Communications, the Institute of Public and Urban Affairs, the Production Center for Documentary and Drama, the Institute for International Security and Conflict Resolution, and the Institute for Leisure Behavior are the research centers that offer the campus and San Diego communities unique instructional opportunities and research.

The College of Professional Studies and Fine Arts is at the forefront of meeting and integrating the needs of community, corporate, government and educational goals. The College is uniquely positioned because of its dedication to and appreciation of traditional and non-traditional forms of scholarship and research reflecting a demographically changing society through its curriculum, research and outreach activities. Interdisciplinary collaboration is the hallmark of the College's academic programs, research and creative activity that enrich the quality of life, provoke the status quo, enhance understanding of cultural diversity and are at the cutting edge of technology.

Curricula Offered
Refer to the courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Professional Studies and Fine Arts.

Master's Degrees
Art (M.A., M.F.A.), Child Development (M.S.), City Planning (M.C.P.), Communication (M.A.), Criminal Justice and Criminology (M.S.; jointly with the College of Arts and Letters), Exercise Physiology (M.S.), Music (M.A., M.M.), Nutritional Sciences (M.S.), Nutritional Science and Exercise Physiology (M.S./M.S.), Physical Education (M.A.), Public Administration (M.P.A.), Television, Film and New Media Production (M.A.), Theatre Arts (M.A., M.F.A.).

Bachelor's Degrees
Art (B.A.), Child Development (B.S.), Communication (B.A.), Criminal Justice Administration (B.S.), Dance (B.A.), Foods and Nutrition (B.S.); Hospitality and Tourism Management (B.S.; jointly with the College of Business Administration); International Security and Conflict Resolution (B.A.; jointly with the College of Arts and Letters and the College of Sciences), Journalism (B.A.), Kinesiology (B.S.), Music (B.A., B.M.), Public Administration (B.A.), Recreation Administration (B.S.), Television, Film and New Media Production (B.S.), Theatre Arts (B.A.), Urban Studies (B.A.).

Minors

Military Curricula
Aerospace Studies, Military Science, Naval Science

Certificate Program
Family Life Education

Research Centers and Institutes
Institute for Built Environment and Comparative Urban Research (BECUR)
Lawrence A. Herzog, Director
The main purpose of the Institute for Built Environment and Comparative Urban Research (BECUR) is to: (1) study the impact of culture on the design and shape of the urban built environment; and (2) understand how cities in different cultural settings are being transformed by global processes. BECUR provides a forum for research and dialogue among SDSU faculty and students on the cross-cultural nature of urban space and urban place. The Institute is administered by the College of Professional Studies and Fine Arts. Among its activities, the Institute promotes public lectures and conferences, research projects, and networking among urbanists, social science, planning, design and architectural scholars both in the region, as well as in other parts of the world. The Institute is located in Professional Studies and Fine Arts 177, (619) 594-6964.

Center for Hospitality and Tourism Management
Mark C. Butler and Gene G. Lamke, Co-Directors
The Center for Hospitality and Tourism Management represents a joint venture equally supported by the Colleges of Business Administration and Professional Studies and Fine Arts. The Center is an education and research center dedicated to the study and application of business and professional principles in the broad field of hospitality and tourism. The mission of the Center is to enhance the skills and knowledge of professionals and students in the field of hospitality and tourism management through the creation and delivery of initiatives in executive development, research, and curriculum innovation.

Programs associated with the Center focus on identifying “best practices” in all aspects of hospitality and tourism such as hotel operations, restaurant operations, global tourism, and attractions, events,
and convention management. The Center’s mission is pursued in multiple venues, including private, public, and not-for-profit agencies. Our vision is to become the leading center for hospitality and tourism management education in Southern California and a prominent national and international resource for questions related to education in hospitality and tourism. The Center actively seeks to support SDSU, the College of Business Administration, the College of Professional Studies and Fine Arts, and members of the local and national community in matters related to hospitality and tourism.

International Center for Communications
John M. Eger, Director
The International Center for Communications draws upon the resources of the University, the community and the communications industry to provide the nation’s first international focal point in the Pacific in which academic study, innovative research and practical experience among the private and public sectors are joined to help solve critical issues confronting the Pacific region. The Center serves two main purposes: 1) to initiate dialogues leading to new understanding among diverse cultural and community interests of the region; and 2) to link communications and community in the new relationships essential to fulfilling the promise of the Pacific world.

The goals of the International Center are to establish an institutional approach to learning, problem-solving and practical work focusing on the critical issues of communication and information; to create a new and dynamic partnership in San Diego between business and industry, government and academia, redefining and building a sense of community; and to develop a forum and agenda for research, discussion and collaboration with other organizations in the Pacific leading toward the establishment of a permanent “Pacific Dialogue on the Media.” In 1995 a Japan-U.S. Telecommunications Research Institute was founded within ICC to facilitate and foster improved understanding of new technologies affecting the Pacific Rim community.

The Institute will provide a forum for U.S. and Japan telecommunication industries – computer, communications, entertainment, broadcasting, cable and other information industries – to share common interest and concerns about trends in technology and public policy; and where possible, cooperate on developing an agenda leading to the creation of new communication infrastructures – particularly in the development of so-called “smart communities” – both in Japan and in the United States, and importantly throughout the Pacific.

In 1996, the International Center for Communications launched a separately-funded California Institute for SmartCommunities™ to continue the work it initiated in the early ’90s for Mayor Susan Golding’s “City of the Future” Commission, and other communities throughout the State.

Center for International Media and Communication Education
Donald R. Martin, Director
The Center for International Media and Communication Education is a joint effort of the School of Communication, College of Professional Studies and Fine Arts, and the KPBS stations. The Center was established to develop and provide international educational programs in communication as well as professional training for foreign educational institutions and media organizations.

Housed within the School of Communication at SDSU, in partnership with the KPBS stations, the Center utilizes the academic and professional expertise of the faculty and KPBS personnel to develop international educational and training programs. It develops international linkages between the School of Communication and similar academic programs at foreign universities, and establishes international exchange programs in communication for undergraduates and graduate students, faculty members, and media professionals. It administers a variety of service programs that provide consulting and training for international media organizations.

Institute for International Security and Conflict Resolution
Alan R. Swedler and Dipak Gupta, Co-Directors
The SDSU Institute for International Security and Conflict Resolution (IISCOR) encourages and facilitates teaching and research in the multidisciplinary area of international security and conflict resolution. Specifically, topics such as superpower confrontation, nuclear arms, international conflict, sociopolitical violence, and global environmental issues as they relate to security are covered.

The Institute is a joint effort of the Colleges of Professional Studies and Fine Arts, Arts and Letters, and Sciences. IISCOR is administered by two co-directors, advised by an executive committee consisting of faculty members representing the different disciplines that provide input into the study of international security and conflict resolution.

The Institute promotes teaching and research by organizing public forums, faculty and student seminars, developing appropriate curricula for undergraduate and graduate instruction and facilitating research and scholarly activities. SDSU offers, through IISCOR, a multidisciplinary Bachelor of Arts degree in International Security and Conflict Resolution. Students and faculty can obtain more information by calling the IISCOR office at (619) 594-6240.

Institute for Leisure Behavior
Gene G. Lamke, Director
The Institute for Leisure Behavior is the research and community service unit within the Department of Recreation, Parks and Tourism at San Diego State University. It is primarily concerned with conducting leisure related research, providing professional development, disseminating specialized publications, and organizing conferences, seminars, lectures and workshops.

The Institute is governed by a Board of Directors which, in turn, is advised by a group of thirteen individuals from park and recreation and related fields. The Advisory Council has been instrumental in providing valuable information to the Board concerning the needs and direction of the leisure services field.

The Institute administers a variety of service programs within San Diego County, Camp Able at Coronado, an aquatic-based camp for disabled children and adults, operates ten weeks during the summer at Silver Strand State Beach. The Spring Valley Park and Recreation District within the San Miguel County service area (San Diego County) contracts for recreation services from the Institute for all its residents. Additionally, the Institute conducts research for local tourism, park and recreation entities as well as the California Department of Parks and Recreation and the United States Forest Service.

The Institute publishes monographs focusing on important issues relative to leisure services delivery. These are available to the public, as well as park and recreation practitioners. Research projects under the direction of the Institute focus on local, state, national, and international problems related to leisure and park/recreation/tourism services.

Production Center for Documentary and Drama
Jack Offield, Director
The Production Center for Documentary and Drama sponsors and creates professional films and television programs and series and symposia with high artistic and technical standards, documentary accuracy, and creative originality. Within the School of Communication, Production Center projects are integral to the training of senior and graduate students in the telecommunications and film disciplines. Students work in tandem with industry professionals to gain practical experience in location and studio production. Located in Communication 124, 125, 126, the Production Center mentors graduate students in the creation of projects that are an expression of their artistic and technical growth. The Center serves local, national and international non-profit entities, such as museums, libraries, performing and visual arts groups, public service, research, philanthropic and government agencies in the development of audio-visual programs, and assists other SDSU departments in documenting important
projects. Production Center projects are distributed world-wide, and funded from grants and contracts with industry, government, philanthropy, education and business.

Institute of Public and Urban Affairs
Louis M. Rea, Director
The Institute of Public and Urban Affairs is located in the School of Public Administration and Urban Studies. The Institute was established to conduct research in community and governmental affairs and to sponsor conferences, colloquia and symposia related to issues in public administration and affairs including urban planning, management and criminal justice administration. The Institute also publishes occasional working papers and research monographs. Selected students and faculty of San Diego State University staff the Institute. An integral part of the Institute is the Public Administration Center which contains a specialized and growing collection of research materials emphasizing issues in public affairs particular to San Diego and California.

Dr. Sanford I. Berman Institute for Effective Communication and General Semantics
The Dr. Sanford I. Berman Institute for Effective Communication and General Semantics within the School of Communication is dedicated to the study of language and behavior in social context. Contemporary trends no longer seem to answer to the call of the individual’s command of language in everyday experience. It is therefore imperative that the connections between communication and the practical realms of polity, family, and society be re-established. To do so requires scholarly attention to and an understanding of the relations among our symbolic activities, society, and the mind. The Dr. Sanford I. Berman Institute serves in this vanguard role. The Institute measures its stature by the success of those it trains to lead a more enriching existence through communication.

Center for the Visual and Performing Arts
The Center for the Visual and Performing Arts serves as a focal point for the arts on campus and in the San Diego region. The Center’s primary activities involve enhancing, coordinating, and publicizing the College’s visual and performing arts programs, forming alliances and partnerships with San Diego arts agencies, and initiating new programs to expand the impact of the arts on the campus and in the community.

The Center promotes the integration of the arts on campus through curriculum initiatives by designing collaborative courses that integrate the arts into other discipline areas. The Center enhances art on campus through the “Masters of the Living Arts Program,” which brings internationally known artists to perform and exhibit, to conduct master classes and workshops, and to present lectures for students, faculty, and the San Diego arts community. The Center promotes the arts throughout the community by initiating outreach programs from the campus in the visual and performing arts. The Center also serves the campus and the San Diego artistic community by exploring important issues and themes relative to the arts through educational opportunities, public forums, research, and multidisciplinary and multicultural exhibits and performances.
College of Sciences

Administration
Dean: Thomas R. Scott
Associate Dean for Undergraduate Studies:
   Catherine J. Atkins-Kaplan
Associate Dean for Research and Graduate Studies:
   Philip J. Langlais
Assistant Dean for Student Affairs:
   Assistant Dean for Underrepresented Student Programs:
   Director of Development: Laura A. Benedict

General Information
The College of Sciences, composed of seven departments and various subprograms, offers bachelor's, master's, and doctoral degrees, and curricula for preprofessional students in medicine, veterinary medicine, and dentistry. The science curriculum is enhanced by research centers which provide field experience as well as special seminars with guest speakers. The off-campus sites include the Mt. Laguna Observatory, and about 5,000 acres in four biological sciences research stations. The majority of tenured Sciences faculty have active research programs which offer student involvement.

Curricula Offered
Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Sciences.

Doctoral Programs
Biology, Chemistry, Clinical Psychology, Ecology, Mathematics and Science Education

Master's Degrees
Applied Mathematics (M.S.), Astronomy (M.S.), Biology (M.A., M.S.), Chemistry (M.A., M.S.), Computational Science (M.S.), Computer Science (M.S.), Geological Sciences (M.S.), Mathematics (M.A.), Microbiology (M.S.), Physics (M.A., M.S.), Psychology (M.A., M.S.), Radiological Health Physics (M.S.), Regulatory Affairs (M.S.), Statistics (M.S.).

Bachelor's Degrees
Astronomy (B.S.), Biology (B.A., B.S.), Chemical Physics (B.S.), Chemistry (B.A., B.S.), Computer Science (B.S.), Environmental Sciences (B.S.), Geological Sciences (B.S.), International Security and Conflict Resolution (B.A., jointly with the College of Arts and Letters and the College of Professional Studies and Fine Arts), Mathematics (B.A., B.S.), Microbiology (B.A., B.S.), Physical Science (B.S.), Physics (B.A., B.S.), Psychology (B.A.), Statistics (B.S.).

Minors

Certificate Programs

Other Curricula
Allied Health, Preclinical, Premedical, Preoptometry, Prepharmacy, Prephysician Assistant, Prepodiatry, Preveterinary.

Research Centers and Institutes

The Edwin C. Allison Center for the Study of Paleontological and Geological Sciences
Richard H. Miller, Curator
The Allison Center has supported research in paleontology, geology and related sciences since 1972. The Center maintains a research library containing journals, reprints, textbooks, maps, and copies of master's theses and senior theses completed in the Geological Sciences. The library is open to faculty and students. In addition, the Center houses a collection of fossil and recent vertebrates, invertebrates, and plants. Research space is available for students, faculty, and visiting scholars.

Center for Behavioral and Community Health Studies
John P. Elder, Director
Alan J. Litrownik, Gregory Talavera, Joni Mayer, and Terry Conway, Senior Faculty Investigators
The Center for Behavioral and Community Health Studies is housed at 9245 Skypark Court, Suite 231, San Diego, CA 92113. The Center, formerly known as The Center for Behavioral Medicine, was established in 1982 for the purpose of promoting research and academic programs relevant to the applications of behavioral science principles to medicine and health care. Administratively, the Center has three co-directors who report to the deans of the College of Sciences and the College of Health and Human Services. The interdisciplinary center encourages participation from all of the University colleges and departments. Currently, active investigators come from the Departments of Exercise and Nutritional Sciences, Psychology, and the Graduate School of Public Health. Current Center projects involve collaboration between scientists and physicians from a variety of specialties as well as a variety of other institutions, including Scripps Clinic and Research Foundation, the University of California, San Diego Medical Center, and the Children's Hospital and Health Center. Funding for the Center comes from federal and private foundation grants including several National Institutes of Health agencies. Current sponsors include the American Heart Association, Department of Defense, National Cancer Institute, National Heart, Lung and Blood Institute, the State of California Department of Health Services, and the University of California Tobacco Related Disease Research Program. The Center provides important research experience to students who intend to pursue related careers and offers opportunities for project staff and graduate students to participate in community interventions.

Center for Behavioral Teratology
Edward P. Riley, Director
Teratology is the study of birth defects. The faculty and students at the Center for Behavioral Teratology (CBT) are interested in how prenatal exposure to various drugs influences both brain and behavioral development. The CBT is truly an interdisciplinary research organization, with a broad range of basic and clinical research interests. While the primary purpose of the CBT is to promote research in teratology, personnel in the Center also act as a resource to the University and the community. The staff provides in-service talks at local hospitals,
schools, and drug treatment facilities, as well as lectures to various classes at the University. The CBT staff has active collaborations with faculty from UCSD, the VA Hospital, Children’s Hospital, and the Scripps Research Institute. Faculty in the Center have grants from the National Institutes of Health, March of Dimes, Tobacco-Related Disease Research Program, and the State of California.

Coastal and Marine Institute Richard M. Gersberg, Director

The Coastal and Marine Institute provides a focus for oceanography and marine studies at SDSU. The Institute assists departments within the University in the development of instructional, research, and public service aspects of coastal and ocean-oriented programs and provides special supporting services including advising students, assistance to faculty and students in research, preparation of manuscripts, operation of the SDSU Marine Laboratories and boats at Mission Bay, and liaison with other institutions and the community. The Institute is operated as a special unit of the College of Sciences and is administered by a director and an advisory council committee consisting of faculty members elected from participating departments. Additional information about marine studies is available from the Coastal and Marine Institute office or from the office of the Dean of the College of Sciences.

Computational Science Research Center Jose E. Castillo, Director

The Computational Science Research Center (CSRC) promotes the development and advancement of the interdisciplinary subject of computational science. This is accomplished by fostering research, developing educational programs, and promoting industrial interaction, outreach, and partnership activities.

The Center provides an environment for scientific research at San Diego State University. It facilitates the interaction between applied mathematics, computer science, and other disciplines by providing the necessary infrastructure for productive research efforts. Real world applications are the focus of faculty and student projects. These projects provide an educational opportunity for students to hone industrially relevant computational skills.

The goals of the Center are to encourage and facilitate research in computation, simulation, visualization, and numerical modeling in all disciplines (business and finance, biology and bioinformatics, engineering, physical sciences, and geography); to interact with other centers, laboratories, universities, and local industry; reduce lag time between algorithm development/analysis and applications; to participate in programs with other countries, including international programs sponsored by the National Science Foundation; to arrange visits by professors, including foreign visitors on sabbaticals and professional staff on industrial sabbaticals; to arrange part time and adjunct appointments for consulting activities by professional staff from local research laboratories; to provide employment, experience, and contacts for students; to sponsor conferences, workshops, and courses; to facilitate collaboration with government laboratories with private sector; to provide bridges to regional industry; and to direct the computational science program at San Diego State University.

Interested students and faculty may obtain more information by calling the CSRC office at (619) 594-7205.

Center for Computer Simulation William A. Root, Director

The Center for Computer Simulation pursues research opportunities involving the creation of complex simulations, particularly those addressing challenges in the public sector. The diversity of fields in which computer simulation now plays a role allows the Center to provide research opportunities for undergraduate and graduate students in a wide variety of academic majors.

The Center supports an extensive collection of simulation software under site license, and maintains cooperative relationships with prominent public and private sector simulation software developers to ensure that the Center’s capabilities keep pace with the state-of-the-art.

Currently the Center includes members from the faculties of Applied Mathematics, Computer Science, Physics, and Statistics. The Center is administered by a director appointed by the Dean of the College of Sciences, and resides in facilities provided by the Department of Mathematical and Computer Sciences. For information, call the Center for Computer Simulation office at (619) 594-6837.

Center for Energy Studies Alan R. Sweedler, Director

The San Diego State University Center for Energy Studies (CES) facilitates, promotes and supports research and academic programs relating to energy, with particular emphasis on energy matters of concern to the San Diego and local southwest region including the international border with Mexico. The Center encourages interdisciplinary research and instructional programs in the broad areas of energy modeling, technology assessment of energy systems, local energy policy planning and data collection relating to energy usage in the San Diego region. SDSU offers through the Center an interdisciplinary minor in energy studies. Completion of the minor will give the student a broad understanding of the technical, economic, social, and political aspects of energy issues. For more information call the Center at (619) 594-6240 or (619) 594-6155. The Center works closely with local and state agencies concerned with energy policy and planning, and serves as a community resource in matters concerning local energy issues, and the impact of energy use of the environment.

Field Station Programs Sedra S. Shapiro, Interim Director

The Field Station Programs provide opportunities for a broad community of students and faculty to explore the natural ecosystems of southern California. In addition, the field stations serve SDSU by functioning as a liaison to broader public community, highlighting SDSU’s expertise regionally, nationally, and internationally. The field station programs manage over 9,000 acres of San Diego and Riverside counties for university teaching and research.

SDSU currently has four field stations: the Sky Oaks Field Station, 1,600 acres of high elevation redshank chaparral habitat in the Chihuahua Valley east of Tecemuelci Valley; the Santa Margarita Ecological Reserve (SMER), a 4,334 acre reserve located along the upper Santa Margarita River inland from Camp Pendleton in San Diego and Riverside Counties; Fortuna Mountain, 500 acres close to the SDSU campus located within Mission Trails Regional Park; and the Tijuana River National Estuarine Research Reserve, a 2,513-acre reserve which serves as an auxiliary field station for SDSU.

Providing research and education opportunities for the future requires detailed knowledge of how changes in the environment outside the boundaries of a certain area affect ecosystem dynamics within that area. As habitat continues to be lost to development, areas such as the SDSU field stations will increase in importance as sites for studying natural ecosystems.

The proximity of sensitive habitats to a rapidly urbanizing landscape makes this region a recognized biodiversity “hot spot.” San Diego State University has an extremely dynamic group of scientists (faculty, researchers, and students) working to understand these unique and threatened ecosystems. Research ranges from the global scale examining global warming and the impacts of increased carbon dioxide on native vegetation to the meso- and micro-scales of chaparral ecosystems dynamics, as well as plant, vertebrate, insect, and fungal diversity. Researchers at SDSU are also increasingly using sophisticated computer modeling and molecular techniques for analyzing environmental change. Natural sciences are the core users of the SDSU field stations. Biology, geography, geological sciences, hydrogeology, and other field sciences are consistent areas of study.
There are growing opportunities for interdisciplinary work as well as for nontraditional study in the fields ranging from public health, civil and environmental engineering, recreation, business, and art, to education.

Persons interested in conducting research, instructional use, or access to the SDSU field stations should contact the academic programs of the SDSU Field Station Programs at (619) 594-0580. Inquiries can also be made through the SDSU Field Station Web site at www.sci.sdsu.edu/BFS/

Heart Institute

Christopher C. Glembotski, Director

The Heart Institute is sponsored by the College of Sciences and the College of Health and Human Services. The goals of the Institute are to enhance basic and clinical research in the cardiovascular sciences, to foster undergraduate and graduate education in cardiovascular physiology and medicine, and to provide a community outreach service focused at heightening the awareness of cardiovascular disease and its prevention in the San Diego region surrounding SDSU. The Institute is comprised of faculty members representing four different colleges at SDSU, as well as physicians and scientists from local hospitals and clinical research centers. Importantly, the Institute also sponsors SDSU undergraduate and graduate student memberships, which strengthens the involvement of students in all aspects of Heart Institute activities. The unusual blend of talent and expertise that comprise the Institute membership results in an interdisciplinary approach to cardiovascular research, education and community outreach that is unique to the Heart Institute. The Institute sponsors special seminars, on- and off campus, which cover a wide range of topics in the field, and provides funding for the support of graduate students who are involved in cardiovascular research at SDSU. Areas of focus for the Institute include studies of the molecular basis of cardiovascular disease, establishment of unique approaches for the early detection and prevention of cardiovascular disease, and the promotion of cardiovascular health in San Diego area K-12 schools. An important feature of Institute activities comes from a variety of sources, including the National Institutes of Health, the American Heart Association, the Institute of Medicine, and several San Diego-based biotechnology companies. For more information contact the Heart Institute office at (619) 594-5504.

Center for Inland Waters

Stuart H. Hurlbert, Director

The Center for Inland Waters is an interdisciplinary academic unit consisting of faculty members from four SDSU colleges (Arts and Letters, Engineering, Health and Human Services, Sciences). Its purpose is to foster basic and applied collaborative research among SDSU scientists and scholars on inland water resources and ecosystems, the application of their expertise to the solution of water-related problems in southern California and adjoining regions, and the coordination and development of courses, curricula, and physical facilities for water-related instruction and research. Inland water resources include the water supply for domestic, agricultural and industrial uses, the growing system of aqueducts, reservoirs, and aquifers in which this supply is transported and stored, and the rivers, lakes, and wetlands important as habitat for wildlife, as maintainers of environmental health, and as recreation areas. Of special interest to the Center are social, economic, hydrological, public health, and ecological issues concerning the Colorado River and its delta, the Salton Sea, and the new Tijuana and Santa Margarita Rivers and their watersheds. The Center is operated as a special unit of the College of Sciences and is administered by the By JU-Field and have an interdisciplinary approach. Information on the Center and regional water resources is available at www.sci.sdsu.edu/salton/.

Center for Innovation in Computer Science Education

William A. Root, Director

The Center for Innovation in Computer Science Education serves the University by promoting the integration of computer science education at SDSU into the business, social and educational fabric of the San Diego community at large. The Center’s mission focuses on three complimentary and interdependent areas: industry partnerships, university curriculum innovation, and community outreach.

The Center works to broaden and intensify the relationship between SDSU and local industry in the computer science area, by promoting and administering internships, faculty consulting, and participation of local industry professionals in team-teaching advanced-technology computer courses at SDSU. The Center aims to foster innovation in SDSU’s computer science curriculum by undertaking research in novel computer science pedagogy. Finally, the Center seeks to improve the number and quality of SDSU’s incoming computer science students by actively promoting and administering cooperative programs linking SDSU, private sector technology firms, and San Diego area K-12 schools. The goal of these programs is to ensure that promising students in local schools are exposed early to the excitement of computer science, and are well prepared to make a seamless transition from secondary school to a challenging first-year university computer science curriculum.

The Center is comprised of an interdisciplinary group of faculty who have interest and technical expertise in computer science, and, particularly, in computer science education. Currently, the Center includes members from the faculties of Computer Science, Mathematics, and Physics. For information, call the Center for Innovation in Computer Science Education at (619) 594-6837.

Institute for International Security and Conflict Resolution

Alan R. Sweedler and Dipak Gupta, Co-Directors

The SDSU Institute for International Security and Conflict Resolution (ISSCOR) encourages and facilitates teaching and research in the multidisciplinary area of international security and conflict resolution. Specifically, topics such as nuclear armaments, international and intranational conflict, sociopolitical violence, and global environmental issues as they relate to security are covered.

The Institute is a joint effort of the Colleges of Sciences, Arts and Letters, and Professional Studies and Fine Arts. ISSCOR is administered by two co-directors, advised by an executive committee consisting of faculty members representing the different disciplines that provide input into the study of international security and conflict resolution.

The Institute promotes teaching and research by organizing public forums, faculty and student seminars, developing appropriate curricula for undergraduate and graduate instruction and facilitating research and scholarly activities. SDSU offers, through ISSCOR, a multidisciplinary Bachelor of Arts degree in International Security and Conflict Resolution. Students and faculty can obtain more information by calling the ISSCOR office at (619) 594-6240.

Center for Research in Mathematics and Science Education

Kathleen M. Fisher, Director

The Center for Research in Mathematics and Science Education (CRMSE) is an interdisciplinary consortium of faculty interested in research on substantive questions related to the learning and teaching of science and mathematics. The Center currently has members from the faculties of Biology, Geological Sciences, Mathematical and Computer Sciences, Physics, Psychology, and Teacher Education. It is administered by a director appointed by the dean of the College of Sciences and an associate director appointed by the dean of the College of Education. Through its activities, CRMSE initiates, encourages, and supports the scholarly pursuit of important theoretical and applied problems in mathematics and science education. CRMSE supports faculty in their current research projects and in the preparation of manuscripts for publication and grant proposals for continued
research. The Center also administers the Doctoral Program in Mathematics and Science Education that is offered jointly by SDSU and the University of California, San Diego and the Professional Development Collaborative to serve area teachers. The Center is located at 6475 Alvarado Road, Suite 206, San Diego, CA 92120-5006; telephone (619) 594-5090; campus mail code 1862.

**Microchemical Core Facility**
*Long T. Wen, Director*

The Microchemical Core Facility (MCF) is a component of the California State University Program for Education and Research in Biotechnology (CSUPERB). The MCF is a full-service, state-of-the-art facility that provides DNA synthesis, sequencing, and purification services for cell and molecular biologists associated with any of the 22 CSU campuses. In addition, the MCF provides for CSU faculty access to the most recent advances in computer-assisted analyses of molecular structure. Located in the Biology Department at SDSU, the MCF provides state-of-the-art molecular analyses and characterization to CSU scientists for the lowest possible cost, as well as fostering the training of university faculty at all levels in the most recent techniques available in the molecular life sciences. Funding for the establishment and maintenance of the SDSU MCF is derived from the National Science Foundation with matching funds provided by the State of California. Call (619) 594-1669 for more information.

**Molecular Biology Institute**
*Greg L. Harris, Director*

The Molecular Biology Institute was established to serve interested departments of the biological and physical sciences in the coordination, support and enhancement of research and instruction in the molecular biological sciences. Interests and activities of the MBI encompass all approaches which aim to explain biology at the molecular level. The MBI sponsors a weekly seminar series that facilitates faculty and student interaction with scientists from other institutions. Currently, full members of the Institute are drawn from the Departments of Biology and Chemistry, and the Graduate School of Public Health, and participate in the respective Ph.D. programs. Associate members are drawn from a variety of disciplines that are cognate with the molecular biological sciences. The Institute is also constituted as the University unit authorized to administer the master’s degree program with an emphasis in molecular biology. The research programs of the MBI members are supported by a variety of agencies including the National Institutes of Health, the National Science Foundation, NASA, the American Heart Association, the American Diabetes Association, the Muscular Dystrophy Association, the Department of Energy, the US Department of Agriculture, and the California Metabolic Research Foundation. Additional information is available from the MBI office; (619) 594-7429.
Imperial Valley Campus

Administration  
Dean: Khosrow Fatemi  
Associate Dean for Academic Affairs: Stephen A. McNett  
Assistant Dean for Student Affairs: Rosa Elena Moreno  
Director of Library Services:  
Director of Financial and Business Services: Irma Martinez  
Director of Advancement: John Renison

Faculty  
Emeritus: Ayala, Baldwin, Ballesteros, Erzen, Franklin, Harmon, Hill, King, Polich, Spencer, Varela-Ibarra  
Professors: Dunn, Elizondo, Fatemi, Medeiros, Merino, Reyes, Ryan  
Associate Professors: Castañeda, Garrison, Neumann, Padmanabhan, Sabath, Shumaker, Stampfl  
Assistant Professors: Amaral, Bass, Camara, Champion, Coates, Hererra, Hughes, Mendez  
Lecturers: Dorn, Fuentes, Livingston, McNett, Murphy, Razo, Rickard

General Information  
The Imperial Valley Campus is a two-year upper-division campus of San Diego State University serving the desert area of southeastern California. It is accredited as an integral division of SDSU and operates under the same academic calendar. Established in 1959 by an act of the State legislature, the campus is located in the Imperial Valley on the Mexican border in the city of Calexico. Offering the last two years of undergraduate education, graduate programs, and fifth year credential programs for teacher preparation, the campus accepts transfer students from community colleges or other colleges, who have at least 56 units. The Imperial Valley Campus offers students the advantages of smaller classes and individual contact with the faculty. The Imperial Valley Campus faculty are multinational in their classroom orientation and background. Interactive television provides students in Calexico the opportunity to participate in various classes broadcast live from the campus in San Diego. The Imperial Valley Campus schedules its classes to meet once a week in three-hour blocks so that students who work full time can earn 9-12 units a semester by attending classes once or twice a week. Occasional classes are also offered on the weekends.  
The Imperial Valley Campus is located in Imperial County which has a population of approximately 140,000 people. Calexico is 120 miles east of San Diego, 60 miles west of Yuma, Arizona and 120 miles south of Palm Springs. Interstate 8 and State Highways 111 and 86 connect the County to the rest of the country and state. The campus location, six blocks from the Mexican border, provides the opportunity for involvement in a bicultural environment. Just across the border is Mexicali, a city of more than one million people.

The over 900 students at Imperial Valley Campus have the opportunity to be involved in a rich campus life. Student clubs, student government, lectures, arts exhibits, quad musical events, library and computer center special programs enhance the students’ education at SDSU – Imperial Valley Campus.

Curricula Offered  
Undergraduate Degrees  
Major in business administration (agribusiness emphasis) with the B.S. degree in applied arts and sciences.  
Major in criminal justice administration with the B.S. degree in applied arts and sciences.  
Major in English with the B.A. degree in liberal arts and sciences.  
Major in history with the B.A. degree in liberal arts and sciences.  
Major in international business (Latin America and North America emphases), with the B.A. degree in liberal arts and sciences.  
Major in Latin American studies with the B.A. degree in liberal arts and sciences.  
Major in liberal studies with the B.A. degree in liberal arts and sciences.  
Major in psychology with the B.A. degree in liberal arts and sciences.  
Major in public administration with the B.A. degree in applied arts and sciences.  
Major in social science with the B.A. degree in liberal arts and sciences.  
Major in Spanish with the B.A. degree in liberal arts and sciences.  
Minor in English.  
Minor in history.  
Minor in linguistics.  
Minor in political science.  
Minor in psychology.  
Minor in public administration.  
Minor in small business management.  
Minor in Spanish.

Graduate Degrees  
Master of Arts degree in Education  
Concentration in Educational Leadership  
In addition, the Imperial Valley Campus, in cooperation with academic units and the Graduate Division on the San Diego campus, offers the following graduate programs leading to advanced degrees.  
Master of Arts degree in Education  
Concentration in Elementary Curriculum and Instruction  
Concentration in Secondary Curriculum and Instruction  
Master of Public Administration  
Master of Science degree in Business Administration  
Concentration in International Business

Certificate Programs  
Business Administration, Court Interpreting, Public Administration, Translation Studies

Teaching Credentials  
Basic: Multiple Subject Cross-Cultural Language and Academic Development (CLAD) emphasis, Multiple Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) emphasis: Spanish, Single Subject Specialist: Administrative Services  
Special Education  
(Both in conjunction with the College of Education)  
For further information on any of these degrees, see the SDSU – Imperial Valley Campus Bulletin.

Exchange Programs and Study Abroad  
There are exchange programs for undergraduate students between the Imperial Valley Campus, the Universidad Autonoma de Baja California, and Centro de Enseñanza Técnica y Superior, which allows students to take classes at either of the participating universities and receive credit at their home institution.  
Graduate and undergraduate students at the SDSU-Imperial Valley Campus can enhance their education and cultural awareness by taking part in several of the many opportunities available to study abroad. The campus has active exchange agreements with universities in Argentina, Brazil, France, Mexico, Morocco and Paraguay. Several other agreements are in process of negotiation with different academic institutions around the world, including England and Spain.
In addition to IVC’s own International programs, students may participate in the California State University International Programs; the SDSU spring semester programs in London, Paris and Salamanca; or the summer term in Costa Rica and Mexico.

Research Centers and Institute
California Center for Border and Regional Economic Studies (CCBRES)

The California Center for Border and Regional Economic Studies (CCBRES) specializes in research and database development in the two areas of U.S.-Mexican trade relations and the Imperial Valley. The Center compiles statistics on trade between California and Mexico, encourages research in this area, publishes a monthly bulletin of in-house and sponsored analyses of the issues involved in bilateral trade. CCBRES also hosts conferences and workshops on border issues, ranging from trade and economics to sociological and educational issues. The Center’s goal is to become a national resource center for California-Mexican trade relations.

As related to the economic situation in the Imperial Valley, CCBRES has and is maintaining a current economic profile of the Imperial Valley. The data includes economic indicators such as demographic information, quality of life, labor and agricultural statistics, and macro economic indicators.

California Desert Farming Institute

The California Desert Farming Institute at the Imperial Valley Campus of San Diego State University has two distinct components. First, a research unit will explore desert farming and its potential for improving the competitiveness of California and U.S. agriculture. A second unit of the Institute is the Center for the Study of International Trade in Agriculture, with the objective of studying international trade in agriculture and making the results available to California farmers.

The Imperial Valley Campus was recently designated by the U.S. Department of Agriculture as one of 12 national centers of excellence in the United States.

Center for International Environmental Studies

The Center for International Environmental Studies is a significant addition to the educational landscape of desert Southern California. It is a home for researchers interested in a greater understanding of environmental management issues with a uniquely international and binational focus. The Center meets an important gap in the environment-related educational opportunities in the country.

As the Center develops, it plans to propose a Master of Science in International Environmental Management. When this program is developed, it will provide the United States-Mexico region, the State of California, and the nation with culturally sensitive professionals who have sound training in resource and environmental management – to meet the challenges and opportunities of addressing environmental issues, managing economic development and participating in global trade in the years ahead.

Facilities

The campus is located on an eight-acre city block in the heart of Calexico’s civic center along the Mexican border. The campus facilities create a pleasing architectural harmony of old and new structures surrounding a spacious central lawn area, the Rollie Carrillo Quad. Adjoining the quad, the expanded library, Rodney Auditorium, and John Stepping Art Gallery provide academic and cultural resources for the entire community. Other buildings include classroom buildings, the administration building, faculty offices, a computer lab, a bookstore, and the Student Union.

The library is designed to facilitate research and to provide a pleasant atmosphere for study. The collection is expanding and has more than 110,000 volumes, periodicals, and newspapers which support the curricula offered on the Imperial Valley Campus. Services provided include reference assistance, CD ROM databases, personal computers for word processing, full text database, Internet access, interlibrary loans, and photocopying facilities.

Computer assistance is available in the computer lab. Both Macintosh and IBM compatible systems and Internet access are also available on campus.

Admission and Registration

To apply for admission to the Imperial Valley Campus, students must file a complete application and transcripts as outlined elsewhere in this catalog. Both completed application forms and transcripts should be sent to the Admissions Office, San Diego State University, Imperial Valley Campus, 720 Heber Avenue, Calexico, California 92231. Please telephone (760) 768-5509 for further information. Students can register by the touchtone registration system (RegLine), but only after fees are paid. Late registration is allowed during the first two weeks of the semester. Students wishing to late register must pay registration fees plus a $25.00 late fee.

Imperial Valley Campus Scholarships

The Imperial Valley Campus students were awarded over $44,169 in scholarships for the 1999-2000 academic year. Information and applications for scholarships are available from the Financial Aid Office. Following is a list of scholarships established at Imperial Valley Campus:

- American Association of University Woman
- Bertha Rosas Soroptimist International of Calexico
- Calexico Educational Foundation
- Calexico Unified School District Title VII Project Reap
- Coca Cola International Studies
- Educators, SDSU-IV Campus
- El Centro Rotary
- General Dynamics Land Systems of Imperial Valley
- Government Agencies Federal Credit Union
- HACU
- Lilly Endowment Inc./Hispanic Scholarship Fund
- Mr. and Mrs. Bernard Lipinsky
- Niaz Mohamed Family
- National Hispanic
- Joe Patino Family
- PEO Sisterhood Chapter BS
- Rotary International District #5340
- Scholarship Aid Association for Lutherans, The Adult Degree Completion
- SDSU-IV Campus Academic Excellence
- SDSU-IV Campus Associated Students Council International Studies
- SDSU-IV Campus Book Scholarship
- SDSU-IV International Programs

Endowments:
- Dean’s
- Enrique (Kiki) Camarena
- Good Sport Howie
- Herschel Hudson
- Sally McMahon/Doves
- Luis Nogales
- Doug Patino
- Joe Patino Family
- Jerry Pennington Memorial
- Ralph and Eva Pesqueira
- Rotary International District 5340

Commencement

The Imperial Valley Campus holds its own commencement exercises each spring, in the Rollie Carrillo Quad, prior to commencement exercises on the San Diego campus.
BUILDING LEGEND

1. North Classroom Building (N-101, N-102, N-106, N-108)
2. Administration Building (Administration/Academic Affairs/Business Office/Student Affairs)
2A. Art Gallery
3. Auditorium/Classrooms (A-3, LA-1, LA-2, LA-3, LA-4)
4. Classroom Building (C-7, C-8, C-9, C-10)
5. Library
5A. Library Addition

6. Physical Plant
7. Computer Building
9. Faculty Offices: Building East (Classrooms)
10. Faculty Offices: Building West
19. Student Center
21. Student Affairs
22. CLAT - Classrooms
Division of Undergraduate Studies

OFFICE: Administration 201
TELEPHONE: (619) 594-5841
FAX: (619) 594-7934

Objectives and Functions

The Division of Undergraduate Studies serves to provide coordination and evaluation of the undergraduate programs at San Diego State University. It has general responsibility for the undergraduate curriculum and for academic standards and regulations that affect undergraduate students.

The Division has a special concern and responsibility for academic programs of a University-wide character. It administers the Liberal Studies and Interdisciplinary Studies in Three Departments majors, the University Honors Program, the CSU International Programs, the Faculty/Student Mentoring Program, and the AVID Summer Bridge program. It is the administrative home for the University Advising Center, and for the Thomas B. Day Freshman Success Programs, an Academic Affairs and Student Affairs partnership endeavor.

The Division also coordinates assessment of student preparedness in writing and mathematics at the freshman and transfer level, and the Upper Division Writing Requirement for graduation.

Innovation contributes to the vitality of the University. The Division encourages and assists faculty in the development of new perspectives, programs, and curriculum, and encourages and discusses new approaches to teaching through an electronic list-serve and journal, and awards.

On significant matters of University-wide concern, the Division of Undergraduate Studies submits proposals to the University Senate for consideration and action.

Above all, the Division of Undergraduate Studies exists to promote the quality, diversity, and richness of the undergraduate programs at San Diego State University. It does so through the active involvement of students and faculty in the programs of the Division.

Honors Program

University Honors Program

The University Honors Program provides opportunities for students with demonstrated academic ability to find the stimulation and challenge that will help them develop their potential. The program offers courses which meet the General Education requirements common to all students; it does not offer work in specific majors. Students should anticipate enrolling in at least two honors courses each year, drawing their other work from the regular offerings of the University. The program is open to students in all majors, and involves small classes, special advising in both academic requirements and career options, opportunity for independent projects, and participation in student exchanges with similar programs across the nation.

Qualified students may apply upon admission to the University by contacting the Division of Undergraduate Studies, AD-201, (619) 594-1261. Eligibility at entrance is determined by achievement in the particular field. Students should consult the Class Schedule for such honors classes and contact the department or instructor for information.

Departmental Honors Courses

Some departments regularly offer honors classes which are independent of the University Honors Program; for these eligibility is determined according to achievement in the particular field. Students should consult the Class Schedule for such honors classes and contact the department or instructor for information.

The California State University International Programs

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 12,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. The International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 16 countries, the International Programs also offers a wide selection of study locales and learning environments.

- Australia. The University of Western Sydney
- Canada. The universities of the Province of Quebec including: Université de Montréal, Concordia University, Université Laval, McGill University, Université du Québec system, Bishop’s University
- Chile. Pontificia Universidad Católica de Chile (Santiago)
- Denmark. Denmark’s International Study Program (the international education affiliate of the University of Copenhagen)
- Germany. Universität Tübingen and a number of institutions of higher education in the Federal State of Baden-Württemberg
- Israel. Tel Aviv University, The Hebrew University of Jerusalem
- Italy. CSU Study Center (Florence), Università degli Studi di Firenze, La Accademia di Belle Arti Firenze
- Japan. Waseda University (Tokyo)
- Korea. Yonsei University (Seoul)
- Mexico. Instituto Tecnológico y de Estudios Superiores de Monterrey, Campus Querétaro
- New Zealand. Lincoln University (Christchurch), Massey University (Palmerston North)
- Palau. College of the Marshall Islands, Majuro
- Peru. Pontificia Universidad Católica del Perú (Lima)
- South Africa. University of Cape Town, Stellenbosch University
- Spain. Universidad de Zaragoza, Universidad de Salamanca, Universidad de Alcalá, Universidad de Granada, Universidad de Madrid, Universidad de Valencia, Universidad de Sevilla
- Sri Lanka. University of Kelaniya, University of Peradeniya
- Switzerland. Université de Lausanne, Université de Genève, Université de Neuchâtel, Université de Fribourg
- Taiwan. National Taiwan University, National Chengchi University, National Central University
- United Kingdom. University of Bath, University of Liverpool, University of Kent, University of Warwick, University of Sussex
- United States. University of California, Berkeley, University of California, Los Angeles, University of California, Santa Barbara, University of California, Davis
- Venezuela. Universidad Central de Venezuela, Universidad Católica Gran Sabana
- Vietnam. Ho Chi Minh City University of Medicine and Pharmacy, Hanoi University of Medicine and Pharmacy
- Zimbabwe. University of Zimbabwe

International Programs also offers a wide selection of study locales and learning environments.

- Australia. The University of Western Sydney
- Canada. The universities of the Province of Quebec including: Université de Montréal, Concordia University, Université Laval, McGill University, Université du Québec system, Bishop’s University
- Chile. Pontificia Universidad Católica de Chile (Santiago)
- Denmark. Denmark’s International Study Program (the international education affiliate of the University of Copenhagen)
- Germany. Universität Tübingen and a number of institutions of higher education in the Federal State of Baden-Württemberg
- Israel. Tel Aviv University, The Hebrew University of Jerusalem
- Italy. CSU Study Center (Florence), Università degli Studi di Firenze, La Accademia di Belle Arti Firenze
- Japan. Waseda University (Tokyo)
- Korea. Yonsei University (Seoul)
- Mexico. Instituto Tecnológico y de Estudios Superiores de Monterrey, Campus Querétaro
- New Zealand. Lincoln University (Christchurch), Massey University (Palmerston North)
Spain. Universidad Complutense de Madrid, Universidad de Granada
Sweden. Uppsala Universitet
Taiwan. National Chengchi University (Taipei)
United Kingdom. Bradford University, Bristol University, Hull University, Kingston University, Sheffield University, University of Wales, Swansea
Zimbabwe. University of Zimbabwe (Harare)

International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. Participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Participants remain eligible to receive any form of financial aid (except work-study) for which they can individually qualify.

To qualify for admission to the International Programs, students must have upper division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in France, Germany, and Mexico. California Community Colleges transfer students are eligible to apply directly from their community colleges. Students must also possess a current cumulative grade point average of 2.75 or 3.0, depending on the program for which they apply. Some programs also have language study and/or other coursework prerequisites.

Information and application materials may be obtained from the Division of Undergraduate Studies (AD-201) or by writing to The California State University International Programs, 401 Golden Shore, Sixth Floor, Long Beach, California 90802-4210. Visit the Web site at www.gateway.calstate.edu/csuienet/.
Organization and Administration
The Graduate Division is under the jurisdiction of Graduate and Research Affairs whose administrative officer is Vice President for Research and Dean of the Graduate Division. In coordination with the Graduate Council, the Division has responsibility for all graduate curricula and policy matters governing graduate study at San Diego State University. The Dean of the Graduate Division serves as chair of the Graduate Council.
The Graduate Division admits all students to the University and to authorized graduate degree curricula, determines students’ eligibility to continue in such curricula and, in the cases of unsatisfactory performance, requires students to withdraw from graduate curricula and the University.
The Vice President for Research and Dean of the Graduate Division is the appropriate University authority for the administration of all matters related to graduate admissions, academic status, and graduate degree curricula, minimum requirements for which are specified in Section 40510 of the California Code of Regulations.

Association Membership
San Diego State University is a member of the Western Association of Graduate Schools and the Council of Graduate Schools in the United States.

Degrees Offered
All master’s degrees are conferred by the Trustees of The California State University upon recommendation of the faculty of San Diego State University. These degree programs provide instruction for graduate students in the liberal arts and sciences, in applied fields, and in the professions, including the teaching profession.

Doctor of Philosophy degrees are awarded jointly by the Board of Regents of the University of California and the Board of Trustees of The California State University in the names of San Diego State University and the cooperating campus of the University of California; in Education, jointly by the Board of Trustees of The California State University and the Board of Fellows of Claremont Graduate University; The Doctor of Education degree (Ed.D.) is awarded jointly by the Board of Trustees of The California State University and the University of San Diego.

Doctor of Philosophy
The Doctor of Philosophy degree is offered in the following fields:
- Biology
- Chemistry
- Clinical Psychology
- Ecology
- Education
- Engineering Sciences/Applied Mechanics
- Geography
- Language and Communicative Disorders
- Mathematics and Science Education
- Public Health/Epidemiology

Doctor of Education
The Doctor of Education degree is offered in the following fields:
- Educational Administration and Policy
- Educational Technology
- Teaching and Learning

Master’s Degrees
- Master of Business Administration
- Master of City Planning
- Master of Engineering
- Master of Music

Master of Public Administration
- Master of Public Health
- Master of Social Work

Master of Fine Arts
The Master of Fine Arts degree is offered in the following fields:
- Art
- Creative Writing
- Theatre Arts

Master of Arts
The Master of Arts degree is offered in the following fields:
- Anthropology
- Art
- Asian Studies
- Biology
- Chemistry
- Communication
- Communicative Disorders
- Economics
- Education
- English
- French
- Geography
- History
- Interdisciplinary Studies
- Latin American Studies
- Liberal Arts and Sciences
- Linguistics
- Mathematics
- Music
- Philosophy
- Physical Education
- Physics
- Political Science
- Psychology
- Rhetoric and Writing
- Sociology
- Spanish
- Television, Film and New Media Production
- Theatre Arts
- Women’s Studies

Master of Science
The Master of Science degree is offered in the following fields:
- Accountancy
- Aerospace Engineering
- Applied Mathematics
- Astronomy
- Biology
- Business Administration
- Chemistry
- Child Development
- Civil Engineering
- Computer Science
- Computational Science
- Counseling
- Criminal Justice and Criminology
- Electrical Engineering
- Exercise Physiology
- Geological Sciences
- Interdisciplinary Studies
- Mechanical Engineering
- Microbiology
- Nursing
- Nutritional Sciences
- Physics
- Psychology
- Public Health
- Radiological Health
- Physics
- Regulatory Affairs
- Rehabilitation Counseling
- Statistics

Concurrent Degrees
Concurrent degrees are offered in the following fields:
- Master of Business Administration and Master of Arts in Latin American Studies
- Master of Public Health and Master of Social Work
- Master of Science in Nutritional Science and Master of Science in Exercise Physiology
- Master of Social Work and Juris Doctor

Cooperative Degree Program
Master of Science in Geological Sciences and Doctor of Science in Earth Sciences

Admission to Graduate Study
Admission to San Diego State University for graduate study is a competitive process and open to those applicants who the University judges to be fully qualified to benefit from graduate study. The requirements listed below are the minimum required for admission to the University. Many programs have established additional requirements. Potential applicants should refer to the Bulletin of the Graduate Division under the departmental listings. Students in their final baccalaureate year who are contemplating graduate study are also advised to contact the departmental offices as soon as possible for information and advice. Some departments stop reviewing applications earlier than others because space is limited.
Application Procedures

Applicants for postbaccalaureate study (that is, advanced degree applicants, those seeking credentials or advanced certificates, and those interested in taking courses for personal or professional reasons) must file a complete application within the appropriate filing period. Second baccalaureate degree candidates should apply as undergraduate degree applicants. A complete application for graduate study includes the graduate and postbaccalaureate admission application plus supplementary materials determined by individual departments. Postbaccalaureate applicants, including those who completed undergraduate degree requirements and were graduated from this University, are also required to complete and submit an application and the $55.00 nonrefundable application fee. Since applicants for graduate programs may be limited to the choice of a single CSU campus on each application, approvals for redirection to alternative campuses or later changes of campus choice will be minimal. Graduate applicants who wish to be assured of initial consideration by more than one campus must submit separate applications (including fees) to each. Applications may be obtained from the departmental offices, the Graduate Division, the Office of the Registrar, or from any campus of The California State University. Applications are also available on the Web site at www.csumentor.edu/AdmissionApp/.

Application materials should be sent to:
Graduate Admissions
San Diego State University
San Diego, CA 92182-8020

General Admission Requirements

Applicants for any type of graduate study at San Diego State University must: (a) hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation as determined by the Graduate Dean; (b) have attained a grade point average of at least 2.75 (when A equals 4) in the last 60 semester (90 quarter) units attempted (this calculation may not include lower division courses taken after award of a baccalaureate degree); and (c) have been in good standing at the last institution attended. Applicants who do not qualify for admission under provisions (a) and (b) may be admitted by special action if the Graduate Dean determines that there is other academic or professional evidence sufficient to warrant such action. The Graduate Division is the only official admissions authority for graduate study at San Diego State University. See Bulletin of the Graduate Division for further details.

Members of the faculty of San Diego State University holding appointments at or above the rank of instructor or lecturer may not be candidates for degrees at this University. Faculty may register for courses as postbaccalaureate unclassified students.

Admission Categories

Applicants seeking admission to graduate study at San Diego State University must apply and be accepted in one of the following categories:

Postbaccalaureate Standing (Unclassified)

Only a limited number of students may be considered for admission to the University in postbaccalaureate standing (unclassified). Some wishing to enroll in courses for personal or professional reasons may be so admitted, as may those pursuing a second baccalaureate degree. In rare cases, students may also be admitted in this category for the purpose of removing some prior academic deficiencies. Students who are applying to take prerequisites for professional health schools should indicate premedical, preprofessional, or veterinary medicine, etc., on their application. Admission with postbaccalaureate standing (unclassified) does not constitute admission to, or assurance of consideration for admission to, advanced degree curricula. Students admitted in this category may not enroll in numbered 600 and above. Such admission does not imply that a student will be advanced to candidacy for an advanced degree.

A student who is enrolled in the University with postbaccalaureate standing may request acceptance into an advanced degree curriculum with graduate standing (classified or conditionally classified). Applications for such continuing students are available from the Graduate Division. Reports of the GRE General test scores must be on file at the University before continuing students may apply for graduate standing (classified).

Postbaccalaureate Standing (Classified)

A student wishing to be admitted to a program leading to a credential only or to an advanced certificate only (not an advanced degree) must meet the criteria specified under General Admission Requirements. A student must also meet the professional, personal, scholastic, and other standards prescribed by the appropriate department and the Graduate Council. The applicant should consult the department involved for information concerning specific admission requirements and should submit a departmental application during the appropriate filing period. Admission with postbaccalaureate standing (classified) does not constitute admission to, or assurance of consideration for admission to, advanced degree curricula.

Graduate Standing (Classified)

A student wishing to be admitted to a program of study leading to an advanced degree must meet the criteria specified under General Admission Requirements, and, in addition, must:

(a) Achieve a satisfactory score on the GRE General test. (Students holding an advanced degree from an institution that is a member of the Council of Graduate Schools are exempted from this requirement; students applying to the College of Business Administration will take the Graduate Management Admission Test. See Bulletin of the Graduate Division for other possible exemptions.)

(b) Have completed an undergraduate major appropriate to the field in which the prospective student desires to earn an advanced degree.

(c) Satisfy the special departmental or college requirements as stated in Part Three of the Bulletin of the Graduate Division under “Courses and Curricula.”

(d) Meet the professional, personal, and scholastic standards for graduate study established by the department and the Graduate Council.

Students admitted with graduate standing (classified) are admitted to authorized advanced degree curricula and may enroll in courses numbered 600 and above. Such admission does not imply that a student will be advanced to candidacy for an advanced degree.

Conditional Graduate Standing (Classified)

A student wishing to be admitted to a program of study leading to an advanced degree who meets the criteria specified under General Admission Requirements but who has deficiencies in the criteria for graduate standing (classified) may be granted conditional graduate standing (classified) if the deficiencies can be met by specific additional preparation, including qualifying examinations. Not more than 15 semester units may be assigned to satisfy undergraduate deficiencies in the major and all course conditions must be met within five semesters from the time of initial enrollment. If submission of acceptable scores on the GRE or GMAT is specified, that condition must be met before the beginning of the second semester of graduate coursework. Students admitted with conditional graduate standing (classified) are admitted to authorized advanced degree curricula and may enroll in numbered courses. Once the conditions established by the department, school, or college have been met, the student should request that the program graduate adviser file a change of status form with the Graduate Division.

Bulletin of the Graduate Division

Complete details on the operation and administration of these requirements, together with other information on graduate study, will be found in the Bulletin of the Graduate Division, which is available at the Bookstore and also available on the Web site at libweb.sdsu.edu/bulletin/.
Nondegree Curricula

Preprofessional Programs

Entrance into professional schools is becoming increasingly competitive; therefore, it is imperative that students begin planning their curriculum at the earliest possible time in conjunction with the appropriate academic adviser.

Students who are applying with postbaccalaureate standing (unclassified) to take prerequisites for professional health schools should indicate premedical, predental, preveterinary medicine, etc., on their application.

Prelegal Curriculum

The prelegal program is pursued in conjunction with a degree program. There is no specific prelaw program leading to a bachelor’s degree. Students interested in the legal profession should consult with the University prelaw adviser regarding the entrance requirements of the specific law school they hope to attend.

The following curriculum is designed to meet the requirements of standard American schools of law for a broad and liberal education, while at the same time providing desirable flexibility in the individual programs. There are two patterns of concentration which will usually be indicated for the prelegal student, either of which may be selected, in consultation with the adviser, to fit best the interests of the student. These are the major-minor pattern and the liberal studies major pattern. Subject to individual variation, the fields of economics, history, and political science should receive first consideration when choosing the pattern of concentration as being the most effective background for later professional study in law.

The following courses of study are recommended. Lower division: Accountancy 201 and 202, Economics 101 and 102, Political Science 101 and 102, and a year course in history. Upper division: In the junior and senior years students will plan their course with the counsel of their adviser in terms of the field of law in which they plan to work, but keeping in mind the entrance requirements and examinations for admission to schools of law. The following list should receive prime consideration by all prelegal students in the selection of courses, though it is to be thought of as flexible in accordance with student needs. Economics 338; History 545A-545B; Political Science 301A-301B, 346, 347A-347B. Additional: Economics 380, History 536 and 547A-547B, Political Science 348.

In addition to the courses taken in the fields of concentration, upper division electives in English, philosophy, psychology, sociology, and speech communication are recommended. A mastery of English is essential.

Students interested in pursuing a legal career are counseled by the University prelaw adviser. Through this office, prelegal students receive information and advice concerning law school application and admission procedures. Guidance in undergraduate preparation for law study is also available. The University prelaw adviser can be contacted through the Department of Political Science.

Preprofessional Health Advising Office

The preprofessional health advising office is responsible for advising premedical, predental, preveterinary, and allied health students in their preparation for and application to the professional schools of their choice. This office works in conjunction with the candidate’s major department to establish a degree program coordinated with the preprofessional requirements of the professional schools. It is the communication link between the student and the profession, keeping the student apprised of changes in the requirements and procedures for acceptance. The advising office is located in Life Sciences, Room 204, (619) 594-6638, www.sci.sdsu.edu/preprof/.

Premedical Curriculum

The premedical program is pursued in conjunction with a degree program. Students ordinarily elect to concentrate in biology, chemistry, microbiology, or psychology with a major in one area and selected coursework in the others. Other departmental majors are permissible, however. Premedical students should meet each semester with their major departmental academic adviser to obtain approval for their program for the coming semester. In addition, premedical students should confer with the premedical adviser at least once each semester to discuss other preparation for medical school. Disadvantaged premedical students should apply for the Health Careers Opportunity Program (HCOP) in Life Sciences, Room 204.

College preparation. High school students planning to enter medicine should include in their high school program the following subjects: elementary algebra, plane geometry, intermediate algebra, chemistry, physics, two or three years of French, German or Spanish, and four years of English.

Predental Curriculum

The preclinical program is pursued in conjunction with a degree program. Students ordinarily elect to concentrate in biology, chemistry, microbiology, or psychology with a major in one area and selected coursework in the others. Other departmental majors are permissible, however. Predental students should meet each semester with their major departmental academic adviser to obtain approval for their program for the coming semester. In addition, predental students should confer with the predental adviser at least once each semester to discuss other preparation for dental school. Disadvantaged predental students should apply for the Health Careers Opportunity Program (HCOP) in Life Sciences, Room 204.

College preparation. High school students planning to enter dentistry should include in their high school program the following subjects: elementary algebra, plane geometry, intermediate algebra, chemistry, physics, two or three years of French, German or Spanish, and four years of English.

Admission. Predental students must realize that the pool of dental applicants has recently increased and the competition for admission to schools of dentistry, particularly at University of California, Los Angeles and University of California, San Francisco, is great. The average overall GPA of the entering class of 1999 to UCLA was 3.54 and the science GPA was 3.53.

Admissions tests given by the American Dental Association should be taken not later than fall term one year before admission. Since the test is now given only in computer format, candidates should obtain an application packet from the preprofessional health advising office providing current information on where to take the test.

The Committee Letter is preferred by most schools of dentistry. It is San Diego State University’s formal endorsement of your candidacy. Most schools also require three letters of evaluation, two of which should be from science professors from whom you have taken courses. Evaluation request forms are available in the preprofessional health advising office. A publication: Admission Requirements of the United States and Canadian Dental Schools is available at the Campus Store or from the American Association of Dental Schools.

The preprofessional health adviser will be available to high school or transfer students by appointment during the summer before matriculation. All predental students should establish a personal file in Life Sciences, Room 204; (619) 594-6638; www.sci.sdsu.edu/preprof/.

Premedical Curriculum

The premedical program is pursued in conjunction with a degree program. Students ordinarily elect to concentrate in biology, chemistry, microbiology, with a major in one area and selected coursework in the others. Other departmental majors are permissible, however. Premedical students should meet each semester with their major departmental academic adviser to obtain approval for their program for the coming semester. In addition, premedical students should confer with the premedical adviser at least once each semester to discuss other preparation for medical school. Disadvantaged premedical students should apply for the Health Careers Opportunity Program (HCOP) in Life Sciences, Room 204.

College preparation. High school students planning to enter medicine should include in their high school program the following subjects: elementary algebra, plane geometry, intermediate algebra, chemistry, physics, two or three years of French, German or Spanish, and four years of English.
Admission. Most medical schools give preference to students with baccalaureate degrees in academic subjects; premedicine is not an academic major. Any major is acceptable to medical schools, and recent research has demonstrated that there is no bias against the nonscience major in the selection process. Nor is there any significant difference between the science and the nonscience major in medical school performance or in eventual selection of residency. The specific requirements for various majors are found in this catalog under department and program headings.

Competition for admission to California medical schools has increased markedly in the past few years. Selection for admission is based on many factors beyond the satisfactory completion of minimum requirements including undergraduate grade point average, MCAT scores, and letters of evaluation. Courses taken to satisfy the science requirements must be taken on a graded basis. The credit/no credit option should be used only sparingly in nonscience courses.

Nearly all medical schools also require applicants to take the MCAT, given early in spring and in August each year. Reservations for this examination must be made at least one month in advance of the scheduled date; application packets are available in the preprofessional health advising office.

The office also has a manual which describes the test and provides practice questions and suggestions for preparing for the test. Applicants are urged to take the test in the spring of the calendar year preceding the year of admission to medical school and not later than the fall term one year before anticipated admission.

The Committee Letter is preferred by most schools of medicine. It is San Diego State University’s formal endorsement of your candidacy. Three to five individual letters of evaluation are also generally required by medical schools and used in the selection process. At least two letters should be from science faculty. The importance of these letters cannot be overemphasized. It is strongly recommended that premedical students secure letters from instructors immediately upon finishing courses, and that students see their adviser regularly so that the adviser can recommend these letters. Evaluation forms are available in the preprofessional health advising office.

The varying admission requirements of medical schools are listed in the publication Medical School Admission Requirements (available in the Campus Store). Since most students seek admission to an average of twenty medical schools, this book should be consulted during the year of application.

Osteopathic medical schools require basically the same minimum undergraduate program as allopathic schools. Most schools also request letters of evaluation from practicing osteopathic physicians.

The preprofessional health adviser will be available to high school or transfer students by appointment during the summer before matriculation. All premedical students should establish a file in Life Sciences, Room 204, (619) 594-6638, www.sci.sdsu.edu/preprof/.

Preveterinary Curriculum

The preveterinary program is pursued in conjunction with a degree program. Students ordinarily elect to major in biology. Other departmental majors are permissible, however. Preveterinary students must meet each semester with their major departmental academic adviser to obtain approval for their program for the coming semester. In addition, preveterinary students should confer with the preveterinary adviser at least once each semester to discuss other preparation for veterinary medicine school. Disadvantaged preveterinary students should apply for the Health Careers Opportunity Program (HCOP) in Life Sciences, Room 204.

College preparation. High school students planning to enter veterinary medicine should include in their high school program the following subjects: elementary algebra, plane geometry, intermediate algebra, chemistry, physics and four years of English.

Admission. Competition for veterinary school admission continues to be great, with a 4 to 1 ratio of applicants to accepted students at University of California, Davis. All preveterinary students should consider applying to one or more out-of-state schools in addition to UC Davis, as most U.S. schools now accept nonresidents.

The Committee Letter is used by many schools of veterinary medicine. It is San Diego State University’s formal endorsement of your candidacy. Two or three additional letters from veterinarians and science faculty are also generally required and used in the selection process. The importance of these letters cannot be overemphasized.

A publication, Veterinary Medical School Admission Requirements in the United States and Canada, is available in the preprofessional health advising office and in the Campus Store.

The preprofessional health adviser will be available to high school or transfer students by appointment during the summer before matriculation. All preveterinary students should establish a file in Life Sciences, Room 204, (619) 594-6638, www.sci.sdsu.edu/preprof/.

Allied Health Professions

The allied health professions in the College of Sciences include chiropractic medicine, dental hygiene, optometry, pharmacy, physician assistant, and podiatric medicine. San Diego State University does not offer specific degree programs in these fields. Prephysical therapy advising is in the Department of Exercise and Nutritional Sciences, ENS 331; telephone (619) 695-5161 (Dr. Denise A. Wiksten or Ronald V. Josephson).

Chiropractic Medicine, Preoptometry, Prepharmacy, Pre­physician Assistant, and Prepodiatric Medicine. Students interested in these fields usually major in biology since this curriculum is most appropriate. Other majors, such as chemistry, may be used; however, students must complete the required courses regardless of which major is chosen. In general, all schools require the same courses in biology, chemistry, physics, and mathematics; students should be in contact with the schools of their choice to determine any specific requirements.

Academic Requirements for Entrance to a Professional Degree Program in One of the Above Allied Health Professions. Students should see their academic adviser and the preprofessional adviser to ensure that all entrance requirements are met. Students interested in the above allied health professions (except for prephysical therapy) are encouraged to open a file early in their academic careers at the Preprofessional Health Advisory Office, Life Sciences, Room 204.

Preoccupational Therapy. Students interested in a career in occupational therapy may major in a variety of areas including psychology, art, or biology. There are several schools in California that offer B.S. or M.S. degrees in occupational therapy. Students must complete certain courses required by each school; in general, these include courses in the humanities, natural sciences and mathematics, and social sciences.

Prephysical Therapy. The prephysical therapy curriculum is pursued in conjunction with an academic major. Students ordinarily select a major in Kinesiology (emphasis in Pre-Physical Therapy) and complete selected coursework in other departments. Another departmental major is often selected in biology. Prephysical therapy students should confer with their departmental adviser prior to initial registration, and at least once each semester regarding their program progress.

Prephysical Therapy Requirements. Course requirements for entry to physical therapy school vary according to the school. Generally, prephysical therapy students should include the following courses in their program: Biology 202, 210, 212, 336, and 436; Chemistry 200 and 201; Physics 180A-180B, 182A-182B; and Psychology 101, 270, and 350. Information regarding the required courses for specific physical therapy schools is available through the Department of Exercise and Nutritional Sciences. Each student should consult the major adviser for the level of course required when there are alternatives.

Prephysical Therapy Recommended Electives. In addition to the courses listed, students must complete requirements for their major. In order to enhance preparations for physical therapy, professional school students should consider completing one or more of the
following courses: Biology 201 and 590; Chemistry 130; Exercise and Nutritional Sciences 303, 304, 307; Mathematics 121; Psychology 230.

Prephysical Therapy Admission: Most physical therapy schools give preference to students with baccalaureate degrees in academic subjects. The accredited physical therapy programs in California and their entrance requirements are available in a handout from the Department of Exercise and Nutritional Sciences. A list of physical therapy schools in other states can be obtained from the American Physical Therapy Association in Washington, D.C. (www.apta.org).

Students are reminded that requirements for admission to physical therapy school are varied. Therefore, the student should consult the above sources and the school(s) of choice at least two years prior to expected application. Students should expect to fulfill the following general requirements for admission: (1) specific course requirements as outlined above, (2) volunteer experience in a hospital or clinical physical therapy program, and (3) satisfactory completion of the GRE examination.

Preparation for Other Professions

Full programs of professional study in other fields, such as agriculture, forestry, architecture, and theology, are not available at San Diego State University. However, students who may wish to take some undergraduate work in liberal arts at this university can also begin coursework in preparation for such programs. Students are advised to consult the catalog of the university to which they expect to transfer to determine requirements before arranging the program. Further information may be obtained from the Assistant Dean of Students in the appropriate college at San Diego State University.

Certificate Programs

Basic Certificate

The purpose of the basic certificate program is to provide individuals whose educational objectives do not require a degree program the opportunity to participate in University academic activities designed to meet specific educational needs.

Ordinarily, credit certificate programs are available to matriculated and nonmatriculated students. Students seeking a certificate must apply for admission according to the guidelines set forth by the individual certificate programs.

Coursework for a basic certificate shall not duplicate in content and level the student’s prior educational experience. Unless otherwise stated, a student may apply no more than six units of coursework from a basic certificate program toward a major or minor with the approval of the department.

For a complete listing of certificate programs offered by San Diego State University, refer to the Curricula Summary section of this catalog.

Advanced Certificate – Postbaccalaureate

The advanced certificate at the postbaccalaureate entry level provides students a program of coursework leading to a specific applied goal. The general educational background of a bachelor’s degree with a major in the appropriate field(s) of study is prerequisite to such a certificate.

For a listing of admission standards and specific certificate requirements, refer to the Bulletin of the Graduate Division.
Continuing Education

Functions

The California State University regards the credit-bearing programs offered through Extended Education as integral parts of the institution. These programs are viewed as extensions of the institution's educational services and are in concert with the institution's overall mission and purpose. The programs and courses in Extended Education are expected to meet the standards of quality that the institution sets for its other programs and courses, with regard to resources, faculty, level of instruction, evaluation, and support services.

The College of Extended Studies at San Diego State University serves as the principal University liaison with the adult community and provides a wide variety of traditional and nontraditional, credit and noncredit, educational experiences designed to fit the lifestyle and expectations of lifelong learners. In addition, it provides a range of academic and special programs for students and groups during the summer months, in the evenings, and between semesters. Under the direction of the Dean of the College, programs are developed and carried out within five divisions: Special Sessions and Extension, Professional Development, American Language Institute, International Training Center, and Administrative Services. The majority of the programs are operated on a self-support basis since state funds are not provided for Continuing Education activities.

Limitations on Open University and Special Sessions Credit

Not more than nine units of combined coursework in Open University and special sessions completed prior to admission to an advanced degree or an advanced certificate program will be acceptable on a program of study. Admission to an advanced program requires formal admission to the University and enrollment in at least one course offered in the regular semester for which the student was admitted, a recommendation of the graduate adviser of the particular program, and the approval of the Dean of the Graduate Division. Once matriculated, students may take additional courses in Open University to meet degree or certificate requirements only with the prior permission of the Dean of the Graduate Division.

Open University

Most regular on-campus courses are open to students through enrollment in Open University. Open University courses earn matriculated resident credit and enrollment for students not seeking an advanced degree or advanced certificate and does not require formal admission to the University. Enrollment in courses through Open University is on a space available basis with the consent of the instructor and approval of the chair of the department in which the course is offered. Students pay College of Extended Studies fees for these units. The course repeat policy applies to courses repeated through Open University. Consult the College of Extended Studies or the current Class Schedule for complete details on Open University qualifications and registration procedures. A maximum of 24 units earned through Open University, Extension, and credit-by-examination combined may be used toward total units required for the bachelor’s degree.

Open University classes may not be taken by the following:

1. Nonmatriculated foreign students (nonresidents from non-English-speaking countries) with a score of less than 550 on the Test of English as a Foreign Language (TOEFL) or its equivalent.
2. Foreign students with I-20 visas from another university.
3. SDSU matriculated students.

American Language Institute (ALI)

The American Language Institute offers noncredit intensive (20-25 hours per week) English programs throughout the year to students and professionals interested in improving their English proficiency. By enrolling in the ALI, students may take advantage of a program called conditional acceptance. Conditional acceptance is available to those students who require admission, or proof of eligibility for admission, to a university in order to obtain a passport, a U.S. Visa, or government sponsorship. It is offered to students who do not have an adequate command of English or the required TOEFL (Test of English as a Foreign Language) score to qualify for admission to the University. After transcripts of their academic work have been evaluated by SDSU staff, students may receive an official letter of conditional admission which states that the student has met all University requirements except English language proficiency and may enter the University after training at the American Language Institute and achieving appropriate TOEFL scores.

Programs offered by ALI are as follows:

English for Academic Purposes

An 11- to 17-week course for students planning to enter San Diego State or other colleges or universities. Classes are offered in reading, writing, grammar, academic listening/notation and academic speaking, as well as in special areas, including TOEFL, GMAT, and GRE test preparation and business topics. In addition, students may choose from over 30 elective course offerings. Students may also specialize in Pre-MBA preparation.

Highly advanced students may register for three to twelve units of SDSU courses in addition to their English classes.

Intensive English Communications

A 3- to 19-week course emphasizing oral skills and cultural experiences. Classes include eight hours of oral communication in addition to 12 hours of reading, writing, structure, and listening per week. Elective courses are offered, and directed activities at SDSU and in the community provide experiences for language use. Professionals in IEC may specialize in Intensive English for Managers. Regular field trips to places of educational and recreational interest are an integral part of the program.

Specific Purposes Programs

Programs for students and professionals with specific needs, including Management and Business English; Business Seminar for International Executives; Seminar for International Teachers of English; Certificate in Business Program; and Pre-MBA Preparation; are offered.

Summer and Winter Special Programs

A number of special short-term programs are offered by the ALI each summer and winter (e.g., Management and Business English; Business Seminar for International Executives, Seminar for International Teachers of English, English Language Study Tours). These can be arranged for groups or individuals.

Services

All students at the Institute are offered housing assistance, counseling for university entrance, health services and orientation to university life.

Information about and applications for the ALI can be obtained from the Director, American Language Institute. The Web site address is www.americanlanguage.org.
Travel Study Programs

The College offers students and the general public the opportunity to study language and culture in foreign countries while earning SDSU credit. In addition, travel study programs include non-credit wilderness trips which enable the public to explore the historical sites and natural wonders of California, Arizona, and Mexico.

For further information contact the Coordinator of Travel Study Programs.

Certificate Programs

Certificate programs provide educational services to a wide variety of groups and professional organizations. A complete listing of certificate programs available is in the section of this catalog on “Curricula Summary.”

Extension

In order to meet the needs of the adult community as well as matriculated students, the College provides a variety of extension courses, workshops, and Open University. For the convenience of adult students most courses are scheduled in the evenings or on weekends, on campus or at convenient learning extension centers throughout the service area.

Extension Courses

Extension courses are offered each semester in a number of areas including education, business administration, public administration, and the arts and sciences. Many courses and programs are developed in cooperation with off-campus organizations and groups who have identified specific needs. Many one-unit weekend workshops are also offered throughout the year. These courses are listed in a special Extended Studies Catalog published three times a year.

There is no limit on the total number of extension units for which a student may enroll; however, a maximum of 24 units earned through Open University, Extension, and credit-by-examination combined may be used toward total units required for the bachelor’s degree. Extension work is considered the same as transfer credit and is not included in the student’s San Diego State University scholastic average.

Retired Adults Education Program

SDSU’s College of Extended Studies’ program for lifelong learners is located in Rancho Bernardo. A wide variety of classes, special events and travel study opportunities are offered throughout the year. Anyone age 18 or older is welcome to participate in the Continuing Education Center at Rancho Bernardo’s adventures in learning. Please call (858) 487-0464 for a brochure.

Professional Development

The Division of Professional Development provides business and industry with programs that are responsive to the training and development needs of their employees. Through the Division’s activities, participants are kept abreast of the latest business and leadership techniques that ensure they will add to the productivity and profitability of their organizations.

Custom On-Site Training

SDSU’s Professional Development Division of the College of Extended Studies specializes in developing and implementing on-site training programs that meet specific needs of the San Diego business community.

The programs serve medium as well as large businesses and organizations with topics ranging from team building and communication skills to supervision, leadership, process improvement, and executive programs.

Program leaders and training consultants are drawn from the academic and business worlds and have extensive practical experience. The programs offer significant value for the time invested and are designed with quality and adaptability in mind.

Seminars and Workshops

The Division coordinates practical one- to five-day seminars and workshops aimed at increasing the skills of the business professional. These seminars are taught by local and national seminar leaders chosen from the business and academic worlds for their expertise and outstanding teaching ability. Topics addressed cover a wide range of business subjects, such as leadership, finance, marketing, manufacturing, quality issues, and customer service issues related to global competitiveness.

Corporate Partnerships: Professional Development

The Management Development Center and the Institute for Quality and Productivity, within Professional Development, offer membership benefits to companies joining at the Presidential, Director, and Associate levels. Representatives from member companies sit on advisory boards and play an active role in designing and selecting training courses and instructors. In addition, the annual membership enables the company to get more training for its training dollars. A third benefit to members is the networking opportunities that develop through association with other companies with similar training needs.

International Training Center

The International Training Center (ITC) addresses the new opportunities in professional development, training and technology transfer created by the increasing globalization of our economic, social, and business activities. The Center is charged institutionally with a wide range of programs dealing with innovation, professionally relevant education and current issues of interest to the international community. Activities include collaborative projects with SDSU’s academic colleges and support units to deliver multilingual seminars, workshops, and courses internationally. The Center also advises and provides guidance to SDSU’s administration on international agreements and special projects of institutional interest.

The International Training Center brings significant University resources to bear on the challenges of international business and responds to global change through the following mechanisms:

• International videoconferencing, supporting professional and human resource development through interactive satellite communication. International experts present video-seminars on management, technology transfer, and other topics, supporting the training needs of government, industry, and education;
  • Technical assistance in the use of modern instructional media;
  • Training and professional development on topics related to global competitiveness; and
  • Short term training and immersion programs on selected subjects of technological and professional interest.

The International Training Center exists to increase understanding of the new realities of global development, and to serve government and industry through technology training and human resource development.
Admission and Registration

Undergraduate Admission Policy

Admission to San Diego State University is selective. SDSU has been granted impacted status by The California State University system in order to assure that the educational experience, including the availability of classes and the array of services provided, of each enrolled student is not compromised by over enrollment. To this end, admission criteria OVER AND ABOVE THOSE REQUIRED BY THE CALIFORNIA STATE UNIVERSITY are now in effect. Meeting CSU minimum admission criteria will not guarantee admission to San Diego State University.

Undergraduate Application Filing Periods

- Fall Semester: November 1-30
- Spring Semester: August 1-31

Undergraduate Application Procedures

Prospective students who are applying for full-time or part-time undergraduate programs of study, in day or evening classes, must complete a California State University (CSU) undergraduate admission application during the application filing period (see above). Applications may be obtained from the admissions office at any of the campuses of The California State University or at any California high school or community college. The $55 application fee must be in the form of a check or money order payable to The California State University. An electronic version of the CSU undergraduate application is available on the Web site at www.csueb.edu/apply. Credit card payment is also acceptable if applying electronically via the Web site. The application fee is nonrefundable and may not be transferred to a future semester.

Admission decisions are based on the information that the student self reports on the admission application. Therefore, it is essential that the application be filled out completely and accurately. Misrepresenting oneself on the application will result in a revocation of admission regardless of when the misrepresentation is discovered.

Application Acknowledgment and Supplemental Application

You will receive an acknowledgment from San Diego State University verifying receipt of your application. If you are asked to submit the SDSU Supplemental Application, it will be included in a separate letter.

The questions on the Supplemental Application will help us get to know you better. We would like to know who you are and in what areas you will contribute to our SDSU community. Failure to return the Supplemental Application will result in denial of admission.

Supplementary Admission Criteria

Each campus with impacted programs uses supplementary admission criteria in screening applicants. Supplementary criteria may include ranking on the freshman eligibility index, the overall transfer grade point average, completion of specified prerequisite courses, and a combination of campus-developed criteria. If you are required to submit scores on either the SAT I or the ACT, you should take the test no later than October if applying for admission.

The supplementary admission criteria used by the individual campuses to screen applicants appear periodically in the CSU Review and are sent by the campuses to all applicants seeking admission to an impacted program.

Unlike unaccommodated applicants to locally impacted programs who may be redirected to another campus in the same major, unaccommodated applicants to systemwide impacted programs may not be redirected in the same major but may choose an alternate major either at the first choice campus or another campus.

Undergraduate Admission Requirements

First-Time Freshman Requirements

To be considered for admission to San Diego State University, you must:

1. submit ACT or SAT I test scores (regardless of high school grade point average)
2. be a high school graduate,
3. have a qualifiable eligibility index (See "Eligibility Index," below), and
4. have completed the subject requirements with a grade of C or higher by the semester or term designated in "Subject Requirements" below.

Test Scores

Freshman applicants must submit scores from either the Scholastic Aptitude Test (SAT) or the American College Test (ACT). You should take the test as early as possible, but not later than early October if applying for Fall admission. You may get registration forms and dates for these tests from your high school or college counselors or from the SDSU Test Office. Or, you may write to or call:

The College Board (SAT I)  American College Testing
Registration Unit, Box 6200  Registration Unit, P.O. Box 414
Princeton, New Jersey 08541  Iowa City, Iowa 52243
(609) 771-7588  (319) 337-1270

Official scores should be requested from the testing service at the time you register and sent directly to SDSU (SDSU's SAT I code is 4682; SDSU's ACT code is 0398).

Eligibility Index

The eligibility index is the combination of your high school grade point average and your scores on either the American College Test (ACT) or the Scholastic Aptitude Test (SAT I). Your grade point average is based on grades earned during your final three years of high school and bonus points for approved honors courses (excluding grades earned in physical education or military science courses). Up to eight semesters of honors courses taken in the last two years of high school can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points. No honor points are given for D or F grades.

You can calculate your eligibility index by multiplying your grade point average by 800 and adding your total score on the SAT I. Or, if you took the ACT, multiply your grade point average by 200 and add ten times the composite score from the ACT.
**Minimum Eligibility Index Needed for Consideration**

**Subject Requirements**

San Diego State University requires that first-time freshman applicants complete, with grades of C or better, the following 15 units of college preparatory courses. A unit is one year of study in high school.

- **English:** 4 years.
- **Mathematics:** 3 years. Algebra, geometry, and intermediate algebra.
- **US History or US History and Government:** 1 year.
- **Science:** 1 year with laboratory. Biology, chemistry, physics, or other acceptable laboratory science.
- **Foreign Language:** 2 years in the same language (subject to waiver for applicants who can demonstrate equivalent competence).
- **Visual and Performing Arts:** 1 year. Art, dance, drama/theatre, or music.
- **Electives:** 3 years, selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts, and agriculture.

**NOTE:** The foreign language requirement may be satisfied by applicants who demonstrate competence in a language other than English which is equivalent to or higher than expected of students who have completed two years of foreign language study. Consult with your school counselor or any CSU admissions or outreach office for further information.

If you are applying for Fall admission, you must complete your subject requirements by the Summer term before enrollment at SDSU. If you are applying for Spring admission, you must complete your subject requirements by the Summer term before enrollment at SDSU.

Applicants seeking admission as first-time freshmen for the Fall 2003 or later terms will have the same preparatory course requirements for admission to both the California State University and the University of California. The preparatory course admission requirements for both systems will be the completion of following courses with a grade of C or better, four years of English, three years of math (algebra, geometry, and intermediate algebra), two years of U.S. history or social science, two years of laboratory science, two years of foreign language, one year of visual or performing arts, and one year of electives chosen from one of the areas above.

**Subject Requirement Substitution for Students with Disabilities**

Applicants with disabilities are encouraged to complete college preparatory course requirements if at all possible. If you are judged unable to fulfill a specific course requirement because of your disability, alternate college preparatory courses may be substituted for specific subject requirements. Substitutions may be authorized on an individual basis after review and recommendation by your academic advisor or guidance counselor in consultation with the director of a CSU disabled student services program. You should be aware that failure to complete courses required for admission may limit your later enrollment in certain majors, particularly those involving mathematics. For further information and substitution forms, please call the director of disabled student services at your nearest CSU campus.

**Freshmen Who are Graduates of High Schools in Foreign Countries**

Graduates of secondary schools in foreign countries must be judged to have equivalent academic preparation and abilities. Please submit your high school transcript with your CSU application.

All undergraduate applicants, regardless of citizenship, who do not have at least three years of full-time study in schools at the secondary level or above where English is the principal language of instruction, must present a score of 550 or higher (using the paper version) or 213 or higher (using the computer version) on the Test of English as a Foreign Language (TOEFL).

**Early Notification of Admission**

The University may offer early notification of admission to first-time freshman applicants who report an exceptional high school record and test scores. Students who are in this category will NOT receive a supplemental application.

**Provisional Admission**

All first-time freshman applicants who are admitted, are admitted provisionally. Offers of provisional admission may be rescinded if senior year work is not completed at a satisfactory level or if any requirements were misrepresented on the application.

**High School Students**

Students still enrolled in high school will be considered for enrollment in certain special courses if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given course and does not constitute the right to continued enrollment.

**Transfer Student Requirements**

**Lower Division Transfers**

A student is considered a lower division transfer student if he/she has completed less than 56 semester units of transferable baccalaureate-level college work. In recent years the number of applicants has far exceeded the number of spaces available, and it has become necessary to adopt admission standards which are more demanding than the minimum California State University (CSU) requirements. The following are the minimum requirements for admission consideration and do not guarantee admission to San Diego State University.

To be considered for admission to San Diego State University as a lower division transfer student, you

1. must have a minimum grade point average of 2.0 in all transferable college work attempted, and
2. must have met the freshman admission requirements in effect for the term to which you are applying, or
3. must be eligible using current freshman admission requirements, except for the subject requirements, but have made up the missing subject requirements with the appropriate college courses.

Because the number of applicants to SDSU exceeds the number of spaces available for admission, the college grade point average necessary for selection will be substantially higher than 2.0.

Please be advised that the above are minimum eligibility requirements for lower division transfer students. Applicants can substantially improve their chances for admission if they need no remediation in mathematics and writing.

The need for mathematics remediation is cleared if you have fulfilled ONE of the following:

1. present an ACT mathematics score of 23 or higher, or an SAT I mathematics score of 550 or higher, or
2. passed a transferable college-level mathematics course with a grade of C or better at the time of application. To meet this requirement, the course must have at least intermediate algebra as a prerequisite.

The need for writing remediation is cleared if you have fulfilled ONE of the following:

1. present an ACT English usage score of 24 or higher, or an SAT I verbal score of 550 or higher, or...
Admission and Registration

2. passed a transferable college-level English composition course with a grade of C or better at the time of application.

Students with less than 56 semester (84 quarter units) of transferable college credit must submit scores from either the Scholastic Assessment Test (SAT) or the American College Test (ACT). You should take the test as early as possible, but no later than October if applying for Fall admission. You may get registration forms and the dates for these tests from your high school or college counselors or from the SDSU Test Office. Or, you may write to or call:

The College Board (SAT I)
Registration Unit, Box 6200
Princeton, New Jersey 08541
(609) 771-7588

American College Testing Program (ACT)
Registration Unit, P.O. Box 414
Iowa City, Iowa 52243
(319) 337-1270

Official scores should be requested from the testing service at the time you register for the test and sent directly to SDSU (SDSU's SAT I code is 4682; SDSU’s ACT code is 0398).

Provisional Admission

All lower-division transfer applicants who are admitted, are admitted provisionally. Offers of provisional admission may be rescinded if work in progress is not completed at a satisfactory level or if any requirements were misrepresented on the application.

Making Up Missing College Preparatory Subject Requirements.

Lower division applicants who did not complete the subject requirements while in high school may make up missing subjects in any of the following ways.

1. Complete appropriate courses with a grade of C or better in adult school or high school summer sessions.
2. Complete appropriate courses in college with a grade of C or better. One college course of at least three semester or four quarter units will be considered equivalent to one year of high school study.
3. Earn acceptable scores on specified examinations.

Please consult SDSU or any CSU campus admissions office for further information about alternative ways to satisfy the subject requirements.

Upper Division Transfers

A student is considered an upper division transfer student if he/she has completed 56 or more semester units of transferable baccalaureate-level college work. In recent years the number of applicants has far exceeded the number of spaces available, and it has become necessary to adopt admission standards which are more demanding than the minimum California State University (CSU) requirements.

The following are the minimum requirements for admission consideration and do not guarantee admission to San Diego State University.

To be considered for admission as an upper division transfer student, you

1. must have completed at least 56 transferable baccalaureate-level semester units (84 quarter units) including transferable courses in oral communication, written communication, critical thinking, and mathematics with a grade of C or better. If you are applying for Fall admission, you must complete your courses in oral communication, written communication, critical thinking, and mathematics by the Spring term before enrollment at San Diego State University. If you are applying for Spring admission, you must complete these courses by the Summer term before enrollment at San Diego State University.
2. must have a minimum grade point average of 2.0 in all college work attempted (a 2.4 GPA is the minimum for non-residents).

Because the number of applicants to SDSU exceeds the number of spaces available for admission, the college grade point average necessary for admission will be substantially higher than 2.0.

Students transferring from California community colleges or other California State Universities can use the appropriately certified “CSU General Education Breadth Requirement” courses to fulfill the oral communication (A1), written communication (A2), critical thinking (A3), and mathematics (B4) requirements. Students transferring from private or out-of-state colleges or universities must submit courses to fulfill the oral communication, written communication, critical thinking, and mathematics requirements that are equivalent to those required by San Diego State University.

Provisional Admission

All upper-division transfer applicants who are admitted, are admitted provisionally. Offers of provisional admission may be rescinded if work in progress is not completed at a satisfactory level or if any requirements were misrepresented on the application.

Acceptance of Transfer Courses

Courses taken at a regionally accredited college or university and designated as appropriate for baccalaureate credit by that institution will be accepted by San Diego State University for credit toward transfer admission. San Diego State University reserves the right to determine the extent to which such credit satisfies the specific and elective requirements of degree programs.

Courses completed at regionally accredited institutions not offering the baccalaureate and at special-purpose baccalaureate-granting institutions are acceptable if specifically certified by the institution or by San Diego State University as similar in level and rigor to SDSU courses.

Courses completed at institutions without regional accreditation or taken at a regionally accredited institution as part of a professional program, i.e., medical, dental, legal, veterinary, optical, etc. are not normally accepted by San Diego State University. Such courses may be accepted on an individual basis if a review by the appropriate department determines comparability to a course in the San Diego State University curriculum.

Adult Students

As an alternative to regular admission criteria, an applicant who is 25 years of age or older may be considered for admission as an adult student if he or she meets all of the following conditions:

1. Possesses a high school diploma (or has established equivalence through either the Tests of General Educational Development or the California High School Proficiency Examination).
2. Has not been enrolled in college as a full-time student for more than one term during the past five years. Part-time enrollment is permissible.
3. If there has been any college attendance in the past five years, has earned a grade point average of C or better in all college work attempted.
4. Test scores verifying completion of current San Diego State University competency requirements in mathematics and writing. Current competency requirements and minimum test scores are published in the University General Catalog and each semester’s Class Schedule; the most recent published scores will be required.

Applicants seeking admission as an adult student must submit a statement of no more than two pages describing the alternate preparation which the applicant feels has prepared him or her for successful university work. The statement should also describe the applicant’s educational goals and what preparation has been made to pursue these goals. Consideration for admission will be based upon a judgment as to whether the applicant is as likely to succeed as a regularly admitted freshman or transfer student and will include an assessment of basic skills in the English language and mathematical computation.

Readmission

If you leave the University for more than one semester, you must file an application for readmission before the stated closing deadline to the term you wish to return, along with a $55 application fee. Readmission is automatic. If you have an overall grade point average of 2.0, have met all initial admission conditions and completed any required remediation in writing and mathematics, you will be eligible for provisional
admission. If you enrolled at any other college or university after leaving SDSU, you will be required to submit official transcript(s) in order to clear the provisional readmission.

If you were administratively disqualified from SDSU, you must satisfy all requirements that led to your disqualification to be considered for provisional readmission. When requirements are met, your readmission will follow the guidelines above.

Readmitted students will be subject to the catalog requirements in effect at the time they resume study at SDSU or a California community college and remain in continuous attendance (see "Electing of Regulations for Graduation" under "Graduation Requirements").

Readmission to the University does not guarantee readmission into a major. Readmitted students must meet the criteria to enter the major in effect when they return to SDSU.

Readmission of Academically Disqualified Students

Disqualified students will not be readmitted earlier than one year after disqualification. Students may be considered for readmission only after filing an official application for readmission with a $55 application fee by the published deadlines (November for fall semester and August for spring semester). Under exceptional circumstances the Director of Disabled Student Services or an Assistant Dean for Student Affairs may initiate a petition on behalf of a student for reinstatement before the end of one year. The University Admissions Appeal Committee will review such petitions, and approval is not guaranteed.

Readmission is not automatic. Each applicant will be considered based on the information provided on the CSU Admission Application and their SDSU record. Disqualified students will compete with other applicants for available admission spaces. Students accepted for provisional readmission will reenter on academic probation. Normally, students who have been disqualified twice from SDSU will not be considered for readmission.

Disqualified students should be aware of the following:

1. Grades of less than 2.0 (C) for courses taken at SDSU will not be replaced if the courses are repeated at another college or university. These courses can be repeated during Fall and Spring semesters and Summer term through SDSU's Open University.

2. Grades earned at other accredited colleges or universities do not reduce the SDSU grade point deficiency or change the SDSU grade point average. These grades will be used in calculating the overall GPA. Grades for courses taken in Fall and Spring semesters and Summer term through SDSU's Open University will be used in calculating the student's SDSU GPA.

3. Disqualified students who have completed a minimum of 56 baccalaureate units will not be readmitted to the undeclared category.

International (Foreign) Student Admission Requirements

San Diego State University offers opportunities for graduate and undergraduate study to those foreign students whose academic preparation meets the standards for admission. "Foreign students" include those who hold US visas as students, exchange visitors, or in other non-immigrant classifications. SDSU uses separate requirements and application filing dates in the admission of foreign students. Priority in admission is given to residents of California. There is little likelihood of nonresident applicants, including international students, being admitted to a major without making a significant commitment to the university.

Applicants for admission as either graduates or undergraduates whose education has been in a foreign country must file an application for admission, official certificates, and detailed transcripts of record from each secondary school and collegiate institution attended. All documents, transcripts, and test scores must be received by the Office of Admissions no later than July 1 for the fall semester or December 1 for the spring semester of each year. If certificates and transcripts are not in English, they should be accompanied by certified English translations. Credentials will be evaluated in accordance with the general regulations governing admission to San Diego State University.

Applicants whose major education has been in a language other than English must score 550 or higher (using the paper version) or 213 or higher (using the computer version) on the Test of English as a Foreign Language (TOEFL). This test is administered in most foreign countries. The University must receive official test scores before admission can be granted. Information as to the time and place at which this test is given may be obtained by writing to the Educational Testing Service (TOEFL), Princeton, New Jersey 08541, USA.

Upon arrival at San Diego State University, further tests of English may be given for the purpose of placing students in an English language program commensurate with their linguistic ability in English and to assist advisers in planning an appropriate course of study. Depending upon their performance on the placement test and their academic background, students may be required to enroll in one or more English language courses during their first year. Foreign students admitted to the University will be subject to the same competency and placement examinations and standards as govern the rest of the student population.

Insurance Requirement: As a condition of receiving an I-20 or IAP-66 form, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of registration and continued enrollment. Such insurance must be in amounts as specified by the United States Information Agency (USIA) and NAFAA: Association of International Educators. The campus President or designee shall determine which insurance policies meet these criteria. Further information may be obtained from the International Student Center.

American Language Institute: If instruction is needed prior to admission to San Diego State University, students may enroll in the American Language Institute. The American Language Institute (ALI) offers preparation in the English language reading, writing, and listening skills necessary for university success for those students enrolling in the American Language Institute, a conditional admission is available. It is for those students who require acceptance to a university in order to obtain a passport, a U.S. Visa, or government sponsorship. The program is offered to students who do not have an adequate command of English or the required TOEFL (Test of English as a Foreign Language) score to qualify for admission to the University. After transcripts of their academic work have been evaluated, students may receive an official letter of conditional admission which states that the student has met all University requirements except English language proficiency and may enter the University after appropriate TOEFL scores and training at the American Language Institute.

Housing and Scholarship: Arrangements for housing should be completed well in advance of the student's arrival on the campus. Detailed information regarding housing may be obtained from the Housing and Residential Life Office, San Diego State University. Scholarship aid for entering students is limited; no scholarships are specifically reserved for students from another country. Further information regarding scholarships will be found in the section of this catalog on Financial Aid and Scholarships.

TOEFL Requirement

All undergraduate applicants, regardless of citizenship, who have not attended schools at the secondary level or above for at least three years of full-time study (only transferable courses count toward a student's full-time status) where English is the principal language of instruction, must present a score of 550 or higher (using the paper version) or 213 or higher (using the computer version) on the Test of English as a Foreign Language (TOEFL).

Filing of Documents

If admitted, official documents for international applicants must be on file no later than July 1 for Fall admission or December for Spring admission. (See "Filing of Records below for details).
Admission Requirements
Graduate and Postbaccalaureate

San Diego State University also offers a special program designed to expand educational opportunity for capable persons who, for a variety of reasons, have not previously had the opportunity. For detailed information regarding admission to this program, refer to the section of this catalog on the Educational Opportunity Program.

Filing of Records
File Official Transcripts. If admitted, you must file the following official transcripts with the Office of Admissions.

1. Transcript from high school of graduation or last in attendance (not required of the graduate student who holds a bachelor’s degree from an accredited institution, but is required of the student who holds a bachelor’s degree from a nonaccredited institution).
2. Transcripts from EACH college attended (including extension, correspondence, summer session, or evening courses), even if no courses were completed. Graduate students must file transcripts in duplicate if they plan to enter a master’s degree or credential program.
3. Photostat or true copy of the military separation form DD-214 (or equivalent) if applicant has had active military service. (Not required of graduate students.)

A transcript will be considered official if forwarded directly to San Diego State University by the institution attended. All records or transcripts received by the University become the property of the University and will not be released nor will copies be made.

Note: All needed documents, for international applicants must be on file no later than July 1 for the fall semester or December 1 for the spring semester.

Graduate and Postbaccalaureate Application Procedures

All graduate and postbaccalaureate applicants (e.g., master’s degree applicants, those seeking credentials, and those interested in taking graduate level courses for personal or professional growth) must file a complete graduate application as described in the CSU graduate and postbaccalaureate admission booklet. Applicants who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and the $55 nonrefundable application fee. Since applicants for postbaccalaureate programs may be limited to the choice of a single campus on each application, redirection to alternate campuses or later changes of campus choice will be minimal. To be assured of initial consideration by more than one campus, it will be necessary for any applicant to submit separate applications (including fees) to each. Applications may be obtained from the Graduate Studies Office of any California State University campus. An electronic version of the CSU graduate application is available on the Web site at www.csumentor.edu/.

Graduate and Postbaccalaureate Admission Requirements

Admission Requirements
Graduate and postbaccalaureate applicants may apply for a degree objective, a credential or certificate objective, or may have no program objective. Depending on the objective, San Diego State University will consider an application for admission as follows:

General Requirements
The minimum requirements for admission to graduate and postbaccalaureate studies at a California State University campus are in accordance with university regulations as well as Title 5, chapter 1, subchapter 3, of the California Code of Regulations. Specifically, a student shall: (1) have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities; (2) be in good academic standing at the last college or university attended; (3) have attained a grade point average of at least 2.75 (A = 4.0) in the last 60 semester (90 quarter) units attempted (this calculation may not include lower division courses taken after award of a baccalaureate degree); and (4) satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe. In unusual circumstances, a campus may make exceptions to these criteria.

All applicants seeking admission to postbaccalaureate study at San Diego State University must apply and meet the minimum requirements to be accepted in one of the following categories (consult the Bulletin of the Graduate Division for detailed information):

• Postbaccalaureate Unclassified. To enroll in graduate courses for professional or personal growth, you must be admitted as a postbaccalaureate unclassified student. By meeting the minimum requirements, you are eligible for admission as a postbaccalaureate unclassified student. Some departments may restrict enrollment of unclassified students due to heavy enrollment pressure. Admission in this status does not constitute admission to, or assurance of consideration for admission to, any graduate degree or credential program; or

• Postbaccalaureate Classified. If you wish to enroll in a credential or certificate program, you will be required to satisfy additional professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus; or

• Graduate Conditionally Classified. You may be admitted to a graduate degree program in this category if, in the opinion of appropriate campus authority, you can remedy deficiencies by additional preparation; or

• Graduate Classified. To pursue a graduate degree, you will be required to fulfill all of the professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus.

Graduate-Postbaccalaureate TOEFL Requirement
All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor’s degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Individual degree programs may prescribe a higher minimum score. Applicants taking the Computer-Based Test of English as a Foreign Language must present a score of 213 or above. Applicants must also submit a score for the Test of Written English (TWE). Individual degree programs may use the score on the TWE as an admission criterion or as an advising tool to identify students who may need further training in English.

Second Bachelor’s Degree
Second bachelor’s degrees are awarded by most departments. Currently, Business Administration, Chicana and Chicano Studies, and Interdisciplinary Studies in Three Departments do not participate in the second bachelor’s degree program. A student wishing to earn a second bachelor’s degree must apply for admission through Graduate Admissions during the filing period for undergraduate applicants, unless already enrolled in the University as a postbaccalaureate student. In addition, applicants to the impacted majors: Biology, Business Administration, Communication (Emphases in Advertising, Media Management, Public Relations, Telecommunications and Film, Specializations in Communication), Computer Science, Criminal Justice
Intrasystem and Intersystem Enrollment Programs

Students enrolled at San Diego State University have access to courses at other CSU campuses on a space available basis unless those campuses or programs are impacted. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees. Although courses taken on any CSU campus will transfer to the student’s home CSU campus as at least elective credit, students should consult their San Diego State University academic adviser to determine how such courses may apply to their degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California community colleges. Additional information about these programs is available from the Office of the Registrar.

CSU Concurrent Enrollment

Matriculated students in good standing may enroll at San Diego State University and a host CSU campus during the same term. Credit earned at the host campus is automatically reported to San Diego State University to be included on the student’s transcript at the home campus.

CSU Visitor Enrollment

Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is reported automatically to San Diego State University to be included on the student’s transcript at the home campus.

Intersystem Cross Enrollment

Cross enrollment permits San Diego State University matriculated students to enroll for one course per term at a University of California. Matriculated UC and community college students may enroll for one course per term at San Diego State University under this policy. Cross enrollment students may request that a transcript of record be sent to the home campus.

Impacted Programs

Some majors at San Diego State University receive more applications during the filing period than can be accommodated. These are designated as impacted majors. Admission to these majors is based on additional admission criteria beyond the CSU and SDSU requirements. Further, if you wish to be considered in impacted programs at two or more CSU campuses, you must file an application to each.

Additional admission criteria include ranking on the freshman eligibility index, the overall transfer grade point average, completion of General Education courses, and a combination of campus or departmentally developed criteria. Criteria appear in the November issue of the CSU Review, which is sent to all high school and community college counselors in California, or you may contact the major department for information.

The following majors are impacted at San Diego State University: Biology, Business Administration, Communication (Emphases in Advertising, Media Management, Public Relations, Telecommunications and Film, Specializations in Communication), Computer Science, Criminal Justice Administration, English, English in Preparation for the Single Subject Teaching Credential, Graphic Design, Community Health Education, International Business, Journalism, Kinesiology, Liberal Studies, Microbiology, Nursing, Political Science, Psychology, Sociology, and Television, Film and New Media Production.

Applications selected for admission to the Television, Film and New Media Production major and the Telecommunications and Film emphasis of the Communication major must meet additional criteria before being admitted to SDSU. Applicants in the remaining SDSU impacted majors are admitted as pre-majors.

Importance of Filing Complete, Accurate, and Authentic Application Documents

San Diego State University advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must submit authentic and official transcripts of all previous academic work attempted. Official transcripts are defined as transcripts sent directly from previous university admissions and records unit to the SDSU Office of Undergraduate Admissions. Failure to file complete, accurate, and authentic application documents by specified deadlines will result in denial of admission, and may result in cancellation of academic credit, suspension, or expulsion (Section 41301 of Title 5, California Code of Regulations). This requirement is effective from initial contact with the University and throughout the period the academic record is maintained.

Requirement and Use of Social Security Account Number

Applicants are required to include their correct social security numbers (taxpayer identification numbers) in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code. The University uses the social security account number to identify records pertaining to the student as well as to identify the student for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student’s social security account number.
Admission and Registration

security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

Registration and Requirements for Registration

Registration
San Diego State University students register by the touch tone telephone registration system (RegLine) or by accessing WebLine, the Internet registration system. On-campus registration is not conducted. The Class Schedule and Student Information Handbook, issued each semester and obtainable at the Campus Store before the registration period, contains specific information on registration, the courses offered for the term, and a listing of the fees required for enrollment. Students will not be permitted to register until fees are paid. Payment of fees by itself does not constitute registration. A student is considered registered when: 1) fees have been paid, and 2) at least one course has been added prior to the first day of classes.

Late registration is allowed during the first two weeks of the semester. Students wishing to late register must pay registration fees plus a $25.00 late fee before the end of the second week of the semester. After receiving an add code from the instructor of the course the student wants to add, the student calls RegLine or accesses WebLine to officially register. Students who have not added at least one class by the beginning of the fourth week of classes are not registered and may not add courses later in the semester.

Improper Registration in Graduate Courses. Only undergraduate students who are completing their bachelor’s degree and who have filed a formal request for permission to enroll for concurrent master’s degree credit or for concurrent postbaccalaureate credit may be authorized to enroll in 600 and higher numbered courses. Undergraduate students who have not received permission for concurrent enrollment may not enroll in 600 or higher numbered courses for any purpose without prior permission of the Graduate Dean. Undergraduates who enroll in advanced courses without permission are subject to administrative disenrollment. The registration for graduate students who have not met the stated prerequisites for Course 799A, Thesis, at the time of registration may be canceled.

Statewide Placement Test Requirements
San Diego State University requires each entering undergraduate, except those who qualify for an exemption, to take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) after admission and prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. They are designed to identify entering students who may need additional support in acquiring basic English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college level skills either in English and in mathematics will be placed in appropriate baccalaureate-level courses.

English Placement Test (EPT). The EPT is designed to assess the level of reading and writing skills of entering undergraduate students so that they can be placed in appropriate baccalaureate-level courses. The CSU EPT must be completed by all entering undergraduate students, with the exception of those students who can present proof of one of the following:

• A score of 550 or above on the mathematics section of the College Board SAT I Reasoning Test or on the College Board SAT II Mathematics Tests Level I, IC (Calculator), II, or IIC (Calculator).
• A score of 23 or above on the American College Testing (Calculator).
• A score of 3 or above on the College Board Advanced Placement Program.
• A score of 3 or above on the College Board Advanced Placement Statistics examination.
• Completion and transfer of a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) quantitative reasoning requirement, provided such course was completed with a grade of C or better.

These tests should be taken at the next opportunity after admission or as soon as possible thereafter.

Determination of Residence for Nonresident Tuition Purposes

The Office of Admissions determines the residence status of all new and returning students for nonresident tuition purposes. Responses to the Application for Admission, Residency Questionnaire, and if necessary, other evidence furnished by the student are used in making this determination. Nonresident students who wish to be reclassified as residents must complete the Reclassification Request Form, which is available in the Office of the Registrar. A student who fails to submit adequate information to establish a right to classification as a California resident will be classified as a nonresident.

The following statement of the rules regarding residency determination for nonresident tuition purposes is not a complete discussion of the law, but a summary of the principal rules and their exceptions. The law governing residence determination for tuition purposes by The California State University is found in California Education Code Sections 68000-68090 and 89705-89707.5, and in Title 5 of the California Code of Regulations, Sections 41900-41912.

Legal residence may be established by an adult who is physically present in the state and who, at the same time, intends to make California his or her permanent home. Physical presence in the state combined with steps taken at least one year prior to the residence determination date to show an intent to make California the permanent home is required to establish a California residence for tuition purposes. The steps necessary to show California residency intent will vary from case to case. Included among the steps may be registering to vote and voting in elections in California; filing resident California state income tax returns; ownership of residential property or continuous occupancy or renting of an apartment on a lease basis where one's
permanent belongings are kept; maintaining active resident memberships in California professional or social organizations; maintaining California vehicle plates and operator's license; maintaining active savings and checking accounts in California banks; and maintaining permanent military address and home of record in California if one is in the military service.

The student who is in the state for educational purposes only does not gain the status of resident regardless of the length of the student's stay in California.

In general, an unmarried minor citizen or noncitizen (a person under 18 years of age) derives legal residence from the parent with whom the minor maintains or last maintained his or her place of abode. The residence of an unmarried minor cannot be changed by the minor's own act or by the appointment of a legal guardian for the minor, so long as the minor's parents are living.

A married person may establish his or her residence independent of spouse.

A noncitizen may establish his or her residence, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Nonresident students seeking reclassification are required by law to complete a supplemental questionnaire concerning their financial dependence status.

The general rule is that a student must have been a California resident for at least one year immediately preceding the residence determination date in order to qualify as a "resident student" for tuition purposes. A residence determination date is set for each academic term and is the date from which residence is determined for that term. The residence determination dates are September 20 for fall, January 25 for spring, and June 1 for summer. The residence determination dates for the four stages of CalStateTEACH are September 20 (Stage 1), January 5 (Stage 2), June 1 (Stage 3), and September 20 (Stage 4).

There are exceptions for nonresident tuition, including:

1. Persons below the age of 19 whose parents were residents of California but who left the state while the student, who remained, was still a minor. When the minor reaches age 18, the exception continues until the student has resided in the state the minimum time necessary to become a resident.

2. Minors who have been present in California with the intent of acquiring residence for more than a year before the residence determination date, and entirely self-supporting for that period of time. The exception continues until the student has resided in the state the minimum time necessary to become a resident.

3. Persons below the age of 19 who have lived with and been under the continuous direct care and control of an adult or adults, not a parent, for the two years immediately preceding the residence determination date. Such adult must have been a California resident for the most recent year. The exception continues until the student who has resided in the state the minimum time necessary to become a resident.

4. Dependent children and spouse of persons in active military service stationed in California on the residence determination date. There is no time limitation on this exception unless the military person transfers out of California or retires from military service. If either of those events happen, the student’s eligibility for this exception continues until he or she resides in the state the minimum time necessary to become a resident.

5. Military personnel in active service stationed in California on the residence determination date for purposes other than education at state-supported institutions of higher education. There is no time limit on this exception unless the active military member is transferred on military orders to a place outside this state or retires from active military service.

6. Military personnel in active service in California for more than one year immediately prior to being discharged from the military. Eligibility for this exception runs from the date the student is discharged from the military until the student has resided in state the minimum time necessary to become a resident.

7. Dependent children of a parent who has been a California resident for the most recent year. This exception continues until the student has resided in the state the minimum time necessary to become a resident, so long as continuous attendance is maintained at an institution.

8. Graduates of any school located in California that is operated by the United States Bureau of Indian Affairs, including, but not limited to, the Sherman Indian High School. The exception continues so long as continuous attendance is maintained by the student at an institution.

9. Certain credentialed, full-time employees of California school districts.

10. Full-time CSU employees and their children and spouses; State employees assigned to work outside the State, and their children and spouses. This exception continues until the student has resided in the State the minimum time necessary to become a California resident.

11. Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties.

12. Certain amateur student athletes in training at the United States Olympic Training Center in Chula Vista, California. This exception continues until the student has resided in the state the minimum time necessary to become a resident.

13. Federal civil service employees and their natural or adopted dependent children if the employee has moved to California as a result of a military mission realignment action that involves the relocation of at least 100 employees. This exception continues until the student has resided in the state the minimum time necessary to become a resident.

14. State government legislative or executive fellowship program enrollees. The student ceases to be eligible for this exception when he or she is no longer enrolled in the qualifying fellowship.

Any student, following a final campus decision on his or her residence classification only, may make written appeal to:

The California State University
Office of General Counsel
401 Golden Shore
Long Beach, California 90802-4210

within 120 calendar days of notification of the final decision by the campus of the classification. The Office of General Counsel may make a decision on the issue, or it may send the matter back to the campus for further review. Students classified incorrectly as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations. Resident students who become nonresidents, and nonresident students qualifying for exceptions whose basis for so qualifying changes, must immediately notify the Office of Admissions. Applications for a change in classification with respect to a previous term are not accepted.

The student is cautioned that this summation of rules regarding residency determination is by no means a complete explanation of their meaning. The student should also note that changes may have been made in the rate of nonresident tuition, in the statutes, and in the regulations between the time this catalog is published and the relevant determination date.
Measles, Rubella, and Hepatitis B Health Screening Provisions

Information on student health services and required immunizations is given in the section of this catalog on Student Services (Health Services).
**Schedule of Fees**

Fees and tuition are subject to change without notice by the Trustees of The California State University.

For updated information regarding the fee structure for 2001-2002 refer to the fall Class Schedule.

**Administrative/Financial Holds**
All administrative and financial holds must be cleared prior to submittal of payment for registration or other University services. See “Debits Owed to the Institution” below. Acceptance of payment by the University does not constitute completion of registration or guarantee of services if any kind of administrative or financial hold exists.

**Registration Fees – All Students:**
(On basis of units carried.)

Fee payment information and instructions are in the Class Schedule available at the Campus Store.

Auditors pay same fees as students carrying courses for credit. Nonresident (foreign and out-of-state) students pay additional fees – see information below. Thesis extension and other zero unit courses are counted as one unit. See above. For fee-paying purposes, zero unit and half-unit courses are charged as one unit for fee purposes.

<table>
<thead>
<tr>
<th>Units Attempted</th>
<th>Undergraduate</th>
<th>Graduation</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 units – 6.0 units</td>
<td>$588.00</td>
<td>$612.00</td>
</tr>
<tr>
<td>6.1 or more units</td>
<td>$888.00</td>
<td>$927.00</td>
</tr>
</tbody>
</table>

The above fee also includes a Student Activity Fee of $15.00, a Student Union Fee of $71.00, a Facilities Fee of $3.00, an Institutionally Related Activities Fee of $15.00, a Health Services Fee of $70.00, and a State University Fee of either $414.00 or $714.00 for undergraduate students, or $438.00 or $753.00 for graduate students, depending on unit load.

Imperial Valley Campus students pay a Student Union Fee of $24.00 and a Health Services fee of $10.00. See Imperial Valley Campus Bulletin for details.

The total fee paid per term will be determined by the number of units taken, including those in excess of fifteen.

Most fees are waived for those individuals who qualify for such exemption under the provisions of the Alan Pattee Scholarship Act, Education Code, Section 68120. Systemwide mandatory fees are waived for those individuals who qualify for such exemption under the provision of Education Code, Section 32520 (children of deceased or disabled veterans).

Legal residents of California are not charged out-of-state tuition.

**Installment Plan**
An installment plan is available for students who wish to pay their registration fees (and tuition, if applicable*) in payments. There is a $33.00 service charge for this service, paid at the time the initial registration payment is made. Additional information and instructions are available in the Class Schedule or may be obtained from the University Cashiers Office.

* Additional service charges apply to out-of-state and foreign tuition only. Service charge is equal to 15% of each installment payment of tuition.

**Tuition for Nonresident Student**
(Foreign and Out-of-State)

Tuition will be charged for all units attempted.

- Per unit ............................................................. $246.00

(Tuition is payable in addition to registration fees listed above. For fee-paying purposes, zero unit and half-unit courses are counted as one unit. See **Liability for Payment** section for additional important information.)

- Health insurance (mandatory for foreign students)
  - Per year, approximately ........................................ 500.00

**Parking Fees**
Nonreserved parking space, per semester ........................................ $108.00

Car pool—see Cashiers Office.

Less than four-wheeled, self-propelled vehicle
  - Motorcycle, moped ........................................... 27.00

Overnight parking surcharge, per semester ................................ 60.00

(employee and students living in residence halls are exempt)

Section 42201 of Title 5, California Code of Regulations, provides for the waiver of campus parking fees for students with disabilities who have been issued a DMV placard or license plate, and who meet low income requirements. For further information regarding eligibility contact the Disabled Student Services Office (Student Services, Room 1661).

**Miscellaneous Fees**
(Fees payable when service is rendered.)

- Application for admission or readmission (nonrefundable), payable by check or money order at time application is made ................................................................. $ 55.00

- Enrollment confirmation deposit fee (nonrefundable) .................. 100.00

- Late registration (nonrefundable) (Refer to Class Schedule for dates when this fee will be assessed) .................................. 25.00

- Late course forgiveness .................................................. 20.00

### MISCELLANEOUS INSTRUCTIONAL COURSE CHARGES

<table>
<thead>
<tr>
<th>Charge Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Miscellaneous instructional course fees</td>
<td>As established and approved</td>
</tr>
</tbody>
</table>

### CREDITS CARTDS

The University Cashiers Office does not accept credit cards for payment of registration fees or tuition (foreign or out-of-state) except as applicable under the terms of the Installment Plan. MasterCard, Visa, and Discover Card charge cards are accepted for other payments, such as housing, parking, health services, continuing education, and miscellaneous over-the-counter payments. Students are reminded that banks will provide cash advances against credit cards if needed to cover registration payments. Most ATM cards are also accepted for payment of miscellaneous charges. Additional information is available from the University Cashiers Office.

### LIABILITY FOR PAYMENT

Whether or not an invoice is received from the University, students are liable for payment of all registration fees related to units held on or added after the close of business on the fourteenth day following the commencement of instruction. Foreign and out-of-state students are liable for tuition related to all units held, except as provided for by the refund policy. Nonresident (foreign and out-of-state) tuition must be paid prior to the first day of classes. With the exception of doctoral students and students enrolling for 799A or 799B only, foreign students must pay or sign an installment agreement for a minimum of 6 units at the time of registration. Foreign students wishing to pay fewer than 6 units must submit written approval to do so from the International Student Center or the Graduate Division, as applicable.

### Refunds

For additional information concerning fees which may be refunded, the circumstances under which fees may be refunded, and the appropriate procedure to be followed in seeking refunds may be obtained by consulting Section 42201 (parking fees), 41913 (nonresident tuition), 42019 (housing charges), and 41802 (all other fees) of Title 5, Califorния Code of Regulations. In all cases it is important to act quickly in applying for a refund. Information concerning any aspect of the refund of fees may be obtained from the Cashiers Office.

### Refund of Registration Fees

Refunds may be applied against other amounts due the University.

### Complete Withdrawal

Refunds are not automatic. Whether or not you receive classes through the registration process, you must apply for the refund by the refund deadline.

### Fees Based on Unit Load

A student dropping from 6.1 units or more to 6.0 units or less, or a student who paid maximum fees but never obtained over 6.0 units, must file a refund application with the Cashiers Office, Student Services, Room 2620, not later than 14 days following the commencement of instruction (Refund Deadline). Application for full-time to part-time refunds may also be submitted at the Aztec Center Information Booth. All but $5.00 will be refunded less any amount due to the University. For additional information, contact the Cashiers Office or telephone (619) 594-5253.

### Disqualified and Leave of Absence Candidates

If your registration has been canceled due to disqualification or by obtaining an approved leave of absence, registration fees will be refunded upon (1) notification of the Registrar that the appropriate action has been taken and (2) return of your application for refund to the Cashiers Office.

### Financial Aid Recipients

Refunds are not automatic. If you are a financial aid recipient and aid has been transferred to Cashiers for more than is due for your registration (due to your dropping to part-time after the transfer was made) it is necessary for you to apply for a refund. See refund deadline.
Refund of Institutional Charges to Title IV Financial Aid Recipients

The following refund policy is required by the Higher Education Amendments of 1998 (Public Law 105-244, enacted October 7, 1998).

The implementation date is October 7, 2000.

When a student who has received Title IV financial aid withdraws, otherwise fails to complete a period of enrollment for which he or she was charged, the institution is required to determine if a refund must be made to the student or if unearned aid must be returned to the federal accounts. Calculations will be based on the withdrawal date and the number of days of attendance for which he or she was enrolled.

Refund of Parking Fees

In accordance with the following schedule, if application is received by the time you file your refund application, Refund applications are available upon request at the University Cashiers Office. Refunds may be applied against other amounts due to the University. The amount of refund is rounded down to the nearest dollar. No refund is made for amounts of $5.00 or less.

Examples of refund calculations are available upon request at the University Cashiers Office.

Refund of Nonresident (Foreign and Out-of-State) Tuition

Title IV Financial Aid consists of the following programs:
- Unsubsidized William D. Ford Federal Direct Loan
- Subsidized William D. Ford Federal Direct Loan
- Federal Perkins Loan
- William D. Ford Federal Direct PLUS Loan
- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)

Refund of Nonresident (Foreign and Out-of-State) Tuition

Examples of refund calculations are available upon request at the University Cashiers Office.

Refund of Parking Fees

This schedule of refunds refers to calendar days, commencing on the date of the term when instruction begins.

Nonreserved space per semester:

<table>
<thead>
<tr>
<th>Period</th>
<th>Amount of Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>First 3 days of class</td>
<td>100 percent of fee</td>
</tr>
<tr>
<td>Day 4 through Day 14 (Registration Fee)</td>
<td>100 percent of fee</td>
</tr>
<tr>
<td>Refund Deadline</td>
<td>75 percent of fee</td>
</tr>
<tr>
<td>Day 15 through end of sixth week</td>
<td>50 percent of fee</td>
</tr>
<tr>
<td>Seventh week through tenth week</td>
<td>25 percent of fee</td>
</tr>
<tr>
<td>Eleventh week through end of term</td>
<td>None</td>
</tr>
</tbody>
</table>

Your parking permit or a receipt indicating that the permit was returned by the vehicle by a university police officer (Information Booth, Campanile Drive) must be turned in to the Cashiers Office at the time you file your refund application. Refund applications are available at the Cashiers Office. The amount of refund is rounded down to the nearest dollar. No refund is made for amounts of $5.00 or less. Refunds may be applied against other amounts due to the University.

LATE REGISTRATION FEE

The Late Registration fee ($25) pertains to those students who register during Late Registration. Newly admitted students MAY be exempted from this fee. See registration materials provided by the Office of the Registrar for details. The registration process is not complete until all fees due are paid and you are officially enrolled in classes through the Office of the Registrar.

APPEALS PROCESS – UNIVERSITY CASHIERS OFFICE

An appeals process exists for students who believe that individual circumstances warrant exceptions from published policy. Students should file a “Petition for Special Consideration” obtainable at the University Cashiers Office. Petitions must be filed with the University Cashiers Office prior to the end of the twelfth week of classes.

Petitions for refunds filed beyond the appropriate refund deadline are approved only when applicants are unable to continue their enrollment for one of the following reasons: compulsory military service; administrative error; campus regulation; or physical disability or death of the student.

SUMMER TERM FEES

Refer to Summer Term Class Schedule for schedule of fees.

Packing fees (nonreserved spaces) ......................... (per week) $8.00

EXTENSION COURSE FEES

Refer to Extended Studies Catalog for schedule of fees.

EXEMPTIONS

Students receiving vocational rehabilitation benefits (U.S. Code, Title 38, Chapter 31) or the eligible dependents of veterans with service-connected disability or death (California Education Code, Section 32320) will have eligible fees and tuition paid or waived under provisions of these respective programs. See Class Schedule for instructions regarding deadlines for submission of documents to University Cashiers.

OVER 60 FEE WAIVER PROGRAM

San Diego State University offers a fee waiver program for California residents 60 years of age and older. Both undergraduate and post-baccalaureate students may participate in the program. The program waives the $55 admission application fee and regular registration fees (except for a nominal $3 fee). Participants must apply for admission during the regular application filling period and be admitted under regular admission requirements. Participants register for classes on a space-available basis after regularly matriculated students have completed registration. For additional information, contact the Office of Admissions.

ALAN PATTEE SCHOLARSHIPS*

Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties are not charged mandatory systemwide fees or tuition of any kind at any California State University campus, according to the Alan Pattee Scholarship Act, California Education Code, Section 68120. Students qualifying for these benefits need to contact the Office of the Registrar, which determines eligibility.

* The law regarding the Alan Pattee Scholarship has been amended to also include contractors or employees of contractors who were killed in the course of law enforcement or fire suppression duties. This change expires on January 1, 2002.
Procedure for the Establishment or Change of a Student Activity Fee

The law governing the California State University provides that fees defined as mandatory, such as a student activity association fee and a student activity center fee may be established. A student activity association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (California Education Code, Section 89300). A student activity center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (California Education Code, Section 89304). The student activity fee was established at San Diego State University by student referendum in 1955. The campus president may adjust the student activity association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose (California Education Code, Section 89300). The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus president containing the signatures of 10% of the regularly enrolled students at the University. Once bonds are issued, authority to set and adjust student activity center fees is governed by provisions of the State University Revenue Bond Act of 1947: including but not limited to California Education Code, Sections 90012, 90027, and 90068. Student body fees support a variety of cultural and recreational programs, child care centers, and special student support programs.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee. A student referendum also is required. The campus president may use alternate consultation mechanisms if he determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus president. The president may request the chancellor to establish the mandatory fee. Authority to adjust fees after consideration by the campus fee advisory committee and the completion of a student referendum is delegated to the president.

Debts Owed to the Institution

Should a student or former student fail to pay a debt owed to the institution, the institution may "withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt" until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381). For example, the institution may withhold permission to send official transcripts of grades for any person owing a debt. In addition, failure to pay debts to the University when due may result in the debt being sent to a collection agency. Should the debt be referred to a collection agency, the student will be responsible for costs incurred by the University, its Agents, Contractors and Assigns in the collection of the delinquent obligation. It may further result in notification of the delinquency to credit bureau organizations.

If a student believes that he or she does not owe all or part of an unpaid obligation, the student should contact the University Cashiers Office. The Cashiers Office, or another office on campus to which the student may be referred by the Cashiers Office, will review the pertinent information, including information the student may wish to present, and will advise the student of its conclusions with respect to the debt.
Graduation Requirements for the Bachelor’s Degree

The University will make every effort to preserve the requirements in this “Graduation Requirements” section for students subject to this catalog according to the provisions enumerated below. All other parts of the catalog are subject to change from year to year as University rules, policies, and curricula change. It is your responsibility to keep informed of such changes; failure to do so will not exempt you from whatever penalties you may incur.

The requirements appearing in this catalog are applicable to students under the following circumstances:

1. You may remain with the graduation requirements in effect during the academic year in which you entered SDSU, another campus in the CSU system, or a California community college, so long as you have remained in attendance at least one semester or two quarters within a calendar year in either the CSU or community college system. Absence due to an approved educational leave or for attendance at another regionally accredited institution of higher learning shall not be considered an interruption in attendance if the absence does not exceed two years. If you change or declare your majors in subsequent years, however, you must adopt the major and minor requirements in effect at the time of such change or declaration. You may continue with the earlier catalog only with regard to General Education and other graduation requirements.

2. You may change to the catalog in effect in the year in which you graduate. Thus, students graduating in December 2001, May 2002, or in the 2002 Summer term may adopt this catalog by so indicating on their application for graduation.

I. Competency Requirements: Mathematics and Writing

All students, whether freshmen or transfer, are required to demonstrate competency in basic mathematics and standard written English. Incoming students who are not exempt from the CSU Entry Level Mathematics examination (ELM) and/or the English Placement Test (EPT) because of national test scores or college level courses (see explanation of exemptions below) must take these tests PRIOR to registration in any courses. Those who fail one or both of these examinations are REQUIRED to be enrolled in appropriate sections of General Mathematics and/or Rhetoric and Writing Studies courses in the FIRST semester of enrollment. Students who do not successfully remediate both the ELM and EPT by the end of the second semester of enrollment are subject to disenrollment. Transfer students who do not pass the Transfer Mathematics Assessment and the Transfer Writing Assessment by the end of the second semester of attendance are subject to the loss of registration priority.

Competency requirements are required preparation for a number of specific courses identified in the Class Schedule. Test dates and times are listed in the “Special Tests” section of the current Class Schedule. No student may graduate until all competency requirements are satisfied.

II. Complete BOTH a. and b.

a. Attempting and failing the ELM test (CSU Entry Level Mathematics) (score below 550)

b. Earning Credit (Cr) in General Mathematics Studies 91 or 99C at SDSU.

Credit earned in General Mathematics Studies 90A, 90B, 91, 99A, 99B, or 99C is not applicable to the baccalaureate degree.

II. Complete BOTH a. and b.

a. Passing with a C or better a transferable mathematics course that satisfies General Education in Quantitative Reasoning.

b. Earning a satisfactory score on any section of the SDSU Transfer Mathematics Assessment Examination [Mathematics Competency, Part C] OR Credit (Cr) in General Mathematics Studies 90B, 91, 99B, or 99C at SDSU.

Transfer students who have completed a college level transferable calculus course equivalent to SDSU’s Mathematics 122 or 150 with a grade of C or better are exempt from both a and b above.

Credit earned in General Mathematics Studies 90A, 90B, 91, 99A, 99B, or 99C is not applicable to the baccalaureate degree.

III. Complete BOTH a. and b.

a. ELM score of 550** (CSU Entry Level Mathematics).

b. SAT or SAT I mathematics score of 550 (Scholastic Aptitude Test or Scholastic Assessment Test).

** Subject to change in January 2002.

* These scores are appropriate only to those students who satisfy the requirement upon matriculation in this catalog year or who take the examinations during this catalog year.

MATHEMATICS REQUIREMENTS: FRESHMEN

Demonstration of mathematics competency is satisfied in one of the following ways:

I. Passing one of the following national or state tests at the minimum score* or level identified below:

a. ELM score of 550** (CSU Entry Level Mathematics).

b. SAT or SAT I mathematics score of 550 (Scholastic Aptitude Test or Scholastic Assessment Test).

c. ACT mathematics test score of 23 (American College Test) if taken after October 1989.

d. AP score of 3 on mathematics AB or BC examination or the statistics examination (The College Board Advanced Placement Program).

e. Score of 560 on the College Board Mathematics Achievement Test, Level I or IC or II or IIC.

III. Complete BOTH a. and b.

a. Passing with a C or better a transferable mathematics course that satisfies General Education in Quantitative Reasoning.

b. Earning Credit (Cr) in General Mathematics Studies 91 or 99C at SDSU.

Credit earned in General Mathematics Studies 90A, 90B, 91, 99A, 99B, or 99C is not applicable to the baccalaureate degree.

MATHEMATICS REQUIREMENTS: TRANSFER STUDENTS

Demonstration of mathematics competency is satisfied in one of the following ways:

I. Passing one of the following national or state tests at the minimum score* or level identified below:

a. ELM score of 550** (CSU Entry Level Mathematics).

b. SAT or SAT I mathematics score of 550 (Scholastic Aptitude Test or Scholastic Assessment Test).
c. ACT mathematics test score of 23 (American College Test) if taken after October 1989.
d. AP score of 3 on mathematics AB or BC examination or the statistics examination (The College Board Advanced Placement Program).
e. Score of 560 on the College Board Mathematics Achievement Test, Level I or II or I or II.
f. Score of 550 on the College Board SAT II Mathematics Test, Level I or II or I or II.

Mathematics Departmental Placement Examination

In addition to satisfying the CSU ELM and SDSU Mathematics Competency requirements, students wishing to enroll in any mathematics, physics, or statistics course must pass the appropriate part of the Mathematics Departmental Placement Examination. These examinations assess mathematical preparation beyond the elementary level. Part IA tests knowledge of intermediate algebra; Part P tests knowledge of college algebra; Part III tests knowledge of trigonometry; Part LS tests numbers and operations, geometry and measurement. Equivalent transfer courses will not grant exemptions from any part of the Placement Examination.

WRITING REQUIREMENTS: FRESHMEN

Demonstration of writing competency is satisfied in one of the following ways:

I. Passing one of the following national or state tests at the minimum score* or level identified below:
a. EPT score of 151 total (CSU English Placement Test).
b. SAT or SAT I verbal score of 470 (Scholastic Aptitude Test or Scholastic Assessment Test) taken before March 1995. SAT I verbal score of 550 if taken after March 1995.
c. ACT English usage score of 24 (American College Test) if taken after October 1989.
d. AP score of 3 on Language and Composition or Literature and Composition (The College Board Advanced Placement Program).
e. Score of 600 on the College Board Achievement Test in English Composition with Essay.
f. Score of 600 on the College Board SAT II Writing Test taken before March 1995. Score of 660 on College Board SAT II Writing Test if taken between April 1995 and April 1998. Score of 680 or above on College Board SAT II Writing Test taken May 1998 and after.

OR

II. Complete BOTH a. and b.
   a. Attempting but failing the EPT (CSU English Placement Test) (score below 151 total)
   AND
   b. Earning credit (Cr) in one of the following courses: Rhetoric and Writing Studies 92A, 92B, 94, 95, 97A, 97B.

   Credit earned in Rhetoric and Writing Studies 92A, 92B, 94, 95, or 97A, 97B is not applicable to the baccalaureate degree.

WRITING REQUIREMENTS: TRANSFER STUDENTS

Demonstration of writing competency is satisfied in one of the following ways:

I. Complete BOTH a. and b.
   a. Passing with a C or better a transferable GE English Composition course (3 semester or 4 quarter units).
   AND
   b. Passing the SDSU Transfer Writing Assessment [Writing Competency Test] OR earning credit (Cr) in one of the following courses: Rhetoric and Writing Studies 92A, 92B, 94, 95, or 97A, 97B.

   Credit earned in Rhetoric and Writing Studies 92A, 92B, 94, 95, or 97B is not applicable to the baccalaureate degree.

   OR

II. Passing one of the following national or state tests at the minimum score* or level identified below:
   a. EPT score of 151 total (CSU English Placement Test).
b. SAT or SAT I verbal score of 470 (Scholastic Aptitude Test or Scholastic Assessment Test) if taken before March 1995. SAT I verbal score of 550 if taken after March 1995.
c. ACT English usage score of 24 (American College Test) if taken after October 1989.
d. AP score of 3 on Language and Composition or Literature and Composition (The College Board Advanced Placement Program).
e. Score of 600 on the College Board Achievement Test in English Composition with Essay.
f. Score of 600 on the College Board SAT II Writing Test if taken before March 1995. Score of 660 on College Board SAT II Writing Test if taken between April 1995 and April 1998. Score of 680 or above on College Board SAT II Writing Test taken May 1998 and after.

   Credit earned in Rhetoric and Writing Studies 92A, 92B, 94, 95, 97A, or 97B is not applicable to the baccalaureate degree.

* These scores are appropriate only to those students who satisfy the requirement upon matriculation in this catalog year or who take the examinations during this catalog year.

II. Upper Division Writing Requirement

All students must demonstrate competency in writing skills as mandated by the major and included in each major description.

Before attempting to satisfy this requirement, students must:

1. Have completed or be completing 60 units;
2. Have fulfilled the EPT and/or Transfer Writing Assessment requirement; and
3. Have completed the General Education Communication and Critical Thinking requirement in Composition and Intermediate Composition and Critical Thinking.

Failure to complete these prerequisites precludes satisfying the requirement by any means. Proof of completion of prerequisites is required for enrollment in courses listed below. When offered in a three-week session, students must, on the first day of class, demonstrate in a diagnostic test that their language skills are sufficiently high to give them a reasonable opportunity to pass the course in shortened format.

Students whose majors do not specify any particular course or procedure may select from the following options:

1. Demonstrating the required proficiency by passing the University Upper Division Writing Examination.
2. Passing with a grade of Cr or C (2.0) or better one of the following courses:

   Chicana and Chicano Studies 396W
   Info and Decision Systems 390W
   Communication 310W
   Linguistics 305W
   English 306W
   Linguistics 396W
   English 508W
   Recreation 396W
   English 581W
   Religious Studies 396W
   English 584W
   Rhetoric and Writing Studies 305W
   History 400W
   Rhetoric and Writing Studies 500W
   History 450W
   Rhetoric and Writing Studies 503W

(Note: Several of these courses are limited to majors in the indicated department or have additional prerequisite requirements. Courses required for the major must be taken for a letter grade.)

Students who transfer from another CSU campus having fulfilled the Upper Division Writing requirement will not be required to repeat it. Please note, however, that a course listed above may be required for the major.
III. Major and Minor Requirements

A. Preparation for the Major. Every major requires a set of introductory and/or skills courses designed to prepare the student for upper division study in that field. Courses taken for this purpose may also be used to satisfy General Education requirements if approved for General Education.

B. Major. Completion of a departmental or an interdisciplinary major is required. Students must meet major requirements in effect at time of declaration of major, provided continuous enrollment has been maintained, except as otherwise provided in the California Code of Regulations, Chapter 5, Section 40401, Election of Regulations. A major is an area of specialized study which provides the student with extensive knowledge of the subject matter and its organizing concepts. It consists of 24 or more upper division units for the Bachelor of Arts, Bachelor of Music, and Bachelor of Vocational Education degrees; and of 36 or more units for the Bachelor of Science degree. At least half of the units must be completed at SDSU unless specifically waived by the department; however, in no case shall a student be allowed to complete fewer than 12 units in the major at SDSU. Units received through SDSU extension courses, with the exception of courses offered for resident credit during Summer term and Open University, Spring 1998 and thereafter, are not applicable to the residency requirement. Unless otherwise stated, a student may (with the approval of the department) apply no more than three units of coursework from a basic certificate program toward a major or minor.

A summary list of all majors appears at the close of this chapter; the full statement of requirements for each major can be found through the Index. Courses taken in the major department or in satisfaction of the major cannot be used to meet requirements in a minor or in General Education. A maximum of three upper division units in excess of 24 for the B.A. degree and 36 for the B.S. degree required for the major but taught outside the major department may be used to satisfy requirements both for General Education and the major if such courses have been approved for General Education. Courses graded credit (Cr) may not be used to fulfill upper division requirements in the major except for those courses identified in the course listing as graded Cr/NC. A student may wish to major in two departments. If so, the requirements for both majors must be satisfied. Units for courses which could satisfy the requirements in both majors can be counted only once. Only one diploma will be granted but the diploma and transcript will note the completion of each major.

A student may earn two majors in one department only where the specific combinations of majors are authorized in the catalog. All requirements for both majors must be satisfied; units for courses which could satisfy requirements in both majors can be counted only once. In most cases, students pursuing two majors in one department will be required to file with the Office of Admissions and Records a master plan approved by the major department.

Time Limit on Completion of Requirements for the Major.

As authorized by Title 5, California Code of Regulations, Section 40401, departments may require that specific academic requirements be met within seven years of granting an undergraduate degree. Such requirements will consist of advanced courses and examinations in areas of knowledge changing so rapidly that information may be obsolete after seven years. In those cases in which a student is required to repeat a course taken more than seven years previously, only the last grade will be used in computation of grade point averages.

C. Minor. Completion of a minor is necessary if required by the major; the decision otherwise to have, or not to have, a minor is left with the student. Like the major, the minor offers an integrated and coherent pattern of coursework, combining lower and upper division coursework in proportions appropriate to the various disciplines. The minor shall consist of 15-24 units. Normally, 12 units of coursework in the minor will be upper division units. A minimum of six upper division units must be completed at SDSU. The minimum grade point average for awarding a minor at the time of graduation is 2.0 (C) or better in all units applicable toward a minor, including those accepted by transfer from another institution. Courses graded credit (Cr) may not be used to fulfill upper division requirements in the minor except for those courses identified in the course listing as graded Cr/NC. Courses numbered 296, 496, 596 may be applicable to the minor only with approval of the department chair. A summary list of all minors appears at the close of this chapter; the full statement of requirements for each minor can be found through the Index. Because special prerequisites must be met to qualify for certain minors, checking with the minor department before taking courses is advised. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and General Education requirements. Declaration of a minor occurs by obtaining and filing a Declaration of Major or Minor form at the Office of Admissions and Records.

IV. American Institutions Requirement

Title 5, California Code of Regulations, Article 5, Section 40404 requires that all students demonstrate an understanding of American history, the United States Constitution, and California state and local government. The American Institutions requirement can be satisfied in any of three ways:

A. San Diego State University Courses: By passing any one of the following pairs of courses:

- Africana Studies 170A and 170B
- Chicana and Chicano Studies 141A and 141B
- History 109 and 110
- History 109 and 410
- History 115 and 116
- History 110 and 409
- History 409 and 410
- History 547A* and 547B*
- Women's Studies 341A-341B

* Three of the six units needed for American Institutions can also be applied to General Education, except for History 547A and 547B.

B. Transfer courses from accredited California Colleges and Universities:

1. Full Certification of American Institutions Requirement: Students transferring within California will fulfill the American Institutions requirement by providing certification on a transcript or other official document from a regionally accredited California university, liberal arts college, or community college that the requirement as outlined in Title 5, California Code of Regulations, Article 5, Section 40404 has been satisfied.

2. Partial Completion of American Institutions Requirement: Transfer credit may be used toward partial fulfillment of the American Institutions requirement.

3. Certification Based on High School Work: No certification based on high school work can be accepted.

C. Transfer Courses from Outside California or Advanced Placement Credit: Students who have met both the American history and United States Constitution portion of the American Institutions requirement through any of the following:

1. Advanced Placement (AP) credit in American history or Government/Politics: American.

2. Course(s) in American history which cover a minimum of 100 years of U.S. history, including the establishment of the U.S. Constitution;
3. An American history course which covers a minimum of 100 years of history AND a course in American Government: may elect to complete the California state and local government portion of the American Institutions requirement by either:
   a. Taking the California Government examination available through the SDSU Test Office, CH
   b. Completing one of the following SDSU courses: Africana Studies 170B; Chicana and Chicano Studies 120B, 141B; History 110*, 116, 410, 445, 547B; Political Science 102**, 320*, 321, 422; Women's Studies 341B.

V. Foreign Language Requirement

Students whose majors lead to the Bachelor of Arts degree in liberal arts and sciences or the Bachelor of Music degree must satisfy a Foreign Language requirement as indicated below. Communication majors; noncredential candidates with specializations (excluding Intercultural and International Studies) must satisfy a foreign language requirement or an additional mathematics requirement. Refer to the Communication section of this catalog for details. Students whose majors lead to other degrees are not subject to this requirement.

Exclusion: Conversation courses may not be used to meet this requirement.

Native speakers from foreign countries where English is not the principal language and who have finished high school or the equivalent in that country will be considered to have satisfied the Foreign Language requirement and will not be given credit for taking lower division courses in their native language except with advance approval from the department.

A. The Bachelor of Arts degree in liberal arts and sciences (see exceptions above) require competency in one foreign or American Indian language. Such competency can be demonstrated by:
   1. Successfully completing the third college semester or fifth college quarter in one foreign language;
   2. Successfully completing the fourth-year level of high school courses in one foreign language;
   3. Successfully completing a third-semester equivalent proficiency examination in one foreign language;
   4. Graduating from high school (where English is not the major language of instruction) in a non-English speaking country.
   5. Passing with a score of 3 or higher on a placement (AP) examination in French language, French literature, German language, German literature, Spanish language, or Spanish literature; or passing with a score of 5 in Latin literature or Vergil.
   6. Passing with a score of 4 to 7 on the higher level examination for International Baccalaureate credit in French, German, or Spanish.

Conversation courses may not be used in satisfying this requirement.

Students who are majoring in art history, European studies, humanities, and linguistics should also read the section on Foreign Language requirement under their respective majors for special conditions and limits pertaining to those majors.

Courses offered at San Diego State University which satisfy the Foreign Language requirement are:
   Chinese 101, 102, and 201
   Classics 101G, 202G, and 303G (Greek)
   Classics 101L, 202L, and 303L (Latin)
   French 100A, 100B, and 200 or 201 or 210 or 220 or 221
   German 100A, 100B, and 200, 205A or 205B
   Hebrew 101, 102 and 200, and 201
   Italian 100A, 100B, and 201 or 210
   Japanese 111, 112, and 211
   Portuguese 101, 201, and 301

Russian 100A, 100B, and 200A
   Spanish 101, 102, and 103 or 202 or 281 or 282

B. The Bachelor of Music degree (except the specialization in Jazz) requires equivalent knowledge demonstrated in a test of reading knowledge administered by the foreign language department concerned in consultation with the Department of Music or by completion of the appropriate language course as follows:
   1. Vocalists – one semester each of French, German, and Italian.
   3. All others – two semesters of one foreign language chosen from French, German, or Italian (except that classical guitar students may substitute Spanish).

VI. Unit Requirements

A. Overall unit requirement. The minimum number of units necessary for a bachelor's degree (excluding courses numbered 99 and below; also courses numbered 397) is 120. Many majors and degrees have requirements that extend beyond the minimum number of units as listed below:
   1. Bachelor of Arts degree in Applied Arts and Sciences …120-124
   2. Bachelor of Arts degree in Liberal Arts and Sciences …120-124
   3. Bachelor of Science degree in Applied Arts and Sciences …………………………………………128
   4. Bachelor of Science degree in Physical Science………………..129
   *5. Bachelor of Science degree in Geological Sciences…………132
   6. Bachelor of Science degree in Engineering ………………128-140
   7. Bachelor of Music degree ……………………………………132
   8. Bachelor of Vocal Education degree ……………………124

The degree which applies to a particular student is determined by the student's choice of major. Each student should therefore consult the statement of his or her major to establish the applicable degree. The full statement of each major can be found by consulting the Index.

B. Upper division unit requirement. The total number of upper division units necessary for a bachelor's degree is as follows:
   1. Bachelor of Arts degree in Applied Arts and Sciences …………40
   2. Bachelor of Arts degree in Liberal Arts and Sciences …………45
   **3. Bachelor of Science degree in Applied Arts and Sciences
      (except majors in the College of Business Administration) ………………………………………………….45
   4. Bachelor of Science degree in Applied Arts and Sciences
      (all majors in the College of Business Administration) ……………………………………………………60
   5. Bachelor of Music degree ……………………………………………46-54
   6. Bachelor of Vocal Education degree ………………………………40

Courses offering upper division credit are those numbered 300 through 599. All units from upper division courses (except those numbered 397 in any department) are applicable to the upper division unit requirement, including units from courses in the major and the minor, and from courses used to satisfy the American Institutions and the General Education requirements.

C. Unit limit totals. The maximum number of special units accepted for a bachelor's degree is as follows:
   1. From transferable community and junior college courses ………70
   2. From credit by examination (excluding AP credit) …………………30
   3. From extension, Open University, and correspondence courses …………………………………………24
   **4. From courses graded credit (Cr) ………………………………15
   5. From topics courses numbered 296, 496, 596 ……………………9
   6. From General Studies courses numbered 200 and 400 …………6
   7. From courses numbered below 100, and courses numbered 397 ………………………………0

* Applies to all options except General Geology and Paleontology which require 128 units.

** Upper division courses in the major and minor must be taken for a letter grade unless they are offered only credit/no credit.
Graduation Requirements

VIII. Grade Point Average Requirements

Four averages, each 2.0 or higher, are required for graduation:

A. An average based on all courses attempted at SDSU.

B. An average based on all courses attempted at SDSU and transferable courses at other universities, liberal arts colleges, and community colleges.

C. An average based on all upper division courses attempted in the major department or required for the major.

D. An average based on all units applicable to a minor, if a minor is being completed for the degree.

Information on the computation of averages can be found in the chapter General Regulations under these headings: Grade Point Average, Grades, Incomplete Grade, and Repeated Course.

IX. General Education*

As an important part of your undergraduate education, you will spend approximately one-third of your college years studying in the General Education program. Coursework in General Education is intended to equip you with the abilities to remember and learn from the past, to experience and enjoy our artistic and literary heritage, to understand and appreciate the multicultural complexity of our society, to comprehend the advances technology will bring, to make educated decisions as a member of the electorate, and to continue learning after your college education is completed.

General Education at SDSU represents both a global and regional perspective. It provides an understanding of various socio-economic backgrounds with the intent of fostering mutual understanding and respect for cultural diversity. In addition, GE develops critical-thinking and interpersonal skills.

In demonstrating the interrelated nature of human endeavors, General Education shows how discipline specific knowledge is linked with other subject areas. With a demonstrated linkage between general education courses and those in other disciplines, you will be able to discern the complexities of society and the environment, and to integrate these into your personal and professional lives.

The program has four major objectives: (1) to develop your intellectual capabilities necessary to the enterprise of learning; (2) to introduce you to modes of thought characteristic of diverse academic disciplines; (3) to help you understand the conditions and forces that shape you as a human being and influence your life; and (4) to help you apply critical and informed judgments to the achievements of your own and other cultures.

The program consists of 49 units divided into four sections: I, Communication and Critical Thinking; II, Foundations; III, American Institutions; IV, Explorations. The sections should be taken in sequence so that you master skills needed to understand the academic disciplines of the University, and thus prepare you for the more specialized or interdisciplinary courses in Section IV (Explorations).

Each section has specific educational objectives and courses designed to meet these objectives. For example, courses in Section I, Communication and Critical Thinking, are designed to develop your skills in the areas of written and oral communication, and in reasoning. Courses in Section II, Foundations, use the skills developed in Section I, and provide an introduction to various areas of study. The knowledge you gain in Foundations will help prepare you to live in our multicultural society. Section III, American Institutions courses provide you with knowledge of American democracy and enable you to contribute as a responsible and constructive citizen. Section IV, Explorations, courses are upper division and should not be taken before you reach junior standing (passing 60 units). Explorations courses build on the knowledge you gained in the first three sections, and provide more specialized or thematic study in the disciplines included in Foundations.

* Engineering, Liberal Studies, Nursing, and single subject credential majors should refer to the description of their major in the Courses and Curricula section of the General Catalog for a listing of General Education requirements.
Goals and Objectives for General Education

Natural Sciences
You will learn specific ways of knowing and relating to the physical and biological elements of human experience. You will achieve an understanding of the scientific approach to knowledge; a basic familiarity with significant aspects of the physical and biological environment; and an appreciation of the distinction between basic and applied science and their roles in changing the biological, cultural, economic, physical, and political environments.

Natural science courses provide more than a superficial overview of the currently accepted scientific views of the world. To achieve this end, courses present the philosophical presuppositions and the social and historical context of scientific developments. Courses are directed to the needs and interests of an educated citizen rather than special needs of a potential scientist. Individual courses will vary in the proportion of time devoted to the content as distinct from the methods of science, but the relationship between the general nature of scientific methods and the subject matter in diverse disciplines or areas is part of your education in science.

Natural science courses introduce: a) the nature of the scientific process as this involves the acquisition and assessment of reliable data regarding physical phenomena and the construction and verification of hypothesis; b) unifying concepts in science that transcend technical and disciplinary boundaries as illustrated by facts and principles specific to a particular discipline; c) the quantitative methodology related to the discipline, including elements of problem solving; d) the history of the discipline and its past and present philosophical presuppositions.

Courses often include: e) the characteristics of applied science and technology that represent the immediate concern of many citizens; f) the impact of science on social and economic processes and on public policy; g) sources of scientific information readily accessible to the nonspecialist together with the development of skills and attitudes that make possible the effective use of these sources.

Social and Behavioral Sciences
You will learn that the various social and behavioral science disciplines view human behavior and society from different perspectives including the social, cultural, historical, and geographical. Looking at society from different vantage points helps us understand the many and various dimensions of social and behavioral phenomena.

You will understand the importance of data collection to all of the social and behavioral science disciplines, and that the way information is gathered and interpreted is governed by the major ideas, values, and knowledge base of the particular discipline. These guide social and behavioral scientists in the search for patterns that help us understand who we are and the social-cultural context in which we live.

You will learn that the social and behavioral sciences provides you with information about a world inhabited by people who have created diverse societies and social systems. By increasing your understanding of the complexity of your world and your awareness of the variety of human behavior, groups, and institutions, you will gain a greater appreciation for the diversity of human potential.

You will become aware of your role in society and, thereby, gain an awareness that aids your understanding of your own behavior and the bases for it. You will learn how you came to be the kind of person you are and how this determines your aspirations, values, and sense of reality. This may lead to reaffirmation or changes in attitudes, feelings, and behaviors, and to a more complete understanding of the values of others.

The social and behavioral sciences study human behavior expressed individually and collectively, as well as the development and function of culture and society. You will learn that you are not only an individual, but, as a member of a group; must interact with others in a multicultural environment.

You will learn that both the psyche and society are developmental. There is constant interplay between people and society: individual actions affect groups and groups affect individual actions. This evolutionary process reveals that human beings are continually creating, adapting, and coping with themselves and with society. The study of social and behavioral sciences leads to a realization that you are involved in this mutual interplay in various ways, and it gives you the data and tools to understand, analyze, and criticize the social phenomena you encounter through your life.

Humanities
You will learn that humanities and the fine arts express the human spirit and celebrate our emotions and intelligence. You will learn to recognize and appreciate the cultural achievements and legacies of civilization and learn that great artists and humanists break the boundaries of time, space and culture and integrate passionate, aesthetic and cognitive domains.

You will learn that values are incorporated in all aesthetic, social, and ethical decisions. You will learn that reality is structured by the language you speak and by the beliefs inherent in your culture. The ability to perceive, understand, and analyze your cultural environment and to construct your own world views lead to the strength that comes from self-definition and self-knowledge.

Literature, art, music, and drama constitute the creative and performing arts. They depict and express human experience, passion and thought by means of verbal, visual, and aural images, metaphors, and design.

Through the study of foreign languages, you will acquire communication skills by which you will gain an understanding of another culture and its literature.

In philosophy and religious studies, you will learn to understand and analyze values and beliefs and will become aware of the legacy of thought. The study of history will set humankind’s acts and achievements in historical perspective, and in integrative areas such as humanities, and women’s studies students will approach particular periods and subject matter from a holistic perspective.

General Education courses in natural sciences, social and behavioral sciences, and humanities each present their own disciplined approach to guide students' understanding.
Graduation Requirements

Requirements and Limitations
You must complete all requirements in Sections I, II, III, and IV for a total of 49 units. Because you must be a junior (60 units) to satisfy the upper division Section IV requirement, you should not register for upper division GE courses until the semester in which you complete 60 units. Only those courses listed in the General Education areas may be used to satisfy General Education requirements.

Within these 49 units, the following limitations apply:
1. No more than 12 units from one department can be used in General Education.
2. No more than 7 units from one department can be used in Sections II, III, and IV combined (Foundations, American Institutions, and Explorations).
3. Courses in your major department cannot be used in Section IV (Explorations).
4. A three-unit General Education course required for your major but not in your major department may be used in Section IV. Explorations only if your major requires at least three units more than 24 units for the B.A. degree or at least three units more than 36 units for the B.S. degree.
5. Explorations courses may not be taken sooner than the semester in which you pass 60 units.
6. Credit/No Credit grades cannot be used in Section I (Communication and Critical Thinking or Section II.A.4. Mathematics/Quantitative Reasoning).
7. Courses numbered 296, 299, 496, 499, 500-level and above cannot be used in General Education.

Transfer Students—Additional Information
If you fall into one of the following four categories, you must complete only Section IV (Explorations) to satisfy your General Education requirements.
1. You transferred from a California community college and have completed the Intersegmental General Education Transfer Curriculum (IGETC), or
2. You transferred from a California community college and are certified as having completed the 39 lower division CSU General Education pattern (Sections I, II, and III), or
3. You transferred from another California State University campus and have completed all lower division General Education requirements at the CSU campus, or
4. You transferred from a University of California campus and have completed all lower division General Education requirements at the UC campus.

Your previous college must provide SDSU with proof of completion, either a GE certification or a statement of completion from a University of California campus. Remember, you may not take Explorations courses sooner than the semester in which you complete 60 units.

If you completed one or more areas of CSU general education pattern at a California community college or another CSU campus, some of the SDSU general education area requirements may be met. If you have transfer courses from a California community college, a CSU or UC campus (but have not completed any general education area), these courses may be used in the appropriate area of the SDSU general education pattern. Consult with an adviser at the University Advising Center to determine which requirements you must complete.

If you transferred from a private college in California or from a non-California college, you must meet the requirements listed below. A transfer course will be used when equivalent to the listed SDSU course.

I. COMMUNICATION AND CRITICAL THINKING (9 units)
You may not use Credit/No Credit grades in this section. Complete one course from each of the following three sections.
   Africana Studies 140. Oral Communication (3)
   Chicana and Chicano Studies 111A. Oral Communication (3)
   Communication 103. Oral Communication (3)
2. Composition
   Africana Studies 120. Composition (3)
   Chicana and Chicano Studies 111B. Written Communication (3)
   Linguistics 103. English Composition for International Students (3)
   Rhetoric and Writing Studies 100. Writing and Reading as Critical Inquiry (3)
   Rhetoric and Writing Studies 101. Writing and Reading as Critical Inquiry (3)
3. Intermediate Composition and Critical Thinking
   Africana Studies 200. Intermediate Expository Writing and Research Fundamentals (3)
   Chicana and Chicano Studies 200. Intermediate Expository Research and Writing (3)
   Linguistics 200. Advanced English for International Students (3)
   Philosophy 110. Critical Thinking and Composition (3)
   Rhetoric and Writing Studies 200. Writing from Sources (3)

II. FOUNDATIONS (28 units)
No more than seven units total may be taken in any one department in Foundations, American Institutions, and Explorations combined.
A. Natural Sciences and Quantitative Reasoning.
   Complete one course from each of the following four sections. (For majors in the sciences and related fields refer to the section “Special Provision for Majors in the Sciences and Related Fields.”)
1. Physical Sciences
   Astronomy 101. Principles of Astronomy (3)
   Chemistry 100. Introduction to General Chemistry with Laboratory (4)
   + Geography 101. Principles of Physical Geography (3)
   + Geography 103. Principles of Meteorology (3)
   Geological Sciences 100. Planet Earth (3)
   Natural Science 100. Physical Science (3)
   Physics 107. Introductory Physics with Laboratory (4)
2. Life Sciences
   + Anthropology 101. Human Biocultural Origins (3)
   Biology 100. General Biology (3)
   Biology 101. World of Animals (3)
3. Laboratory
   Astronomy 109. Astronomy Laboratory (1)
   Biology 100L. General Biology Laboratory (1)
   Biology 101L. World of Animals Laboratory (1)
   Chemistry 100. Introduction to General Chemistry with Laboratory (4)
   Geography 101L. Physical Geography Laboratory (1)
   Geological Sciences 101. Dynamics of the Earth Laboratory (1)
   Physics 107. Introductory Physics with Laboratory (4)
4. Mathematics/Quantitative Reasoning
   You may not use Credit/No Credit grades in this section.
   Biology 215. Biostatistics (3)
   Economics 201. Statistical Methods (3)
   Mathematics 118. Topics in Mathematics (3)
   Mathematics 120. Calculus for Business Analysis (3)
   Mathematics 121. Calculus for the Life Sciences I (3)
   Mathematics 122. Calculus for the Life Sciences II (3)
   Mathematics 141. Precalculus (3)

+ Only one of these three courses may be taken for General Education credit.
Complete a course in each of four of the following five areas (12 units).

1. Literature
   Comparative Literature 270A. World Literature (3)
   Comparative Literature 270B. World Literature (3)
   English 220. Introduction to Literature (3)

2. Art, Classics, Dance, Drama, Humanities, and Music
   Africana Studies 101B. Introduction to Africana Studies: Social and Behavioral Sciences (3)
   Anthropology 102. Introduction to Cultural Anthropology (3)
   Economics 100. Contemporary Economic Problems (3)
   Economics 101. Principles of Economics (3)
   Economics 102. Principles of Economics (3)
   Geography 102. Principles of Cultural Geography (3)
   Linguistics 101. Introduction to Language (3)
   Political Science 103. Introduction to Comparative Politics (3)
   Psychology 101. Introductory Psychology (3)
   Sociology 101. Introductory Sociology: The Study of Society (3)
   Women's Studies 101. Women and the Social Sciences (3)

3. History
   History 100. World History (3)
   History 101. World History (3)
   History 105. Western Civilization (3)
   History 106. Western Civilization (3)

4. Philosophy and Religious Studies
   Philosophy 101. Introduction to Philosophy: Values (3)
   Philosophy 102. Introduction to Philosophy: Knowledge and Reality (3)
   Philosophy 103. Historical Introduction to Philosophy (3)
   Religious Studies 101. World Religions (3)
   Religious Studies 102. Introduction to Religion (3)

5. Foreign Language
   Chinese 101. Elementary Chinese I (5)
   Chinese 102. Elementary Chinese II (5)
   Chinese 201. Intermediate Chinese I (5)
   Chinese 202. Intermediate Chinese II (5)
   Classics 101A. Elementary Greek I (5)
   Classics 101B. Elementary Latin I (5)
   Classics 120. English from Latin and Greek (3)
   Classics 202A. Elementary Greek II (5)
   Classics 202B. Elementary Latin II (5)
   French 100A. Elementary French I (5)
   French 100B. Elementary French II (5)
   French 201. Readings in French (3)
   French 220. Grammar of Spoken French (3)
   French 221. Writing French (3)
   German 100A. First Course in German (5)
   German 100B. Second Course in German I (5)
   German 205A. Third Course in German I (4)
   German 205B. Fourth Course in German I (4)
   Hebrew 101. Elementary Hebrew I (3)
   Hebrew 102. Elementary Hebrew II (3)
   Hebrew 201. Intermediate Hebrew (4)
   Italian 100A. Elementary Italian I (5)
   Italian 100B. Elementary Italian II (5)
   Italian 201. Reading and Speaking Italian (3)
   Italian 210. Intermediate Grammar and Composition (3)
   Japanese 111. Elementary Japanese I (6)
   Japanese 112. Elementary Japanese II (6)
   Japanese 211. Intermediate Japanese I (6)
   Japanese 212. Intermediate Japanese II (6)
   Linguistics 240. Foreign Language Experiences (1-3)
   Portuguese 101. Elementary/Intensive Portuguese I (5)
   Russian 100A. First Course in Russian (5)
   Russian 100B. Second Course in Russian I (5)
   Russian 200A. Third Course in Russian I (5)
   Russian 200B. Fourth Course in Russian I (5)
   Russian 211. Intermediate Conversation (3)
   Spanish 101. Introduction to Spanish I (4)
   Spanish 102. Introduction to Spanish II (4)
   Spanish 103. Introduction to Spanish III (4)
   Spanish 202. Intermediate (4)
   Spanish 211. Intermediate Conversation and Reading (3)
   Spanish 212. Intermediate Conversation and Writing (3)
   Spanish 281. Intermediate Spanish for U.S. Hispanics (3)
   Spanish 282. Intermediate Spanish for U.S. Hispanics (3)

III. AMERICAN INSTITUTIONS (3 units)

Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

Students who clear American Institutions with a course that does not meet General Education requirements may select an additional three unit course from Social and Behavioral Sciences II.B. or IV.B. Refer to section of catalog on American Institutions Requirement for approved sequences.
Graduation Requirements

IV. EXPLORATIONS

Courses in this area must not be taken sooner than the semester in which you achieve upper division standing (60 units passed.) Courses in the major department may not be used to satisfy upper division General Education.

Complete one course each in areas A, B, and C (9 units). One course must be a course in cultural diversity, designated by an *. (Majors in the departments of Astronomy, Biology, Chemistry, Geophysical Sciences, Mathematical Sciences, Natural Science, Nursing, and Physics may replace the area A course with an additional course from area B or C.)

A. Natural Sciences. Complete one course.

* Anthropology 402. Dynamics of Bicultural Diversity (3)
* Astronomy 310. Astrobiology and the Search for Extraterrestrial Life (3)
* Biology 307. Biology of Sex (3)
* Biology 315. Ecology and Human Impacts on the Environment (3)
* Biology 318. The Origins of Life (3)
* Biology 319. Evolution (3)
* Biology 321. Human Heredity (3)
* Biology 324. Life in the Sea (3)
* Biology 326. Plants, Medicines, and Drugs (3)
* Biology 327. Conservation of Wildlife (3)
* Biology 336. Principles of Human Physiology (3)
* Biology 339. Sociobiology (3)
* Biology 341. The Human Body (3)
* Engineering 320. Control of the Human Environment (3)
* General Studies 340. Confronting AIDS (3)
* Geological Sciences 301. Geology of National Parks and Monuments (3)
* Geological Sciences 302. Fossil Life Through Time (3)
* Geological Sciences 303. Natural Disasters (3)
* Geological Sciences 304. Planetary Geology (3)
* Geological Sciences 351. Environmental Hydrology (3)
* Mathematics 303. History of Mathematics (3)
* Natural Science 305. Quantum Reality–From Quarks to Quasars (3)
* Natural Science 315. History of Science I (3)
* Natural Science 316. History of Science II (3)
* Natural Science 317. Development of Scientific Thought (3)
* Natural Science 333. Technology and Human Values (3)
* Nursing 350. Women’s Health Across the Lifespan (3)
* Oceanography 320. The Oceans (3)
* Physics 301. Energy and the Environment (3)

B. Social and Behavioral Sciences. Complete one course.

* Africana Studies 320. Politics and Economics of Black Urban Development (3)
* Africana Studies 321. Black Political Participation in America (3)
* Africana Studies 322. African American Political Thought (3)
* Africana Studies 325. Public Policy and Afro-American Community (3)
* Africana Studies 341. Cultural Patterns and African American Identity (3)
* Africana Studies 380. Blacks in the American Justice System (3)
* Africana Studies 420. Afro-Americans and the Politics of Urban Education (3)
* Africana Studies 445. Ethnicity and Social Psychology (3)
* American Indian Studies 320. American Indians in Contemporary Society (3)
* Anthropology 350. World Ethnography (3)
* Anthropology 410. Language in Culture (3)
* Anthropology 430. Anthropology of Law and Dispute Processing (3)
* Anthropology 432. Principles of Personality in Culture (3)
* Anthropology 439. Cultural Comparisons Through Film (3)
* Anthropology 442. Cultures of South America (3)
* Anthropology 445. Ethnology of North America (3)
* Anthropology 446. Southwestern Ethnology (3)
* Anthropology 448. Cultures of Oceania (3)
* Anthropology 449. Cultures of Sub-Saharan Africa (3)
* Anthropology 450. Cultures of India (3)
* Anthropology 452. Japanese Society (3)
* Anthropology 453. Cultures of Southeast Asia (3)
* Asian Studies 331. Women in Asian Societies (3)
* Asian Studies 460. Contemporary Issues in Filipino-American Communities (3)
* Chicana and Chicano Studies 301. Political Economy of the Chicano People (3)
* Chicana and Chicano Studies 303. Mexican American Community Studies (3)
* Chicana and Chicano Studies 320. Mexican American Life Styles (3)
* Chicana and Chicano Studies 355. The United States-Mexico International Border (3)
* Communication 371. Intercultural Communication (3)
* Communication 408. Mass Communication and Society (3)
* Community Health Education 353. Sexually Transmitted Diseases (3)
* Community Health Education 362. International Health (3)
* Economics 330. Comparative Economic Systems (3)
* Economics 464. Economic Problems of Latin America (3)
* Economics 465. Economic Problems of South and East Asia (3)
* Economics 489. Economics and Population (3)
* Education 350. Education in American Society (3)
* Exercise and Nutritional Sciences 330. Exercise and Wellness Across the Lifespan (3)
* General Studies 330. Plagues Through the Ages (3)
* General Studies 420. Disability and Society (3)
* Geography 312. Culture Worlds (3)
* Geography 321. United States (3)
* Geography 323. Middle America (3)
* Geography 324. South America (3)
* Geography 336. Europe (3)
* Geography 337. Republics of the Former Soviet Union (3)
* Geography 354. Geography of Cities (3)
* Geography 370. Environmental and Natural Resource Conservation (3)
* International Security and Conflict Resolution 300. Global Systems (3)
* International Security and Conflict Resolution 301. Conflict and Conflict Resolution (3)
* International Security and Conflict Resolution 320. International Security in the Nuclear Age (3)
* Linguistics 354. Language and Computers (3)
* Linguistics 420. Linguistics and English (3)
† Management 456. Conceptual Foundations of Business (3)
* Political Science 301A. History of Western Political Thought (3)
* Political Science 301B. History of Western Political Thought (3)
* Political Science 302. Modern Political Thought (3)
* Political Science 356. Governments of Continental Europe (3)
* Political Science 361. Governments and Politics of the Developing Areas (3)
* Political Science 362. Governments and Politics of East Asia (3)
* Political Science 363. Governments and Politics of the Middle East (3)

* Cultural diversity course.
† Only one of these two courses may be taken for General Education credit.
‡ Majors in the College of Business Administration may not use this course to satisfy requirements for General Education.
C. Humanities. Complete one course.

* Africana Studies 365. African American Literature (3)
* Africana Studies 385. African American Music (3)
* Africana Studies 460. Black Images in Western Literature (3)
* Africana Studies 463. Black Literature of the World (3)
* Africana Studies 464. Caribbean Literature (3)
* Africana Studies 470. Comparative History: Afro-American and African Heritage (3)
* Africana Studies 472. Comparative Slavery (3)
* American Indian Studies 300. American Indian Oral Literature (3)
* American Indian Studies 430. American Indian Poetry and Fiction (3)
* American Indian Studies 440. American Indian History (3)
* American Indian Studies 470. Roots of Indian Tradition (3)
* Anthropology 349. Roots of Civilizations (3)
* Anthropology 422. Music and Culture (3)
* Anthropology 424. The Supernatural in Cross-Cultural Perspective (3)
* Art 357. World Art in Contemporary Life (3)
* Asian Studies 458. Asian Traditions (3)
* Asian Studies 459. Modern Asian Cultures (3)
* Chicana and Chicano Studies 310. Mexican and Chicano Music (3)
* Chicana and Chicano Studies 335. Mexican American Literature (3)
* Chicana and Chicano Studies 350A. Chicano History (3)
* Chicana and Chicano Studies 350B. Chicano History (3)
* Chicana and Chicano Studies 375. US/Mexico Border History (3)
* Chicana and Chicano Studies 376. Mexican American Culture and Thought (3)
* Chicana and Chicano Studies 380. US/Mexico Borderlands Folklore (3)
* Chicana and Chicano Studies 400. Mexican Images in Film (3)
* Chinese 301. Advanced Chinese I (3)
* Chinese 302. Advanced Chinese II (3)
* Chinese 352. Aspects of Chinese Language (3)
* Classics 303G. Readings in Greek Prose (3)
Graduation Requirements

- History 474. The Middle East Since 1500 (3)
- History 475. History of Africa to the Nineteenth Century (3)
- History 476. History of Africa Since the Nineteenth Century (3)
- History 480. History of Corporations in the Modern World (3)
- History 486. Modern Jewish History (3)
- Humanities 310. French Civilization (3)
- Humanities 320. German Civilization (3)
- Humanities 330. Russian Civilization (3)
- Humanities 340. Italian Civilization (3)
- Humanities 370. Humanities in America (3)
- Humanities 401. The Medieval Heritage (3)
- Humanities 402. The Renaissance (3)
- Humanities 403. The Baroque and the Enlightenment (3)
- Humanities 404. The Modern European Heritage (3)
- Humanities 460. African Civilizations (3)
- Italian 301. Advanced Oral and Written Composition (3)
- Italian 305A. Italian Literature (3)
- Italian 421. Italian Civilization (3)
- Japanese 311. Third Year Japanese I (4)
- Japanese 312. Third Year Japanese II (4)
- Linguistics 410. History of English (3)
- Music 345. World Music in Contemporary Life (3)
- Music 351A. Musical Masterpieces of the Eighteenth and Nineteenth Centuries (3)
- Music 351B. Musical Masterpieces of the Twentieth Century (3)
- Music 351D. Jazz History and Appreciation (3)
- Philosophy 305. Classics of Western Philosophy (3)
- Philosophy 310. Philosophy and Human Nature (3)
- Philosophy 329. Social Ethics (3)
- Philosophy 332. Environmental Ethics (3)
- Philosophy 333. Philosophy of Technology (3)
- Philosophy 334. Philosophy of Literature (3)
- Philosophy 351. Chinese Philosophy (3)
- Portuguese 301. Intermediate Portuguese Grammar and Composition (3)
- Portuguese 401. Advanced Portuguese Grammar and Composition (3)
- Religious Studies 301. Hebrew Scriptures (3)
- Religious Studies 320. Judaism (3)
- Religious Studies 325. Christianity (3)
- Religious Studies 340. Islam (3)
- Religious Studies 350. Dynamics of Religious Experience (3)
- Religious Studies 353. Religion and Psychology (3)
- Religious Studies 354. Religion and Society (3)
- Religious Studies 363. Religion and the Sciences (3)
- Religious Studies 401. Religions of India (3)
- Religious Studies 403. Religions of the Far East (3)
- Spanish 301. Advanced Grammar and Composition (3)
- Russian 305A. Survey of Russian Literature (3)
- Russian 305B. Survey of Russian Literature (3)
- Spanish 340. Spanish Civilization (3)
- Spanish 341. Spanish American Civilization (3)
- Spanish 342. Mexican Civilization (3)
- Spanish 405A. Survey Course in Spanish Literature (3)
- Spanish 405B. Survey Course in Spanish Literature (3)
- Spanish 406A. Survey of Spanish American Literature (3)
- Spanish 406B. Survey of Spanish American Literature (3)
- Television, Film and New Media 363. International Cinema (3) (Maximum GE credit 3 units)
- Theatre 460A. History of the Theatre (3)
- Theatre 460B. History of the Theatre (3)
- Theatre 465. Theatre of Diversity (3)
- Women's Studies 340. Women in Modern European History (3)
- Women's Studies 352. Women in Literature (3)

* Cultural diversity course.
^ Taught in English.

Application for Graduation

Graduation is not automatic upon the completion of requirements. Students who intend to graduate must take the initiative. When they believe they are eligible, they should file an application with the Office of the Registrar. Deadlines by which applications must be received in the Office of the Registrar are published each year in the fall semester Class Schedule. An application fee of $35.00, which is nonrefundable, is required.

All requirements must be completed by the graduation date. Candidates for graduation are not eligible to register for terms subsequent to the graduation date unless an application for readmission as a postbaccalaureate student has been filed with Graduate Admissions.

Students not completing requirements must cancel the current application at the earliest possible date and reapply for graduation during the appropriate filing period. Candidates who wish to change their projected graduation date between May and August may do so by submitting a Graduation Term Transfer Form. Changes between December and May or August graduation dates require a new application. Both term transfer and reapplication require a $35.00 fee.

Graduation requirements will be determined by the continuous enrollment regulations. A student not in a period of continuous enrollment at the time of filing for a bachelor’s degree must meet the catalog requirements in effect at the time of filing. Continuous enrollment is defined here as attendance in at least one semester or two quarters within a calendar year. See “Election of Regulations for Graduation” below for complete regulations. After the degree is granted no changes can be made to the undergraduate record.

Time Limit on Completion of Requirements for the Major. As authorized by Title 5, California Code of Regulations, Section 40401, departments may require that specific academic requirements be met within seven years of granting an undergraduate degree. Such requirements will consist of advanced courses and examinations in areas of knowledge changing so rapidly that information may be obsolete after seven years. In those cases in which a student is required to repeat a course taken more than seven years previously, only the last grade will be used in computation of grade point averages.

NOTE: San Diego State University does not backdate degrees. The semester in which all your requirements are completed is the semester in which your degree will be posted to your academic record.

Election of Regulations for Graduation

An undergraduate student remaining in attendance in regular session at any California State University campus, any California community college, or any combination of California community colleges and campuses of The California State University may, for purposes of meeting graduation requirements, elect to meet the requirements in effect at San Diego State University either at the time the student began such attendance or at the time of entrance to the campus or at the time of graduation. Substitutions for discontinued courses may be authorized or required by the proper authorities.

“Attendance” is defined here as attendance in at least one semester or two quarters within a calendar year. Absence due to an approved educational leave or for attendance at another accredited institution of higher learning shall not be considered an interruption in attendance if the absence does not exceed two years. When students change or declare their majors, they must adopt the requirements of the major and any minors in effect at that time.

Commencement

Commencement exercises are held once a year at the end of the spring semester for students who were graduated at mid-year, those graduating at the end of the spring semester, and undergraduate students who expect to complete requirements for graduation in the summer term. The President of the University, by the authority of the Trustees and on recommendation of the faculty, awards the degrees. Brochures giving details regarding the exercises are mailed to prospective participants in early May.

*# An emphasis within the B.S. in Business Administration.*

**Emphases and Concentrations**

An emphasis or concentration is defined as an aggregate of courses within a degree major designed to give a student specialized knowledge, competence, or skill. Completion of an emphasis or concentration is noted on the student's transcript and diploma for undergraduate students.

**BACCALAUREATE MAJORS**

**Art** (BA, Liberal Arts and Sciences)
- Emphases:
  - art history
  - studio arts

**Art** (BA, Applied Arts and Sciences)
- Emphases:
  - applied design
  - environmental design
  - graphic design
  - interior design
  - painting and printmaking
  - sculpture

**Biology** (BS, Applied Arts and Sciences)
- Emphases:
  - cellular and molecular biology
  - ecology
  - evolution and systematics
  - marine biology
  - zoology

**Business Administration** (BS, Applied Arts and Sciences)
- Emphasis:
  - agribusiness (IVC)

**Chemistry** (BS, Applied Arts and Sciences)
- Emphasis:
  - biochemistry

**Classics** (BA, Liberal Arts and Sciences)
- Emphases:
  - classical humanities
  - classical language

**Communication** (BA, Liberal Arts and Sciences)
- Emphases:
  - advertising
  - media management
  - public relations
  - telecommunications and film

**Economics** (BA, Liberal Arts and Sciences)
- Emphases:
  - international economics
  - preprofessional studies

**European Studies** (BA, Liberal Arts and Sciences)
- Emphases in language:
  - French
  - German
  - Italian
  - Portuguese
  - Russian
  - Spanish

**Geography** (BA, Liberal Arts and Sciences)
- Emphases:
  - methods of geographical analysis
  - natural resource and environmental physical geography
  - urban and regional analysis

**Geological Sciences** (BS, Applied Arts and Sciences)
- Emphases:
  - engineering geology
  - geochimistry
  - geophysics
  - hydrogeology
  - marine geology
  - paleontology

**German** (BA, Liberal Arts and Sciences)
- Emphasis:
  - German studies

**Health Science** (BS, Applied Arts and Sciences)
- Emphasis:
  - community health education

**Hospitality and Tourism Management** (BS, Applied Arts and Sciences)
- Emphases:
  - hotel operations and management
  - restaurant operations and management
  - global tourism management
  - attractions, events, and convention management

**Humanities** (BA, Liberal Arts and Sciences)
- Emphasis:
  - European humanities

**International Business** (BA, Liberal Arts and Sciences)
- Emphasis in language:
  - Chinese
  - English
  - French
  - German
  - Italian
  - Japanese
  - Portuguese
  - Russian
  - Spanish
- Emphasis in regional/cultural studies:
  - Africa
  - Asia
  - Latin America
  - Middle East
  - North America
  - Russia and Central Europe
  - Western Europe

**Kinesiology** (BS, Applied Arts and Sciences)
- Emphases:
  - athletic training
  - fitness, nutrition, and health
  - physical education
  - prephysical therapy

**Mathematics** (BS, Applied Arts and Sciences)
- Emphases:
  - applied mathematics
  - computational science
  - mathematical finance

**Microbiology** (BS, Applied Arts and Sciences)
- Emphasis:
  - medical technology and public health microbiology

**Political Science** (BA, Liberal Arts and Sciences)
- Emphasis:
  - legal studies

**Public Administration** (BA, Applied Arts and Sciences)
- Emphasis:
  - city planning

**Recreation Administration** (BS, Applied Arts and Sciences)
- Emphases:
  - outdoor recreation
  - recreation systems management
  - recreation therapy

**Social Science** (BA, Liberal Arts and Sciences)
- Emphases:
  - children’s drama
  - design and technology for theatre
  - design for television and film
  - environment
  - performance

**GRADUATE MAJORS**

**Applied Mathematics** (MS)
- Concentration:
  - mathematical theory of communication systems

**Art** (MA)
- Concentrations:
  - art history
  - studio arts

**Biological** (MA or MS)
- Concentrations:
  - ecology
  - evolutionary biology
  - molecular biology
  - physiology

**Business Administration** (MS)
- Concentrations:
  - entrepreneurship
  - finance
  - financial and tax planning
  - human resource management
  - information systems
International business management marketing operations management real estate taxation

Civil Engineering (MS) Concentration: environmental engineering

Communicative Disorders (MA) Concentrations: speech-language pathology audiology education of the deaf communicative sciences

Education Concentrations (Ed.D): teaching and learning educational technology educational administration and policy human development services

Concentrations (MA): counseling educational leadership educational research educational technology elementary curriculum and instruction policy studies in language and cross-cultural education reading education secondary curriculum and instruction special education

Geography (MA) Concentrations: natural resources and environmental policy transportation

Nursing (MS) Concentrations: advanced practice nursing of adults and the elderly community health nursing nursing systems administration

Psychology (MS) Concentrations: applied psychology clinical psychology (included within the Ph.D. program; not available separately)

Public Administration (MPA) Concentrations: city planning criminal justice administration

Public Health Concentrations (MPH): biometry environmental health epidemiology health promotion health services administration

Concentrations (MS): environmental health science industrial hygiene toxicology

Statistics (MS) Concentration: biostatistics

Theatre Arts (MFA) Concentrations: acting design and technical theatre musical theatre

**Credentials Offered**

**Teaching Credentials**
- Adapted physical education
  - Multiple subject
  - Multiple subject cross-cultural, language, and academic development (CLAD) emphasis
  - Multiple subject bilingual cross-cultural language and academic development (B/CLAD) emphasis: Spanish
- Single subject
  - Single subject cross-cultural, language, and academic development (CLAD) emphasis
  - Single subject bilingual cross-cultural language and academic development (B/CLAD) emphasis: Spanish

**Specialist Credentials**
- Education specialist for the deaf and hard of hearing, level I
  - Reading/language arts

**Service Credentials**
- Administrative
  - Child welfare and attendance
  - Clinical-rehabilitative
  - Pupil personnel
    - School counseling
    - School psychology
    - School psychology (internship credential)
    - School social work
    - School nurse

**Minors for the Bachelor’s Degree**
- Accounting
- Advertising
- Aerospace studies
- African studies
- Afro-American studies
- American Indian studies
- American studies
- Anthropology
- Art
- Art history
- Asian studies
- Astronomy
- Biology
- Business administration
- Chemistry
- Chicana and Chicano studies
- Child development
- Chinese
- Classics
- Communication
- Communicative disorders
- Comparative literature
- Computer science
- Dance
- Economics
- Educational technology
- Energy studies
- Engineering

**Curricula Summary**

**Special Curricula**

**Preprofessional Curricula**
- Premedical
- Preveterinary

**Military Curricula**
- Aerospace studies (AFROTC)
- Military science (ROTC)

**Certificate Programs (nondegree)**

**Certificate in accounting**
**Certificate in applied gerontology**
**Certificate in applied linguistics and English as a second language (ESL)**
**Certificate in bilingual (Spanish) special education**
**Certificate in business administration (Imperial Valley campus only)**
**Certificate in children’s literature**

**Certificate in cross-cultural language and academic development (CLAD)**
**Certificate in developing gifted potential**
**Certificate in early childhood special education**
**Certificate in early intervention**
**Certificate in environmental studies**
**Certificate in family life education**
**Certificate in geographic information science**
**Certificate in human services paraprofessional**
**Certificate in instructional technology**
**Certificate in introductory mathematics**
**Certificate in Mexico (BCLAD)**
**Certificate in personal financial planning**
**Certificate in preventive medicine residency**
**Certificate in professional services bilingual/multicultural**
**Certificate in public administration (Imperial Valley campus only)**
**Certificate in recombinant DNA technology**
**Certificate in rehabilitation administration**
**Certificate in rehabilitation technology**
**Certificate in resource specialist competence**
**Certificate in single subject mathematics**
**Certificate in court interpreting (Imperial Valley campus only)**
**Certificate in supported employment and transition specialist**
**Certificate in teaching the emotionally disturbed/behaviorally disordered**
**Certificate in technical and scientific writing**
**Certificate in translation studies (Spanish)**
**Certificate in United States-Mexico border studies**
**Certificate in workforce education and lifelong learning**

The following non-credit programs are available through Extension only.
- Certificate in community economic development
- Certificate in construction inspection technology
- Certificate in construction practices
- Certificate in consultancy
- Certificate in government contract management
- Certificate in human resource management
- Certificate in marketing and e-commerce
- Certificate in medical office procedures
- Certificate in meeting and events planning
- Certificate in negotiation and alternative dispute resolution
- Certificate in operations resource management
- Certificate in occupational health and safety management
- Certificate in school business administration
- Certificate in telecommunications
- Certificate in total quality management
- Certificate in trauma recovery services
Major and Credential Codes*

MAJOR CODE KEY:
U = Undergraduate
G = Graduate
+ = Emphasis within another bachelor’s degree
¢ = Concentration within another master’s degree
# = Specializations within another bachelor’s degree
G = Graduate
U = Undergraduate

Courses and Curricula

Numbering of Courses

Courses numbered 80 through 99 are nonbaccalaureate level and are not acceptable for a bachelor’s degree; those numbered 100 through 299 are in the lower division (freshman and sophomore years); those numbered 300 through 499 are in the upper division (junior and senior years) and intended for undergraduates; those numbered 500 through 599 are in the upper division and are also acceptable for advanced degrees when taken by students admitted to graduate standing; those numbered 600 through 799 are graduate courses; and those numbered 800 through 899 are doctoral courses.

Courses numbered at the 900 level are reserved for graduate courses in certain professional curricula as part of advanced certificate, credential, and licensure programs and are specifically intended for students admitted to the University with post-baccalaureate classified standing. Courses numbered at the 900 level are not applicable to other graduate programs.

Courses numbered 397 offered in regular sessions are professional advancement/training or tutorial/discussion classes that may accompany other credit courses and are not acceptable towards an undergraduate or graduate degree.

Courses numbered X-01 through X-79 and X-397 are professional advancement units offered only through Extension to meet specific academic needs of community groups and are not acceptable toward an undergraduate or graduate degree.

The Unit or Credit Hour

In the listing of courses that follow, figures in parentheses indicate the unit value of the course. One unit or credit hour represents 50 minutes of recitation or lecture, together with the required preparation, or three hours of laboratory work or two hours of activities, each week for a semester.

Prerequisites for Undergraduate Courses

Students must satisfy course prerequisites (or their equivalent) prior to beginning the course to which they are prerequisite. Faculty have the authority to enforce prerequisites listed in the current catalog and current class schedule, to evaluate equivalent preparation, and to require proof that such prerequisites/preparation have been completed. Faculty may, during the first week of classes, request students without the prerequisites or equivalent preparation to take formal action to drop the course. Failure to comply will result in a failing grade.

Semester in Which Courses Are Offered

In the listing of courses that follows, Roman numeral I indicates a course offered in the fall semester. Roman numeral II indicates a course offered in the spring semester. An “S” indicates a course offered in the summer term.

Following the course title are designations of credit and the semester in which the course is offered.

Examples:

(3) I .....................................Three units. Offered in fall semester.
(3) II .....................................Three units. Offered in spring semester.
(3-3) ............................. Three units each semester. Year course normally beginning in fall semester.
(3-3) I, II.................. Three units each semester. Year course beginning either semester.

Although the University fully expects to carry out the arrangements planned in the list of courses, it reserves the right to make changes. Classes in which the enrollment does not come up to the minimum number set by the Trustees of The California State University may not be offered or may be postponed.

Common Courses

Experimental or Selected Studies or Topics or Workshop Courses (96, 296, 496, 596)

Courses offered by departments under the numbers 296, 496, 596 are experimental or selected studies or topics or workshop courses which are offered for credit/no credit are indicated by the symbols Cr/NC in the course title.

In the listing of courses that follow, figures in parentheses indicate the amount of time to be devoted to the topic, the credit to be earned, and the mode of investigation and report to be used. As with regular courses, the expectation is that the student will devote three hours per week to the subject for each unit of credit. A maximum combined credit of nine units of 299, 499, and 599 is applicable to a bachelor’s degree. Maximum credit of six units of 499 in one department applicable to a bachelor’s degree.

A 499 or 599 number cannot be used to offer lower division coursework. Also, 299, 499, and 599 cannot be used to extend internships, to award academic credit in place of pay, for work experience, or for class-sized groups.

Credit/No Credit Courses

Courses which are offered for credit/no credit are indicated by the symbols Cr/NC in the course title.
A member of AACSB—The International Association for Management Education.

Faculty
Emeritus: Brodshatzer, Ferrel, Meier, Meigs, Samuelson, Snudden, Whittington
Director: Barnett
The Vern E. Odmark Chair in Accountancy: Chow
The PricewaterhouseCoopers Alumni Professor of Accountancy: Capettini
Professors: Bailey, Barnett, Butler, Capettini, Chow, Grudnitski, Houston, Lightner, K., Oestreich, Toole, Whittenburg, Williamson
Associate Professors: Joh, Lightner, S., Venable
Assistant Professor: Doran
Lecturers: Garrett, Snyder

Offered by the School
Master of Science degree in accountancy.
Master of Business Administration.
Emeritus: Brodshatzer, Ferrel, Meier, Meigs, Samuelson, Snudden, Whittington

The Major
The major in accounting provides basic concepts of accounting and business knowledge to students seeking professional careers in the field. Growing with the increased complexity of the business world, accounting continues to offer a wide choice of careers and opportunities.

The School of Accountancy offers two programs at the undergraduate level: The Business Accounting Program and the Professional Accountancy Program.

The Business Accounting Program offers courses to prepare students for a variety of entry-level financial or general business positions, or for graduate work in accounting, business, or law. This track leads to a B.S. in Business Administration, Accounting.

The Professional Accountancy Program is for students who plan to pursue professional accounting careers in public accounting firms, corporations, and not-for-profit and governmental organizations. Completion of this program (158 units) results in the awarding of the B.S. in Business Administration (Accounting) and the M.S. in Accountancy when the requirements for each degree have been completed. Application for this program may be made during the semester in which the student completes 95 units and has completed (or is completing) Accountancy 322. In addition to the completed application, admission will be based upon the attainment of above-average grades in all upper division accountancy classes and a strong SDSU overall GPA and GMAT score.

Statement on Computers
Business students are strongly encouraged to have their own computers, including word processing and spreadsheets. Availability of on-campus computing resources can be limited due to increasing demand across the University.

Retention Policy
The College of Business Administration is concerned that each individual upper division student makes reasonable academic progress toward earning a degree. To this end, the College will counsel students who have earned less than a “C” (2.0) average each semester. Further, such students will be warned that continued poor performance may result in their removal from any business major.

Transfer Credit
Lower Division: Courses clearly equivalent in scope and content to San Diego State University courses required for minors or as preparation for all business majors will be accepted from regionally accredited United States institutions and from foreign institutions recognized by San Diego State University and the College of Business Administration.

Upper Division: It is the policy of the San Diego State University College of Business Administration to accept upper division transfer credits where (a) the course content, requirements, and level are equivalent to San Diego State University courses and (b) the course was taught in an AACSB—The International Association for Management Education accredited program. Exceptions require thorough documentation evidencing the above standards.
Impacted Program

The accounting major is impacted. Students must apply to enter the University under the business administration premajor code (05011). To be admitted to the upper division accounting major, students must meet the following criteria:

a. Complete with a grade of C or higher: Accountancy 201 and 202; Finance 140; Information Decision Systems 180; Economics 101 and 102; Mathematics 120 (or other approved calculus course); and either Statistics 119 or Economics 201. These courses cannot be taken for credit/no credit (Cr/NC);

b. Clear the competency requirements in mathematics and writing. Refer to Graduation Requirements section of this catalog for details;

c. Complete a minimum of 56 semester units;

d. Have a cumulative and SDSU GPA of 2.90;

e. Students who meet all requirements except the GPA may request to be placed on the waiting list. Students on the waiting list will be admitted on space-availability basis only. Contact the Business Advising Center (BA 448), 619-594-5828, for more information; and

f. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment). To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Accounting Major

With the B.S. Degree in Business Administration (Major Code: 05021)

A minor is not required with this major.

Preparation for the Major. Accountancy 201 and 202; Economics 101 and 102; Statistics 119 or Economics 201; Mathematics 120 (or other approved calculus course); Finance 140; Information and Decision Systems 180. (24 units)

These prerequisite courses may not be taken Cr/NC; the minimum grade in each class is C. Additional progress requirements must be met before a student is admitted to an upper division major.

Upper Division Writing Requirement. Information and Decision Systems 390W with a grade of C (2.0) or better.

Business Accounting Program Major. Forty-nine upper division units consisting of Accountancy 321 (or 318 and 319), 322, 421, 422, and three units of upper division accountancy electives (not including Accountancy 325 or 326; Finance 323; Information and Decision Systems 301, 302, and 390W; Management 350; Business Administration 404 or Management 405; Marketing 370; Economics 320 or 321 or Finance 321). A “C” (2.0) average is required in the courses stipulated here for the major. Of the 123 units required for the degree, at least 60 units must be at the upper division level. This includes the 49 units listed above, nine units of upper division General Education, and at least two units of upper division electives, chosen from within or outside of business administration. A minimum of 64 units of coursework applicable to the bachelor’s degree must be completed outside the areas of business administration, economics, and statistics. This means that at least three units of electives (upper or lower division) must be completed in areas other than business administration, economics, and statistics. A maximum of six lower division units of accountancy courses may be used to satisfy degree requirements.

Professional Accountancy Program Major. Students must successfully complete 158 units to be awarded first the B.S. degree in Business Administration, Accounting, and then the M.S. degree in Accountancy. Students MUST file for graduation and complete the B.S. degree in Business Administration BEFORE continuing on to the M.S. degree in Accountancy. Students must apply and be admitted to the M.S. Accountancy program (including completion of the Graduate Management Admissions Test) as listed in the Graduate Bulletin. At least 60 units must be completed at the upper division level. A maximum of six units of lower division accountancy courses may be used to satisfy the requirements for the degrees. No more than 30 units may be in courses numbered 600 and above. Students must achieve a “C” (2.0) average in the following courses: Accountancy 321 (or 318 and 319), 322, 421, 422, and three units of upper division accountancy electives; Finance 323; Information and Decision Systems 301, 302, 390W; Management 350; Business Administration 404 or Management 405, Marketing 370, Economics 320 or 321 or Finance 321. Students must achieve at least a “B” (3.0) average in the classes specified on their official program for the master’s degree.

Suggested Course of Study for the Professional Accountancy Program: Students should have completed 67 units, including all lower division General Education and Preparation for the Major, before beginning their upper division work.

Business Major
For the Single Subject Teaching Credential
With the B.S. Degree in Business Administration
All candidates for the single subject teaching credential in business must complete all requirements for the applicable specialization as outlined in this section of the catalog under Policy Studies or Teacher Education. Students must complete the requirements for a major in one of the five departments within the College of Business Administration. In consultation with the single subject credential adviser in the College of Business Administration, undergraduate students must develop programs which fulfill the State credential requirements. All undergraduate majors must demonstrate office skills proficiency. Finance 589. Personal Financial Planning, is required of all teaching credential majors. Of the 128 units required for the degree, at least 60 units must be at the upper division level.
Student programs must be approved in advance by the College of Business Administration single subject credential adviser.

Accounting Minor
The minor in accounting consists of a minimum of 24 units to include Accountancy 201, 202, 321 (or 318 and 319), 322*, Information and Decision Systems 301, and Mathematics 120.
*Prerequisites waived for students in this program.
Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University. Students with a major in the College of Business Administration, Hospitality and Tourism Management, or International Business may not complete a minor in the College of Business Administration.
Students must officially declare the minor before taking any upper division business courses. Students must meet the prerequisites for the minor in effect at the time that they declare the minor. The current prerequisites for admission to the accounting minor include completion of the SDSU lower division writing and mathematics competency requirements; completion of the following courses with a grade of C or better: Economics 101, 102, and a three unit course in statistics (Statistics 119 is recommended); completion of the General Education requirements in Communication and Critical Thinking; completion of an additional nine units in the department of the student’s major, including at least six units of upper division courses. Students must also meet the GPA requirement in effect at the time that they declare the minor. Contact the Business Advising Center (BA 448) for admissions criteria and procedures.

Accounting Certificate
The purpose of the Accounting Certificate is to provide professional and postbaccalaureate certification to accounting and non-accounting professionals in San Diego.
Students must apply and be admitted to the program before the completion of 18 certificate units. The certificate requires 30 units to include Accountancy 201, 202, 321* (or 318 and 319), and approved electives to make a total of 30 units. Accountancy 201 and 202 must be completed with a minimum grade of C (2.0) and the certificate coursework must be completed with a minimum grade point average of C (2.0).
Courses with relevant content may be substituted for the courses listed above with the approval of the certificate adviser. Courses in the certificate may not be counted toward the major or minor.
*General Education prerequisite waived for students in this program.

Courses (ACCTG)
LOWER DIVISION COURSES
A maximum of six lower division units of accountancy courses may be applied to bachelor’s degree requirements for all majors in the College of Business Administration.

201. Financial Accounting Fundamentals (3) I, II, S
Theory and practice of accounting applicable to recording, summarizing, and reporting of business transactions for external reporting and other external uses. Asset valuation; revenue and expense recognition; various asset, liability, and capital accounts. Preparation requirement for business majors.

202. Managerial Accounting Fundamentals (3) I, II, S
Prerequisite: Minimum grade of C in Accounting 201. Proof of completion of prerequisite required: Copy of transcript. Selection and analysis of accounting information for internal use by managers. Using financial information for planning and control purposes.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)
309. The Accounting Profession (1) Cr/NC
Prerequisite: Approved upper division business major, business minor, or other approved major.
Analysis and evaluation of professional opportunities that utilize the accounting and reporting functions.

318. Integrated Accounting IA (3)
Prerequisites: Approved upper division business major, business minor, or other approved major; minimum grade of C in both Accountancy 201 and 202. Completion of General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Copy of transcript.
First half of the material included in Accountancy 321. Not open to students with credit in both Accountancy 325 and 326 or in Accountancy 321. Maximum credit six units for any combination of Accountancy 318, 319, 321.

319. Integrated Accounting IB (3)
Prerequisite: Accountancy 318 with a grade of C or better. Second half of material included in Accountancy 321. Not open to students with credit in both Accountancy 325 and 326 or in Accountancy 321. Maximum credit six units for any combination of Accountancy 318, 319, 321.

321. Integrative Accounting Topics I (6)
Prerequisites: Admission to Accountancy major, minor, or certificate. Minimum grade of C in both Accountancy 201 and 202. Completion of General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Copy of transcript.
Information and accounting systems to satisfy decision making requirements of managers and external users. Introduction to taxation and tax considerations in selecting the form of organization. Includes topics typically contained in Intermediate Accounting I, Managerial and Cost Accounting, Accounting Information Systems, and Federal Income Tax courses. Not open to students with credit in Accountancy 325 and 326. Maximum credit six units for any combination of Accountancy 318, 319, 321.

322. Integrative Accounting Topics II (6)
Prerequisites: Minimum grade of C in Accounting 321. Credit or concurrent registration in Information and Decision Systems 390W. Proof of completion of prerequisites required: Copy of transcript.
Financial and tax research methods, taxation topics, accounting information systems, financial reporting issues, preparation and use of financial statement information, and accounting issues of not-for-profit organizations. Includes material typically contained in Accounting Information Systems, Accounting for Not-for-Profit Organizations, Federal Income Tax, and Intermediate Accounting II.
325. Intermediate Managerial and Tax Accounting (3)
Prerequisites: Accountancy 202. Approved upper division business major or minor or other approved major. Not open to accounting majors.
Theories, practices, and concepts needed to satisfy decision making requirements of internal users; tax considerations to managerial decision making. May not be taken for credit by accounting majors.

326. Intermediate Financial Accounting (3)
Prerequisite: Accountancy 202. Approved upper division business major or minor or other approved major. Not open to accounting majors.
Theories, practices, and concepts needed to satisfy the decision making requirements of external users; financial reporting for enterprises engaged in international trade of business. May not be taken for credit by accounting majors.

409. Field Study in Taxation (1) Cr/NC II
Prerequisite: Accountancy 321.
Income tax preparation in the field. Follows procedures of IRS VITA Program. IRS instruction followed by faculty supervised fieldwork. (Student must be available for special IRS tax school.)

421. Integrative Accounting Topics III (6)
Prerequisites: Information and Decision Systems 301, 390W; minimum grade of C in Accountancy 322. Proof of completion of prerequisites required: Copy of transcript.
Audit of financial statements, consolidated financial reporting issues, and advanced financial accounting topics. Includes material typically contained in Auditing and Advanced Accounting.

422. Integrative Accounting Topics IV (3)
Prerequisites: Information and Decision Systems 301, 390W; minimum grade of C in Accountancy 322. Credit or concurrent registration in Accountancy 421. Proof of completion of prerequisites required: Copy of transcript.
Accounting information for managerial performance evaluation, advanced financial reporting issues, and international accounting. Include material typically contained in International Accounting, Advanced Accounting, and Management Control Systems.

496. Selected Topics in Accountancy (1-4) I, II
Prerequisite: Consent of department chair.
Selected areas of concern in accountancy. See Class Schedule for specific content. May be repeated with new content with consent of department chair. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit six units.

498. Investigation and Report (1-3) I, II
Prerequisites: Senior standing and consent of instructor.
A comprehensive and original study of a problem connected with accounting under the direction of one or more members of the accounting staff. May be repeated with new content. Maximum credit six units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

501. Advanced Accounting Problems (4) I, II
Prerequisites: Minimum grade of C in Accountancy 322; credit or concurrent registration in Accountancy 421. Proof of completion of prerequisites required: Copy of transcript.
Problems involved in partnerships, consignments, consolidations, receiversonships, foreign exchange, fund accounting, and other specialized areas.

502. Advanced Managerial Accounting (3)
Prerequisite: Minimum grade of C in Accountancy 322; credit or concurrent registration in Accountancy 421. Proof of completion of prerequisite required: Copy of transcript.
Use of accounting information systems for managerial decision making. Introduction to decision-making situations which use accounting information for full or partial resolution. Consideration of uncertainty, decision theory and specific decision contexts.

503. Federal Taxation of Individuals (3) I, II, S
Prerequisites: Accounting 201 and 202. Approved upper division business major, business minor, or other approved major. Proof of completion of prerequisites required: Copy of transcript.
Taxation of individuals, including income, deductions, credits, social security taxes, and property transactions. (Formerly numbered Accountancy 404.)

504. Federal Taxation of Business Enterprises (3) I, II, S
Prerequisite: Credit or concurrent registration in Accountancy 421 or credit in Accountancy 503.
Taxation of corporations, partnerships, estates, and trusts. Gift and estate tax.

508. Accounting for Not-For-Profit Organizations (3)
Prerequisite: Minimum grade of C in Accountancy 322. Proof of completion of prerequisite required: Copy of transcript.
Principles of fund accounting useful in state and local governmental units, hospitals, colleges, and universities. Comparisons with commercial accounting emphasized. Includes study of budgetary accounting, appropriations, encumbrances, internal checks and auditing procedures.

596. Contemporary Topics in Accounting (1-3)
Prerequisites: Minimum grade of C in Accountancy 322, credit or concurrent registration in Accountancy 421. Proof of completion of prerequisites required: Copy of transcript.
Contemporary topics in modern accounting. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Administration, Rehabilitation and Postsecondary Education

OFFICE: 5850 Hardy Avenue, Suite 240
TELEPHONE: (619) 594-6115

In the College of Education

Accredited by the California Commission on Teacher Credentialing and the Council on Rehabilitation Education.

Faculty
Emeritus: Lienert, Stevens, Streshly, Warburton, Wetherill
Chair: Frase
Educational Leadership
Professors: Frase, Latta, Meno, Merino, Piland, Pumpian
Associate Professor: Basom, Downey, Yerkes
Rehabilitation Counseling
Professors: Atkins, Jacobs, McFarlane
Assistant Professor: Sax

Offered by the Department
Master of Arts degree in education.
Concentration in educational leadership.
Master of Science degree in rehabilitation counseling.
Bachelor of Vocational Education degree.
Administrative services credentials.
Certificate in rehabilitation administration (refer to Bulletin of the Graduate Division).

Bachelor of Vocational Education Degree
(Major Code: 08395)

Instructors of Occupational Education are encouraged to complete the B.V.E. and to enroll in the program leading to the Master of Arts in Education with a concentration in educational leadership. For further information, students are advised to consult with the Postsecondary Education Coordinator, College of Education.

The Bachelor of Vocational Education degree is designed primarily for instructors who are teaching in a vocational education program either in the secondary school or in postsecondary education programs and qualify for an official evaluation (under provisions of the Swan Bill) through the State Board of Vocational Examiners in Sacramento. To qualify for the evaluation, the requirements of the State Education Code, Section 89223, must be met. This regulation stipulates a minimum period of vocational teaching experience amounting to 1,620 clock hours in a full-time position or 1,000 clock hours in an approved trade technical extension class.

The individual desiring to secure the B.V.E. degree should follow the basic pattern set down in the following steps:

1. The individual must have an Associate of Arts degree or 60 units. (This should include, if possible, the 40 lower division units of general education required for the bachelor's degree from SDSU. The additional nine upper division units required for General Education must be completed at SDSU.) ....................... 70 units maximum

2. The individual must apply for evaluation of work experience (Swan Bill). Applicants should apply to the Board of Examiners for Vocational Teachers, Bureau of Industrial Education, State Education Bldg., 721 Capitol Avenue, Sacramento, California. These units count toward the major and are classified as upper division units. (See Postsecondary Education Program Coordinator for assistance and application forms.) ......................... 40 units maximum

3. The individual must take the following professional occupational teacher education courses:
ARP 380, 381, 382, and 565. ......................... 11-13 units maximum

4. The individual must receive credit for the required number of upper division courses to complete the Bachelor of Vocational Education degree graduation requirements. This includes those given in item 2. ......................... 40 units maximum

5. The individual must satisfy all other graduation requirements, including competencies, upper division writing requirement, grade point average, residency, etc.

6. The individual must see an adviser in the area of the major to arrange a program for completion of coursework. A series of elective courses that will support the professional responsibilities of the candidate will be recommended. Furthermore, 30 units must be in residency at SDSU, of which 24 must be upper division.

Total .................. 124 units

Courses (ARP)

GENERAL

UPPER DIVISION COURSES
(Intended for Undergraduates)

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Open only to senior and graduate students in education who have shown ability to work independently.
Individual study. Maximum credit six units.

UPPER DIVISION COURSE
(Also Acceptable for Advanced Degrees)

596. Topics in Administration, Rehabilitation and Postsecondary Education (1-3)
Selected problems in administration, rehabilitation and postsecondary education. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.
Educational Leadership
UPPER DIVISION COURSES
(Intended for Undergraduates)

380. Principles of Adult and Vocational Education (3) I, II, S
Principles, practices, scope, and functions of adult and vocational education.

381. Developing Adult and Vocational Education (3) I, II, S
Needs assessment, task analysis, formulation of objectives, lesson plans, instructional techniques, and evaluation in adult and vocational settings.

382. Directed Teaching (2-4) Cr/NC I, II, S
Prerequisite: Administration, Rehabilitation and Postsecondary Education 380, 381, or 565.
Systematic observation, participation, and teaching under supervision in an occupational subject matter area. Application to take this course must be made in preceding semester.

565. Psychological Foundations of Adult and Vocational Education (3) I, II, S
Prerequisite: Administration, Rehabilitation and Postsecondary Education 380 or 381.
Learning processes of adult and vocational education students in relationship to theories of learning and methods of teaching.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Aerospace Engineering and Engineering Mechanics

In the College of Engineering

OFFICE: Engineering 308
TELEPHONE: (619) 594-6074

The undergraduate degree in Aerospace Engineering is accredited by the Accreditation Board for Engineering and Technology, Inc.

Faculty
Emeritus: Dhammarajan, Faulkner, Shuttts, Wang
Chair: Katz
Professors: Conly, Katz, Narang, Nosseir, Pierucci, Plotkin

Offered by the Department
Doctor of Philosophy degree in engineering sciences/applied mechanics.
Master of Science degree in aerospace engineering.
Major in aerospace engineering with the B.S. degree.

Transfer Credit
No credit will be given for upper division engineering coursework taken at an institution having an engineering program which has not been accredited by the Accreditation Board for Engineering and Technology, Inc., unless the student successfully completes the first 12 units of engineering work attempted at this university. At that time, and upon recommendation of the department, credit will be given for the unaccredited work.

General Education
Students will complete a minimum of 50 units in General Education, to include a minimum of nine upper division units taken after attaining junior class standing. No more than twelve units may be used for General Education credit from any one department or academic unit. No more than 7 units from one department can be used in Sections II, III, and IV combined (Foundations, American Institutions, and Explorations).

I. Communication and Critical Thinking: 9 units
   1. Oral Communication (3 units)
   2. Composition (3 units)
   3. Intermediate Composition and Critical Thinking (3 units)

II. Foundations: 29 units
   A. Natural Sciences and Quantitative Reasoning (17 units):
      1. Physical Sciences (11 units)
         Engineering students will take Chemistry 200 which includes a laboratory (5 units).
         Physics 195 (3 units)
         Physics 196 (3 units)
      2. Life Sciences (3 units)
      3. Laboratory (satisfied under A.1. above)
      4. Mathematics/Quantitative Reasoning
         Engineering students will take Mathematics 150, 3 units applicable to General Education.
   B. Social and Behavioral Sciences (3 units)
   C. Humanities (9 units)
      Complete three courses in three different areas. One of these courses and the one under IV.A. below must be taken in the same department.

III. American Institutions: Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

IV. Explorations: Total 9 units; must include one course of cultural diversity.
   A. Upper division Humanities (3 units)
      Three units must be taken from the same department as one of the Humanities courses selected in Foundations.
   B. Upper division Humanities (3 units from a department not selected in A above.)
   C. Upper division Social and Behavioral Sciences (3 units)

The Major
The Department of Aerospace Engineering and Engineering Mechanics offers a rigorous and balanced education which includes the study of aerodynamics, aerospace structures, propulsion, flight mechanics and vehicle design. The goal of this program is to create professional aerospace engineers with an understanding of the physical fundamentals underlying atmospheric and space flight, and with the capability of applying this knowledge for research, analysis, and design purposes. Moreover, the physical background and design synthesis that are characteristic of an aerospace engineering student's education also prepare the student to work productively in other fields such as energy, transportation, and ocean engineering.

The aerospace industry, the second largest industry in our country, is one of the largest employers of engineers. Opportunities for employment in entry level positions in large aircraft companies, general aviation manufacturers, the airlines, or government aerospace-related laboratories are good. Graduates of the program are also qualified to continue their formal education at the graduate level or to accept entry level positions in several nonaerospace fields.

Aerospace Engineering Major

With the B.S. Degree (Major Code: 09021)

Students majoring in Aerospace Engineering must include in their program a sequence of fundamental courses. In addition, the students have the opportunity to satisfy their particular areas of interest by selecting a pattern of study indicated in the sequence below. This pattern includes typical aerospace engineering topics, such as aerospace vehicle design, performance, structural analysis, aerodynamics, and propulsion. The students' choice of elective courses and area of specialization must be made in consultation with their adviser and documented by the filing of an approved master plan during the first semester of their junior year.

Upper Division Writing Requirement. Departmental screening in Aerospace Engineering 303, or passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.

NOTE: See following page for recommended sequence of courses for the major in aerospace engineering.
# Aerospace Engineering and Engineering Mechanics

## FRESHMAN YEAR

### Fall Semester
- Chemistry 200, General Chemistry .......... 5
- Mathematics 150, Calculus I ................. 5
- General Education .................................. 6
- AE 123, The Aerospace Engineer ............ 1

### Spring Semester
- Physics 195, Principles of Physics .......... 3
- Mathematics 151, Calculus II ............... 4
- ENGR 120, Engr. Problem Analysis .......... 2
- ENGR 296, Graph. Comm. Virtual Reality ... 2
- General Education ................................. 6

### Units
- 17

## SOPHOMORE YEAR

### Fall Semester
- Mathematics 252, Calculus III ............. 4
- EM 200, Statics ................................... 3
- General Education ................................ 9
- Physics 196, Principles of Physics ......... 3

### Spring Semester
- Physics 197, Principles of Physics ......... 3
- EE 204, Principles of Elec. Engr. .......... 3
- EM 220, Dynamics ................................. 3
- ENGR 280, Methods of Analysis .............. 3
- ME 260, Intro. to Engineering Materials .... 3

### Units
- 19

## JUNIOR YEAR

### Fall Semester
- ME 352, Thermodynamics and Heat Transfer .................................................. 3
- AE 301, Low Speed Aerodynamics ......... 3
- CIV E 301, Intro. to Solid Mechanics .... 3
- CIV E 302, Solid Mechanics Lab. ........... 1
- EM 340, Fluid Mechanics ....................... 3
- EM 341, Fluid Mechanics Lab. ............... 1
- General Education ................................. 3

### Spring Semester
- ENGR 510, Methods of Analysis ............. 3
- AE 302, High Speed Aerodynamics ........... 3
- AE 303, Experimental Aerodynamics ....... 2
- AE 320, Aerospace Flight Mech. ............ 3
- General Education ................................. 3

### Units
- 17

## SENIOR YEAR

### Fall Semester—All Specializations
- AE 403, Aerosp. Engr. Senior Project ....... 3
- AE 410, Aerospace Struct. Dynamics ....... 3
- AE 430, Aircraft Propulsion Systems ...... 3
- AE 440, Aircraft Stab. and Control I ...... 3
- AE 460A, Aerosp. Engr. Applications ...... 2
- American Institutions ............................ 3

### Spring Semester—According to Specialization
- AE 403, Aerosp. Engr. Senior Project ....... 3
- AE 410, Aerospace Struct. Dynamics ....... 3
- AE 430, Aircraft Propulsion Systems ...... 3
- AE 440, Aircraft Stab. and Control I ...... 3

- American Institutions ............................ 3

### Units
- 17

### Aerodynamics
- American Institutions ............................ 3

### Propulsion & Flight Mechanics
- AE 460B, Aerosp. Engr. Applications ....... 3
- American Institutions ............................ 3

### General Education
- American Institutions ............................ 3

### Propulsion & Flight Mechanics
- AE 460B, Aerosp. Engr. Applications ....... 3
- American Institutions ............................ 3

### General Education
- American Institutions ............................ 3

### Other electives may be substituted with permission of the adviser and department chair.
Courses

LOWER DIVISION COURSE IN AEROSPACE ENGINEERING (A E)

123. The Aerospace Engineer (1)
   Introduction to professional aerospace engineering. Emphasis on aeronautics and astronautics.

UPPER DIVISION COURSES IN AEROSPACE ENGINEERING
(Intended for Undergraduates)

301. Low Speed Aerodynamics (3)
   Prerequisite: Credit or concurrent registration in Engineering Mechanics 340.
   Subsonic flow, airfoil and wing theory, experimental characteristics of wing sections, high lift devices.

302. High Speed Aerodynamics (3)
   Prerequisites: Aerospace Engineering 301 and Mechanical Engineering 352.
   Supersonic flow, two- and three-dimensional compressible flow, wings in compressible flow, two- and three-dimensional method of characteristics, transonic flow.

303. Experimental Aerodynamics (2)
   One lecture and three hours of laboratory.
   Prerequisites: Engineering Mechanics 341 and credit or concurrent registration in Aerospace Engineering 301. Proof of completion of prerequisite required for the following: to be eligible for the departmental upper division writing test in this class, students must have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication. Test scores or verification of exemption; copy of transcript or enrollment confirmation.

310. Aerospace Structural Analysis (3)
   Prerequisite: Civil Engineering 301.
   Methods of static structural analysis of problems encountered in flight of aerospace vehicles.

320. Aircraft Propulsion Systems (3)
   Prerequisite: Aerospace Engineering 302 or Mechanical Engineering 450.
   Theory and performance characteristics of aircraft propulsion systems including reciprocating engines, turbojets, ramjets, etc.

440. Aircraft Stability and Control I (3)
   Prerequisite: Aerospace Engineering 303.
   Static stability and control, general equations of unsteady motion, stability derivatives, stability of uncontrolled motion, response of aircraft to actuation of controls.

460A. Aerospace Engineering Applications (2) I
   Six hours of laboratory.
   Prerequisites: Aerospace Engineering 302, 303 and 310. Student projects in aerospace design.

460B. Aerospace Engineering Applications (3) II
   One lecture and five hours of design activity.
   Prerequisite: Aerospace Engineering 460A.
   Student projects in aerospace design.

480. Aeroelasticity and Acoustics (2)
   Prerequisites: Aerospace Engineering 302 and 410.

496. Advanced Aerospace Engineering Topics (1-3) I, II
   Prerequisite: Consent of instructor.
   Modern developments in engineering. See Class Schedule for specific content. Maximum credit six units for any combination of Aerospace Engineering 496 and 499.

499. Special Study (1-3) I, II
   Prerequisite: Consent of instructor.
   Individual study. Maximum credit six units for any combination of Aerospace Engineering 496 and 499.

UPPER DIVISION COURSES IN AEROSPACE ENGINEERING
(Also Acceptable for Advanced Degrees)

520. Intermediate Aerospace Flight Mechanics (3)
   Prerequisite: Aerospace Engineering 320.
   A continuation of Aerospace Engineering 320 to include orbit determination techniques, general and special perturbations, artificial satellites, rocket dynamics and transfer orbits, earth-moon trajectories and interplanetary trajectories.

530. Rocket and Space Propulsion (3)
   Prerequisite: Aerospace Engineering 430.
   Equilibrium combustion thermodynamics. Performance of rocket propelled vehicles. Rocket propulsion fundamentals. Topics in chemical (solid and liquid) and electrical propulsion systems.

540. Aircraft Stability and Control II (3)
   Prerequisite: Aerospace Engineering 440.
   Dynamic stability and control of rigid aircraft; general equations of unsteady motion, stability derivatives, perturbed state thrust forces and moment, special problems in dynamic stability and response.

550. Viscous Flow (3)
   Prerequisites: Credit or concurrent registration in Engineering Mechanics 340, and Engineering 510.

596. Advanced Aerospace Engineering Topics (3)
   Prerequisite: Consent of instructor.
   Modern developments in aerospace engineering. See Class Schedule for specific content. Maximum combined credit of six units of Aerospace Engineering or Engineering Mechanics 596 and 696 applicable to a 30-unit master's degree.
LOWER DIVISION COURSES IN
ENGINEERING MECHANICS

200. Statics (3) I, II
Prerequisites: Physics 195 and credit or concurrent registration in Mathematics 151. Proof of completion of prerequisites required: Copy of transcript or enrollment confirmation.
Force systems, equilibrium, structures, distributed forces, friction, virtual work, moments of inertia, vector algebra.

202. Mechanics for Electrical Engineers (3) I, II
Prerequisites: Physics 195 and credit or concurrent registration in Mathematics 151.
Essentials of mechanics of particles and rigid bodies, for engineering applications. Emphasis on particle dynamics. Intended for Electrical Engineering majors. Not open to students with credit in Engineering Mechanics 200 or 220.

220. Dynamics (3) I, II
Prerequisite: Engineering Mechanics 200 with a grade of C or better. Proof of completion of prerequisite required: Copy of transcript.
Kinetics of a particle; central force motion; systems of particles; work and energy; impulse and momentum; moments and products of inertia; Euler's equations of motion; vibration and time response; engineering applications.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES IN
ENGINEERING MECHANICS

340. Fluid Mechanics (3) I, II
Prerequisites: Engineering Mechanics 220 or 202; and credit or concurrent registration in Engineering 280.
Fluid statics. Laminar and turbulent flow of liquids and gases in pipes, nozzles, and channels. Dimensional analysis and modeling. Drag forces on moving or immersed objects.

341. Fluid Mechanics Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Engineering Mechanics 340.

496. Advanced Engineering Mechanics Topics (1-3) I, II
Prerequisite: Consent of instructor.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.

UPPER DIVISION COURSES IN
ENGINEERING MECHANICS
(Also Acceptable for Advanced Degrees)

510. Finite Element Methods in Aerospace Structures (3)
Prerequisite: Aerospace Engineering 410.
Static and dynamic analysis of aerospace structures utilizing finite element methods.

530. Composite Structural Analysis (3)
Prerequisites: Engineering 280 and Civil Engineering 301.
Strength of composite materials; lamination theory; strength analysis of laminates; bending, buckling, and vibration of composite plates.

596. Advanced Engineering Mechanics Topics (1-3)
Prerequisite: Consent of instructor.
Modern developments in engineering mechanics. See Class Schedule for specific content. Maximum credit of six units for any combination of Engineering Mechanics 496, 499, and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Engineering Mechanics 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES IN AEROSPACE ENGINEERING
AND ENGINEERING MECHANICS
Refer to Bulletin of the Graduate Division.
Applying for the Program

SDSU students enroll in aerospace classes by signing up for courses in the same manner as other university classes. There is no advance application needed for the freshman or sophomore (AS100/200) classes. However, an orientation program, held just prior to the start of the fall term, is recommended and designed to give new cadets a broad, realistic introduction to Air Force officer training and provide them with helpful, important information on meeting academic requirements. Contact the Aerospace Studies Department as early as possible for additional information and sign-up procedures.

The last two years of AFROTC (AS300/400) lead to the commission as a second lieutenant and any student may apply during the sophomore year. The application process involves taking the Air Force Officer Qualification Test (AFOQT), a physical examination, a physical fitness test, and a personal interview. Students from other institutions in the San Diego area are eligible to take AFROTC and should check with the department to obtain enrollment procedures. Veterans who can be commissioned by age 35 are also eligible for the program.

Aerospace Studies Minor

The minor in aerospace studies consists of a minimum of 15 units in aerospace studies, 12 of which must be upper division.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

AFROTC Curriculum

The department offers a four- or two-year Air Force Reserve Officers Training Corps program designed to develop officers who have broad understanding and high growth potential. For qualified students, two, three, or four-year scholarships are available in certain areas on a competitive basis. Scholarships pay full tuition at SDSU and various laboratory, textbook, and incidental fees plus a monthly nontaxable $200 allowance during the school year. Cadets participate in dialogues, problem solving, and other planning activities designed to develop leaders and managers. All coursework is done on campus with the exception of field trips and one Field Training encampment conducted at military bases.

Either a four- or five-week Field Training camp is required for all students during the summer between the sophomore and junior years. The four-week camp is for students who have completed all AFROTC lower division courses with a grade of "C" or better in each course and for those with prior military service. Field training emphasizes military orientation for the junior officer and aircraft and aircrew familiarization. Cadets receive physical training and participate in competitive sports. They observe selected Air Force units perform everyday operations, and they are trained in drill and ceremonies, preparation for inspections, and the use of weapons. Upon completion of the AFROTC program and all requirements for a bachelor’s degree, cadets are commissioned second lieutenants in the Air Force and serve a minimum of four years active duty. Graduates go on active duty in a specialty consistent with their academic major, their desires, and existing Air Force needs. Graduates may request a delay from entry on active duty to continue their education or may apply for Air Force sponsored graduate study to begin immediately upon entry on active duty.

Faculty
Chair: Abbott
Professor: Abbott
Assistant Professors: Birch, Reppart, Salley

Offered by the Department
AFROTC curriculum.
Minor in aerospace studies.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (A S)

LOWER DIVISION COURSES

91A-91B. Leadership Laboratory (1-1) Cr/NC
One hour and forty-five minutes of activity per unit.
Prerequisites for AFROTC cadets: Concurrent registration in Aerospace Studies 100A for Aerospace Studies 91A; concurrent registration in Aerospace Studies 100B for Aerospace Studies 91B.

- Designed to prepare junior cadets for positions as leaders and managers of the cadet corps and a commission in the US Air Force.
- Application of principles of motivation, time management, organizational behavior, and participative group management in solving problems.
- Leadership laboratory is open to students who are members of the Reserve Officer Training Corps or who are eligible to pursue a commission as determined by the Professor of Aerospace Studies.
- Credit earned in this course is not applicable to a bachelor’s degree.

92A-92B. Leadership Laboratory (1-1) Cr/NC
One hour and forty-five minutes of activity per unit.
Prerequisites for AFROTC cadets: Concurrent registration in Aerospace Studies 200A for Aerospace Studies 92A; concurrent registration in Aerospace Studies 200B for Aerospace Studies 92B.

- Designed to prepare junior cadets for positions as leaders and managers of the cadet corps and a commission in the US Air Force.
- Application of principles of motivation, time management, organizational behavior, and participative group management in solving problems.
- Leadership laboratory is open to students who are members of the Reserve Officer Training Corps or who are eligible to pursue a commission as determined by the Professor of Aerospace Studies.
- Credit earned in this course is not applicable to a bachelor’s degree.

93A-93B. Leadership Laboratory (1-1) Cr/NC
One hour and forty-five minutes of activity per unit.
Prerequisites: Concurrent registration in Aerospace Studies 300A for Aerospace Studies 93A; concurrent registration in Aerospace Studies 300B for Aerospace Studies 93B.

- Demonstration laboratory designed to develop leadership and management skills, problem-solving skills, and exercise group planning, organizing and coordinating activities.
- Leadership laboratory is open to students who are members of the Reserve Officer Training Corps or who are eligible to pursue a commission as determined by the Professor of Aerospace Studies.
- Credit earned in this course is not applicable to a bachelor’s degree.
94A-94B. Leadership Laboratory (1-1) Cr/NC
One hour and forty-five minutes of activity per unit.
Prerequisite: Concurrent registration in Aerospace Studies 400A for Aerospace Studies 94A; concurrent registration in Aerospace Studies 400B for Aerospace Studies 94B.
Demonstration laboratory designed to develop leadership and management skills, problem-solving skills, and exercise group planning, organizing and coordinating activities. Leadership laboratory is open to students who are members of the Reserve Officer Training Corps or who are eligible to pursue a commission as determined by the Professor of Aerospace Studies. Credit earned in this course is not applicable to a bachelor’s degree.

100A-100B. Foundations of the United States Air Force (1-1)
Meets one and one-half hours per week.
Prerequisite for AFROTC cadets: Concurrent registration in Aerospace Studies 91A for Aerospace Studies 100A; concurrent registration in Aerospace Studies 91B for Aerospace Studies 100B.
Introduction to organizational structure, mission of selected military organizations, selected topics that contribute to understanding the Air Force today. Includes professional appearance, customs and courtesies, officerhip and core values, basic communications, officer opportunities, and benefits.

200A-200B. Evolution of USAF Air and Space Power (1-1)
Meets one and one-half hours per week.
Prerequisite for AFROTC cadets: Concurrent registration in Aerospace Studies 92A for Aerospace Studies 200A; concurrent registration in Aerospace Studies 92B for Aerospace Studies 200B.
Study of air power and preparation for field training. Techniques for improving communication, discussion of Air Force heritage, leadership basics, Air Force quality, ethics, values, problem solving, and teamwork.

233. Field Training Unit (2-3) Cr/NC I
Required for advanced cadets, military orientation and flight familiarization. Credit granted for four or five-week field training camp on basis of individual student application with approval of Aerospace Studies department chair.

UPPER DIVISION COURSES
(Intended for successful AFROTC applicants or for those with special permission)

300A-300B. Air Force Leadership Studies (3-3)
Air Force leadership and management principles. Quality management, process improvement, subordinate leadership, ethics, standards of conduct, and officer values. Improving writing and briefing skills.

400A-400B. National Security Affairs/Preparation for Active Duty (3-3)
Role of professional officer in democratic society, socialization within armed services, requisites for adequate national security forces. Political, economic, and social constraints on national defense structure and impact of technological and international developments on defense policy making.

499. Special Study (1-3) I, II
Prerequisite: Consent of Aerospace Studies department chair.
Individual study. Maximum credit six units.
Faculty
Emeritus: Kornweibel
Chair: Toombs
Associate Professors: Cornwell, Toombs, Weber
Assistant Professor: Nesbitt

Offered by the Department
Major in Afro-American studies with the B.A. degree in liberal arts and sciences.
Minor in Afro-American studies.

The Major
Africana studies offers a broad, interdisciplinary program. The curriculum is designed to study a variety of subjects pertaining to the Africana experience. It is concerned with strengthening links between the needs of black students and the black community, and developing frameworks for social change and the struggle for black dignity. It seeks, in short, to provide a total educational experience of the Africana culture. The courses offered in Africana studies are available to anyone who is interested.

The major provides excellent preparation for the fields of law, government, foreign service, business administration, research, consulting, librarianship, counseling, program development, program design, program analysis, urbanology, and writing, to name a few, as well as the more traditional Africana studies profession of teaching.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Afro-American Studies Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 22111)

All candidates for the degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." No more than 48 units in Africana studies courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major. Africana Studies 101A, 101B, 102, 170A; 170B or 250, (15 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units to include twelve units selected from one of the following areas and six units from each of the two remaining areas. Up to six units, with appropriate content, of 496 and 499 in any combination may be applied to an area of specialization with the approval of the department chair.

* Additional prerequisite required.

Afro-American Studies Minor

The minor in Afro-American studies consists of a minimum of 18 units in Africana Studies, of which 12 units must be upper division, to include six units selected from the courses for preparation for the major, six units selected from one of the three areas of the major, and three units from each of the remaining areas.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.
Courses (AFRAS)

LOWER DIVISION COURSES

101A. Introduction to Africana Studies: Social and Behavioral Sciences (3)
Interdisciplinary introduction of African American thought and behavior. Subject areas include social systems, economic empowerment, self development, family dynamics, use of power, cognitive styles, interethic communication and international relations. Review of relevant literature in social and behavioral sciences.

101B. Introduction to Africana Studies: Humanities (3)
Interdisciplinary introduction to African American history, literature, other arts and religion. Subject areas include methodology and theoretical perspectives of Africana studies.

102. Afro-American Lifestyles (3) I, II
Afro-American lifestyles in the past, present, and future. Examination of contemporary problems, their roots and their effects on twenty-first century America.

120. Composition (3)
Prerequisites: Satisfaction of the English Placement Test and Writing Competency requirements. (See the Graduation Requirements section of catalog.) Proof of completion of prerequisites required: Copy of EPT or competency scores or verification of exemption; proof of Cr in Rhetoric and Writing Studies 92A or 92B or 97A or 97B, or notification from the Department of Rhetoric and Writing Studies.

Designed to develop and enhance composition and reading skills. Focus on writing skills that contribute to academic growth and development. Not open to students with credit in Chicana and Chicano Studies 111B or Linguistics 100 or Rhetoric and Writing Studies 100 or higher-numbered composition course.

140. Oral Communication (3) I, II
Practice in speaking, critical listening, reasoning and organizing. Theory and techniques of communications used to evaluate the effect they have on the lives of Blacks and others. Not open to students with credit in Chicana and Chicano Studies 111A or Communication 103.

170A-170B. Afro-American History (3-3) I, II
American history from a Black perspective. These courses satisfy the graduation requirement in American Institutions.

200. Intermediate Expository Writing and Research Fundamentals (3)
Prerequisites: Satisfaction of the English Placement Test and Writing Competency requirements; and Africana Studies 120 or Chicana and Chicano Studies 111B or Linguistics 100 or Rhetoric and Writing Studies 100. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.

Development of intermediate expository writing skills and application of practical research principles. Not open to students with credit in Chicana and Chicano Studies 200, Linguistics 200, or Rhetoric and Writing Studies 200.

250. Psychology of Blackness (3)
Facts, principles, and concepts which are basic to understanding human behavior. An analysis of the psychological motivations and behavioral responses of and toward Afro-Americans.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES (Intended for Undergraduates)

320. Politics and Economics of Black Urban Development (3)
Prerequisite: Africana Studies 101A or completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.

Political economy of urban growth, development, and redevelopment examined in historical and contemporary contexts. Focus on race and class inequality and conflict; effectiveness of public and private sector decisions and programs; evolution of African American urban poor and their communities.

321. Black Political Participation in America (3)
Prerequisites: Africana Studies 101A or 102 or 170A or 170B. Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.

Afro-American political life and development in the United States. Interaction between Afro-Americans and various actors, institution processes, and policies of the American system of politics and governance.

322. African American Political Thought (3)
Prerequisite: Africana Studies 101A or completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.

Political and social thought underlying principles, goals, strategies developed by African Americans in struggle for social development and human rights. Focus on twentieth century thought.

325. Public Policy and Afro-American Community (3) II
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences.

Impact of public policy on Afro-American community: theory and practices of policy formulation, implementation, evaluation, and modification for specific problems in Afro-American community; roles of governmental officials, administrative arrangements, organizational processes, and community groups in policy making.

330. Black Child Development (3) II
Attitudes, needs and problems of the Afro-American child with emphasis on new approaches and insights into the development of positive changes for the child's growth and development.

331. The Black Family (3) I
Structure and functions of the Black family in contemporary American society.

332. Black Women: Myth and Reality (3)
Prerequisites: Africana Studies 101A or 101B and 102.

Images of Black women in America and how those images have been distorted.

341. Cultural Patterns and African American Identity (3)
Prerequisites: Africana Studies 101A or completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.

Impact of social institutions on African American identity and cultural patterns.

360. Communications and Community Action (3)
Prerequisite: Africana Studies 140 (field assignments are a major part of this course).

Application of the basic theories of communication through field projects. Study of the communication problems that exist between sociopolitical groups and the media.

362. Rhetoric of Black America (3)
Prerequisite: Three units of Afro-American history or communications.

Rhetoric of Black Americans from David Walker to the present, role rhetoric has played in history of Black people and an analysis of Black audience in terms of the Black experience.

363. Sociocultural Analysis of Black Languages (3)
Prerequisite: Three units in Africana Studies.

Social and cultural functions of Black languages, verbal and non-verbal, in Afro-American life, and their profound impact on larger society. Also, a probe into issues concerning validity of Black English.
365. African American Literature (3)  
Prerequisite: Africana Studies 101B or completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.  
Early and contemporary writing by African American authors. Issues of literary form, canon formation and sociopolitical impact of the literature upon African American culture.

380. Blacks in the American Justice System (3)  
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.  
Into interpretation and application of constitutional principles and judicial decisions to political and social problems faced by Afro-Americans.

385. African American Music (3)  
Prerequisite: Africana Studies 101B or completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.  
African American music from its African roots to present. Consideration of musical styles, events, significant contributors as well as role of sociocultural values in development of music.

420. Afro-Americans and the Politics of Urban Education (3)  
Prerequisites: Africana Studies 101A or 102. Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.  
Struggle against Afro-American subordination and complexities, contradictions, and dilemmas of formulating and implementing quality education and equal opportunity policies. Interaction between politics and education during eras of machine, reform, and postreform politics.

445. Ethnicity and Social Psychology (3)  
Prerequisites: Africana Studies 101A or 250. Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.  
Analysis of major social psychological theories specifically focusing on how these theories relate to minority attitude/value formation and group behavior. Strategies for resolving social issues.

448. Black and Non-Black Interpersonal Relations (3)  
Cognitive and experiential examination of contemporary issues around Black and non-Black interpersonal relations. Authenticity in relationships, interracial trust, personal development, conflict resolution, and proactive belief systems. Central aim to assist Blacks and non-Blacks to facilitate communication.

451. Black Consumer Psychology (3)  
Prerequisite: Africana Studies 250.  
Attitude values and decision making of Black people as consumers. Laws and techniques of manipulating consumers.

452. Race Relations Strategies (3)  
Prerequisite: Africana Studies 101A or 102 or 250.  
Systematic inquiry into contemporary strategies and systems employed to ease racial tensions. Trends and approaches in military, religious, economic, educational, and other social institutions examined, focusing on those that offer most promise in terms of facilitating racial harmony.

453. Issues in Mental Health: A Multicultural Perspective (3)  
Prerequisite: Africana Studies 250.  
Examination of multicultural mental health issues. Institutionalization, treatment, social policy funding, prevention, insurance, and community programs will be covered. Relevant research literature will be examined.

460. Black Images in Western Literature (3)  
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.  
Study of how the image of the Black has been portrayed in Western (white) literature and the attitudes and images of non-Black writers towards Blacks.

461. Studies in African American Literature (3)  
Prerequisite: Africana Studies 101B.  
Focused studies in African American literature. Analysis of themes, techniques, etc., in fiction, poetry and/or drama.

462. The Harlem Renaissance (3)  
Black literature of the 1920s from literary, historical, sociological and cultural perspectives.

463. Black Literatures of the World (3)  
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.  

464. Caribbean Literature (3)  
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.  
Political, religious, and musical paradigms in writing from 1900 to present. Politico-religious movements and related art forms (i.e. Rastafarian Reggae, Dub Poetry).

470. Comparative History: Afro-American and African Heritage (3)  
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.  
Conceptual framework of African history and a comparative study of Afro-American institutions.

471A. Black History, 1492-1877 (3)  
I  
Afro-Americanization and African survivals in the U.S.; origins and development of slavery; growth of free Black communities; anti-slavery movements and Black nationalism; slavery’s end and dawn of freedom.

471B. Twentieth Century Black History (3)  
II  
History of social movements and institutions from 1890 to the present. Focus on both leadership and life of the masses.

472. Comparative Slavery (3)  
Prerequisites: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.  
Comparative history of enslavement of Blacks throughout western hemisphere. Uses United States as baseline. Further comparisons to ancient Mediterranean, African, and Middle Eastern societies; Nazi Germany; contemporary Asian cultures.

480. History of Afro-American Jazz (3)  
Prerequisite: Africana Studies 101B.  
Historical development of jazz from its beginnings to the present, based on the ability to identify people, discuss musical styles and events, and to relate these factors to the life of the times.

485. Blacks in the Arts (3)  
Prerequisite: Africana Studies 101B or 102.  
Academic and artistic perspectives on Black participation in and contributions to the creative and performing arts. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

496. Experimental Topics (1-4)  
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

499. Special Study (1-3)  
I, II  
Prerequisite: Consent of instructor. 
Individual study. Maximum credit six units.
Faculty
Chair: Parker
Professors: Kilpatrick, Parker
Assistant Professor: Field
Adjunct: Cayleff, Colston, Cooper, Cox, Johnson, Shipek, Watson, White

Offered by the Department
Minor in American Indian studies.

The Minor
A minor in American Indian studies provides students with a liberal education which focuses on cultural diversity. Individuals will attain competency in a broad understanding of the human condition which will relate closely to the areas of public relations, cultural pluralism, and race relations. Students pursuing careers in mass media, politics, journalism, and education will find that a minor in American Indian studies opens a new spectrum of human understanding and critical analysis of professional life.

The American Indian studies program focuses on individual elements that comprise the native American cultures. Using literature, art, history and politics as touchstones, students come to understand the individual as well as tribal character of the Indian peoples. The academic area also draws comparisons between American Indian life and the life of other members of American society.

Career opportunities for graduates include jobs in business, education, government, politics, social sciences, and health and human services. Students have also found positions in programs for Indian tribes and reservations. Federal agencies also seek people with knowledge about and experience with American Indian people and their culture. Agencies include the Bureau of Indian Affairs, the Indian Health Services, the Bureau of Land Management, and the U.S. Forestry Services.

American Indian Studies Minor
The minor in American Indian studies consists of a minimum of 15 units to include American Indian Studies 110; 12 of the 15 units must be in upper division courses selected from American Indian studies or other appropriate departments (e.g., anthropology or history) in consultation with the departmental adviser.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (AMIND)

LOWER DIVISION COURSES

110. American Indian Heritage (3) I, II
Major American Indian themes, beliefs, and practices and their impact on Western civilization through institutions, art, literature, philosophy, and religion.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

300. American Indian Oral Literature (3) I
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Pre-twentieth century American Indian oral and symbolic traditions including creation and origin legends, coyote stories, ceremonial songs, oratory, and memoirs.

303. American Indian Women in American Society (3)
Historical and contemporary analysis of the role of Indian women in both Indian and dominant society.

320. American Indians in Contemporary Society (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences.
Sociological understanding of the American Indian groups in contemporary society with emphasis on the relationship to dominant society and why the focus has been on Indians as social problems.

400. The American Indian Political Experience (3)
Social and political response to dominant group policies by the American Indian as compared to other minority groups.

420. Indian Peoples of California (3)
Indian peoples of California. Their histories and cultures from oral traditions to contemporary issues. Focus on selected Indian tribes and communities.

425. Indians of the Plains (3)
Indian peoples of the Plains. Their histories and cultures from oral traditions to contemporary issues. Focus on selected Indian tribes and communities.

430. American Indian Poetry and Fiction (3) II
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Contemporary American Indian poetry and fiction explored in works of Welch, Ortiz, Momaday, Silko, Deloria, Allen, Erdich, and others.

435. Indians Through Film and Television (3)
Images of Indians in film and television. Impact of movies and television on popular concepts of Indians. Films viewed in class.

440. American Indian History (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Historical analysis of Indian-White contact. Emphasis on the impact of historical events upon the various cultures.
470. Roots of Indian Tradition (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Spirits, prophesies, and renewals of the Indian way compared through symbols and ceremony. Religions will be surveyed as they have been influenced by foreign elements and philosophies. Influences on values and tribalism as reflected through symbols and other measures.

496. Topics in American Indian Studies (1-3)
An undergraduate seminar. See Class Schedule for specific content. Maximum credit six units. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-4)
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.
American Studies
In the College of Arts and Letters

Faculty
The American studies program is administered through the American Studies Committee. Faculty assigned to teach courses in American studies are drawn from departments in the College of Arts and Letters.

Chair: Adviser: Gregory (English)
Committee: Colquitt (English), Donahue (Linguistics), Ford (Geography), Gregory (English), Griswold (English), Huckle (Women's Studies), Koolish (English), Kornweibel (Africana Studies), Kushner (History), McCaffery (English and Comparative Literature), Meadows (Music), Strom (Teacher Education), Vartanian (History), Wall (English)

Offered by American Studies
Major in American studies with the B.A. degree in liberal arts and sciences.
Minor in American studies.

The Major
American studies is an interdisciplinary program designed to bridge the division of knowledge into discrete disciplines. Each of the four program clusters combines American studies core courses, which relate materials and methods from various disciplines, with upper division courses from several disciplines. The courses are selected to focus on and bring into interrelation one group of American people, one social or cultural process, one place and one period.

The special integrating work in the student's major program is a series of special studies under the direction of members of the American studies faculty in which the student produces a paper or project interrelating the four focuses of his or her studies. The paper or project must make use of two or more disciplines' analyses of the same material. Because American studies finds its center in the concept of culture, the paper or project must deal at least in part with the cultural connections among the four subjects of focus.

With the approval of the American studies adviser, the student may design a program cluster comparable in format to those listed in this catalog but tailored to his or her individual interests.

The minor in American studies is open to all students and is of special interest to international students. The coursework is intended to provide a broad perspective of the American culture - the heritage, the ideas and dreams, and the failures as well as accomplishments.

The flexibility of this interdisciplinary major allows graduates to enter a broad range of career areas, including journalism, law, law enforcement, environmental planning, teaching, archival work, museum curatorship, international business, librarianship or government service. Competencies gained by the American studies major provide a sound basis for entering graduate study in a variety of areas. Many universities have graduate programs in American studies. Graduate work may be required for entrance into a specific career field.

Business and teaching professions in foreign countries welcome American studies majors who can help them understand the way business and social life is conducted in the United States.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration of a major.

American Studies Major
With the B.A. Degree in Liberal Arts and Sciences (Major Code: 03131)
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” A minor is not required with this major.

Preparation for the Major.
Anthropology 102; English 250A*, 250B* (three or six units); History 109, 110 (three or six units). (12 units)

* Prerequisite: A grade of C (2.0) or better in Africana Studies 120 or Chicana and Chicano Studies 111B or Linguistics 100 or Rhetoric and Writing Studies 100.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. History 450W, English 508W, 581W, or Rhetoric and Writing Studies 500W with a grade of C (2.0) or better.

Major. A minimum of 33 upper division units to include American Studies 499, 580; and nine courses from one of the following clusters or a specially designed cluster.

In the specially designed cluster, the student will normally take three courses in one area and two courses in each of three other areas. However, the student must take at least one course in each area. The student may take no more than three courses in one discipline on the major program. The student must file with the Office of the Registrar a master plan approved by the adviser for the American studies curriculum.

Period: Twentieth Century
Economics 338; English 525; History 410, 535, 536; Management 356; Music 351D; Women's Studies 341B.

Special Study: American Studies 499.

American Studies Minor
The minor in American studies consists of a minimum of 15 units to include six units selected from History 547A-547B or 548A-548B; and nine units selected from the courses listed below—six units from one grouping and three from the other, with no more than six units from any one department’s or program’s offerings:

Humanities: American Studies 580; Art 560; English 522, 523.
Social Sciences: Anthropology 444; Economics 338; Geography 354; Political Science 305; Sociology 433.

With the consent of the American studies adviser, six units in courses not listed here may be included in the student’s program. Courses in the minor may not be counted towards the major but may be used to satisfy preparation for the major and general education requirements. A minimum of six upper division units must be completed in residence at San Diego State University. In designing their American studies minor program, students may not include courses drawn from their major department.

Courses (AM ST)

LOWER DIVISION COURSE

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

580. Topics in American Studies (1-3) I, II
Topics dealing with cultural images and myths, social protest, folklore; themes focusing upon fear, alienation and nationalism; problems around racism, minorities and counter-cultures. See Class Schedule for specific content. May be repeated once with new content; and with the approval of the adviser, more than once by American studies majors. Maximum credit six units applicable to a master’s degree in American studies.
Anthropology
In the College of Arts and Letters

Faculty
Emeritus: Goldkind, Rollefson, Watson, Whitney
Chair: Himes
Professors: Ball, Greenfeld, Henry, Himes, Leach, Lippold, Pendleton, Rohrl
Associate Professor: Moore
Assistant Professor: Gamble

Offered by the Department
Master of Arts degree in anthropology.
Major in anthropology with the B.A. degree in liberal arts and sciences.
Minor in anthropology.

The Major
Anthropology is the far-reaching study of human beings as both biological and culturally adaptive organisms. Anthropologists study the physical and mental characteristics, social relationships, institutions, customs, myths, and geographic distribution of human populations.

The anthropology major provides a broad background for the various specialized areas in the field, such as archaeology, the analysis of past cultures; cultural anthropology, the study of cultural similarities and differences in contemporary societies; linguistics, the evaluation of cultural differences in communication; and physical anthropology, the analysis of biological characteristics of past and present populations. Elective courses provide information on the newest developments in the field and give the anthropology graduate an understanding of human nature in the context of past and present environmental influences.

Employment opportunities for anthropology graduates include work in senior citizen and public service agencies, the National Park Service, state archaeological services, marketing, environmental impact projects, urban affairs, state and local governmental agencies, and business.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser during the first semester after declaration or change of major.

Anthropology Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 22021)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." No more than 48 units in anthropology courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major. Anthropology 101, 102, (6 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units in Anthropology to include Anthropology 301, 302, 303, 304; and 24 additional units of upper division courses in anthropology selected from the following areas:

Area/Regional: Nine units selected from Anthropology 349, 350, 442, 444, 445, 446, 448, 449, 450, 452, 453, 471, 472, 499, 582.

Methods: Six units selected from Anthropology 312, 410, 432, 439, 495, 499, 500, 505, 560, 561, 580, 583, Sociology 301.

The student will file with the Office of the Registrar a master plan approved by the adviser for the anthropology curriculum.

Anthropology Minor
The minor in anthropology consists of a minimum of 18 units in anthropology to include Anthropology 101, 102, and 12 upper division units in anthropology selected from:

Area/Regional: Six units selected from Anthropology 349, 350, 442, 444, 445, 446, 448, 449, 450, 452, 453, 471, 472, 499, 582.

Methods: Three units selected from Anthropology 301, 302, 303, 304, 312, 410, 432, 439, 495, 499, 500, 505, 560, 561, 580, 583.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (ANTH)

LOWER DIVISION COURSES

101. Human Biocultural Origins (3) I, II
(CAN ANTH 2)
Humankind’s place in nature; fossil evidence for hominid evolution; evolutionary theory; racial, clinical and genetic variability; relationship of physical and cultural adaptations; the rise of civilization.

102. Introduction to Cultural Anthropology (3) I, II
(CAN ANTH 4)
May be taken before Anthropology 101.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Principles of Physical Anthropology (3)
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101.

Primate comparative anatomy and human paleontology. Physical measurement of the living subject and skeletal specimens. The statistical treatment of data in physical anthropology. Applications of physical anthropology in industry and medicolegal problems.
302. Principles of Archaeology (3)
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101.
History, method, and theory of archaeological data acquisition and interpretation. Methods of data recovery and analysis suitable to resolution of historical and processual questions. Archaeological examples from a worldwide sample of prehistoric and historic societies.

303. History of Ethnological Theory (3)
Prerequisite: Anthropology 102.
Development of theories which explain nature of culture and cultural variation. Applications of theory of culture to field methods in ethnography and interpretation of ethnographic findings.

304. Principles of Anthropological Linguistics (3)
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 102.
The structural nature of language. How languages differ, change and influence each other. The language families of the world. The significance of language for human social life in a variety of cultures.

312. Archaeological Field Techniques (3)
Six hours of activity.
Prerequisite: Anthropology 302.
Archaeological excavation of significant sites in San Diego. Techniques of excavation, recording, and surveying.

349. Roots of Civilizations (3)
Prerequisite: Open only to upper division students who have completed the General Education requirement in Foundations II.C., Humanities.
Origins and major attributes common to civilizations. Form and function of fundamental characteristics in different civilizations. Examples taken from Africa, Asia, the Near East and the New World.

350. World Ethnography (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Cultural patterns of representative peoples. Industries, arts, social organization and supernaturalism considered with view to environmental, historical, development and functional interrelation. Ethnological theories reviewed and applied in interpreting illustrative societies.

402. Dynamics of Biocultural Diversity (3)
Prerequisite: Completion of the General Education requirement in Foundations II.A.2. Life Sciences. If a biological sciences course is not taken to satisfy General Education II.A.2. Life Sciences, a college course in biological sciences is required.
Interaction of biology and culture in human populations. Relating genetic and cultural processes to the changes in human populations over time.

406. Nonhuman Primates (3)
Prerequisite: Anthropology 101.
Basic aspects of nonhuman primates, geographical distribution, ecology (habitat, diet), external and internal morphology, locomotion and social behavior, reproduction and development.

410. Language in Culture (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Survey of anthropological interests in the study of language and of linguistic interests in the sociocultural context of language.

422. Music and Culture (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.C., Humanities.
How the forms, functions and meanings of music vary crossculturally. Understanding a society's music historically, holistically and experientially, with emphasis on non-Western music. Universals of music and music use. Ethnological theories of music and music change.

424. The Supernatural in Cross-Cultural Perspective (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Magic and religion. Conceptions of the supernatural in a cross section of world's cultures. Anthropological theories relating to supernatural beliefs and practices.

430. Anthropology of Law and Dispute Processing (3)
Prerequisite: Anthropology 102, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Law, social control, and dispute processing studied in sociocultural contexts. Law in Western society compared with “law-ways” in a number of traditional or nonindustrialized cultures. Basic concepts and theories about law examined crossculturally.

432. Principles of Personality in Culture (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Principles related to the determinants of human behavior contained in culture. Studies of behavior crossculturally.

439. Cultural Comparisons Through Film (3)
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Principles of cultural anthropology to include signs and proxemics, cultural prerequisites, kinship and social organization, and law and values. Feature and documentary films.

442. Cultures of South America (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Indian cultures in terms of origins, migration, relation to habitat, cultural variation and relevance to contemporary trends. Development of Inca civilization, the effects of the Spanish conquest and its aftermath.

444. American Cultures (3)
An “inside-out” view of America. What culture has to do with feeling like an American. Theory and method in anthropology. Approaches include subcultures, American values, and mass media.

445. Ethnology of North America (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Native cultures and the role of environmental and historical factors in North America.

446. Southwestern Ethnology (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Indian cultures of the American Southwest in historic times; ecological adaptations, responses to white contact, adaptations to modern American life.

448. Cultures of Oceania (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
The aboriginal cultures and peoples of Australia, Melanesia, Micronesia, and Polynesia in prehistoric, historic, and modern times.

449. Cultures of Sub-Saharan Africa (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Indigenous peoples and cultures of Africa south of the Sahara. A comparison of cultural traditions, social organization, and modern trends in newly emergent nations of the area.
Anthropology

450. Cultures of India (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Indigenous peoples and cultures of India and contiguous areas of South Asia. The development of cultural traditions, social organization, and modern trends.

452. Japanese Society (3)
Prerequisites: Anthropology 102, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.

453. Cultures of Southeast Asia (3)
Cultural anthropological study of cultures and societies of mainland (Myanmar, Thailand, Laos, Cambodia, Vietnam) and insular (Malaysia, Indonesia, Philippines) Southeast Asian nations. Traditional economic, social, political, and religious institutions. Recent changes in modern Southeast Asia.

471. Archaeology of North America (3)
Prerequisite: Anthropology 101 or 102.
Origins of the American Indian and survey of the main prehistoric cultures of the North American continent.

472. Southwestern Prehistory (3)
Prerequisite: Anthropology 101 or 102.
Prehistoric Indian cultures in the American Southwest; ecological adaptations and outside cultural influences.

483. Health and Nutrition in Antiquity (3)
Prerequisite: Anthropology 101 or 102.
Study of nutritional and health patterns in human populations from the earliest times. Analysis of food resources, their impact on health and nutrition of prehistoric peoples.

495. Internship in Applied Anthropology (1-3) Cr/NC
Prerequisites: Anthropology 301, 302, 303, 304.
Supervised field placement of students in campus or community organization, museums, cultural resource management firms, social service and development agencies, forensic laboratories and other offices including business firms where concepts and principles of anthropology can be put into practice. May be repeated for maximum credit three units.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

500. Primate Social Behavior (3)
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101.
Analysis of modes of primate socialization and development of social behavior with emphases on communication, group structure, aggression, and sex. Various methods of analysis and observation practiced utilizing primate collection at the San Diego Zoo.

501. Paleoanthropology (3)
Prerequisite: Anthropology 101. Recommended: Anthropology 301.
Fossil evidence for human evolution. Comparative and functional anatomy of fossil human and infrahuman primates; geochronology, paleoecology, and cultural associations; taxonomic implications.

503. Human Variation (3)
Prerequisite: Anthropology 101.
Morphological, physiological and genetic aspects of human variability. Significance of this diversity in the biological adaptations of human populations.

505. Human Osteology (3)
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101. Recommended: Anthropology 301 and/or Biology 212.
Identification of individual bones and teeth; sex, age, and racial variation; stature reconstruction; continuous and discontinuous morphological variations; paleopathology. Training in observations, measurements, and analyses.

508. Medical Anthropology (3)
Prerequisite: Anthropology 101 or 102.
Evolution and ecology of disease, medical beliefs and practices in non-Western cultures, and complexities of health care delivery in pluralistic societies.

509. Culture and Biological Aging (3)
Prerequisite: Anthropology 101 or 102.
Do different populations age at different rates? Theories of biological aging, genetics of longevity and cultural influences on biological aging. Process of aging and role of the aged in various cultures.

560. Advanced Archaeological Field Methods (3)
One lecture and six hours of laboratory.
Prerequisite: Anthropology 312.
Advanced projects in excavation and stabilization of ruins, archaeological surveys, laboratory analysis and preparation of reports.

561. Archaeological Laboratory Methods (3)
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 560.
Application of palynology, paleontology and relevant technologies. Individual laboratory research project required.

580. Anthropological Data Analysis (3)
Two lectures and three hours of laboratory.
Prerequisites: Anthropology 101 or 102 and a statistics course. Recommended: Psychology 270 or Sociology 201.
Computer oriented data analysis class utilizing anthropological data sets. Special section of the SPSS computer workshop is required.

582. Regional Anthropology (3)
Prerequisite: Anthropology 102.
Study of societies in a major geographical region of the world such as Africa, the Arctic, East Asia, Europe, Latin America, the Middle East, North America, Oceania, or South Asia. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units.

583. Topical Anthropology (3)
Prerequisite: Anthropology 102.
Study of a major subdiscipline such as political anthropology, economic anthropology, social anthropology, psychological anthropology, cultural ecology, applied anthropology, anthropological genetics, or environmental archaeology. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Art

In the College of Professional Studies and Fine Arts

Offered by the School of Art, Design and Art History

WEB SITE: www.sdsu.edu/art

Accepted by the National Association of Schools of Art and Design.

For purposes of exhibition and reference, the school reserves the right to retain for a limited period some of each student’s work produced in class.

Faculty

Director:

Professors: Austin, Baker, R., Cooling, Cotten, Dominguez, Hayakawa, Miller, Rigby, Roberts-Fields, Shirk, Yapelli

Associate Professors: Berelowitz, Bunkett, Mansfield, Maruyama, Merrill, Nelson

Assistant Professors: Johnson, Keely, Nakamura, Sipur

Lecturers: Atwater, Carlson, Darroch, Hersko, Lara, Litrownik, Palese

Offered by the School of Art, Design and Art History

Master of Arts degree in art.

Master of Fine Arts degree in art.

Major in art with the B.A. degree in liberal arts and sciences.

Emphasis in art history.

Emphasis in studio arts.

Major in art with the B.A. degree in applied arts and sciences.

Emphasis in applied design.

Emphasis in environmental design.

Emphasis in graphic design.

Emphasis in interior design.

Emphasis in painting and printmaking.

Emphasis in sculpture.

Teaching major in art for the single subject teaching credential.

Minor in art.

Minor in art history.

The Major

A significant concern of the School of Art, Design and Art History is the creative growth of its students. The school focuses on the development of sound undergraduate programs which provide a strong basic foundation in art. A major in art may be planned with an emphasis in applied design, with specialties in ceramics, furniture, metal-smithing, jewelry, and textiles; art history; studio arts; environmental design; graphic design; interior design; painting and printmaking; and sculpture. A broad spectrum of courses for both majors and non-majors in art history, art appreciation, basic drawing and design is also available.

All emphases except art history require a set of core courses consisting of two courses each in drawing, design, and the survey of art history of the Western world. It is strongly recommended that all students complete the core requirements during their freshman year, or at least prior to taking beginning coursework in a specific program emphasis. It is recommended that students take courses from other emphases in order to enhance their overall art experience. In addition to the undergraduate degree, the school offers a Master of Arts degree (30 units) in all of these emphases and a Master of Fine Arts degree (60 units).

Although a degree in art is often pursued as a means of self-fulfillment and creative growth, graduates of the school are employed in a variety of settings. The programs in environmental design, interior design, and graphic design have a preprofessional orientation supplemented by a strong liberal arts background. Environmental design and interior design can lead to interior, architectural, landscape design or city planning. Graphic design prepares the student for the areas of environmental graphics, art direction, visual design for the contemporary media of advertising, or editorial illustration. The areas of painting, printmaking, and sculpture prepare students for professional attitudes toward the fine arts and the continuance of their educational experience in graduate schools with the goal of teaching at institutions of higher learning. The applied design program can be developed to specialize in ceramics, furniture design, jewelry, metal-smithing, textile design and weaving.

Impacted Program

The major art with an emphasis in graphic design is an impacted program. Students must enter the University under the emphasis in graphic design premajor code (10090). To be admitted to the emphasis in graphic design, students must meet the following criteria:

a. Complete with a grade of C or higher: Art 100, 101, 102, 103. These courses cannot be taken for credit/no credit (Cr/NC);

b. Clear the competency requirement in writing. Refer to Graduation Requirements section of this catalog for details;

c. Complete a minimum of 30 semester units;

d. Have a cumulative GPA of 2.75 or higher;

e. Students not meeting the minimum GPA may petition for special consideration;

f. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Art Major

With the B.A. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in art courses can apply to the degree for students with an emphasis in art history. For students majoring in art with an emphasis in studio arts no more than 57 units in art courses can apply to the degree.

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Impacted Program

The major art with an emphasis in graphic design is an impacted program. Students must enter the University under the emphasis in graphic design premajor code (10090). To be admitted to the emphasis in graphic design, students must meet the following criteria:

a. Complete with a grade of C or higher: Art 100, 101, 102, 103. These courses cannot be taken for credit/no credit (Cr/NC);

b. Clear the competency requirement in writing. Refer to Graduation Requirements section of this catalog for details;

c. Complete a minimum of 30 semester units;

d. Have a cumulative GPA of 2.75 or higher;

e. Students not meeting the minimum GPA may petition for special consideration;

Art Major

With the B.A. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in art courses can apply to the degree for students with an emphasis in art history. For students majoring in art with an emphasis in studio arts no more than 57 units in art courses can apply to the degree.

This major in art may be planned with an emphasis in studio arts or art history. A minor is not required with this major.

Emphasis in Art History (Major Code: 10031)

Preparation for the Major. Art 100, 101, 158, 258, 259, and 263.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. French or German is recommended for those students who plan to pursue graduate study in art history. Refer to section of catalog on “Graduation Requirements.”

115
Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in art history to include Art 393; and 24 units selected from Art 371 and 557 through 577, and Philosophy 541.

Emphasis in Studio Arts
(Major Code: 10021)
Preparation for the Major. Art 100, 101, 102, 103, 203, 204, 216, 258, 259, and six units of art electives. (33 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in art to include Art 403, 404, and 500; six units of art history; and nine units of art electives selected in consultation with an adviser.

Art Major
With the B.A. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

Emphasis in Applied Design
(Major Code: 10021)
Preparation for the Major. Art 100, 101, 102, 103, 220, 258, 259, and six units of art electives. (27 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in art to include three units from each of the areas listed below, and six units of extended work in one of the areas; three units of art electives; and six units of art history.

Fiber: Art 334, 435, 436, 534, 535, 536
Metal: Art 331, 431, 432, 531, 532
Clay: Art 325, 425, 525, 526
Wood: Art 323, 423, 523

Emphasis in Environmental Design
(Major Code: 10021)
No new students will be admitted to this emphasis.

Preparation for the Major. Art 100, 101, 102, 103, 148, 247, 248, 249, 250, 251, 258, 259. (36 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in art to include Art 348, 450, 454, 547, 550; six units selected from Art 323, 325, 416, 423, 451, 453, 498A, 516, 552, 591; and six units of art history.

Emphasis in Graphic Design
(Premajor Code: 10090) (Major Code: 10091)
Preparation for the Major. Art 100, 101, 102, 103, 241, 243, 258, 259; and six units of art electives (Art 240 recommended). (30 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in art to include Art 341; six units of art history; 12 units selected from Art 340, 348, 440, 441, 443, 444, 445, 540, 541, 542, 543, 544 (to include at least one of the following pairs: 340/540, 441/541, 443/543, 444/544 or 445/542); and six units of art electives.

Emphasis in Interior Design
(Major Code: 02031)
Art majors wishing to enter one of the Interior Design upper division courses (Art 451, 453, 552, 553) must receive, as a condition of junior level qualification, a passing evaluation of a portfolio of work submitted to the Interior Design Evaluation Committee. Any advance enrollment in the above-listed upper division courses will remain provisional until clearance of the portfolio review. Reviews are held prior to the beginning of the fall and spring semesters. See the School of Art, Design and Art History office for specific information concerning current policies pertaining to the review, content of the portfolio, and the schedule to be observed.

Preparation for the Major. Art 100, 101, 102, 103, 148, 247, 248, 249, 250, 251, 258, 259. (36 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in art to include Art 352, 451, 452, 453, 552, 553; three units selected from Art 323, 325, 334, 436, 450, 547, 591; and six units of art history (Art 577 recommended).

Emphasis in Painting and Printmaking
(Major Code: 10021)
Preparation for the Major. Art 100, 101, 102, 103, 203, 258, 259, and six units selected from Art 204, 207, or 210. (27 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in art to include six units of art history, and 18 units selected in consultation with the adviser from Art 403, 404, 406, 407, 408, 410, 411, 416, 500, 502, 503, 504, 506, 510, 511.

Emphasis in Sculpture
(Major Code: 10021)
Preparation for the Major. Art 100, 101, 102, 103, 216, 217, 258, 259; and three units selected from Art 203, 204, 220, 225, 231, 234. (27 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units to include Art 416, 418, 490A, 516 or 518, 517; six units of art history; and six units selected from Art 323, 331, 403, 404, 500, 516, 518, 591.

Art Major
In preparation for the Single Subject Teaching Credential
With the B.A. Degree in Applied Arts and Sciences
(Major Code: 10021)

Students may choose to complete this program of study for the Art major; but must also take and pass the PRAXIS examination to clear the required Subject Matter Competency in Art for the Single Subject Credential Program. See the school’s undergraduate adviser for more information.

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under Policy Studies or Teacher Education.
This major may be used by students in teacher education as an undergraduate major for the B.A. degree in applied arts and sciences.

**Preparation for the Major.** Art 100, 101, 102, 103, 204, 216, 220, 225, 258, 259, and three units selected from 203, 210, or 241. (33 units)

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Teaching Major.** A minimum of 30 upper division units to include Art 325, 331, 387, 404, 435; six units of art history; and nine units selected from Art 416, 425, 431, 436, 504, 535, and 536.

**Art Minor**

The minor in art consists of a minimum of 21 units in art, to include Art 100 and 101 and 12 units of upper division courses in art taken from art history, applied design, environmental design, interior design, painting, printmaking, and sculpture.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

**Art History Minor**

The minor in art history includes a minimum of 21 units in art distributed as follows: Six units to include Art 258, 259, and three units selected from Art 158 or 263. Twelve units selected from Art 371, 557, 558, 559, 560, 561, 564, 565, 566, 569, 570, 573A, 573B, 575, 577, and with consent of instructor selected Art 596 courses with art history content.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

**Courses (ART)**

**LOWER DIVISION COURSES**

100. **Drawing and Composition** (3) I, II (CAN ART 8)

Six hours.

The ordering of two-dimensional space through drawing.

101. **Two Dimensional Design and Color** (3) I, II (CAN ART 14)

Six hours.

Fundamentals of space and color design. Basic course used as a prerequisite for advanced work.

102. **Drawing and Composition** (3) I, II

Six hours.

Prerequisite: Art 100.

Line and value in drawing; emphasis on structure and proportion, sketching, gesture, and contour drawing.

103. **Three Dimensional Design** (3) I, II (CAN ART 16)

Six hours.

Prerequisite: Art 101.

Introduction and investigation of design and theory, and practice in three dimensions.

148. **Visual Presentation I** (3) I, II

Six hours.

Prerequisite: Art 100.

Design drawing techniques including interior presentation drawings, interior detailing, architectural drafting, and lettering. Tools and materials used in the design professions.

157. **Introduction to Art** (3) I, II

An illustrated lecture course dealing with the meaning of art derived from an investigation of the principles of art. Designed to increase the understanding and appreciation of art.

158. **Arts of Native America, Sub-Saharan Africa, and Oceania** (3)

Arts of diverse societies of Native America, Sub-Saharan Africa, and Oceania in cultural context. Art forms from ancient to contemporary period.

203. **Life Drawing** (3) I, II

Six hours.

Prerequisite: Art 102.

Drawing from the nude model. Maximum credit six units.

204. **Painting** (3) I, II (CAN ART 10)

Six hours.

Prerequisites: Art 101 and 102.

Pictorial composition and techniques of painting. Maximum credit six units.

207. **Introduction to Fine Art Photography** (3)

Six hours.

Prerequisites: Art 102 and 103.

Black and white fine art photography including lighting techniques, small format cameras, metering, darkroom instruction, and fine art processes. Maximum credit six units.

210. **Printmaking** (3) I, II

Six hours.

Prerequisites: Art 101, 102 and consent of instructor.

Introduction and exploration of basic printmaking media. Emphasis on aesthetic and technical processes in intaglio, lithography, relief and serigraphy.

216. **Sculpture** (3) I, II (CAN ART 12)

Six hours.

Prerequisite: Art 103.

Introduction and experimentation of basic sculpture ideas, methods and materials. Maximum credit six units.

217. **Figurative Sculpture** (3) I, II

Six hours.

Prerequisite: Art 103.

Creative experimentation with sculptural forms from the human figure.

220. **Design in Crafts** (3) I, II

Six hours.

Prerequisite: Art 103.

Visual and structural form in crafts.

225. **Beginning Handbuilt Ceramics** (3) I, II (CAN ART 6)

Six hours.

Prerequisite: Art 103.

Design and construction of handbuilt ceramic forms. Introduction of glaze for surface enrichment. Maximum credit six units.

231. **Beginning Jewelry and Metals** (3) I, II

Six hours.

Prerequisite: Art 220.

Design and construction of jewelry and small objects in non-ferrous metals. Basic fabrication, forming, and surface embellishment techniques for metal. Not open to students with credit in Art 331.

234. **Weaving** (3) I, II

Six hours.

Prerequisite: Art 220.

Structure and design of woven fabrics. Maximum credit six units.

240. **Fundamentals of Digital Media** (3) I, II

Six hours.

Prerequisites: Grade of C (2.0) or better in Art 100, 101, 102, and 103.

Principles of digital media used in visual communication.

241. **Beginning Graphic Design** (3) I, II

Six hours.

Prerequisites: Grade of C (2.0) or better in Art 100, 101, 102, and 103.

Proof of completion of prerequisites required: Copy of transcript. Fundamental principles of visual communication.
243. Typography (3) I, II
Six hours.
Prerequisite: Grade of C (2.0) or better in Art 241. Proof of completion of prerequisite required: Copy of transcript.
Letterforms in visual communication, including historical significance of written language, semantics, and syntax as functions of expressive visual design.

247. The House and Its Environment (3)
Architecture, interior design, landscape and city planning for forming the physical and aesthetic environment. Not open to students with credit in Art 347.

248. Visual Presentation II (3) I, II
Six hours.
Prerequisites: Art 102, 103, 148. Proof of completion of prerequisite required: Copy of transcript.
Methods, materials, and tools of the professional environmental designer stressing art principles.

249. Visual Presentation III (3) I, II
Six hours.
Prerequisite: Art 248. Proof of completion of prerequisite required: Copy of transcript.
Elementary problems in neighborhood planning, house design, and landscaping.

250. The Contemporary House (3) I, II
Six hours.
Prerequisite: Art 248. Proof of completion of prerequisite required: Copy of transcript.
Elementary problems in neighborhood planning, house design, and landscaping.

251. Interior Design I (3) I, II
Six hours.
Prerequisites: Art 102 and 103. Proof of completion of prerequisites required: Copy of transcript.
Elementary functional and aesthetic studies in interior space and form. Relationships of light, color, texture, shape and volume.

258. Introduction to Art History (3) I, II (CAN ART 2)
(258 + 259: CAN ART SEQ A)
Art development in painting, sculpture, architecture, and handicrafts from the dawn of art to the Renaissance. Illustrated.

259. Introduction to Art History (3) I, II (CAN ART 4)
(258 + 259: CAN ART SEQ A)
The period from the Renaissance through the modern school treated in the same manner as in Art 258.

263. Asian Art (3)
Arts of Asian countries including China, India, and Japan from prehistoric to pre-modern times. Role of religious belief and state ideology in shaping visual characteristics of regional cultures in Asia.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

323. Beginning Furniture Design and Woodworking (3) I, II
Six hours.
Prerequisite: Art 103. Recommended: Art 148.
Principles of design through the making of furniture. Basic techniques in woodworking and joinery.

325. Beginning Throwing-Ceramics (3) I, II
Six hours.
Prerequisite: Art 220. Recommended: Art 225.
Basic methods of forming, decorating, glazing and firing pottery forms with emphasis on the use of the potter's wheel.

331. Beginning Jewelry and Metalwork (3) I, II
Six hours.
Prerequisite: Art 220.
Creative design and construction in metal of jewelry and small objects. Techniques in three-dimensional forming and constructions in nonferrous metals. Not open to students with credit in Art 231.

334. Advanced Weaving (3) I, II
Six hours.
Prerequisite: Art 220.
Total credit in Art 234, 334 and 534 limited to nine units.
Advanced problems in fabric design and weave construction including tapestry and rug weaving techniques. Maximum credit six units.

340. Photographic Imagery (3) I, II
Six hours.
Prerequisites: Grade of C (2.0) or better in Art 100, 101, 102, 103, and Art 240 II completed.
Visual communication and expression using photographic media including photomechanical and digital processes and theory of color and light.

341. Graphic Design (3) I, II
Six hours.
Prerequisite: Grade of C (2.0) or better in Art 243. Proof of completion of prerequisite required: Copy of transcript.
Lay out, typography and reproduction applied to contemporary print and digital media.

347. The House and Its Environment (3) I
Architecture, interior design, landscape, and city planning for forming the physical and aesthetic environment, its simplicities and complexities. Not open to students with credit in Art 247.

348. Environmental Media (3) II
Six hours.
Prerequisite: Art 249 or 341.
Design communication and documentation techniques using photography, exhibition, portfolio, and publication orientations as they relate to environmental design.

352. Methods and Materials of Interior Design (3) II
Prerequisites: Art 250 and 251.
Topics in successful professional practice including codes, legal liabilities, contractual agreements, project management. Lectures in field settings illustrate methods and materials of installation and explore environmental systems.

357. World Art in Contemporary Life (3) II
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
World art and technology from ancient to post modern era and their relationship to contemporary culture and life. Gallery visits required.

371. Medieval Art (3)
Prerequisites: Art 258 and 259.
Development of painting, sculpture, and architecture from time of Constantine through Gothic period.

387. Art for Teachers (3) I, II, S
Six hours.
Prerequisite: Art 101, or upper division standing and consent of instructor.
A design-crafts course that explores in depth materials and processes that could be used with young people.

403. Advanced Life Drawing (3)
Six hours.
Prerequisite: Art 203.
Drawing the nude model. Maximum credit six units.
404. Intermediate Painting (3) I, II
Six hours.
Prerequisite: Art 204.
Concepts that enhance basic painting principles and a broad range of painting issues. Maximum credit six units.

406. Experimental Processes in Painting and Drawing (3)
Six hours.
Prerequisites: Art 203 and 204.
Structure in picture making.

407. Black and White Photography as a Fine Art Medium (3) I, II
Six hours of activity.
Prerequisite: Art 207.
Intermediate black and white photography and darkroom techniques combined with independent research in contemporary art and photography. Criticism in contemporary context. Maximum credit six units.

408. Color Photography as a Fine Art Medium (3) II
Six hours of activity.
Prerequisite: Art 407.
Color photography as a fine art medium, including color theory, transparency and negative film exposure controls, darkroom techniques, and electronic flash and lighting techniques for color photography. Maximum credit six units.

410. Intaglio Printmaking (3)
Six hours.
Prerequisites: Art 203 and 210.
Creative intaglio-etching, drypoint, aquatint, engraving and variations. Emphasis on fine print quality and technical development. Maximum credit six units.

411. Lithography Printmaking (3) I, II
Six hours.
Prerequisites: Art 101 and 203.
Creative lithography–stone and plate planographic process. Emphasis on fine print quality and technical development. Maximum credit six units.

416. Intermediate Sculpture (3) I, II
Six hours.
Prerequisite: Art 216.
Individual investigations into sculpture ideas, methods and materials. Individual development in sculpture. Materials may include clay, plastics, paper or wood. Maximum credit six units.

418. Metal Sculpture (3)
Six hours.
Prerequisite: Art 216.
Sculpture ideas and methods using metal fabrication and introductory foundry processes. Individual development in sculpture. Maximum credit six units.

423. Intermediate Furniture Design and Woodworking (3) I, II
Six hours.
Prerequisite: Art 323.
Intermediate individual design: Exploration of materials, processes and function. Specialized techniques focusing on case construction, making of drawers and doors for furniture. Maximum credit six units.

425. Intermediate Ceramics (3) I, II
Six hours.
Prerequisite: Art 325.
Continuation of Art 325. Further development of knowledge, skills and philosophy of ceramics through individual creative projects.

431. Intermediate Jewelry and Metalwork (3) I, II
Six hours.
Prerequisites: Art 231 or 331.
Further development of design and metalworking skills specifically related to jewelry. Specialized techniques such as casting, chasing, stone setting, die forming and enameling.

432. Metallsmithing (3)
Six hours.
Prerequisite: Art 231 or 331.
Creative design and techniques in metalsmithing.

435. Nonwoven Textile Construction (3) I, II
Six hours.
Prerequisite: Art 220.
Textile structures with an emphasis on nonloom techniques.

436. Textile Design (3) I, II
Six hours.
Prerequisite: Art 220.
Application of design for the textile surface, using a broad variety of media and processes appropriate for both the individual designer and commercial reproduction. Media include stencil, block, silk-screen, batik, and tie-dye. Maximum credit six units.

440. Three-Dimensional Graphic Imagery (3) I, II
Six hours.
Prerequisite: Grade of C (2.0) or better in Art 341.
Design for environmental graphics, signage systems, displays and packaging.

441. Advanced Graphic Design – Advertising Media (3) I, II
Six hours.
Prerequisites: Grade of C (2.0) or better in Art 341. Proof of completion of prerequisite required: Copy of transcript. Application of visual design concepts to graphic design and advertising.

443. Drawing and Illustration for Graphic Design (3) I, II
Six hours.
Prerequisites: Grade of C (2.0) or better in Art 100, 101, 102, 103 and 203.
Methods, materials, and tools related to graphic design.

444. Sequential Media (3) I, II
Six hours.
Prerequisite: Grade of C (2.0) or better in Art 341.
Study and presentation of sequential imagery. Maximum credit six units.

445. Graphic Design Internship (3) Cr/NC I, II
Six hours.
Prerequisites: Portfolio review and a grade of C (2.0) or better in one 400 or 500-level graphic design course.
Field experience with local practicing professionals. Maximum credit six units.

450. Synergetic Environments (3)
Six hours.
Prerequisites: Art 249 and 454.
Synthesis of materials, space, sound and light using exploratory methods in full scale projects.

451. Interior Design II (3) I, II
Six hours.
Prerequisites: Art 249, 250, 251, and completion of portfolio requirement. Proof of completion of prerequisites required: Copy of transcript. Survey, analysis and conceptual design methods of residential interiors stressing materials, equipment, components and structural detailing. Maximum credit six units.

452. Interior Design Practicum (3) Cr/NC I, II
Nine hours of laboratory.
Prerequisite: Art 453. Proof of completion of prerequisite required: Copy of transcript. Field experience with local professional interior designers in client relationships, business procedures, supervision of subcontracted work and installation, and execution of contracts. Maximum credit six units.
453. Interior Design III  (3) I, II
Six hours of activity.
Prerequisites: Art 249, 250, 251, and completion of portfolio requirement. Proof of completion of prerequisites required: Copy of transcript.
Survey and design synthesis of problems of more complexity, through interiors, to landscape, to architectural planning and, finally, concern for city design.
454. Environmental Design  (3) II
Six hours.
Prerequisites: Art 247 and 250.
Survey and design synthesis of problems of more complexity, through interiors, to landscape, to architectural planning and, finally, concern for city design.
496. Experimental Topics  (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.
497. Senior Investigation and Report  (3) I, II
Nine hours for 497A; three hours for 497B.
Prerequisites: Six upper division units in art, and consent of instructor.
Individual research into areas of studio and art history not covered by regular courses.
A. Studio Investigations
B. Art History Investigations
498. Senior Project  (3) I, II
Nine hours for 498A; three hours for 498B.
Prerequisite: Consent of instructor.
Investigation in art. Formal presentation of project.
A. Studio project
B. Art History project
499. Special Study  (1-3) I, II
Prerequisite: Consent of instructor.
Individually study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)
500. Advanced Drawing  (3)
Six hours.
Prerequisites: One year of 400-level studio art coursework and consent of instructor.
Drawing emphasizing qualitative aspect of visual subject matter. Maximum credit six units.
502. Inter-Media  (1-3) I, II
Two hours for each unit of credit.
Prerequisites: Art 102 and 103.
Process and materials in plane and space. Maximum credit six units.
503. Life Drawing and Painting  (3)
Six hours.
Prerequisites: Art 204 and 403.
Drawing and painting from nude and costumed models. Maximum credit six units.
504. Advanced Painting  (3) I, II
Six hours.
Prerequisite: Six units of Art 404.
Approaches to contemporary concepts in painting. Maximum credit six units.
506. Contemporary Issues for Studio Artists  (3)
Prerequisite: Upper division or graduate standing in art and consent of instructor.
Theory, practice, and philosophy of being an artist. Independent research on current art concepts and issues. Material will encompass the past five years. Field trips.
510. Intaglio Printmaking in Color  (3)
Six hours.
Prerequisite: Art 410.
Advanced creative intaglio printmaking in color, including zinc and copper plate; etching, drypoint, aquatint, engraving, embossing and color variations. Emphasis on fine print quality and technical development in the color process unique to this medium. Maximum credit six units.
511. Lithography Printmaking in Color  (3) I, II
Six hours.
Prerequisite: Art 411.
Advanced creative lithography printmaking in color. Emphasis on fine print quality in color process and color technology unique to this medium. Maximum credit six units.
516. Advanced Sculpture  (3) I, II
Six hours.
Prerequisite: Art 416.
Individual investigations into sculpture ideas, methods and materials. Individual development in sculpture. Materials may include clay, plastics, paper or wood. Maximum credit six units.
517. Advanced Figurative Sculpture  (3)
Six hours.
Prerequisites: Art 216 and 217.
Figurative study with emphasis on individual exploration. Maximum credit six units.
518. Advanced Metal Sculpture  (3)
Six hours.
Prerequisite: Art 418.
Sculpture ideas and methods using metal fabrication and foundry processes. Individual development in sculpture. Maximum credit six units.
523. Advanced Furniture Design and Woodworking  (3) I, II
Six hours.
Prerequisite: Six units of Art 423.
Advanced individual design: Exploration of materials, process and function. Continued focus on development of personal design statements and specialized techniques. Maximum credit six units. Maximum combined credit of 12 units of Art 323, 423, and 523.
525. Advanced Ceramics  (3) I, II
Six hours.
Prerequisite: Art 425.
Study of ceramic design through creative projects of clay forms. Maximum credit six units.
526. Clay and Glaze Technology in Ceramic Design  (3)
Six hours.
Prerequisite: Art 425.
Experimentation and application of research concerning the use of ceramic materials and techniques as an integral part of the design process. Maximum credit six units.
531. Advanced Jewelry and Metalwork  (3) I, II
Six hours.
Prerequisite: Art 431.
Problems involving fabrication processes already studied in order to increase technical competence while exploring personal design statements; specialized techniques such as photoetching and electroforming. Maximum credit six units.
532. Advanced Metalsmithing  (3) I, II
Six hours.
Prerequisite: Art 432.
Advanced problems involving metal processes to increase technical competence while exploring personal design statements. Maximum credit six units.
534. Advanced Weaving (3) I, II
Six hours.
Prerequisite: Art 334.
Advanced individual problems in weaving. Maximum credit six units. Maximum combined credit of nine units in Art 234, 334, and 534.

535. Advanced Nonwoven Textile Construction (3) I, II
Six hours.
Prerequisite: Art 435.
Advanced study in nonloom techniques. Techniques to include: looping, braiding, plaiting, and special fabricating techniques. Experimentation with new man-made fibers and with synthetic commercial dyes. Maximum credit six units.

536. Advanced Textile Design (3) I, II
Six hours.
Prerequisite: Art 436.
Application of design for the textile surface, appropriate for both the individual designer and commercial reproduction. Maximum credit six units.

540. Advanced Photographic Imagery (3) II, S
Six hours.
Prerequisites: Grade of C (2.0) or better in Art 340, or Art 207 and 240.
Visual communication and expression using photographic media, including photomechanical and digital processes. Preparation for multimedia and digital prepress. Maximum credit six units with consent of instructor.

Six hours.
Prerequisite: Grade of C (2.0) or better in Art 440 or 441. Proof of completion of prerequisite required: Copy of transcript. Design of visual communication systems relating to visual, verbal, and corporate identification strategies. Maximum credit six units.

542. Design Studio (3) I, II
Six hours.
Prerequisites: Portfolio review and grade of C (2.0) or better in one 400 or 500-level graphic design course. Solutions to design problems for clients in a studio environment including business procedures and production management. Development of a professional level portfolio. Maximum credit six units with consent of instructor.

543. Advanced Drawing and Illustration for Graphic Design (3)
Six hours.
Prerequisite: Art 443.
Refinement of visual imagery and advanced illustration problems.

544. Visual Communication: Emerging Technologies (3) II
Six hours.
Prerequisites: Grade of C (2.0) or better in Art 440 or 441 or 444; or Art 240 and a 500-level studio art course. Advanced design studies in emerging electronic communications, including cyberstudios, Internet and multimedia. Exploration in collaborative, interdisciplinary, and international projects. Maximum credit six units with consent of instructor.

547. Environmental Theory (3) II
Prerequisite: Art 247 or 347.
Survey of alternative solutions to the problem of design of the physical environment.

550. Environmental Prototypes (3) I
Six hours.
Prerequisites: Art 247, 250, 450.
Research and development of creative architectural concepts with emphasis in space enclosure systems and cybernetics.

552. Interior Design IV (3) I
Six hours.
Prerequisites: Art 451, 453, and completion of portfolio requirement. Proof of completion of prerequisite required: Copy of transcript. Projects in architectural interiors involving the use and perception of enclosed spaces. Space planning systems analysis. Maximum credit six units.

553. Interior Design V (3) II
Six hours.
Prerequisite: Art 552. Proof of completion of prerequisite required: Copy of transcript. Projects in interiors involving space planning analysis, specification writing, materials selection and furnishing design appropriate to commercial needs. Maximum credit six units.

557. Art of the Nineteenth Century (3) I, II
Prerequisites: Art 258 and 259.
Development of painting, sculpture, and architecture from the French Revolution to 1900.

558. Twentieth Century European Art to 1945 (3) I, II
Prerequisite: Art 259.
Major developments in the visual arts and art criticism from 1880 to 1945 (Post-Impressionism through Surrealism).

559. Twentieth Century European and American Art Since 1945 (3) I, II
Prerequisites: Art 258 and 259. Recommended: Art 558.
Major developments in the visual arts and art criticism since 1945.

560. History of American Art (3)
Prerequisites: Art 258 and 259.
Development of painting, sculpture, and architecture from the Native American art and Colonial Period to the present.

561. Art of Pre-Hispanic America (3)
Prerequisite: Upper division standing. Art of ancient Meso-America, Central America, Caribbean, and South America from earliest times until contact with Europe.

562. Art of Latin America (3)
Prerequisite: Upper division standing. Art and architecture of Latin America from the colonial period to the present. Field trips included.

564. Art of China (3) II
Prerequisite: Art 263.
History of Chinese art from prehistoric times through the Ching Dynasty.

565. Art of Japan (3) II
Prerequisite: Art 263.
History of Japanese art from prehistoric times to the Meiji Restoration.

568. Art of Crete, Mycenae, Greece, and Rome (3)
Prerequisite: Art 258.
Development of painting, sculpture, architecture, and crafts from prehistoric times to the fifth century A.D.

569. Art of Sub-Saharan Africa (3)
Prerequisite: Upper division standing. Form and content of the art of Sub-Saharan Africa viewed within its cultural context.

570. Art of the Pacific Islands (3)
Prerequisite: Art 158 or 258 or 259.
Visual arts of the Pacific Islands; recognition of styles and object types and their historical, social, and cultural contexts.

573A. Early Renaissance Art in Italy (3)
Prerequisites: Art 258 and 259.
Italian arts, architecture, artists, and patrons from fourteenth century Proto-Renaissance period through fifteenth century revival of classical humanism in city states of Florence, Siena, Bologna, Mantua, and Padua.
Art

573B. Late Renaissance Art in Italy (3)
Prerequisites: Art 258 and 259.
High Renaissance in Florence and Rome, followed by disintegration of classical principles and domination of Mannerism in Central and Northern Italy and history of arts of Venice in sixteenth century.

575. Baroque and Rococo Art (3)
Prerequisites: Art 258 and 259.
Architecture, sculpture, and painting of the Baroque and Rococo periods.

577. History of Architecture (3)
Prerequisites: Art 258 and 259.
Architecture from primitive times to the present.

591. Gallery Exhibition Design (3) I, II
Six hours.
Prerequisite: Fifteen units of art.
Fundamental art elements and principles applied to the theories and techniques of gallery exhibition design.

592. Gallery Exhibition Design (3) I, II
Six hours.
Prerequisite: Art 591.
Advanced problems in the theories and techniques of gallery exhibition design.

593. History and Methodology of Art History (3) II
Prerequisites: Upper division standing; art history major or minor.
Readings and discussions on the historiography of art and on modern methodologies for art historical research.

596. Advanced Studies in Art and Art History (1-4)
Prerequisites: Twelve units of art and art history and consent of instructor.
Advanced topics in art and art history. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum credit of three units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Faculty
Emeritus: Madhavan
Chair: Weiner
Professor: Weiner
Lecturers: Wawrytko, Wittenborn
Associated Faculty: Bergstrom (Political Science), Chen (Information and Decision Systems), Cheng (Communicative Disorders), Chin (English and Comparative Literature), Cho (Linguistics), Chu (History), Donahue (Linguistics), Ghosh (Women’s Studies), Griffiths (History), Guang (Political Science), Gupta (Public Administration), Hayakawa (Art), Henry (Anthropology), Higurashi (Japanese), Himes (Anthropology), Johnson (Religious Studies), Kitajima (Japanese), Lippold (Anthropology), Liu (Sociology), Maruyama (Art), Miyamoto (Japanese), Nakamura (Art), Oades (History), Pang (Teacher Education), Peterman (Music), Rogers, G. (Library), Rogers, W. (English and Comparative Literature), Samraj (Linguistics), Shaw (Teacher Education), Strand (Dean, College of Arts and Letters), Tran (Teacher Education and Policy Studies in Language and Cross-Cultural Education), Young (Policy Studies in Language and Cross-Cultural Education), Young (Spanish), Yu (Public Health), Zhang (Chinese)

Offered by the Department
Master of Arts degree in Asian studies.
Major in Asian studies with the B.A. degree in liberal arts and sciences.
Minor in Asian studies.

The Major
Two and one-half billion people live in East, Southeast, and South Asia – half of the world’s population. The importance of this immense and varied region cannot be overstated. More and more Americans are discovering the rich culture and history of the Asian people. Asians have made a major contribution to the world’s literature and art, religion and philosophy, and are becoming increasingly important in international relations, business, and economics.

Nonmajors who wish to increase their knowledge about Asian peoples will find courses available in the Asian studies undergraduate and graduate programs.

The Department of Asian Studies seeks to provide a background for students planning to enter business, the academic environment, government, or community service – wherever the knowledge of Asia and Asians is needed. Students in the major develop an understanding of cultural heritage, societies, language and special forces. Areas of special interest may be pursued in depth.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Asian Studies Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 03011)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” Each student must file an individual master plan with the Asian Studies undergraduate adviser and with the Office of the Registrar.

A minor is not required with this major.

Preparation for the Major. Six units selected from Asian Studies 106, 107; Philosophy 101, 102; or Religious Studies 101; and six units selected from Anthropology 101, 102; Economics 101, 102; Geography 101, 102; or Political Science 101, 103. Recommended: Art 263. (12 units)

Foreign Language Requirement. Competency (equivalent to that normally attained through two consecutive years of college study) in one major Asian language, such as Chinese or Japanese, unless specifically waived by the undergraduate adviser.

Upper Division Writing Requirement. Passing the University Writing Examination or completing English 508W, Linguistics 396W, Religious Studies 396W, Rhetoric and Writing Studies 305W, 500W, or 503W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units to include six units selected from Asian Studies 458, 459, 561, and 596. No fewer than 12 units must be selected from at least two humanities departments, and no fewer than 12 units must be selected from at least two social science departments. A student may select courses focusing on East Asia, South Asia, or Southeast Asia.
Asian Studies Minor

The minor in Asian studies consists of a minimum of 22 units to include Asian Studies 106, 107, and four units of an appropriate Asian language, e.g., Chinese or Japanese. Twelve units must be in upper division and divided equally between humanities and social science courses.

Appropriate humanities courses are Asian Studies 458, 460, 499, 561, 581, 596; Art 263, 564, 565, 596 (when relevant)*; History 561, 563, 564, 565, 566, 567, 569, 570; Philosophy 351, 575 (when relevant)*; 596 (when relevant)*; Religious Studies 401, 403.

Appropriate social science courses are Asian Studies 331, 459, 483*, 499, 496*; Anthropology 448, 450, 452, 496*, 582*, 583*; Economics 330, 336*, 360, 365*, 465, 496*, 499*; Political Science 361, 362, 496*, 499, 575; Women's Studies 580*.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of twelve upper division units must be completed in residence at San Diego State University.

* When deemed relevant by the undergraduate adviser.

Courses (ASIAN)

LOWER DIVISION COURSES

106. Cultural Heritage of Asia (3) II
Social and cultural heritages of South, Southeast, and East Asian societies as revealed in art, drama, classical literatures, and folk traditions.

107. Social Foundations of Modern Asia (3) I, II
Social, economic, and political systems of South, Southeast, and East Asia in modern times.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES (Intended for Undergraduates)

331. Women in Asian Societies (3) I
(Same course as Women's Studies 331.)
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Socio-economic status of women in Asia. Feminism and status of women in China, India, Japan, Korea, Philippines, and other countries. Feminist movements in Asia and women's status as affected by changing social, economic, and political orders in Asia.

458. Asian Traditions (3) I, II
Prerequisites: Six units of Asian-content courses or upper division standing, and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Social, cultural, economic, and political traditions of South, Southeast, and East Asia; how they functioned in theory and practice prior to twentieth century.

459. Modern Asian Cultures (3) I, II
Prerequisite: Six units of Asian-content courses or upper division standing, and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Continuity and change in traditions and values of Asian societies in face of urbanization, modernization, and Westernization since mid-nineteenth century.

460. Contemporary Issues in Filipino-American Communities (3) I, II
Prerequisites: Upper division standing and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Current issues and changes in the Filipino-American communities since 1965. Topics include new Filipino immigration, socio-economic adaptation, family, culture, intergenerational gaps, labor, education, psychology, employment, race relations, community institutions, civil rights and social movements, health, business, and politics.

483. Asian Diplomacy (3)
Prerequisite: Minimum three units selected from Asian Studies 106, 107, 458, 459; History 420; Political Science 103, 362, 375, 481.
Political forces that influence foreign policies of Asian states.

496. Experimental Topics (1-4)
Prerequisite: Six units of Asian-content courses. Selected topics in Asian studies. May be repeated with new content. Maximum credit six units with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3)
Prerequisites: At least six units of upper division work completed toward the major or minor in Asian studies and consent of the instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES (Also Acceptable for Advanced Degrees)

561. History of Asian Business and Trade (3) I
Prerequisites: Upper division standing and consent of instructor.
East and Southeast Asian commerce and trade from tenth century to present. Emphasis on nineteenth and twentieth century economic development, structure of Asian commercial networks, role of overseas Chinese, and problems of international trade.

581. Women in Modern Asian History (3) II
Prerequisite: Asian Studies 458 or 459 or an upper division course in history with Asian content.
Historical and contemporary issues of politics, power, and women in Asia from mid-eighteenth century; gender roles, traditional values, social structures, levels of consciousness, effectiveness of organizations and individual contributions of historically significant women.

596. Selected Studies in Asian Cultures (3)
Topics on various aspects of Asian studies. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

Refer to Bulletin of the Graduate Division.
Astronomy Major

The Major

Industry and private companies, observatories and government laboratories, in planetariums, and in degrees include positions in colleges and universities, in national phers, and laboratory technicians.

Makers, opticians, electronic technicians, programmers, photogra­

continuing research and include telescope operators, instrument

facilities.

ated by the University. The department also has excellent computer

physics.

nebulae, galactic clusters, exterior galaxies, and atmospheric
tations of cosmology, eclipsing binary stars, low mass stars, planetary

research.

dents actively participate in all phases of observational astronomical

tem which offers a complete academic program in astronomy. Stu­

the galaxies, and cosmology.

Will the universe expand forever? Is there life on other planets? How are stars formed? These are the types of questions being addressed by students majoring in astronomy. Some areas of study in astronomy include the sun, the solar system, the stars, the Milky Way, the galaxies, and cosmology.

SDSU is the only institution in The California State University sys­

Joint faculty and student research activities are principally in the area of observational astrophysics. These include ongoing investiga­

Much of this work is done at the Mount Laguna Observatory oper­

ated by the University. The department also has excellent computer facilities.

Graduates with a bachelor's degree may find some positions in observatories and large astronomy departments. These jobs support continuing research and include telescope operators, instrument makers, opticians, electronic technicians, programmers, photogra­

Employment opportunities for astronomers who have advanced degrees include positions in colleges and universities, in national observatories and government laboratories, in planetariums, and in industry and private companies.

Astronomy Minor

With the B.A. Degree in Liberal Arts and Sciences

(Major Code: 19111)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in astronomy and physics to include Astronomy 340, 350, 440, 450; Mathematics 342A; Physics 350; and nine units selected with the approval of the astronomy undergraduate adviser. Recommended: Astronomy 320; Physics 354, 360, 400A, 406.

Astronomy Major

With the B.S. Degree in Applied Arts and Sciences

(Major Code: 19111)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this cat­

alogue on “Graduation Requirements.”

Preparation for the Major. Astronomy 101; Mathematics 150,

151, 252; Physics 195, 195L, 196, 196L, 197, 197L. (28 units)

Recommended: Chemistry 200, Engineering 120 or Computer Science 106 or 107.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units in astronomy and physics to include Astronomy 340, 350, 440, 450, 498A, 498B; Phys­

ics 350, 354, 360, 400A; and nine units selected from Astronomy 320; Physics 311, 400B, 406, 410.

Minor in Mathematics. All candidates for the B.S. degree in astronomy must complete a minor in mathematics, to include Math­

ematics 342A and six additional upper division units of electives in mathematics. Recommended: Mathematics 342B, 541; Statistics 551A.

Astronomy Minor

The minor in astronomy consists of a minimum of 15 units to include Astronomy 101 and 12 upper division units selected from Astronomy 301, 310, 320*, 340*, 350*, 440*, 450*.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

* Additional prerequisites required.

Courses (ASTR)

LOWER DIVISION COURSES

101. Principles of Astronomy (3) I, II

Nature of the universe: the solar system, stars, galaxies, and remote universe.

109. Astronomy Laboratory (1) I, II

Three hours of laboratory.

Prerequisite: Credit or concurrent registration in Astronomy 101.

Demonstration of astronomical principles through observations with astronomical instruments and analysis of astronomical data.
296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Cosmology and Gravitational Collapse (3)
Prerequisite: Completion of the General Education requirement in Foundations II. A.1. Physical Sciences.
Einstein's theory of general relativity applied to problems of gravitational collapse (stellar evolution, neutron stars, black holes) and cosmology (origin and evolution of the universe).

310. Astrobiology and the Search for Extraterrestrial Life (3) I, II
Prerequisites: Completion of the General Education requirement in Foundations II.A.1. Physical Sciences and II.A.2. Life Sciences.
Extraterrestrial life in our solar system and other planetary systems; formation of stars and planets; UFOs and SETI; origin and evolution of life on earth; life in extreme environments; cosmology and structure of universe.

320. Solar System Astronomy (3)
Prerequisites: Astronomy 101 and Physics 197, 197L.
Structures of the planets, their atmospheres and satellite systems, asteroids, comets, and meteoroids, and the interplanetary medium, including the sun's influence in the system.

340. Spherical Astronomy (3) I
Prerequisites: Credit or concurrent registration in Mathematics 252 and Physics 197.
Problems in spherical astronomy, astronomical coordinate systems, time, general precession, and introduction to astrometry.

350. Astronomical Techniques (3) II
Prerequisite: Astronomy 340.
Data acquisition and data reduction for current instrumentation including photoelectric photometry, direct imaging, and spectroscopy. Techniques for obtaining precise measurements.

440. Astrophysics of Stars (3) I
Prerequisites: Credit or concurrent registration in Mathematics 342A and Physics 354.
Radiative transfer theory, atmospheres of stars and the emergent spectrum, interior structure and evolution of stars, stellar pulsations.

450. Astrophysics of Star Systems (3) II
Prerequisites: Credit or concurrent registration in Mathematics 342A and Physics 354.
Applications of physics in study of binary stars, star clusters, the interstellar medium and galactic structure, galaxies, and cosmology.

496. Experimental Topics (3)
Selected topics. May be repeated once with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

498A. Senior Project (1) I, II
Prerequisite: An acceptable master plan for graduation within one year.
Selection and design of individual projects.

498B. Senior Project (2) I, II
Six hours of laboratory.
Prerequisite: Astronomy 498A.
Individual research project culminating in a final written report.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSE
(Also Acceptable for Advanced Degrees)

596. Advanced Topics in Astronomy (2 or 3) I, II
Prerequisite: Consent of instructor.
Selected topics in theoretical astronomy or astrophysics. May be repeated with new content upon approval of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Faculty
Chair: Glembotski
Associate Professors: Avila, Hanscom, Harris, Segall, Williams, K.
Assistant Professors: Anderson, Bohonak, Brauner, Burgin, Burns, Deutschman, Diffendorfer, Hedin, Hentschel, Reeder, Zeller
Lecturers: Garver, Gibbins, Krown, Martin, Sabbadini, G., Weidner, Wingerd, M.

Offered by the Department
Doctor of Philosophy degree in biology and ecology.
Master of Arts degree in biology.
Master of Science degree in biology.
Master of Science degree in microbiology.
Major in biology with the B.A. degree in liberal arts and sciences.
Major in microbiology with the B.A. degree in liberal arts and sciences.
Major in microbiology with the B.S. degree in applied arts and sciences. Emphasis in medical technology and public health microbiology.
Program of study in biology in preparation for the single subject teaching credential in science.
Minor in biology.
Certificate in Recombinant DNA Technology.

The Majors
Biology. The Department of Biology offers a dynamic and modern program in biology which prepares students both academically and practically for vocations in science and science-related fields or for entry into graduate studies. The major is designed to present a basic background in modern biology and in the supportive disciplines of chemistry, mathematics and physics, and to provide specialized training selected by the student from a variety of areas. The wide range of faculty expertise and research interest allows the department to offer a curriculum which includes general and advanced courses in plant and animal sciences, marine sciences, genetics and physiology, ecology, molecular biology, microbiology, immunology, endocrinology, entomology, evolution, and systematics. Formal programs of study within the major include Emphases in Cell and Molecular Biology, Ecology, Evolution and Systematics, Marine Biology, and Zoology. Special studies opportunities with SDSU faculty and scientists at cooperating institutions allow qualified students to gain research experience on an individual basis.

The department offers a specific program of courses to fulfill the state of California's science requirements for the Single Subject Teaching Credential in Biological Science. Students successfully completing one of these programs may be certified by the department as having demonstrated subject competency as required in part for acceptance into College of Education single subject credential program.

The department also offers a program leading to the Recombinant DNA Technology Certificate. The purpose of this program is to prepare undergraduate and graduate students for employment in public and private organizations utilizing recombinant DNA technology.

The rapid advances in theoretical and applied biology, the growing demands in health care and the expansion of general interest in and concern for the environment are just a few of the factors which continue to increase society's need for biologists. Some examples: a biology degree is the common precursor for the medical, dental, veterinary and allied health professions; government agencies involved in environment protection, public health and conservation need ecologists, inspectors, laboratory technicians and wildlife, forest, coast and park managers; government and private agriculture agencies need entomologists and botanists; private companies, government laboratories and universities involved in biotechnology need microbiologists and molecular biologists; zoos, wild animal parks and aquaria need zoologists; the secondary school system needs biology teachers; textbook and scientific supply companies need science majors. Whether your goal is to work in a laboratory or a forest, there is opportunity for fulfillment and growth in the field of biology.

Microbiology. Microbiology is the study of bacteria, viruses, yeasts, molds, algae and protozoa. These microorganisms are found associated with plants and animals, in soil, and in fresh and marine waters. Many of the free-living species participate in maintaining the quality of our environment. Certain species affect the health and well-being of plants and animals, including humans, by causing infectious diseases. Microorganisms are often used in the molecular biology laboratory as research tools, for experiments in genetic engineering, and in the manufacture of food and chemicals.

The microbiology major is designed to provide the student with a background in basic biology, microbiology, and the disciplines of chemistry, mathematics and physics. The curriculum includes introductory and advanced courses (most with laboratories) in general and pathogenic microbiology, immunology, virology, physiology, and genetics as well as courses in food and industrial microbiology, marine microbiology, and molecular biology. Microbiologists find positions with governmental agencies, in university and private research laboratories, in biotechnology, medical and industrial laboratories, in schools as teachers, with scientific supply companies, or with textbook companies. Depending on the situation, a microbiologist may conduct fundamental and applied research, identify disease-causing microorganisms in medical or veterinary specimens, participate in studies of the environment (e.g., soil, ocean, lakes), aid in the manufacture of pharmaceuticals, food, or beverages, or provide quality and safety control. The microbiology major is excellent preparation for entrance into medical, dental, veterinary, and graduate schools. The Emphasis in Medical Technology and Public Health Microbiology prepares students to become, after a postgraduate internship, licensed medical technologists or certified public health microbiologists.
Impacted Programs

The biology and microbiology majors are impacted programs. Students must enter the University under the biology premajor code (04010) or the microbiology premajor code (04110). To be admitted to the biology or microbiology major, students must meet the following criteria:

a. Complete with a grade of C or higher: Biology 201, 202, 215; Chemistry 200, 201, 231; and Mathematics 121 and 122. These courses cannot be taken for credit/no credit (Cr/NC).

b. Clear the competency requirement in writing. Refer to Graduation Requirements section of this catalog for details.

c. Have a cumulative GPA and SDSU GPA of 2.20 or higher; and
d. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Biology Major

With the B.A. Degree in Liberal Arts and Sciences
(Premajor Code: 04010) (Major Code: 04011)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” A total of 45 upper division units must be taken, of which 24 must be selected from the General Biology Degree Requirements and the list of courses acceptable for electives. No more than 48 units in biology courses can apply to the degree.

A minor is not required with this major.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Biology Major

With the B.S. Degree in Applied Arts and Sciences
(Premajor Code: 04010) (Major Code: 04011)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” A total of 36 upper division units must be selected from the General Biology Degree Requirements and the list of courses acceptable for electives. No more than 48 units in biology courses can apply to the degree.

A minor is not required with this major.

General Biology Degree Requirements

Preparation for the Major. Biology 201, 202, and 215; Chemistry 200, 201, and 231 or 232 and 232L; Mathematics 121 and 122; Physics 180A, 180B, 182A, 182B. (39 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units for the B.A. degree or 36 upper division units for the B.S. degree to include Biology 352, 354, 366, 366L, and Chemistry 365. Elective courses include all upper division biology courses numbered 350 and above, Oceanography 541, and all upper division chemistry courses (except Chemistry 499, 560A-560B). A minimum of two elective courses must be biology laboratory courses, at least one of which must be an organismal level course selected from Biology 350, 460, 462/462L, 472, 515, 520, 523, 524, 525, 526, and 533.

No transfer course will substitute for Biology 352, 354, 366, or 366L. Chemistry 365 or for the organismal level requirement without the specific approval of the department. All courses not included above must have specific approval of the department.

Time Limitation. All courses for the major must be completed within seven years of the granting of the undergraduate degree. Exceptions for individual courses must be approved by the department and be filed with the Office of the Registrar.

Emphasis in Cellular and Molecular Biology

Preparation for the Major. Biology 201, 202, and 215; Chemistry 200, 201, and 231 or 232 and 232L; Mathematics 121 and 122; Physics 180A, 180B, 182A, 182B. (39 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Biology 350, 352, 354, 366, 366L, 467, Chemistry 365 and 467L, and at least 11 units of electives selected from Biology and Chemistry 445 and/or 596 (maximum 3 units), Biology and/or Chemistry 499 (maximum 3 units), Biology 521, 521L, 549, 550, 551, 551L, 552, 554, 555, 556, 557, 563, 565, 569, 570, 575, 580, 584, 485 or 585, 590, 594, 595, and Chemistry 431. Approval of the Emphasis in Cellular and Molecular Biology adviser is required for credit in Biology and Chemistry 496, 499, and 596 and other courses not listed above to be included in the emphasis. This approval must be filed with the Office of Admissions and Records.

Other than Biology 352, 354, 366, 366L and Chemistry 365, only one course in this emphasis may be used for credit in another emphasis offered by the department.

No transfer course will substitute for Biology 352, 354, 366, 366L, 467 or Chemistry 365 and 467L without the approval of the Emphasis in Cellular and Molecular Biology adviser.

Time Limitation. All courses for the major must be completed within seven years of the granting of the undergraduate degree. Exceptions for individual courses must be approved by the department adviser and be filed with the Office of the Registrar.

Emphasis in Ecology

Preparation for the Major. Biology 201, 202, and 215; Chemistry 200, 201, and 231 or 232 and 232L; Mathematics 121 and 122; Physics 180A, 180B, 182A, 182B. A computer programming course (e.g. Computer Science 106 or 107) is recommended. (39 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Biology 352, 354, 354L, 366, 366L, Chemistry 365, and at least 15 units of electives selected from Biology 496 and/or 596 (maximum 3 units), 499 (maximum 3 units), 507 (maximum 6 units), 472 or 526 or 533, 508, 509, 512, 517, 519, 527, 538, 540, 541, 560, 563, 597A. At least one of the above electives must be a laboratory course. The remaining units must include an organismal level course selected from Biology 460, 462 and 462L, 472, 515, 520, 523, 524, 525, 526, and 533. Other electives include all biology courses numbered 350 and above (except Biology 452), Oceanography 541, and all upper division chemistry courses (except Chemistry 499, 560A-560B). Approval of the Emphasis in Ecology adviser is required for credit in Biology 496, 499, 507, 596, and other courses not listed above to be included in the 15 units of ecology electives. This approval must be filed with the Office of the Registrar.

Other than Biology 352, 354, 366, 366L, and Chemistry 365, only one course in this emphasis may be used for credit in another emphasis offered by the department.

No transfer course will substitute for Biology 352, 354, 366, 366L, or Chemistry 365 without the approval of the Emphasis in Ecology adviser.
Time Limitation. All courses for the major must be completed within seven years of the granting of the undergraduate degree. Exceptions for individual courses must be approved by the department adviser and be filed with the Office of the Registrar.

Emphasis in Evolution and Systematics

Preparation for the Major. Biology 201, 202, and 215; Chemistry 200, 201, and 231 or 232 and 232L; Mathematics 121 and 122; Physics 180A, 180B, 182A, 182B. (39 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Biology 352, 354, 366, 366L, Chemistry 365, and at least 12 units of electives selected from Biology 496 and/or 596 (maximum 3 units), 499 (maximum 3 units), 460, 462, 462L, 472, 508, 512, 515, 520, 521, 521L, 523, 524, 525, 526, 529, 530, and 531. Two of the above electives must be laboratory courses, one of which must be an organizational level course selected from Biology 462/462L, 472, 515, 520, 523, 524, 525, 526. Other electives include all biology courses numbered 350 and above (except Biology 452), Oceanography 541, and all upper division chemistry courses (except Chemistry 499, 560A-560B). Approval of the Emphasis in Evolution and Systematics adviser is required for credit in Biology 496, 499, 507, 596, and other courses not listed above to be included in the 12 units of evolution and systematics electives. This approval must be filed with the Office of the Registrar.

Other than Biology 352, 354, 366, 366L, and Chemistry 365, only one course in this emphasis may be used for credit in another emphasis offered by the department.

No transfer course will substitute for Biology 352, 354, 366, 366L, or Chemistry 365 without the approval of the Emphasis in Evolution and Systematics adviser.

Time Limitation. All courses for the major must be completed within seven years of the granting of the undergraduate degree. Exceptions for individual courses must be approved by the department adviser and be filed with the Office of the Registrar.

Emphasis in Marine Biology

Preparation for the Major. Biology 201, 202, and 215; Chemistry 200, 201, and 231 or 232 and 232L; Mathematics 121 and 122; Physics 180A, 180B, 182A, 182B. (39 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Biology 352, 354, 366, 366L, Chemistry 365, and at least 15 units of electives selected from Biology 496 and/or 596 (maximum 3 units), 499 (maximum 3 units), 507, 512, 513, 515, 517, 519, 520, 541, and Oceanography 541. At least two of the above electives must be laboratory courses, at least one of which must be one of the organismal courses Biology 515 or 520. The remaining units must be selected from biology courses numbered 350 and above (except Biology 452), Oceanography 541, and all upper division chemistry courses (except Chemistry 499, 560A-560B). Approval of the Emphasis in Marine Biology adviser is required for credit in Biology 496, 499, 507, 596, and other courses not listed above to be included in the 15 units of marine biology electives. This approval must be filed with the Office of the Registrar.

Other than Biology 352, 354, 366, 366L, and Chemistry 365, only one course in this emphasis may be used for credit in another emphasis offered by the department.

No transfer course will substitute for Biology 352, 354, 366, 366L, or Chemistry 365 without the approval of the Emphasis in Marine Biology adviser.

Time Limitation. All courses for the major must be completed within seven years of the granting of the undergraduate degree. Exceptions for individual courses must be approved by the department adviser and be filed with the Office of the Registrar.

Microbiology Major

With the B.A. Degree in Liberal Arts and Sciences (Premajor Code: 04110) (Major Code: 04111)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in biology courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major. Biology 201, 202, and 215; Chemistry 200, 201 and 231 or 232 and 232L; Mathematics 121 and 122; Physics 180A, 180B, 182A, 182B. (39 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. It is recommended that students select French, German or Russian to satisfy this requirement. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 26 upper division units to include Biology 350, 352, 354, 366, 366L, 521L, 549, Chemistry 365 and 467L. No transfer course will substitute for Biology 352, 354, 366, 366L, or Chemistry 365, 467L without the specific approval of the Microbiology adviser.

All courses not included above must have the prior approval of the Microbiology adviser and be filed with the Office of the Registrar.

Time Limitation. All courses for the major must be completed within seven years of the granting of the undergraduate degree. Exceptions for individual courses must be approved by the department and be filed with the Office of the Registrar.
Microbiology Major
With the B.S. Degree in Applied Arts and Sciences
(Premajor Code: 04110) (Major Code: 04111)
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."
A minor is not required with this major.
Preparation for the Major. Biology 201, 202, and 215; Chemistry 200, 201, and 231 or 232 and 232L; Mathematics 121 and 122; Physics 180A, 180B, 182A, 182B. (39 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.
Major. A minimum of 36 upper division units to include Biology 350, 352, 354, 366, 366L, 467, 521 or 584, 521L, 549, Chemistry 365, and at least four units of electives selected from Biology and Chemistry 496 and 596 (maximum 3 units), Biology and Chemistry 499 (maximum 3 units), Biology 521, 550, 551, 551L, 552, 554, 555, 556, 557, 569, 580, 584, 485 or 585, 590, 595, Chemistry 431. Approval of the Microbiology adviser is required for credit in Biology 496, 499, 596, and other courses not listed above to be included in the electives. This approval must be filed with the Office of the Registrar.
No transfer course will substitute for Biology 352, 354, 366, 366L, 467 or Chemistry 365 and 467L without the approval of the Microbiology adviser.

Time Limitation. All courses for the major must be completed within seven years of the granting of the undergraduate degree. Exceptions for individual courses must be approved by the department and be filed with the Office of the Registrar.

Emphasis in Medical Technology and Public Health Microbiology
The emphasis in medical technology and public health is a program of required and elective courses which prepares students for the Public Health Microbiologist and Clinical Laboratory Technologist academic certification and licensing examinations.
Preparation for the Major. Biology 201, 202, and 215; Chemistry 200, 201, and 231 or 232 and 232L; Mathematics 121 and 122; Physics 180A, 180B, 182A, 182B. (39 units)
Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved courses with a grade of C (2.0) or better.
Major. A minimum of 36 upper division units to include Biology 350, 352, 354, 366, 366L, 485 or 585, 521L, 549, 584, Chemistry 365. The remaining units to be selected from Biology 521, 551, 551L, 554, 555, 556, 557, 569, 580, 584, 485 or 585, 590, 595, Chemistry 431. Approval of the Microbiology adviser is required for credit in Biology 496, 499, 596, and other courses not listed above to be included in the electives. This approval must be filed with the Office of the Registrar.
No transfer course will substitute for Biology 352, 354, 366, 366L, or Chemistry 365 and 467L without the approval of the Microbiology adviser.

Time Limitation. All courses for the major must be completed within seven years of the granting of the undergraduate degree. Exceptions for individual courses must be approved by the department and be filed with the Office of the Registrar.

Biology Major
In preparation for the Single Subject Teaching Credential in Science/Biological Sciences
With the B.S. Degree in Applied Arts and Sciences
(Premajor Code: 04010) (Major Code: 04011)
Students applying to the College of Education's graduate program for the Single Subject Teaching Credential in Science/Biological Sciences must be certified by this department for subject matter competency. This certification requires earning a B or better in Biology 452 and either (1) passing the required examinations (PRAXIS and SSAT), or (2) completing the subject matter preparation program described below.
Certification through the accomplishment of appropriate coursework requires (1) completion of the courses described under the General Biology Degree Requirements, B.S. degree (preparation for the major and major) including the following electives in the major: Biology 436, 452, 460 or 533, 560 or 590, Oceanography 541, and at least one course from Biology 462 and 462L, 472, 515, 520, 523, 524, 525, or 526 (it is recommended that Biology 499 and Chemistry 467L be included if the major is being sought); (2) earning a B or better in Biology 452, (3) completing Astrology 101, Geological Sciences 100 and 101. The Department of Biology credential adviser (LS-135) must be consulted for certification.
Please refer to the Teacher Education section of this catalog for other requirements and prerequisites for the credential program.
Time Limitation. All courses for the major must be completed within seven years of the granting of the undergraduate degree. Exceptions for individual courses must be approved by the department and be filed with the Office of the Registrar.
All courses not included above must have the prior approval of the Department and the substitution filed with the Office of the Registrar.

Biology Minor
Biology 100 and 100L or 202 are prerequisites to the biology minor and do not count towards the units in the minor; some areas include additional prerequisites not counted towards the minor.
The minor in biology consists of a minimum of 16-22 units to include Biology 201 and at least 12 units of upper division courses selected from one of the areas below. At least one of the selected courses must be a biology laboratory course numbered 350 or above. A maximum of three units of Biology 499 may be included in the minor with prior approval of the department. For courses requiring Biology 215 as a prerequisite, a college level course in statistics may be acceptable with the approval of the instructor.

Animal Behavior

Biology for Physiological Psychology
Required: Biology 321, 336, 436, 570. Electives: Biology 307 or 339. At least one college course in chemistry is strongly recommended to complement this minor. (16 units)

Cell Biology and Genetics
Prerequisites: Chemistry 200, 201, 231, 365. Electives: Biology 350, 352, 366L, 467, 521L, 549, 563, and 590. (16 units)

Ecology

Elementary Education
Required: Biology 315, 336, 436, at least two units of Biology 499, and a minimum of two units of electives selected from any upper division biology course. A college level course in chemistry is strongly recommended to complement this minor. (16 units)

Evolutionary Biology
Required: Biology 319 or 352 or 509, and an additional nine units of upper division biology courses selected with the approval of the adviser. Electives: Biology 319, 352, 462/462L, 509, 509, 526. (16 units)

Human Biology
Required: Biology 336 and a course in college chemistry, or Biology 261 or 590. Electives: Biology 212, 307, 321, 326, 352, 577, and 590. (16 units)

Biology
Recombinant DNA Technology Certificate

Matriculated students must apply for admission to the program before completion of 15 certificate units and must complete all prerequisite and required courses with a GPA of 2.5 or better and Biology 551 and 551L with grades of B or better.

The certificate requires 19 prerequisite units – Biology 350, 366, 366L, 467, Chemistry 365, 467L, and 16 certificate units – Biology 498 or 499 (5 units as approved by the certificate adviser), 551, 551L, and two electives selected from Biology 549, 569, or 585. Biology 551 and 551L must be taken at San Diego State University, either in residence or through Open University. Prerequisite and certificate courses may be utilized in the biology, chemistry, and microbiology majors and minors as appropriate.

Courses in the certificate may not be counted toward the minor.

Courses (BIOL)

LOWER DIVISION COURSES

100. General Biology (3) I, II

Prerequisite recommended: Concurrent registration in Biology 100L.

A beginning course in biology stressing processes common to living organisms. Not open to biological sciences majors; see Biology 201, 202.

100L. General Biology Laboratory (1) I, II

Three hours of laboratory.

Prerequisite: Credit or concurrent registration in Biology 100.

A laboratory course in biology stressing processes common to living organisms. Not open to biological sciences majors; see Biology 201, 202.

101. World of Animals (3)

Animal adaptation and diversity and their relationship to the development of evolutionary theory. Not open to biological sciences majors.

101L. World of Animals Laboratory (1)

Three hours of laboratory.

Prerequisite: Credit or concurrent registration in Biology 101.

A laboratory course in biology stressing processes common to living organisms. Not open to biological sciences majors; see Biology 201, 202.

200. Concepts in Biology (3) I

Two lectures and one hour of discussion.

Prerequisite: First semester freshman standing.

Concepts and emphases of modern biology to include nature and methods of science, relationship between structure and function, homeostasis, genetic continuity, evolution, systematics and ecology. Designed for and enrollment limited to first semester freshmen whose preparation for the major includes Biology 201. Students with credit in Biology 200 and 201 will receive a total of four units toward a degree.

201. Principles of Organismal Biology (4) I, II

Three lectures and three hours of laboratory.

Prerequisite: Satisfaction of the English Placement Test requirement.

Principles of biology covering all organisms, including systematics and diversity of bacteria, protista, fungi, plants and animals, and concepts of physiology, reproduction, development and differentiation, ecology, and the causes of the endangerment of a species.

202. Principles of Cell and Molecular Biology (4) I, II

Three lectures and three hours of laboratory.

Prerequisite: Chemistry 200.

Principles of biology applying to all organisms, including cell structure, membrane transport, energy metabolism, cell division, classical and molecular genetics, recombinant DNA, population genetics, mechanisms of evolution, and the basis of classification.

210. Fundamentals of Microbiology (4) I, II

Two lectures and six hours of laboratory.

Prerequisites: Biology 202; or Biology 100, Chemistry 100 and 130.

For nursing and foods and nutrition majors. Study of microorganisms of the environment, including disease-producing organisms, their actions and reactions. Not open to biological sciences majors; see Biology 350.

212. Human Anatomy (4) I, II

Two lectures and six hours of laboratory.

Prerequisite: Biology 200 or 202.

Gross and microscopic anatomy of organ system of human body.

215. Biostatistics (3) I, II

Two lectures and three hours of laboratory.

Prerequisites: Biology 201 and credit or concurrent registration in Mathematics 121 or 141.

Methods and experience in defining and solving quantitative problems in biology, including design of experiments, and parametric and nonparametric statistical techniques. Students with credit or concurrent registration in the following lower division courses will be awarded a total of four units for the two (or more) courses: Biology 215; Civil Engineering 160; Economics 201; Political Science 201; Psychology 270; Sociology 201; Statistics 119, 250. Same course as Biology 216-216L.

224. Marine Topics at Sea World (1) (Offered only in Extension)

Prerequisite: College course in biology.

Marine topics of current interest. May be repeated with different topic and consent of instructor for maximum credit four units. See Extension catalog for specific content.

246. Colloquium in Biomedical Sciences (1) II

Prerequisite: University level biology course.

Current biomedical research projects ranging from cell biology to behavioral research. Research paper required. Maximum credit two units.

247. Advanced Degree Programs in the Sciences: Application Strategies (1)

Prerequisite: Junior or senior standing.

Instruction in preparing competitive applications to sciences’ M.S. and Ph.D. degree programs to include development of the required personal statement. Introduction to sources of financial support, such as national fellowship programs, and development of interview skills and materials. Maximum credit one unit for any combination of Biology 247, 248, 249, 250A-250B-250C.

248. Careers in Biological Sciences (1) Cr/NC

Career opportunities in biological sciences. Specialists in major biological areas will present information about their fields and how best to prepare for careers. Maximum credit one unit for any combination of Biology 247, 248, 249, 250A-250B-250C.
249. Career Choices in the Health Professions (1)
Career opportunities in allied health professions; trends in health care; discussion of medical ethics; practicing professionals will present about their fields and how best to prepare for careers in their area of health care. Maximum credit one unit for any combination of Biology 247, 248, 249, 250A-250B-250C.

250. Preprofessional Topics (1) Cr/NC
A. Topics in Medicine.
B. Topics in Dentistry.
C. Topics in Veterinary Medicine.
Designed to expose the preprofessional student to the profession of his/her choice through speakers and selected readings. Emphasis on alternatives and meeting stresses as a preprofessional student. Maximum credit one unit for any combination of Biology 247, 248, 249, 250A-250B-250C.

252. Biomedical Research (2) Cr/NC
Prerequisites: Biology 200, Chemistry 105, and consent of instructor.
Current techniques used in DNA research and in scientific writing skills related to laboratory experience.

261. Human Physiology (4) I, II
Three lectures and three hours of laboratory.
Prerequisites: Chemistry 100; Biology 100 or 202, 212; credit or concurrent registration in Chemistry 130.
Human function viewed from cellular through organ system levels of organization. Intended primarily for prenursing students. Not open to biological sciences majors or students with credit in Biology 336, 436, or 590.

277. Medical Terminology (2)
Prerequisite: Biology 201.
Words and word components used in medical and allied medical practice translated, investigated, and applied.

291. Biology Laboratory (1) I, II
Prerequisites: Recommendation by department and consent of instructor.
Special course to allow makeup of program laboratory deficiencies. Student will be assigned to a laboratory section of the appropriate course.
A. Laboratory for Biology 201.
B. Laboratory for Biology 202.
C. Laboratory for Biology 215.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

299. Special Study (1-2)
Individual research experience and interaction with researchers at an introductory level. Projects involve approximately 45 hours of laboratory or fieldwork per unit and a research report. Hours are flexible and arranged between the student and the researcher. Maximum credit four units.

UPPER DIVISION COURSES (Intended for Undergraduates)
Writing Requirements: Completion of the English Placement Test and Writing Competency requirements is a prerequisite for all upper division biology courses numbered 350 and above.

307. Biology of Sex (3) I, II, S
Prerequisite: Completion of the General Education requirement in Foundations II.A.2. Life Sciences. If a biological science course is not taken to satisfy General Education II.A.2. Life Sciences, a college course in biological science is required.
Reproductive adaptations in humans, and comparatively in other species. Topics include sex differences, mate choice and mating behavior, fertility regulation, fertilization and embryonic development, sex ratios, parental investment, effects of aging, and life history strategies. Not applicable to biological sciences majors.

315. Ecology and Human Impacts on the Environment (3)
Prerequisite: Completion of the General Education requirement in Foundations II.A. Natural Sciences and Quantitative Reasoning. If a biological science course is not taken to satisfy General Education II.A.2. Life Sciences, a college course in biological science is required.
Ecological characteristics of natural ecosystems and basic effects of human society upon those systems, emphasizing resource management, food production, global environmental problems, and future directions. Not applicable to biological sciences majors.

318. The Origins of Life (3)
Prerequisite: Completion of the General Education requirement in Foundations II.A. Natural Sciences and Quantitative Reasoning. A college level course in chemistry or physics. If a biological science course is not taken to satisfy General Education II.A.2. Life Sciences, a college course in biological science is required.
Theories of chemical evolution with emphasis on multidisciplinary aspects involving geology, geochemistry, cosmochemistry and molecular biology. Not applicable to biological sciences majors. (Formerly numbered Natural Science 431.)

319. Evolution (3)
Prerequisite: Completion of the General Education requirement in Foundations II.A.2. Life Sciences. If a biological sciences course is not taken to satisfy General Education II.A.2. Life Sciences, a college course in biological sciences is required.
Modern theory of organic evolution with emphasis on processes involved as they relate to past, present, and future evolution of mankind. Not applicable to biological sciences majors; see Biology 352.

321. Human Heredity (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.A.2. Life Sciences. If a biological sciences course is not taken to satisfy General Education II.A.2. Life Sciences, a college course in biological sciences is required.
Selected principles of human inheritance with emphasis on relationships to other fields of human studies. Not applicable to biology or microbiology majors; see Biology 352.

324. Life in the Sea (3)
Prerequisite: Completion of the General Education requirement in Foundations II.A.2. Life Sciences. If a biological sciences course is not taken to satisfy General Education II.A.2. Life Sciences, a college course in biological sciences is required.
Overview of complexity of marine life. Diverse interactions of organisms in the intertidal zone, over the continental shelves and in the open oceans. Current controversies concerning the marine biosphere. Not applicable to biological sciences majors.

326. Plants, Medicines, and Drugs (3)
Prerequisite: Completion of the General Education requirement in Foundations II.A.2. Life Sciences. If a biological sciences course is not taken to satisfy General Education II.A.2. Life Sciences, a college course in biological sciences is required.
Medicinal plants, toxic-poisonous plants, herbal medicines, psychoactive plants, preparation of medicines and mechanisms of action; current research results on medicinal plants and drugs used in diseases such as diabetes, cancer, and heart diseases. Not applicable to biological sciences majors.

327. Conservation of Wildlife (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.A.2. Life Sciences. If a biological sciences course is not taken to satisfy General Education II.A.2. Life Sciences, a college course in biological sciences is required.
Global ecosystems and their dynamics, with emphasis on sustainable human use and preservation and biodiversity. Not applicable to biological sciences majors.
336. Principles of Human Physiology  (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.A.2. Life Sciences. If a biological sciences course is not taken to satisfy General Education II.A.2. Life Sciences, a college course in biological sciences is required.

Systems of the human body, their interrelationships and control systems which regulate them. Not open to students with credit in a college course in human physiology. Not applicable to biological sciences majors.

339. Sociobiology  (3)
Prerequisites: Biology 100 or 101 or Anthropology 102 or Psychology 101, and completion of the General Education requirement in Foundations II.A.2. Life Sciences.

Biological bases of social behavior in animals with emphasis on altruism, aggression, territoriality, mating systems, mate choice, parental care, communication, cooperative hunting, and predator avoidance. Not applicable to biological sciences majors.

340A. Preventive Dentistry Program  (1-2) Cr/NC
Four hours of clinical and other activities per unit.
Prerequisites: Upper division standing and active predental file in the Preprofessional Health Advising Office.
Participation in clinic, dental observation, marketing activities and two field trips. Maximum credit four units. Not applicable to biological sciences majors.

340B. Preventive Dentistry Leaders  (2-4)
Four hours of activity per unit.
Prerequisites: Biology 340A and consent of instructor.
Supervision of one component of Preventive Dentistry Program. Maximum credit four units. Not applicable to biological sciences majors.

341. The Human Body  (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.A.2. Life Sciences.

Survey of human body with emphasis on intricacy of design and integration of various organ systems. Not open to nursing, exercise, exercise and nutritional sciences, or biological sciences majors, or to students with credit in any college level human physiology or anatomy course.

344. Advanced Human Anatomy  (2)
One lecture and three hours of laboratory.
Prerequisite: Biology 212 and consent of instructor.
Advanced topics in human anatomy with emphasis toward dissection of human cadavers. Dissection techniques, pathology, and special training in prospection.

348. Health Professions Internship  (1)
Prerequisites: 3.0 overall GPA, completion of lower division writing competency requirement, and consent of instructor.
Internship in a health care setting; term paper required. Maximum credit three units. Not applicable to biological sciences majors.

350. General Microbiology  (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Biology 201, 202, and 215; Chemistry 231.

Actions and reactions of microorganisms in response to their environment, both natural and as changed by other organisms, including man. Also includes an introduction to pathogens.

352. Genetics and Evolution  (3) I, II
Prerequisites: Biology 201, 202, and 215.
Principles of transmission genetics, population genetics, and evolution.

354. Ecology and the Environment  (3) I, II
Prerequisites: Biology 201, 215; and Mathematics 122.
Fundamental concepts in population, community, and ecosystem ecology.

354L. Experimental Ecology  (2)
One hour of discussion and three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 354.

Methods of research in ecology; approaches to analysis of populations, communities, and ecosystems.

366. Biochemistry, Cell and Molecular Biology II  (4)
Prerequisite: Chemistry 365.
Concepts of modern integrated molecular biology, cell biology, and biochemistry.

366L. Biochemistry, Cell and Molecular Biology Laboratory I  (2)
Six hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 366.
Basic laboratory approaches in biochemistry, cell biology, and molecular biology. (Formerly numbered Biology 365L.)

438. Human Physiology Laboratory  (2)
One lecture and three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 336 or 590.
Human physiology and rationale of current week's laboratory and experimental outcomes of previous week's laboratory. Not open to students with credit in Biology 261.

440. Laboratory Techniques in Molecular Genetics  (3)
Prerequisites: Biology 350 or 366L and consent of instructor. Recommended: Biology 549.
Laboratory methods in molecular genetics; experimental design, basic approaches to research problems in molecular genetics; students design and carry out projects under direction of instructor. Maximum combined credit six units for Biology 440 and 499.

450. Development of Modern Biology  (3)
Prerequisites: Biology 201 and 202.
History of development of modern biology stressing integration, organizing and understanding of modern topics or evolution genetics and developmental biology.

452. Science Concept Development and Integration  (3)
Two lectures and three hours of activity.
Prerequisite: Senior standing, or participation in the science single subject credential program.
Development and integration of biological science content knowledge, introduction to learning theory, and transformation of knowledge. Designed for students preparing for the single subject teaching credential in life sciences.

460. Economic Botany  (3)
Two lectures and three hours of laboratory.
Prerequisites: Biology 201 and 202.
Plants of agricultural, economic, and historical importance. Topics include basic plant morphology, anatomy, and taxonomy, plant genetics, agricultural breeding and propagation techniques, vegetables and fruits, spices and herbs, beverage plants, woods and plant fibers.

461. Underwater Research Methods and Techniques  (3)
Two lectures and three hours of laboratory.
Prerequisites: Biology 201 and Exercise and Nutritional Sciences 323 or Oceanography 306, and three upper division units in biology, Advanced Openwater or Scientific Scuba Diving Certification, diving skills proficiency evaluation, acceptable openwater diving equipment, medical examination, approval for scuba diving and waiver for scuba diving.
Preparation for scientific research underwater; scientific methods, techniques, operations and specialized equipment; scientific diver training and certification requirements; diving procedures and regulations; diving equipment; diving physiology hyperbaric conditions, fitness, practical diving skills, safety and emergency procedures.

462. Entomology  (3)
Prerequisite: Biology 201. Strongly recommended: Completion of 3-6 upper division units in biology. Morphological and behavior adaptations, natural history, and overall importance of insects.
462L. Entomology Laboratory (1)
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 462.
External and internal structure of insects; insect classification.

465. Field Orientation in Environmental Health (1)
Forty hours of fieldwork.
Prerequisites: Biology 350 and consent of Environmental Health Adviser.
Five days accompanying environmental health specialists of the San Diego County Department of Health and Human Services on their field rounds.

467. Biochemistry, Cell and Molecular Biology III (4)
Prerequisite: Biology 366.
Advanced concepts of modern integrated cell biology, molecular biology and biochemistry.

472. Natural History of Vertebrates (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201. Recommended: Biology 352.
Evolution and natural history of vertebrates, especially species of Southern California including use of keys for identifying vertebrates and tools for studying vertebrates in the field and laboratory.

474. Histology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201. Recommended: Biology 212.
Descriptive microscopic anatomy of cells, tissues and organs of mammals with special emphasis on humans.

485. Principles of Immunology (3)
Prerequisites: Biology 202, Chemistry 365, credit or concurrent registration in Biology 366.
Basic areas of immunology to include inflammation, generation of immune response, antibody production, lymphocyte development and function, hypersensitivities and AIDS, major histocompatibility complex and cytokines. Designed to give a basic background in the immune system.

490. Undergraduate Honors Research (3)
Prerequisites: Upper division standing with GPA of at least 3.20, four units of Biology 499, and approval of honors research program coordinator.
Experience in designing and carrying out independent research in a laboratory setting plus a written record of experimental design and results in the form of an honors research thesis to be presented at an undergraduate research forum and/or defended before a committee.
Does not satisfy laboratory requirement in major. Maximum credit six units.

496. Experimental Topics (1-4)
Selected topics. May be repeated once with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

498. Laboratory Experience in Modern Industrial Technology (1-5) Cr/NC I, II
Up to 20 hours per week in academic year, 40 hours per week in summer or winter sessions.
Prerequisites: Fifteen upper division units in biological sciences with grades of A or B and consent of instructor.
Practical laboratory experience in local industrial or SDSU campus laboratories emphasizing current technology. Maximum credit five units applicable to Recombinant DNA Technology certificate. Does not apply to biological sciences majors.

499. Special Study (1-3) I, II
Prerequisites: Upper division status in good standing and consent of instructor.
Individual research experience and interaction with researchers, on or off campus. Projects involve a total of approximately 45 hours of laboratory or fieldwork per unit and a research report. Hours are flexible and arranged between student and researcher. Maximum credit six units. Maximum six units applicable to the biology major for any combination of Biology 499, and Chemistry 499. Maximum three units applicable to the microbiology major for any combination of Biology 499 and Chemistry 499.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

Writing Requirements: Completion of the English Placement Test and Writing Competency requirements is a prerequisite for all upper division biology courses numbered 350 and above.

507. Topics in Ecology (2-4)
Two or three lectures and 0 to 6 hours of laboratory.
Prerequisite: Biology 354 and as may be indicated in the Class Schedule.
Treatment of particular advanced aspects of ecology not covered in regular courses, including insect ecology, intertidal ecology, and ecology of the Colorado River Delta. See Class Schedule for specific content. Maximum credit six units.

508. Coevolution (3)
Prerequisites: Biology 352 and 354.
Coevolution in interspecific interactions, like herbivory, predation, parasitism, competition, pollination, and mimicry.

509. Evolutionary Biology (3)
Two lectures and two hours of activity.
Prerequisite: Biology 352.
Evolutionary biology including genetics of populations, speciation, systematic biology, adaptation, role of development in evolution, evolution of behavior, and comparative biology. Evolutionary biology as the central organizing principle of biology.

512. Evolution and Ecology of Marine Mammals (3)
Two lectures and three hours of laboratory.
Prerequisites: Biology 352 and 354.
Biology of marine mammals to include pinniped, cetacean and sirenian evolution, diet and foraging strategies, social organization, reproductive strategies, echolocation, diving physiology, and conservation.

513. Marine Microbiology (2)
Prerequisites: Biology 350 or an introductory course in microbiology and consent of instructor.
Microbiological population of estuary and ocean waters; interrelationships with other organisms and the physical and chemical environment.

514. Marine Plant Biology (4)
Three lectures and three hours of laboratory.
Prerequisites: Biology 201 and six units of upper division coursework in the major.
Biology of algae and seagrasses, including identification, life histories, evolution, morphology, physiology, and ecology.

515. Marine Invertebrate Biology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Structure and function, ecology, behavior, physiology and phylectic relationships of marine invertebrate animals.

517. Marine Ecology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 354.
Ecological concepts as applied to pelagic and benthic marine organisms and their environment. Field and laboratory experience in oceanographic techniques, particularly the coastal environment.

518. Aquaculture (3)
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Principles and practices of the farming of aquatic organisms.
520. Ichthyology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Identification, systematics, evolution, structure, physiology, behavior and ecology of fishes.

521. Advanced General Microbiology (2)
Prerequisites: Biology 350 or an introductory course in microbiology and consent of instructor.
Taxonomy, comparative physiology and ecology of representative microorganisms found in various natural environments.

521L. Advanced Microbiology Laboratory (3)
One lecture and six hours of laboratory.
Prerequisites: Biology 350, 366, 366L, and credit or concurrent registration in Biology 521 or 584. Strongly recommended: Credit or concurrent registration in an upper division writing course.
Procedures and methods for isolation, characterization and identification of prokaryotes from soil, water and humans; includes both pathogenic and non-pathogenic prokaryotes.

522. Herpetology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201. Recommended: Biology 352.
Evolution, systematics, distribution, and ecology of amphibians and reptiles of the world.

524. Ornithology (4)
Two lectures, six hours of laboratory or field excursions, and a field project.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Study and identification of birds, especially those of the Pacific Coast and the San Diego region.

525. Mammalogy (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Evolution, systematics, distribution and ecology of mammals of the world.

526. Terrestrial Arthropod Biology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Biology 352 and completion of three to six upper division units in the major.
Structure, function, behavior, ecology, evolution, and relationships of major groups of terrestrial arthropods, including insects, arachnids, and myriapods. Identification and natural history of southern California diversity.

527. Animal Behavior (4)
Three lectures and three hours of laboratory.
Prerequisites: Biology 215; Biology 201 or Psychology 211 and 260 for psychology majors.
Biological bases of animal behavior with emphasis on the ethological approach, including the evolution and adaptive significance of behavior.

529. Molecular Methods in Ecology and Evolution (3)
Prerequisites: Biology 352 and Chemistry 365.
Molecular methods used in ecology and evolutionary biology with emphasis on types of questions addressed using such methods and data analysis.

530. Plant Systematics (4)
Two lectures and six hours of laboratory, field trips.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Plant description, identification, classification, and nomenclature with emphasis on evolutionary patterns, interdisciplinary data acquisition, and phylogenetic analysis.

531. Taxonomy of California Plants (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Fundamentals of plant taxonomy with emphasis on identification of plants native and naturalized to California. Plant collecting techniques. Field trips are required.

532. Plant Structure and Function (3)
Two lectures and three hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

535. Plant Ecology (4)
Three lectures and three hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Plant adaptation and response to living and non-living environment including aspects of plant evolution, demography, ecophysiology community and ecosystem dynamics and soil-plant relationships. Terrestrial systems emphasized.

538. Environmental Policy and Regulations (3)
Prerequisite: Biology 354.
Prerequisites: Biology 354.
Theory and practice of recombinant DNA techniques.
Prerequisites: Biology 350, 366, 366L, and credit or concurrent registration in Biology 467 or 549.

539. Microbial Genetics and Physiology (3)
Prerequisite: Biology 350 or 366.
Physiology of microbial growth, bacterial structure and function, genetics of bacteriophages and bacteria.

550. Eukaryotic and Prokaryotic Molecular Biology (4)
Prerequisites: Biology 352, 366, and Chemistry 365.

551. Recombinant DNA (3), I, II
Prerequisites: Biology 350, 366, 366L, Chemistry 365, and credit or concurrent registration in Biology 467 or 549.
Theory and practice of recombinant DNA techniques.

551L. Recombinant DNA Laboratory (2)
Six hours of laboratory.
Prerequisites: Biology 350, 366, 366L, Chemistry 365, and credit or concurrent registration in Biology 467 or 549.
A laboratory course in recombinant DNA techniques.
552. Advanced Cell and Molecular Biology Laboratory (3)
Nine hours of laboratory.
Prerequisite: Biology 366L. Credit in Chemistry 467L.
Laboratory experience for advanced undergraduates utilizing cell and molecular biological techniques. Independent research project guided by instructor.

554. Molecular Virology (3)
Prerequisites: Biology 366 and Chemistry 365. Credit or concurrent registration in Biology 467 or 549.
Molecular aspects of structure, genetics, and replication of viruses, virus-host interactions, pathogenesis of virus infections, diagnostic virology, and antiviral vaccines and drugs. Emphasis on human pathogens.

555. Principles of Electron Microscopy (1)
Prerequisites: Biology 201 and Physics 180B.
Principles of scanning and transmission electron microscopy including theoretical basis of sample preparation.

556. Scanning Electron Microscopy Laboratory (2)
Six hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 555.
Biological specimen preparation and operation of scanning electron microscope.

557. Transmission Electron Microscopy Laboratory (3)
One lecture and six hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 555.
Biological sample preparation and operation of transmission electron microscope.

560. Animal Physiology (3)
Prerequisites: Biology 201 and 202; Chemistry 365; Physics 180B, 182A, and 182B.
Physiology of vertebrate and invertebrate animals with emphasis on diversity of solutions to physiological problems and on functional integration of organ systems.

561. Radiation Biology (3)
Prerequisites: Biology 100 or 201 and 202; Physics 180B, 182A, and 182B. Recommended: Biology 366.
Principles underlying radiological reactions of ionizing radiations. Effects of ionizing radiations at the biochemical, cell, organ, and organism levels.

561L. Radiation Biology Laboratory (2)
Six hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 561.
The laboratory determination of the effects of ionizing radiation on biological systems.

563. Plant Physiology (3)
Prerequisites: Biology 201 and Chemistry 365.
Activities of plants, including photosynthesis, ion transport, translocation, water relations, growth and development.

565. Human Genetics (3)
Prerequisites: Biology 352 and Chemistry 365. Recommended: Credit or concurrent registration in Biology 366.
Pedigree analysis, gene mapping, cytogenetic and molecular analysis of inherited disease and genetically controlled phenomena in humans.

569. Molecular Pharmacology (3)
Prerequisite: Biology 366.
Molecular mechanisms of drug action emphasizing pharmacokinetics, drug-receptor theory, signal transduction, physiological effects of drugs on nervous cardiovascular and endocrine systems. Includes discussion of molecular approaches to rational drug design, development, and testing in the pharmaceutical industry.

570. Neurobiology (3)
Prerequisite: Biology 366 or 590 or Psychology 260.
Structure and function of the nervous system to include cellular and molecular mechanisms underlying neuronal excitability and synaptic function, nervous system development, cellular and systems analysis of sensory, motor and higher brain functions. Emphasis on experimental approaches.

575. Molecular Basis of Heart Disease (3)
Prerequisite: Biology 366 or 590.
Current literature on the molecular basis of disordered physiology leading to heart disease.

577. Embryology (4)
Two lectures and six hours of laboratory.
Prerequisites: Biology 201 and 202. Strongly recommended: Completion of three to six upper division units in the major.
Studies in comparative gametogenesis, morphogenesis, and reproductive physiology.

580. Cell Biology of the Blood (3)
Prerequisites: Biology 366, 366L. Chemistry 365. Recommended: Concurrent registration in Biology 467 and Chemistry 467L.
Basic processes of cell development, inflammation, acquired immune response, and regulation of these processes by cytokines.

584. Medical Microbiology (2)
Prerequisites: Biology 350 and Biology 356 or 366.
Discussion of major bacterial and viral pathogens; molecular mechanisms of pathogenesis, microbial toxins and antimicrobial agents; immune response to microbial infections; biochemical and molecular diagnostics.

585. Cellular and Molecular Immunology (3)
Prerequisites: Biology 366. Recommended: Credit or concurrent registration in Biology 467 and Chemistry 467L.
Cellular and molecular aspects of the immune response. Genetics of immunoglobulins, major histocompatibility complex, lymphocyte development and their manifestations on immune responsiveness, lymphokines immunopathologies including AIDS, and contemporary immunological techniques. Not open to students with credit in Biology 485.

588. Parasitology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201.
Study of animal parasites with special reference to those of humans. Laboratory including identification of important human parasites, and collection and preservation of local forms.

590. Physiology of Human Systems (4)
Three lectures and one hour of discussion.
Prerequisites: Chemistry 365, Physics 180B and 182B. Recommended: Biology 366.
Human physiology presented at both cellular and organ system levels; neurophysiology, muscle physiology, cardiovascular physiology and respiration, kidney function, hormone function and reproduction. For students majoring in a natural science or pre-professional studies.

592. Cell and Molecular Biology Laboratory (2)
Six hours of laboratory.
Prerequisite: Biology 350.
Laboratory course in advanced techniques in microbiology and cell and molecular biology.
594. Biotechnology Research Rounds  (2)
Prerequisites: Biology 366 and credit or concurrent registration in Biology 467.
Latest research methods in the biotechnology community. Speakers from local biotechnology companies and research institutes will discuss the power and limitations of current research methods being applied to develop new therapeutics. Evaluation of approaches, results, and utility of these technologies.

595. Computers in Biomedical Research  (3)
Prerequisite: Biology 366 or 590. Recommended: Computer Science 107.
Application of micro- and minicomputers to tasks encountered by biomedical scientists in research laboratories (data acquisition and reduction, experiment control) and by physicians in medical care delivery (noninvasive imaging, clinical laboratory automation, patient file processing).

596. Special Topics in Biology  (1-3)
Prerequisite: Consent of instructor.
Advanced selected topics in modern biology. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree. Additional units acceptable with the approval of the graduate adviser.

597A. Univariate Statistical Methods in Biology  (3)
Two lectures and three hours of laboratory.
Prerequisite: Biology 350 or 352 or 354 or 356 or 366.
Application of univariate statistical techniques in biological sciences.

598. Computational Biology  (3)
Prerequisites: Computer Science 205 and consent of instructor.
Methods for analysis of biological systems at all levels of scale from macromolecules to ecosystems. Topics include macromolecular sequence analysis to determine structure and function and study phylogenetic relationships. Imaging in two to four dimensions. Mathematical modeling in biological sciences.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Faculty
Faculty assigned to teach in Business Administration are drawn from departments in the College of Business Administration.

The Majors
For majors, minors, additional programs and courses in the College of Business Administration, see listings under Accountancy, Finance, Information and Decision Systems, Management, and Marketing.

The Imperial Valley Campus offers a major in Business Administration with an Emphasis in Agribusiness. For course requirements consult the Imperial Valley Campus Bulletin.

Impacted Program
All majors in the College of Business Administration are impacted. Students must apply to enter the University under the business administration premajor code (05011). Before enrolling in any upper division courses in business administration, students must advance to an upper division business major and obtain a business major code. To be admitted to an upper division business major (accounting, finance, financial services, real estate, information systems, management, or marketing), students must meet the following criteria:

a. Complete with a grade of C or higher: Accountancy 201 and 202; Finance 140; Information Decision Systems 180 and 290 (290 is not required for the accounting major); Economics 101 and 102; Mathematics 120 (or other approved calculus course); and either Statistics 119 or Economics 201. These courses cannot be taken for credit/no credit (Cr/NC);

b. Clear the competency requirements in mathematics and writing. Refer to Graduation Requirements section of this catalog for details;

c. Complete a minimum of 56 semester units;

d. Have a cumulative and SDSU GPA of 2.90;

e. Students who meet all requirements except the GPA may request to be placed on the waiting list. Students on the waiting list will be admitted on space-availability basis only. Contact the Business Advising Center (BA 448), 619-594-5828, for more information; and

f. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Business Administration Minor
The minor in business administration provides a general overview of business for non-business majors. While it is open to qualified students from all majors (except majors in the College of Business Administration, Hospitality and Tourism Management, or International Business), it is particularly recommended for students whose career plans include self-employment or small business management. The minor in business administration is administered by the Business Advising Center (BA 448), 619-594-5828.

“The greatest glory is not in never falling, but in rising every time we fall.”
— Confucius

Grades in the minor in business administration must be at least C- for the major code to be granted. Students desiring to graduate with a major and minor in business administration must complete the minor in a single academic year. Students must officially declare the minor before taking any upper division business courses. Students must meet the prerequisites for the minor in effect at the time that they declare the minor. The current prerequisites for admission to the business administration minor include completion of the following courses with a grade of C or better in each: Economics 101, 102 and a three unit course in statistics (Statistics 119 is recommended); completion of the SDSU lower division writing and mathematics competency requirements; completion of the General Education requirements in Communication and Critical Thinking; completion of an additional nine units in the department of the student’s major, including at least six units of upper division courses. Students must also meet the GPA requirement in effect at the time that they declare the minor. Contact the Business Advising Center (BA 448) for admissions criteria and procedures.

Courses (B A)

UPPER DIVISION COURSE

404. Small Business Administration (3)  
Prerequisites: Finance 323; Information and Decision Systems 301 or 302; Management 350; Marketing 370; and consent of instructor. Counseling of existing small businesses in conjunction with the Small Business Administration. Application of principles from all fields of business administration. Maximum credit six units.

GRADUATE COURSES  
Refer to Bulletin of the Graduate Division.
Accredited by the American Chemical Society.

Faculty
Emeritus: Abbott, Bennett, Coffey, Grubb, Hellberg, Isensee, Jensen, Jones, Joseph, Landis, Leibherz, Malik, Mathewson, O’Neal, Richardson, Ring, Spangler, Stewart, Walba, Woodson
Chair: Chatfield
Professors: Cobble, Dahms, Metzger, Roeder, Stumpf, Tong
Associate Professors: Chatfield, Cole, Grotjahn, Pullman, Smith
Assistant Professors: Bergdahl, Burkey, Cooksy, McAlpine, Sun

Offered by the Department
Doctor of Philosophy degree in chemistry.
Master of Arts degree in chemistry.
Master of Science degree in chemistry.

The Major

Through the study of chemistry students can better understand their environment and develop new materials that provide for a higher quality of life. Chemists are involved in a wide range of careers in research, development and the production of new goods. Basic chemical research provides society with discoveries of new substances and the means to predict their chemical and physical properties. In developmental chemistry, professionals find ways to put them to use. There are careers in methods of production to provide these materials to society in a cost-effective way. In each of these areas, there are subspecialties in analytical, biochemical, inorganic, organic, and physical chemistry.

The Department of Chemistry offers five degree programs leading to the Bachelor of Arts degree, the Bachelor of Science degree, the Master of Arts degree, the Master of Science degree, and the Doctor of Philosophy degree (with the University of California, San Diego).

There are several options available in the undergraduate program for those wishing either a major or a minor in chemistry. A chemistry major with the Bachelor of Science degree and certificate of the American Chemical Society is designed to qualify students for many types of positions as chemists and for admission to graduate study.

The chemistry major with the Bachelor of Arts degree and certificate of the American Chemical Society is specifically designed to prepare students for careers and graduate work requiring a strong chemistry background. With an appropriate choice of electives, graduates can meet the requirements for admission to medical, dental and pharmaceutical schools. A minor in biology is recommended.

The use of chemistry electives allows a student to focus on a particular area in chemistry such as analytical chemistry, biochemistry, chemical physics, inorganic chemistry, organic chemistry, or physical chemistry.

Chemistry Major

With the B.S. Degree in Applied Arts and Sciences
(Major Code: 19051)
and Certificate of the American Chemical Society

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

Preparation for the Major. Chemistry 200, 201, 231, 251; Mathematics 150, 151, 252; and Physics 195, 195L, 196, 196L, 197, 197L
(44 units) (Upon approval of chemistry adviser, the physics requirement may be satisfied by taking Physics 180A, 180B, 182A, 182B, and an additional approved chemistry or physics course.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Chemistry 410A-410B, 417, 431, 457, 520A-520B, 550, 560A, one unit of 498, and nine units of upper division electives in chemistry. Six of the nine units may be in related subjects with the approval of the department.

Emphasis in Biochemistry

Preparation for the Major. Chemistry 200, 201, 231, 251; Biology 201; Mathematics 150, 151, 252; Physics 195, 195L, 196, 196L, 197, and 197L
(48 units) (Upon approval of chemistry adviser, the physics requirement may be satisfied by taking Physics 180A, 180B, 182A, 182B, and an additional approved chemistry or physics course.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Chemistry 410A-410B, 417, 431, 457, 550, 560A-560B, 567; one unit of Chemistry 498; and 11 units selected from Chemistry 497, 498, 520A, 537, 551; Biology 350, 352, 549, 551, 551L, 561, 561L, 563, 569, 570, 585, 590, 595. The addition of Chemistry 417 and 520A qualifies this program for ACS certification.

Chemistry Major

With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 19051)
and Certificate of the American Chemical Society

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in chemistry courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major. Chemistry 200, 201, 231, 251; Mathematics 150, 151, 252; and Physics 195, 195L, 196, 196L, 197, 197L
(44 units) (Upon approval of chemistry adviser, the physics requirement may be satisfied by taking Physics 180A, 180B, 182A, 182B, and an additional approved chemistry or physics course.)
**Chemistry**

**Foreign Language Requirement.** Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of this catalog on “Graduation Requirements.”

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

† Students eligible to take Mathematics 150 in their first semester should do so and substitute for Mathematics 141 three units of general electives.
Chemistry Major
With the B.A. Degree in Liberal Arts and Sciences (Major Code: 19051)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in chemistry courses can apply to the degree.

Preparation for the Major. Chemistry 200, 201, 231; Biology 201, 202; Mathematics 141, 150, 151, 252; and Physics 195, 195L, 196, 196L, 197, 197L. (50 units) (Upon approval, the physics requirement may be satisfied by taking Physics 180A, 180B, 182A, 182B, and an additional approved chemistry or physics course.)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of this catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in chemistry to include Chemistry 410A-410B, 417, 431, 457, 550, and seven units of electives in chemistry. Chemistry 560A-560B is recommended for all premed students.

Minor. A minor in biology is expected for preprofessional students.

Chemistry Major (Teaching Credential Only)
In preparation for the Single Subject Teaching Credential in Science/Chemistry
With the B.S. Degree in Applied Arts and Sciences (Major Code: 19051)

One of the requirements for acceptance into the College of Education's postbaccalaureate credential program is to either pass the appropriate PRAXIS and SSAT examinations or complete an approved academic program. The single subject teaching credential in science preparation program described below satisfies the academic requirements for a student planning to teach integrated science and chemistry at the secondary level. Entrance into the post-baccalaureate credentialing program in part requires certification of subject matter competency by this department. This certification requires completion of the academic program with the required grades, submission of a satisfactory portfolio, and the recommendation of the department. Contact the subject matter preparation program adviser with input from the senior project supervisor, the Department of Chemistry chair, and the student's upper division laboratory instructors.

General Education Requirements. Students will complete a minimum of 49 units in General Education to include a minimum of nine upper division units. No more than 12 units may be used for General Education credit from any one department or academic unit. No more than 7 units from one department can be used in Sections II, III, and IV combined (Foundations, American Institutions, and Explorations).

I. Communication and Critical Thinking (9 units)
You may not use Credit/No Credit grades in this section.

1. Oral Communication (3 units) to be satisfied by Africana Studies 140, Chicana and Chicano Studies 111A, or Communication 103.
2. Composition (3 units) to be satisfied by Africana Studies 120, Chicana and Chicano Studies 111B, or Rhetoric and Writing Studies 100.
3. Intermediate Composition and Critical Thinking (3 units) to be satisfied by Africana Studies 200 or Rhetoric and Writing Studies 200.

II. Foundations (28 units)
A. Natural Sciences and Quantitative Reasoning (13 units):
   1. Physical Sciences (6 units) to be satisfied by Chemistry 200 and Physics 180A or 195.

2-3. Life Sciences and Laboratory (4 units) to be satisfied by Biology 201.
4. Mathematics/Quantitative Reasoning (3 units) to be satisfied by Mathematics 150.
B. Social and Behavioral Sciences (6 units).
C. Humanities (9 units):
   Complete a course in each of the following four areas (1. Literature; 2. Art, Classics, Humanities, Music, and Theatre; 3. Philosophy and Religious Studies; 4. Foreign Language) in the Humanities section of the Foundations component of the regular General Education program. Refer to General Education course offerings in the Graduation Requirements section of the catalog. One semester of a foreign language is recommended.

III. American Institutions
Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

IV. Explorations (9 units)
A. Upper division Social and Behavioral Sciences (3 units). Linguistics 420 is recommended.
B. Upper division Humanities to be satisfied by History 441 (3 units).
C. Upper division Humanities (3 units). A course in cultural diversity is required. Refer to Part C of Explorations under the General Education requirements section in the catalog.

Preparation for the Major. Africana Studies 140, Chicana and Chicano Studies 111A, or Communication 103; Africana Studies 120, Chicana and Chicano Studies 111B, or Rhetoric and Writing Studies 100; Africana Studies 200 or Rhetoric and Writing Studies 200; Astronomy 101, 109; Biology 201, 202; Chemistry 200, 201, 231, 251; Geological Sciences 100, 101; Mathematics 150, 151; Physics 180A, 180B, 182A, 182B and Mathematics 252 OR Physics 195, 195L, 196, 196L, 197, 197L. (65 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 26 upper division units to include Chemistry 410A, 410B, 417, 431, 457, 498 (1-3 units), 520A, 550, 560A, 571; Oceanography 541. The remaining four to six units must be selected from Chemistry 497, 499 (with approval of department), 520B, 560B, 567, 596, and Physics 311. This major does not qualify for ACS certification.

Additional Requirements for Subject Matter Preparation Certification

Satisfactory Grades. At most one course with a C- or lower among the courses listed under Preparation for the Major, and at most one course with a C- or lower among the courses listed under Major. If a course is repeated, the highest grade will count.

Formative Assessment. Completion of a satisfactory, preliminary portfolio two semesters prior to graduation. Contact the subject matter preparation adviser for information.

Summative Assessment. Completion of a satisfactory, final portfolio, and a positive recommendation from a committee consisting of the senior project supervisor, the Department of Chemistry chair, and the subject matter preparation program adviser with input from the student’s upper division laboratory instructors.

Chemical Physics Major
With the B.S. Degree in Applied Arts and Sciences (Major Code: 19081)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” Individual master plans for each student are filed with the chemistry and physics undergraduate advisers and the Office of the Registrar.

A minor is not required with this major.

Preparation for the Major. Chemistry 200, 201, 231, 251; Mathematics 150, 151, and 252; Physics 195, 195L, 196, 196L, 197, 197L. (44 units)
Chemistry Minor

The following courses are prerequisite to the chemistry minor and do not count toward the 15 units required for the minor: Chemistry 200, 201. (10 units.) The minor in chemistry consists of 15 units in chemistry to include Chemistry 231 and 251; and six units of upper division electives. The minor in chemistry consists of 15 units in chemistry to include Chemistry 410A-410B, 431, 457, 520A, 550; Physics 311, 340A, 340B, 350, 354, 357, 400A-400B, 410.

Courses (CHEM)

LOWER DIVISION COURSES

100. Introduction to General Chemistry with Laboratory (4) I, II
Three lectures and three hours of laboratory.
Elementary principles of chemistry used to illustrate nature and development of modern scientific thought. Not open to students with credit in Chemistry 105 or 200.

105. Preparation for General Chemistry (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Elementary algebra. Algebra test will be given in first week of class. Students who do not earn a passing grade will be required to drop the course.
Elemental principles of chemistry approached from problem-solving perspective necessary for success in Chemistry 200. Not open to students with credit in Chemistry 100 or 200.

130. Elementary Organic Chemistry (3) I, II
Prerequisite: Chemistry 100, 105, or 200.
Introduction to compounds of carbon including both aliphatic and aromatic substances. Not open to students with credit in Chemistry 230, 231, or 232.

160. Introductory Biochemistry (3) I, II
Prerequisite: Chemistry 130.
Fundamental principles of the chemistry of living processes. This course intended primarily for majors in nursing, nutrition, and related fields.

200. General Chemistry (5) I, II (CAN CHEM 2)
(200 + 201: CAN CHEM SEQ A)
Three lectures and six hours of laboratory.
Prerequisites: High school chemistry or a grade of "C" or better in Chemistry 105, and two years of high school algebra.
General principles of chemistry with emphasis on inorganic materials. Students with credit for either Chemistry 100 or 105, and 200 will receive a total of five units of credit toward graduation.

201. General Chemistry (5) I, II (CAN CHEM 4)
(200 + 201: CAN CHEM SEQ A)
Three lectures and six hours of laboratory.
Prerequisite: Chemistry 200.
Continuation of Chemistry 200. General principles of chemistry with emphasis on inorganic materials and qualitative analysis.

231. Organic Chemistry (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Chemistry 201.
Properties and synthesis of organic compounds including reaction mechanisms. First half of a one-year course. Not open to students with credit in Chemistry 232 or 232L.

232. Organic Chemistry (3) I, II
Prerequisites: Chemistry 201 and consent of instructor.
Same course as Chemistry 231 without laboratory. Not open to students with credit in Chemistry 231.

232L. Organic Chemistry Laboratory (1) I, II
Three hours of laboratory.
Prerequisites: Chemistry 201 and consent of instructor.
Properties and synthesis of organic compounds including methods of separation and purification techniques. Same course as laboratory portion of Chemistry 231. Not open to students with credit in Chemistry 231.

251. Analytical Chemistry (5) I, II
Three lectures and six hours of laboratory.
Prerequisites: Chemistry 201 and credit or concurrent registration in Mathematics 122 or 150.
Introduction to the theory and practice of analytical chemistry including gravimetric, volumetric, and instrumental methods.

261. Physical Chemistry Laboratory (2) II
Six hours of laboratory.
Prerequisites: Chemistry 231 and 251; Mathematics 252; and credit or concurrent registration in Physics 197 and 197L. Chemistry 410A is prerequisite to 410B.
Theoretical principles of chemistry with emphasis on mathematical relations. Theory and practice in acquisition and statistical analysis of physical measurements on chemical systems.

299. Special Study (1-3)
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES

(Extended for Undergraduates)

361A-361B. Fundamentals of Biochemistry (3-3)
Prerequisites: Chemistry 231. Chemistry 361A or 365 is prerequisite to Chemistry 361B.
The chemistry of intermediary metabolism and its regulation. Not open to students with credit in Chemistry 560A-560B.

365. Biochemistry, Cell and Molecular Biology I (3)
Prerequisites: Biology 202 and Chemistry 231.
Basic concepts of modern integrated biochemistry, cell and molecular biology. Not applicable to chemistry major or minor. Not open to students with credit in Chemistry 361A or 560A.

371. Environmental Chemistry (3)
Prerequisites: One year of general chemistry and Chemistry 231 or 251.
Chemical principles of naturally occurring and polluted air, water, and soil environments.

410A-410B. Physical Chemistry (4-3) I, II
410A: Three lectures and three hours of laboratory.
410B: Three lectures.
Prerequisites: Chemistry 231 and 251; Mathematics 252; and credit or concurrent registration in Physics 197 and 197L. Chemistry 410A is prerequisite to 410B.
Theoretical principles of chemistry with emphasis on mathematical relations. Theory and practice in acquisition and statistical analysis of physical measurements on chemical systems.

417. Advanced Physical Chemistry Laboratory (2) II
Six hours of laboratory.
Prerequisites: Chemistry 410B, 457, and 550.
Experimental physical chemistry. Emphasis on interpretation and statistical evaluation of instrument-derived results, record keeping, report writing, and individual initiative in observing results.

431. Organic Chemistry (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Chemistry 231.
Continuation of Chemistry 231. Not open to students with credit in Chemistry 432 and 432L.

432. Organic Chemistry (3) I, II
Prerequisites: Chemistry 231 and consent of instructor.
Continuation of Chemistry 231. Same course as Chemistry 431 without laboratory. Not open to students with credit in Chemistry 431.
499. Special Study (1-4) I, II
on a problem. Maximum credit three units.

498. Senior Project (1-3) Cr/NC I, II

497. Undergraduate Research (1-3) Cr/NC I, II, S
Chemistry. Not applicable to chemistry major or minor. Not open to students with credit in Biology 592. (Formerly numbered 296.)

496. Selected Topics in Chemistry (1-4)
Prerequisite: Consent of instructor. Selected topics in modern chemistry. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

497. Undergraduate Research (1-3) Cr/NC I, II
Prerequisites: Chemistry 231 and 251.
Individual laboratory investigation. Maximum credit six units.

498. Senior Project (1-3) Cr/NC I, II
Prerequisite: Three one-year courses in chemistry. An individual literature and/or laboratory investigation and report on a problem. Maximum credit three units.

499. Special Study (1-4) I, II
Prerequisite: Consent of instructor. Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

510. Advanced Physical Chemistry (3)
Prerequisite: Chemistry 410B. Problems in chemical thermodynamics, statistical mechanics, chemical kinetics, quantum chemistry and molecular structure and spectroscopy, with applications.

515. Computational Chemistry (3)
Prerequisites: Chemistry 410A and 410B. Overview of modern computational chemistry. Use of computational chemistry tools and their application to problems of chemical interest.

520A-520B. Inorganic Chemistry (3-3) I, II
Prerequisite: Credit or concurrent registration in Chemistry 410A. Chemistry 520A is prerequisite to 520B.
Nature of chemical bond and an advanced systematic study of representative and transition elements and their compounds.

530. Physical Organic Chemistry (3)
Prerequisites: Chemistry 410A and 431. Recommended: Credit or concurrent registration in Chemistry 410B.
Electronic and physical properties of organic molecules; structure-reactivity correlations; Electronic structure of molecules (qualitative molecular orbital theory); stereochemistry; and linear free energy relationships.

537. Organic Qualitative Analysis (4)
Two lectures and six hours of laboratory. Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410A. Recommended: Chemistry 417 and 457.
Chemical, physical, and spectral methods discussed and employed to determine structure of organic compounds. Purification and separation techniques stressed.

550. Instrumental Methods of Chemical Analysis (2) I
Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410B; concurrent registration in Chemistry 550.
Application of instrumental methods of chemical separations and analysis frequently used in all subdisciplines of chemistry.

551. Advanced Analytical Chemistry (3) II
Prerequisite: Chemistry 550.

552. Chromatographic Separations (1)
Prerequisite: Chemistry 550.
Theory of chemical separations and solvent theory and their application to gas and liquid chromatographic media and capillary electrophoresis, emphasizing practiced methods of analysis.

553. Interpretation of Mass Spectra (1)
Prerequisite: Chemistry 550.
Methods of ionization used to produce mass spectra from atoms and molecules. Interpretation of electron impact mass spectra. Applications to modern methods of analysis of large organic molecules from gas, liquid, and capillary electrophoresis forms of chromatography.

560A-560B. General Biochemistry (3-3) I, II
Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410A.
The structure, function, metabolism, and thermodynamic relationships of chemical entities in living systems. Not open to students with credit in Chemistry 361A-361B.

567. Biochemistry Laboratory (3) I, II
One lecture and six hours of laboratory. Prerequisite: Chemistry 361A or 560A.
Theory and practice of procedures used in study of life at molecular level. Includes purification and characterization of enzymes, isolation of cell components, and use of radioactive tracer techniques.

571. Environmental Chemistry (3)
Prerequisites: Chemistry 231 and 251; consent of instructor for all other majors.
Fundamentals of chemistry applied to environmental problems. Chemistry of ecosystems; analysis of natural constituents and pollutants; sampling methods; transport of contaminants; regulations and public policy.

596. Advanced Special Topics in Chemistry (1-3)
Prerequisite: Consent of instructor.
Advanced selected topics in modern chemistry. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Chicana and Chicano Studies
In the College of Arts and Letters

Faculty
Chair: Griswold del Castillo
Professors: Griswold del Castillo, Hicks, Ortiz, Villarino
Associate Professors: Del Castillo, Rodriguez
Assistant Professors: de la Luz Ibarra, Iglesias Prieto, Nuñez, Ojeda

Offered by the Department
Major in Chicana and Chicano studies with the B.A. degree in liberal arts and sciences.
Minor in Chicana and Chicano studies.
Minor in United States-Mexican border studies.
Certificate in United States-Mexico border studies.

The Major
Recognized for its commitment to excellence in teaching, research and service, Chicana and Chicano studies provides timely, interdisciplinary education regarding the nation’s fast-growing ethnic group, the Chicano/Latino, and the interplay of culture, politics, economics and society in the dynamic U.S.-Mexican border region. The Department of Chicana and Chicano Studies also endeavors to contribute to the development of knowledge about the Chicano/Latino populations and the border region through original scholarship on the part of its faculty and students. The department recognizes women and gender based issues as integral to a Chicano studies program. In 1993, the department inaugurated the Magadalena Mora Award to be awarded to the winner of the outstanding history essay in Mexicana/Chicana women at the undergraduate level.

Chicana and Chicano studies majors may choose one of two areas: Humanities, which includes courses designed to increase the student’s awareness of the Chicano culture, as well as intellectual, aesthetic, literary, historical, ethical, and human values; and Social Science, including courses which analyze social institutions and how they affect the individual and also emphasize contemporary Mexican American issues as they relate to the larger society. Areas of study include political science, anthropology, economics, sociology, and history.

Bilingual/bicultural graduates are sought after more than ever before. A student with a major or minor in Chicana and Chicano studies has a good possibility of securing a position and advancing. Although employment opportunities in regular classroom teaching and other careers have remained fairly constant, the number of positions for bilingual/bicultural graduates has continued to increase.

Chicana and Chicano studies is an excellent major as preparation for postgraduate study in various professional schools. For example, students can continue their studies for advanced degrees in law, with positions specializing in minority or barrio problems; social work, as a medical or psychiatric social worker in a minority community; public administration; librarianship; and business administration, with careers in accounting, marketing, bank management, and insurance.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Chicana and Chicano Studies Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 22131)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in Chicana and Chicano studies courses may be used to apply to the degree.

A double major is strongly recommended for students majoring in Chicana and Chicano studies.

A minor is not required with this major.

Preparation for the Major.
Chicana and Chicano Studies 100 and 110. (6 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Students are encouraged to satisfy this language requirement in Spanish. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units to include Chicana and Chicano Studies 301 and 21 units selected from one area of specialization: (social sciences) Chicana and Chicano Studies 303, 306, 320, 340, 350A-350B, 355, 480, 498; or (humanities) Chicana and Chicano Studies 310, 314A, 314B, 335, 375, 376, 380, 396W, 396W, 400, 464; or (border studies) Chicana and Chicano Studies 306, 355, 375, 380, 498, Economics 565, History 551, Political Science 568. Up to six units, with appropriate content, can be applied to each area of specialization from Chicana and Chicano Studies 496, 499, and 596.

Chicana and Chicano Studies Minor

The minor in Chicana and Chicano studies consists of a minimum of 18 units in Chicana and Chicano studies to include Chicana and Chicano Studies 100, 110, and 12 units of upper division courses selected from one area of specialization (social sciences) Chicana and Chicano Studies 301, 303, 306, 320, 340, 350A-350B, 355, 480, 498; or (humanities) Chicana and Chicano Studies 310, 314A, 314B, 335, 375, 376, 380, 396W, 400, 464; or (border studies) Chicana and Chicano Studies 306, 355, 375, 380, 498, Economics 565, History 551, Political Science 568. Up to six units, with appropriate content, can be applied to each area of specialization from Chicana and Chicano Studies 496, 499, and 596.

Courses in the minor may not be counted toward the major, but may be used to satisfy requirement for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

United States-Mexican Border Studies Minor

The minor in United States-Mexican Border Studies consists of a minimum of 22 units, 12 units of which must be in upper division courses to include Chicana and Chicano Studies 355, Spanish 103, and six units selected from Chicana and Chicano Studies 306, 310, 375, 376, 380.
The following additional nine units must be taken to complete the minor:

- *International Economic/Business:* Three units selected from Economics 360, 365, 458, 565; Finance 329; Marketing 376.
- *Regional Geography/History and Politics/Society:* Six units selected from: Communication 591; Geography 323; History 549, 550, 551, 555; Political Science 481, 555, 568; Social Work 350; Sociology 335, 350, 355.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

**United States-Mexico Border Studies Certificate**

The United States-Mexico Border Studies Certificate program is an interdisciplinary program integrating border studies courses from academic units throughout the campus. The objective of the program is to train students from diverse academic backgrounds within a multidisciplinary border studies curriculum that provides direct experience in border institutions and policy issues in both the public and private sectors. The program requires 21 units and a level of Spanish proficiency, 3 on a scale of 5, as indicated on the Foreign Service Language Examination. Students must apply for admission to the program before the completion of nine certificate units and are required to plan their program with an adviser. Contact the Department of Chicana and Chicano Studies.

Required courses: Chicana and Chicano Studies 355 and three units of an internship, either Chicana and Chicano Studies 498 or an internship from the student’s major if it is carried out as a border-oriented internship.

Fifteen units selected from the following areas, at least three units from each area. In addition to the courses listed and with the approval of the adviser, students may take border-related courses from other areas, but no more than six units can be from a single department. Courses in the certificate may not be counted toward the minor.

- **Evolution of Social and Environmental Regions:** Chicana and Chicano Studies 375; Geography 496; History 551.
- **Political and Economic Systems:** Chicana and Chicano Studies 306; Economics 458, 496, 565; Political Science 568.
- **Cultural and Social Institutions:** Chicana and Chicano Studies 376; Education 451.
- **Special Problems/Human Services:** Chicana and Chicano Studies 496; Border Research Topics.

**Courses (CCS) LOWER DIVISION COURSES**

*(Unless otherwise noted, all Mexican American Studies courses are now listed as Chicana and Chicano Studies courses.)*

100. The Mexican American Heritage (3)

Cultural achievements and thought of Spanish speaking peoples of North America; development of aesthetic and ethical values. North American intellectual history and influence of philosophical orientations of native and Mestizo peoples. Implications for social change.

110. Introduction to Mexican American Studies (3)

Introduction to the culture and the civilization of the Mexican American. History; Mexican and US roots; the new identity. (Formerly numbered Mexican American Studies 110A.)

111A. Oral Communication (3)

Training in the process of oral (speech) expression: addressing the barrio; formal delivery.

Chicana and Chicano Studies 111A is equivalent to Communication 103. Not open to students with credit in Africana Studies 140 or Communication 103 or 204.

111B. Written Communication (3)

Prerequisites: Satisfaction of the English Placement Test and Writing Competency requirements. (See Graduation Requirements section of catalog.) Proof of completion of prerequisites required: Copy of scores or competency scores or verification of exemption; or proof of Cr in Rhetoric and Writing Studies 92A or 92B or 97A or 97B. Training for students from Mexican American backgrounds in the process of written expression. English grammar and composition; the essay, the term paper. Chicana and Chicano Studies 111B is equivalent to Rhetoric and Writing Studies 100. Not open to students with credit in Rhetoric and Writing Studies 100.上の部所属の無記号の数値100を含む。

120A-120B. The Mexican American Role in the American Political System (3-3)

Semester I: Relationship between the Mexican American community and the American political system. Semester II: The Mexican American in relation to his city, county, and state institutions in California. This year course satisfies the graduation requirement in American Institutions.

141A-141B. History of the United States (3-3)

Spanish, Mexican, and Chicanos influencias on US history. Semester I: Comparative development of US and Mexico to 1865. Semester II: Mexican Americans in US history; US and Mexican national histories compared from 1865 to the present. This year course satisfies the graduation requirement in American Institutions.

200. Intermediate Expository Research and Writing (3)

Especially designed for bilingual/bicultural students. Prerequisites: Satisfaction of the English Placement Test and Writing Competency requirements and Chicana and Chicano Studies 111B or Africana Studies 120 or Linguistics 100 or Rhetoric and Writing Studies 100 or 101. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript. Intermediate composition. Practice in reading, writing, and critical thinking using interdisciplinary sources. Research skills using primary and secondary sources. Argumentative writing skills. Not open to students with credit in Africana Studies 200, Linguistics 200, or Rhetoric and Writing Studies 200.

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

**UPPER DIVISION COURSES** *(Intended for Undergraduates)*

301. Political Economy of the Chicano People (3)

Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors. Recommended: Chicana and Chicano Studies 110.

Political and economic roots of the oppression and exploitation of the Chicano from historical, institutional and theoretical points of view. Parallels between the experience of the Chicano and other Hispanic groups.

303. Mexican American Community Studies (3)

Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors. Recommended: Chicana and Chicano Studies 110.

Mexican American communities from a comparative perspective. Systematic inquiry into methods and issues in community studies. Contemporary social, institutional, and political affairs.

306. Mexican Immigration (3)

Immigration from Mexico in the context of US immigration history and policies. Comparative study of political, economic, and cultural factors. Undocumented immigration and current US law.

310. Mexican and Chicano Music (3) I, II

Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities. Music of Mexico and the Southwest including folk dances appropriate for children and adults. Emphasis on the corrido, its history and development in Mexico and the US. Course will be taught bilingually.

The Major

Faculty
Emeritus: Cannon, Deutsch, Hewes, Milne, Ross, Somerville
Chair: Roberts
Professors: Balkwell, Roberts
Assistant Professors: Hokoda, Ritblatt
Lecturers: Booth, Mello

Offered by the Department
Master of Science degree in child development.
Major in child development with the B.S. degree in applied arts and sciences.
Minor in child development.
Certificate in family life education.

The Major

The interdisciplinary major in child development draws from many fields of study, including biology, psychology, and sociology, and prepares students for a variety of professional specialties. Graduates with competencies in this major find positions in preschools, day care centers, schools, hospitals, clinics, residential institutions, counseling centers, mental health centers, social services and public welfare agencies, family service agencies, family planning clinics, community programs, business and industry, and government agencies.

Field experience programs offer students supervised work in community agencies, children’s programs, and the Associated Students’ Campus Children’s Center. The department’s Child Study Center focuses on undergraduate and graduate training and research by operating a Campus Children’s Center in collaboration with SDSU’s Associated Students and San Diego City Schools. Special programs, such as Art and Music Experiences for Children and Moms Helping Kids domestic violence program, often extend service through the summer and allow for creative collaboration across disciplines and in the community. All children’s programs are mainstreamed and a wide range of special needs and at-risk populations are served by a full inclusion program.

The child development degree also provides a flexible curriculum base for continuation into graduate programs in child development or family relations in: marriage and family therapy; social work; psychology; law; or sociology. Also available are programs leading to the multiple subject and single subject teaching credentials, the community college teaching credential, and a specialist credential in either special education or early childhood education.

The child development minor is an important adjunct for students in areas such as anthropology, education, psychology, recreation, social work, and sociology.

Child Development Major
With the B.S. Degree in Applied Arts and Sciences (Major Code: 08231)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

Preparation for the Major.
Child and Family Development 135, 270, 270L (1 unit), 272, 275; Biology 100; Psychology 101; Sociology 101; Psychology 270 and 271, or Sociology 201. (25-26 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 38 upper division units to include Child and Family Development 335, 370, 371, 375, 537, 575, 590. Completion of an additional 16 units in one of the three specializations listed below.

Child Development Specialist: Child and Family Development 376A (1 unit), 377, 477, 570, 577, and three upper division units selected with approval of the program adviser.

Family Development Specialist: Child and Family Development 376C (1 unit), 536, 578, and nine units selected with the approval of the program adviser.

General Child and Family Development: Child and Family Development 376A, 376B, or 376C (1 unit), and 15 upper division units selected with the approval of the program adviser.

With appropriate work experience fulfills requirements for the Child Development Master Teacher Permit or Site Supervisor Permit in California; with completion of the B.S. degree and one program year of site supervisor experience fulfills requirements for the Child Development Program Director Permit. For complete information on Title 5 Regulations pertaining to California Child Development Permits write: California Commission on Teacher Credentialing, Certification, Assignment and Waivers Division, P. O. Box 944270, Sacramento, CA 94244-2700, (916) 445-7254 or the San Diego County Office of Education, Credentials Technician, 6401 Linda Vista Road, San Diego, CA 92111, (619) 292-3500.

Child Development Minor
The minor in child development consists of a minimum of 16 units to include Child and Family Development 270+, 270L (1 unit), and 12 units selected from Child and Family Development 370, 371, 375+, one unit selected from 376A+, 376B+, or 376C+; 377, 477, 537, 570+, 575, 577, 590, 597, 597L; Psychology 432+. No more than six of the 16 units may be in experiential courses.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Family Life Education Certificate
The purpose of this certificate program is to prepare students for careers in family life education. The program is designed for individuals working on degrees in child development and health science. It also provides a self-improvement opportunity for people seeking employment, promotion, or upward mobility on the job who are not enrolled in degree programs.

Awarding of the certificate requires completion of an approved pattern of five courses (15 units) with a grade of “C” or better in each of the courses to include Child and Family Development 135, 270+ or 371+ or Psychology 230+; Biology 307, Community Health Education...
Courses (CFD)

LOWER DIVISION COURSES

135. Principles of Family Development (3) I, II (CAN FCS 12)

Intimacy, compatibility, conflict, and communication in relationship formation and adjustment.

270. Principles of Child Development (3) I, II

Prerequisites: Psychology 101; concurrent registration in Child and Family Development 270L for one unit. Proof of completion of prerequisite required: Copy of transcript.

Child from conception through adolescence; emphasis on biological, cognitive, and psychosocial development.

270L. Principles of Child Development Laboratory (1-3) I, II

Three hours of laboratory for each unit.

Prerequisites: Psychology 101; credit or concurrent registration in Child and Family Development 270. Proof of completion of prerequisite required: Copy of transcript.

Multiple methods of observing and recording individual and group behavior of children. Observations required. May be repeated with consent of instructor. Maximum credit three units. (Formerly numbered Child and Family Development 271 [laboratory portion]).

272. Child, Family, Community (3)

Prerequisites: Child and Family Development 135, 270, 270L (one unit); Sociology 101. Proof of completion of prerequisites required: Copy of transcript.

Individual and family needs and the social institutions and agencies attempting to meet these needs. Social issues, service programs, program analyses, and program effectiveness emphasized. (Formerly numbered Child and Family Development 436.)

275. Developmentally Appropriate Practices (3)

Two lectures and two hours of activity.

Prerequisites: Child and Family Development 270, 270L (one unit).

Proof of completion of prerequisite required: Copy of transcript.

Design, implementation, and evaluation of developmentally appropriate practices for children and families.

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES

(Intended for Undergraduates)

335. Interaction in Families (3) I, II

Prerequisite: Completion of all lower division preparation for the major courses with a grade of C (2.0) or better. Proof of completion of prerequisite required: Copy of transcript.

Family interaction patterns throughout the life cycle in a multicultural society. Emphasis on theories, research findings, and family practices.

370. Research, Assessment, and Evaluation of Children and Families (3) I, II

Prerequisite: Completion of all lower division preparation for the major courses with a grade of C (2.0) or better. Proof of completion of prerequisites required: Copy of transcript.

Methods for measuring child, caregiver, and family behavior. Evaluation of reliability and validity. Includes research design, sampling techniques, data collection strategies, and values/ethics.

371. Human Development: Middle Childhood and Adolescence (3) I, II

Prerequisite: Completion of all lower division preparation for the major courses with a grade of C (2.0) or better. Proof of completion of prerequisites required: Copy of transcript.

Physical, social, emotional, and intellectual development of children during middle childhood and adolescence. Emphasis on parent, sibling, and peer relationships. Prevention and correction of developmental difficulties.

375. Child and Family Development Programs (3) I, II

Prerequisite: Completion of all lower division preparation for the major courses with a grade of C (2.0) or better. Proof of completion of prerequisites required: Copy of transcript.

376. Laboratory Experiences with Children and Families (1-3) Cr/NC

Three hours of laboratory for each unit of credit.

Prerequisite: Completion of all lower division preparation for the major courses with a grade of C (2.0) or better. Proof of completion of prerequisites required: Copy of transcript. Concurrent registration in one unit of 376A, 376B, or 376C.

Directed experiences in a mainstreamed setting. Designing and implementing, developmentally appropriate activities. May be repeated with consent of instructor. Maximum credit three units in Child and Family Development 376A, 376B, 376C.

A. Programs for Infants, Toddlers, Preschool Children (Formerly numbered Child and Family Development 376L.)
B. Programs for School-Age Children and Adolescents
C. Programs for Families

377. Adult Supervision in Child and Family Development Programs (3)

Prerequisites: Child and Family Development 375 and 376A, 376B, or 376C. Proof of completion of prerequisites required: Copy of transcript.

Development of leadership, communication, conflict resolution, and supervision of professionals in child and family development programs.

477. Administration of Child Development Programs (3) I

Prerequisite: Child and Family Development 375. Proof of completion of prerequisite required: Copy of transcript.

Programs for young children: design, implementation, and evaluation. Research applications and legal requirements for public and private sectors.

496. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II

Prerequisite: Consent of instructor.

Individual study. Maximum credit six units.
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

536. Divorce and Remarriage (3) II
Prerequisites: Child and Family Development 335 and Sociology 101. Proof of completion of prerequisites required: Copy of transcript.
Integration of family theories and research findings. Emphasis on adjustment to divorce and remarriage throughout life cycles, across cultures, social classes, and ethnicities.

537. Child Abuse and Family Violence (3) I, II
Prerequisites: Child and Family Development 270 and 371; consent of instructor for graduate students. Proof of completion of prerequisites required: Copy of transcript.
Multidisciplinary approach to child abuse and family violence including maltreatment, mistreatment, neglect, sexual abuse.

570. Infant/Toddler Development (3) I
Prerequisite: Child and Family Development 275 or Psychology 230 with grade of C (2.0) or better. Proof of completion of prerequisite required: Copy of transcript.
Physiological, psychological, cognitive, social, and cultural development of the human organism from conception through three years of age.

575. Public Policy and Professional Ethics in Child and Family Development (3)
Prerequisites: Child and Family Development 375, 376A, 376B, or 376C; and 536 or 537 or 590. Proof of completion of prerequisites required: Copy of transcript.
Public policy and professional ethics as applied to child and family development, programs, and research.

577. Advanced Administration of Child Development Programs (3) II
Prerequisite: Child and Family Development 477. Proof of completion of prerequisite required: Copy of transcript.
Problem analysis and development of successful organizational strategies for child development program delivery. Leadership, effective communication, social and ethical issues from a multicultural perspective.

578. Parent-Child Relationships Across the Life Span (3) I
Prerequisites: Child and Family Development 335 and 370. Proof of completion of prerequisites required: Copy of transcript.
Multidisciplinary approach to the parent-child relationship as it continues and changes throughout the life of the dyad, including study of normative and nonnormative life events.

590. Developmental Dysfunctions (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Child and Family Development 270 or Psychology 230, and completion of 12 upper division units in child and family development with a grade of C (2.0) or better for majors; consent of instructor for graduate students. Proof of completion of prerequisites required: Copy of transcript.
Adaptive and maladaptive processes throughout life span with emphasis on emotional, psychological, and physical disorders. Etiology, development, and adjustment. Directed experience with special needs individuals and their families.

596. Advanced Studies in Child and Family Development (1-6)
Prerequisite: Nine upper division units in child and family development.
Advanced study of selected topics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of nine units of 596. No more than six units of 596 may be applied to either the bachelor’s or master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

597. Child and Family Development Field Experiences (1) I, II
Prerequisites: Fifteen upper division units in child and family development with a grade of B (3.0) or better in courses selected from Child and Family Development 335, 370, 371, 375, 376A, 376B, or 376C; 377, 537, 575, or 590. Concurrent registration in Child and Family Development 597L. Proof of completion of prerequisites required: Copy of transcript.
Developmental theories and techniques in child development.

597L. Child and Family Development Field Experiences Laboratory (2) Cr/NC I, II
Prerequisites: Fifteen upper division units in child and family development with a grade of B (3.0) or better in courses selected from Child and Family Development 335, 370, 371, 375, 377, 537, 575, or 590. Concurrent registration in Child and Family Development 597. Proof of completion of prerequisites required: Copy of transcript.
Directed experiences in practical application of developmental theories and techniques in various community agencies.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Chinese
In the College of Arts and Letters

Courses (CHIN)

LOWER DIVISION COURSES

Native speakers of Mandarin Chinese will not receive credit for taking lower division courses except with advance approval from the department.

All lower division courses in Chinese are taught in Chinese.

No credit will be given for lower division courses taken after successfully completing any upper division Chinese course taken in Chinese.

No credit will be given for Chinese 101, 102, 201, 202, 301, and 302 taken out of sequence or concurrently.

101. Elementary Chinese I (5) I

Five lectures and one hour of laboratory.

Prerequisites: Chinese 101 and completion of the General Education requirement in Foundations II.C., Humanities.

Continuation of Chinese 101, including acquisition of an additional 300 characters. Further development of language competence. Not open to students who have completed four years of high school Chinese unless the fourth course was completed five or more years ago. See Class Schedule for appropriate section based on your background in Chinese.

102. Elementary Chinese II (5) II

Five lectures and one hour of laboratory.

Prerequisite: Chinese 101.

Continuation of Chinese 101, including acquisition of an additional 300 characters. Further development of language competence. Not open to students who have completed four years of high school Chinese unless the fourth course was completed five or more years ago. See Class Schedule for appropriate section based on your background in Chinese.

201. Intermediate Chinese I (5) I

Five lectures and one hour of laboratory.

Prerequisites: Chinese 102 and completion of the General Education requirement in Foundations II.C., Humanities.

Continuation of Chinese 101. Reading of contemporary work and writing of short passages in Chinese. Acquisition of an additional 400 characters. Emphasis on connected discourse. See Class Schedule for appropriate section based on your background in Chinese.

202. Intermediate Chinese II (5) II

Five lectures and one hour of laboratory.

Prerequisites: Chinese 201 and completion of the General Education requirement in Foundations II.C., Humanities.

Continuation of Chinese 201. Reading of contemporary work and writing of short passages in Chinese. Acquisition of an additional 400 characters. Emphasis on connected discourse. See Class Schedule for appropriate section based on your background in Chinese.

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES

(Intended for Undergraduates)

All upper division courses in Chinese are taught in Chinese unless otherwise stated.

No credit will be given for Chinese 301 and 302 taken out of sequence.
301. Advanced Chinese I  (3)
Prerequisites: Chinese 202 and completion of the General Education requirement in Foundations II.C., Humanities.
Greater facility in oral expression and writing for practical purposes; exposure to various styles of language; newspaper and media Chinese; elements of literary and classical language.

302. Advanced Chinese II  (3)
Prerequisites: Chinese 301 and completion of the General Education requirement in Foundations II.C., Humanities.
Continuation of Chinese 301. Writing paragraphs and longer expository texts. Reading modern and classical literature.

351. Introduction to Classical Chinese  (3)
Prerequisite: Chinese 302.
Basic vocabulary and grammatical features of classical Chinese, its contrast with modern Chinese, its special stylistic and rhetorical conventions. Texts from Confucian canon and Tang Dynasty poetry.

352. Aspects of Chinese Language  (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities. Strongly recommended: A course in foreign language or linguistics.
Relationship with other languages; dialects, their development and relationship to Mandarin; writing system and its evolution; Romanization schemes; structural and socio-cultural aspects, especially as they differ from English; unique problems of learning the language. Taught in English.

431. Advanced Conversational Chinese  (3)
Prerequisite: Credit or concurrent registration in Chinese 302.
Conversation practice on practical, social, and cultural topics, with aid of spoken language materials such as plays and videotapes; learning conversational strategies and stylistic features.

433. Newspaper Chinese  (3)
Prerequisite: Credit or concurrent registration in Chinese 302.
Developing reading skills; cultural, historical, and linguistic information for understanding of Newspaper Chinese. Conventions, special structures, and vocabulary; reading strategies such as skimming and scanning; background information on idioms and literary allusions used in newspapers.

434. Business Chinese  (3)
Prerequisite: Credit or concurrent registration in Chinese 302.
Developing ability to function in Chinese business environment; familiarity with business correspondence, telecommunication, advertising, business terminology and stylistic features, information on intercultural communication, social and cultural background.

450. Readings in Chinese Civilization  (3)
Prerequisite: Chinese 302.
Readings in Chinese from areas such as philosophy, religion, history, geography, folk tales, and legends. Film and video presentations to enhance a greater understanding and appreciation of Chinese civilization.

451. Readings in Modern Chinese Literature  (3)
Prerequisite: Chinese 302.
Fiction, prose, poems, and plays written after May Fourth Movement in 1911, which marked beginning of vernacular literature.

496. Topics in Chinese Studies  (1-4)
Topics in Chinese language, literature, culture, and linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit eight units.

499. Special Study  (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.
Civil Engineering

In the College of Engineering

The undergraduate degree in Civil Engineering is accredited by the Accreditation Board for Engineering and Technology, Inc.

Faculty
Emeritus: Capp, Johnson, McGhie, Noorany, Quiet, Stone
Chair: Supernak
Professors: Banks, Chang, Chou, Krishnamoorthy, Ponce, Supernak, Westermo
Associate Professors: Bayasi, Sharabi

Offered by the Department of Civil and Environmental Engineering
Doctor of Philosophy degree in engineering sciences/applied mechanics.
Master of Science degree in civil engineering.
Concentration in environmental engineering.
Major in civil engineering with the B.S. degree.

Mission of the Department
The mission of the Department of Civil and Environmental Engineering is to provide a high quality undergraduate and graduate education in the civil and environmental engineering areas as well as the advising and other support needed to ensure the students’ academic success and preparation for a productive engineering career. In addition, through research and continuing professional development, the faculty produce, enhance and promote new developments within their areas of expertise for the benefit of society and the furtherance of their profession.

The objective of the program is to give the student a basic knowledge of civil and environmental engineering, as well as the interdisciplinary background and skills to meaningfully participate in and contribute technical advances toward this profession. The program integrates technical aspects with studies in the social sciences and humanities to ensure appropriate sensitivity to socially related problems.

Instruction is given both at the undergraduate level, leading to the bachelor’s degree, and at the graduate level, leading to the master’s or doctoral degrees. The undergraduate program builds upon concepts of mathematics, physics, chemistry and basic engineering with specialized study in civil and environmental engineering. Engineering design is emphasized, particularly in conjunction with computer utilization and practical civil and environmental engineering problems. Aspects of safety and engineering ethics are woven throughout the program. Breadth and depth of social science and humanities studies is assured by department approved courses. Completion of the undergraduate degree prepares the student for an entry-level professional position in addition to informal or formal graduate studies.

Many students who complete the civil or the environmental undergraduate program choose to continue their formal studies on a full or part-time basis at San Diego State University or at another institution. (See the Bulletin of the Graduate Division for additional information.) The objective of the graduate program is to broaden the student’s technical competence and design abilities and allow for additional specialization.

The civil and environmental engineering program is enhanced through cooperation with the American Society of Civil Engineers, the American Public Works Association, the Associated General Contractors, the Chi Epsilon Civil Engineering Honor Society, and other national organizations who sponsor student chapters to further aid the student’s professional development. The chapters at San Diego State University have won many awards in regional and national competition with other schools throughout the country.

Transfer Credit
No credit will be given for upper division engineering coursework taken at an institution having an engineering program which has not been accredited by the Accreditation Board for Engineering and Technology, Inc., unless the student successfully completes the first 12 units of engineering work attempted at this university. At that time, and upon recommendation of the department, unaccredited work will be evaluated for full or partial credit.

General Education
Students will complete a minimum of 50 units in General Education, to include a minimum of nine upper division units taken after attaining junior class standing. No more than twelve units may be used for General Education credit from any one department or academic unit. No more than 7 units from one department can be used in Sections II, III, and IV combined (Foundations, American Institutions, and Explorations).

I. Communication and Critical Thinking: 9 units
   1. Oral Communication (3 units)
   2. Composition (3 units)
   3. Intermediate Composition and Critical Thinking (3 units)

II. Foundations: 29 units
   A. Natural Sciences and Quantitative Reasoning (17 units):
      1. Physical Sciences (11 units)
         Engineering students will take Chemistry 200 which includes a laboratory (5 units).
         Physics 195 (3 units)
         Physics 196 (3 units)
      2. Life Sciences (3 units)
         Environmental engineering majors will take Biology 201, 3 units applicable to General Education.
   3. Laboratory (satisfied under A.1. above)
   4. Mathematics/Quantitative Reasoning
      Engineering students will take Mathematics 150, 3 units applicable to General Education
   B. Social and Behavioral Sciences (3 units)
   C. Humanities (9 units)
      Complete three courses in three different areas. One of these courses and the one under IV.A. below must be taken in the same department

III. American Institutions: Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

IV. Explorations: Total: 9 units; must include one course of cultural diversity.
   A. Upper division Humanities (3 units)
      Three units must be taken from the same department as one of the Humanities courses selected in Foundations.
   B. Upper division Humanities (3 units from a department not selected in A above.)
   C. Upper division Social and Behavioral Sciences (3 units)
The Major

Civil engineering is the application of engineering principles to the improvement of the human environment. The civil engineering major prepares students to design and supervise the construction of buildings, dams, roads, harbors, airports, tunnels, and bridges. It also provides training in the planning and construction of the complex systems that supply clean water to cities, remove sewage, control floods, and perform other functions which ensure continued health and safety.

Civil engineers are needed in both the private and public sectors. They are employed in the aerospace industry, usually as structural engineers; design and construction of roads, buildings, bridges, airports, dams and other structures; research and teaching at colleges and universities (with an advanced degree); public utilities and transportation; manufacturing; and offshore drilling, environmental pollution, and energy self-sufficiency. New job opportunities in civil engineering will result from growing demands in housing, industrial buildings, power generating plants, and transportation systems.

Civil Engineering Major

With the B.S. Degree (Major Code: 09081)

NOTE: See chart below for the recommended sequence of courses for the major in civil engineering.

All students in civil engineering pursue a common program of study in basic engineering and civil engineering fundamentals. In addition, students are provided with the opportunity to select a pattern of study to satisfy their areas of interest. This pattern of study is indicated in the sequence below as “professional electives” and may be selected from available courses in geotechnical, structural, environmental, transportation, or water resources engineering; computer programming; advanced surveying; engineering economics; and other areas. The students’ choice of elective courses must be made in consultation with their adviser and documented by the filing of an approved master plan during or prior to the first semester of their junior year.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

# Approved as part of the student’s master plan.
Courses (CIV E)

LOWER DIVISION COURSES

160. Statistical Methods for Civil and Environmental Engineers (2)
Prerequisite: Mathematics 141.
Application of statistical methods to civil and environmental engineering problems in construction, hydrology, water quality, air pollution, and other related areas. Students with credit or concurrent registration in the following lower division statistics courses will be awarded a total of four units for the two (or more) courses: Civil Engineering 160; Biology 215; Economics 201; Political Science 201; Psychology 270; Sociology 210; Statistics 119, 250. (Formerly numbered Civil and Environmental Engineering 160.)

218. Surveying for Civil Engineers (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Civil Engineering 160 and Mathematics 151.

253. Geology for Engineers (2) I, II
One lecture and three hours of laboratory.
Prerequisite: Civil Engineering 218.
Earth materials, geologic processes, and methods of geologic interpretation of concern to engineers. Open only to students majoring in engineering. (Formerly numbered Civil and Environmental Engineering 253.)

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Introduction to Solid Mechanics (3) I, II
Prerequisites: Engineering Mechanics 200 with a grade of C or better, and credit or concurrent registration in Engineering 280 and Engineering Mechanics 290.
Mechanics of solid deformable bodies involving analytical methods for determining strength, stiffness, and stability of load-carrying members. (Formerly numbered Engineering Mechanics 301 and Civil and Environmental Engineering 301.)

302. Solid Mechanics Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Civil Engineering 301.
Laboratory studies in solid mechanics. Experimental stress analysis. Experimental confirmation of theory. (Formerly numbered Engineering Mechanics 302 and Civil and Environmental Engineering 302.)

321. Structural Analysis I (4) I, II
Prerequisite: Civil Engineering 301 with minimum grade of C.
Principles of mechanics applied to analysis of beams, frames, trusses, and three-dimensional frameworks. Graphical methods, influence lines; deflections; introduction to statically indeterminate structures and moment distribution. (Formerly numbered Civil and Environmental Engineering 321.)

335. Computer Aided Drawing and Design (3)
Prerequisite: Engineering 120.
Application of computer aided drafting and design to civil and environmental engineering projects. (Formerly numbered Civil and Environmental Engineering 335.)

421. Reinforced Concrete Design (3) I, II
Prerequisite: Civil Engineering 321 with minimum grade of C.
Properties and characteristics of reinforced concrete; design of structural components. Introduction to plastic theory and limit design. (Formerly numbered Civil and Environmental Engineering 421.)

423. Timber Design (2) I, II
Prerequisites: Civil Engineering 321 with minimum grade of C.
Physical and mechanical properties of wood. Sawn lumber, glulam, plywood. Design of various types of wood structures. Connection design. (Formerly numbered Civil and Environmental Engineering 423.)

444. Applied Hydraulics (3) I, II
Open channel and pressure conduit flow, pumps and turbines, hydroelectric power, and water law. (Formerly numbered Civil and Environmental Engineering 444.)

445. Applied Hydrology (3) II
Prerequisite: Civil Engineering 444 with minimum grade of C.
Basic hydrologic principles, hydrologic measurements, small and midsize catchment hydrology, frequency analysis, regional analysis, reservoir, stream channel and catchment routing, hydrologic design. (Formerly numbered Civil and Environmental Engineering 445.)

462. Geotechnical Engineering (3) I, II
Prerequisites: Civil Engineering 253; Civil Engineering 301 with minimum grade of C, credit or concurrent registration in Engineering Mechanics 340, and concurrent registration in Civil Engineering 463.
Proof of completion of prerequisite required: Copy of transcript or enrollment confirmation.
Mechanics of soils as they apply to engineering problems, soil classification, compaction, swelling, consolidation, strength and permeability. Applications to geotechnical and environmental engineering problems. (Formerly numbered Civil and Environmental Engineering 462.)

463. Geotechnical Engineering Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Concurrent registration in Civil Engineering 462.
Proof of completion of prerequisite required: Copy of transcript or enrollment confirmation.
Laboratory procedures of soil testing for geotechnical and environmental engineering problems. (Formerly numbered Civil and Environmental Engineering 463.)

465. Foundation Engineering and Earth Retaining Structures (3) II
Prerequisites: Civil Engineering 462 and 463 with minimum grades of C.
Soil mechanics theories applied to design of shallow and deep foundations; lateral pressure of soils, design of retaining walls. (Formerly numbered Civil and Environmental Engineering 465.)

479. Construction Materials (3) II
Two lectures and three hours of laboratory.
Prerequisites: Civil Engineering 462 and 481.
Selection, design and control of mixes of portland cement and asphalt concrete. Properties of these and other materials used in construction. (Formerly numbered Civil and Environmental Engineering 479.)

481. Transportation Engineering (3) I, II
Prerequisites: Civil Engineering 218 with minimum grade of C and Engineering 120.
Physical design of transportation facilities, traffic analysis and control for different modes, planning and demand analysis, introduction to environmental impacts of transportation systems and intelligent transportation systems. (Formerly numbered Civil and Environmental Engineering 481.)
482. Highway Engineering (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Civil Engineering 481 with minimum grade of C.
Highway design, facility sizing, geometric design, drainage, earthenwork, pavement design, traffic control devices, safety and environmental considerations. (Formerly numbered Civil and Environmental Engineering 482.)

491. Construction Methods (3) I
Prerequisite: Civil Engineering 321.
Components and methods of construction including earthwork; foundations; wood, steel, and concrete construction; roofing and cladding; interior construction. (Formerly numbered Civil and Environmental Engineering 491.)

492. Construction Engineering (3) II
Prerequisites: Civil Engineering 491 and Engineering 430.
Project oriented. Cost estimating; alternative cost-saving changes; critical path scheduling. (Formerly numbered Civil and Environmental Engineering 492.)

495. Civil Engineering Design (3) I, II
One lecture and six hours of laboratory.
Prerequisites: Credit or concurrent registration in Civil Engineering 321, 421, 444, 462, 481, and Environmental Engineering 355. At least three of these courses must be completed prior to enrolling in this course.
Application of engineering principles and design techniques to the design of civil engineering projects. (Formerly numbered Civil and Environmental Engineering 495.)

496. Advanced Civil Engineering Topics (1-3) I, II
Prerequisites: Minimum grade point average of 3.0 and consent of instructor.
Modern developments in civil engineering. See Class Schedule for specific content. Maximum credit six units for any combination of Civil Engineering 496, 499 and 596.

499. Special Study (1-3) Cr/NC I, II
Prerequisites: Minimum grade point average of 3.0 and consent of instructor.
Individual study in the area of civil engineering. Maximum credit six units for any combination of Civil Engineering 496, 499 and 596.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

521. Structural Analysis II (3) I
Prerequisite: Civil Engineering 321 with minimum grade of C.
Analysis of statically indeterminate structures by virtual work. Advanced treatment of slope deflection, moment distribution. Arch analysis, secondary stresses in trusses. Advanced treatment of influence lines. Introduction to matrix analysis of structures. (Formerly numbered Civil and Environmental Engineering 521.)

525. Design of Steel Structures (3) I, II
Prerequisite: Civil Engineering 321 with minimum grade of C.
Mechanical behavior of structural steel. Design of steel beams, girders, columns and members subjected to combined stresses. Design of various types of connections of steel structures; plate girders, continuous beams and rigid frames. (Formerly numbered Civil and Environmental Engineering 525.)

530. Open Channel Hydraulics (3) I, II
Prerequisite: Civil Engineering 444 with minimum grade of C.
Proof of completion of prerequisite required: Copy of transcript.
Principles of open channel flow; analysis and problems of critical, uniform, gradually-varied, and rapidly-varied flows, design and environmental problems; computer simulations and applications; and culvert hydraulics. (Formerly numbered Civil and Environmental Engineering 530.)

580. Traffic Engineering Design (3)
Prerequisite: Civil Engineering 481.
Sizing and configuration of highway facilities based on capacity analysis. Traffic signal design, impact and mitigation studies, parking, safety design. (Formerly numbered Civil and Environmental Engineering 580.)

596. Advanced Civil Engineering Topics (1-3) I, II
Prerequisites: Minimum grade point average of 3.0 and consent of instructor.
Modern developments in civil engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Civil Engineering 496, 499 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Civil Engineering 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.

For additional courses which are electives in the civil engineering program, refer to “Environmental Engineering” in this section of the catalog.
Classics

In the College of Arts and Letters

Faculty
Emeritus: Warren
Chair: Genovese
Professors: Eisner, Genovese, Hamilton
Assistant Professor: Smith

Offered by the Department of Classics and Humanities
Major in classics with the B.A. degree in liberal arts and sciences.
  Emphasis in classical humanities.
  Emphasis in classical languages.
Teaching major in classics (concentration in Latin) for the single subject teaching credential in foreign languages.
Minor in classics.

The Major
Classics is the study of the languages, literatures, and civilizations of ancient Greece and Rome. These are the oldest European and American traditions of the humanities and the liberal arts. Classics literally means works of the first class or rank, and the profound truths and disciplined forms cultivated by classical authors and artists have assured their works lasting relevance.

All Classics majors take two or more years of Greek or Latin. They may choose the language emphasis that allows them to study one or both languages or they may choose the broader emphasis in classical humanities. There is also a Latin-centered curriculum that prepares them for a teaching career. Classics majors have at their disposal the library, art, and relaxation of the Burnett Classics Seminar Room, and they have access to the audiovisual library of the Schaber Humanities Center. In addition to small language classes, close academic advising, and the fellowship of a small department with diverse interests, Classics majors culminate their studies with a senior seminar.

Although the prime purpose of the Classics major is to satisfy a quest for the original intellectual and artistic values of Western civilization, graduates enjoy a range of professional choices in addition to academic careers in Classics and various humanities disciplines. Classics majors are well prepared for law school, and with supplementary coursework in business, economics, or information systems, a Classics graduate can be very competitive in the business world, especially at the executive level. Classics graduates also have an advantage as editors, librarians, journalists, and technical writers. Opportunities are available in public relations, government, and other fields where general knowledge, perspective, and a facility with language serve not only the public good but one’s own success.

High School Equivalents
High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

Secondary school language courses can be used as follows:
1. The first two years of high school level language count as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.
2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.
3. Four years of high school level language count as the equivalent of three college semesters or five college quarters, thus fulfilling the foreign language requirement.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration of major.

Classics Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 15041)
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in classics courses can apply to the degree.

During their last semester all seniors majoring in classics shall submit to the department a portfolio of their scholarly work. A minor is not required with this major.

Emphasis in Classical Humanities
Preparation for the Major. Classics 101G-202G or 250G, or Classics 101L-202L or 250L; and six units from Classics 140, Comparative Literature 270A, History 105, Humanities 140. (14-16 units)
Students should note that a number of the upper division required and recommended courses listed below have lower division prerequisites, but these prerequisites do not constitute requirements per se for the completion of the major.

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through coursework for preparation for the major plus one language course in the major.

Upper Division Writing Requirement. Passing the University Writing Examination or English 508W or Rhetoric and Writing Studies 305W or 500W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units to include Classics 320, 330, History 502, 503, and Philosophy 411 (prerequisites waived for students in this major); six units selected from Art 568, Communication 450, History 501, Humanities 402, upper division courses in Classics; six units of Greek or Latin; and Humanities 490.

Emphasis in Classical Language
Preparation for the Major. Eight to 20 units from Classics 101G-202G, 101L-202L, 250G, 250L; and six units from Classics 140, Comparative Literature 270A, History 105, Humanities 140. (14-26 units)

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through coursework for preparation for the major plus one language course in the major.
Upper Division Writing Requirement. Passing the University Writing Examination or English 506W or Rhetoric and Writing Studies 305W or 500W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units to include Classics 320; History 502, 503; three to nine units from upper division courses in Classics, Art 568, History 502, 503, Philosophy 411 (prerequisites waived for students in this major); 12-18 units of Greek or Latin; and Humanities 490.

Classics Major
In preparation for the Single Subject Teaching Credential in Foreign Languages

With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 15041)

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under Policy Studies or Teacher Education. For students completing the single subject teaching credential program, no more than 48 units in classics can apply to the degree. This major may be used by students in policy studies or teacher education as an undergraduate major for the B.A. degree in liberal arts and sciences.

Emphasis in Latin

Preparation for the Major. Classics 101L-202L or Classics 250L; and six units from Classics 140, Comparative Literature 270A, History 105, Humanities 140. (14-16 units)

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through coursework for preparation for the major plus one language course in the major.

Upper Division Writing Requirement. Passing the University Writing Examination or English 506W or Rhetoric and Writing Studies 305W or 500W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units to include Classics 303L, 304L, 320; nine units in Classics 496L or 599L to include three units in Special Study in Latin Teaching Methods; History 503; six units from Classics 310, 330, 340, Art 568, History 502, or Philosophy 411 (prerequisites waived for students in this major); and Humanities 490.

Classics Minor

The classics minor consists of a minimum of 18-20 units selected from one of the following:

Language – 19-20 units of which nine units must be upper division to include 16-17 units in Greek or in Latin and three units selected from Classics 310, 320, 330, or 340.

Nonlanguage – 18 units of which 12 units must be upper division to include 6-12 units from classics courses, Art 568, History 502, 503, or Philosophy 411.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Foreign Language Requirement for the B.A. Degree in Liberal Arts and Sciences

Students electing the study of Greek or Latin to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Classics 303G or 303L or the equivalent level of achievement. The usual sequence of course work is either Classics 101G, 202G, and 303G, OR Classics 101L, 202L, and 303L. Refer to section of catalog on “Graduation Requirements” for additional ways to satisfy competency.

Courses (CLASS)

Classics includes courses in Greek and Latin as well as nonlanguage courses. Greek course numbers have a G suffix; Latin courses have an L suffix.

No credit will be given for Classics 101G, 202G, 303G, 304G taken out of sequence.

No credit will be given for Classics 101L, 202L, 301L, 303L taken out of sequence.

Lower Division Courses

101G. Elementary Greek I (5) I

Introduction to ancient Greek, emphasizing grammatical foundations of Attic and Koine prose. Not open to students who have completed three years of high school ancient Greek unless the third course was completed five or more years ago. Not open to students with credit in Classics 250G.

101L. Elementary Latin I (5) I

Introduction to Latin, emphasizing grammatical foundations of classical prose. Not open to students who have completed three years of high school Latin unless the third course was completed five or more years ago. Not open to students with credit in Classics 250L.

120. English from Latin and Greek (3)

General philology, emphasizing Latin and Greek bases and their English derivatives. Etymology, word analysis and construction, language history and structure. (Formerly titled “Latin and Greek Word Derivation.”)

140. Our Classical Heritage (3)

Greek and Roman art, literature, and institutions as reflected in the Western tradition.

202G. Elementary Greek II (5) II

Prerequisite: Classics 101G.

Continuation of Greek grammar with selections illustrating syntax and style. Not open to students who have completed four years of high school ancient Greek unless the fourth course was completed five or more years ago. Not open to students with credit in Classics 250L.

202L. Elementary Latin II (5) II

Prerequisite: Classics 101L.

Continuation of Latin grammar with selections illustrating syntax and style. Not open to students who have completed four years of high school Latin unless the fourth course was completed five or more years ago. Not open to students with credit in Classics 250L.

250G. Accelerated Elementary Greek (8) S

(Offered only in Extension)

Intensive one-semester introduction to ancient Greek, emphasizing basic grammar, vocabulary, syntax. Preparation for Classics 303G. Not open to students who have completed three years of high school ancient Greek unless the third course was completed five or more years ago. Not open to students with credit in Classics 101G and 202G.

250L. Accelerated Elementary Latin (8) S

(Offered only in Extension)

Intensive one-semester introduction to Latin, emphasizing basic grammar, vocabulary, syntax. Preparation for Classics 303L. Not open to students who have completed four years of high school Latin unless the fourth course was completed five or more years ago. Not open to students with credit in Classics 101L and 202L.

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

C. Experimental Topics in Classics.

G. Experimental Topics in Greek.

L. Experimental Topics in Latin.
UPPER DIVISION COURSES
(Intended for Undergraduates)

303G. Readings in Greek Prose (3) I
Prerequisites: Classics 202G or 250G, and completion of the General Education requirement in Foundations II.C., Humanities.
Readings selected from Greek history, philosophy, oratory, and New Testament. Authors such as Xenophon, Plato, Lysias, the Evangelists. Emphasis on rapid reading.

303L. Readings in Latin Prose (3) I
Prerequisites: Classics 202L or 250L, and completion of the General Education requirement in Foundations II.C., Humanities. General Education prerequisite not required for Classics majors.
Readings selected from classical Latin history, philosophy, oratory, letters. Authors such as Sallust, Cicero, Pliny the Younger.

304G. Readings in Greek Poetry (3) II
Prerequisites: Classics 303G, and completion of the General Education requirement in Foundations II.C., Humanities.
Readings selected from Greek epic, elegy, tragedy. Authors such as Homer, Sophocles, Euripides.

304L. Readings in Latin Poetry (3) II
Prerequisites: Classics 303L, and completion of the General Education requirement in Foundations II.C., Humanities. General Education prerequisite not required for Classics majors.
Readings selected from classical Latin epic, lyric, elegy, comedy. Authors such as Vergil, Catullus, Ovid, Plautus.

310. Classical Mythology (3)
Prerequisites: Nine units from General Education courses in Foundations II.C., Humanities. Recommended: Rhetoric and Writing Studies 200.
Mythological elements in Greek and Roman art, literature, and religion.

320. Classical Literature (3) I
Prerequisites: Nine units from General Education courses in Foundations II.C., Humanities. General Education prerequisite not required for Classics majors. Recommended: Rhetoric and Writing Studies 200.
Reading in translation of Greek and Latin masterpieces. Emphasis on epic and prose genres. Authors such as Homer, Herodotus, Plato, Vergil, Apuleius. Literary and historical criticism.

330. Classical Drama (3) II
Prerequisites: Nine units from General Education courses in Foundations II.C., Humanities. General Education prerequisite not required for Classics majors. Recommended: Rhetoric and Writing Studies 200.
Reading in translation of Greek and Roman tragedies and comedies. Playwrights such as Aeschylus, Sophocles, Euripides, Aristophanes, Plautus, Seneca. Literary, dramatic, historical criticism.

340. Classical Civilization (3)
Prerequisites: Nine units from General Education courses in Foundations II.C., Humanities. Recommended: Rhetoric and Writing Studies 200.
Greek and Roman civilization from Bronze Age to Late Empire. Integration of history, philosophy, literature, the arts, and society.

350. Classics and Cinema (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors. Ancient Greece and Rome as represented in major cinematic productions. Screenplays compared with Greek and Latin sources in English translation.

496. Topics in Classical Studies (1-4)
Topics in classical languages, literatures, cultures, and linguistics. May be repeated with new content. See Class Schedule for specific content. Maximum credit nine units. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.
C. Topics in Classics.
G. Topics in Greek. Advanced reading in an author, genre, or period, or work in linguistics.
L. Topics in Latin. Advanced reading in an author, genre, or period, or work in linguistics.

UPPER DIVISION COURSE
(Also Acceptable for Advanced Degrees)

599. Special Study (1-3) I, II
Prerequisites: Consent of major or graduate adviser; to be arranged by department chair and instructor. For 599C: Classics 304L or 304G. For 599G: 304G. For 599L: 304L.
Individual study. Maximum credit six units.
C. Special Study in Classics.
G. Special Study in Greek.
L. Special Study in Latin.
Faculty
Emeritus: Adams, Benjamin, Brown, Buckalew, Heighton, Holowach, Jameson, Johnson, Jones, Lee, Madsen, Meador, Odendahl, Real, Samovar, Sanders, Sorensen, Witherspoon, Wylie
Interim Director: Martin
The Lionel Van Deerlin Professor of Communication and Public Policy: Eger
Filmmaker in Residence: Ofield
Professors: Andersen, J., Andersen, P., Anderson, Beach, Blue, Broom, Dionisopoulos, Dozier, Durbin, Geist, Hartung, Hellweg, Lauzen, Lustig, Mueller, Ofield, Spitzberg, Weitzel, Wulfemeyer
Associate Professors: Borden, Davis, Martin
Assistant Professors: Freeman, Renegar, Spevak, Zhong

Offered by the School
Master of Arts degree in communication with specializations in:
- Advertising and public relations.
- Critical-cultural studies.
- Interaction studies.
- Intercultural and international studies.
- New media studies.
- Telecommunications and media management

Master of Arts degree in television, film and new media production.

Major in communication with the B.A. degree in liberal arts and sciences.
- Emphasis in advertising.
- Emphasis in media management.
- Emphasis in public relations.
- Emphasis in telecommunications and film.

Major in communication with the B.A. degree in liberal arts and sciences OR applied arts and sciences with specializations in:
- Applied communication studies.
- Critical-cultural studies.
- Interaction studies.
- Intercultural and international studies.
- New media studies.

Teaching major in communication for the single subject teaching credential in English/speech.

Major in journalism with the B.A. degree in liberal arts and sciences.

Teaching major in journalism for the single subject teaching credential in English/journalism.

Major in television, film and new media production with the B.S. degree in applied arts and sciences.

Major in theatre, with emphasis in design for television and film. See Theatre.

Minor in advertising.

Minor in communication.

Minor in journalism.

Minor in media management.

Minor in public relations.

Minor in television, film and new media.

The Lionel Van Deerlin Professor of Communication and Public Policy

More than 40 major communications companies contributed to establish The Lionel Van Deerlin Professor of Communication and Public Policy. The professorship serves as the center for the study of public policy and issues affecting the communications/information field, the area in which Lionel Van Deerlin was vitally concerned during his 18 years in Congress. The current holder of the professorship is John M. Eger.

General Information

The School of Communication, as an academic unit within the College of Professional Studies and Fine Arts, emphasizes scholarly, creative, and professional aspects of communication studies. The school is a unique center for the teaching, research, and development of integrated, interactive, international, and intercultural communication for the twenty-first century. The mission of the School of Communication is to be a leader in advancing the theory and understanding of human communication and improving the practice of human communication; to study and teach the art, science, and practice of communication; and to provide an educational environment encouraging excellence, leadership, and creativity in communication scholarship and professional excellence.

The school administers and operates as teaching facilities a large color television studio, a film production center for documentary and drama, a radio complex, three computer laboratories, and various news editing bays. The School of Communication has more than 1,000 majors, comprising four percent of the entire University's student population.

The School of Communication houses the Production Center for Documentary and Drama, which is integral to the technical and artistic training of senior students in film, video and the interface between these technologies, and in documentary production. In the Center, students participate in full-scale location and studio production and are mentored by the Filmmaker in Residence in the creation of their required course film and video projects.

Impacted Programs

The following programs are impacted programs. Students must enter the University under the designated premajor or major code for selected program. To be admitted to the selected program, students must meet the following criteria:

Communication: Emphasis in Advertising
(Premajor Code: 06040)

a. Complete with a minimum GPA of 2.85 and a grade of C or higher: Communication 200; Economics 101; Journalism 220; and Political Science 101 and 102. These courses cannot be taken for credit/no credit (Cr/NC);

b. Pass the Grammar, Spelling, and Punctuation (GSP) test;

c. Complete a minimum of 45 semester units;

d. Have a cumulative GPA of 2.75 or higher; and
Communication

Communication: Specializations in Communication
(Premajor code: 06030)

a. Complete with a minimum GPA of 2.85 and a grade of C or higher: Communication 200, 265 or 365; Economics 101; Journalism 220 or Television, Film and New Media 110; and Political Science 101 and 102. These courses cannot be taken for credit/no credit (Cr/NC);
b. Pass the Grammar, Spelling, and Punctuation (GSP) test;
c. Complete a minimum of 45 semester units;
d. Have a cumulative GPA of 2.75 or higher; and
e. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Communication: Emphasis in Media Management
(Premajor code: 06031)

a. Complete with a minimum GPA of 2.85 and a grade of C or higher: Communication 200, 265 or 365; Economics 101; Journalism 220 or Television, Film and New Media 110; and Political Science 101 and 102. These courses cannot be taken for credit/no credit (Cr/NC);
b. Pass the Grammar, Spelling, and Punctuation (GSP) test;
c. Complete a minimum of 45 semester units;
d. Have a cumulative GPA of 2.75 or higher; and
e. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Communication: Emphasis in Public Relations
(Premajor code: 05990)

a. Complete with a minimum GPA of 2.85 and a grade of C or higher: Communication 200; Economics 101; Journalism 220; and Political Science 101 and 102. These courses cannot be taken for credit/no credit (Cr/NC);
b. Pass the Grammar, Spelling, and Punctuation (GSP) test;
c. Complete a minimum of 45 semester units;
d. Have a cumulative GPA of 2.75 or higher; and
e. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Communication: Emphasis in Telecommunications and Film
(Premajor code: 06034)

a. Complete with a grade of B or higher: Communication 100 or 200; and Television, Film and New Media 160. These courses cannot be taken for credit/no credit (Cr/NC);
b. Complete a personal statement to be evaluated by the faculty;
c. Submit two letters of recommendation to be evaluated by the faculty;
d. Complete a minimum of 15 semester units;
e. Have a cumulative GPA of 3.00 or higher; and
f. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Communication: Emphasis in Journalism
(Premajor code: 06020)

a. Complete with a minimum GPA of 2.75 and a grade of C or higher: Communication 200 and Journalism 220. These courses cannot be taken for credit/no credit (Cr/NC);
b. Complete a personal statement to be evaluated by the faculty;
c. Submit two letters of recommendation to be evaluated by the faculty;
d. Pass the Grammar, Spelling, and Punctuation (GSP) test;
e. Complete a minimum of 45 semester units;
f. Have a cumulative GPA of 2.75 or higher; and
g. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Television, Film and New Media Production
(Major code: 06031)

a. Complete with a grade of B or higher: Communication 100 or 200; and Television, Film and New Media 160. These courses cannot be taken for credit/no credit (Cr/NC);
b. Complete a personal statement to be evaluated by the faculty;
c. Submit two letters of recommendation to be evaluated by the faculty;
d. Complete a minimum of 15 semester units;
e. Have a cumulative GPA of 3.00 or higher; and
f. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Communication Major

B.A. Degree in Liberal Arts and Sciences OR Applied Arts and Sciences
(Major Code: 06011)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” Selecting a Bachelor of Arts degree in liberal arts and sciences requires meeting the foreign language requirement. Selecting a Bachelor of Arts degree in applied arts and sciences requires either the foreign language or the mathematics competency requirement. The B.A. in Communication provides in-depth study of varied forms of mediated and non-mediated human communication. To accommodate a broad range of student interests and professional aspirations, the major encompasses four impacted emphases in professional media studies, as well as five impacted specializations that are not impacted.
Emphases: The four emphases prepare professionals to work in the management of organizational communication and in the management of communication organizations. The emphases provide students with the theory, principles, skills, and experience needed to work in advertising, public relations, media management, and telecommunications and film. Advertising emphasis graduates are employed in advertising agencies and marketing departments; as media advertising sales representatives; and in sales, sales promotion, and sales management positions. Media management emphasis graduates typically work in sales, programming, and management positions for television, radio, cable, film, and telecommunications organizations. Public relations emphasis graduates work as media relations specialists and strategic planners in public relations firms, as internal and external communication specialists in government agencies and the military, and in fundraising and membership development for not-for-profit organizations. Telecommunications and film emphasis graduates find employment in a variety of policy, regulation, production, programming, and management positions in media and telecommunications organizations (see also the B.S. degree in television, film, and new media production). A foreign language is required for all four emphases. While not required for the advertising and public relations emphases, but students in those emphases must complete specified courses outside the school. A foreign language is required for all four emphases.

Specializations: The areas of specialization focus the study of organizing principles and patterns of social life through observation, analysis, and criticism of human interactions, communication behavior, mediated systems, and technological innovations. Five specializations are offered: applied communication studies, critical-cultural studies, interaction studies, intercultural and international studies, and new media studies. In these specializations, attention is drawn to the distinctive character of communication across diverse activities, relationships, organizations, media, and cultures. Each specialization offers a unique scholarly and creative focus for understanding communication phenomena. Students are encouraged to explore alternative methods and theories for communication inquiry within and across specializations and throughout the School of Communication curricula. Each specialization area requires common preparation at the lower division level and specializes at the upper division level. A minor outside the School of Communication is not required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Advertising Special Topics: Communication 409, 490A, 500, 502, 504, 541, 555, and 585.

In addition, students in the advertising emphasis are required to take six units of upper division coursework selected with the approval of the adviser from one of the following allied disciplines: economics, management, marketing, political science, psychology, and sociology.

Emphasis in Media Management
With the B.A. Degree in Liberal Arts and Sciences
(Premajor Code: 06030) (Major Code: 06032)

Students selecting this emphasis are required to complete a minor outside the School of Communication. No more than 48 units in School of Communication courses can apply to the degree.

Preparation for the Major. Communication 200; Journalism 220 or Television, Film and New Media 110; Economics 101; Political Science 101, 102. Some of these courses also may be used to fulfill lower division general education requirements. (15 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination, or Communication 310W, or Rhetoric and Writing Studies 305W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units to include Communication 350, 310W, 350, 440, 480, 481, and 540. Nine units selected from Communication 375, 406, 408, 435, 490A, 500, 521, 522, 525, 540, 555, 575, 591, 596; Educational Technology 340, 341, 440, 441, 540, 541, Journalism 300, 303; or complete one of the following:

Electronic Media: Communication 435, 505, and 591.

Telecommunications: Communication 375, 501, and 575.

News: Communication 502, Journalism 300 and 530.

Emphasis in Public Relations
With the B.A. Degree in Liberal Arts and Sciences
(Premajor Code: 05990) (Major Code: 05992)

Students selecting this emphasis are not required to complete a minor. No more than 48 units in School of Communication courses can apply to the degree.

Preparation for the Major. Communication 200; Journalism 220; Economics 101; Political Science 101, 102. These courses also may be used to fulfill lower division general education requirements. (15 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Communication 310W with a grade of C (2.0) or better.

Major. A minimum of 45 upper division units to include Communication 334, 335, 338, 425, 426, 531; Marketing 370, one course selected from Political Science 334, 335, 338, 425, 426, 531; and one course selected from Political Science 334, 335, 338, 425, 426, 531.
Students selecting this emphasis are required to complete a minor outside the School of Communication. No more than 48 units in School of Communication courses can apply to the degree.

**Preparation for the Major.** Communication 200; Television, Film and New Media 110, 160; and six units selected from Television, Film and New Media 121, 122, 123. (15 units)

**Foreign Language Requirement.** Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

**Upper Division Writing Requirement.** Passing the University Writing Examination, or Communication 310W, or Rhetoric and Writing Studies 305W with a grade of C (2.0) or better.

**Major.** A minimum of 24 upper division units to include Communication 300, 350, 440, 460, and 480; and nine units of upper division electives in the School of Communication approved by the adviser.

### Specializations in Communication

**With the B.A. Degree in Liberal Arts and Sciences OR with the B.A. Degree in Applied Arts and Sciences**

(PreMajor Code: 06034) (Major Code: 06033)

All five specializations in the communication major require common preparation at the lower division level, common foreign language or mathematics competency requirement, and common upper division writing requirement.

The five specializations in the communication major do not require a minor.

**Preparation for the Specializations.** Completion of the General Education oral communication requirement and two of the following courses: Communication 160, 200, 204. (9 units)

**Foreign Language Requirement.** Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

**Mathematics Competency Requirement.** Not available to students in Intercultural and International Studies. Competency in mathematics, equivalent to what is normally attained through three consecutive courses of university study, must be satisfied by three semesters of college mathematics or a statistical sequence such as Statistics 250, 350A, 350B (highly recommended); or Political Science 201*, 515A, 515B; or Sociology 201*, 406*, 407*

**Upper Division Writing Requirement.** Passing the University Writing Examination, or Communication 310W, or Rhetoric and Writing Studies 305W with a grade of C (2.0) or better.*

* Additional prerequisites required.

### Specialization in Applied Communication Studies

(PreMajor Code: 06034) (Major Code: 06033)

The specialization in applied communication studies offers a generalized preparation for students for the professional world. It introduces students to the contexts of the professional world of communication, giving priority to clarifying relationships among basic research, theory, and applied concerns in the workplace. Recognizing the increasingly important need for strong oral and written communication skills, this specialization is well suited for those students intending to enter careers such as sales, management, training, personnel, and human resources, as well as various careers in medical and legal settings.

**Major.** A minimum of 24 upper division units to include Communication 300, 350, and either 305 or 365; 3-9 units from Communication 307, 391, 490B: 9-24 units from Communication 302 (maximum 2 units), 360, 361 (maximum 1 unit), 406, 407, 409, 455, 491, 503, 583, 584, 589; and an additional 12 or more units (to complete a total of 48 required) selected from upper division courses in the School of Communication.

### Specialization in Critical-Cultural Studies

(PreMajor Code: 06034) (Major Code: 15061)

The specialization in critical-cultural studies prepares students for a broad range of careers by developing intellectual and applied skills for understanding and affecting human communication and culture, ranging from interpersonal to media interactions. The degree offers a wide-ranging examination of criticism, culture, and communication. It develops the ability to think clearly and act effectively as preparation for careers as professional communicators, media critics, communication educators, agents of change, critics of rhetoric, interpreters of culture, and other areas of critical activity and culture. Critical studies and cultural studies have emerged in recent decades in numerous countries and various disciplines as important centers of intellectual activity. This specialization offers courses, concepts, and abilities that draw from these important developments and opens up a diverse set of opportunities.

**Major.** A minimum of 48 upper division units to include Communication 300, 350, 355, and either 305 or 365; nine units selected from Communication 330, 360, 450, 500, 501, 502, 589, Television, Film and New Media 320; fifteen units selected from Communication 301, 302, 330, 360, 361, 371, 408, 409, 450, 452, 480, 483, 490B, 493, 496, 499, 500, 502, 504, 505, 506, 543, 555, 580, 589, 591, 592, 596; Television, Film and New Media 320, 363, 364, 562; and 12 units selected from upper division courses in the School of Communication or other university courses approved in advance by the adviser in writing and filing a Request for Academic Adjustment form after completion of the courses.

### Specialization in Interaction Studies

(PreMajor Code: 06034) (Major Code: 15061)

The specialization in interaction studies recognizes interaction as the original and fundamental communication process as well as the predominant means through which social life is accomplished. Systematic attention is given to the organization of interaction across diverse social relationships, activities, and contexts. The primary goals of interaction studies are to advance the scholarly understanding of human interaction in all its possible manifestations; to articulate interactional relationships among theoretical, empirical, and practical communication issues and events; and to promote methodological diversity and pluralism in the investigation of interactional phenomena. The interaction studies specialization is situated within an expanding interdisciplinary and international network of scholars examining language, conversation, nonverbal behavior, and the development of personal relationships.

**Major.** A minimum of 48 upper division units to include Communication 300, 350, and either 305 or 365; six units from Communication 415, 445, or 530; 21 units from Communication 406, 407, 445, 452, 455, 483, 491, 496, 503, 530, 580, 583, 584, 592; and 12 units selected from upper division courses in the School of Communication.

### Specialization in Intercultural and International Studies

(PreMajor Code: 06034) (Major Code: 15061)

The specialization in intercultural and international studies is designed to draw from these important developments and opens up a diverse set of opportunities.

**Major.** A minimum of 48 upper division units to include Communication 300, 350, 355, and either 305 or 365; nine units selected from Communication 330, 360, 450, 500, 501, 502, 589, Television, Film and New Media 320; fifteen units selected from Communication 301, 302, 330, 360, 361, 371, 408, 409, 450, 452, 480, 483, 490B, 493, 496, 499, 500, 502, 504, 505, 506, 543, 555, 580, 589, 591, 592, 596; Television, Film and New Media 320, 363, 364, 562; and 12 units selected from upper division courses in the School of Communication or other university courses approved in advance by the adviser in writing and filing a Request for Academic Adjustment form after completion of the courses.

### Specialization in Telecommunications and Film

(PreMajor Code: 06034) (Major Code: 06033)

The specialization in telecommunications and film prepares students for a broad range of careers by developing intellectual and applied skills for understanding and affecting human communication and culture, ranging from interpersonal to media interactions. The degree offers a wide-ranging examination of criticism, culture, and communication. It develops the ability to think clearly and act effectively as preparation for careers as professional communicators, media critics, communication educators, agents of change, critics of rhetoric, interpreters of culture, and other areas of critical activity and culture. Critical studies and cultural studies have emerged in recent decades in numerous countries and various disciplines as important centers of intellectual activity. This specialization offers courses, concepts, and abilities that draw from these important developments and opens up a diverse set of opportunities.

**Major.** A minimum of 48 upper division units to include Communication 300, 350, 440, 460, and 480; and nine units of upper division electives in the School of Communication approved by the adviser.

The five specializations in the communication major do not require a minor.

**Preparation for the Specializations.** Completion of the General Education oral communication requirement and two of the following courses: Communication 160, 200, 204. (9 units)

**Foreign Language Requirement.** Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

**Mathematics Competency Requirement.** Not available to students in Intercultural and International Studies. Competency in mathematics, equivalent to what is normally attained through three consecutive courses of university study, must be satisfied by three semesters of college mathematics or a statistical sequence such as Statistics 250, 350A, 350B (highly recommended); or Political Science 201*, 515A, 515B; or Sociology 201*, 406*, 407*. 

**Upper Division Writing Requirement.** Passing the University Writing Examination, or Communication 310W, or Rhetoric and Writing Studies 305W with a grade of C (2.0) or better.”

* Additional prerequisites required.
to increase student understanding of the effects of culture on face-to-face and mediated communication; prepare students for careers in intercultural and international advertising, education, management, media systems, and organizations; promote scholarly research and artistic creativity in all areas of intercultural and international communication; and prepare students to function in diverse intercultural and international contexts. This specialization has a foreign language requirement.

Major. A minimum of 48 upper division units to include Communication 300, 350, 371, and either 305 or 365; 21 units from Communication 330, 350, 471, 479, 483, 493, 571, 574, 591, Television, Film and New Media 363; and 15 units selected from upper division courses in the School of Communication or other university courses approved in advance by the adviser in writing and filing a Request for Academic Adjustment form after completion of the courses.

Specialization in New Media Studies

(No more than 54 units in School of Communication courses can apply to the B.A. degree in Liberal Arts and Sciences.)

New technology is transforming the communication landscape. This specialization will prepare students to work, communicate within, and understand an increasingly technological communication world. The specialization in New Media Studies will increase student understanding of new media technology and its cultural and commercial consequences; prepare students for careers in new media as well as traditional communication industries being transformed by new technology; promote scholarly research and artistic creativity in all areas of new media; and prepare students to function in diverse new communication environments.

Major. A minimum of 48 upper division units to include Communication 300, 350, and either 305 or 365; 21 units from Communication 375, 440, 483, 505, 540, 555, 575, 596, Journalism 530; three units from one of the following areas: educational technology, computer science, or information and decision systems; and 15 units selected from upper division courses in the School of Communication.

Communication Major

In preparation for the Single Subject Teaching Credential in English/Speech

With the B.A. Degree in Applied Arts and Sciences

(Major code: 15061)

All candidates for a teaching credential must complete all requirements as outlined in the section of this catalog on Policy Studies or Teacher Education. Premajor courses must be completed before entry into the communication program.

This major may be used by the students in policy studies or teacher education as an undergraduate major for the B.A. degree in applied arts and sciences.

A minor is not required with this major.

Preparation for the Major. Communication 103, 160, Linguistics 101; Rhetoric and Writing Studies 100, 200; three units selected from Comparative Literature 270A, 270B, or English 220; three units selected from either Humanities 140 or Theatre 120; three units selected from Communication 200, English 280, 281, Journalism 220, Theatre 115; and six units selected from the following pairs of courses: English 250A and 250B, or English 260A and 260B. (30 units)

Upper Division Writing Requirement. Passing the University Writing Examination, or English 508W or Rhetoric and Writing Studies 500W with a grade of C (2.0) or better.

Major. A minimum of 45 upper division units to include Communication 300, 302, 305, 309A (3 units), 361, 371, 503, English 533, Rhetoric and Writing Studies 509; three units selected from Communication 360, 445, 450, 530, 589, or 592; three units selected from Comparative Literature 562, Theatre 310, or Theatre 580; three units selected from either Linguistics 420 or 530; three units selected from Africana Studies 460, 461, 462, 463, 464, American Indian Studies 430, Chicana and Chicano Studies 335, 464, English 519, 520; three units selected from English 522, 523, 524, 525 (for students who have completed English 260A or 260B), 560A, 560B (for students who have completed English 250A or 250B); six units selected from any two of the following groupings (select one three unit course from two separate groups): Communication 360, 391, 407, 491; or English 541A, 541B, Theatre 460B; or Communication 408 or one upper division linguistics course.

Journalism Major

With the B.A. Degree in Liberal Arts and Sciences

(Premajor Code: 06020) (Major Code: 06021)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 54 units in School of Communication courses can apply to the B.A. degree in Liberal Arts and Sciences.

Journalism education emphasizes the training of writers, reporters, and editors for the mass media. It also seeks to prepare and guide students interested in pursuing careers in a wide range of informational and interpretive multi-media environments.

The courses offered in the journalism major are designed to give students a working knowledge of the skills, concepts, values, and ethics needed to succeed as competent professional communicators. They focus on the basic elements of factual and analytical writing, editing, communication law and theory, history, and responsibility in the mass media.

Career opportunities for journalism graduates are diverse, including book editing and publishing, freelance writing, industrial journalism, magazines, communication research, news agencies, newspapers, radio, television, teaching, and on-line electronic publishing.

Students are required to achieve a passing score on the Grammar, Spelling, and Punctuation test before enrolling in most journalism courses. Students in the journalism premajor are encouraged to complete all general education courses first.

Lower division activity/production courses in newspaper, magazine, yearbook, or broadcasting may not be applied toward the B.A. in journalism.

A minor is not required with this major.

Preparation for the Major. Communication 200, Journalism 220. (6 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of this catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Communication 310W or Rhetoric and Writing Studies 305W with a grade of C (2.0) or better.

Major. A minimum of 45 upper division units to include Communication 300, 310W, 350, 500 or 502, Journalism 300, 315, 420, 529, 550; nine units selected from any upper division courses in the School of Communication (excluding Journalism); nine units of electives selected from any upper division courses in journalism. Journalism students should contact the journalism undergraduate adviser for information about appropriate courses.

Journalism Major

In preparation for the Single Subject Teaching Credential in English/Journalism

With the B.A. Degree in Liberal Arts and Sciences

(Premajor Code: 06020) (Major Code: 06021)

All candidates for a teaching credential must complete all requirements as outlined in the section of this catalog on Policy Studies or Teacher Education. Premajor courses must be completed before entry into the journalism program. No more than 48 units in the School of Communication can apply to the degree.

A minor is not required with this major.
Preparation for the Major. Communication 200, Journalism 220, Linguistics 101, Rhetoric and Writing Studies 100 and 200; three units selected from Comparative Literature 270A, 270B, or English 220. Three units selected from Humanities 140 or Theatre 120; six units selected from the following pairs of courses: English 250A and 250B, or 260A and 260B; (27 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of this catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination, or Communication 310W, or Rhetoric and Writing Studies 305W with a grade of C (2.0) or better.

Major. A minimum of 54 upper division units to include Communication 300, 371, 460, 502, Journalism 300, 315, English 533, Rhetoric and Writing Studies 509, 12 units selected from Communication 408, 490A, 500, Journalism 420, 425, 441, 470, 530, 550; three units selected from Comparative Literature 562, Theatre 310, 580; six units selected from Communication 360, 391, 407, 491, English 541A, 541B, Theatre 460B, or one upper division linguistics course; three units selected from Linguistics 420 or 530; three units selected from Africana Studies 460, 461, 462, 463, 464, American Indian Studies 430, Chicana and Chicano Studies 335, 464, English 519, 520; three units selected from the following: English 522, 523, 524, 525 (for students who took English 260A or 260B), 560A, 560B (for students who took English 250A or 250B).

Television, Film and New Media Production Major

With the B.S. Degree in Applied Arts and Sciences (Major Code: 06031)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

The B.S. degree is designed to prepare students for professions in television, film and new media production. The degree also serves those in occupations where extensive knowledge is required of message design for these media and their various distribution systems. This program focuses on skills required for careers as producers, directors, art directors, production assistants and writers, as well as emerging careers in new media production.

A minor is not required with this major.

Preparation for the Major. Communication 200; Television, Film and New Media 110, 121, 122, 123, 160, 260, 261. (24 units)

Upper Division Writing Requirement. Passing the University Writing Examination, or Communication 310W, or Rhetoric and Writing Studies 305W with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include: Communication 300, 350, Television, Film and New Media 320, 401, 510, 560 or 561; nine units selected from Communication 330, 435, 490A, or Television, Film and New Media 321, 324, 522, 550, 551, 560, 561, 562, 569. Six units must be selected from one allied professional sequence listed below, and an additional three units of electives from upper division courses in the School of Communication. A course used to fulfill a major requirement as listed above may not also be used as the six units needed in an allied professional sequence.

Allied Professional Sequences

(Note: Additional prerequisites may be required for courses in these sequences)

Advertising and Public Relations: Communication 460, 480, 540; Marketing 370, 472.

Cinematography: Linguistics 551; Music 351; Philosophy 523, 531, 541, 542.

Educational Technology: Educational Technology 540, 541, 544.

Film Literacy: Television, Film and New Media 363, 364, 562; English 493; History 435.

International Media: Communication 371, 591; Television, Film and New Media 363; English 548; Geography 312; Political Science 375, 481.

Law and Government: Communication 502, 505; Political Science 335, 346, 347A or 347B.

Mass Communication: Communication 408, 440, 501; Television, Film and New Media 562; Political Science 310; Sociology 335, 406, 410, 430, 450, 456.

Performance: Communication 592; Television, Film and New Media 390; Theatre 431, 446A, 446B, 446C, 532.

Production Design and Management: Television, Film and New Media 550, 551; Psychology 320, 321; Theatre 440, 448, 540.

Research Methods: Communication 489; Information and Decision Systems 301; Psychology 370; Sociology 406, 407.

Telecommunications: Communication 375, 501, 575.

Advertising Minor

The minor in advertising consists of 21 units to include Communication 200, 310W, 460, 461, 560, 565 and Journalism 220. Requirements for admission to the advertising minor are completion of at least 45 units with a minimum grade point average of 3.0 overall and completion of Communication 200 with a grade of B or better. Students are required to achieve a passing score on the Grammar, Spelling, and Punctuation (GSP) test.

Courses in the minor may not be counted toward the major but may be used to satisfy preparation for the major and general education requirements if applicable. A minimum of six upper division units must be completed at San Diego State University.

Communication Minor

The minor in communication consists of a minimum of 21 units to include six units from Communication 160, 200, 204; Communication 300, 350; and nine upper division units in the School of Communication.

Courses in the minor may not be counted toward the major but may be used to satisfy preparation for the major and general education requirements if applicable. A minimum of six upper division units must be completed at San Diego State University.

Journalism Minor

The minor in journalism consists of 21 units to include Communication 200, 310W, Journalism 220, 300, 315, 420; and either Communication 500 or 502. Requirements for admission to the journalism minor are the same as for admission to the journalism major.

Courses in the minor may not be counted toward the major but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed at San Diego State University.

Media Management Minor

The minor in media management consists of 18 units to include Communication 200, 375, 440, 489, 501 and 575. Requirements for admission to the minor are completion of at least 45 units with a minimum grade point average of 3.0 overall and completion of Communication 200 with a grade of B or better. Students are required to achieve a passing score on the Grammar, Spelling and Punctuation (GSP) test.
Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed at San Diego State University.

**Public Relations Minor**

The minor in public relations consists of 21 units to include Communication 200, 310W, 480, 481, 489, 588*, and Journalism 220. Requirements for admission to the minor are completion of at least 45 units with a minimum grade point average of 3.0 overall and completion of Communication 200 with a grade of B or better. Students are required to achieve a passing score on the Grammar, Spelling, and Punctuation (GSP) test.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed at San Diego State University.

* Communication 581 prerequisite waived.

**Television, Film and New Media Minor**

The minor in television, film and new media consists of 18 units to include Communication 200, Television, Film and New Media 160, 320, 363, and six units of upper division electives in Television, Film and New Media. Requirements for admission to the minor are completion of at least 30 units with a minimum grade point average of 3.0 overall and a grade of B or better in Communication 200 or Television, Film and New Media 160. Contact the School of Communication for admission criteria and procedures.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed at San Diego State University.

**Courses**

**LOWER DIVISION COURSES IN COMMUNICATION (COMM)**

90. **Improving Speaking Confidence** (1) Cr/NC I, II
   Two hours of activity.
   Prerequisite: Must be taken prior to or concurrent with Communication 103.
   Anxiety reduction and skill enhancement for students experiencing anxiety in oral communication situations. Not applicable to a bachelor's degree or general education.

103. **Oral Communication** (3) I, II (CAN SPCH 4)
   Training in fundamental processes of oral expression; method of obtaining and organizing material; outlining; principles of attention and delivery; practice in construction and delivery of various forms of speeches. Not open to students with credit in Africana Studies 140 or Chicana and Chicano Studies 111A.

160. **Argumentation** (3) I, II (CAN SPCH 6)
   Argument as a form of discourse; organizing, supporting, presenting and refuting arguments in a variety of formats; evaluating argument, including common fallacies in reasoning.

200. **Introduction to Mass Communication** (3) (CAN JOUR 4)

204. **Advanced Public Speaking** (3)
   Prerequisite: Communication 103.
   Practice in extemporaneous speaking on subjects of current interest, both national and local, with stress on organization and delivery. Not open to students with credit in Chicana and Chicano Studies 111A.

296. **Experimental Topics** (1-4)
   Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

**UPPER DIVISION COURSES IN COMMUNICATION (Intended for Undergraduates)**

300. **Integrating Communication: Theories and Principles** (3)
   Prerequisite: Upper division standing.
   Communication theory, concepts, principles, and practices. Communication as art and process on micro and macro levels, integrates understanding of sources, messages, transmission, and feedback in creating meaning and culture.

301. **Management of School of Communication Activities** (1) Cr/NC I, II
   Two hours of activity.
   Prerequisite: Communication 103.
   Planning, preparation, and supervision of speech tournaments and other interscholastic activities.Maximum credit two units.

302. **Contemporary Forensics Problems** (2) Cr/NC I, II
   Prerequisites: Communication 103 and 160.
   Identification of significant arguments in political, economic, and social problems confronting twentieth century United States. Use of case studies to emphasize research tools leading to comprehensive analysis. Oral performance stressed. See Class Schedule for specific content. Maximum credit eight units.

305. **Discipline of Communication** (3)
   Communication as an academic and professional discipline, its associations and journals, history and traditions, relationships to other disciplines, research methodologies, and careers for graduates. (Formerly numbered Communication 105.)

307. **Communication in Professional Settings** (3)
   Prerequisites: Communication 103 and 160 or 204 or 305.
   Communication principles in professional contexts including interviewing and technical and nontechnical oral presentations. Skill in meeting management.

309A-309B. **Workshop** (1-3, 1-3) (309A = Cr/NC; 309B = letter grade)
   Prerequisites: Communication 103, 204, and 305 or 307 or 361; and consent of instructor.
   Practical experience in an area of study within the School of Communication. Maximum credit six units.

310W. **Gathering and Reporting Information** (3)
   Two lectures and two hours of activity.
   Prerequisites: Journalism 220 or Television, Film and New Media 110 with grade of C (2.0) or better, and a passing score on the Grammar, Spelling, and Punctuation (GSP) test. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking.
   Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript. Limited to majors and minors in Advertising, Journalism, Media Management, and Public Relations, Major Codes: 06041, 06021, 06032, and 05992.
   Information gathering and writing for mass communication in information age. Accessing on-line databases, records, and archives; observation; interviewing; and conducting literature reviews, writing presentations designed to inform, persuade, and instruct.

330. **Socio-Cultural Aspects of Media** (3) I
   Prerequisites: Communication 200 and Television, Film and New Media 160.
   Social and cultural dimensions of communication media. Media structures, uses, and effects at national and international levels. Critical and ethical questions in a context of humanities and popular arts. Not open to students with credit in Journalism 408.
350. Communication Methodologies (3)  
Prerequisite: Upper division standing.  
Study of human communication, from methodological and epistemological perspectives.

355. Foundations of Critical and Cultural Study (3)  
Prerequisite: Credit or concurrent registration in Communication 300 and 350.  
Central concepts, examples, theories, and experiences of critical studies of communication in culture through cultural, rhetorical, and media literature and cases.

360. Argumentation Theory (3)  
Prerequisites: Communication 103 and 160.  
Approaches to argument and the patterns and problems in argument. Consideration of implications for society. Written and oral reports.

361. Intercollegiate Forensics (1) Cr/NC I, II  
Two field trips required.  
Prerequisite: Communication 103.  
Three hours of activity and two coaching hours to be assigned. Credit for participation in intercollegiate program. Maximum credit four units.

365. Digital Media and Visual Communication (3)  
Two lectures and more than three hours of activity.  
Prerequisites: Computer background, familiarity with Internet, and upper division standing.  
Fundamental communicative and conceptual strategies associated with creation of digital media. Visual, cultural, and social impact of digital media. Production and creation strategies. (Formerly numbered Communication 265.)

371. Intercultural Communication (3) I, II  
Prerequisites: Communication 103; and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors. Open to majors and nonmajors.  
Study of communication with emphasis on influence of cultural background, perception, social organization, language and nonverbal messages in the intercultural communication experience.

375. Infrastructure of the Information Age (3) I  
Prerequisites: Communication 200 and 365; basic computer literacy.  
Technologies and institutions critical to those responsible for communication and information in an information society. Practical experience with on-line computer activities.

391. Parliamentary Procedure (3)  
Prerequisite: Communication 103.  
Techniques and procedures for formal meeting management, with emphasis on leadership, rules, communication skills and strategies.

406. Organizational Communication (3)  
Prerequisite: Completion of preparation for the specializations in communication.  
The organization as a communication system; role of the organization in persuasive campaigns; communication strategies and problems within the organizational structure.

407. Communicative Perspectives on Interviewing (3)  
Prerequisite: Completion of preparation for the specializations in communication.  
Application of communicative theory to interviewing situations. Emphasis on perception, source, message, and receiver variables, defensive communication, feedback. Phrasing of questions, ways to enhance respondent participation, and formulation of behavioral objectives. Classroom simulation, supplemented by out-of-class interviews.

408. Mass Communication and Society (3)  
Prerequisites: Upper division standing, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences.  
Social factors underlying nature, functions of mass media. Theories, models, research in media as culture carriers, opinion shapers, other societal interrelationships.

409. Women in Mass Communication (3)  
Prerequisite: Upper division standing.  
Role of women in mass communication including messages about women and employment status of women.

415. Nonverbal Communication (3)  
Prerequisite: Completion of preparation for the specializations in communication.  
Theory and research on nonverbal aspects of communication, with emphasis on codes and functions.

435. Television Programming (3) I  
Prerequisite: Communication 200.  
Structure of television programming. Problems such as ratings, advertisers, and scheduling. Social effects and criticism of television programming.

440. Principles of Media Management (3)  
Prerequisite: Upper division standing.  
Revenue generation, marketing, production programming, social responsibilities, and current developments in mass media. Planning, organizing, acting, and controlling in electronic media organizations.

445. Relational Communication (3)  
Prerequisite: Completion of preparation for the specializations in communication.  
Theory and application of effective relational communication principles in both intimate and nonintimate contexts. Theoretical and empirical evidence on communication strategies and behaviors in relationship initiation, development, and termination. Relationship of communication behaviors to relational goals.

450. Rhetorical Theory (3)  
Prerequisite: Completion of preparation for the specializations in communication.  
Development of rhetorical theory as a mechanism for generating and understanding public discourse. Theories from ancient Greece to the present.

452. Interaction and Gender (3)  
Prerequisite: Completion of preparation for the specializations in communication.  
Contemporary research and theory on communication and gender. Examination of gender as ongoing intercultural achievement. Gender displays and myths across diverse relationships, institutions, media, and society.

455. Conflict Management Communication (3)  
Prerequisite: Completion of preparation for the specializations in communication.  
Approaches to conflict communication in international, societal, group, institutional, and interpersonal contexts.

460. Principles of Advertising (3) I, II  
Prerequisite: Upper division standing.  
Concepts, history, theory, social responsibility, management, and regulation of advertising. Survey of advertising practices, including planning, consumer and market research, creative, and media.

461. Advertising Creative Development (3) I, II  
One lecture and four hours of activity.  
Prerequisites: Communication 310W and 460 with grades of C (2.0) or better. Proof of completion of prerequisites required: Copy of transcript. Limited to Advertising majors and minors, Major Code: 06041.  
Advertising creative philosophy, strategy, and tactics: art, copy, and creation of advertisements for broadcast, print, and interactive electronic media. Application of computers to creative development.
471. Communication Among U.S. Cultures (3)
Prerequisite: Completion of preparation for the specializations in communication and Communication 371.
Effects of code systems, sociocultural forces, geographic influences, cultural patterns, ethnolinguistic identities, and acculturation experiences on interethnic and interracial relationships in the United States.

479. Organizational Communication Across Cultures (3)
Prerequisite: Completion of preparation for the specializations in communication.
Cultural and ethnic differences in management styles, communication patterns, intercultural negotiations, leadership techniques, conflict management, and work-related values in organizations.

480. Principles of Public Relations (3) I, II
Prerequisite: Upper division standing.
Concepts, history, theory, social responsibility, and management of public relations. Survey of problems and practices in corporations, government agencies, associations, and not-for-profit organizations.

481. Public Relations Media and Methods (3) I, II
One lecture and four hours of activity.
Prerequisites: Communication 310W and 480 with grades of C (2.0) or better. Proof of completion of prerequisites required: Copy of transcript. Limited to Public Relations majors and minors. Major Code: 05992.
Practical applications of public relations techniques with emphasis on written and media usage. News releases and media relations, print and electronic communications production, multi-media techniques, speeches, other audio-visual presentations, and special events. Field and laboratory practice.

483. Communication in Virtual Reality (3)
Prerequisite: Completion of preparation for the specializations in communication.
Interpersonal, romantic, commercial, organizational, and entertainment implications of virtual environments.

489. Research Methods in Mass Communication (3) II
Prerequisite: Credit or concurrent registration in Communication 440, 460, or 480.
Research methods for decision making in professional mass communication practices. Research settings, methods of observation, measurement, data analysis, interpretation, research reports, and application of research findings.

490A-490B. Internship (1-3, 1-3)
(490A = Cr/NC; 490B = letter grade)
Prerequisites: See Class Schedule for prerequisites specific to your area of study. Internship contract must be completed prior to registration.
Students work at approved agencies off-campus under the combined supervision of agency personnel and instructors. Maximum credit three units for Communication 490A-490B.

491. Group Interaction (3)
Prerequisites: Communication 300 and 350.
Research, theory, observation of group emergence, development, relationships, interaction, and decision making across diverse settings.

493. Ethnography and Communication (3)
Prerequisite: Completion of preparation for the specializations in communication.
Naturally occurring interactions drawn from a variety of communication settings. Primary methods of gathering data include: participant observation, interviewing, document and artifact analysis, and other forms of communication.

496. Experimental Topics (1-4)
Experimental topics. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

499. Special Study (1-3)
Prerequisites: See Class Schedule footnotes for prerequisites specific to your area of study. Special study contract required prior to enrollment.
Approved individual study, project or research under supervision of faculty member. Maximum credit three units.

UPPER DIVISION COURSES IN COMMUNICATION
(Also Acceptable for Advanced Degrees)

500. Current Problems in Mass Communication (3)
Prerequisites: Communication 440, 460, or 480 or Journalism 300; and at least 12 units of upper division coursework in communication.
Problems and topics in mass communication. Ethics, social responsibility, professionalism, multi-cultural issues, international media systems and audiences, global markets, and technology.

501. Management of Telecommunications Systems (3) II
Prerequisite: Communication 375 or 440 or admission to the graduate program. Proof of completion of prerequisite required: Copy of transcript.
Organization and administration of telecommunications systems, with emphasis on structure, policy environment, and principal institutions affecting telecommunications industries.

502. Law of Mass Communication (3)
Prerequisites: Communication 200 or Political Science 102, and upper division standing.
Libel, invasion of privacy, censorship, contempt of court, pornography; Constitutional guarantees affecting print and broadcast media.

Government restrictions.

503. Instructional Communication (3)
Prerequisites: Communication 160 and 305. Proof of completion of prerequisites required: Copy of transcript.
Communication messages and strategies as they apply to instructional contexts. Communication within traditional instructional contexts and focus on training programs, adult workshops, and other less traditional information dissemination situations.

504. History of Mass Communication (3)
Prerequisites: Communication 200 or History 110A or 110B, and upper division standing.
American journalism from colonial times to present, with special attention to twentieth century trends and developments, including emergent concept of social responsibility.

505. Government and Telecommunications (3) II
Prerequisite: Twelve upper division units in communication.
Responsibilities of telecommunication organizations as prescribed by law, government policies and regulations, and significant court decisions.

506. Advertising and Society (3)
Prerequisites: Communication 300 and 350.
Theoretical and philosophical analysis of advertising in modern society.

530. Conversational Interaction (3)
Prerequisite: Completion of preparation for the major in communication or admission to the graduate program.
Sequential organization of naturally occurring conversational practices. Reliance on recordings and transcriptions for detailed examination of interactants’ methods for achieving social actions and organizing interactional occasions.

540. Media Management Research (3)
Prerequisite: Communication 440.
Applying research in cable, film, radio, television and telecommunications management. Designs, methodologies, analyses, applications of audience, programming, and advertising research.
541. Advanced Creative Production (3)
One lecture and four hours of activity.
Prerequisites: Communication 461 or 481; and consent of instructor.
Design and production of print and electronic advertising and public relations messages. Creative strategy and evaluation. Print, film, and video techniques. Maximum credit six units.

545. Communication and Rhetorical Movements (3)
Prerequisite: Completion of preparation for the specializations in communication or admission to the graduate program.
Historical perspective of role of communication in social change in rhetorical movements and social change.

555. New Media Production (3)
Two lectures and three hours of activity.
Prerequisite: Upper division standing or admission to the graduate program.
Development of audio visual/communication products in new media formats. Multi-media laboratory use to be arranged.

560. Advertising Research (3) I
Prerequisites: Communication 310W and 460 with grades of C (2.0) or better. Proof of completion of prerequisites required: Copy of transcript. Limited to advertising majors and minors (Major Code 06041).
Systematic application of quantitative and qualitative research to planning, design, and management of advertising campaigns. Cases, practices, and problems in application of research to consumer, market analysis, positioning, creative selection, media planning, and campaign evaluation.

565. Advertising Campaigns (3) II
Prerequisites: Communication 461 and 560.
Planning and creation of advertising campaigns including situation analysis and strategy, advertising and marketing objectives, consumer analysis and target audience selection, creative development, media strategy and tactics, sales promotion, and campaign evaluation.

571. Intercultural Communication Theory (3)
Prerequisite: Completion of preparation for the major in communication and Communication 371, or admission to the graduate program.
Theories of cross-cultural and intercultural communication, including ethnic identity, communication competence, and cultural values.

574. International Advertising (3)
Prerequisites: Communication 300, 350, and six upper division units in School of Communication courses.
Comparative cultural, economic, legal, political, and social conditions relevant to international advertising. Not open to students with credit in Communication 474.

575. Technological Trends in Telecommunication (3)
Prerequisite: Completion of preparation for the majors in communication, or television, film and new media production, or admission to graduate program.
Developments and trends in telecommunication and related technology, with implications for the future. Practical experience with online computer activities.

580. Communication and Politics (3)
Prerequisites: Communication 160 and 305. Proof of completion of prerequisites required: Copy of transcript.
Contemporary political communication events and processes, with a focus on speeches, debates, and campaigns.

581. Public Relations Research (3) I
Two lectures and two hours of activity.
Prerequisites: Communication 310W and 480 with grades of C (2.0) or better and 489. Proof of completion of prerequisites required: Copy of transcript. Limited to public relations majors and minors (Major Code 05992).
Qualitative and quantitative methods used in evaluation research to plan, track, and evaluate public relations programs. Computerized statistical analysis.

583. Medical Interaction (3)
Prerequisites: Communication 300 and 350.
Theoretical and applied approaches to health communication including interactional patterns among doctors, nurses, patients, family members, therapists, counselors, and clients. Not open to students with credit in Communication 584.

584. Legal Interaction (3)
Prerequisites: Communication 300 and 350.
Interactional patterns among judges, lawyers, witnesses, juries, and related legal personnel. Implications for understanding constraints on exchange within institutional interaction and social justice as a practical accomplishment.

585. Professional Practices in Public Relations (3) II
Prerequisites: Communication 581 and credit or concurrent registration in Communication 481.
Advanced cases in public relations management. Theory and practice of issues management, integration of the public relations function in strategic management in a variety of corporate, governmental, nonprofit, social, and cultural organizations.

589. Ethical Issues in Communication (3)
Prerequisites: Communication 160 and 305. Proof of completion of prerequisites required: Copy of transcript.
Classical and modern ethical concepts and issues in communication.

591. International Telecommunications (3) I
Prerequisite: Twelve upper division units in School of Communication or admission to the graduate program.
Comparative study of economic, social, political determinants of broadcasting, and telecommunication systems around the world.

592. Persuasion (3)
Prerequisite: Communication 103. Open to majors and nonmajors.
Key variables and theories in the persuasion process: persuasive sources, messages, receiver variables, propaganda, brainwashing, cognitive, behavioral, and social theories of persuasion. Not applicable to the M.A. degree in communication.

596. Selected Topics (1-4)
Prerequisite: Senior standing or above.
Specialized study in selected topics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

LOWER DIVISION COURSE IN JOURNALISM

220. Writing for the Mass Media (3) (CAN JOUR 2)
One lecture and four hours of activity.
Prerequisites: Sophomore standing; ability to type; and a passing score on the Journalism Grammar, Spelling, and Punctuation (GSP) test. Proof of completion of prerequisites required: GSP test score and proof of sophomore standing.
Introduction to writing techniques for mass media. Laboratory practice in informational and persuasive writing, evaluation, and judgment.

UPPER DIVISION COURSES IN JOURNALISM
(Designed for Undergraduates)

NOTE: PROOF OF COMPLETION of prerequisites required for all upper division courses: GSP test score as applicable and copy of transcript.

300. Principles of Journalism (3)
Prerequisite: Upper division standing.
315. News Writing and Editing (3) I, II
One lecture and four hours of activity.
Prerequisites: Communication 200 and Journalism 220 with minimum grades of C (2.0) in each course; upper division standing; ability to type; credit or concurrent registration in Journalism 300 and Communication 310W; and a passing score on the Grammar, Spelling, and Punctuation (GSP) test.
Specialized writing and editing techniques for news media. Field and laboratory practice.

420. Public Affairs News Reporting (3) I
One lecture and four hours of activity.
Prerequisites: Journalism 300, 315, and Communication 310W, with minimum grades of C (2.0) in each course; upper division standing; ability to type; and a passing score on the Grammar, Spelling, and Punctuation (GSP) test.
Field and laboratory practice in news gathering and writing, covering news beats including courts; local governments and other news sources. Emphasis on accuracy, clarity, comprehensiveness and interpretation.

425. Editorial and Critical Writing (3)
Prerequisites: Journalism 420, upper division standing; and a passing score on the Grammar, Spelling, and Punctuation (GSP) test.

441. Magazine Article Writing (3) I, II
Prerequisites: Upper division standing; and a passing score on the Grammar, Spelling, and Punctuation (GSP) test.
Planning, gathering material, writing and marketing articles for specialized and general publications. Production of expository articles and marketing of at least one.

470. Radio-Television News Writing and Editing (3) I, II
One lecture and four hours of activity.
Prerequisites: Journalism 300, 315, and Communication 310W, with minimum grades of C (2.0) in each course; or Television, Film and New Media 110; upper division standing; ability to type; a passing score on the Grammar, Spelling, and Punctuation (GSP) test.
Application of radio and television newswriting principles and techniques. Emphasis in news scriptwriting using audio and video.

490. Internship in Journalism (1-3) Cr/NC
Prerequisites: Upper division standing, consent of instructor, and Journalism 420
Supervised work at news media organizations under the combined direction of practitioners and professors. Maximum credit three units.

496. Experimental Topics (1-3)
Prerequisites: Upper division standing and consent of instructor. Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3)
Prerequisites: Upper division standing and consent of instructor. Individual study or project, normally in a research area selected by the student. Maximum credit three units.

UPPER DIVISION COURSES IN JOURNALISM
(Also Acceptable for Advanced Degrees)

529. Investigative Reporting (3)
One lecture and four hours of activity.
Prerequisites: Journalism 420 with minimum grade of C (2.0); upper division standing; and a passing score on the Grammar, Spelling, and Punctuation (GSP) test.
Development of articles of substance and depth in specialized areas. Research, analysis and interpretation of complex issues in the news. Special problems of the sustained, reportorial effort. Field and laboratory practice.

530. Management of News Organizations (3)
Prerequisites: Senior standing and twelve upper division units in journalism.
Role of manager in journalism and journalism-related organizations. Interaction of news, entertainment, advertising, circulation, production, and promotion functions as related to economic demands.

550. News Production (3)
One lecture and four hours of activity.
Prerequisites: Journalism 420 with minimum grade of C (2.0); and a passing score on the Grammar, Spelling, and Punctuation (GSP) test.
News production principles and techniques. Field and laboratory practice.

LOWER DIVISION COURSES IN TELEVISION, FILM, AND NEW MEDIA (TFM)

110. Telecommunications and Film Writing (3) I, II
Prerequisites: Satisfaction of the English Placement Test and Writing Competency requirements. Ability to type. Proof of completion of prerequisites required: Copy of EPT or competency scores or verification of exemption; proof of Cr in Rhetoric and Writing Studies 97A or 97B, or notification from the Department of Rhetoric and Writing Studies. Limited to television, film and new media production majors. Theory and practice in writing for electronic and film media. Audience analysis, problems of timing, aural style, and scripting techniques.

121. Audio Production (3) I, II
Two lectures and three hours of activity.
Prerequisite: Limited to television, film and new media production majors.
Theory of audio production, use of basic audio equipment, and basic sound production. Practical experience in University sponsored productions.

122. Basic 16MM Film Production (3)
Two lectures and three hours of activity.
Prerequisite: Limited to television, film and new media production majors.
Equipment and process of 16MM location film production, including video applications.

123. Basic Video and TV Production (3)
Two lectures and three hours of activity.
Prerequisite: Limited to television, film and new media production majors.
Equipment and process of video and TV production. Use of TV control room, studio, auxiliary equipment, and integration of film and electronic media in production of programs.

160. Cinema as Art and Communication (3) I, II
An appreciative survey of cinema in its diverse forms. Historical and stylistic influences on the aesthetic values and social implications of cinema. Illustrated by screen examples.

260. Intermediate 16MM Film Production (3)
Two lectures and more than three hours of activity.
Prerequisites: Television, Film and New Media 110, 121, 122, 123 with grade of C (2.0) or better. Proof of completion of prerequisites required: Copy of transcript.

261. Intermediate Video and TV Production (3)
Two lectures and more than three hours of activity.
Prerequisites: Television, Film and New Media 110, 121, 122, 123 with grade of C (2.0) or better. Proof of completion of prerequisites required: Copy of transcript.
Practice of video and digital TV production. Includes application of film techniques to electronic media and basic television program types. Responsibilities of producer, director, and production staff.
UPPER DIVISION COURSES IN TELEVISION, FILM, AND NEW MEDIA
(Also Acceptable for Advanced Degrees)

510. Script Writing for Television and Film (3)  
Prerequisites: Television, Film and New Media 110, 260 or 261; and satisfaction of the English Placement Test and Writing Competency requirements.  
Scripting of dramatic original and adaptation forms, and the documentary. (Formerly numbered Television, Film and New Media 410.)

522. Film and Television Cinematography (3) I  
Two lectures and three hours of laboratory.  
Prerequisites: Television, Film and New Media 122 and 123.  
Proof of completion of prerequisites required: Copy of transcript.  
Advanced theory and practice of cinematography for film and television production. Practicum in cinematography problems related to control of light and image for television and film, including use of specialized equipment, film and videotape stock, location and studio shooting, and complex blocking problems.

550. Art Direction for Television and Film (3) II  
One lecture and four hours of activity.  
Prerequisites: Television, Film and New Media 324, 260 or 261 or 325, and consent of instructor.  
Proof of completion of prerequisites required: Copy of transcript.  
Aesthetic, technical, and administrative aspects of design for television and film. Experience in scenic design, construction, decoration, lighting, and special effects.

551. Production Design for Television and Film (3)  
Prerequisites: Television, Film and New Media 324 and credit or concurrent registration in Television, Film and New Media 401.  
Theory and analysis of production design concepts for television and film. Determination of stylistic and technical requirements for fictional and nonfictional productions.

560. Advanced Film (3)  
Two lectures and more than three hours of activity.  
Prerequisites: Television, Film and New Media 260, 261, and 510 with grade of B (3.0) or better in each and consent of instructor.  
Proof of completion of prerequisites required: Copy of transcript.  
Practicum in direction and production of dramatic and nondramatic fiction and nonfictional forms in international, documentary film and video. Cameras, lighting, design, sound techniques, experience in University sponsored productions. Completion of a short film.

561. Advanced Television (3)  
Two lectures and more than three hours of activity.  
Prerequisites: Television, Film and New Media 260, 261, and 510 with grade of B (3.0) or better in each and consent of instructor.  
Program development, stylistic techniques, and individual projects in producing and directing, Documentary production.

562. Documentary and Propaganda Film/Television (3)  
Prerequisite: Television, Film and New Media 160.  
Analysis through viewing of persuasive concepts, techniques, and forms in international, documentary film and television programs, and special effects.

565. Animated Film and New Media Techniques (3) II  
Two lectures and more than three hours of activity.  
Screening of representative examples and production of an animated motion picture and practical experience in digital technologies.

569. Advanced Projects in Film and Video (3)  
Two lectures and more than three hours of activity.  
Prerequisites: Television, Film and New Media 510, and 560 or 561.  
Original and creative work demonstrating significant achievement in film and video production. Maximum credit six units. (Formerly numbered Television, Film and New Media 469.)

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Communicative Disorders

In the College of Health and Human Services

The master's degree is an advanced degree for those wishing to work professionally as a speech-language pathologist, speech and hearing scientist, audiologist and/or deaf educator.

Positions in communicative disorders are available in many public and private settings working with persons with speech, language, and hearing, deaf-blind disorders. Graduates with certification or licensure work in rehabilitation centers, schools, hospitals, private agencies, private practice, industry, research, and university teaching and research centers. Career opportunities are particularly good for minority, bilingual or bicultural persons.

Communicative Disorders Major

With the B.A. Degree in Liberal Arts and Sciences

(Major Code: 12201)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 68 units in communicative disorders courses can apply to the degree.

A minor is not required with the major.

Preparation for the Major. Communicative Disorders 106, 110, and 265; Physics 201; Psychology 101 and 260, Psychology 270 or Sociology 201. (21 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to the section of this catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 29 upper division units in communicative disorders to include Communicative Disorders 300, 320, 321, 322, 323 (not required for Deaf Education majors), 340, 340L, and Linguistics 452, and six units of electives (nine units of electives required for Deaf Education majors which may include 323) selected from Communicative Disorders 350, 499, 501, 505, 511, 512, 513, 517, 539, 542, 550, 570, 580, 595, and 596.

Students pursuing a graduate degree should consult the Bulletin of the Graduate Division for required undergraduate preparation.

Time Limitation. All courses for the major must be completed within seven years for the granting of the undergraduate degree. Any course completed more than seven years prior to the date on which all requirements for the degree are completed cannot be used to satisfy unit requirements for the degree. Exceptions for individual courses must be approved by the department and filed with the Office of the Registrar.

Communicative Disorders Minor

The minor in communicative disorders consists of 22 units in communicative disorders to include Communicative Disorders 106, 205, 300, 320, 321, 322, 340*, and one of the following: Communicative Disorders 300 or 350.

* Additional prerequisites waived for this course include Communicative Disorders 340L, Physics 201, and Psychology 260.

Accredited in speech-language pathology and audiology by the American Speech-Language-Hearing Association and in the education of the deaf by the Council on Education of the Deaf.

Faculty
Emeritus: Davies, Earnest, Kopp, Nichols, Riedman, Thile
Chair: Kramer
Professors: Allen, Cheng, Christensen, Kramer, Robin, Seitz, Shapiro, Thal
Associate Professors: Gutierrez-Ciellen, Williams, Wulfeck
Assistant Professors: Barlow, Hawe, Mackersie
Lecturers: Branch, Fischer, Kane, Launer, Lopes, Smith
Adjunct: Boothroyd, Kryter, Sandlin, Singh

Offered by the Department
Doctor of Philosophy degree in language and communicative disorders.
Master of Arts degree in communicative disorders.
Minor in communicative disorders.
Certificate in early intervention (refer to Bulletin of the Graduate Division).
Certificate in professional services bilingual/multicultural (refer to Bulletin of the Graduate Division).
Clinical-rehabilitative services credential.
Education specialist for the deaf and hard of hearing credential.

The Major

Speech and language pathology, audiology, and education of the hearing impaired are professions which identify, help, and study persons with communicative disorders. Those entering these professions should possess a strong motivation to help individuals with genetically, physically, or psychologically caused communication problems. Preparation involves acquiring the knowledge and skills necessary to assume responsibility for assessment, education and rehabilitation of persons with speech, language, and hearing disorders. The Department of Communicative Disorders is committed to preparing speech-language-hearing professionals to meet the challenges of a racially, ethnically, and linguistically diverse society.

The bachelor's degree serves as the basis for graduate and professional study in communicative disorders. There are no employment opportunities for holders of the bachelor's degree. A master's degree, national certification and state licensure or school credential are needed for professional practice.

The undergraduate curriculum is broad, involving coursework on normal and disordered speech, language, and hearing, as well as clinical procedures. All communicative disorders majors cover a set of related courses of study. Students interested in the communicative disorders program are advised to take college level courses in anatomy, biology, psychology, English, physiology, linguistics, physics, and mathematics. Studies leading to practical experience, hospital work, industrial work, work in school settings, or preparation for the master's degree are similar in many ways; it is the area of specialization that serves to differentiate courses of study.

The communicative disorders minor is open to all majors but is strongly recommended for those in special education or the social and behavioral sciences who wish to broaden their competencies in a related applied discipline.

OFFICE: Communications Clinic 118
TELEPHONE: (619) 594-6774
FAX: (619) 594-7109
WEB SITE: www-rohan.sdsu.edu/dept/chhs/cd/cd.html
Prerequisites for the minor include Communicative Disorders 110, Physics 201, Psychology 101 and 260. (12 units.)

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Credentials

The Department of Communicative Disorders offers academic and practica coursework applicable to two credentials required for working in California public schools: The Clinical-Rehabilitative Services (C-RS) Credential (Credential Code: 00900) and the Education Specialist Credential for the Deaf and Hard of Hearing (Credential Code: 00461).

Applicants to a credential program are required to submit scores from the California Basic Education Skills Test (CBEST) as part of the application for admission to a credential program. Note that the CBEST is given only three or four times each year.

Credential candidates are required to have the Certificate of Clearance for licensure (finger printing) prior to beginning the school experience. Candidates should apply for the Certificate of Clearance several months prior to submitting an application to the department for school practice placement in order for the certificate to be processed in time for the placement.

Education Specialist Credential:

Deaf and Hard-of-Hearing
(Credential Code: 00461)

The Education Specialist Credential: Deaf and Hard-of-Hearing is required for persons wishing to teach children and youth who are deaf, hard-of-hearing, or deaf with special needs. The coursework in this special sequence meets the standards of the California Commission on Teacher Credentialing and the National Council on Education of the Deaf.

Admission Requirements:

1. Formal application to the graduate program in the Department of Communicative Disorders. Applicants must satisfy the admission requirements for classified graduate standing with a concentration in education of learners who are deaf, hard-of-hearing, or deaf with special needs.
2. Interview with a faculty member in the Department of Communicative Disorders.
3. American Sign Language proficiency at the intermediate level or higher as assessed by an SDSU-ASL proficiency interview.
4. Passing scores on the MSAT and RICA.

Program Requirements:

1. Coursework selected from the Departments of Communicative Disorders, Policy Studies in Language and Cross-Cultural Education, and Special Education.
2. A minimum of 200 hours of supervised clinical practice.
3. A minimum of 300 hours of supervised student teaching in special day and residential school settings.

The credential program involves a total of 56 units. The following courses are required:

Core courses: Communicative Disorders 550; Policy Studies in Language and Cross-Cultural Education 600; Special Education 500, 501, 502.

Pedagogy courses: Communicative Disorders 655, 657, 668; Policy Studies in Language and Cross-Cultural Education 601, 650, 651.

Clinical or Rehabilitative Services Credential

(Credential Code: 00900)

The Clinical-Rehabilitative Services Credential has three options: Language, Speech and Hearing (LSH); Audiology; and Language, Speech and Hearing including the Special Class Authorization (SCA). Students desiring to work with pupils with speech, language, and hearing impairments on an itinerant or pull-out basis must complete the Clinical-Rehabilitative Services (C-RS) Credential for Language, Speech and Hearing (LSH). Students who wish to be school audiologists must complete the Clinical-Rehabilitative Services Credential for Audiology. Students who plan to teach in the classroom under the Special Day Class Authorization must complete a program of education courses and experiences in addition to completing the requirements for the LSH option.

A master’s degree in communicative disorders is required of all candidates graduating with a C-RS credential.

Candidates for C-RS credential in Language, Speech and Hearing (LSH) or Audiology (A) must complete the requirements for the Certificate of Clinical Competence (CCC) from the American Speech-Language-Hearing Association and the requirements of California licensure in Language and Speech and/or Audiology. See sections on Certificates and Licensure.

Admission Requirements:

1. Formal application to San Diego State University and to the Department of Communicative Disorders. All applicants for the credential must satisfy the admission requirements of the university and of the department for classified graduate standing and be recommended by the department for admission to the credential program.
2. California Basic Education Skills Test (CBEST) results.
3. Interview with the coordinator of the specific credential option (Language, Speech, and Hearing; Audiology; Special Class Authorization).

Program Requirements:

The program of professional preparation for the C-RS Credential in Language and Speech or Audiology requires a minimum of 75 semester credit hours, including a minimum of 27 semester credit hours in basic sciences and a minimum of 36 semester credit hours in professional coursework. At least 30 of the 36 semester credit hours must be in courses for which graduate credit is received, and at least 21 of the 30 graduate semester credit hours must be in the professional area for which the credential is sought. The candidate must complete a minimum of 25 supervised observation hours and 350 clinical contact hours including 50 clock hours in each of three types of clinical settings. This credential also requires that a minimum of 100 clock hours be completed in the school setting. See the section on Certificates and the Credential Coordinator for additional information.

C-RS Language, Speech and Hearing

The following courses are required: Communicative Disorders 106, 110, 205, 300, 320, 321, 322, 340, 340L, 501, 505, 511, 512, 513, 517, 525, 526, 539, 541, 546, 613 or 614, 618, 521 (child screening) or 619 or 676, 601 or 654, 626 or 627, 630, 671 or 673, 675, 929 and 933A. Courses from other departments include Child and Family Development 270 and 270L, 570, 697, or appropriate experience; Physics 201; Psychology 101 or Sociology 101; Psychology 230, 260; Special Education 500; and Linguistics 452.

C-RS Audiology

The following courses are required: Communicative Disorders 106, 159, 205, 300, 320, 321, 322, 323, 340, 340L, 511, 512, 513, 517, 521, 525, 541, 542, 545, 546, 610, 611, 620, 627, 630, 643, 645, 646, 647, 648, 668 or 671, 929, 933 (audiology placement). Courses from other departments include Child and Family Development 270 and 270L or 697 or appropriate experience; Linguistics 452; Physics 201; Psychology 101 or Sociology 101; Psychology 230, and Special Education 500.
C-RS Language, Speech and Hearing including Special Class Authorization

Program Requirements:
1. A current Clinical Rehabilitative Services Credential in Language and Speech or an earlier California credential that authorizes the provision of itinerant speech-language services in public schools.
2. Verification of subject matter competence prior to advancement to full-time daily teaching responsibilities.
3. Demonstration of knowledge of alternative methods of developing English language skills.
4. Satisfaction of the Level I core requirements for the Special Education Specialist credentials.
5. Completion of a minimum of 100 hours of teaching in a Communicatively Handicapped class.

The following courses are required: Communicative Disorders 655, 929, 933B, Special Education 501, Teacher Education 526, 536, 610A, 630, 637, 910A, 930A, 930B.

Certificates and Licensure

Preparation Leading to the Certificate of Clinical Competence from the American Speech-Language-Hearing Association

Students may complete the academic and clinical practice requirements leading to the Certificate of Clinical Competence in Speech-Language Pathology (CCC-Slp) or to the Certificate of Clinical Competence in Audiology (CCC-A) given by the American Speech-Language-Hearing Association (ASHA). The certificate requires a master's degree and 75 semester units (at least 27 of the 75 semester units must be in basic science coursework, and at least 36 of the 75 semester units must be in professional coursework). At least 30 of the 36 professional coursework units must be in courses for which graduate credit was received. A minimum of 21 of the 30 units must be completed at the graduate level in the professional area for which the certificate is sought. The certificate requires 375 clock hours of supervised clinical observation (25 hours) and clinical practicum (350 hours), and at least 250 or the 350 clock hours must be in the professional area for which the certificate is sought while the applicant is engaged in graduate study. Clock hours must satisfy designated categories for age span, types of disorders, assessment and intervention. The applicant must pass a national examination in the area for which the certificate is sought and complete a Clinical Fellowship (following approval of academic coursework and clinical practice). Consult an adviser in the area in which certificate is desired.

Preparation Leading to the Professional Certificate from the Council on Education of the Deaf

Students may complete the academic and practica requirements leading to the Professional Certificate given by the Council on Education of the Deaf. The Professional Certificate requires a specific pattern of courses and teaching experiences. Consult an adviser in the Program for Education of the Deaf for more information.

Preparation Leading to State Licensure in Speech Pathology or Audiology

Students may complete the academic and clinical practicum requirements leading to California State Licensure in Speech Pathology or in Audiology, a legal requirement for all individuals professionally employed in non-public school settings and some public school settings. The Speech Pathology and Audiology Examining Committee which operates within the California State Board of Medical Quality Assurance requires a master's degree or equivalent in communicative disorders in the area (Speech Pathology or Audiology) in which the license is to be granted, 300 clock hours of supervised clinical experience, a national examination, and nine months of full-time supervised work experience (Required Professional Experience). Most Licensure and ASHA Certification requirements may be fulfilled concurrently. Consult an adviser in the area in which licensure is desired for specific information.

Liability Insurance

Students enrolled in Communicative Disorders 340L, 357, 525, 526, 541, 545, 546, 556 are required to purchase professional liability insurance.

Courses (C DIS)

LOWER DIVISION COURSES

106. Communicative Disorders (3)
Orientation to field of speech pathology and audiology. Survey of communicative disorders, covering all areas of exceptionality, normal growth and development as it relates to speech and language. Waiver of this course is permitted only upon satisfactory passage of a competency examination.

108. Oral Communication Laboratory (1) Cr/NC
Two hours of laboratory.
Prerequisite: Consent of instructor.
Individual laboratory training on specific speech problems. Student chosen through testing by Department of Communicative Disorders.

110. Observation: Communicative Disorders (2) Cr/NC
One lecture and two hours of observation per week.
Prerequisites: Credit or concurrent registration in Communicative Disorders 106.
Observation and discussion of diagnostics and remediation of speech and language disorders in children and adults in varied off-campus settings. Observation in public schools satisfies credential and certification requirements.

159. American Sign Language I (4)
Introduction to American Sign Language syntax, semantics, and use. Development of beginning level communicative competence.

205. Introduction to Audiology (3)
Prerequisites: Credit or concurrent registration in Physics 201. Qualification on Mathematics Departmental Placement Examination, Part IA.
Introduction to profession of audiology, anatomy, and physiology of hearing mechanism, physics of sound and decibel, understanding audiogram, introduction to diagnostic audiology and aural pathologies.

259. American Sign Language II (4)
Prerequisite: Communicative Disorders 159.
Intermediate level communicative competence in American Sign Language (ASL) is developed.

289. American Sign Language III (4)
Prerequisite: Communicative Disorders 259.
Development of advanced communicative competence in American Sign Language (ASL).

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

300. Language Structure and Processing (3)
Prerequisite: Communicative Disorders 106.
Design features of language as they relate to communication behavior. Role of language structure and processing in typical and disordered communication. (Formerly numbered Communicative Disorders 500.)
320. Phonetics (3)  
Two lectures and three hours of laboratory.  
Auditory, kinesthetic and visual analysis of the sounds of the English language, including regional and foreign dialect and disordered speech. Competency in I.P.A. broad transcription and introduction to narrow transcription.

321. Anatomy, Neurology, and Physiology of Speech (4)  
Three lectures and three hours of laboratory.  
Prerequisite: Communicative Disorders 106. Recommended: Psychology 260.  
Anatomy and physiology of neural, respiratory, phonological, and articulatory systems related to speech.

322. Psychological Foundations of Communicative Disorders (3)  
Prerequisites: Communicative Disorders 106; Psychology 101. Recommended: Credit or concurrent registration in Psychology 230.  
Conceptual and theoretical bases for understanding communication as a psychological process determined by principles of learning within social contexts. Application of theories of personality, behavior and cognitive social learning to speech and language development, pathology, assessment and remediation. For students in all areas of communicative disorders.

323. Speech Science (3)  
Prerequisite: Communicative Disorders 106. Recommended: Communicative Disorders 321, Psychology 260.  
Basic concepts of speech science, laboratory methods, and data concerning speech acoustics, physiological phonetics, speech production theory, and speech perception.

340. Principles of Audiology (3)  
Prerequisites: Communicative Disorders 205, Physics 201, Psychology 260 and concurrent registration in Communicative Disorders 340L.  
Diagnostic audiology procedures: Pure-tone testing, masking, speech recognition testing and imittance. Integration and interpretation of results from the basic audiological test battery.

340L. Techniques of Audiometry (1)  
Three hours of laboratory.  
Prerequisite: Credit or concurrent registration in Communicative Disorders 340.  
Laboratory experience with pure-tone, speech, and immittance audiometric tests.

350. Introduction to Deaf Culture (3)  
American deaf community. Focus on language, social practices, evolution of cultural identity. Practicum (with ASL interpreters if necessary) will provide students with direct interaction within deaf community.

357. Fieldwork with the Deaf (1-2) Cr/NC  
Two hours of activity per unit of credit and one hour of staffing.  
Prerequisite recommended: Communicative Disorders 159.  
Field observation and participation under supervision in school settings with small groups of hearing impaired youngsters. Maximum credit three units.

496. Topics in Communicative Disorders (1-3)  
Study of some problem in communicative disorders. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit six units.

499. Special Study (1-3)  
Prerequisite: Consent of instructor. Individual study. Maximum credit six units.

**UPPER DIVISION COURSES**  
(Also Acceptable for Advanced Degrees)

501. Voice Disorders: Children (3)  
Two lectures and three hours of laboratory.  
Prerequisite: Communicative Disorders 321.  
Theory and practice in the remediation of voice disorders. Laboratory involves measurements of vocal dimensions and perceptual training for diagnosis and remediation of voice disorders.

505. Remediation for Fluency Disorders in School-Aged Children (3)  
Prerequisite: Communicative Disorders 322.  
Theoretical and phenomenological understanding of stuttering as a communicative disorder; explanations for learning of disfluent behaviors; applied techniques in rehabilitation for school-aged children with disfluent speech.

511. Pediatric Aural Rehabilitation (3)  
Prerequisites: Communicative Disorders 320, 323, and 340. Recommended: Communicative Disorders 300, 357, and 513.  
Theoretical, methodological, and technical issues related to facilitating receptive and expressive communication in individuals who are deaf or hard-of-hearing. Emphasizes multidisciplinary case management of children.

512. Phonological Disorders and Methods (3)  
Prerequisite: Communicative Disorders 320.  
Theories and research in analysis and remediation of phonologically disordered systems. Emphasis on linguistics, language universals, and developmental norms.

513. Language Disorders and Methods (3)  
Prerequisites: Communicative Disorders 300, 320, and Linguistics 452.  
Language development, delay, and disorders as they relate to theory and clinical practice. Methods of assessment and intervention of language impairments and differences in hearing and deaf children.

517. Diagnostic Methods in Speech-Language Assessment (3)  
Two lectures and two hours of educational activities.  
Prerequisites: Credit or concurrent registration in Communicative Disorders 512 and 513.  
Principles and procedures for culturally relevant assessment of communication disorders in children and adults. Ethnographic interviewing; formal, informal and unbiased testing; clinical reporting. Practice with selected methods and tools. Four to eight hours observation of diagnostic practicum required.

521. Child Screening Evaluations in Speech-Language Pathology (1)  
Three hours of laboratory screening per week.  
Prerequisites: Communicative Disorders 512, 513, 517, and clinic clearance. Communicative Disorders 513 is not required for audiology students.  
Screening evaluations of speech and language of children.

522. Adult Screening Evaluations in Speech-Language Pathology (1) Cr/NC  
Three hours of laboratory screenings per week.  
Prerequisites: Communicative Disorders 517, 539, and clinic clearance.  
Screening evaluations of speech and language of adults.

525. Introductory Clinical Practice (1)  
Eight hours of orientation; thereafter two hours of practicum and one hour of staffing per week.  
Prerequisites: Grade point average of 2.75 or better in Communicative Disorders 300, 320, 321, 340, 512, 513, 517, and Linguistics 452.  
Orientation to clinic, supervised observation, and practicum with representative speech and language problems.
526. Clinical Practice in Speech-Language Pathology (1-2)  
Two hours of practicum and one hour of staffing.  
Prerequisite: Grade of C or better in Communicative Disorders 525.  
Supervised practice with representative speech and language problems. Up to two units may be taken concurrently; maximum credit two units. Qualified transfer students must enroll in at least one unit of 526 prior to 626.

539. Neuropathologies of Speech and Language (3)  
Prerequisites: Communicative Disorders 321 and Linguistics 452. Research and theory concerning nature, etiologies, and principles of treatment of disorders of speech and language resulting from pathologies of the nervous system.

540. Hearing Conservation and Audiometry for School Nurses (3)  
Prerequisite: Registered nurse. Builds on registered nurse’s knowledge of anatomy, physiology, and medical-surgical treatment of disease as it relates to auditory mechanism. Designed to give background in hearing screening (pure tone and impedance) and awareness of ramifications of hearing loss in children necessary for referral and follow-up. Fulfills three-unit requirement for the School Nurse Credential and may be used toward the six-unit State Audiometric Certificate requirement. Not open to students with credit in Communicative Disorders 205, 340, 340L.

541. Hearing Screening of Children (1) Cr/NC  
Three hours of laboratory screening per week.  
Prerequisites: Communicative Disorders 340 and 340L. Field experiences in audiometric and impedance screening of children to obtain contact hours in screening required by American Speech-Language-Hearing Association, California License, and Clinical-Rehabilitative Services credential.

542. Diagnostic Audiology (3)  
Two lectures and two hours of activity.  
Prerequisite: Communicative Disorders 340L. Advanced audiometric procedures, including speech measures, masking, immittance, special tests, cerumen management, central assessment, and calibration. Practice with clinical report writing and clinical decisions.

545. Clinical Practice in Audiologic Assessment (1-3)  
Two hours of evaluation and one hour of staffing.  
Prerequisites: Communicative Disorders 340 and credit or concurrent registration in Communicative Disorders 542. Supervised practicum with pure tone, speech, immittance, and special audiologic testing. One unit represents two hours of clinical contact and one hour of staffing per week. Maximum credit three units.

546. Clinical Practice with Aural Rehabilitation (1)  
Two hours of therapy and one hour of staffing.  
Prerequisites: Grade of C or better in Communicative Disorders 511 and a minimum of two units in Communicative Disorders 525, 526, and/or 545. Supervised practicum in aural rehabilitation. One unit represents two hours of clinical contact and one hour of staffing per week.

550. Education of Deaf Children and Youth (3)  
Prerequisite: Communicative Disorders 350. Educational programs, services and resources for learners who are deaf; historical background, philosophy, sociological and psychological problems.

556. Clinical Practice with the Deaf (1)  
Prerequisites: Communicative Disorders 159, 357; credit in two of the following and concurrent registration in the third: Communicative Disorders 511, 513, 562. Admission to clinical practicum includes successful completion of competency examination. Supervised therapy with representative problems found in the hearing impaired population. Maximum one unit first semester; maximum credit two units.

562. Oral Communication for Deaf and Hard-of-Hearing Children (3)  
Prerequisite: Communicative Disorders 550. Current methods for developing oral/aural communication skills with learners who are deaf or hard-of-hearing and youth. Differential problems of acquisition of communicative competence. Assessment and intervention procedures for classroom and clinical settings.

570. Dysphagia (3)  
Prerequisite: Communicative Disorders 539. Measurement techniques and research in dysphagia. Assessment and treatment of dysphagia and swallowing problems in children and adults. (Formerly numbered Communicative Disorders 609.)

580. Communication Problems of the Aging (3)  
Prerequisites: Twelve upper division units in an appropriate major. Normal communication processes and aging, including memory and cognition for speech and language, and physiological changes; speech and language pathologies; hearing problems and rehabilitation, including hearing aids, psychosocial aspects of communication, including family dynamics; and resources available within the community. Open to majors and nonmajors.

595. Research Practicum (1-3)  
Prerequisites: Consent of instructor and approval of department chair. Participation in a specific research activity under faculty supervision. Maximum combined credit of six units of Communicative Disorders 595 and 795.

596. Selected Topics in Communicative Disorders and Science (1-4)  
Prerequisite: Twelve units in communicative disorders and science courses. Specialized study of selected topics from the area of speech-language pathology, audiology, education of the hearing impaired, and speech and hearing science. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596. Maximum credit of three units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Community Health Education
In the College of Health and Human Services

Faculty
Emeritus: Barnes, Boskin, Burgess, Harper, Kessler, Kitzinger, McTaggart, Sorochan
Professors: Chang, Senn
Associate Professor: Noto
Assistant Professor: Gorbach
Lecturer: Gresham

Offered by the Graduate School of Public Health
Major in health science with the B.S. degree in applied arts and sciences.
Emphasis in community health education.
Minor in health science.

The Major
Health education is becoming increasingly accepted as an important and economical tool for promoting health behaviors among people. Despite the vast array of preventive, therapeutic, and rehabilitative facilities developed by medical science, human health continues to depend largely on translating knowledge into individual behaviors and lifestyles. Education designed to encourage appropriate health behaviors can effectively prevent much suffering and disability. The Health Science major with an emphasis in Community Health Education trains students to develop, implement and assess health education programs in a variety of settings for different target groups. The major prepares entry-level health educators for positions in government, hospitals, clinics and private/voluntary health agencies.
Preparatory coursework for this interdisciplinary major includes courses in community health education, communication, nutrition, psychology, sociology, zoology, chemistry, microbiology and mathematics. Career opportunities vary depending on funding, geographic location, population shifts, health status and disease patterns. Bilingual and bicultural skills are widely needed in the job market.

Impacted Program
The health science major with an emphasis in community health education is an impacted program. Students must enter the University under the health science premajor code (12010). To be admitted to the emphasis in community health education, students must meet the following criteria:

1. Complete with a grade of B or higher: Community Health Education 290 and 292;
2. Clear the competency requirements in mathematics and writing. Refer to Graduation Requirements section of this catalog for details;
3. Submit a written statement outlining career goals and personal motivation for entering the health field;
4. Have a cumulative GPA of 2.5 or higher; and
5. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Standards for Admission

Admission to the Premajor
Declarations of the Health Science Premajor is only accepted from November 1 to November 30 each year for admission the following fall semester. No applications are accepted for Spring semester.

Admission to the Major
There are additional requirements for advancement to the major.
1. A grade of “B” or better in Community Health Education 290 and Community Health Education 292.
2. Satisfactory completion of lower division writing and mathematics competency examinations.
3. Overall GPA of 2.50 or better in all classes.
4. Submission of a written statement outlining the student’s career goals and motivation for entering the health field.

A point system is used for ranking and evaluating prospective applicants. Fulfillment of the requirements does not automatically secure admission to the major, as only a limited number of applicants can be accepted each Fall semester. Premajors are notified in January (after completing Community Health Education 290 and 292) of their acceptance or rejection.

Health Science Major
With the B.S. Degree in Applied Arts and Sciences
(Premajor Code: 12010) (Major Code: 12011)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”
A minor is not required with this major.

Emphasis in Community Health Education
Preparation for the Major. Community Health Education 101, 290, 292; Biology 210*, 212; Chemistry 100 (or Chemistry 130 for students with previous work in chemistry); Communication 103, Nutrition 107; Psychology 101, 270, 271; Sociology 101, 340, 341 (36-37 units)

Upper Division Writing Requirement. Passing the University Writing Examination or Rhetoric and Writing Studies 305W or 503W, or Linguistics 305W with a grade of C (2.0) or better.

Major. A minimum of 39 upper division units to include Community Health Education 401, 402, 406, 490, 497 (six units), 560; Biology 336; Educational Technology 532; and twelve units of electives in community health education (Social Work 350 may be substituted for one of the electives).

* Prerequisites waived for students in this major.

Health Science Minor
The minor in health science consists of a minimum of 15 units, 12 of which must be upper division, selected from Community Health Education 101, 290, 401*, 470, 560, 561.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

* Additional prerequisites required.
Courses (CH E)

LOWER DIVISION COURSES

101. Health and Life Style (3) I, II
Major variables in human health experience with attention to personal health assessment and application of health knowledge to health behavior. Not open to students with credit in Community Health Education 301.

290. Health Education as a Profession (3) I
Prerequisites: Declared pre-health science majors and minors only and Community Health Education 101.
Health education and its role in the health system. For students with professional interests in health education.

292. Community Health (3) I
Prerequisites: Declared pre-health science majors only.
Community health problems; role of the citizen, the public, and community health agencies in promoting and protecting the health of the community.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES (Intended for Undergraduates)

331. Crisis Management (3) II
Physical and psychological crisis situations, various procedures and techniques in immediate management and follow-up referrals.

345. Safety and Accident Prevention (3)
Prerequisite: Community Health Education 292.
Causes and incidence of accidents with emphasis on role of education, prevention, and injury control.

350. Environmental Health Education (3)
Environmental hazards of living and working in this modern technological world, including air, noise, land, food, and water pollution.

353. Sexually Transmitted Diseases (3)
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences.
Evolution and occurrence of sexually transmitted diseases worldwide, focusing on biological, medical, psychological, sociocultural, and political factors.

362. International Health (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences.
Population dynamics, vital statistics, global disease patterns, and analysis of variations among nations and cultures with respect to health problems and health care services.

401. Change Process in the Community (3) I, II
Prerequisites: Community Health Education 290, Psychology 101, Sociology 101, and declared health science majors or minors. Grade of B or better in Community Health Education 290.
Attitude formation, behavior change, decision making, perception, motivation, group behavior, etc., and their relationship to practice of health and human services.

402. Communications in Health Education (3) I, II
Prerequisites: Community Health Education 290, 292, Communication 103, and completion of Upper Division Writing Requirement.
Grade of B or better in Community Health Education 290 and 292.
Development and production of health presentations for group and individual levels; including written, oral, and graphic methods.

406. Health Education Methodology (3) I, II
Prerequisite: Community Health Education 401.
Strategies, techniques, and materials for planning and conducting health education. Applications of learning theory in the development and use of educational methodologies in health education.

470. Communicable and Noncommunicable Diseases (3) I, II
Causes, prevention and control of communicable, degenerative and chronic health disorders.

475. Human Sexuality (3)
Examination of the development of sexual values, attitudes, and behavior from infancy to old age.

490. Measurement and Evaluation in Health Education (3) I, II
Prerequisites: Psychology 270, 271; satisfactory completion of the Entry-Level Mathematics requirement and the SDSU Mathematics Competency requirement. Proof of completion of prerequisites required: Copy of ELM or placement scores or verification of exemption; proof of Cr in General Mathematics Studies 90A or 90B or notification from General Mathematics Studies; copy of transcript.
Measurement in health education; data gathering techniques; organization; presentation and interpretation of data; computer utilization; basic principles of health education programs.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

497. Supervised Field Experience (1-6) Cr/NC I, II
Prerequisites: Senior standing in Community Health Education emphasis; Community Health Education 401, 402, and 406.
Supervised practical experience in local health agencies and/or schools. Maximum credit six units.

499. Special Study (1-3) I, II, S
Prerequisite: Consent of special study adviser.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES (Also Acceptable for Advanced Degrees)

560. Introduction to Public Health (3) I, II
Prerequisite: Community Health Education 290.
Epidemiological methods, behavioral and biological determinants, modes of transmission, risk factors, prevention of common infectious and chronic disease. Evaluation of health information to develop health education programs.

561. Health and Medical Care (3) II
Prerequisite: Senior or graduate standing with a major or minor in health education or a closely related area.
Health values, concepts, and attitudes; health products and facilities; hospital care and hospitalization plans; governmental health controls; economic and cultural influences on health and medical care; professional contributions, relationships, and careers; national and international health programs.

574. Habit-Forming Substances (3) I
Tobacco, alcohol, and other drugs; their use, misuse and abuse.

596. Workshop in Health Education (1-3)
Selected problems in health science are used as a basis for workshop experiences. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596; maximum credit of three units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Comparative Literature

In the College of Arts and Letters

Faculty

Faculty assigned to teach courses in comparative literature are drawn from departments in the College of Arts and Letters.

Offered by the Department of English and Comparative Literature

Major in comparative literature with the B.A. degree in liberal arts and sciences.

Teaching major in comparative literature for single subject teaching credential in English.

Minor in comparative literature.

The Major

Comparative literature is the study of literature from around the world, transcending the restrictions of national and linguistic boundaries. Traditionally, comparative study has been based on literary movements, periods and lines of influence, as well as on genres, themes, myths, and legends. In recent years comparative literature has come to include the comparison of literature with other areas of human experience.

Comparative literature offers students the opportunity to study a broad range of literary subjects from various cultures throughout the world. Courses are offered in European literature from ancient to contemporary times; in the literature of Asia, Africa, and Latin America; in folk literature, legend, fantasy, and science fiction; in literary theory; and in special topics such as travel literature, literature and existentialism, and Japanese literature and film. All reading is done in English translation (majors choosing Plan II, however, are also required to take courses in foreign language literature).

Because the field covers so wide a range, the comparative literature student does not acquire a comprehensive knowledge of any basic list of “great works.” Such a list, for all of world literature, would be far too long. Instead, students learn various approaches to literature, along with specialized knowledge of areas which particularly interest them.

Comparative literature is an excellent major for anyone desiring a broadening and enriching liberal arts education. Its application to foreign cultures is particularly useful for careers in foreign service and international trade. Translating, editing and publishing, journalism, broadcasting, and film are other possibilities as well as advertising and public relations, politics, writing, library work, and criticism. Comparative literature is also, like English, an excellent foundation for careers in the professions, especially law.

The comparative literature major may also be used as preparation for the single subject (high school) teaching credential in English. Graduate study in comparative literature may lead to teaching at more advanced levels. The Plan II major has been specifically designed for students who plan to do graduate work in this area.

Advising

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Comparative Literature Major

With the B.A. Degree in Liberal Arts and Sciences

(Major Code: 15031)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in comparative literature and English courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major

Comparative Literature 210, 270A, 270B. (9 units)

Foreign Language Requirement. Plan I: Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Plan II: See below.

Upper Division Writing Requirement. Passing the University Writing Examination or English 508W, 518W, 584W or Rhetoric and Writing Studies 500W with a grade of C (2.0) or better.

Major. Plan I: General literature. For students who do not intend to enter a graduate program in comparative literature.

Required: A minimum of 33 upper division units to include 18 units in one of the three areas (A, B, and C) below; nine units in American literature, British literature, or creative writing; and an additional six units in comparative literature.

Plan II: For students who intend to enter a graduate program in comparative literature.

Required: A minimum of 30 upper division units to include 18 units in one of the three areas (A, B, and C) below; six units in a foreign language literature (read in the original language); and six units in another literature (which may be English or American) read in the original language. It is strongly recommended that even those students choosing English or American as their second language attain competency in a second foreign language.

A. European Literature. Eighteen units selected from the following:

1. Comparative Literature 511, 512, 513, 514.
2. Up to six units in other, variable-content comparative literature courses with appropriate content approved by the departmental adviser.

B. Asian, African, and Latin American Literature. Eighteen units selected from the following:

1. Comparative Literature 440, 445, 455, 460, 530.
2. Up to six units in other, variable-content comparative literature courses with appropriate content approved by the departmental adviser.
Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (C LT)

LOWER DIVISION COURSES

210. Introduction to Comparative Literature (3)
Introductory study of comparative literature, its current status, its historical development, range of comparative approaches. Generally includes guest presentations by various members of the comparative literature faculty.

270A-270B. World Literature (3-3) I, II
Comparative study of selected major works from various continents and cultures, with emphasis on way literature deals with enduring human problems and values. Semester I: prior to 1500; Semester II: since 1500. Comparative Literature 270A is not a prerequisite to 270B, and either may be taken separately.

296. Topics in Comparative Literature (3)
Introduction to subject matter of comparative studies in literature. Focus on a specific movement, theme, figure, genre, etc. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

UPPER DIVISION COURSES
(Extended for Undergraduates)

405. The Bible as Literature (3) I, II
(Same course as English 405.) Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities. Prose and poetry of the King James version.

440. African Literature (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors. Comparative study of African literature as well as Black literature of North and South America and the Caribbean; intercontinental influences and the theme of Black identity.

445. Modern Latin American Literature (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors. Reading selections from major Latin American authors.

455. Classical Asian Literature (3)
Prerequisites: Comparative Literature 270A or 270B or English 220; and completion of the General Education requirement in Foundations II.C.. Humanities required for nonmajors. Survey of one or more Asian literatures from the classical period of China, Japan, India, Korea, and others.

460. Modern Asian Literature (3)
Prerequisites: Comparative Literature 270A or 270B or English 220; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors. Survey of one or more Asian literatures from the modern period of China, Japan, India, Korea, the Philippines, Vietnam, and others.

470. Folk Literature (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities. Studies in the ballad, bardic poetry, oral and popular literature and folklore.

490. Literary Movements (3)
A movement or theme in world literature—such as symbolism, existentialism, revolution, or romantic love. See Class Schedule for specific content.
Comparative Literature

499. Special Study  (1-3) Cr/NC I, II
Prerequisites: Consent of instructor and approval of department chair.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)
Prerequisite for all 500-level courses: Six units in literature or three units in literature and three units in a related area appropriate to the course in question.

511. Continental Renaissance  (3)
Representative selections from authors of the Renaissance period in continental Europe.

512. Seventeenth and Eighteenth Century European Literature  (3)
Selected works by European writers prior to 1800.

513. Nineteenth Century European Literature  (3)
Selected works by European writers between 1800 and 1900.

514. Modern European Literature  (3)
Selected works by European writers of the twentieth century.

530. Topics in Asian Literature  (3)
Specialized study of a selected topic in Asian literature. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

561. Fiction  (3)
A comparative approach to themes and forms in fiction (novel and short story). Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

562. Drama  (3)
Forms and themes in drama. Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

563. Poetry  (3)
A comparative approach to themes and forms in poetry. Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

571. Literary Use of Legend  (3)
Literary treatment of such legendary figures as Don Juan, Faust, and Ulysses, in a wide range of literature and genres. See Class Schedule for specific content.

577. Major Individual Authors  (3)
In-depth study of the works of a major author, such as Dante, Murasaki, or Dostoyevsky. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

580. Concepts in Comparative Studies  (3)
Basic concepts in comparative studies in literature (e.g., influence, movement, figure, genre, etc.); their validity, usefulness, and limitations. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

594. Topics in Literature and the Arts  (3)
Prerequisite: Six upper division units in literature or any of the other arts.
Comparative study of literature and other arts such as painting, sculpture, architecture, music, dance, and film. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a bachelor's degree. Maximum credit six units applicable to the M.F.A. degree in creative writing.

595. Literature and Aesthetics  (3)
Prerequisite: Six upper division units in literature or any of the other arts.
Theoretical and experiential investigation of relationships between literature and the other arts; literary works in context of an inquiry into aesthetics.

596. Topics in Comparative Literature  (3)
An intensive study of a topic to be selected by the instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.
General Education

Transfer Credit

No credit will be given for upper division engineering coursework taken at an institution having an engineering program which has not been accredited by the Accreditation Board for Engineering and Technology, Inc., unless the student successfully completes the first 12 units of engineering work attempted at this University. At that time, and upon recommendation of the department, credit will be given for the unaccredited work.

General Education

Students will complete a minimum of 50 units in General Education, to include a minimum of nine upper division units taken after attaining junior class standing. No more than 12 units may be used for General Education credit from any one department or academic unit. No more than 7 units from one department can be used in Sections II, III, and IV combined (Foundations, American Institutions, and Explorations).

I. Communication and Critical Thinking: 9 units
   1. Oral Communication (3 units)
   2. Composition (3 units)
   3. Intermediate Composition and Critical Thinking (3 units)

II. Foundations: 29 units
   A. Natural Sciences and Quantitative Reasoning (17 units):
      1. Physical Sciences (11 units)
         Engineering students will take Chemistry 200 which includes a laboratory (5 units).
         Physics 195 (3 units)
         Physics 196 and 196L (4 units)
      2. Life Sciences (3 units)
   B. Social and Behavioral Sciences (3 units)
   C. Humanities (9 units)
      Complete three courses in three different areas. One of these courses and the one under IV.A. below must be taken in the same department.

III. American Institutions: Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

IV. Explorations: Total 9 units; must include one course of cultural diversity:
   A. Upper division Humanities (3 units)
      Three units must be taken from the same department as one of the Humanities courses selected in Foundations.
   B. Upper division Humanities (3 units from a department not selected in A above.)
   C. Upper division Social and Behavioral Sciences (3 units)

The Major

Computers are machines that store and process information. Desktop computers, portables, workstations, and mainframe computers are the most readily recognized examples of such devices. Equally important, however, are the millions of micro computers that are embedded in machines, instruments, and products of all sorts. For example, there are embedded computers in VCRs, cameras, telephones, CD players, tape players, televisions, washing machines, ovens, robots, automobiles, airplanes, medical instruments, toys, and many other devices, both familiar and exotic.

Computer Engineers are involved in the design, development, manufacture, installation, and operation of general purpose and embedded computers of all sorts. They are equally concerned with hardware (i.e., the electronic circuits and devices that actually store and process information) and software (i.e., the programs that control the operation of the hardware). The B.S. degree program in Computer Engineering provides a solid foundation in the fundamentals of mathematics, science, computer hardware, computer software, and engineering design that are needed to practice the profession or to pursue a graduate degree in the field.

In addition to fundamentals, the curriculum also includes training in the areas of rapid growth that are important to modern practice of computer engineering. Some of the most important areas include:

- Very Large Scale Integrated Circuits design (i.e., the design of electronic circuits implemented on silicon chips)
- Multimedia Systems (i.e., systems that process audio and visual information as well as text and numbers)
- Digital Signal Processing (DSP), which plays a vital role both in processing the continuous signals that are common in embedded system applications and in compressing and processing the large volumes of information that are common in multimedia systems
- Computer Networks, which have become vital for connecting multiple computers in distributed control applications, and connecting users of general purpose computers who wish to share information and computing resources
- Object Oriented Programming (OOP), a systematic procedure for designing more reliable and maintainable software

The computer engineering curriculum provides a balance between theory and practice that prepares the graduate both for immediate employment and for continued study. The process of engineering design is emphasized throughout the curriculum by including open-ended problems with realistic design constraints. Creativity, consideration of economic and social factors, and the application of systematic design procedures are required in major design projects during the senior year.

Educational Objectives

The objectives of the computer engineering program are to provide graduates with:

a. the ability to function as knowledgeable professionals in computer engineering, and as responsible and productive members of society;

b. the fundamental background and critical thinking skills that will facilitate continued learning in either an academic or professional setting;

c. the communication skills and broad background that are necessary for successful participation in multidisciplinary team projects;

d. a general education that provides a background for understanding ethical and social issues related to the profession.
Computer Engineering Major

With the B.S. Degree (Major Code: 09094)

The program below describes the 130 units required for the degree.

**Preparation for the Major.** Computer Engineering 160, 260, 270, 271; Electrical Engineering 210; Engineering 280; Mathematics 150, 151, 245, 252; Physics 195, 196, 196L. (41 units)

**General Education.** Engineering students must follow the specific General Education program outlined on this page. Other General Education requirements and limitations, as well as listings of specific General Education course electives are presented in Section IX of Graduation Requirements for the Bachelor's Degree. (Fifty units, including 14 units from preparation for the major which count toward General Education credit, and 3 units of American institutions which count toward General Education credit.)

**American Institutions.** This requirement is described in Section IV of Graduation Requirements for the Bachelor's Degree.

**Upper Division Writing Requirement.** Each student must pass the University Writing Examination or complete one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 50 upper division units to include Computer Engineering 361, 375, 460, 470, 470L, 475; Electrical Engineering 300, 310, 330, 330L, 410; three engineering design electives selected from Computer Engineering 490A-490B, 560, 561, 572, Electrical Engineering 530, 539, 556, 570, 581 or other approved elective (9 units); and 12 units of approved technical electives in computer engineering, computer science, or electrical engineering. After enrollment in Computer Engineering at SDSU, the Computer Engineering major must take all upper division computer science and engineering courses at SDSU unless prior approval is obtained from the department.

Elective courses are subject to the approval of the faculty adviser and the department chair. The student must file an approved Master Plan during the first semester of the junior year specifying the electives selected. Changes in the Master Plan are permitted at any time, with approval of the department chair.

**Courses (COMPE)**

**NOTE:** Prerequisites will be enforced in all undergraduate computer engineering and electrical engineering courses numbered 100 through 599. A copy of an official transcript will be accepted as proof. For corequisites, an enrollment confirmation form will be accepted. Any course at the 300 level or below must be passed with a grade of C- or better in order to be used as a prerequisite for any subsequent course.

**LOWER DIVISION COURSES**

**160. Introduction to Computer Programming** (3) I, II
Two lectures and three hours of laboratory.

* See previous page for specific requirements.
+ Check with department for approved courses.
260. Data Structures and Object-Oriented Programming (3)
Prerequisite: Computer Engineering 160 and credit or concurrent registration in Mathematics 245.
Data structures using object-oriented programming. Disciplined approach to design, coding, and testing using OOP, teach use and implementation of data abstractions using data structures. Arrays, linked lists, stacks, queues, trees. Sorting, searching, recursive algorithms.

270. Digital Systems (3) I, II
Prerequisite: Mathematics 151.
Modeling, analysis and design of digital systems, primarily at the Logic Design level. Combinational and sequential networks. Not open to students with credit in Electrical Engineering 370. (Formerly numbered Electrical Engineering 270.)

271. Computer Organization (3) I, II
Prerequisites: Computer Engineering 160 and 270.
Organization and operation of computer hardware and software. Operating system shell and services. Program design and development. Input-output programming. Multi-module and mixed-language programming. Assembler and C language. (Formerly numbered Electrical Engineering 371.)

290. C/C++ as a Second Language (1) Cr/NC
Prerequisite: Equivalent of two programming courses in language(s) other than C/C++. Fundamentals of C and C++ for programmers who are new to C, C and C++ data types, selection, iteration, functions, pointers, arrays, and input/output. Classes, overloading, inheritance, and abstract data types in C++. Intended primarily as a bridge course for transfer students.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

361. Windows Programming (3)
Prerequisites: Computer Engineering 260 and 271.

375. Embedded Systems Programming (3)
Two lectures and three hours of laboratory.
Prerequisite: Computer Engineering 271.
Embedded system architecture; IO programming using parallel ports, serial ports, timers, and D/A and A/D converters; interrupts and real-time programming; program development and debugging tools; C language and assembler. (Formerly numbered Electrical Engineering 375.)

460. Software Design and Engineering (3)
Prerequisites: Computer Engineering 260 and 361.
Software design and engineering using object-oriented concepts. Object-oriented software development, classes, inheritance, design by abstraction, design patterns, object-oriented application framework, and introduction to concurrent and distributed computing. Application through design case study. (Formerly numbered Computer Engineering 360.)

470. Digital Circuits (3) I
Prerequisite: Computer Engineering 270.
Design of digital electronic systems using commercially available high-speed digital devices and circuits. (Formerly numbered Electrical Engineering 470.)

470L. Digital Logic Laboratory (1) I, II
Three hours of laboratory.
Prerequisites: Computer Engineering 470 and Electrical Engineering 330L.
Hands-on experience in characterization and application of standard digital integrated circuit devices. (Formerly numbered Electrical Engineering 470L.)

475. Microprocessors (3) II
Prerequisites: Computer Engineering 271 and 470.
Bus design, memory design, interrupt structure, and input/output for microprocessor-based systems. (Formerly numbered Electrical Engineering 475.)

490A-490B. Senior Project (490A: 1 unit, SP) (490B: 2 units)
Prerequisites: Computer Engineering 361, 375, 460, and prior approval of project by supervising instructor.
Supervised team design projects. Each team completes a single design project in the two-semester sequence. Written and oral reports.

496. Advanced Computer Engineering Topics (1-3)
Prerequisite: Consent of instructor.
Modern developments in computer engineering. See Class Schedule for specific content. Maximum credit nine units for any combination of Computer Engineering 496 and 596 applicable to a bachelor's degree.

499. Special Study (1-3) I, II
Prerequisite: Approval of project adviser and department chair.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Intended for Undergraduates)

560. Computer and Data Networks (3)
Two lectures and three hours of laboratory.
Prerequisites: Computer Engineering 271 and Electrical Engineering 410.
Wide area and local area networks. Multi-layered protocol models, telephone systems, modems, and network applications. (Formerly numbered Electrical Engineering 560.)

561. Advanced Windows Programming (3)
Prerequisite: Computer Engineering 361.

565. Multimedia Communication Systems (3)
Prerequisite: Credit or concurrent registration in Computer Engineering 560.

572. VLSI Circuit Design (3) I
Prerequisites: Computer Engineering 271 and Electrical Engineering 330.
Design of digital integrated circuits based on CMOS technology; characterization of field effect transistors, transistor level design and simulation of logic gates and subsystems; chip layout, design rules, introduction to processing; ALU architecture. (Formerly numbered Electrical Engineering 572.)

596. Advanced Computer Engineering Topics (1-3) I, II
Prerequisite: Consent of instructor.
Modern developments in computer engineering. See Class Schedule for specific content. Maximum credit of nine units for any combination of Computer Engineering 496 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Computer Engineering 596 and 696 applicable to a 30-unit master's degree.
The B.S. degree in Computer Science is accredited by the Computer Science Accreditation Commission of the Computing Sciences Accreditation Board.

Faculty
Emeritus: Baase-Mayers, Vinge
Chair: Elwin
Coordinator for Computer Science: Beck
Professors: Anantha, Beck, Carroll, Donald, Marovac, Stewart, Swiniarski, Tarokh, Yuskoiv
Associate Professors: Eckberg, Whitney
Adjunct: Root

Offered by the Department of Mathematical and Computer Sciences
Master of Science degree in computer science.
Minor in computer science.
Certificate in geographic information science.

The Major
Computer Science is the study of computers and their applications. It is concerned with methods for storing and retrieving information, with the design and use of languages for writing computer programs, with the hardware systems that interpret such languages, and with the theoretical principles that form the foundations of computing. Computer Science includes a wide variety of specialties and application areas such as artificial intelligence, robotics, graphics, systems programming, simulation, and computer networks.

The Bachelor of Science in Computer Science is designed to provide students with a fundamental understanding of modern computing methodology and programming practices along with a complementary knowledge of hardware. The first two years provide the basic preparation in programming, data structures and architecture. The final two years are devoted to more advanced fundamentals and specialized electives. Computers are used to store and manage information, to analyze scientific data, and in a wide variety of other applications. Computing technology is found in an almost limitless number of settings, ranging from automobiles to household appliances to toys. Because of this, a wide range of jobs are open to people trained in Computer Science. Employment opportunities are expected to remain very strong.

Impacted Program
The computer science major is an impacted program. Students must enter the University under the computer science premajor code (07010). To be admitted to the computer science major, students must meet the following criteria:

a. Complete with a grade of C or higher: Computer Science 107, 108, 237; and Mathematics 150, 151, 245. These courses cannot be taken for credit/no credit (CR/NC).

b. Complete lower division General Education requirements in written and oral communication and critical thinking in the English language.

c. Have a cumulative GPA of 2.75 or higher, and

d. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Computer Science Major
With the B.S. Degree in Applied Arts and Sciences
(Premajor Code: 07010) (Major Code: 07011)
All candidates for a degree in arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements.*

A minor is not required for this major.

Preparation for the Major.
Computer Science 107, 108, 237; Mathematics 150, 151, 245, 254, 256, 258; Statistics 250; Physics 195, 195L, 196, 196L, or Chemistry 200, 201, or Biology 201, 202; and two additional science courses selected with approval of a computer science adviser. These must be courses for sciences or engineering majors or have a strong emphasis on quantitative methods. (41-43 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major.
A minimum of 37 upper division units to include Computer Science 310, 320, 370, 440, 490, 530, 550, 570; at least one course selected from Mathematics 541, 579, Statistics 350A, 550, or 551A; and 12 units of computer science electives selected with the approval of a computer science major adviser. At least nine units of electives must be in computer science. The student must complete an outline for the major and file a copy signed by a major adviser with the Office of the Registrar.

Computer Science Minor
The minor in computer science consists of a minimum of 18-24 units in computer science and mathematics to include Computer Science 107, 108; and at least 12 upper division units, or at least nine upper division units if the student completes a full calculus sequence, i.e., Mathematics 121 and 122, or 150 and 151. The courses selected are subject to the approval of the minor adviser.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Geographic Information Science Certificate*
The purpose of the program is to prepare students to acquire, manage, and visualize geospatial data in public and private organizations. Students must apply for admission to the program before the completion of 12 certificate units and must complete the required units with a 2.5 grade point average.

The certificate requires 27 units distributed between the Departments of Computer Science and Geography as follows: 12-15 units selected from Computer Science 107, 108, 220, 310, 320, 503, 514, 520, 535, 551, 575 and 12-15 units selected from Geography 381, 484, 486, 582, 584, 585, 588. Courses with relevant content may be substituted for the computer science and geography courses with the approval of the certificate adviser. Courses in the certificate may be counted toward the major in computer science if applicable.

* Additional prerequisites required for this certificate.
Courses (CS)

LOWER DIVISION COURSES

101. Information Technology and Society (3)
Information technology for non-majors. Basic concepts and definitions needed for elementary understanding of computers, software, telecommunications and the Internet, information systems, and social impact of information technology.

105. Visual Basic Programming (3)
Programming and problem solving using Visual Basic programming language on the PC.

106. Introduction to Computer Programming with FORTRAN (3) I, II (CAN CSCI 4)
Prerequisite: Satisfaction of the Entry-Level Mathematics requirement.
Introduction to problem solving on a computer, design of algorithms, and use of FORTRAN language. Extensive programming.

107. Introduction to Computer Programming (3) I, II, S
Prerequisite: Satisfaction of the Entry-Level Mathematics requirement.
Programming methodology and problem solving. Basic concepts of computer systems, algorithm design and development, data types, program structures. Extensive programming.

108. Intermediate Computer Programming (3) I, II, S
Prerequisite: Qualification on the Mathematics Departmental Placement Examination, Part IA; and Computer Science 107.

205. Introduction to Computational Programming and Visualization (3)
Prerequisite: First semester calculus (either Mathematics 120 or 121 or 150).
Problem solving skills for needs of science. Use of computing and software tools of computational science introduced to gain competence in computer communications, programming and visualization. Supervised computer laboratory.

220. UNIX and the C Programming Language (3) I, II
Prerequisite: Computer Science 108.
Introduction to the UNIX operating system: shell programming, major system services and utilities. The C language: its features and their significance in the UNIX programming environment.

237. Machine Organization and Assembly Language (3) I, II
Prerequisite: Computer Science 108.
General concept of machine and assembly language, including data representation, looping and addressing techniques, subroutine linkage, macros, interrupts, and traps.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

299. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES (Intended for Undergraduates)

310. Data Structures (3) I, II, S
Prerequisites: Computer Science 108 and Mathematics 245.
Representation of and operations on basic data structures: Arrays, linked lists, stacks, queues, orthogonal lists, trees; recursion; hash tables; dynamic storage management and garbage collection.

320. Programming Languages (3) I, II
Prerequisite: Computer Science 108.
Principles of high-level programming languages, including formal techniques for syntax specification and implementation issues. Language concepts studied through at least two imperative languages (one static and one block structured) and at least one applicative language.

370. Computer Architecture (3) I, II
Prerequisite: Computer Science 237.

425. Tcl and Tk Interface Programming (3)
Prerequisite: Computer Science 220.
Presentation of Toolkit Command Language (Tcl) and Toolkit (Tk) languages, a portable programming environment for creating graphical user interfaces under X Windows, Microsoft Windows, and Macintosh. Writing scripts for Tcl, Tk, and extensions such as Expect.

440. Social, Legal, and Ethical Issues in Computing (3)
Prerequisite: Computer Science 108.
Impact of computers, applications, and benefits, copyright, privacy, computer crime, constitutional issues, risks of computer failures, evaluating reliability of computer models, trade and communications in the global village, computers in the workplace, responsibilities of the computer professional.

470. UNIX System Administration (3)
Prerequisite: Computer Science 220.
Installing the UNIX operating system on a UNIX workstation, adding user accounts, backing up and restoring user files, installing windows, adding network capabilities, adding printers and other peripherals.

490. Senior Seminar (1)
Prerequisite: Fifteen units of upper division computer science courses.
Preparation and delivery of oral presentations on advanced topics in computer science. General principles of organization and style appropriate for presenting such material.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

498. Directed Readings in Computer Science Literature (1)
Prerequisite: Credit or concurrent registration in the upper division computer science course in which readings are to be undertaken.
Individualy directed readings in computer science literature. May be repeated for a maximum of three units, taken each time from a different instructor.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

501. Computational Software (3)
Prerequisites: Computer Science 106 and 310.
Design and implementation of software for computational science. Makefiles in UNIX environment, efficient Fortran and 00 programming, use of common application libraries, file and source code management, software documentation, construction of libraries and applications. Designed for computational science students. Computer science majors must obtain adviser approval.
503. Scientific Database Techniques (3)
Prerequisites: Computer Science 205, 310, and Mathematics 245.
Fundamental data models for handling scientific data, including flat file, indexed compressed files, relational databases, and object oriented databases, and their associated query technologies; e.g. file formats, input/output libraries, string searching, structured query language, object-oriented structured query language, hypertext markup language/common gateway interface, and other specialized interfaces. Designed for computational science students. Computer science majors must obtain adviser approval. See Computer Science 514.

505. Parallel Computing (3)
Prerequisite: Computer Science 310. Recommended: Computer Science 501.
Motivations and methods of high performance computing. Modern computer architecture characteristics, uniprocessor programming and tuning, shared and distributed memory programming techniques, benchmarking. Designed for computational science students. Computer science majors must obtain consent of adviser.

514. Database Theory and Implementation (3)
Prerequisites: Computer Science 310 and Mathematics 245.
Database systems architecture. Storage structures and access techniques. Relational model, relational algebra and calculus, normalization of relations, hierarchical and network models. Current database systems.

520. Advanced Programming Languages (3)
Prerequisites: Computer Science 237, 310, and 320.
Object oriented programming, concurrent programming, logic programming, implementation issues.

524. Compiler Construction (3)
Prerequisites: Computer Science 237, 310, and 320.

530. Systems Programming (3) I, II
Prerequisites: Computer Science 237 and 310.
Design and implementation of systems software. Relationship between software design and machine architecture. Topics from assemblers, loaders and linkers, macro processors, compilers, debuggers, editors. Introduction to software engineering. Large project required. Not acceptable for the M.S. degree in computer science.

532. Software Engineering (3)
Prerequisites: Computer Science 310 and 320.
Theory and methodology of programming complex computer software. Analysis, design, and implementation of programs. Team projects required.

535. Object-Oriented Programming and Design (3)
Prerequisites: Computer Science 310 and 320.
Basic concepts of object-oriented programming; classes, objects, messages, data abstraction, inheritance, encapsulation. Object-oriented design methodology.

550. Artificial Intelligence (3)
Prerequisites: Computer Science 108 and either Mathematics 245 or 523.

551. User Interface Environments (3)
Prerequisites: Computer Science 310 and 320.
Design of user-machine interfaces in interactive systems. Problems faced by user of an interactive system; basic issues and principles involved in design and implementation of good and friendly user-machine graphical interfaces.

553. Neural Networks (3)
Prerequisites: Computer Science 320 and Mathematics 254.
Principles of neural networks, their theory and applications.

555. Raster Computer Graphics (3)
Prerequisite: Computer Science 551.
Bit map graphics, algorithms to connect between different formats and enhancement of pictures.

556. Robotics: Mathematics, Programming, and Control (3)
Prerequisites: Computer Science 320, Mathematics 254, knowledge of the C programming language.
Robotic systems including manipulators, actuators, sensors, and controllers. Algebraic methods for spatial description of solid objects, manipulator kinematics and control. Robot programming languages and robot programming systems.

557. Computer Control Systems (3)
Prerequisites: Computer Science 310 and Mathematics 254.
Analysis and programming of real-time computer control systems, implementation of digital controllers including programming, intelligent control systems and fuzzy control.

558. Computer Simulation (3)
Prerequisites: Computer Science 310 and Statistics 550.
Methodology of simulation for discrete and continuous dynamic systems. State-of-the-art programming techniques and languages. Statistical aspects of simulation. Students will design, program, execute, and document a simulation of their choice.

559. Computer Vision (3)
Prerequisites: Computer Science 310 and Mathematics 254.
Algorithms and computer methods for processing of images. Visual perception as a computational problem, image formation, characterization of images, feature extraction, regional and edge detection, computer architectures for machine vision.

560. Algorithms and Their Analysis (3) I, II
Prerequisites: Computer Science 310 and Mathematics 245.
Algorithms for solving frequently occurring problems. Analysis techniques, lower bounds. Sorting, merging, graph problems (shortest paths, depth-first and breadth-first search), and others. NP-complete problems. Not acceptable for the M.S. degree in Computer Science.

561. Multimedia Systems (3)
Prerequisite: Computer Science 551.
System aspects of multimedia authoring, browsing, and database subsystem; digital representation for different media; audio and video; operating system support for continuous media applications; architectures; design and implementation of multimedia support systems; use of multimedia technology in software engineering.

562. Automata Theory (3)
Prerequisite: Mathematics 245 or 521A.

564. Introduction to Computability (3)
Prerequisite: Mathematics 245 or 523.
Definition of algorithm by abstract (Turing) machines. Universal Turing machines. Primitive recursive and recursive functions. The equivalence of the computational power of Turing machines and recursive functions. Limitations and capabilities of computing machines; the halting problem.

566. Queuing Theory (3)
Prerequisites: Computer Science 108 and Statistics 550.
Performance prediction of computer networks and other systems (e.g., inventory control, customer service lines) via queuing theory techniques. Operational analysis.
570. Operating Systems (3) I, II
Prerequisites: Computer Science 310, 370, and knowledge of the C programming language.
File systems, processes, CPU scheduling, concurrent programming, memory management, protection. Relationship between the operating system and underlying architecture. Not acceptable for the M.S. degree in Computer Science.

571. UNIX Network Administration (3)
Prerequisite: Computer Science 470.
Network administration for UNIX workstations and servers. File server, mail server, boot server, and Web server. TC/IP administration, routing, subnetting, and NIS plus data base.

572. Microprocessor Architecture (3)
Prerequisites: Computer Science 370 and knowledge of the C programming language.

574. Computer Security (3)
Prerequisites: Computer Science 370; Mathematics 245; Statistics 550; and credit or concurrent registration in Computer Science 570.
Principles of computer security and application of principles to operating systems, database systems, and computer networks. Topics include encryption techniques, access controls, and information flow controls.

575. Supercomputing for the Sciences (3)
Prerequisite: Extensive programming background in Fortran or C.
Interdisciplinary course, intended for all science and engineering majors. Advanced computing techniques developed for supercomputers. Overview of architecture, software tools, scientific computing and communications. Hands-on experience with CRAY.

576. Computer Networks and Distributed Systems (3)
Prerequisite: Credit or concurrent registration in Computer Science 570.
Local area networks and wide area networks; mechanisms for interprocess communication; rules for distribution of data and program functions.

578. ATM Networking (3)
Prerequisite: Computer Science 576.
Asynchronous transfer mode communication networks, including fundamental concepts, technologies, architectures, infrastructures, and interoperability of legacy technologies. Review of basic communication and networking concepts, including transmission media, multiplexing, link control protocols, and wide area networks.

580. Client-Server Programming (3)
Prerequisites: Computer Science 570 and knowledge of an object-oriented programming language. Recommended: Computer Science 576.
Client-server model, networking protocols for client-server programs, algorithmic issues in client-server programs, client-server protocols, implementing client-server applications.

596. Advanced Topics in Computer Science (1-4) I, II
Prerequisite: Consent of instructor.
Selected topics in computer science. May be repeated with the approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.

For additional courses useful to computer scientists, see:

**Mathematics 541.** Introduction to Numerical Analysis and Computing

**Mathematics 542.** Introduction to Numerical Solutions of Differential Equations

**Mathematics 561.** Applied Graph Theory

**Mathematics 579.** Combinatorics
Counseling and School Psychology

In the College of Education

Accredited by the California Commission on Teacher Credentialing and the National Association of School Psychologists.

Faculty
Emeritus: Carnevale, Cummins, Grant-Henry, Hawley, Howard, Malcolm, Miller, Ramage
Interim Chair: Robinson-Zañartu
Professors: Cook-Morales, Feinberg, Robinson-Zañartu, Senour
Associate Professors: Ingraham, Monk, Terry-Guyer, Thompson
Assistant Professors: Guanipa, Loewy, Taylor
Lecturer: Raphael

Offered by the Department
Master of Arts degree in education with a concentration in counseling.
Master of Science degree in counseling with specializations in:
  - Marriage, family and child counseling;
  - School counseling;
  - School psychology.

Pupil personnel:
  - School counseling credential.
  - School psychology credential.

Courses (CSP)

UPPER DIVISION COURSES
(Intended for Undergraduates)

310. Group Leadership in Educational Settings (3)
Two lectures and two hours of activity.
Prerequisites: Anthropology 102 or Psychology 101 or Sociology 101; and completion of 60 units.
Identifying, classifying, and analyzing the components essential to development of leadership in educational settings. Simulation activities assist students in acquisition of group leadership skills.

400. Counseling and the Helping Professions (3) I, II
Serves as an introduction to the field of counseling and introduces the student to those professions considered to be helping professions.

401. Theories and Processes of Personal Integration (3) I, II
Perspectives of and strategies for developing and maintaining a functional balance among intellectual, physical, emotional, and interpersonal aspects of daily living.

496. Experimental Topics (1-3)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degrees.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Open only to senior and graduate students in education who have shown ability to work independently.
Individual study. Maximum credit six units.

OFFICE: North Education 179
TELEPHONE: (619) 594-6109
FAX: (619) 594-7025

“The essence of our effort to see that every child has a chance must be to assure each an equal opportunity, not to become equal, but to become different—to realize whatever unique potential of body, mind and spirit he or she possesses.”
— John Fischer

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
The purpose of the criminal justice administration program is to provide current and future decision-makers in criminal justice with the foundation for critical and balanced as well as responsible and effective administrative responses. As the systems designed to deliver justice services are continually asked to accomplish more with fewer resources, the need for able and professional administrators becomes more and more pressing. The mission of the department is to provide graduates with the background and ability to meet this challenge.

Criminal justice administration majors with the B.S. degree have typically found employment at entry-level positions in local, state, and federal criminal justice agencies or in private business or security positions (e.g., loss prevention officer). At the local level, graduates can begin service in various capacities with police, sheriff’s and marshal’s offices, probation, county supervisors, city administration, and criminal justice planning agencies. At the state level, graduates may enter the Highway Patrol, Alcohol Beverage Control, Attorney General’s Office, Department of Corrections, California Youth Authority, or related agencies. At the federal level, graduates are employed in agencies such as the FBI, Customs Service, Border Patrol, Secret Service, Drug Enforcement Agency, Naval Intelligence Service, Defense Investigative Services, CIA, and Department of Agriculture.

A significant number of graduates of this degree program also enter law school after graduation.

Impacted Program
The criminal justice administration major is an impacted program. Students must declare the premajor under the criminal justice administration premajor code (21050). To be admitted to the criminal justice administration major, students must meet the following criteria:

a. Complete the following courses: Criminal Justice Administration 200; Political Science 102; Sociology 101 and 150; and a 3-unit course in elementary statistics. Criminal Justice Administration 200 must be passed with a grade of C or higher. These courses cannot be taken for credit/no credit (Cr/NC);

b. Complete a minimum of 56 semester units;

c. Have a cumulative GPA and SDSU GPA of 2.10 or higher; and

d. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Criminal Justice Administration Major
With the B.S. Degree in Applied Arts and Sciences
(Premajor Code: 21050) (Major Code: 21051)

Change of major and declaration of major must be approved by faculty adviser.

All candidates for a degree in applied arts and sciences must complete the graduation requirements in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

Preparation for the Major. Criminal Justice Administration 200, Political Science 102, Sociology 101 and 150, and a three-unit course in elementary statistics (e.g., Sociology 201, Psychology 270, Statistics 250). (15 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Public Administration 301; Criminal Justice Administration 301, 497 or 498, 540; six units (in addition to Public Administration 301) selected from all upper division Public Administration courses; and 18 additional upper division units selected with the approval of a department adviser. Within this program students may focus their study in areas such as law, law enforcement administration, court administration, correctional administration, juvenile justice administration, and deviance and social control. Interested students must seek guidance from a faculty adviser (may be any of the full-time faculty listed above) in selecting appropriate courses. A master plan for courses in the major must be approved by a faculty adviser. It is recommended that the student complete a preliminary master plan of courses as soon as possible after declaring the major.

Courses (CJA)

LOWER DIVISION COURSE

200. Introduction to Criminal Justice Administration (3) I, II (CAN AJ 2)
Survey of the structure, functions and problems of controlling criminal activity while preserving individual freedoms in a democratic society.

UPPER DIVISION COURSES (Intended for Undergraduates)

301. Social Control, Social Policy and Administration of Justice (3) I, II
Prerequisites: Criminal Justice Administration 200 with a grade of C or better and completion of all other lower division preparation for the major courses.
Interrelationship of social control, social policy and administration of criminal justice in contemporary American society.

305. Professions, Practices and Ethics in Criminal Justice Administration (3) I
Prerequisite: Criminal Justice Administration 301.
Professional roles and responsibilities of practitioners and administrators in criminal justice agencies, including consideration of the ethical responsibilities of criminal justice practitioners.
310. Law Enforcement Administration (3)
Administrative relationships within the criminal justice process with special reference to problems of courts and police and probation agencies.

320. The Administration of Criminal Law (3)
Prerequisite: Criminal Justice Administration 301.
Constitutional law principles as implemented in criminal courts with emphasis on critical analysis of factual situations and the argument of legal issues in criminal cases from both defense and prosecution perspectives.

321. Juvenile Justice Administration (3)
Prerequisite: Criminal Justice Administration 301.
Assessment of the structure and functions of agencies and institutions which comprise the juvenile justice system in America; evolution of policies and programs for prevention of delinquency and treatment of the juvenile offender.

330. Contemporary Correctional Administration (3)
Prerequisite: Criminal Justice Administration 301.
Contemporary policies and practices of local, state and federal correctional agencies, the influence of reform movements, and the interrelationship of corrections with other criminal justice system components.

333. Judicial Administration (3)
Prerequisites: Criminal Justice Administration 301 and Public Administration 301.
Review of significant developments at the state and federal levels, including court unification and financing, leadership, congestion, training, selection, tenure, discipline, removal and retirement of court-related personnel; and technological applications.

420. Constitutional Issues in the Administration of Justice (3)
Prerequisites: Criminal Justice Administration 200 and 301.
Constitutional legal theories and principles, especially the Fourth, Fifth, Sixth, and Eighth Amendments to the Constitution, as they affect criminal justice procedures and practices.

430. Prisons in Theory and Practice (3) Cr/NC (Offered only in Extension)
Two lectures and three hours of supervised activity.
Prerequisites: Criminal Justice Administration 200 and consent of instructor.
Design and operation of state and federal prisons in California from the perspective of staff and inmates. Onsite study and critique of facilities.

470. Special Populations in Criminal Justice (3)
Prerequisite: Criminal Justice Administration 200.
Interactions within the criminal justice system and populations such as women, racial, and ethnic minorities, aging offenders and offenders with AIDS and other chronic illnesses and disabilities.

496. Selected Topics in Criminal Justice Administration (1-3)
Selected current topics in criminal justice administration. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units. (Formerly numbered Criminal Justice Administration 495.)

497. Investigation and Report (3) Cr/NC I, II
Prerequisites: Consent of instructor and senior standing.
Analysis of special topics.

498. Internship in Criminal Justice Administration (2-6) Cr/NC I, II
Prerequisites: Consent of instructor and senior standing.
Students are assigned to various government agencies and work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences. Maximum credit six units.

499. Special Study (1-3) Cr/NC I, II
Prerequisites: Twelve units of upper division criminal justice administration and consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

502. Juvenile Deviance and the Administration Process (3)
Prerequisite: Criminal Justice Administration 321.
Problems of implementing and evaluating policies and programs for prevention of juvenile delinquency and treatment of juvenile offenders; an assessment of the proposed standards and goals for juvenile justice administration.

510. Contemporary Issues in Law Enforcement Administration (3)
Prerequisite: Criminal Justice Administration 310.
Assessment of problems confronting administrators of law enforcement agencies and of recent efforts to enhance the capability of agencies to control criminal activity while guarding individual liberties.

520. Prosecutorial Function in Administration of Justice (3)
Prerequisite: Criminal Justice Administration 301.
Analysis of prosecutor's function at local, state and federal levels and in selected foreign nations, including appraisal of proposed national standards and goals for prosecutors.

531. Probation and Parole (3)
Prerequisite: Criminal Justice Administration 330.
Problems of implementing and evaluating programs and policies for parole; criteria of selection, methods of supervision, and elements of case reporting.

540. Applied Planning, Research and Program Evaluation in Criminal Justice Administration (3) I, II
Prerequisite: Criminal Justice Administration 301.
Application of planning, research and program development and evaluation principles to the field of criminal justice.

543. Community Resources in Criminal Justice Administration (3)
Prerequisite: Criminal Justice Administration 301.
Exploration of present and probable roles of public and private agencies and volunteers in criminal justice administration.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
In the College of Professional Studies and Fine Arts

OFFICE: Music 112
TELEPHONE: (619) 594-6031
FAX: (619) 594-1692
EMAIL: music.dance@sdsu.edu

Faculty
Emeritus: Willis
Director: Chambers
Professor: Sandback
Associate Professors: Hempel, Nunn

Offered by the School of Music and Dance
Major in dance with the B.A. degree in liberal arts and sciences.
Minor in dance.

The Major

The dance program in the School of Music and Dance provides professional preparation for dance majors in choreography, performance, scholarship, and teaching; more specifically, as choreographers and dancers with professional companies, teachers in community and recreation programs, schools and colleges, movement educators, and candidates for graduate work in dance scholarship.

Philosophically, the program promotes dance as a communicative and expressive medium uniquely effective in the conveyance of meaning, emotion, and cultural values. Dance is a rigorous and specialized area of the performing arts, demanding a high level of physical preparation as well as a thorough understanding of aesthetics.

As members of the University Dance Company, students perform in faculty choreography and repertory works set by distinguished guest artists in periodic workshops and residencies. Each student also stages original work in a senior recital. Dance activity courses provided in the school offer experiences for the general student population in modern, jazz, ballet, folk, and social forms.

Dance Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 10081)

All candidates for a degree in liberal arts and sciences must complete the requirements listed in the section of this catalog on “Graduation Requirements.” No more than 64 units in dance courses can apply to the degree.

A minor is not required with this major.

For information regarding this program contact the adviser, Patricia R. Sandback, or the School of Music and Dance.

Preparation for the Major. Dance 110, 111, 121, 131, 141, 171, 181, 183, 211, 241, 253, 255, 256, 261 (four units), 271, 281, 285; Anthropology 102; Biology 212; Psychology 101. (45 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to the section of this catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Dance Minor
Prerequisites to the minor: Dance 110, 121, and 131. (6 units)
The minor in dance consists of a minimum of 24 units in dance, of which eight units must be upper division, to include Dance 141, 171, 181, 183, 241, 253, 255, 271, 341, 353, 354, and 371.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (DANCE)

LOWER DIVISION COURSES

100. Dance Activity (1)
Two hours of activity
Open to all students. Provides physically skilled instruction and knowledge of ballroom, folk, ballet, jazz, and modern dance forms at the beginning and intermediate levels.

A. Beginning Ballroom Dance
B. Intermediate Ballroom Dance
C. Beginning Folk Dance
E. Beginning Ballet
F. Intermediate Ballet
G. Beginning Jazz Dance
H. Intermediate Jazz Dance
I. Beginning Modern Dance
J. Intermediate Modern Dance

110. Historical and Contemporary Social Dance Forms (2) I
Four hours of activity.
Prerequisite: Consent of instructor.
Court and country dances of Renaissance and Baroque periods. Social dances of the nineteenth and twentieth centuries.

111. Ethnic Dance Forms (2) II
Four hours of activity.
Prerequisite: Consent of instructor.
Techniques, styles, and rhythms of traditional dance in selected cultures.

121. Ballet I (2) I
Four hours of activity.
Prerequisite: Consent of instructor. Ballet skills for dance majors and minors emphasizing alignment, coordination, ballet terminology, and technical principles.

131. Jazz Dance I (2)
Four hours of activity.
Prerequisite: Consent of instructor. Basic modern dance skills with emphasis on alignment.
Dance

171. Dance Production I (1) Cr/NC I
   Three hours of laboratory.
   Technical experience in dance production.

181. Introduction to Dance (3) I, II
   Foundations of dance in Western civilization. Dance as art, therapy, fitness, ritual, and social discourse. Analysis of dance in film, video, and live performance with an appreciation for artistic intent, technique, and style.

183. Rhythmic Analysis (2) II
   One lecture and two hours of activity.
   Music as related to movement; notation and simple music forms applied to all movement activities; percussion accompaniment; writing of percussion scores, music repertoire for dance.

221. Ballet II (2) II
   Four hours of activity.
   Prerequisite: Dance 121.
   Ballet skills for dance majors emphasizing increased complexity, strength, and endurance.

241. Modern Dance II (3) II
   Six hours of activity.
   Prerequisite: Dance 141.
   Continuation of development of modern dance skill with emphasis on function of alignment and articulation of the extremities in motion.

253. Choreography I (2) I
   Four hours of activity.
   Using concepts of space, time, and energy to investigate and explore basic elements of choreography. Studies and compositions emphasizing solo and small group works.

255. Dance Improvisation I (1) II
   Two hours of activity.
   Exploring improvisation through specific stimulus leading to the acquisition of basic improvisational skills.

256. Dance Improvisation II (1) I
   Two hours of activity.
   Prerequisite: Dance 255.
   Practice in more complex arrangements of improvisation.

261. Dance Rehearsal and Performance (1) Cr/NC II
   Three hours of laboratory.
   Prerequisite: Entrance by audition.
   Technical experience in departmental public performance. Maximum credit four units.

271. Dance Production II (1) Cr/NC II
   Three hours of laboratory.
   Prerequisite: Dance 171.
   Technical experience in dance production.

281. Dance in World Cultures (2) I
   Prerequisites: Dance 111 and Anthropology 102.
   Dance in selected cultures; geographic, historical, social, and aesthetic factors which have shaped development and function.

285. Dance Pedagogy (2) I
   Four hours of activity.
   Teaching theory as applied to ballet, modern, jazz, and social dance for adult populations.

296. Experimental Topics (1-4)
   Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

297. Dance Production I (1) Cr/NC I
   Three hours of laboratory.
   Technical experience in dance production.

311. Dance Production II (1) Cr/NC II
   Three hours of laboratory.
   Prerequisite: Entrance by audition.
   Technical experience in departmental public performance. Maximum credit four units.

321. Ballet III (2) II
   Four hours of activity.
   Prerequisite: Dance 221.
   Ballet skills for dance majors emphasizing turns, jumps, batterie, extended sequences, and movement quality.

341. Modern Dance III (3) I
   Six hours of activity.
   Prerequisite: Dance 241.
   Progressively difficult movement patterns based on previously developed skills with emphasis on elevation, rhythm, body design, and dynamic flow of movement.

353. Choreography II (2) II
   Four hours of activity.
   Prerequisite: Dance 253.
   Introducing large group works, solo and small group work in organizing more complex arrangements of the basic elements of dance composition. Utilizing music and sound as aural contributions to choreography.

354. Choreography III (2) I
   Four hours of activity.
   Prerequisite: Dance 353.
   Approaching dance as a fundamental means of communication. Recognizing the relationship between form and content.

365. University Dance Company: Major Performance (1) Cr/NC I
   More than three hours of activity per week.
   Prerequisites: Open only to dance majors. Audition and approval by dance faculty.
   Practical experience in University dance company including concert performances of dance repertory, production of choreographic works, presentation of master classes and workshops, and participation in major production. Maximum credit four units.

371. Dance Production III (1) Cr/NC I
   Three hours of laboratory.
   Prerequisite: Dance 271.
   Technical experience in dance production.

381. Dance History (3)
   Prerequisite: Dance 181.
   Integrated approach to understanding of historical forces shaping the development of dance.

396. Dance Internship (1-3)
   Prerequisite: Upper division standing and consent of dance director. Open only to dance majors and minors.
   Supervised practical experience in dance studio management and instruction. Maximum credit three units.

441. Modern Dance IV (3) II
   Six hours of activity.
   Prerequisite: Dance 341.
   Advanced modern dance techniques based on skills developed in Dance 141 through Dance 341 with emphasis on performance qualities in projection, vitality, and executing.

453. Choreography IV (2) II
   Four hours of activity.
   Prerequisite: Dance 354.
   Choreography of solo and group works utilizing symbiotic relationship of movement, sound, lighting, costuming, and other interdisciplinary media. Presentation of a recital.
481. Dance Philosophy and Criticism (2) I
   Prerequisite: Dance 381.
   Philosophy and aesthetics of dance. Historical foundations of dance criticism. Major contemporary schools of thought. Professional preparation and function of the dance critic.

483. Dance Notation (3) I
   Prerequisite: Completion of preparation for the major in dance.
   Theories and application of dance notation systems and other methods of recording dance. Basic skills in writing dance in Labanotation; reading notated dance scores; experiences in recording ethnic, ballet, jazz, and modern dance.

486. Dance Practicum: Folk, Square, Ballroom (2) II
   Four hours of activity.
   Prerequisite: Dance 285.
   Teaching techniques in folk, square, and ballroom dance and practice in the use of these techniques.

487. Dance Practicum: Modern, Ballet, Jazz (2) II
   Four hours of activity.
   Prerequisite: Dance 285.
   Teaching techniques in modern dance, jazz dance, and ballet and practice in the use of these techniques.

496. Experimental Topics (1-4)
   Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II
   Prerequisite: Consent of the dance director.
   Individual study. Maximum credit six units.

Economics
In the College of Arts and Letters

Faculty
Emeritus: Anderson, Babilot, Barckley, Clement, Gifford, Jencks, Leasure, Madhavan, Nam, Neuner, Poroy, Sebold, Steinberg, Turner, Venieris
Chair: Thayer
Professors: Adler, Boddy, Frantz, Gerber, Green, Grossbard-Shechtman, Kartman, Popp, Stewart, Thayer
Associate Professor: Hambleton
Assistant Professors: Amuedo-Dorantes, Balsdon, Brunner, Imazeki

Offered by the Department
Master of Arts degree in economics.
Major in economics with the B.A. degree in liberal arts and sciences.
Emphasis in international economics.
Emphasis in preprofessional studies.
Minor in economics.

The Major
Economics is the science which studies the production, distribution, and consumption of goods and services. Economics majors explore how producers, distributors, and consumers make their decisions. Majors also analyze the events that shape and result from these decisions. Inflation, unemployment, taxation, money and banking, efficiency, international exchange, and growth are some of the many parts of this complex system studied through the economics major at SDSU.

The Department of Economics offers two emphases which students may select to satisfy a wide range of career goals: (1) International Economics, where students can focus on worldwide economic policy and global business; and (2) Preprofessional Studies, in which students prepare for graduate study in law school, health administration, and business administration. A specialization in Quantitative Analysis is also offered which focuses on developing analytical and mathematical skills for conducting economic research. A fourth option is the comprehensive program offered in the general economics major, which provides breadth by covering areas from the emphases and specialization.

Economics majors may find employment in government, financial institutions, business, and international agencies. The combination of an economics major with a business minor provides a foundation for a variety of careers. And, students interested in studying the developing nations, the environment, government policies, or population will find that economics is a useful approach.

Many entry-level positions in business and government are available to students with a bachelor's degree in economics. A graduate may find employment as a research, statistical, data, or pricing analyst. There are management trainee positions with banks, savings and loan associations, or other lending institutions. Economics majors may also be employed as sales representatives for firms which produce both "high tech" and consumer-related goods. A student contemplating graduate study in the field of economics should consider a career as an economics consultant, or as an economist for banks, investment companies or industry.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Economics Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 22041)
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." No more than 48 units in economics courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major. Economics 101, 102, Accountancy 201; Economics 201 or Statistics 119; one course selected from Mathematics 120, 121, or 150; Information and Decision Systems 180 or three units of Social Science 201 to include a spreadsheet application. (18-20 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units to include Economics 301, 320, 321, and 18 units selected from the groups below.

Economics 496 or 596 and a maximum of three units of Economics 499 (Readings) may be substituted in an area as appropriate with approval of an adviser. A maximum of three units of Economics 495 (Internship) may be substituted in any one group.

Emphasis in International Economics
(Major Code: 22042)
Preparation for the Major. Economics 101, 102, Accountancy 201; Economics 201 or Statistics 119; one course selected from Mathematics 120, 121, or 150; Information and Decision Systems 180 or three units of Social Science 201 to include a spreadsheet application. (18-20 units)

Foreign Language Requirement. Competency at the ACTFL-ETS level (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

194
OFFICE: Nasatir Hall 304
TELEPHONE: (619) 594-1675
FAX: (619) 594-5062
Major. A minimum of 33 upper division units (27 units in economics and six units from the College of Business Administration) to include Economics 301, 320, 321, and 490; three units selected from Economics 360, 361, 365, or 495; six units selected from Economics 336, 360, 464, 465, 565, or 496 in Pacific Rim economies or other international areas; three units from Economics 330, 365, or 498; three units selected from Economics 382, 441, 453, 454, or 495 (international content of internship subject to departmental approval); six units selected from Finance 323 and 329; or Marketing 370 and 376; or Management 350 and 405.

* Prerequisites for this course which are not included in the minimum unit requirement for the major include Finance 323, Information and Decision Systems 301 or 302, and Marketing 370.

** Emphasis in Preprofessional Studies (Major Code: 22041)**

Preparation for the Major. Economics 101, 102, and either Economics 201 or Statistics 119; Accountancy 201; one course selected from Mathematics 120, 121, or 150; and three units of Social Science 201 to include a spreadsheet application, or Information and Decision Systems 180 or Computer Information Systems 160. (21–23 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. English 508W or 584W, or English 311W, 320. Intermediate Macroeconomic Theory (3) I, II, S

Prerequisites: Economics 101 and 102; Economics 201 or Statistics 119; and Information and Decision Systems 180 or Social Science 201. (3 units)

Economics 102. Principles of Economics (3) I, II, S (CAN ECON 2)

Principles of economic analysis, economic institutions, and issues of public policy. Emphasis on macroanalysis including national income analysis, money and banking, business cycles, and economic stabilization.

101. Principles of Economics (3) I, II, S (CAN ECON 2)

Principles of economic analysis, economic institutions, and issues of public policy. Emphasis on macroanalysis including national income analysis, money and banking, business cycles, and economic stabilization.

102. Principles of Economics (3) I, II, S (CAN ECON 4)

Principles of economic analysis, economic institutions, and issues of public policy. Emphasis on direction of production, allocation of resources, and distribution of income, through the price system (microanalysis); and international economics.

201. Statistical Methods (3) I, II

Prerequisites: Course in intermediate algebra and satisfaction of the Entry-Level Mathematics requirement.

Introduction to descriptive statistics, statistical inference, regression and correlation. Students with credit or concurrent registration in the following lower division statistics courses will be awarded a total of four units for the two (or more) courses: Economics 201; Biology 215; Civil Engineering 160; Political Science 201; Psychology 270; Sociology 210; Statistics 119 or 250.

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

**Economics Minor**

Major in economics consists of a minimum of 15 units in economics to include Economics 102, either 320 or 321, and nine units selected from one of the following tracks:

**Quantitative Economics** Economics 301, 320 or 321 not taken above, 441, 507.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

**Courses (ECON)**

**LOWER DIVISION COURSES**

100. Contemporary Economic Problems (3) I, II

Investigates economic bases for such current problems as inflation, unemployment, economic power, consumer protection, poverty, discrimination, urban and environmental deterioration, and international domination. Examines such policies as fiscal-monetary policy, tax reform and government controls and provision of services.

101. Principles of Economics (3) I, II, S (CAN ECON 2)

Principles of economic analysis, economic institutions, and issues of public policy. Emphasis on macroanalysis including national income analysis, money and banking, business cycles, and economic stabilization.

102. Principles of Economics (3) I, II, S (CAN ECON 4)

Principles of economic analysis, economic institutions, and issues of public policy. Emphasis on direction of production, allocation of resources, and distribution of income, through the price system (microanalysis); and international economics.

201. Statistical Methods (3) I, II

Prerequisites: Course in intermediate algebra and satisfaction of the Entry-Level Mathematics requirement.

Introduction to descriptive statistics, statistical inference, regression and correlation. Students with credit or concurrent registration in the following lower division statistics courses will be awarded a total of four units for the two (or more) courses: Economics 201; Biology 215; Civil Engineering 160; Political Science 201; Psychology 270; Sociology 210; Statistics 119 or 250.

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

**UPPER DIVISION COURSES**

(Intended for Undergraduates)

301. Collection and Use of Data in Economics (3)

Prerequisites: Economics 101 and 102; Economics 201 or Statistics 119; and Information and Decision Systems 180 or Social Science 201.

Economic data gathering via Internet and other sources, data entry into spreadsheets and graphing techniques, statistics using spreadsheets, and introduction to basic regression.

311. History of Economic Thought (3)

Prerequisites: Economics 101 and 102.

The development of economics. Contributions of schools of thought and individual writers are examined with regard to their influence on economic theory and policy.

320. Intermediate Macroeconomic Theory (3) I, II, S

Prerequisites: Economics 101 or Economics 100 with approval of department. Recommended: Mathematics 120 or 121 or 150.

321. Intermediate Microeconomic Theory (3) I, II, S
Prerequisite: Economics 102 or Economics 100 with approval of department. Recommended: Mathematics 120 or 121 or 150.
Behavior of consumers, firms and industries with respect to product and input markets. Price system and other models of economic decision making. Economic efficiency and welfare; property rights and externalities.

330. Comparative Economic Systems (3)
Prerequisites: Six units of economics to include Economics 102; and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences. General Education prerequisite not required for Economics majors.
Current economic systems from primarily laissez-faire to state-controlled market economics with a focus on nations of Asia, Europe and Latin America; Soviet-style economic planning and transition to a controlled market economy.

336. Economic History of Emerging Nations (3)
Prerequisite: Six units of economics to include Economics 101.
Evolution of economic organization, institutions, and policies of Africa, Asia, and Latin America. Regional emphasis will vary. Maximum credit six units.

338. Economic History of the United States (3)
Prerequisite: Six units of economics to include Economics 101.
American economic development and national legislation. Studies of agriculture, industry, the labor force, and national output.

360. International Economic Problems (3)
Prerequisites: Economics 101 and 102.
International problems, economic communities, organizations, and other selected topics.

365. Economics of Underdeveloped Areas (3)
Prerequisite: Six units of economics to include Economics 101.
The nature and causes of economic underdevelopment. Problems of and policies for the economic development of underdeveloped areas of the world.

380. Labor Problems (3)
Prerequisite: Six units of economics to include Economics 102.
Labor force and mobility, human capital, labor demand, discrimination, determination of compensation and employment, productivity, impact of labor organizations, labor disputes, and social legislation.

382. Economics of Work, Marriage, and Family (3)
Prerequisite: Economics 102.
Economic analysis of marriage and labor supply; family-related changes in work behavior; gender differences in occupations and earnings; welfare, work and family policies in the U.S. and internationally; macroeconomic analysis of household structure and economy.

401. Public Finance (3)
Prerequisites: Economics 101 and 102.
Principles and practices of taxation and public expenditures. Economic effects of public spending, debts and taxation. Financing social security and other services. Fiscal policy and prosperity. Relation to inflation and deflation. Special emphasis on social problems involved.

422. Business Cycles (3)
Prerequisites: Economics 101 and 102.
Fundamental factors in economic fluctuations. Examination of business cycle theories, and various policy proposals for economic stabilization. A consideration of current economic conditions and an examination of methods employed in preparing national economic forecasts.

441. Introduction to Econometrics (3) I, II
Prerequisites: Economics 301; Mathematics 120 or 121 or 150; Recommended: Economics 320 or 321.
Econometric techniques with emphasis on single-equation models. Applied skills learned through computer assignments. (Formerly numbered Economics 341.)

452. Economics of Energy Resources (3)
Prerequisite: Six units of economics.

453. Economics and Ecology (3)
Prerequisites: Economics 101 and 102.
Relation of ecological problems to basic economic institutions. Examination of the apparent conflict between economic needs and ecological requirements. Economics of air, fresh water, ocean and land pollution, overpopulation and natural resource utilization. Investigation of possible solutions.

454. Economics of the Ocean (3)
Prerequisites: Economics 101 and 102.
Economic analysis of fisheries, seabed resources, shipping lanes, allocation of the coastal zone, and ocean pollution. Economic implications of alternative legal arrangements concerning the ocean.

458. Urban Economics (3)
Prerequisites: Economics 101 and 102.
Major influences on economic conditions of urban areas; specific urban issues including growth and housing. Discussion of San Diego issues.

464. Economic Problems of Latin America (3)
Prerequisites: Six units of economics to include Economics 101; and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences. General Education prerequisite not required for Economics majors.
Economic development, institutions, and problems of Latin America in the context of a global economy.

465. Economic Problems of South and East Asia (3)
Prerequisites: Six units of economics to include Economics 101; and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences. General Education prerequisite not required for Economics majors.
Economic development, institutions, and problems of South and East Asia in the context of a global economy.

489. Economics and Population (3)
Prerequisites: Six units of economics to include Economics 102; and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences. General Education prerequisite not required for Economics majors.
Relation of fertility, marriage, migration, and other dimensions of population to various economic factors affecting household behavior. Demographic measures and projections, application to product markets and to policies of developed and less developed countries.

490. Money and Banking (3) I, II, S
Prerequisites: Economics 101 and 102.
Money's measurement and use; monetary theory and policy; returns on financial instruments; international payments and foreign exchange; evolution of banking institutions, and global competition.

495. Economics Internship (3) Cr/NC I, II, S
Prerequisite: Consent of instructor.
Internship with business firms, nonprofit organizations and government agencies. Work done under joint direction of activity supervisor and instructor. Project report and internship conferences required. Maximum credit six units.

496. Experimental Topics (1-3)
Prerequisite: Consent of instructor.
Selected topics in economics. May be repeated with approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.
499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. May be repeated for a maximum of six units. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

507. Mathematical Economics (3)
Prerequisite: Mathematics 121 or 150. Recommended: Economics 320 or 321.
Mathematical concepts as tools in understanding, developing, and illustrating economic theories. Applications of calculus and linear equations to constrained optimization, macro models, elasticity, general equilibrium, and input-output analysis. Not open to students with credit in Economics 307 or 610.

561. International Trade (3)
Prerequisites: Economics 320 and 321.

565. North American Economic Relations (3)
Prerequisites: Economics 101 and 102. Recommended: Economics 360.
Socioeconomic development of U.S., Mexico, and Canada since World War II. Issues affecting the three countries’ relations, including trade investment, technology, and international organizations and agreements.

592. International Monetary Theory and Policy (3)
Prerequisite: Economics 320 or 490.

596. Experimental Topics (3)
Prerequisite: Consent of instructor.
Intensive study in specific areas of economics. Topics to be announced in the Class Schedule. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Education
In the College of Education

Accredited by the California Commission on Teacher Credentialing.

Faculty
Faculty assigned to teach in education are drawn from departments in the College of Education.

Courses (ED)

LOWER DIVISION COURSE

101. Introduction to Literacy (3)
Two lectures and four hours of laboratory.
Intended for students in the liberal studies blended program for K-3 literary tutors. Basic processes of literacy and instructional strategies in culturally relevant reading instruction for emergent readers. Requires four hours weekly tutoring in a designated K-3 setting.

UPPER DIVISION COURSE

350. Education in American Society (3) I, II, S
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences.
Philosophical, historical and psychological roots of education in America; current models, instructional designs and strategies of education. Contemporary concerns in education.

UPPER DIVISION COURSE

451. Introduction to Multicultural Education (3)
Overview of cultural pluralism in education, industry, business, other institutions, and society at large.

UPPER DIVISION COURSE

516. Foundations of Bilingual Education (1)
Prerequisite: Credit or concurrent registration in Education 451.
Overview of models of bilingual education programs for language minority students.

GRADUATE COURSES

Refer to Bulletin of the Graduate Division.
Educational Technology

In the College of Education

Accredited by the California Commission on Teacher Credentialing.

Faculty
Emeritus: Anthony, Harrison, McAllister
Chair: Ritchie
Professors: Allen, Dodge, Ritchie, Rossett, Saba
Associate Professor: Hoffman
Assistant Professors: Bober, Dennen, Wang

Offered by the Department
Master of Arts degree in education.
- Concentration in educational technology.
- Specialization in educational computing.
- Specialization in workforce education and lifelong learning.

Minor in educational technology.
Certificate in instructional software design (refer to Bulletin of the Graduate Division).
Certificate in instructional technology.
Certificate in workforce education and lifelong learning (refer to Bulletin of the Graduate Division).

Educational Technology Minor
The minor in educational technology consists of a minimum of 15 units in Educational Technology. At least 12 of which must be upper division selected from Educational Technology 470, 540, 541, 544, 561, 572, and 596 (when applicable).

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable or as prerequisites for the master's degree in educational technology. A minimum of six upper division units must be completed in residence at San Diego State University.

Instructional Technology Certificate
To receive a certificate in instructional technology, candidates must meet departmental admission requirements which include relevant work experience or academic preparation, letters of recommendation, and must complete the following 15 units of coursework:
Educational Technology 540, 541, 544, and six units selected from Educational Technology 561, 570, 572, or 596.

With the approval of the department, a student may apply no more than three units of coursework from the certificate program toward a minor.

Courses (EDTEC)

LOWER DIVISION COURSE

296. Experimental Topics (1) I, II
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES (Intended for Undergraduates)

470. Technologies for Teaching (1-3) I, II, S
One unit: One-half hour of lecture and one hour of activity.
Two units: One hour of lecture and two hours of activity.
Three units: One and one-half hours of lecture and three hours of activity.
Application of computer and video technologies to practice of teaching. Meets computer literacy requirement for clear teaching credential.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Open only to senior and graduate students in education who have shown ability to work independently.

UPPER DIVISION COURSES (Also Acceptable for Advanced Degrees)

532. Production of Instructional Materials (3) I, II
Six hours of activity.
Instructional media production for professionals in organizational settings such as hospitals, law offices, accounting firms, publishing companies. Use of videotape, laser disc, multi-image and digital tele-communications for training. Not open to students in educational technology degree and certificate programs or to students with credit in Educational Technology 541.

540. Educational Technology (3) I, II, S
One lecture and six hours of laboratory.
Rationale, foundations, theories, careers, trends, and issues in educational technology. Implications of educational technology for instruction and information in schools, government, and corporations.

541. Multimedia Development (3) I, II, S
One lecture and six hours of laboratory.
Prerequisite: Basic computer literacy and elementary knowledge of an authoring system.
Systems, aesthetic, and learning theories applied to design of educational multimedia. Use of authoring systems to plan and prototype. Not open to students with credit in Educational Technology 532.

544. Instructional Design (3) I, II
One lecture and six hours of laboratory.
Prerequisites: Educational Technology 540 and 541. Pass GRE Writing Assessment Test or complete Rhetoric and Writing Studies 503W with a grade of B+ or better.

561. Advanced Multimedia Development (3) I, II, S
Six hours of activity.
Prerequisites: Educational Technology 540 and 541.
Research-based guidelines, design languages and object-oriented thinking applied to development of media-based learning systems. Two- and three-dimensional graphics, animation, video, sound, and virtual reality techniques.

570. Advanced Teaching with Technologies (3) I, II
Prerequisite: Educational Technology 470.
Design of constructivist lessons and units using Internet resources. Use of visual organizing tools and databases for instruction and assessment. Tools for professional knowledge base organization and electronic portfolios.

572. Technology for Course Delivery (3) I, II, S
One lecture and six hours of laboratory.
Prerequisites: Educational Technology 540 and 541.
Use of technology to support planning, presenting and managing instructor-led courses.

596. Topics in Educational Technology (1-3) I
Selected problems in educational technology. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
The undergraduate degree in Electrical Engineering is accredited by the Accreditation Board for Engineering and Technology, Inc.

**Faculty**
Emeritus: Brown, Chan, Learned, Lodge, Mann, Massey, Panos, Skaar, Stuart, Thyagarajan, Wilson
Chair: Szeto
Professors: Abut, Chang, Gupta, harris, f., Harris, J., Iosupovici, Kolen, Lee, Lin, Marino, Szeto
Associate Professors: Bailey, Betancourt, Ozturk
Assistant Professors: Park, Singh

**Offered by the Department of Electrical and Computer Engineering**
Doctor of Philosophy degree in engineering sciences/applied mechanics.
Master of Science degree in electrical engineering.
Major in electrical engineering with the B.S. degree.
Certificate in rehabilitation technology (refer to Bulletin of the Graduate Division).

**Transfer Credit**
No credit will be given for upper division engineering coursework taken at an institution having an engineering program which has not been accredited by the Accreditation Board for Engineering and Technology, Inc., unless the student successfully completes the first 12 units of engineering work attempted at this University. At that time, and upon recommendation of the department, credit will be given for the unaccredited work.

**General Education**
Students will complete a minimum of 50 units in General Education, to include a minimum of nine upper division units taken after attaining junior class standing. No more than twelve units may be used for General Education credit from any one department or academic unit. No more than 7 units from one department can be used in Sections II, III, and IV combined (Foundations, American Institutions, and Explorations).

**I. Communication and Critical Thinking:** 9 units
1. Oral Communication (3 units)
2. Composition (3 units)
3. Intermediate Composition and Critical Thinking (3 units)

**II. Foundations:** 29 units
A. Natural Sciences and Quantitative Reasoning (17 units):
1. Physical Sciences (11 units)
   Engineering students will take Chemistry 200 which includes a laboratory (5 units).
   Physics 195 (3 units)
   Physics 196 (3 units)
2. Life Sciences (3 units)
3. Laboratory (satisfied under A.1. above)
4. Mathematics/Quantitative Reasoning
   Engineering students will take Mathematics 150, 3 units applicable to General Education.
B. Social and Behavioral Sciences (3 units)
C. Humanities (9 units)
Complete three courses in three different areas. One of these courses and the one under IVA. below must be taken in the same department.

**III. American Institutions:** Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

**IV. Explorations:** Total: 9 units; must include one course of cultural diversity.
A. Upper division Humanities (3 units)
   Three units must be taken from the same department as one of the Humanities courses selected in Foundations.
B. Upper division Humanities (3 units from a department not selected in A above.)
C. Upper division Social and Behavioral Sciences (3 units)

After enrollment in electrical engineering at SDSU, an Electrical Engineering major must take all upper division electrical engineering courses at SDSU unless prior approval is obtained from the department.

**The Major**
The field of Electrical Engineering involves three major activities: the generation and distribution of electric power; the collection, processing and communication of information; and the study and application of electromagnetic phenomena and materials.

The electric power industry is the oldest area of Electrical Engineering, but it remains an active area of innovation and development, as well as a major employer. Activities in the power area include the design of machines for energy conversion (motors and generators); the design of DC power supplies and other electronic circuits for the efficient delivery of electric power from various sources (e.g., solar cells, batteries, AC generators); and the design and operation of systems for the distribution of electric power, including the power grid that cover the United States with links to grids of other countries.

The most dynamic area of Electrical Engineering today is the processing and communication of information. Activities in this area include the design of machines that store, process and display information; and the design of systems for communicating information (e.g., radios, telephones, fax machines, cellular phones, computer networks, the world wide web, satellite communication systems, cable television systems, etc.). Also included in this area are consumer electronics and instrumentation for applications of all sorts (e.g., medical equipment, industrial process control, machine control, bio-engineering, traffic control, radar, sonar, speech analysis and synthesis, music, etc.).

The study of electromagnetic phenomena and materials provides the foundation for all of Electrical Engineering. Research and development at this level typically leads to new developments and improvements in other areas. Major activities today include the study of energy conversion processes, fabrication processes, imaging techniques, information storage mechanisms, environmental processes, and optoelectronics (e.g., lasers, optical fibers, optical computing). The Bachelor of Science degree program includes a core of courses that provides an introduction to each of the major areas described above. In addition, nearly a full year of professional electives provides the opportunity for students to specialize in areas of particular interest. The process of engineering design is emphasized throughout the curriculum by including open-ended problems with realistic design constraints. The design experience culminates in a capstone design course required of all students. Creativity, consideration of economic and social factors, and the application of systematic design procedures are used to solve problems that confront
Electrical Engineering

Engineers. The curriculum attempts to achieve a balance between theory and practice that will prepare graduates both for immediate employment and for continued study. The Master of Science program offers graduates in electrical engineering and related fields the opportunity for continued study and further specialization.

Employment opportunities within the electrical engineering profession are challenging and usually plentiful. Electrical engineering graduates are sought by a wide range of employers in government and industry for many different types of work including design, testing, production, maintenance, system operation, programming, customer support engineering, and technical marketing and sales. Graduates have the opportunity to contribute to society by helping to design and supply the high-quality products and services that are necessary for a robust economy.

Educational Objectives
The objectives of the undergraduate program in electrical engineering are:

a. to provide students with an education that will enable them to have a successful career in the electrical engineering profession;

b. to provide students with a significant exposure to the humanities and social sciences in order to give them an understanding of the impact of electrical engineering solutions in a global, societal, and environmental context; and

c. to inspire in students an open but critical approach to the analysis of problems, considering the technical, social, economic, and ethical dimensions of any solution.

Electrical Engineering Major
With the B.S. Degree (Major Code: 09091)

The program below describes the 138 units required for the degree. Each course specifically listed in the program is required. In addition, the total number of units specified in each elective category represents a minimum requirement. These are General Education, American Institutions, Upper Division Engineering Elective, Professional Electives, Electrical Engineering Laboratory Electives, and the Electrical Engineering Capstone Elective.

Preparation for the Major. Electrical Engineering 210; Chemistry 200; Computer Engineering 160, 270, 271; Engineering Mechanics 202; Mathematics 150, 151, and 252; Physics 195, 196, 196L, 197, and 197L. (47 units, 14 units of which count toward General Education credit)

General Education. Engineering students must follow the specific General Education program outlined on the previous page. Other General Education requirements and limitations, as well as listings of specific General Education course electives are presented in Section IX of Graduation Requirements for the Bachelor’s Degree. (Fifty units, including 14 units from preparation for the major which count toward General Education credit, and 3 units of American Institutions which count toward General Education credit.)

American Institutions. Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

General Education requirements and limitations, as well as listings of specific General Education course electives are presented in Section IX of Graduation Requirements for the Bachelor’s Degree. (Fifty units, including 14 units from preparation for the major which count toward General Education credit, and 3 units of American Institutions which count toward General Education credit.)
Upper Division Writing Requirement. Each student must pass the University Writing Examination or complete one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 52 upper division units to include the following required and elective courses. Required upper division courses in the major: Electrical Engineering 300, 310, 330, 330L, 340, 380, 410, 430, 430L, and 434. Upper division engineering elective: Three units selected from Civil Engineering 301 or Engineering Mechanics 340 or Mechanical Engineering 260 (will not satisfy upper division major requirement) or Mechanical Engineering 352. Professional electives: Eighteen units selected from any upper division electrical engineering and computer engineering courses and up to three units from approved upper division courses from other departments. Electrical Engineering laboratory electives: Two units selected from any non-required upper division electrical engineering laboratory courses. Electrical Engineering capstone design elective: Three units selected from a list of design courses approved by the department.

Elective courses are subject to the approval of the faculty adviser and the department chair. The student must file an approved Master Plan during the first semester of the junior year specifying the electives selected. Changes to the Master Plan are permitted at any time upon approval by the department chair.

Courses (EE)

NOTE: Prerequisites will be enforced in all undergraduate electrical engineering courses numbered 100 through 599. A copy of an official transcript will be accepted as proof. For corequisites, an enrollment confirmation form will be accepted.

Any course at the 300 level or below must be passed with a grade of C- or better in order to be used as a prerequisite for any subsequent course.

LOWER DIVISION COURSES

203. Principles of Electrical Engineering (3) I, II
Prerequisites: Mathematics 151 and Physics 196.
Direct and alternating current analysis, phasor diagrams, single-phase and three-phase power, diodes, transistors, integrated circuits, transformers, motors, and generators. Not acceptable for electrical, aerospace, or civil engineering majors.

204. Principles of Electrical Engineering (3) I, II
Prerequisites: Mathematics 151 and Physics 196.
Circuit analysis, phasor diagrams, single-phase and three-phase power, semiconductor devices and applications, and energy conversion devices. Not acceptable for electrical or mechanical engineering majors.

210. Circuit Analysis I (3) I, II (CAN ENGR 12)
Prerequisites: Mathematics 151 and Physics 196.
Circuit analysis by reduction methods, source transformations, mesh and nodal analysis. Operational amplifier model, transient analysis, alternating current circuits, impedance, power, phasor diagrams, and three-phase balanced networks. Computer programming and application of computer software for circuit analysis.

UPPER DIVISION COURSES (Intended for Undergraduates)

300. Computational and Statistical Methods for Electrical Engineers (3) I, II
Prerequisites: Computer Engineering 160 and Mathematics 151.
Deterministic and statistical concepts and models in electrical engineering. Associated plotting and numerical techniques. Graphical representation of data and signal processing using computer-aided engineering tools.

303. Electronics, Instrumentation, and Electrical Energy Conversion (3) I, II
Prerequisite: Electrical Engineering 203 with minimum grade of C.

310. Circuit Analysis II (3) I, II
Prerequisites: Electrical Engineering 210 and Mathematics 252.

330. Fundamentals of Engineering Electronics (3) I, II
Prerequisite: Electrical Engineering 210.
Application of diodes JFETs, MOSFETs, and BJTs in typical electronic circuits. Analysis and design of rectifiers, filters, and simple amplifiers using transistors and operational amplifiers.

330L. Engineering Electronics Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Electrical Engineering 330.
Experimental study of laboratory instruments, diodes, rectifier circuits, filters, transistors, and operational amplifiers.

340. Electric and Magnetic Fields (3) I, II
Prerequisites: Electrical Engineering 210 and Engineering 280.
Electrostatic and magnetostatic field theory using vector notation; Coulomb’s Law, Gauss’ Law and potential theory. Solutions to Poisson's and Laplace’s equations; capacitance and inductance. Time-varying fields; Maxwell’s equations.

380. Electrical Energy Conversion (3) I, II
Prerequisite: Electrical Engineering 210.
Magnetic circuits, transformers and polyphase AC networks. Fundamentals of electro-mechanical energy conversion; induction motors, synchronous machines and DC machines.

380L. Electrical Energy Conversion Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Electrical Engineering 380.
Experimental study of DC, single and polyphase AC circuits, transformers, and machines.

397. Discussion: Electrical Engineering (1) Cr/NC
Prerequisite: Concurrent registration in associated course.
Discussion and examples of problem-solving techniques in subject area. Weekly writing assignments summarizing material covered in lecture and identifying troublesome topics. Not applicable to a bachelor’s degree.

410. Signals and Systems (3) I, II
Prerequisites: Electrical Engineering 300 and 310.
Linear time-invariant systems, Fourier analysis, continuous and discrete signals and systems, filtering, sampling, and Z-transform techniques.

430. Analysis and Design of Electronic Circuits (3) I, II
Prerequisites: Electrical Engineering 310, 330, and Engineering 280.
Single and multiple transistor amplifiers, power stages. Frequency response, feedback, stability, and operational amplifier circuits.

430L. Electronic Circuits Laboratory (1) I, II
Three hours of laboratory.
Prerequisites: Electrical Engineering 330L and 430.
Transistor dynamic characteristics; single stage and multistage amplifier circuits including feedback, tuned amplifiers, voltage regulators, active filters, and A/D-D/A converters.

434. Electronic Materials and Devices (3) I, II
Prerequisites: Electrical Engineering 330 and 340.
Crystal properties and growth of semiconductors, quantum mechanics of solids, shot noise and thermal noise, energy band and charge carriers, excess carrier in semiconductors, p-n junctions, solar cells, tunnel diodes, photodetectors.
440L. Physical Electronics Laboratory (1)
   Prerequisites: Electrical Engineering 330 and 340.
   Experimental study of electrical properties of semiconductors, light transmission in optical fibers, transmission and reflection of electromagnetic waves, laser oscillation and amplification, and gaseous electrical discharge.

450. Transmission Lines for High Speed Electronics and Microwaves (3)
   Prerequisites: Electrical Engineering 330 and 340.
   Theory and applications of transmission lines. Transmission-line equations and four transmission-line parameters, pulses on transmission lines, and impedance matching techniques, scattering matrix, microstrip line, coplanar waveguides, and various microwave transmission line components.

458. Communication Systems I (3)
   Prerequisite: Credit or concurrent registration in Electrical Engineering 410.
   Analog and digital communication systems. Amplitude and frequency modulation, pulse modulation, and PCM. Introduction to information theory.

483. Power Distribution Systems (3) II
   Prerequisite: Electrical Engineering 380.
   Design and operation of electric power distribution systems. Design of primary and secondary systems, application of one phase and three phase transformer banks, and metering principles and practices.

496. Advanced Electrical Engineering Topics (1-3)
   Prerequisite: Consent of instructor.
   Modern developments in electrical engineering. See Class Schedule for specific content. Maximum credit nine units for any combination of Electrical Engineering 496 and 596 applicable to a bachelor's degree.

499. Special Study (1-3) I, II
   Prerequisite: Approval of project adviser and department chair.
   Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

502. Electronic Devices for Rehabilitation (3)
   Two lectures and three hours of laboratory.
   Prerequisite: Electrical Engineering 303 or 330.
   Recent developments in electronic assistive devices and microcomputers for persons with various disabilities; assessment of disabled persons for suitable technological assistive devices.

503. Biomedical Instrumentation (3)
   Prerequisites: Engineering 280; Electrical Engineering 410 and 430 (or for Mechanical Engineering majors, Electrical Engineering 303 and Mechanical Engineering 512).
   Instrumentation systems to monitor, image, control, and record physiological functions. (Formerly numbered Electrical Engineering 403.)

520. Feedback Control Systems (3) I
   Prerequisite: Electrical Engineering 410.
   Analysis of regulatory systems including servomechanisms by the Laplace transform method. System performance and stability; Nyquist, Bode, and root-locus diagrams; elementary synthesis techniques. Practical components and examples of typical designs.

530. Analog Integrated Circuit Design (3)
   Prerequisite: Electrical Engineering 430 with minimum grade of C-.
   Advanced treatment of transistor pairs, device mismatches, differential amplifiers, current mirrors, active loads, level shifting, and output stages. Parasitic and distributed device parameters. Economics of IC fabrication and impact on design.

534. Solid-State Devices (3)
   Prerequisite: Electrical Engineering 434.
   Conduction theory of solids. Characteristics of tunnel, backward, breakdown, multilayer and varactor diodes; silicon controlled rectifiers and switches, unijunction transistors, hot electron devices. Lasers and laser applications.

539. Instrumentation Circuits I (3)
   Prerequisite: Electrical Engineering 430.
   Design and analysis of hybrid analog/digital electronic sub-systems incorporated into modern instrument design. Emphasis on operational amplifier based circuit design and analog-to-digital and digital-to-analog conversion processes.

540. Microwave Devices and Systems (3)
   Applications of Maxwell's equations to wave propagation. Microwave network parameters; guided wave transmission and reflection. Design of filters, couplers, power dividers and amplifiers. Applications in radar and telecommunications systems.

540L. Microwave Measurements Laboratory (1)
   Three hours of laboratory.
   Prerequisites: Credit or concurrent registration in Electrical Engineering 430L and 540.
   Experimental study of microwave generation including klystrons, Gunn and IMPATT oscillators. TWT and microwave transistor amplifiers. Microwave modulation and detection. Microwave transmission and antennas.

541. Electro-Optics (3) II
   Prerequisite: Electrical Engineering 434.
   Optical/electronic devices and systems; wave beams; light-matter quantum interactions; incoherent and laser light sources; modulators and detectors. Applications in data transmission, measurement, and materials processing.

546. Optical Fiber Communications Systems (3)
   Optical fiber attenuation and dispersion, light-emitting diodes and laser diodes, PIN diodes and avalanche photodiodes, receiver designs, optical power budgets and rise time budgets, applications in digital and analog communication systems.

553. Stochastic Signals (3) I
   Prerequisite: Electrical Engineering 410.
   Random signals, correlation functions, power spectral densities, the Gaussian process, narrow band processes. Applications to communication systems.

556. Digital Signal Processing (3)
   Prerequisite: Electrical Engineering 410 or Physics 516.
   Digital signal processing. Discrete-time signals, transform techniques, and digital filters. Design of FIR and IIR filters, FFTs, and finite length effects on digital systems.

558. Communication Systems II (3) II
   Prerequisite: Electrical Engineering 458.
   Performance of analog and digital communication systems. Effects of noise and spectral characteristics.

558L. Communications and Digital Signal Processing Laboratory (1)
   Prerequisite: Electrical Engineering 558.
   Experiments in modulation techniques, effects of noise on system performance, digital filters, and signal processing.

570. Advanced Digital Circuits (3)
   Prerequisite: Computer Engineering 470.
   Digital applications of linear devices, the digital/analog interface, and ultra high speed logic devices.

580. Modern Power Systems I (3) I
   Prerequisites: Engineering 280, Electrical Engineering 310 and 380.
   Modern power system elements; calculation of load flow, fault currents, and system stability.
581. Modern Power Systems II  (3) II
Prerequisite: Electrical Engineering 580.
Transient response of modern power system elements; positive, negative and zero sequence impedance; subharmonic effects.

582. Power Relay Systems  (3) I
Prerequisite: Electrical Engineering 380.
Power relays including metering and control as used in modern power systems. Characteristics of operations and applications of equipment. Demonstrations on individual component relays. Basic relay calculations.

583. Power Electronics  (3)
Prerequisites: Electrical Engineering 380 and 430.

596. Advanced Electrical Engineering Topics  (1-3) I, II
Prerequisite: Consent of instructor.
Modern developments in electrical engineering. See Class Schedule for specific content. Maximum credit of nine units for any combination of Electrical Engineering 496 and 596 applicable to a bachelor's degree. Maximum credit of six units of Electrical Engineering 596 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to the Bulletin of the Graduate Division.
Engineering
In the College of Engineering

The College of Engineering undergraduate programs in aerospace, civil, electrical, and mechanical engineering are accredited by the Accreditation Board for Engineering and Technology, Inc.

Faculty
Faculty assigned to teach courses in engineering are drawn from departments in the College of Engineering.

Minor in Engineering
The minor in engineering, intended for students in other academic areas of the university, consists of 15 units in engineering, 12 units of which must be in upper division courses. The courses must be approved by the Dean of the College of Engineering.

Courses (ENGR)

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

310. Methods of Analysis (3) I, II
Prerequisite: Mathematics 252 with minimum grade of C.
Selected topics from ordinary differential equations, the Laplace transform, Fourier series, and linear algebra, with engineering applications.

510. Methods of Analysis (3) I, II
Prerequisite: Engineering 280 with minimum grade of C.
Selected topics from vector calculus, partial differential equations, and complex analysis, with engineering applications.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.

“We can do anything we want as long as we stick to it long enough.”
—Helen Keller
Offered by the Department of English and Comparative Literature
Master of Arts degree in English.
Master of Fine Arts degree in creative writing.
Minor in English with the B.A. degree in liberal arts and sciences.
Minor in English in preparation for the single subject teaching credential in English.
English honors.
Minor in English.
Certificate in children’s literature.

The Major

The study of English today encompasses a wide range of materials and approaches to ways in which both students and established writers—past and present—may use language to express feelings, convey ideas, and give aesthetic pleasure. As one of the largest English Departments in California, SDSU's can offer not only historical, analytical, sociopolitical and other approaches to literature and literary theory, but a variety of creative and expository writing classes as well.

English majors take 15 units of lower division preparatory work designed to develop writing potential and analytical reading skills. More specialized upper division study focuses on particular areas: British literature before 1800; British literature after 1800; American literature; modern literature; literary types, theory, and criticism; creative writing; or expository writing. Six units in upper division comparative literature are required.

Students preparing to obtain the single subject credential in English take a "language arts" program in which courses in communication, journalism, linguistics, and theatre supplement major concentrations in English.

The English minor requires twelve units of upper division study that can be tailored to individual requirements. In addition the department offers certificates in Children’s Literature.

Teaching is one of the many career opportunities available to English graduates; English studies are also good preparation for radio and television broadcasting, editing, writing, politics, film and library work, journalism, criticism, advertising, public information, public relations, and technical writing.

A study by the Modern Language Association, "English: The Professional Major," shows that training in English and literature is valuable preparation for futures in law, medicine, business and federal service.

The SDSU Placement Office has found that liberal arts graduates in general have profited both in terms of job availability and compensation in the shift from manufacturing to service in the United States economy.

English Major Honors

(Standard Major)

The English honors program offers excellent students a variation of the major designed to engage them in work commensurate with their abilities. Honors students in the standard English major will take two additional upper division courses appropriate for their field of interest, in which they must maintain an A- grade point average, and successfully complete an Honors Thesis (English 499 or Comparative Literature 499). Generally, students will apply to this program in their junior year after they have completed at least nine units of lower division preparation for the major and nine units of upper division major requirements with an A- (3.7 GPA) and overall 3.5 GPA. Applicants must also submit an appropriate sample of their critical or creative work. Students not meeting these requirements may petition for admission to the English honors program. Successful completion of the English honors program will be recognized at graduation.

English Major Honors

In preparation for the Single Subject Teaching Credential in English

The English honors program offers excellent students a variation of the major designed to engage them in work commensurate with their abilities. Honors students in the English major in preparation for the Single Subject Teaching Credential in English will convert nine of the twelve units of electives into two honors courses, in which they must maintain an A- grade point average, and successfully complete an Honors Thesis (English 499 or Comparative Literature 499). Generally, students will apply to this program in their junior year after they have completed at least nine units of lower division preparation for the major and nine units of upper division major requirements with an A- (3.7 GPA) and overall 3.5 GPA. Applicants must also submit an appropriate sample of their critical or creative work. Students not meeting these requirements may petition for admission to the English honors program. Successful completion of the English honors program will be recognized at graduation.

Impacted Programs

The majors in English and English in Preparation for the Single Subject Teaching Credential are impacted programs. Students must enter the University under the English premajor code (15010). To be admitted to the major in English or English in Preparation for the Single Subject Teaching Credential, students must meet the following criteria:

a. Complete with a minimum GPA of 2.5 and a grade of C or higher: Rhetoric and Writing Studies 100; English 220 or Comparative Literature 270A or 270B; and two of the following for the English major and three for the English major in Preparation for the Single Subject Teaching Credential: English 250A, 250B, 260A, 260B, 280. These courses cannot be taken for credit/no credit (Cr/NC);

b. Complete a minimum of 45 semester units;

c. Have a cumulative GPA of 2.40 or higher; and
d. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Advising

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

English Major

With the B.A. Degree in Liberal Arts and Sciences
(Premajor Code: 15010) (Major Code: 15011)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." No more than 54 units in English, comparative literature, and rhetoric and writing studies courses can apply to the degree. A minor is not required with this major.

Preparation for the Major. Rhetoric and Writing Studies 100; three units selected from English 220, Comparative Literature 210, 270A, 270B, 296; English 260A-260B (unless replaced by English 560A and 560B); and three units selected from English 250A, 250B, 280, 281, 296. (15 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. English 508W, 581W, or 584W*, with a grade of C (2.0) or better.

Major. A minimum of 33 upper division units in English and Comparative Literature with approval of the adviser, to include English 533, three units in British Literature before 1800 (English 529, 530, 531, 534, 535, 536, 537, 538A, 538B, 540A, 541A, 541B). Three units in British literature after 1800 (English 540B, 542, 543, 544, 547, 548), six units in American literature (English 519, 520-528) including at least one period course (English 521, 522, 523, 524, 525), six units in comparative literature, three units in writing (English 508W, 580*, 581W*, 584W*), and nine units of electives in any combination of courses in American, British, comparative literature, and creative writing.

Students who have not taken English 260A as part of the preparation for the major must take English 560A. Students who have not taken 260B must take 560B. English 560A or 560B may not be used to satisfy requirement for British literature before and after 1800, but may count as electives in the major if they are not used as units in preparation for the major.

English Honors Variation. Six rather than nine units of electives; six additional units of upper division coursework in English, comparative literature, or other departments, with consent of honors adviser; and Honors Thesis (English 499 or Comparative Literature 499). (39 units)

* Additional prerequisites required.

NOTE: In addition to the courses listed above, appropriate sections of English 496, 499, 526, 527, 528, 549, American Studies 580, and selected comparative literature courses may be used to satisfy the requirements for the major if approved by the departmental adviser.

Selection of Courses

Prospective majors of sophomore standing may, with the consent of the course instructor and subject to general university regulations (see "Credit for Upper Division Courses" in the section of this catalog on General Regulations), substitute six units of upper division electives for six units of lower division work. These courses must be in the same field as those which they replace, and must be approved by the departmental adviser.

Students of junior or senior standing may substitute for any deficiencies in lower division requirements in English (except Rhetoric and Writing Studies 100 and 200) an equivalent number of units of upper division courses selected with the approval of the departmental adviser.

English Major

In preparation for the Single Subject Teaching Credential in English

With the B.A. Degree in Liberal Arts and Sciences

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under Policy Studies or Teacher Education.

Preparation for the Major. Rhetoric and Writing Studies 100. English 250A-250B or 260A-260B, English 280 or 281, English 220 or Comparative Literature 270A or 270B; Communication 200 or Journalism 220 or Theatre 115; Humanities 140 or Theatre 120; Linguistics 101 (420 may be substituted). (24 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. English 508W or Rhetoric and Writing Studies 500W.

Major. A minimum of 48 upper division units to include English 508W or Rhetoric and Writing Studies 500W; English 533; English 560A and 560B (for those who took English 250A-250B) or six units from English 521, 522, 523, 524, 525 (for those who took English 260A-260B); Comparative Literature 562 or Theatre 310 or 580; Linguistics 430 or 530; Rhetoric and Writing Studies 509; three units selected from Communication 360*, 371, 391, 408, 491*. Linguistics 410, 452, 524, 550, 551; and completion of courses selected from the following categories:

1. Ethnic Literature (3 units): English 519, 520, 526 (with adviser approval), 527 (with adviser approval), Africana Studies 460, 461, 462, 463, 464, American Indian Studies 430, Chicana and Chicano Studies 335, 464.

2. Pre-Nineteenth Century Literature (3 units): Comparative Literature 511, 512, English 521, 529, 530, 531, 534, 536, 537, 538A, 538B, 540A, 541A, 541B.

3. Nineteenth or Twentieth Century Literature (3 units): English 522, 523, 524, 525, 540B, 542, 543, 544, 547, 548; Comparative Literature 440, 445, 460, 513, 514.

Twelve additional units in literature, creative or expository writing, as follows (no more than six units in one area):

Literature: Courses listed under 2 and 3 above, plus English 501, 502, 503, 519, and 520.

No course can fulfill more than one requirement. Sixteen courses are required.

English Honors Variation. Instead of "twelve additional units in literature, creative or expository writing," students take three units of electives; convert six units of electives to two courses relevant to the student's honors thesis, with consent of honors adviser; and convert
three units of electives to Honors Thesis (English 499 or Comparative Literature 499. (48 units).

* Additional prerequisites required.

**NOTE:** Sections of English 526, 527, 528, 549, and 596 may be substituted where appropriate if approved in writing by the English Department credential adviser.

Course Sequences

All year courses in English may be taken in either semester, and either semester may be taken singly for credit.

Student Initiated Courses

Students may petition for a course which falls within the competency of the English Department but which is not among the regular course offerings for the present or following semester. Petition forms may be obtained from the department secretary.

Undergraduate Seminars

Each semester, if adequate staffing permits, the department may offer several of its courses as special, limited-enrollment seminars. These seminars are designed to give English majors (or anyone who has the consent of the instructor) the opportunity as juniors and seniors to engage in advanced work in small discussion groups.

English Minor

The minor in English consists of a minimum of 15 units, 12 units of which must be in upper division courses. The department offers minors specifically tailored to complement students’ majors. All minors will include English 220 (unless a substitution is approved by the departmental adviser) and 12 upper division units selected from one of the following areas, dependent upon the student’s major:

Social Science disciplines, one course from each group:
1. A course in Shakespeare: English 302 or 533.
2. A course in expository writing: Rhetoric and Writing Studies 500W or 503W.
3. A course in literature and psychology, the Bible as literature, children’s literature, adolescence in literature or folk literature: English 301, 405, 491, 501, 502, Comparative Literature 470, or approved sections of special topics courses.
4. A course in contemporary literature: English 525, 548, or approved sections of special topics courses.

Fine Arts disciplines, one course from each group:
1. A course in Shakespeare: English 302 or 533.
3. A course in literature and other arts: English 493, Comparative Literature 594, 595, or approved sections of special topics courses.

Business disciplines, one course from each group:
1. A course in expository writing: Rhetoric and Writing Studies 500W or 503W.
2. A course in Shakespeare, literature and psychology, literature and film, or modern American fiction: English 301, 302, 491, 493, 494, 533.
3. A course in American literature: English 519, 520, 521, 522, 523, 524, 525, or approved sections of 526, 527, 528.

Humanities disciplines, one course from each group:
1. A course in Shakespeare: English 302 or 533.
4. A second course in literary history or a course in literature and other disciplines, English 493, Comparative Literature 594, 595, or approved sections of special topics courses.

Science disciplines, one course from each group:
1. A course in technical writing: Rhetoric and Writing Studies 500W*.
2. A course in Shakespeare or Bible as Literature: English 302, 405, 533.
3. A course in literature and psychology, literature and film, modern American fiction, or children’s literature: English 301, 491, 493, 494, 501, 502, or approved sections of other special topics courses.
4. A course in literary history: English 560A, 560B, any course in the 520, 530, or 540 series, Comparative Literature 511, 512, 513, 514.

* Additional prerequisites required.

For students whose needs are not accommodated by any of the above patterns:

Students whose majors are not represented by the patterns above, students who wish to design a minor more directly tailored to their specific major, or students who otherwise feel they have special needs are encouraged to consult with their advisers in both major and minor departments to design individualized minors in English. All such minors must have the written approval of both departmental advisers.

The English minor is not available to students majoring in comparative literature. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Children’s Literature Certificate

This certificate attests that the student has successfully completed 18 units (minimum GPA 3.0) of planned, advised, coherent, and articulated study in the field of literature for children. Prerequisites include admission to the University and to upper division or graduate standing. The Certificate in Children’s Literature may be earned with a specialization either in Education or in English and Comparative Literature. Nine units in the certificate program may be counted toward the major in English, and six units may be counted toward the minor in English.

Specialization in Education. Nine units from courses in group A, six units from group B, and three units of an appropriate elective chosen with the approval of a faculty adviser.

Specialization in English and Comparative Literature. Nine units from courses in group B, six units from group A, and three units of an appropriate elective chosen with the approval of a faculty adviser.

Group A, Education: Educational Technology 596; Teacher Education 496**, 530.

Group B, English and Comparative Literature: Comparative Literature 561 (when offered as European Children’s Literature); English 496**, 501, 502, 526**, 527**, 528**, 549**.

** With adviser’s permission when the subject is closely related to children’s literature.
Courses (ENGL)

LOWER DIVISION COURSES

220. Introduction to Literature (3) I, II
Prerequisite: A grade of C (2.0) or better in African Studies 120 or Chicana and Chicano Studies 111B or Linguistics 100 or Rhetoric and Writing Studies 100.
Inquiry into basic nature of literature. What prompts humankind to creation of imaginative literature? What purposes does literature serve in cultural life of humanity? What are its social, philosophical, spiritual, and aesthetic values? Some consideration may be given to techniques and major critical theories, but focus will be on practical criticism for nonspecialist. Specific works studied will be representative of several genres, cultures, and periods of literature.

250A-250B. American Literature (3-3) (250A: CAN ENGL 14)
Prerequisite: A grade of C (2.0) or better in African Studies 120 or Chicana and Chicano Studies 111B or Linguistics 100 or Rhetoric and Writing Studies 100.
American literature from colonial period to present. Semester I: from beginning to Civil War. Semester II: Civil War to present. Recommended for English majors.

260A-260B. English Literature (3-3) I, II
(260A + 260B: CAN ENGL 6) (260A: CAN ENGL 8) (260B: CAN ENGL 10)
Prerequisite: A grade of C (2.0) or better in African Studies 120 or Chicana and Chicano Studies 111B or Linguistics 100 or Rhetoric and Writing Studies 100.
English literature from Anglo-Saxon period to present, with emphasis on major works in literary tradition. Semester I: Ends with neoclassical period. Semester II: Begins with Romantic writers.

280. Introduction to Creative Writing (3) I, II (CAN ENGL 6)
Prerequisite: A grade of C (2.0) or better in African Studies 120 or Chicana and Chicano Studies 111B or Linguistics 100 or Rhetoric and Writing Studies 100.
Theory and practice of poetry and fiction, with emphasis on basic concepts and techniques. A research paper on a writer, a technique, a period, or a genre required.

281. Creative Writing: Selected Genres (3)
Prerequisite: A grade of C (2.0) or better in African Studies 120 or Chicana and Chicano Studies 111B or Linguistics 100 or Rhetoric and Writing Studies 100.
Guidance and extensive practice in writing in one or more of the major genres: poetry, drama, fiction, or the essay. See Class Schedule for specific content.

296. Experimental Topics (1-4)
Prerequisite: A grade of C (2.0) or better in African Studies 120 or Chicana and Chicano Studies 111B or Linguistics 100 or Rhetoric and Writing Studies 100.
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES (Intended for Undergraduates)

301. The Psychological Novel (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Psychological novel from its inception to present, including major works from a variety of cultures. Readings designed to aid students in discovering insights which great novelists have unearthed in their explorations of the human psyche.

302. Introducing Shakespeare (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Representative tragedies, comedies, and histories. Primarily for the general student not specializing in English or comparative literature. This course does not count toward the English or comparative literature majors. Majors are required to take English 333.

306A-306W. Children’s Literature and Advanced Composition (3-3) I, II
Prerequisite: Rhetoric and Writing Studies 200. English 306A and 306W must be taken concurrently. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilling the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking.
Prerequisite: Completion of prerequisites required: Test scores or verification of exemption; copy of transcript.

306A: Reading, analysis, and discussion of classic works of children’s literature.

306W: Advanced composition; improvement of student skills by writing assignments based upon reading and work in the lecture part. Primarily designed to meet Upper Division Writing and Literature requirements for Liberal Studies-Emphasis in Education, but also open to students with other majors.

405. The Bible as Literature (3) I, II
(Same course as Comparative Literature 405.)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Prose and poetry of the King James version.

409. Science Fiction (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
How authors have responded to growing impact of science and technology on people’s lives and imaginations. Representative works by authors such as Kobo Abe, Bradbury, Butler, Delany, Delillo, Dick, Gibson, Heinlein, Hoban, Huxley, Kapek, LeGuin, Murakami, Orwell, Poe, Russ, Shelley, Verne, Wells, Zamyatin, and others.

410. Literature and the Passions (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Studies literature and the passions (grief and melancholy, anger and rage, and love) with emphasis on language and rhetorical techniques writers employ to construct emotion. Writers may include Emily Bronte, Raymond Carver, Chretien de Troyes, DuBois, Emerson, Homer, Melville, and Shakespeare.

491. Contemporary Topics in Literature (3)
Exploration of writers, works and topics in fiction, poetry, drama, and film, emphasizing the relationship between literature and current concerns. Topics include the city in fiction and film, literature and identity, literature of death, literature of contemporary myth and folklore, women in literature. Primarily for the general student not specializing in English or comparative literature. May count only as an elective course toward the English major. May be repeated with new title and content. Maximum credit six units. See Class Schedule for specific content.

493. Literature and Film (3)
Relationships between film and genres of literature, focusing on a critical comparison of the techniques of rhetoric, fiction, and drama and those of film. Topics include literature and film, novel into film, drama and film, reading film. Primarily for the general student not specializing in English or comparative literature. May count only as an elective course toward the English major. May be repeated with new title and content. Maximum credit six units.

494. Modern American Fiction (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Representative works by twentieth century American authors such as Cather, Hemingway, Steinbeck, Faulkner, Fitzgerald, Ellison, Welty, Bellow, Vonnegut, Heller, Walker, others. Primarily for the general student not specializing in English or comparative literature. May count toward the English major only as an elective.
496. Selected Topics in English (1-4)
Specialized study of a selected topic in literature. May be repeated with new title and content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

499. Special Study (1-3) I, II
Prerequisites: Consent of instructor and approval of department chair. Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

501. Literature for Children (3) I, II

502. Adolescence in Literature (3)
Prerequisite: Six units in literature. Works centrally concerned with an adolescent protagonist. Includes both traditional novels of development (Bildungsroman) and contemporary young adult novels.

503. Topics in Children’s Literature (3)
Topics in children's and adolescents' literatures such as regionalism, multiculturalism, fantasy, science fiction, non-fiction, illustrated books, nineteenth century classics, major works by twentieth century authors, British children's literature, the noir young adult novel, and the history of genre. Maximum credit six units.

508W. The Writing of Criticism (3) I, II
Prerequisites: Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript. Theory and practice of literary criticism. Emphasis on the work of important critics and on development of student's own critical writing.

510. Teaching Literature (3)
Prerequisite: Six units in 500-level literature courses. Theory and practice of teaching literature in high schools, colleges, and universities; various critical approaches (such as feminist, new historical, deconstruction, reader response) to literature and their implications for teaching and developing teaching styles.

519. American Ethnic Literatures (3) I, II
Prerequisite: Six units in literature. Works from American ethnic literatures, with emphasis on formerly excluded traditions as African-American, Hispanic and Chicano, Asian-American, and American Indian.

520. African-American Literary Tradition (3)
Prerequisite: Six units in literature. African-American literature from its eighteenth-century beginnings to the present. Early political and social concerns and concomitant utilitarian forms; aesthetic concerns and forms in nineteenth and twentieth centuries.

521. Early American Literature (3) I, II
Prerequisites: Six lower division units in literature. Representative works by American writers from the colonial period through the Revolution; to include works by Anne Bradstreet, Phillis Wheatley, Olaudah Equiano, Cotton Mather, Jonathan Edwards, Benjamin Franklin, Thomas Jefferson, various Native American speakers and writers, and others.

522. American Literature, 1800-1860 (3) I, II
Representative works by American writers from 1800 to 1860; likely to include works by Emerson, Hawthorne, Melville, Poe, Stowe, Thoreau, Whitman, and others.

523. American Literature, 1860-1920 (3) I, II
Representative works by American writers from 1860 to 1920; likely to include works by Charles Chesnutt, Kate Chopin, Stephen Crane, Emily Dickinson, Henry James, Mark Twain, Edith Wharton, and others.

524. American Literature, 1920-1950 (3) I, II
Representative works by American writers from 1920 to 1950; likely to include works by Willa Cather, T. S. Eliot, William Faulkner, F. Scott Fitzgerald, Ernest Hemingway, Zora Neale Hurston, Eugene O’Neill, Katherine Anne Porter, Ezra Pound, John Steinbeck, and others.

525. American Literature, 1950 to Present (3) I, II
American writers from 1950 to the present; likely to include works by Edward Albee, Saul Bellow, Allen Ginsberg, Joseph Heller, Maxine Hong Kingston, Norman Mailer, Toni Morrison, Sylvia Plath, Adrienne Rich, Kurt Vonnegut, Eudora Welty, and others.

526. Topics in American Literature (3)
Topics in American literature to include the literature of the South, Black writers in America, the frontier and American literature, the outcast in American literature, the immigrant experience in American literature. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

527. Genre Studies in American Literature (3)
Study of a specific literary genre: overview of the genre’s development in American literature (the American novel, the American short story, American poetry) or focus on a narrower period (the modern American novel, the contemporary American novel, American autobiographies, others). May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

528. Individual American Authors (3)
Works of a major American author or, if useful comparisons and juxtapositions warrant it, the works of two or three authors: Melville, Twain, James, Faulkner, Steinbeck, Cather, Morrison; or Pound and Eliot, Emerson and Thoreau, Vonnegut and Barth, Rich and Levnet, and others. See Class Schedule for specific content. May be repeated with new title and content. Maximum credit six units.

529. Medieval Literature (3)
English literature from its birth through high middle ages.

530. Chaucer (3)
Chaucer's works, with emphasis on The Canterbury Tales and Troilus and Criseyde.

531. Renaissance Literature (3)
English poetry and prose from 1485 to 1603.

533. Shakespeare (3) I, II
An introduction to the writings of Shakespeare. This course cannot be used in place of English 302 to satisfy General Education requirements.

534. Study of Shakespeare (3)
Prerequisite: English 533. Advanced study of Shakespeare’s achievement as poet and playwright. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

536. Seventeenth Century Literature (3)
English poetry and prose from 1603 to 1660.

537. Milton (3)
Milton’s writings, with emphasis on Paradise Lost.

538A-538B. Restoration and Eighteenth Century Literature (3-3)
English literature in the neoclassical era. Semester I: Dryden, Swift, Pope, and their contemporaries. Semester II: Writers of the middle and late eighteenth century.

540A-540B. English Fiction (3-3)
541A-541B. English Drama (3-3)
English dramatic literature from its beginnings to the nineteenth century. Semester I: The period from the beginning to 1642. Semester II: The period following reopening of the theatres in 1660.

542. Romantic Literature (3)
Representative British works from the 1790s to the 1830s by such writers as Wollstonecraft, Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, Austen, and Scott.

543. Victorian Literature (3)
Representative British works from 1837 to 1890 by such writers as Carlyle, Tennyson, Ruskin, Browning, Dickens, Arnold, Eliot, and Pater.

544. British Literature, 1890-1918 (3)
Representative British works from 1890 to 1918 by such writers as Hardy, Gissing, Shaw, Conrad, Yeats, Wells, Forster, Mansfield, and the World War I poets.

547. British Literature, 1918-1950 (3)
Representative British works from 1918 to 1950 by such writers as Joyce, Woolf, Lawrence, T.S. Eliot, Mansfield, Huxley, Bowen, Greene, Auden, Orwell, and Thomas.

548. British Literature, 1950 to Present (3)
Representative British works from 1950 to the present by such writers as Golding, Amis, Murdoch, Lessing, Pinter, Hughes, Fowles, Stoppard, Drabble, and Ishiguro.

549. Topics in English Literature (3)
The works of Spenser, the metaphysical school of poetry, the English satirists, major movements in contemporary English fiction, and the like. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

560A. British Literature, Beginnings Through the Eighteenth Century (3) I, II
Survey of major British writers, with emphasis on reading of complete works. From the beginnings to the neoclassical period. Especially appropriate for those who will teach British literature, and for those proceeding on to graduate study.

560B. British Literature, Romanticism to the Present (3) I, II
Survey of major British writers, with emphasis on reading of complete works. Begins with the Romantic writers. Especially appropriate for those who will teach British literature, and for those proceeding on to graduate study.

570. Techniques of Poetry (3)
Prerequisite: English 280.
Techniques of poetry from the creative writer's point of view. Introduction to critical and theoretical literature on poetry. Includes a creative writing workshop.

571. Techniques of the Short Story (3)
Prerequisite: English 280.
Techniques of the short story from the writer's point of view. Introduction to critical and theoretical literature on the short story. Includes a creative writing workshop.

573. Techniques of the Novel (3)
Prerequisite: English 280.
Techniques of the novel from the writer's point of view. Introduction to critical and theoretical literature on the novel. Includes a creative writing workshop.

576. Literary Editing and Publishing (3)
Prerequisite: English 280.
Principles and practices of editing and literary publishing. Workshop on small press publishing. Includes editing and publishing workshop.

577. Techniques of Screenwriting (3)
Prerequisite: English 280 or Television, Film, and New Media 110 or 410 for television, film, and new media majors.
Techniques of screenwriting. Introduction to critical and theoretical literature on screenwriting. Includes a creative writing workshop.

579. Topics in Creative Writing (3)
Prerequisite: English 280.
Techniques of creative writing focusing on a specialized genre such as comedy, science fiction, and biography. Study of the critical and theoretical literature on the genre. Includes a creative writing workshop. See Class Schedule for specific content. Maximum credit six units.

580. Writing of Poetry (3) I, II
Prerequisite: English 570.
A creative writing workshop in poetry. Continuation of English 570. Maximum credit six units.

581W. Writing of Fiction (3) I, II
Prerequisites: English 280. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript. A creative writing workshop in fiction. Continuation of English 571. Maximum credit six units.

583. Writing Long Narrative (3)
Prerequisite: English 573.
A creative writing workshop in long narrative, especially the novella or novel. Continuation of English 573. Maximum credit six units.

584W. Writing Informal Essays (3) I, II
Prerequisites: English 280. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript. A creative writing workshop in nonfiction, especially the essay as an art form. Maximum credit six units.

587. Writing the Screenplay (3)
Prerequisite: English 577 or Television, Film, and New Media 110 or 510 for television, film, and new media majors.
A creative writing workshop in screenwriting with emphasis on the feature film. Continuation of English 577. Includes playwrighting and revising a television script or short film. Maximum credit six units.

596. Selected Topics in English (1-3)
Selected topics in English. May be repeated with new content and approval of instructor. See Class Schedule for specific content. Limit of six units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

Comparative Literature
(See this section of catalog under Comparative Literature.)

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Environmental Engineering

In the College of Engineering

Office: Engineering 424
Telephone: (619) 594-6071

Faculty
Emeritus: Stratton
Chair: Supernak
The Blasker Chair in Environmental Engineering: Gural
Professor: Gural
Assistant Professor: Badriyha
Lecturer: Buyuksonmez

Offered by the Department of Civil and Environmental Engineering
Doctor of Philosophy degree in engineering sciences/applied mechanics.
Master of Science degree in civil engineering.
Concentration in environmental engineering.
Major in environmental engineering with the B.S. degree.

Mission of the Department
The mission of the Department of Civil and Environmental Engineering is to provide a high quality undergraduate and graduate education in the civil and environmental engineering areas as well as the advising and other support needed to ensure the students' academic success and preparation for a productive engineering career. In addition, through research and continuing professional development, the faculty produce, enhance and promote new developments within their areas of expertise for the benefit of society and the furtherance of their profession.

The objective of the program is to give the student a basic knowledge of civil and environmental engineering, as well as the interdisciplinary background and skills to meaningfully participate in and contribute technical advances toward this profession. The program integrates technical aspects with studies in the social sciences and humanities to ensure appropriate sensitivity to socially related problems.

Instruction is given both at the undergraduate level, leading to the bachelor's degree, and at the graduate level, leading to the master's or doctoral degrees. The undergraduate program builds upon concepts of mathematics, physics, chemistry and basic engineering with specialized study in civil and environmental engineering. Engineering design is emphasized, particularly in conjunction with computer utilization and practical civil and environmental engineering problems. Aspects of safety and engineering ethics are woven throughout the program. Breadth and depth of social science and humanities studies is assured by department approved courses. Completion of the undergraduate degree prepares the student for an entry-level professional position in addition to informal or formal graduate studies.

Many students who complete the civil or the environmental undergraduate program choose to continue their formal studies on a full or part-time basis at San Diego State University or at another institution. (See the Bulletin of the Graduate Division for additional information.) The objective of the graduate program is to broaden the student's technical competence and design abilities and allow for additional specialization.

The civil and environmental engineering program is enhanced through cooperation with the American Society of Civil Engineers, the American Public Works Association, the Associated General Contractors, the Chi Epsilon Civil Engineering Honor Society, and other national organizations who sponsor student chapters to further aid the student's professional development. The chapters at San Diego State University have won many awards in regional and national competition with other schools throughout the country.

The Blasker Chair in Environmental Engineering
The Blasker Chair in Environmental Engineering was established by an endowment from the Blasker-Rose-Miah Endowment Fund of the San Diego Foundation. The fund was created in honor of Mr. Samuel Blasker who left $8.0 million to the San Diego Foundation. Mr. Blasker was a successful aeronautical engineer and a business man with a vision to nurture and develop unique and innovative discoveries and experiences which may be of benefit to humanity.

The first appointee to the Chair, Dr. Mirat D. Gural, is an accomplished scholar and researcher in the areas of innovative treatment technologies of contaminated water, air, soil, and hazardous waste.

Transfer Credit
No credit will be given for upper division engineering coursework taken at an institution having an engineering program which has not been accredited by the Accreditation Board for Engineering and Technology, Inc., unless the student successfully completes the first 12 units of engineering work attempted at this university. At that time, and upon recommendation of the department, unaccredited work will be evaluated for full or partial credit.

General Education
Students will complete a minimum of 50 units in General Education, to include a minimum of nine upper division units taken after attaining junior class standing. No more than twelve units may be used for General Education credit from any one department or academic unit. No more than 7 units from one department can be used in Sections II, III, and IV combined (Foundations, American Institutions, and Explorations).

I. Communication and Critical Thinking: 9 units
1. Oral Communication (3 units)
2. Composition (3 units)
3. Intermediate Composition and Critical Thinking (3 units)

II. Foundations: 29 units
A. Natural Sciences and Quantitative Reasoning (17 units):
1. Physical Sciences (11 units)
   Engineering students will take Chemistry 200 which includes a laboratory (5 units).
   Physics 195 (3 units)
   Physics 196 (3 units)
2. Life Sciences (3 units)
   Environmental engineering majors will take Biology 201, 3 units applicable to General Education.
3. Laboratory (satisfied under A.1. above)
4. Mathematics/Quantitative Reasoning
   Engineering students will take Mathematics 150, 3 units applicable to General Education
B. Social and Behavioral Sciences (3 units)
C. Humanities (9 units)
   Complete three courses in three different areas. One of these courses and the one under IV.A. below must be taken in the same department

III. American Institutions: Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

IV. Explorations: Total: 9 units; must include one course of cultural diversity.
Environmental Engineering

The Major

Environmental engineering involves the identification and design of solutions for environmental problems. Society’s most crucial environmental problems, such as providing safe drinking water, treatment and proper disposal of wastes, water and air pollution control, remediation of sites contaminated with spills or improper disposal of hazardous substances, are handled by environmental engineers. Environmental engineers are technical professionals who possess the scientific knowledge to identify, design, build and operate systems that protect the environment from the impact of human activities, and as such make modern society possible.

The environmental engineering field and environmental engineering education are multidisciplinary. The B.S. degree provides a solid foundation in the fundamentals of mathematics, physics, chemistry, and engineering design that are needed to practice the profession or to pursue a graduate degree. Environmental engineering education also includes a range of other disciplines, such as biology, computer science, ecology, economics, geological sciences, and public health. To be able to address the spectrum of issues facing the environment, environmental engineers are broadly educated, as well as technically trained.

Environmental engineers are needed in both the private and public sectors. They are employed by engineering consulting firms that work in environmental pollution control, industries that need to comply with pollution emission and discharge regulations, private and municipal agencies that supply drinking water, treat and dispose wastes, government agencies that monitor and regulate waste discharges and air emissions, private and government laboratories, and universities that conduct environmental research, international agencies that transfer knowledge to the developing world, and public-interest groups that advocate environmental protection.

Environmental Engineering Major

With the B.S. Degree (Major Code: 09221)

NOTE: See chart below for the recommended sequence of courses for the major in environmental engineering.

All students in environmental engineering pursue a common program of study in basic sciences, engineering, and environmental engineering fundamentals and design. The program allows six units of “professional electives” which can be selected from available courses in environmental chemistry, environmental microbiology, water resources, and other areas. The students choice of elective courses must be made in consultation with the adviser and documented by the filing of an approved master plan during or prior to the first semester of their junior year.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.
Courses (ENV E)

LOWER DIVISION COURSES

101. Environmental Engineering Seminar (1)  
Breadth and depth of environmental engineering field through presentations by invited faculty, graduate students, guests and seminar enrollees; including individual library research with written and oral presentations on selected environmental topics. Maximum credit two units. (Formerly numbered Civil and Environmental Engineering 101.)

296. Experimental Topics (1-4)  
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(Also Acceptable for Undergraduates)

355. Environmental Engineering (3) I, II  
Prerequisite: Chemistry 200.  
Causes and effects of environmental problems and engineering methods to control them. (Formerly numbered Civil and Environmental Engineering 355.)

496. Advanced Environmental Engineering Topics (1-3) I, II  
Prerequisites: Minimum grade point average of 3.0 and consent of instructor.  
Modern developments in environmental engineering. See Class Schedule for specific content. Maximum credit six units for any combination of Environmental Engineering 496, 499 and 596.

499. Special Study (1-3) Cr/NC I, II  
Prerequisites: Minimum grade point average of 3.0 and consent of instructor.  
Individual study in the area of environmental engineering. Maximum credit six units for any combination of Environmental Engineering 496, 499 and 596.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

553. Environmental Engineering Laboratory (3)  
Two lectures and three hours of laboratory.  
Prerequisites: Chemistry 200; Environmental Engineering 355 with minimum grade of C. Proof of completion of prerequisite required for Environmental Engineering 355: Copy of transcript.  
Analysis of natural waters and wastewaters. Sampling and analysis of hazardous environmental pollutants. Techniques to analyze solid waste. (Formerly numbered Civil and Environmental Engineering 553.)

554. Process Fundamentals of Environmental Systems (3)  
Prerequisite: Environmental Engineering 355 with minimum grade of C. Proof of completion of prerequisite required: Copy of transcript.  
Equilibrium and kinetics of chemical and biological reactions of environmental systems. Considerations of mass-transfer and fluid dynamics in water quality management and air pollution control. (Formerly numbered Civil and Environmental Engineering 554.)

555. Water and Wastewater Engineering (3) II  
Prerequisite: Environmental Engineering 355 with minimum grade of C. Proof of completion of prerequisite required: Copy of transcript.  

556. Air Quality Management (3)  
Prerequisite: Environmental Engineering 355 with minimum grade of C. Proof of completion of prerequisite required: Copy of transcript.  
Sources of air pollutants. Transportation, diffusion, and transformation of pollutants in the atmosphere. Measurement and control of air pollution. (Formerly numbered Civil and Environmental Engineering 556.)

558. Solid Waste Management (3) II  
Prerequisite: Environmental Engineering 355 with a grade of C or better. Proof of completion of prerequisite required: Copy of transcript.  
Management of municipal solid waste from a civil engineering perspective, including waste minimization and recycling. Engineered volume reduction through composting, incineration, mechanical compaction, and other methods. Ultimate disposal, landfill design and legislative regulations. (Formerly numbered Civil and Environmental Engineering 558.)

560. Environmental Engineering Design (3)  
Prerequisites: Environmental Engineering 555, 558 and Engineering 430.  
Application of engineering principles and design techniques to design of environmental engineering projects. (Formerly numbered Civil and Environmental Engineering 560.)

596. Advanced Environmental Engineering Topics (1-3) I, II  
Prerequisites: Minimum grade point average of 3.0 and consent of instructor.  
Modern developments in environmental engineering. See Class Schedule for specific content. Maximum credit six units for any combination of Environmental Engineering 496, 499 and 596. Maximum combined credit of six units of Environmental Engineering 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.

For additional courses which are electives in the environmental engineering program, refer to “Civil Engineering” in this section of the catalog.
The environmental sciences major is overseen by the College of Sciences and administered by the Environmental Sciences Program Committee. The major includes courses offered mostly in departments of the College of Sciences, with some courses in departments in other Colleges of the University.

**Faculty**

**Environmental Sciences Program Director and Undergraduate Adviser:** Sweedler (Physics)

**Environmental Sciences Program Committee:** Chatfield (Chemistry), Deutschman (Biology), Matt (Psychology), Shapiro (Field Station Programs), Short (Mathematical Sciences), Sweedler (Physics), Thorbjarnarson (Geological Sciences)

**Offered by the College of Sciences**

Major in environmental sciences with the B.S. degree in applied arts and sciences.

**The Major**

Environmental sciences is an interdisciplinary program leading to a Bachelor of Science degree in applied arts and sciences. The program will provide the student with a rigorous and broad foundation in those sciences most relevant to environmental issues. While the focus is on the physical environmental sciences, some coursework is required in biology, computer science, geography, and statistics. Those students wishing to concentrate more on the biological aspects of the environment, should consider the ecology emphasis offered by the Department of Biology.

Upon completion of the degree, students will be prepared to understand and contribute to a broad range of environmental problems confronting society. This major should be especially attractive to students who wish a broader background in the environmental sciences than is easily offered by individual departments. The major will prepare the student for employment in diverse situations in the dynamic and ever-changing environmental science job market. It will also be an excellent undergraduate major for students planning to go on to graduate school in any of the environmental sciences.

**Advising**

Students are required to meet with the undergraduate adviser in order to declare the major. Students wishing to major in environmental sciences are urged to meet with the adviser during their first semester.

**Environmental Sciences Major**

**With the B.S. Degree in Applied Arts and Sciences**

(Major Code: 49011)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." Individual master plans are filed with both the environmental sciences adviser and the Office of the Registrar.

A minor is not required with this major.

**Preparation for the Major.** Environmental Sciences 100; Biology 201; Biology 215 or Statistics 250; Chemistry 200, 201, 231; Computer Science 205; Geological Sciences 100, 101; Geography 103; and Mathematics 150, 151, Physics 195, 195L, 196, 196L or Mathematics 121, 122, Physics 180A, 180B, 182A, 182B. (48-50 units)

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 36 upper division units to include Environmental Sciences 498A-498B; Biology 354; Chemistry 371; Geography 508 or 511; Geography 484 or 488 or Geological Sciences 505; Geological Sciences 351 or Environmental Engineering 355; Geological Sciences 545 or Oceanography 541; and 12 units selected from Biology 350, 513, 517, 540, Chemistry 571, Computer Science 558, Economics 452 or 453, Geography 505, 570, 571, 572, 574, Geological Sciences 530 and 530L or 551, Mathematics 336.

**Courses (ENV S)**

**LOWER DIVISION COURSE**

100. Environmental Sciences (3) The earth as an ecosystem composed of biological, chemical, and physical systems and how these systems interact with one another and the human population.

**UPPER DIVISION COURSES**

(Intended for Undergraduates)

498A-498B. Senior Seminar in Environmental Sciences (3-3) Prerequisite: Senior standing in the environmental sciences major. Research projects related to an environmental issue in the San Diego and California region.
The Majors

European Studies. The establishment of a unified European economic community, contested borders in central and eastern Europe, gender and immigration issues in the European union, the reconciliation of national identity with European integration — for students with an interest in these or other topics of international importance, European Studies presents an opportunity to develop an individualized academic program. The European Studies major provides students with interdisciplinary study of the contemporary cultures of modern Europe and extensive preparation in a modern European language. The major requires a core of European Studies courses which address the themes and issues of modern Europe: the new political reality of a united Europe, the recent developments in Central and Eastern Europe, and the tasks of understanding how Europeans relate to themselves and to the rest of the world in today's global village. Because language proficiency plays a pivotal role in intercultural and social understanding, the study of languages is an integral part of the degree. Students will attain an advanced level of proficiency in a modern European language (to be selected from French, German, Italian, Portuguese, Russian, or Spanish) and select from courses offered in a variety of programs on campus and abroad which contribute to the interdisciplinary study of contemporary European culture. Reaching beyond traditional linguistic and historical approaches to the subject, this program challenges majors to develop critical, focused, interdisciplinary perspectives on the contemporary cultures of modern Europe in diplomacy, with government agencies, or in European-centered commerce, communication, arts or the travel industry. Also, with some carefully chosen additional coursework outside the major, graduate study in any of the major's disciplines is an option.

Russian and Central European Studies. The goals of the Russian and Central European Studies major are to promote the study of Russia, New States of Eurasia, and Eastern Europe within an integrated framework, and to build better understanding of the societies and cultures of this part of the world through the exchange of students, faculty and publications. Recent revolutionary advances in transportation and communications produced by science and technology are effectively "shrinking" the world. At the present time the United States, Russia, and the New States of Eurasia are in the process of expanding their commercial and cultural ties, opening unprecedented opportunities in government service, journalism, library work, and international business.

For those who continue graduate work after completing the bachelor's degree, Russian and Central European studies is a good preparatory curriculum for graduate professional programs in international trade, international law, librarianship, education, public administration, and journalism.

Offered by the Department of European Studies

Major in European studies with the B.A. degree in liberal arts and sciences.

Major in Russian and Central European studies with the B.A. degree in liberal arts and sciences.

Minor in European studies.

European Studies Major

With the B.A. Degree in Liberal Arts and Sciences

(Major Code: 03101)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

A minor is not required with this major.

In order to satisfy degree requirements, students must complete at least one of the language emphases as described below.

Preparation for the Major. (Complete I and II: 13-26 units.)

I. European Studies (3 units). European Studies 101.

II. Foreign Language and Culture (Select one: 10-23 units).

French 100A, 100B, 201, 210, 220, 221. (22 units)

German 100A, 100B, 200, 205A, 205B. (21 units)

Italian 100A, 100B, 201, 210. (16 units)

Portuguese 101, 201. (10 units)

Russian 100A, 100B, 200A, 200B, 211. (23 units)

Spanish 101, 102, 103, 202, 211, 212. (22 units)

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through coursework for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. (Complete I and II below: 30 units.)

I. European Studies (18 units). Nine upper division units in European studies to include European Studies 301 and 501; General Studies 450 or Humanities 404; and nine additional units selected from European Studies 424, 501, Art 558, 559, Comparative Literature 514, Geography 336, 337, History 407, 408, Humanities 310, 320, 330, 340, 401, 402, 403, Women's Studies 340.

II. Foreign Language and Culture (12 units). Twelve upper division units in French, German, Italian, Portuguese, Russian, or Spanish (to include French 301 or German 301 or Italian 301 or Portuguese 401 or Russian 301 or Spanish 302).

Russian and Central European Studies Major

With the B.A. Degree in Liberal Arts and Sciences

(Major Code: 03071)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

A minor is not required with this major.

Preparation for the Major. Russian 100A, 100B, 200A, 200B. (20 units)

Lower division prerequisites for the upper division courses to be taken in the major. (3-9 units)
European Studies

**Foreign Language Requirement.** The foreign language requirement is automatically fulfilled through coursework for preparation for the major.

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 33 upper division units to include Economics 330, Geography 337, History 518A-518B, Humanities 330, Political Science 359; nine units of upper division Russian courses; and six units of electives selected with the approval of the adviser.

**European Studies Minor**

The minor in European studies consists of a minimum of 15 units to include European Studies 101 and 301 and nine additional upper division units from European Studies courses or Humanities 404. Students must also establish proficiency level in a European language other than English by completing one of the courses which satisfies the foreign language graduation requirement or demonstrates equivalent proficiency.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University, including units earned abroad.

**Courses (EUROP)**

**LOWER DIVISION COURSES**

101. *Introduction to European Studies*  (3)
Europe: The land, the people, their artistic, intellectual and cultural movements, including art, architecture, languages and literatures.

296. *Experimental Topics*  (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

**UPPER DIVISION COURSES**

(Also Acceptable for Advanced Degrees)

501. *European Life and Culture*  (3)
Prerequisite: European Studies 301.
Specialized study of topics such as European union, European women, or European art. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

301. *Contemporary Europe*  (3)
Prerequisites: European Studies 101, and completion of the General Education requirement in Foundations II.C., Humanities for non-majors.
Contemporary Europe, emphasizing artistic, intellectual, and cultural trends, as well as contemporary issues.

424. *European Cinema*  (3)
Two lectures and two hours of activity.
Prerequisites: European Studies 101 for majors, and completion of the General Education requirement in Foundations II.C., Humanities for nonmajors.
Issues and themes in European culture as seen through its films.

496. *Experimental Topics*  (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

499. *Special Study*  (1-3)
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

301. *European Life and Culture*  (3)
Prerequisite: European Studies 301.
Specialized study of topics such as European union, European women, or European art. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.
Exercise and Nutritional Sciences

OFFICE: Exercise and Nutritional Sciences 351
TELEPHONE: (619) 594-5541

Accredited by the Commission on Accreditation of Allied Health Education Programs for Athletic Training and Kinesiotherapy. Accredited by the California Commission on Teacher Credentialing for Physical Education and Adapted Physical Education.

Faculty
Emeritus: Andrus, Barone, Benton, Broadbent, Carter, Cave, Cullen, Fish, Friedman, Grawunder, Gutowski, Kasch, King, Landis, Phillips, Schwob, Selder, Sleet, Smith, Tolfelsen, Wells, Whitby, Wilhelm, Williamson, Ziegenfus
Chair: Carlson
Professors: Aufsesser, Buono, Carlson, Francis, P., McKenzie, T., Mechikoff, Moore, Nichols-Bernhard, Patterson, Rushall, Simmons, Succe, Verity
Associate Professors: Franz, Kolakhorst, LaMaster, Wiksten
Assistant Professors: Kahan, Quinn, Yaggie
Lecturers: Francis, L., McKenzie, R., Voigt

Offered by the Department
Master of Arts degree in physical education.
Master of Science degree in athletic training and eligibility to sit for the National Athletic Trainers’ Association (NATA) certification examination. The other tract offers students an overview of athletic training courses that may be applied to other programs in the allied health setting, such as physical therapy, biomechanics, and medicine. Certified athletic trainers are responsible for the prevention, management, and rehabilitation of athletic injuries. They work in such diverse areas as high schools, community colleges, universities, sports medicine clinics; and professional athletics. The tract toward certification as an athletic trainer includes additional elective courses that are required in order to sit for the NATA Board of Certification examination. In addition, a minimum two-year clinical internship must be completed as part of the Athletic Training Professional Program. Admission to the Athletic Training Professional Program is competitive and limited in number. Applications are accepted each spring for fall selections. Students interested in seeking NATA certification and applying to the professional program should meet with the athletic training program director.

Fitness, Nutrition, and Health. Persons pursuing this emphasis often find employment in the private and public sectors concerned with the fitness and health of employees. This emphasis prepares students to meet the academic requirements necessary to (1) evaluate and program exercises for apparently healthy persons in diverse fitness and health settings, and (2) pursue certifications that reflect knowledge of the scientific principles that govern leadership in exercise and health enhancement programs. Graduates work as fitness experts and managers in adult and corporate fitness programs of business, industry, public agencies, and schools. There are also career opportunities for employment in the business sector to include fitness clubs, cardiac rehabilitation, and human efficiency research.

Physical Education. The graduate in kinesiology may find employment in public and private schools, specializing at either the elementary or secondary level. Kinesiology majors teach activities and sports skills, health and fitness classes, and act as physical education resource specialists. Students may also prepare for careers in athletic coaching. Opportunities for both men and women exist at the interscholastic level as well as with community and commercial sports clubs.

Prephysical Therapy. Students in this emphasis may choose either (a) Rehabilitative Science or (b) Kinesiotherapy.

Rehabilitative Science. This specialization prepares students to meet the academic requirements necessary for entry to postgraduate education in physical therapy, chiropractic, occupational therapy, physician assistant, and podiatry. Students find employment in a broad range of medical environments. Students wishing to meet all requirements for postgraduate education for a professional degree should meet with the undergraduate adviser as well as contact potential postgraduate education sites to obtain specific entry requirements.

Kinesiotherapy. This specialization is designed to prepare students to meet the academic requirements for national registration in kinesiotherapy. The kinesiotherapist is academically and clinically prepared to provide rehabilitative exercise and education, in an appropriate setting, under the prescription of a licensed physician. Kinesiotherapists are accountable to the referring physician for their actions and those of their subordinates. The academic and clinical basis of kinesiotherapy is founded on the modalities of exercise and education. Kinesiotherapists are qualified to implement exercise programs designed to reverse or minimize debilitation and to enhance the functional capacity of medically stable patients in wellness, subacute or extended care settings.
Impacted Programs

The kinesiology major with emphases in athletic training: fitness, nutrition, and health; physical education; and prephysical therapy are impacted programs. Students must apply to enter the University under the kinesiology premajor code (08350).

To be admitted to a kinesiology major emphasis, students must meet the following criteria:

a. Be accepted to the kinesiology premajor;

b. Complete with a grade of C or higher: Exercise and Nutritional Sciences 210 and Biology 212. These courses cannot be taken for credit/no credit (Cr/NC);

c. Clear the competency requirements in mathematics and writing.

Refer to Graduation Requirements section of this catalog for details.

d. Complete a minimum of 56 semester units applicable to the lower division General Education requirements, Preparation for the Major requirements for kinesiology major emphasis, and electives if needed to reach 56 units;

e. Have a cumulative and SDSU GPA applicable to the major emphasis:

   - Athletic Training – 2.25 or higher
   - Fitness, Nutrition, and Health – 2.5 or higher
   - Physical Education – 2.25 or higher
   - Pre-Physical Therapy – 2.5 or higher;

f. Admission to the major will be automatic if the above requirements as described in the catalog in effect at the time they declare the premajor at SDSU are fulfilled (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major emphasis described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Kinesiology Major

With the B.S. Degree in Applied Arts and Sciences (Premajor Code: 08350) (Major Code: 08351)

All candidates for a degree in applied arts and sciences must complete the requirements listed in the section of this catalog on "Graduation Requirements."

A minor is not required with this major except for the Emphasis in Physical Education, which requires completion of 12 units towards a minor or supplementary authorization.

Emphasis in Athletic Training

Preparation for the Major. Exercise and Nutritional Sciences 104A or 104B, 210, 265, 265L, 289; Biology 202, 212; Chemistry 130, 200; Nutrition 210, 201; Physics 107; Psychology 101; and one of the following: Biology 215, Economics 201, Psychology 270, Sociology 201, or Statistics 119. (35 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 43 upper division units to include Exercise and Nutritional Sciences 301, 302, 303, 304, 305, 306, 307, 314, 365, 367, 367L, 368, 368L, 388 (1 unit), 401A, 401B, 461, 464; Biology 336. Biology 336 will also satisfy three units of the General Education requirement in IV.A. Recommended: Students should take Sociology 355 to satisfy the General Education requirement (IV.B).

Emphasis in Physical Education

This program must be elected by students who wish to be a candidate for a single subject teaching credential at San Diego State University.

All requirements as outlined in this section and the sections titled Policy Studies in Language and Cross-Cultural Education or Teacher Education in this catalog must be completed.

This major may be used by students in policy studies or teacher education as an undergraduate major for the B.S. degree in applied arts and sciences.

Completion of 12 units towards a minor or supplementary authorization is required. In conjunction with the department undergraduate adviser, the student must determine a specific course of study to establish a formal program for supplementary authorization or minor.

The program must be filed with the Office of the Registrar.

Preparation for the Major. Exercise and Nutritional Sciences 210, 265, 265L; Biology 212; Psychology 101; Sociology 101; and one of the following: Biology 215, Economics 201, Psychology 270, Sociology 201, or Statistics 119. (17 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Emphasis in Prephysical Therapy

Students interested in applying to postgraduate allied health programs are advised to follow (a) Rehabilitative Science, while those interested in kinesiotherapy should follow (b) Kinesiotherapy.

Preparation for the Major. Exercise and Nutritional Sciences 104A or 104B, 210, 265, 265L; Biology 202, 212; Chemistry 130, 180A, 182A; Psychology 101; Sociology 101; and one of the following: Biology 215, Economics 201, Psychology 270, Sociology 201, or Statistics 119. (35 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 40 upper division units to include Exercise and Nutritional Sciences 301, 302, 303, 304, 305, 306, 314, 363, 365, 368 (1 unit), 401A, 401B, 460; Biology 336, 436, Psychology 350. Biology 336 will also satisfy three units of the General Education requirement (IV.A.).

Additional Preparation for the Major. Biology 201; Chemistry 180B, 182B. (13 units)

Major. No additional major upper division units required.

(a) Rehabilitative Science

Additional Preparation for the Major. Biology 201; Chemistry 180B, 182B. (13 units)

Environmental Science, which requires completion of 12 units towards a minor or supplementary authorization.

Emphasis in Physical Education

This program must be elected by students who wish to be a candidate for a single subject teaching credential at San Diego State University.

All requirements as outlined in this section and the sections titled Policy Studies in Language and Cross-Cultural Education or Teacher Education in this catalog must be completed.

This major may be used by students in policy studies or teacher education as an undergraduate major for the B.S. degree in applied arts and sciences.

Completion of 12 units towards a minor or supplementary authorization is required. In conjunction with the department undergraduate adviser, the student must determine a specific course of study to establish a formal program for supplementary authorization or minor.

The program must be filed with the Office of the Registrar.

Preparation for the Major. Exercise and Nutritional Sciences 210, 265, 265L; Biology 212; Psychology 101; Sociology 101; and one of the following: Biology 215, Economics 201, Psychology 270, Sociology 201, or Statistics 119. (17 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Adapted Physical Education Credential*
(Credential Code: 00980)

Admission Categories

**Level I:** Kinesiology major with an interest in adapted physical education, completion of a minimum of 45 units with a GPA of 2.5 or better, and official application to the coordinator of adapted physical education.

**Level II:** Kinesiology major with a minimum of 2.75 after 90 units including the completion of Exercise and Nutritional Sciences 301, 303, 304, 348, 363 and at least one unit of Exercise and Nutritional Sciences 388, 135 hours of practicum in school and community settings, and official application to the coordinator of adapted physical education.

**Level III:** Certified. Completion of all courses required for kinesiology major in the single subject teaching credential major, all classes for the certification including completion of the entire student teaching experience. (Preliminary credential.) The student must have a 3.0 average and no grade lower than C in all the academic classes required to be certified. A required course in which a grade lower than C is earned may be repeated only with prior approval of the coordinator.

Pre-Service Program

Candidates for this program in adapted physical education must complete the requirements for the single subject teaching credential in physical education, apply for the program, be accepted, and complete the following specialized coursework.

1. Adapted Program: Minimum 16 units. Exercise and Nutritional Sciences 348, 363, 398** (1 unit), 667, 672, and Special Education 501.

2. Practical Experience and Student Teaching: The candidate must complete one unit of Exercise and Nutritional Sciences 388, 135 hours of practicum in school and community settings, and a full-time student teaching experience in adapted physical education.

In-Service Program

Candidates for this program in adapted physical education must complete the requirements for the single subject teaching credential in physical education, apply for the program, be accepted, and complete the following specialized coursework.

1. Adapted Program: Minimum 16 units. Exercise and Nutritional Sciences 348, 363, 398** (1 unit), 667, 672, and 684.

2. Practical Experience and Student Teaching: The candidate must complete one unit of Exercise and Nutritional Sciences 388, 135 hours of practicum in school and community settings, and a full-time student teaching experience in adapted physical education or equivalent experience.

* Additional prerequisites required for this credential.
** Approved by Coordinator, Adapted Physical Education.

Physical Education Minor

**Coaching:** The coaching of athletic teams is an integral part of the field of physical education. The physical education minor has been created for the purpose of allowing undergraduate students to study the scientific and technical bases of sport coaching. Completion of the minor will provide students with the qualifications for coaching in public and private schools, community athletic/sport programs, club sport programs, or other areas where coaching knowledge and experience is needed.

Psychology 101 is prerequisite to the minor and should be taken to satisfy General Education. Requirements for the minor are a minimum of 24 units to include Exercise and Nutritional Sciences 210, 265, 265L, 301, 307, 351, 352 or 353 (2 units), 398 (3 units), Biology 212, and one of the following: Biology 215, Economics 201, Psychology 270, Sociology 201, or Statistics 119.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements. A minimum of six upper division units must be completed in residence at San Diego State University.

Types of Activity Courses

The department offers a wide variety of physical activity courses ranging from adapted physical education through intermediate level classes. The purpose of the physical activity program is to:

1. Provide quality physical activity skill instruction at the beginning and intermediate levels in a wide variety of sport and dance activities.
2. Provide a vehicle for vigorous physical activity in an instructional setting.
3. Provide knowledge about various sport and dance activities.
4. Provide knowledge about the value of physical activity as it relates to an improved quality of life.
5. Provide opportunity for physical activity instruction to all segments of the student population, including those with temporary or permanent disabilities.

Courses (ENS)

**LOWER DIVISION COURSES**

Courses offered for one unit credit meet two hours per week or equivalent. “A” signifies a beginning class, “B” intermediate.

Dance activity courses: Ballroom Dance, Folk Dance, Ballet, Jazz Dance, Modern Dance. Refer to “Dance” in this section of the catalog.

100. Exercise and Health (3) I, II
Two lectures and two hours of activity. Scientific bases of relationships between exercise and health and application of these principles to individual fitness appraisal and regimen. (Formerly numbered Physical Education 100.)

102. Conditioning (1) I, II
(Formerly numbered Physical Education 102 and 102A.)

104A-104B. Weight Training (1-1) I, II, S
(Formerly numbered Physical Education 104A-104B.)

105. Individual Adaptives (1) I, II
Prerequisite: Consent of instructor. A health history record is required of each student. Individual exercise programs for those who are handicapped in some respect, or who have functional defects or deficiencies amenable to improvement through exercise. May be repeated for credit. (Formerly numbered Physical Education 105.)

108A-108B. Basketball (1-1) I, II
(Formerly numbered Physical Education 108A-108B.)

109A-109B. Soccer (1-1) I, II
(Formerly numbered Physical Education 109A-109B.)

110A-110B. Volleyball (1-1) I, II
(Formerly numbered Physical Education 110A-110B.)

111A-111B. Softball (1-1) I, II
(Formerly numbered Physical Education 111A-111B.)

116A-116B. Golf (1-1) I, II
(Formerly numbered Physical Education 116A-116B.)
Exercise and Nutritional Sciences

118A-118B. Tennis (1-1) I, II, S
(Formerly numbered Physical Education 118A-118B.)

119A-119B. Bowling (1-1) I, II
(Formerly numbered Physical Education 119A-119B.)

120A-120B. Badminton (1-1) I, II
(Formerly numbered Physical Education 120A-120B.)

123A-123B. Racquetball (1-1) I, II, S
(Formerly numbered Physical Education 123A-123B.)

124. Sailing (1)
(Formerly numbered Physical Education 124.)

125. Men’s Gymnastics Apparatus (1)
(Formerly numbered Physical Education 125.)

127A-127B. Women’s Gymnastics Apparatus (1-1) I, II
(Formerly numbered Physical Education 127A-127B.)

129A-129B. Swimming (1-1) I, II, S
(Formerly numbered Physical Education 129A-129B.)

130. Step Training (1) I, II, S
(Formerly numbered Physical Education 130.)

137A. Aerobic Dance (1) I, II, S
(Formerly numbered Physical Education 137A.)

138. Selected Activities (1-1) I, II, S
May be repeated with new activity for additional credit. See Class Schedule for specific content. (Formerly numbered Physical Education 138.)

141A-141B. Martial Arts (1-1) I, II
Exercise and Nutritional Sciences 141A is prerequisite to 141B.
(Formerly numbered Physical Education 141A-141B.)

145. Waterskiing and Wakeboarding (1) I, II, S
(Formerly numbered Physical Education 145.)

146. Surfing (1) I, II, S
(Formerly numbered Physical Education 146.)

147. Windsurfing (1) I, II, S
(Formerly numbered Physical Education 147.)

210. Introduction to Kinesiology (2) I, II
Overview of discipline of kinesiology. Development of a basic philosophy and background for entering profession. (Formerly numbered Physical Education 210.)

211. Introduction to Kinesiotherapy (1) I, II
Prerequisites: Exercise and Nutritional Sciences 210 and Biology 212.
Introduction to kinesiotherapy including history, educational requirements, standards of practice, scope of practice and basic skills needed to enter kinesiotherapy.

241A. Physical Education of Children—Theory (1) I, II, S
Prerequisite: Concurrent registration in Exercise and Nutritional Sciences 241B.
Physical education of elementary school-aged children: Theoretical and scientific bases. Not open to physical education majors. (Formerly numbered Physical Education 241A.)

241B. Physical Education of Children—Activities (1) I, II, S
Two hours of activity.
Prerequisite: Concurrent registration in Exercise and Nutritional Sciences 241A.
Physical education of elementary school-aged children: Activities and instruction. Not open to physical education majors. (Formerly numbered Physical Education 241B.)

265. Techniques in Athletic Training (1) I, II
Prerequisite: Credit or concurrent registration in Biology 212.
Athletic training techniques and emergency field care of athletic injuries. Theory and techniques of basic athletic first aid, emergency procedures including CPR, bandaging and taping. (Formerly numbered Physical Education 265.)

265L. Techniques in Athletic Training Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Concurrent registration in Exercise and Nutritional Sciences 265. (Formerly numbered Physical Education 265L.)

289. Pre-Professional Practicum in Athletic Training (1)
Prerequisite: Credit or concurrent registration in Exercise and Nutritional Sciences 265 and 265L.
Basic athletic training principles and techniques; athletic training event coverage under direct supervision of a certified athletic trainer.

296. Experimental Topics (1-4) I, II, S
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Physical Growth and Development (3) I, II
Prerequisite: Exercise and Nutritional Sciences 210.
Principles of human growth; performance as affected by developmental levels and individual differences in structure and function. (Formerly numbered Physical Education 301.)

302. History and Philosophy: Physical Activity and Sport (3) I, II
Prerequisite: Exercise and Nutritional Sciences 210.
Integrated approach to understanding of historical, philosophical, and sociological forces shaping development of physical activity and sport. (Formerly numbered Physical Education 302.)

303. Applied Kinesiology (3) I, II
Prerequisites: Grade of C or better in Biology 212 and Exercise and Nutritional Sciences 210 or Dance 181. Proof of completion of prerequisites required: Copy of transcript. Limited to kinesiology, exercise physiology, nutritional science and exercise physiology, foods and nutrition and dance majors. Major Codes: 08351, 08355, 08356, 10081, 13061.
Anthropology, syndesmology and myology, with emphasis on movement analysis. Muscle groups and their functional relationships. Application of simple mechanical principles to movement analysis. (Formerly numbered Physical Education 303.)

304. Physiology of Exercise (3) I, II
Prerequisites: Grade of C or better in Exercise and Nutritional Sciences 210 or Nutrition 101, and Biology 336. Proof of completion of prerequisites required: Copy of transcript. Limited to kinesiology, exercise physiology, nutritional science and exercise physiology, and foods and nutrition majors. Major Codes: 08351, 08355, 08356, 13061.
Effects of physical activities on physiological functions of the body. (Formerly numbered Physical Education 304.)

305. Measurement and Evaluation in Kinesiology (3) I, II
Prerequisites: Exercise and Nutritional Sciences 210 and one of the following: Biology 215, Economics 201, Psychology 270, Sociology 201, or Statistics 119. Limited to kinesiology majors. Major Code: 08351.
Testing and measurement for assessment and understanding of physical performance and for planning and evaluation of instruction in physical activity settings. Planning, implementation, and evaluation of tests. (Formerly numbered Physical Education 305.)
306. Biomechanics of Human Movement (3) I, II
Prerequisite: Exercise and Nutritional Sciences 303. Limited to kinesiology majors. Major Code: 08351.
Mechanical principles as applied to movement; analysis and application to selected motor skills. (Formerly numbered Physical Education 306.)

307. Motor Learning and Performance (3) I, II
Prerequisites: Exercise and Nutritional Sciences 210, Psychology 101, and one of the following: Biology 215, Economics 201, Psychology 270, Sociology 201, or Statistics 119. Limited to kinesiology majors. Major Code: 08351.
Psychological parameters related to physical performance and the acquisition of motor skills. (Formerly numbered Physical Education 307.)

314. Exercise Physiology Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Exercise and Nutritional Sciences 304.
Laboratory experiences in the application of exercises and the analysis of the results. (Formerly numbered Physical Education 314 and 362.)

320. Skin and Scuba Diving (2)
Prerequisites: Medical examination, waiver for hazardous procedures, pass swimming competency test. Concurrent registration in Exercise and Nutritional Sciences 320L.
Function and knowledge of underwater diving to include diving physiology, hyperbaric conditions, medical hazards, safety procedures associated with scuba diving, proper care and operation of equipment. Not open to students with credit in Exercise and Nutritional Sciences 323, 324, Biology 460, Oceanography 305, 306. (Formerly numbered Physical Education 320.)

320L. Skin and Scuba Diving Laboratory (1)
Three hours of laboratory.
Prerequisite: Concurrent registration in Exercise and Nutritional Sciences 320. (Formerly numbered Physical Education 320L.)

323. Advanced Scuba Diving (2)
Prerequisites: Exercise and Nutritional Sciences 320 or Openwater Scuba Certification, medical examination, and acceptable openwater diving equipment. Concurrent registration in Exercise and Nutritional Sciences 323L.
Theory, skills, and technique including underwater navigation, diving physics, diving physiology, diving medicine, diving safety. Qualifies for Advanced Diving Certificate from the National Association of Underwater Instructors. Not open to students with credit in Exercise and Nutritional Sciences 324, Biology 460, Oceanography 306.

323L. Advanced Scuba Diving Laboratory (1)
Three hours of laboratory.
Prerequisite: Concurrent registration in Exercise and Nutritional Sciences 323.

324. Assistant Scuba Instructor (2)
Prerequisites: Exercise and Nutritional Sciences 323 or Oceanography 306, Master Diver Certification, medical examination, and acceptable openwater diving equipment. Concurrent registration in Exercise and Nutritional Sciences 324L.
Qualifies for Assistant Scuba Instructor Certificate from the National Association of Underwater Instructors. (Formerly numbered Physical Education 324.)

324L. Assistant Scuba Instructor Laboratory (1)
Three hours of laboratory.
Prerequisite: Concurrent registration in Exercise and Nutritional Sciences 324. (Formerly numbered Physical Education 324L.)

330. Exercise and Wellness Across the Lifespan (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations I.II.B., Social and Behavioral Sciences.
Role of physical activity and exercise behavior in health and wellness. Personal applications plus gender and cultural implications of physical activity from childhood through adulthood.

335. Basic Movement Skills (2) I, II
Prerequisite: Credit or concurrent registration in Exercise and Nutritional Sciences 303. Limited to kinesiology and liberal studies majors. Major Codes: 08351 and 49015.
Principles and practical application of educational gymnastics and dance; selection of music and step patterns needed for aerobic dance activities that are appropriate for primary school children. (Formerly numbered Physical Education 335.)

341. Skill Competency in Physical Education (2) Cr/NC I, II
Four hours of activity.
Prerequisite: Credit or concurrent registration in Exercise and Nutritional Sciences 303.
Demonstrated skill and knowledge competencies in badminton, basketball, outdoor experience, physical fitness, self-defense, soccer, softball, swimming, tennis, volleyball, and one of the following: archery, dance, golf, gymnastics, football, racquetball and wrestling. (Formerly numbered Physical Education 341.)

347A. Leadership for Kinesiology (2) I, II
Prerequisites: Exercise and Nutritional Sciences 301, 303, 305. Concurrent registration in Exercise and Nutritional Sciences 347B.
Theory and development of leadership behavior of physical educators, emphasizing leadership qualities unique to diverse physical activity settings. (Formerly numbered Physical Education 347A.)

347B. Leadership for Kinesiology Activity (1) I, II
Two hours of activity.
Prerequisite: Concurrent registration in Exercise and Nutritional Sciences 347A.

348. Special Physical Education (3) I, II
Prerequisites: Exercise and Nutritional Sciences 347A, 347B, and Psychology 101.
Etiologies, characteristics, education programs, and activities for individuals with non-physical disabilities (e.g. mentally retarded, learning disabled, etc.) (Formerly numbered Physical Education 348.)

351. Basic Coaching Theory (2) I
Prerequisites: Exercise and Nutritional Sciences 210, 265 and 265L.
Basic principles of coaching and conditioning for various sports. Defining actual physical and mental demands of a competitive activity. Coaching decisions concerning design of physical training programs for high school and club programs. (Formerly numbered Physical Education 351.)

352. Theory and Analysis of Coaching Competitive Sports (2) I, II
Mechanical analysis, tactics, and strategy, scouting, officiating, and rules and daily-seasonal practice planning in one of the sports listed below.
A. Basketball (Formerly numbered Physical Education 352A.)
B. Football (Formerly numbered Physical Education 352B.)
C. Baseball (Formerly numbered Physical Education 352C.)
D. Track and Field (Formerly numbered Physical Education 352D.)
E. Volleyball (Formerly numbered Physical Education 352E.)
F. Additional sports (May be repeated with new content.)
(Formerly numbered Physical Education 352F.)

353. Coaching Elite Athletes (2) II
Prerequisite: Exercise and Nutritional Sciences 351.
Psychological and leadership factors and actions that are necessary to produce the best training and competitive performances in serious athletes. (Formerly numbered Physical Education 331F, 333E and 353.)

363. Corrective Physical Education (3) I, II
Prerequisites: Exercise and Nutritional Sciences 303 and 304.
Etiology, characteristics, and programs for children with corrective and/or physically handicapping conditions. Includes evaluating and implementing prescribed activities for individuals with these types of conditions. (Formerly numbered Physical Education 363.)
365. Scientific Management of Sports Injuries (3) I, II
Prerequisites: Biology 202; Exercise and Nutritional Sciences 265, 265L, 303, credit or concurrent registration in Exercise and Nutritional Sciences 306.
Pathomechanics and pathophysiology of soft tissue and bone injury as it relates to the identification and management of sport related injuries. (Formerly numbered Physical Education 365.)

366. Clinical Evaluation of Sports Injuries (2) I, II
Prerequisites: Exercise and Nutritional Sciences 365. Concurrent registration in Exercise and Nutritional Sciences 366L.
Theoretical and practical experiences in the clinical evaluation of sports injuries with emphasis on techniques and procedures. (Formerly numbered Physical Education 366.)

366L. Clinical Evaluation of Sports Injuries Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Concurrent registration in Exercise and Nutritional Sciences 366.
Theoretical and practical experiences in the clinical evaluation of sports injuries with emphasis on techniques and procedures. (Formerly numbered Physical Education 366L.)

367. Clinical Evaluation of Sports Injuries Part I (2) I
Prerequisite: Exercise and Nutritional Sciences 365.
Theory of clinical evaluation of sports injuries techniques and scientific basis of techniques. Principles of systematic differential evaluation of upper extremity, cervical spine. (Not open to students with credit in Exercise and Nutritional Sciences 366.)

367L. Clinical Evaluation of Sports Injuries Part I Laboratory (1) I
Prerequisite: Concurrent registration in Exercise and Nutritional Sciences 367.
Practical experience in clinical evaluation of sports injuries techniques and scientific basis of techniques. Principles of systematic differential evaluation of upper extremity, cervical spine. (Not open to students with credit in Exercise and Nutritional Sciences 366L.)

368. Clinical Evaluation of Sports Injury Part II (2) II
Prerequisites: Exercise and Nutritional Sciences 367 and 367L.
Theory of clinical evaluation of sports injury techniques and scientific basis of techniques. Systematic differential evaluation process applied to lower extremities, thoracic, and lumbar spine and chest and abdominal injuries. (Not open to students with credit in Exercise and Nutritional Sciences 366.)

368L. Clinical Evaluation of Sports Injury Part II Laboratory (1) II
Prerequisites: Exercise and Nutritional Sciences 367 and 367L.
Concurrent registration in Exercise and Nutritional Sciences 368.
Practical experience in clinical evaluation of sports injuries techniques and scientific basis of techniques. Principles of systematic differential evaluation process applied to lower extremities, thoracic and lumbar spine and chest and abdominal injuries. (Not open to students with credit in Exercise and Nutritional Sciences 366L.)

389. Adapted Physical Education Laboratory (1-4) I, II, S
Three hours of laboratory per unit.
Prerequisite: Credit or concurrent registration in Exercise and Nutritional Sciences 348 or 363 or 367 and 367L.
Supervised clinical experience working in the adapted physical education laboratory setting on campus with individuals with disabilities. Maximum credit four units. (Formerly numbered Physical Education 388.)

Three hours of laboratory.
Prerequisites: 389A: Grade of B or better in Biology 212, Exercise and Nutritional Sciences 265, 265L, 299, application, letters of recommendation, and interview. 389B: Grade of B or better in Exercise and Nutritional Sciences 389A. 389C: Grade of B or better in Exercise and Nutritional Sciences 389B. 389D: Grade of B or better in Exercise and Nutritional Sciences 389C. 389E: Grade of B or better in Exercise and Nutritional Sciences 389D. 389F: Grade of B or better in Exercise and Nutritional Sciences 389E.
Practical training and clinical applications of basic and advanced techniques of athletic training. Emergency, preventative procedures, treatment and rehabilitation techniques to be performed in actual athletic training settings. Practicum experience offered in conjunction with clinical internship. (Formerly numbered Physical Education 389 and Exercise and Nutritional Sciences 389.)

397. Contemporary Topics in Kinesiology (Credit to be arranged) (Offered only in Extension)
Prerequisites: Consent of instructor; bachelor's degree.
Study of specially selected problems in physical education and sport. Does not apply to undergraduate degrees or credentials. (Formerly numbered Physical Education 397.)

398. Supervised Field Experience (1-3) Cr/NC I, II, S
Prerequisite: Consent of department chair. Limited to kinesiology and liberal studies majors. Major Codes: 09351 and 49015.
Supervised practical experience in the area of kinesiology. Maximum credit six units. (Formerly numbered Physical Education 398.)

401A. Musculo-Skeletal Fitness (1) I, II
Prerequisites: Exercise and Nutritional Sciences 104A or 104B or 341; Exercise and Nutritional Sciences 304, 306, and 314. Concurrent registration in Exercise and Nutritional Sciences 401B.
Training techniques in areas of strength and flexibility. Examination of facilities and equipment, mechanics of strength and flexibility techniques, development of training program, basic physiology and review of current research in areas of strength and flexibility. (Formerly numbered Physical Education 401A.)

401B. Musculo-Skeletal Fitness Activity (1) I, II
Two hours of activity.
Prerequisites: Concurrent registration in Exercise and Nutritional Sciences 401A.
Circulatory-endurance, muscular strength and endurance, selection and care of equipment and facilities, and programs in the areas of flexibility, weight training and aerobics. (Formerly numbered Physical Education 401B.)

412. Leading Group Aerobic Exercise (1) I, II
Two hours of activity.
Prerequisites: Exercise and Nutritional Sciences 303, 304, 314.
Teaching group aerobic exercise including aerobic dance, step training, circuit training, and interval training. Students design and lead aerobic, strength, and flexibility segments of a group of aerobic exercise class. (Formerly numbered Physical Education 412.)

431. Administration of Exercise and Fitness Program (2) I, II
Prerequisites: Exercise and Nutritional Sciences 303, 304, 314.
Administration and management of corporate, private, university-based, and hospital-based exercise programs. (Formerly numbered Physical Education 431.)

432. Exercise, Fitness, and Health (2) I, II
Prerequisites: Exercise and Nutritional Sciences 303, 304, 305, and 314. Concurrent registration in Exercise and Nutritional Sciences 432L.
Exercise testing, programming and leadership for healthy persons of different ages, capacities, and needs. (Formerly numbered Physical Education 432.)

432L. Exercise, Fitness, and Health (1) I, II
Three hours of laboratory.
Prerequisite: Concurrent registration in Exercise and Nutritional Sciences 432.
Practicum in exercise testing, programming and leadership for healthy persons of different capacities, and needs. (Formerly numbered Physical Education 432L.)

224
433. Exercise, Sport, and Aging (3) I, II
Prerequisites: Exercise and Nutritional Sciences 301 and 304.
Relationships between exercise, sport and human aging including physiological, psychological, sociological, health and program considerations. Aging is viewed developmentally with emphasis on the middle and later years. (Formerly numbered Physical Education 433.)

434. Promoting Physical Activity and Health Behavior (3) I, II
Prerequisites: Exercise and Nutritional Sciences 347A and 347B.
Theoretical approaches and personal, client, and population strategies for developing and maintaining health-related physical activity and associated behaviors.

441. Practicum: Physical Education Activities (2) I, II
Four hours of activity.
Prerequisites: Exercise and Nutritional Sciences 306, 347A, 347B.
Selection and care of equipment and facilities; analysis of skill; progression for skills, drills and the game; lead-up activities; safety; performance cues; terminologies; skill evaluations; tactics and strategies.
A. Racquet Sports
Additional prerequisite: Exercise and Nutritional Sciences 341 (badminton and tennis only). (Formerly numbered Physical Education 441A.)
B. Indoor Sports
Additional prerequisite: Exercise and Nutritional Sciences 341 (basketball and volleyball only). (Formerly numbered Physical Education 441B.)
C. Field Games
Additional prerequisite: Exercise and Nutritional Sciences 341 (soccer and softball only). (Formerly numbered Physical Education 441C.)
D. Gymnastics
Additional prerequisite: Exercise and Nutritional Sciences 341 (gymnastics only). (Formerly numbered Physical Education 441D.)

442A. Physical Education for Elementary Schools (2) I, II
Prerequisites: Exercise and Nutritional Sciences 335, 347A and 347B.
Objectives, curricula, activities, and application of basic scientific principles for the conduct. (Formerly numbered Physical Education 442A.)

442B. Physical Education for Elementary Schools Activity (1) I, II
Two hours of activity.
Prerequisite: Concurrent registration in Exercise and Nutritional Sciences 442A.
(Formerly numbered Physical Education 442B.)

445. Organization and Administration of Physical Education (3) I, II
Two lectures and two hours of activity.
Prerequisite: Exercise and Nutritional Sciences 347A.
Organization of physical education programs in the public schools. Includes curriculum development, program content, legal bases, materials, facilities and constraints in the discipline of physical education. (Formerly numbered Physical Education 380 and 445.)

460. Professional Issues (1) Cr/NC I, II
Prerequisite: Senior standing in prephysical therapy specialization.
Current issues relevant for one preparing to enter an allied health profession. (Formerly numbered Physical Education 460.)

461. Sport Psychology (3) I, II
Prerequisite: Exercise and Nutritional Sciences 307.
Psychological factors underlying behavior in sport and physical activity. Emphasis on personality and motivational factors. (Formerly numbered Physical Education 461.)

462. Therapeutic Modalities for Sports Injuries (3) I, II
Prerequisites: Grade of B or better in Exercise and Nutritional Sciences 365 and 389A.
Theories and techniques for the design, implementation, evaluation, and application of rehabilitation modalities. (Formerly numbered Physical Education 462.)

463. Principles and Techniques in Therapeutic Exercise (2) I, II
Prerequisites: Grade of B or better in Exercise and Nutritional Sciences 365 and 389A.
Design and application of therapeutic exercise programs for athletic injuries. (Formerly numbered Physical Education 463.)

463L. Principles and Techniques in Therapeutic Exercise Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Concurrent registration in Physical Education 463.
(Formerly numbered Physical Education 463L.)

464. Pathomechanics of Athletic Injuries (3) II
Prerequisite: Exercise and Nutritional Sciences 365.
Pathology and mechanics associated with common sports injuries. Signs and symptoms related to cause of injury. Common treatment and interventions. (Formerly numbered Physical Education 464.)

465. Seminar in Athletic Training (2)
Prerequisites: Grade of B or better in Exercise and Nutritional Sciences 365, senior standing in athletic training emphasis, and consent of instructor.
Professional issues in athletic training discipline, including topics in organization and administration.

477. Therapeutic Practices of Kinesiotherapy (3)
Prerequisites: Exercise and Nutritional Sciences 363 and 388.
Foundations of physical disability and description of pathological processes often treated in kinesiotherapy.

478. Organization and Administration of Kinesiotherapy (2)
Prerequisites: Exercise and Nutritional Sciences 211, 363, 388.
Principle and practices of administration in kinesiotherapy.

487A. Kinesiotherapy Internship — Neurological (1)
Prerequisites: Acceptance in the kinesiotherapy professional program and completion of competency checklist.
Clinical experience in medically supervised exercise programs for individuals with neuromuscular disorders.

487B. Kinesiotherapy Internship — Geriatric/Extended Care (1)
Prerequisites: Acceptance in the kinesiotherapy professional program and completion of competency checklist.
Clinical experience in extended care facilities, for geriatric population of severely physically disabled populations.

487C. Kinesiotherapy Internship — Fitness and Wellness (1)
Prerequisites: Acceptance in the kinesiotherapy professional program and completion of competency checklist.
Clinical experience in medically supervised exercise programs for individuals with orthopedic disorders.

487D. Kinesiotherapy Internship — Psychiatric (1)
Prerequisites: Psychology 350; acceptance in the kinesiotherapy professional program and completion of competency checklist.
Clinical experience in psychiatric care facilities.

487E. Kinesiotherapy Internship — Cardiac Rehabilitation (1)
Prerequisites: Acceptance in the kinesiotherapy professional program and completion of competency checklist.
Clinical experience in medically supervised exercise programs for the rehabilitation of cardiopulmonary diseases.

487F. Kinesiotherapy Internship — Orthopedic (1)
Prerequisites: Exercise and Nutritional Sciences 487A and credit or concurrent registration in Exercise and Nutritional Sciences 477, 478.
Clinical experience in medically supervised exercise programs for individuals with orthopedic disorders.
496. Experimental Topics (1-4) I, II
   Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II, S
   Prerequisite: Consent of department chair. Limited to kinesiology majors. Major Code: 08351.
   Individual study. Maximum credit six units.

UPPER DIVISION COURSE
(Also Acceptable for Advanced Degrees)

596. Selected Topics in Exercise and Nutritional Sciences (1-3) I, II
   Selected topics in exercise and nutritional sciences. May be repeated with new content and approval of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
   Refer to Bulletin of the Graduate Division.
Offered by the Department

Foundations and private businesses.

Federally chartered savings and loan associations, and insurance

estate and retail firms); financial institutions (banks, state and

Associate Professors: Badrinath, Block, Houston,
Padmanabhan (IVC), Sachdeva, Wilbur (Associate Dean for
Academic Affairs)

Offered by the Department

Master of Science degree in business administration.

Major in real estate with the B.S. degree in business administration.

Major in real estate.

Certificate in personal financial planning.

The Majors

The Finance Department offers three majors: Finance, Financial

Services, and Real Estate. The finance major is broadest and may

Include courses in all areas.

Finance. All forms of human endeavor involve finance to some

Degree. Within our economic system, finance is concerned with capi-

Study both the sources and the uses of capital. The finance

Curriculum revolves around the valuation process in a free market sys-

Once an individual or company can value various alternatives, the

Allocation of resources and the decision process in business

Becomes much simpler.

Students who are interested in business should have a thorough

Understanding of the financial process. Upon graduation, students

Accept a wide variety of positions with business in general. The curric-

ulum of the finance major is designed to give the student breadth in a

Variety of fields in addition to finance and business.

Employment prospects for graduates with finance majors are very

Good and forecasts remain encouraging. Graduates are typically

Found in six types of employment: large and small industrial firms

Manufacturers of automobiles, steel, household appliances, and

electronic equipment); service oriented firms (electric power, real

estate and retail firms); financial institutions (banks, state and

Federally chartered savings and loan associations, and insurance

Companies); nonprofit enterprises (universities, labor unions, and

Foundations); and private businesses.

The diversity of entry level positions obtained by finance majors

Makes it difficult to describe a typical position. A major in finance does

Not limit career potential to banking or to any single area of business.

A large number of individuals go to work for industrial companies in a

Variety of entry level positions that allow them to develop into top deci-

sion-making positions with those companies. A significant number of

Chief executive officers and other top officers of corporations have fol-

owed the "finance path" to the top.

Financial Services. Although the financial services major is based

On many of the same analytical skills and theoretical founda-

tions as the finance major, it is designed specifically to prepare stu-
dents for careers in one of the segments of the financial services

Industry: securities, banking, insurance, real estate finance and per-

sonal financial planning. It is very common for single firms to own sub-

sidiaries in each of these areas, so it is important for graduates

Entering these fields to be familiar with all aspects of these important

Financial sectors.

Graduates can look forward to analytical, managerial or sales

careers in the financial services industry. Sales careers include insur-

ance and securities sales. Analytical careers include loan and secu-

rity analysis and personal financial planning. Managerial careers

Include management in each of the component industries.

Real Estate. The major objective of the real estate program at

SDSU is to prepare its graduates as well-rounded professionals with a

Specialty in the multifaceted field of real estate and land market analy-

sis. The changing nature of today's real estate market requires that

Graduates from university real estate programs receive a complete

And broad approach to this field. Graduates with a major in real estate

Should be capable of making a wide variety of management decisions

Concerning real estate and related land resources. This includes the

Ability to utilize new economic concepts, understand changing social

Concerns, and apply up-to-date analytical tools such as computers to

The process of real estate decision making. SDSU's program in real

State provides students with analytical skills, technical competence

To perform market analyses, and a better understanding of the tools

Necessary to perform in today's complex real estate and land markets.

This is in addition to the conventional knowledge required for a

License. It is the goal of the real estate program at SDSU to provide

A high level of education, and thus prepare its graduates for job

Opportunities in a variety of organizations, large and small, public and

Private.

With more than two billion acres of land in the United States, impor-

tant public and private decisions must be made every day about the

Use, management, and disposition of this vast real estate acreage.

This means job opportunities for the real estate major are created in a

Variety of areas such as valuation, development, financing, broker-

age, market analysis, and public regulation. Job opportunities in real

State may also exist even in times of economic uncertainty. For ex-

Example, during recent times many enterprises, large and small, have

Turned their attention to maximizing returns generated by their often

Extensive real estate holdings. This has created a demand for a new

Real estate expert—one who can manage asset disposition, value exis-

ting properties, upgrade underutilized property, and negotiate

Lease terms and conditions. In addition, the changing nature of the

Financial environment in which real estate markets must operate has

Created a demand for people not only with basic real estate training,

But also with good general business and financial skills. SDSU's real

State program recognizes this changing real estate environment and

Prepares majors for these diverse opportunities.
Statement on Computers

Before enrolling in upper division courses in the College of Business Administration, students must be competent in the operation of personal computers, including word processing and spreadsheets. Business students are strongly encouraged to have their own computers capable of running word processing, spreadsheet, presentation, e-mail, and Internet applications such as those found in packages sold by major software publishers. Availability of on-campus computing resources can be limited due to increasing demand across the University.

Retention Policy

The College of Business Administration is concerned that each individual upper division student makes reasonable academic progress toward earning a degree. To this end, the College will counsel students who have earned less than a “C” (2.0) average each semester. Further, such students will be warned that continued poor performance may result in their removal from any business major.

Transfer Credit

Lower Division: Courses clearly equivalent in scope and content to San Diego State University courses required for minors or as preparation for all business majors will be accepted from regionally accredited United States institutions and from foreign institutions recognized by San Diego State University and the College of Business Administration.

Upper Division: It is the policy of the San Diego State University College of Business Administration to accept upper division transfer credits where (a) the course content, requirements, and level are equivalent to San Diego State University courses and (b) where the course was taught in an AACSB—The International Association for Management Education accredited program. Exceptions require thorough documentation evidencing the above standards.

Impacted Program

The majors in the Department of Finance are impacted. Students must apply to enter the University under the business administration premajor code (05011). To be admitted to the upper division finance, financial services, or real estate major, students must meet the following criteria:

- a. Complete with a grade of C or higher: Accountancy 201 and 202; Finance 140; Information Decision Systems 180 and 290; Economics 101 and 102; Mathematics 120 (or other approved calculus course); and either Statistics 119 or Economics 201. These courses cannot be taken for credit/no credit (Cr/NC).
- b. Clear the competency requirements in mathematics and writing. Refer to Graduation Requirements section of this catalog for details.
- c. Complete a minimum of 56 semester units;
- d. Have a cumulative and SDSU GPA of 2.90;
- e. Students who meet all requirements except the GPA may request to be placed on the waiting list. Students on the waiting list will be admitted on space-availability basis only. Contact the Business Advising Center (BA 448), 619-594-5828, for more information; and
- f. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Finance Major

With the B.S. Degree in Business Administration
(Major Code: 05041)

A minor is not required with this major.

Preparation for the Major. Finance 140; Accountancy 201, 202; Economics 101, 102; Information and Decision Systems 180, 290; Mathematics 120 (or other approved calculus course); and Economics 201 or Statistics 119 (27-29 units)

These prerequisite courses may not be taken Cr/NC; the minimum grade in each class is C. Additional progress requirements must be met before a student is admitted to an upper division major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. Forty-four upper division units consisting of Finance 321, 323, 325, 327, 423; Accountancy 325, 326; Economics 490; Information and Decision Systems 302; Management 350; Business Administration 404 or Management 405; Marketing 370; and six units selected from Finance 326, 329, 421, 425, 427. A “C” (2.0) average is required in the courses stipulated here for the major.

Of the 128 units required for the degree, at least 60 units must be at the upper division level. This includes the 44 units listed above, nine units of upper division General Education, and at least seven units of upper division electives chosen from within or outside of Business Administration. Finance majors are encouraged to use these electives to explore another area such as Real Estate (Finance 331, 333, 335, 431, 433). A minimum of 64 units of coursework applicable to the bachelor’s degree must be completed outside the areas of business administration, economics, and statistics. This means that at least six units of electives (upper or lower division) must be completed in areas other than business administration, economics, and statistics. A maximum of six lower division units of accountancy courses may be used to satisfy degree requirements.

Financial Services Major

With the B.S. Degree in Business Administration
(Major Code: 05043)

A minor is not required with this major.

Preparation for the Major. Accountancy 201 and 202; Economics 101 and 102; Economics 201 or Statistics 119; Finance 140; Information and Decision Systems 180 and 290; Mathematics 120 (or other approved calculus course). (27-29 units)

These prerequisite courses may not be taken Cr/NC; the minimum grade in each class is C. Additional progress requirements must be met before a student is admitted to an upper division major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. Thirty-eight to 39 upper division units consisting of Finance 323, 326, 327, 331, 522, 589; Accountancy 503; Information and Decision Systems 302; Management 350; Business Administration 404 or Management 405; Marketing 370; six to seven units selected from Finance 421, 425, 431, 435*, 445, 523; Accountancy 326, 504; Economics 320 or 422, 490; and Marketing 377. A “C” (2.0) average is required in the courses stipulated here for the major.

Of the 128 units required for the degree, at least 60 units must be at the upper division level. This includes the 38 to 39 units listed above, nine units of upper division General Education, and at least 12 to 13 units of upper division electives chosen from within or outside of Business Administration. A minimum of 64 units of coursework applicable to the bachelor’s degree must be completed outside the areas of business administration, economics, and statistics. This means that at least nine units of electives (upper or lower division) must be completed in areas other than business administration, economics, and statistics. A maximum of six lower division units of accountancy courses may be used to satisfy degree requirements.

* Prerequisite waived for this course.
Real Estate Major

With the B.S. Degree in Business Administration
(Major Code: 05111)

A minor is not required with this major.

Preparation for the Major. Accountancy 201 and 202; Finance 140; Information and Decision Systems 180, 290; Economics 101 and 102; Economics 201 or Statistics 119; and Mathematics 120 (or other approved calculus course). (27-29 units)

These prerequisite courses may not be taken Cr/NC; the minimum grade in each class is C. Additional progress requirements must be met before a student is admitted to an upper division major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. Thirty-nine to 40 upper division units consisting of Finance 323, 331, 335, 431 or 433, 435; Information and Decision Systems 302; Management 350; Business Administration 404 or Management 405; Marketing 370; Public Administration 320; and 9 to 10 additional units selected from Accountancy 503; Finance 333, 431 or 433; Marketing 373; Economics 422, 490; Geography 354, 559. A "C" (2.0) average is required in the courses stipulated here for the major.

Of the 128 units required for the degree, at least 60 units must be at the upper division level. This includes the 39-40 units listed above, nine units of upper division General Education, and at least 11-12 units of upper division electives, chosen from within or outside of Business Administration. A minimum of 64 units of coursework applicable to the bachelor's degree must be completed outside the areas of business administration, economics, and statistics. This means that at least six units of electives (upper or lower division) must be completed in areas other than business administration, economics, and statistics. A maximum of six lower division units of accountancy courses may be used to satisfy degree requirements.

Business Major

In preparation for the Single Subject Teaching Credential
With the B.S. Degree in Business Administration

All candidates for the single subject teaching credential in business must complete all requirements for the applicable specialization as outlined in this section of the catalog under Policy Studies or Teacher Education. Students must complete the requirements of a major in one of the five departments within the College of Business Administration. In consultation with the single subject credential adviser in the College of Business Administration, undergraduate students must develop programs which fulfill the State credential requirements. All undergraduate majors must demonstrate office skills proficiency. Finance 589, Personal Financial Planning, is required of all teaching credential majors. Of the 128 units required for the degree, at least 60 units must be at the upper division level.

Student programs must be approved in advance by the College of Business Administration single subject credential adviser.

Finance Minor

The minor in finance consists of a minimum of 21 units to include Accountancy 201, Finance 321, 323, 326, 327, and 329; Statistics 119.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University. Students with a major in the College of Business Administration, Hospitality and Tourism Management, or International Business may not complete a minor in the College of Business Administration.

Students must officially declare the minor before taking any upper division business courses. Students must meet the prerequisites for the minor in effect at the time that they declare the minor. The current prerequisites for admission to the finance minor include completion of the following courses with a grade of C or better: Economics 101, 102, and a three unit course in statistics (Statistics 119 is recommended); completion of the SDSU lower division writing and mathematics competency requirements; completion of the General Education requirements in Communication and Critical Thinking; completion of an additional nine units in the department of the student's major, including at least six units of upper division courses. Students must also meet the GPA requirement in effect at the time that they declare the minor. Contact the Business Advising Center (BA 448) for admissions criteria and procedures.

Real Estate Minor

The minor in real estate consists of a minimum of 18 units to include Economics 102; Finance 140, 331, 335; and six units selected from Finance 333, 431, 433, and 435.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University. Students with a major in the College of Business Administration, Hospitality and Tourism Management, or International Business may not complete a minor in the College of Business Administration. Students must officially declare the minor before taking any upper division business courses. Students must meet the prerequisites for the minor in effect at the time that they declare the minor. The current prerequisites for admission to the real estate minor include completion of the following courses with a grade of C or better: Economics 101, 102, and a three unit course in statistics (Statistics 119 is recommended); completion of the SDSU lower division writing and mathematics competency requirements; completion of the General Education requirements in Communication and Critical Thinking; completion of an additional nine units in the department of the student's major, including at least six units of upper division courses. Students must also meet the GPA requirement in effect at the time that they declare the minor. Contact the Business Advising Center (BA 448) for admissions criteria and procedures.

Personal Financial Planning Certificate

The purpose of this program is to provide a strong educational basis for persons desiring careers in the field of personal financial planning. Two categories of students are admitted: Matriculated students who have been admitted to an upper division College of Business Administration major and nonmatriculated students who work in the financial services industry who may take the courses on a space-available basis.

This certificate is a program registered with the Certified Financial Planner Board of Standards.

Prerequisites to the program include Finance 140; Accountancy 201; Economics 101, 102; and Statistics 119 (15 units.)

The certificate requires 22 units to include Accountancy 503, Finance 323, 327, 421, 445, 522, 523, and 589. In order to qualify for this certificate a "B-" (2.7) average in the upper division certificate courses is required.

The adviser for the certificate is Dr. Thomas M.D. Warschauer, Department of Finance. All course units may be used for business majors where programmatically specified. Courses in the certificate may not be counted toward the minor.
Courses (FIN)

UPPER DIVISION COURSES (Intended for Undergraduates)

300. Personal Finance (3)
Prerequisite: Upper division standing.
Understanding and awareness of financial decisions students will make during their lives, and services and products available to them in implementing these decisions. This course is open to non-business majors.

321. Managerial Economics (3) I, II
Prerequisite: Approved upper division business major, business minor, or another major approved by the College of Business Administration.
Role of economic analysis in management decisions. Study of demand, cost, supply theory from a business viewpoint. Emphasis on managerial decision making.

323. Fundamentals of Finance (3) I, II
Prerequisite: Approved upper division business major, business minor, or another major approved by the College of Business Administration. Proof of completion of prerequisite required: Change of specific content. May be repeated with new content with consent of department chair. Limit of nine units of any combination of 296, 496, and 498 courses applicable to a bachelor's degree. Maximum credit six units.

325. Intermediate Finance (4) I, II
Prerequisite: Finance 323 with minimum grade of C.

326. Financial Institutions Management (3) I, II
Prerequisite: Finance 323 with minimum grade of C.
Management of financial institutions including savings and loan associations, mutual savings banks, credit unions, private pension plans, brokerage houses, investment companies, consumer credit institutions, federal credit agencies, and commercial banks. Emphasis on internal financial management of these institutions.

327. Investments (3) I, II
Prerequisite: Finance 323.
Measures of risk and return. Methods of security analysis, valuation, and capital asset pricing model. Portfolio theory and management; stocks, bonds, options, and futures; hedging; mutual funds and partnerships; and investment taxation.

329. International Business Finance (3) I, II
Prerequisite: Finance 323.
Foreign exchange markets and instruments; international financial institutions; trade and balance of payments; exchange rate behavior and currency-risk hedging; cross-border investment; applications to management of international business.

331. Real Estate Essentials (3) I, II
Prerequisite: Completion of lower division course requirements in business major or minor.
Fundamental operations of the real estate market; principles of real property valuation, financing, law, investment, brokerage, management, and development.

333. Law of Real Property (3) II
Prerequisite: Finance 331.
Legal theory and practice of estates in land; landlord and tenant relationships; land transactions; mortgages and trust deeds; easements; land use; ownership rights in land; environmental law.

335. Land Markets and Real Estate Analysis (3) I, II
Prerequisite: Finance 331.

421. Portfolio Management and Security Analysis (3)
Prerequisite: Finance 327.

423. Financial Analysis and Management (4) I, II
Prerequisites: Finance 321 and 325. Strongly recommended: Accountancy 326.
Integration of various aspects of finance, application of financial theory. Financial decision-making in the firm. Case study.

425. Business Forecasting (3)
Prerequisite: Finance 323.
Business fluctuations; forecasting, and related problems confronting the business firm; forecasting techniques; specific forecasts. The use of forecasts in the firm.

427. Financial Risk Management (3)
Prerequisite: Finance 323.
Principles of financial risk management. Types of financial risk (exchange-rate, equity, commodity and credit risk) and instruments for hedging risk (futures, options, and swaps). Techniques for integrated measurement and management of financial risk through application of portfolio theory.

431. Real Estate Finance (3) I
Prerequisite: Finance 331.
Methods of financing real estate; sources of funds; governmental financial agencies; feasibility analysis for various types of properties.

433. Theory of Real Property Value (3) II
Prerequisite: Finance 331.
Introduction to theories of real property value. Techniques of value determination. Data analysis techniques.

435. Real Estate Investment Analysis (3) I, II
Prerequisites: Finance 335 and Finance 431 or 433.
Theories and methods of investment analysis applied to real estate. Integration of various aspects of real estate from the investors perspective. Use of computer models for investment decision making.

445. Estate Planning (3)
Prerequisite: Finance 323.
Fundamentals of estate planning, social and family implications of federal/state taxation of transfers of wealth by gift or at death. Study of trusts, conservatorships, guardianship and postmortem planning. How planning is affected by business assets, employee benefits, and insurance.

496. Selected Topics in Finance (1-4)
Prerequisite: Consent of department chair.
Selected areas of concern in finance. See Class Schedule for specific content. May be repeated with new content with consent of department chair. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.
498. Investigation and Report (1-3) I, II
   Prerequisites: Senior standing and consent of instructor.
   A comprehensive and original study of a problem connected with
finance under the direction of one or more members of the finance
staff. May be repeated with new content. Maximum credit six units.

499. Special Study (1-3)
   Prerequisite: Consent of instructor.
   Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

522. Individual Insurance Management (2) II
   Prerequisites: Undergraduate: Completion of lower division
requirements for the major. Graduate: Completion of prerequisite
core.
   Economic, legal, social, and ethical considerations of individual,
business and group insurance including life, health, property, and lia-
bility insurance. Risk exposure and policy analysis. (The combination
of Finance 522 and 523 was formerly numbered Finance 521.)

523. Employee Benefit Planning (2) II
   Prerequisites: Undergraduate: Completion of lower division
requirements for the major. Graduate: Completion of prerequisite core.
   Employee benefit and pension planning, including regulation and
taxation issues. (The combination of Finance 522 and 523 was for-
merly numbered Finance 521.)

589. Personal Financial Planning (3) I
   Prerequisite: Finance 323.
   Financial planning process including data gathering, cash flow
and debt considerations, goal programming (including retirement and
education funding), integration, plan formulation, and implementation.
Practice management considerations including establishment of ethi-
cal and legal, client and professional relationships.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
French
In the College of Arts and letters

Faculty
Emeritus: Cox, Ghilbert, Glasgow, Jackson, Max, Nelson, Palmer
Chair: Schorr
Professors: Benkov, Edson, Loughrin-Sacco, Lyman-Hager, Schorr
Associate Professor: Cornwell
Lecturer: Chang

Offered by the Department of European Studies
Master of Arts degree in French.
Major in French with the B.A. degree in liberal arts and sciences.
Teaching major in French for the single subject teaching credential in foreign languages.
Major in European studies, with emphasis in French.

See European Studies.
Major in international business, with emphasis in French.
See International Business.
Minor in French.

The Major
A student who majors in French learns to speak the language, to read French literature in its original form, and to interact with members of an important cultural community. The French major can help prepare a student for a career in education, business, or the arts.

Students generally choose to major in French in order to enrich their lives rather than to train for a career, but many employers recognize the value of a well-rounded liberal arts education. The increasing involvement of the United States in international business has created new opportunities for people interested in international management. Employers look for knowledge of a foreign country's culture and language together with training in economics or business. A major in French combines effectively with a second major or minor in business, economics, political science or the humanities.

A significant number of French majors choose a career in teaching. Recent studies indicate that the demand for qualified teachers is rising. With a secondary teaching credential, one can teach at the high school level or pursue more advanced study in preparation for a university career, either in French or in related subjects such as linguistics or comparative literature.

Students majoring in French are strongly encouraged to participate in CSU-IP (California State University International Programs) and other approved study abroad programs in French-speaking countries, such as the SDSU semester in Paris.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

French Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 11021)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 49 units in French courses can apply to the degree.

Students majoring in French must complete a minor in another field to be approved by the departmental adviser in French.

Preparation for the Major. French 100A, 100B, 201, 210, 220, and 221. (22 units) Recommended: History 105, 106.

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through coursework for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in French to include French 301, 302, 305A, 305B, and 15 upper division electives in French to include at least one 500-level course. No more than one 400-level French course taught in English may be applied to the major.

French Major
In preparation for the Single Subject Teaching Credential in Foreign Languages
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 11021)

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under Policy Studies or Teacher Education. For students completing the single subject teaching credential program, no more than 52 units in French courses can apply to the degree.

This major may be used by students in policy studies or teacher education as an undergraduate major for the B.A. degree in liberal arts and sciences. A minor in another field approved by the departmental adviser in French is required for the degree.

To be recommended for student teaching, students must demonstrate proficiency in French by passing the departmental written and oral tests.

Preparation for the Major. French 100A, 100B, 201, 210, 220, and 221. (22 units)

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through coursework for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units in French to include French 301, 302, 305A, 305B, 421, 422, 501, and nine units of upper division electives taught in French.

French Minor
The minor in French consists of a minimum of 15 units in French, nine units of which must be in upper division courses, with a minimum of six upper division units completed in residence at San Diego State University.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Interdisciplinary Studies in Three Departments
Students selecting French as one of their departments in this major must complete all lower division preparation for the major or equivalent competency, and choose from among French 301, 305A, 305B, 421 and 422.
Foreign Language Requirement for the B.A. Degree in Liberal Arts and Sciences

Students electing the study of French to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete French 201 or 210 or the equivalent level of competency. The usual sequence of coursework is French 100A, 100B, 201, 210, 220, and 221. Refer to section of catalog on “Graduation Requirements” for additional ways to satisfy competency.

High School Equivalents

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

Secondary school language courses can be used as follows:

1. The first two years of high school level language count as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.

2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.

3. Four years of high school level language count as the equivalent of three college semesters or five college quarters, thus fulfilling the foreign language requirement.

Courses (FREN)

LOWER DIVISION COURSES

Native speakers of French will not receive credit for taking lower division courses except with advance approval from the department.

All lower division courses in French are taught in French.

No credit will be given for lower division courses taken after successfully completing any upper division French course taught in French.

No credit will be given when French 100A, 100B, or the 200 series are taken out of sequence.

100A. Elementary French I (5) I, II (CAN FREN 2)
(100A + 100B: CAN FREN SEQ A)

Interactive introduction to speaking, reading, and writing French in a cultural context. Essential language structures for communication at the novice level. Not open to students who have completed three years of high school French unless the third course was completed five or more years ago.

100B. Elementary French II (5) I, II (CAN FREN 4)
(100A + 100B: CAN FREN SEQ A)

Prerequisite: French 100A or two years of high school French. Continuation of French 100A. Not open to students who have completed four years of high school French unless the fourth course was completed five or more years ago.

200. Intermediate French in Paris (3)

Four hours per week in a 12-week period in the Paris Semester. Development of intermediate level proficiency skills through lecture and work in small groups. Offered only through the Paris Semester study abroad program. This course satisfies the Foreign Language graduation requirement.

201. Readings in French (3)

Prerequisite: French 100B or three years of high school French. French majors, minors, and International Business majors are encouraged to enroll concurrently in French 210. Emphasis on reading. See Class Schedule for emphasis offered: Readings in French Culture, Readings in Francophone Culture, or Readings in Business French.

210. French Grammar (3)

Prerequisite: French 100B with a grade of C or better or three years of high school French. French majors, minors, and International Business majors are encouraged to enroll concurrently in French 201. Comprehensive survey of French grammar at the intermediate level. Analysis and use of typical French structures.

220. Grammar of Spoken French (3)

Prerequisite: French 210. French majors, minors, and International Business majors are encouraged to enroll concurrently in French 220. Analysis of grammar and use of modern French through study of cultural materials, for proficiency in oral communication.

221. Writing French (3)

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES

(Intended for Undergraduates)

All upper division courses in French are taught in French unless otherwise stated.

French 301 is not open to students who hold a French baccalauréat. French 301 and 302 may not be taken concurrently or out of sequence.

301. Advanced Grammar and Composition (3) I, II

302. Translation and Stylistics (3) II

Prerequisites: French 301, and completion of the General Education requirement in Foundations II.C., Humanities. Comparative stylistics of French and English, taught through translation.

305A. Survey of French Literature (3) I

Prerequisites: Twelve units of 200-level French, and completion of the General Education requirement in Foundations II.C., Humanities. General Education prerequisite not required for French majors.

305B. Survey of French Literature (3) II

Prerequisites: Twelve units of 200-level French, and completion of the General Education requirement in Foundations II.C., Humanities. General Education prerequisite not required for French majors.

400. Advanced French in Paris (3)

Prerequisites: Twelve units of 200-level French. Development of advanced level proficiency skills through writing and speaking. Offered only through the Paris Semester study abroad program.
French Civilization (3) I  
- Prerequisites: Twelve units of 200-level French, and completion of the General Education requirement in Foundations II.C., Humanities. General Education prerequisite not required for French majors.
- French civilization from Middle Ages to the present. Artistic, intellectual achievements and cultural movements.

Contemporary France (3) II  
- Prerequisites: Twelve units of 200-level French, and completion of the General Education requirement in Foundations II.C., Humanities. General Education prerequisite not required for French majors.
- Contemporary France, emphasizing political, economic and social structures as well as artistic, intellectual, and cultural trends.

Commercial French (3) II  
- Prerequisite: French 301. Proof of completion of prerequisite required: Copy of transcript.
- French commercial practices and language, the enterprise, correspondence, advertising, telecommunications, banking, transportation, import-export, insurance, accounting, stock market, preparation for the Certificate offered by the Paris Chamber of Commerce.

French Cinema and Theory (3)  
- Two lectures and two hours of activity.
- Prerequisites: Twelve units of lower division French. General Education students must also have completed Foundations II.C. Humanities.
- French cinema emphasizing social, political, and cultural changes in modern France. Topics include film theory, the new wave, history in cinema, influence of feminism, French colonialism, race, class, and gender in modern culture. Taught in English.

Francophone Africa in Literature and Film (3)  
- Prerequisites: French 301 for French majors; upper division standing for non-French majors. General Education students must also have completed Foundations II.C. Humanities.

Topics in French Studies (1-4)  
- Topics in French literature, culture and linguistics. May be repeated with new content. Maximum credit nine units. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. May be taught in English. See Class Schedule for specific content.

Special Study (1-3) I, II  
- Prerequisites: French 302, 305A, 305B.
- Individual study. Maximum credit six units. This course is intended only for students who are currently enrolled in or who already have credit for all upper division courses in French available in any given semester.

UPPER DIVISION COURSES  
(Also Acceptable for Advanced Degrees)

Translation (3)  
- Prerequisite: French 302.
- Stylistic comparison of French and English through translation of a variety of prose styles from English to French and from French to English.

French and Francophone Literary Studies (3)  
- Prerequisites: French 302 and 305A or 305B.
- Specialized study of a century, genre, movement or theme in French and Francophone literature. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

French and Francophone Cultural Studies (3)  
- Prerequisites: French 302 and 421 or 422.
- Specialized study of artistic and intellectual trends, customs, and politics in French and Francophone culture. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

Linguistics and the Teaching of French (4)  
- Three lectures and two hours of laboratory.
- Prerequisite: French 302.
- Applied linguistics, methodology, and technology for teachers of French. Not open to students with credit or concurrent registration in Spanish 561.

Topics in French Studies (1-4)  
- Topics in French literature, culture, and linguistics. May be repeated with new content. Maximum credit nine units. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. May be taught in English. See Class Schedule for specific content.

GRADUATE COURSES  
Refer to Bulletin of the Graduate Division.
Faculty
Chair: McClish
Lecturers: Fulcomer, Giles, Morgan, Quan
Adjunct: Keeseey

Offered by the Department of Rhetoric and Writing Studies
Courses in general mathematics studies. Major or minor work in general mathematics studies is not offered.

General Information
The principal role of the General Mathematics Studies program is to prepare students to satisfy the CSU Entry Level Mathematics requirement, the SDSU Mathematics Competency requirement or SDSU Mathematics Departmental Placement Examination, Part IA (intermediate algebra) requirement. Passing the final examination for General Mathematics Studies 90B, 99B, 99C, or 91 satisfies the SDSU Mathematics Competency requirement. Credit in General Mathematics Studies 99C or 91 also satisfies the ELM* and SDSU Mathematics Placement Examination, Part IA, requirements necessary for students enrolling in designated mathematics and statistics courses. For more information on the mathematics competency requirements, refer to the “Graduation Requirements” section of this catalog.

In addition to the competency courses, the General Mathematics Studies program offers one unit workshops in geometry and other selected topics in mathematics.

The units awarded to a student who earns a grade of “Credit” in a General Mathematics Studies course are not applicable to the baccalaureate degree.

* The ELM requirement is satisfied by these courses only if the student has already attempted and failed the ELM.

Courses (GMS)

LOWER DIVISION COURSES
(Non-Baccalaureate Credit)

General mathematics studies courses numbered below 100 may not be used to satisfy general education or graduation requirements.

90A. Fundamentals of Mathematics  (3) Cr/NC/SP I, II, S
Prerequisite: Appropriate score on the CSU Entry-Level Mathematics Examination (ELM), the General Mathematics Studies diagnostic test, or other standardized mathematics examination.

Review of arithmetic and elementary algebra; topics from geometry covered in adjunct workshops (General Mathematics Studies 98A). Students earning “Cr” (credit) should enroll in General Mathematics Studies 91. Students earning “SP” (satisfactory progress) or “NC” (no credit) should repeat General Mathematics Studies 90A. May be repeated with consent of instructor. Maximum credit six units. (Formerly numbered Academic Skills 90A.)

90B. Basic Algebra Review  (3) Cr/NC I, II, S
Prerequisite: Appropriate score on the General Mathematics Studies diagnostic test or other standardized mathematics examination or participation in specified programs.

Designed for students who need to satisfy the SDSU Mathematics Departmental Placement Examination, Part C (competency) requirements, or for students in specified special programs. Topics covered include elementary algebra, intermediate algebra, and geometry. Course final examination is SDSU Mathematics Departmental Placement Examination, Part C; a passing score on the final examination gives “Cr” (credit) and satisfies SDSU Mathematics Competency requirements. (Formerly numbered Academic Skills 90B.)

**91. Intermediate Algebra  (3) Cr/NC I, II, S
Prerequisites: Credit in General Mathematics Studies 90A, 90B or 99A, 99B or appropriate score on the ELM.

Designed to prepare students for Mathematics Departmental Placement Examination, Part IA, which is given as final examination for the course. A review of intermediate algebra skills. Topics include rational and radical expressions, quadratic equations, set and function notations, logarithms, and complex numbers. Credit in General Mathematics Studies 91 satisfies Mathematics Departmental Placement Examination, Part IA, Mathematics Competency, and Entry Level Mathematics Examination requirements.

98. Mini-Course: Selected Topics  (1) Cr/NC
Assorted short courses which will meet three hours a week for five weeks and will cover a variety of General Mathematics Studies through intensive lectures and laboratory work.

Suggested topics: Communication skills, research tools, and learning skills. See Class Schedule for specific content. Credit earned in courses from this series is not applicable to a bachelor’s degree.

A. Learning Skills
B. Communication Skills

99A. Fundamentals of Mathematics (Integrated Curriculum)  (4)
Cr/NC/SP I, II
Three lectures and one hour of activity.

Prerequisite: Appropriate score on the CSU Entry-Level Mathematics Examination (ELM), the General Mathematics Studies diagnostic test, or other standardized mathematics examination and freshman class standing.

Review of arithmetic and basic algebra; topics from geometry covered in adjunct workshops. Students attend weekly reinforcement workshops one hour each week in mathematics laboratory. Students attaining a score of 20 or better on final examination earn “Cr” (credit) in course and enroll in General Mathematics Studies 99C the next semester. Students attaining 15 to 19 points earn an “SP” (satisfactory progress); these students should enroll in a specified section of General Mathematics Studies 99B in the following semester. Students attaining scores of 14 or lower receive “NC” (no credit) and should repeat General Mathematics Studies 99A.

* General Mathematics Studies 90B and 99B is not offered at the Imperial Valley Campus. Students who do not attain a Cr in General Mathematics Studies 90A at the Imperial Valley Campus should repeat General Mathematics Studies 90A.

** The ELM requirement is satisfied by this course only if the student has already attempted and failed the ELM.
General Mathematics Studies

Cr/NC I, II  
Three lectures and one hour of activity.  
Prerequisites: Freshman class standing and participation in specified special program.  
Topics covered include elementary algebra with review of arithmetic and topics from geometry and intermediate algebra. Class sessions augmented by one hour of reinforcement laboratory work each week. Prepares students for CSU Entry Level Mathematics Examination (ELM), but does not satisfy ELM requirement. Course final is SDSU Mathematics Placement Examination, Part C; a score of 15 or better out of 25 earns “credit” and satisfies the SDSU Mathematics Competency requirement.

**99C. Intermediate Algebra (Integrated Curriculum) (4) Cr/NC**  
Three lectures and one hour of activity.  
Prerequisite: Grade of “Cr” (credit) in General Mathematics Studies 99A or 99B or appropriate score on ELM or General Mathematics Studies diagnostic test and freshman class standing.  
For freshmen who have attained “Cr” (credit) in General Mathematics Studies 99A or 99B or whose ELM or diagnostic score indicates that this is the appropriate level for them, but who have not yet satisfied the CSU-Entry Level Mathematics Examination (ELM), SDSU Mathematics Placement Examination, Part IA, or SDSU Mathematics Competency requirements. Course content is identical to General Mathematics Studies 91, but General Mathematics Studies 99C class sessions will be augmented by one mandatory hour of reinforcement laboratory work each week. Course final is SDSU Mathematics Placement Examination, Part IA; a score of 15 or better out of 25 earns “credit” and satisfies ELM, SDSU Mathematics Placement Examination, Part IA, and SDSU Mathematics Competency requirements.

**NOTE:**  
General Mathematics Studies 90B and 99B are not offered at the Imperial Valley Campus. Students who do not attain a Cr in General Mathematics Studies 90A at the Imperial Valley Campus should repeat General Mathematics Studies 90A.  
The ELM requirement is satisfied by this course only if the student has already attempted and failed the ELM.

General Mathematics Studies 90A is equivalent to General Mathematics Studies 99A.  
General Mathematics Studies 90B is equivalent to General Mathematics Studies 99B.  
Enrollment in General Mathematics Studies 99A, 99B, and 99C is restricted to students participating in the Integrated Curriculum program.
The University offers a number of courses which are not part of a regular departmental curriculum. They provide students with opportunities for achieving academic credit through interdisciplinary and nontraditional coursework.

**General Courses (GEN S)**

### LOWER DIVISION COURSES

**100. University Seminar (1) Cr/NC**

Prerequisite: Open only to freshmen.

Provides opportunities to interact with faculty in a small group setting. Students acquire study and interpersonal skills for academic and personal success. Special sessions are offered featuring campus resources including library, advising, career, health and wellness services.

A. University Seminar  
B. Integrated Curriculum  
C. Living Learning Center

**200. Professional Experience and Community Service (1-3)**

Prerequisites: Twelve units of college credit, minimum grade point average of 2.0, concurrent participation in professional or community service activity, and approval of course contract.

Academic work designed with faculty approval to complement concurrent paid or unpaid professional or community service experience. Information and course forms available in Division of Undergraduate Studies, AD-201. Applications must be submitted to the Division prior to the end of the first week of classes. May be used to satisfy major or minor requirements only upon written approval of department chair. No combination of General Studies 200 and 400 in excess of six units may be counted for credit toward a bachelor's degree.

**275. Honors Special Study (1)**

For further information contact the Division of Undergraduate Studies.

Prerequisite: Admission to the University Honors Program.

Special study associated with a lower division course offered as an honors section, and serving as an extension of the course.

### UPPER DIVISION COURSES (Intended for Undergraduates)

**330. Plagues Through the Ages (3)**

Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences.

Political, economic, religious, and cultural effects of disease. Significant role epidemics and disease have played in development of civilizations from beginning of recorded history to present.

**340. Confronting AIDS (3)**

Prerequisite: Completion of the General Education requirement in Foundations II.A. Natural Sciences and Quantitative Reasoning, II.B. Social and Behavioral Sciences, and II.C. Humanities.

Examines the AIDS epidemic from historical, epidemiological, biological, medical, psychological, political, legal, and ethical perspectives.

**400. Professional Experience and Community Service (1-3)**

Cr/NC

Prerequisites: Upper division standing, minimum grade point average of 2.0, concurrent participation in professional or community service activity and approval of course contract. Completion of prerequisites required.

Academic work designed with faculty approval to complement concurrent paid or unpaid professional or community service experience. Information and course forms available in Division of Undergraduate Studies, AD-201. Applications must be submitted to the Division prior to the end of the first week of classes. May be used to satisfy major or minor requirements only upon written approval of department chair. No combination of General Studies 200 and 400 in excess of six units may be counted for credit toward a bachelor's degree.

**410. Civilization Through Travel-Study (2-3)**

Prerequisite: Upper division standing.

Civilization through faculty-supervised foreign travel-study. Requires lecture attendance, excursions and site visits, examinations and written reports.

**420. Disability and Society (3)**

Prerequisites: Psychology 101, Sociology 101, or Anthropology 101, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences.

Range of human experience of individuals with disabilities: attitudes toward individual and interrelationship between societal institutions and needs of people with disabilities; historical response to these needs and contemporary issues with particular emphasis on normalization, integration, and community living.

**450. Life and Culture Semester Abroad (3)**

Prerequisites: Upper division standing and completion of the General Education requirement in Foundations II.C., Humanities.

Life and culture of a foreign country through an approved "semester abroad" program approved by the Division of Undergraduate Studies. Requires lecture attendance, excursions and site visits, examinations and written reports. See Class Schedule for geographic location.

**Interdisciplinary Courses (INT S)**

General Studies courses (250 or 350) are interdisciplinary selected topics courses.

Students interested in enrolling in General Studies 250 or 350 should contact the faculty adviser of the department(s) offering the course for further details. May be repeated with new content. Maximum credit four units.

**250. Interdisciplinary Topics (1-4)**

**350. Interdisciplinary Topics (1-4)**
Faculty
Emeritus: Blick, Eidemiller, Greenwood, Johnson, Keen, Kiewiet de Jonge, O’Brien, Storm, Taylor, Yahrl
Chair: Aguado
The Stephen and Mary Birch Foundation Chair in Geographical Studies: Getis
Professors: Aguado, Atiken, Ford, Franklin, Fredrich, Griffin, Getis, Hope, McArthur, O’Leary, Pryde, Quastlter, Stow, Stutz, Weeks, Wright
Associate Professor: Rey
Assistant Professors: Mattingly, Pohl, Tague, Tsou

Offered by the Department
Doctor of Philosophy degree in geography.
Master of Arts degree in geography.

Major in geography with the B.A. degree in liberal arts and sciences.
Emphasis in methods of geographical analysis.
Emphasis in natural resource and environmental geography.
Emphasis in physical geography.
Emphasis in urban and regional analysis.
Minor in geography.
Certificate in geographic information science.

The Stephen and Mary Birch Foundation Chair in Geographical Studies

The Stephen and Mary Birch Foundation Chair in Geographical Studies was created through the Birch Foundation’s grant to the Geography Department to endow a chair and create a Center for Earth Systems Analysis Research. Dr. Arthur Getis, internationally recognized for his expertise in theory and methodology of spatial analysis applied to urban and economic systems, is the second holder of the Chair.

The Major

Geography is the study of spatial aspects of the physical environment, human activities and landscapes, and the nature of their interactions. Geographers draw upon theories from both the physical and social sciences. As physical scientists, they study the processes and resulting features of the earth’s surface, such as vegetation, climate, soils, landforms, and resources. As social scientists, geographers explore such topics as the arrangement of societies on the earth’s surface, land use patterns, urbanization, resource and energy usage, and environmental conservation.

The Department of Geography offers a broad range of fields from which to select an emphasis. These include physical geography—focusing on scientific explanations of the earth’s physical features and processes; natural resource and environmental geography—concerned with human impacts on the earth; urban and regional analysis—dealing with the form of cities and the dynamics of regional systems; methods of geographical analysis—providing a background in cartography, geographic information systems, remote sensing and spatial statistics. A comprehensive program is offered in general geography—encompassing topics from all of the emphases.

The Department also offers a Certificate in Geographic Information Science. This program is for students interested in mapping, computer graphics, surveying, aerial photography, and the use of satellite technology to study earth resources. A variety of career opportunities exist for geography majors. In recent years many graduates with bachelor degrees have entered the fields of urban and environmental planning, both in the public and private sectors. Employment is also available as geographic information systems specialists, cartographers, park naturalists, and remote sensing specialists. The following represent some of the jobs held by recent graduates: environmental impact analyst, urban planner, cartographer, park ranger, transportation planner, travel agent, teacher, zoning investigator, terrain analyst. Some graduates have chosen to pursue opportunities in business where firms are interested in hiring college graduates with broad academic backgrounds.

Advising

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Geography Major

With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 22061)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in geography courses can apply to the degree.

Graduation with Distinction. A student desiring to graduate with Distinction in Geography must meet the University requirements listed in the section of this catalog on “Graduation Requirements” and be recommended by the geography faculty.

General Geography Program

A minor in another department approved by the undergraduate adviser in Geography is required for this degree.

Preparation for the Major. Geography 101, 101L, 102. (7 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or English 508W, 581W, 584W, or Rhetoric and Writing Studies 305W, 500W, 503W with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in geography to include three units selected from each of the following groups: (a) Geography 321-337; (b) 353-358, 554-559, 585-586; (c) 370, 378, 545, 570-577; (d) 378, 401, 409, 504-511, 545; (e) 380-381; (f) 385, 484, 488, 581-588, and nine units from one of the following groups: (a) Physical: Geography 378, 401, 409, 504-511, 545; (b) Natural Resource and Environmental: 370, 378, 545, 570-577; (c) Urban and Regional Analysis: 353-358, 385, 554-559, 585-586; (d) Methods of Geographical Analysis: 380-385, 484, 488, 581-588; (e) Cultural: 354, 554, but not more than six units from Geography 312, 321-339. No course may be used more than once to satisfy this requirement.

Emphasis in Methods of Geographical Analysis

Students selecting this emphasis are not required to complete a minor in another department.

Preparation for the Major. Geography 101, 101L, 102; Computer Science 160 or 107; and a three-unit course in introductory statistics. (13 units)
**Foreign Language Requirement.** Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

**Upper Division Writing Requirement.** Passing the University Writing Examination or English 508W, 581W, 584W, or Rhetoric and Writing Studies 305W, 500W, 503W, with a grade of C (2.0) or better.

**Major.** A minimum of 36 upper division units in geography to include Geography 385; 15 units selected from Geography 380-381, 484, 488, 498, 581-588*; three units selected from each of the following groups: (a) 321-337; (b) 370, 545, 570-577; (c) 353-358, 554-559; six units selected from Geography 378, 401, 409, 504-511; and three units of upper division geography electives.

* Geography 595 may be used to satisfy three units in this group where appropriate and approved by the department.

**Emphasis in Natural Resource and Environmental Geography**

Students selecting this emphasis are not required to complete a minor in another department. Students may select either track (a) Environmental Analysis or track (b) Environmental Policy.

**Preparation for the Major.** Geography 101, 101L, 102; Biology 100 and 100L; Political Science 102. (14 units)

**Foreign Language Requirement.** Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

**Upper Division Writing Requirement.** Passing the University Writing Examination or English 508W, 581W, 584W, or Rhetoric and Writing Studies 305W, 500W, 503W, with a grade of C (2.0) or better.

**Track (a): Environmental Analysis**

**Additional Preparation for the Major.** Mathematics 121 or 150; Chemistry 100; and Physics 107. (11-13 units)

**Major.** A minimum of 36 upper division units in geography to include Geography 370 and 385; three units from 380-381, three units from 321-337; six units from 378, 401, 409, 504-511; and three units from 353-358, 554-559.

An additional 15 units to be selected from 3 or 4 units from Geography 484 or 488, three units from 581-588 and 9 units from 545, 570-574, 575 or 577, 595.

**Track (b): Environmental Policy**

**Additional Preparation for the Major.** Economics 101 or 102. (3 units)

**Major.** A minimum of 36 upper division units in geography to include Geography 370 and 385; three units from 380-381; three units from 321-337; six units from 378, 401, 409, 504-511, and three units from 353-358, 554-559.

An additional 15 units to be selected from 3 or 4 units from Geography 484 or 488, 581-588 and 12 units from 545, 570-574, 575 or 577, 595.

**Emphasis in Physical Geography**

Students selecting this emphasis are not required to complete a minor in another department.

**Preparation for the Major.** Geography 101, 101L, 102; Mathematics 121 or 150; Chemistry 200; Physics 180A, 182A. (19-21 units)

**Foreign Language Requirement.** Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

**Upper Division Writing Requirement.** Passing the University Writing Examination or English 508W, 581W, 584W, or Rhetoric and Writing Studies 305W, 500W, 503W, with a grade of C (2.0) or better.

**Major.** A minimum of 36 upper division units in geography to include Geography 380, 385; fifteen units selected from Geography 378, 401, 409, 498, 504-511; six units selected from Geography 484, 488, 581-588; and three units selected from each of the following groups: (a) 321-337; (b) 353-370, 545, 554-557; and three units of electives.

* Geography 595 may be used to satisfy three units in this group where appropriate and approved by the department.

**Emphasis in Urban and Regional Analysis**

Students selecting this emphasis are not required to complete a minor in another department.

**Preparation for the Major.** Geography 101, 101L, 102; Computer Science 106; Economics 102. (13 units)

**Foreign Language Requirement.** Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

**Upper Division Writing Requirement.** Passing the University Writing Examination or English 508W, 581W, 584W, or Rhetoric and Writing Studies 305W, 500W, 503W, with a grade of C (2.0) or better.

**Major.** A minimum of 36 upper division units in geography to include Geography 385; 15 units selected from Geography 353-354, 358, 498, 554-559, 572, 585-586; six units selected from Geography 378, 401, 409, 504-511; three additional units from each of the following groups: (a) 321-337; (b) 370, 545, 570-577; (c) 380-381; and three units of electives.

* Geography 595 may be used to satisfy three units in this group where appropriate and approved by the department.

**Geography Minor**

The minor in geography consists of a minimum of 18-19 units of geography to include Geography 101, 102 and one of the following areas:

**Cultural:** Six units from Geography 312, 354, 554, and six units selected from regional courses Geography 321-337.

**Methods of Geographical Analysis:** Nine units selected from Geography 380-385, 484, 488, 581-588, and three units selected from any other upper division course.

**Natural Resource and Environment:** Nine units selected from Geography 380-385, 484, 488, 581-588, and three units selected from any other upper division course.

**Physical:** Nine units selected from Geography 378, 401, 409, 504-511, 545, and three or four units selected from methods courses Geography 380-385, 484, 488, 581-588.

**Urban and Regional Analysis:** Nine units selected from Geography 353-358, 554-559, and three or four units from either methods or regional courses Geography 321-337, 380-385, 484, 488, 581-588.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

**Geographic Information Science Certificate**

The purpose of the program is to prepare students to acquire, manage, and visualize geospatial data in public and private organizations. Students must apply for admission to the program before the completion of 12 certificate units and must complete the required units with a 2.5 grade point average.
The certificate requires 27 units distributed between the Departments of Geography and Computer Science as follows: 12-15 units selected from Geography 381, 484, 488, 582, 584, 585, 588 and 12-15 units selected from Computer Science 107, 108, 220, 310, 320, 503, 514, 520, 535, 551, 575. Courses with relevant content may be substituted for the geography and computer science courses with the approval of the certificate adviser. Courses in the certificate may be counted toward the major in geography but may not be counted toward the minor.

* Additional prerequisites required for this certificate.

Courses (GEOG)

LOWER DIVISION COURSES

101. Principles of Physical Geography (3) I, II (CAN GEOG 2)
Principles underlying the fundamental nature and dynamics of the physical world: the atmosphere, hydrosphere, biosphere, lithosphere, and their systematic spatial relationships.

101L. Physical Geography Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Geography 101.
Practical exercise and observation in map analysis, weather elements, climatic regions, and the earth's landform features. Designed to supplement Geography 101.

102. Principles of Cultural Geography (3) I, II (CAN GEOG 4)
Introduction to cultural geography, covering the elements of culture, such as technology, language, religion, political organization, methods of livelihood, settlement patterns and population, and the regional distribution of these elements over the earth. Field trips may be arranged.

103. Principles of Meteorology (3) I, II
The composition, structure, and circulation of the atmosphere, including elementary theory of storms and other weather disturbances.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new context. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES

(Intended for Undergraduates)

312. Culture Worlds (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences.
Geographical characteristics and development of major cultural realms of the world. Analysis of spatial components of contemporary conflict within and between these regions.

321. United States (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors. Recommended: Geography 101 or 102.
Systematic and regional analysis of physical and cultural landscapes of the United States.

323. Middle America (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors. Recommended: Geography 101 or 102.
The land and peoples of Mexico, Central America, and the islands of the Caribbean; a survey of the resources, economies, and trade of the region. Field trips may be arranged.

324. South America (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors. Recommended: Geography 101 or 102.
The physical regions and human geography of South America, including the history of colonization and the exploitation of resources.

335. Europe (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors. Recommended: Geography 101 or 102.
Systematic analysis of the geographic bases of modern European life. Regional investigation of countries of Europe except the Soviet Union.

337. Republics of the Former Soviet Union (3) I
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors. Recommended: Geography 101 or 102.
Ethnic composition, industrial and agricultural resources, demographics, and environmental management in this region, with an emphasis on the various cultural regions.

353. Location of Economic Activity (3)
Prerequisite recommended: Geography 101 or 102.
International arrangement and interrelationship of resources, production, exchange and consumption; principles and theory in industrial location; world trade and economic development selecting favorable locations for capital investments, determining growth potential of service and market areas, meeting environmental impact requirements.

354. Geography of Cities (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors. Recommended: Geography 101 or 102.
Survey of the location, function and spread of cities; the spatial and functional arrangement of activities in cities, leading to an analysis of current urban problems; sprawl, city decline, metropolitan transport. Field trips may be arranged.

358. Transportation Geography (3) I
Prerequisite recommended: Geography 101 or 102.
The spatial distribution of transportation networks and commodity movement and their relationship to the distribution of economic activity.

370. Environmental and Natural Resource Conservation (3) I, II
Prerequisites: Geography 101 or 102; and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors. Quality of environmental and natural resources within changing human and natural systems: pollution problems; preservation of open space, habitats, and wilderness; and conservation of natural resources.

378. Environmental Physiography (3)
Prerequisites: Geography 101 and Mathematics 121 or 150.
Introduction to environmental physiographic dynamics. Assessment of man's role in these dynamics and their effect on urban and rural land use, including such topics as induced erosion, landslides, and flooding.

380. Map Investigation (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Geography 101 or 102.
Use of the map as an analytical tool in geography. History of developments in cartography.

381. Maps and Graphic Methods (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Geography 101 or 102.
The art and science of creating graphs and maps as media for describing and analyzing geographic phenomena. Laboratory instruction and practice in cartographic techniques with emphasis on presenting quantitative data.
385. Spatial Data Analysis (3) I, II
Prerequisites: Geography 101 or 102; Statistics 250 or comparable course in statistics.
Analysis of spatially distributed data including computer applications. Spatial sampling, descriptive statistics for areal data, inferential statistics, use of maps in data analysis.

401. Physiography (3)
Prerequisite: Geography 101.
Morphology and genetic interpretation of the relief features of the earth's surface.

409. Global Climate Change (3)
Prerequisite: Geography 101 or 103.
Global climate system and feedbacks with biosphere. Past climates and potential future changes, including changes in greenhouse gases, ozone depletion and acid rain. Predictions and uncertainty regarding changes including natural and anthropogenic causes.

484. Geographic Information Systems (3)
Two lectures and three hours of laboratory.
Prerequisite: Three units from Geography 380, 381, 488, or from computer programming.
Procedures for encoding, storage, management, and display of spatial data; theory of computer-assisted map analysis; examination of important geographic information systems.

488. Remote Sensing of Environment (4) I
Three lectures and three hours of laboratory.
Prerequisite: Geography 101. Recommended: Physics 180A-180B.
Techniques for acquiring and interpreting remotely sensed data of environment. Electromagnetic radiation processes, aerial photographic systems, and human interpretation of aerial and satellite imagery. Geographic analysis of selected terrestrial, oceanographic, and atmospheric processes and resources.

496. Selected Studies in Geography (3)
Prerequisite: Six units in geography.
Critical analysis of problems within a specific field of the discipline. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units. Field trips may be arranged.

498. Senior Thesis (3)
Prerequisite: An overall grade point average of 3.0 and consent of department.
A written thesis based on an individual research project.

499. Special Study (1-3) I, II
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

504. Coastal and Submarine Physiography (3)
Prerequisites: Geography 101 and Mathematics 121 or 150.
Analysis of marine waves, of their modification in shallow waters, of coastal currents and tides. Interpretation of coastal and submarine relief in relation to environmental processes and their modification by humans. Field trips may be arranged.

507. Geography of Natural Vegetation (3) I, II
Prerequisite: Geography 101.
The natural vegetation associations of the world, their distribution, classification and development, including relationship to human activities. Field trips may be arranged.

508. Environmental Climatology (3) I
Prerequisites: Geography 103; Mathematics 121 or 150.
Interaction between the atmosphere and earth surface. Solar and thermal radiation, turbulent heat transfer, soil heat transfer. Change in the atmosphere due to natural variations and human activity. Impacts on the environment.

509. Regional Climatology (3) II
Prerequisite: Geography 103.
The causes of climatic types as they occur throughout the world. Principles of several climatic classifications.

511. Hydroclimatology (3)
Prerequisites: Geography 101 or 103 and Mathematics 121 or 150.
Hydrologic cycle, energy and mass fluxes from the earth to the atmosphere and land-atmosphere interactions. Agricultural and hydrologic significance of spatial variability of energy and mass fluxes.

545. Arid Lands (3)
Prerequisites: Geography 101 and 370; Biology 100 or 201.

554. World Cities: Comparative Approaches to Urbanization (3) II
Prerequisite: Geography 354.
Worldwide trends in urbanization. Case studies of selected cities from various culture areas with focus on international variations in city structure and urban problems.

556. Location and Spatial Structure of Cities (3)
Prerequisite: Geography 354 or three units of upper division coursework in a related field.
Principles and characteristics of urban growth and settlement; the internal structure and functioning of urban centers; spatial models of urban land use; growth management, transportation problems, and sociopolitical urban problems. Field trips may be arranged.

559. Urban Transportation Geography (3)
Prerequisite: Three units of upper division urban or transportation coursework in geography or related field.
Urban transportation networks and their effects, past, present and future, on the economy and physical structure of the urban region. Field trips may be arranged.

570. Environmental Resource Conservation (3)
Prerequisite: Geography 370.
Management of environmental and natural resources. Effective programs and the institutional frameworks in which they occur.

572. Land Use Analysis (3) II
Prerequisite: Geography 370.
Problems of maintaining environmental quality in the process of land conversion from rural to urban uses with emphasis on land capability and suitability studies. Field trips may be arranged.

573. Population and the Environment (3)
Prerequisite: Geography 102.
Population distribution, growth, and characteristics as they relate to environmental degradation, both as causes and consequences. Roles of women, sustainable development, carrying capacity, optimum population, and policy initiatives in relationships between population and environment.

574. Water Resources (3) I
Prerequisite: Geography 370.
Occurrence and utilization of water resources and the problems of water resource development. Field trips may be arranged.

575. Geography of Recreational Land Use (3) I, II
Prerequisite: Geography 101 or 102.
Importance of location and environment in the use, management, and quality of recreation areas. Field trips may be arranged.
577. Geography of the National Parks (3)  
Prerequisite: Geography 370.  
Human and land relationships in the national parks of the United States. Emphasis on problems arising from the preservation and use mandate under which parks are managed.

581. Cartographic Design (3)  
Two lectures and three hours of laboratory.  
Prerequisite: Geography 381.  
Computer-assisted map production techniques with emphasis on map design and color use.

582. Automated Cartography (3)  
Two lectures and three hours of laboratory.  
Prerequisite: Geography 380, 381, or 484.  
Computerized methods of graphically presenting and analyzing spatial data; examination of existing mapping software and digital data sources.

584. Geographic Information Systems Applications (3) II  
Two lectures and three hours of laboratory.  
Prerequisite: Geography 384, 582, or 588.  
Conceptualization, completion, and implementation of geographic information systems (GIS) at local, regional, national, and global levels. Spatial analysis and modeling with GIS. GIS in planning, management, and research.

585. Quantitative Methods in Geographic Research (3)  
Prerequisite: Geography 385.  
Application of statistical techniques to geographic research including simple regression and correlation, multiple regression, classification, factor analysis, and computer applications.

586. Qualitative Methods in Geographic Research (3) II  
Prerequisite: Geography 102.  
Application of qualitative techniques to geographic research including reflexive survey design and in-depth interviews, non-obtrusive methods, landscape interpretation, textual methods and discourse analysis, feminist criticism, and humanistic and historical materialist perspectives on measurement.

588. Intermediate Remote Sensing of Environment (4) II  
Three lectures and three hours of laboratory.  
Prerequisites: Geography 385 and 488.  
Multispectral remote sensor systems and interpretation of imagery from nonphotographic systems. Computer-assisted image processing. Geographic analysis of selected terrestrial, oceanographic, and atmospheric processes.

595. Geographic Internship (3) I, II  
Prerequisites: Six upper division units in geography and consent of instructor.  
Students will be assigned to various government agencies and industry and will work under the joint supervision of agency heads and the course instructor. Maximum credit three units.

596. Advanced Topics in Geography (1-3)  
Prerequisite: Six upper division units in geography.  
Advanced special topics in geography. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
A geology graduate may be employed as one of the following professionals: hydrologist, geophysicist, geochemist, environmental scientist, oceanographer, teacher, research technician, geological surveyor, paleontologist, energy and resource explorer, and resource planner.

Geologists are primarily employed by private corporations, including petroleum, mining, construction, quarry, hydrology, and engineering geology companies and by government agencies, such as the U.S. Geological Survey, the U.S. Bureau of Reclamation, the California Department of Conservation, and regional planning offices. Students with graduate degrees are sought for teaching positions in secondary schools, community colleges, and universities.

**Geological Sciences Major**

**With the B.S. Degree in Applied Arts and Sciences**

(Major Code: 19141)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” All required upper division courses must be taken for letter grades only, not credit/no credit.

Courses to satisfy the requirement of 36 or more upper division units in the major may be selected from upper division geological sciences courses not explicitly excluded. Students may petition the department to include courses from other disciplines to complete the upper division major requirement.

A minor is not required with this major.

**General Geology Program**

**Preparation for the Major.** Geological Sciences 105, 200, 221, and 224; Biology 100, 100L, or 101, 101L; Chemistry 200, 201; Mathematics 150; Physics 180A-180B and 182A-182B; Statistics 250. (45 units)

**Recommended:** Geological Sciences 100, 101; Mathematics 151 and 252 and the Physics 195 series are highly recommended for those students interested in the more quantitative aspects of geology.

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 37 upper division units in approved courses to include Geological Sciences 300, 306, 307, 498A, 498B, 508, 536, 537, and either 525 or 530 and 530L; at least two of the following: Geological Sciences 501, 502, 505, 514, 520, 521, 540, 550, 551; plus three upper division units of departmentally approved courses.

**Emphasis in Engineering Geology**

**Preparation for the Major.** Geological Sciences 105, 200, 221, 224; Biology 100; Chemistry 200, 201; Engineering Mechanics 200; Mathematics 150, 151, 252; Physics 195, 196, 197; Statistics 250. (56 units)

**Recommended:** Civil Engineering 218; Physics 195L, 196L, 197L.

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.
Geological Sciences

**Major.** A minimum of 37 upper division units in approved courses to include Geological Sciences 300, 306, 307, 498B, 508, 536, 551; Civil Engineering 301, 462, 463; one of the following: Geological Sciences 505, 514, 530 and 530L, 560, or Civil Engineering 465.

Because of the preparation in mathematics, physics, and geology called for in this emphasis, the College of Engineering will not require majors in this emphasis to take the prerequisites specified for Civil Engineering 301, 462, and 463.

**Emphasis in Geochemistry**

**Preparation for the Major.** Geological Sciences 200, 221, 224; Biology 100 or 101; Chemistry 200, 201, 231, 251; Mathematics 150, 151; Physics 195, 196, 197; Statistics 230. (54 units)

**Recommended:** Geological Sciences 105, 307; Chemistry 431; Physics 195L, 196L, 197L; Mathematics 252.

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 36 upper division units in approved courses to include Geological Sciences 300, 306, 498B, 501, 530L, 536, 551, 552; Chemistry 410A-410B, 571.

**Emphasis in Geophysics**

**Preparation for the Major.** Geological Sciences 200, 221, 224; Biology 100 or 101; Chemistry 200, 201; Mathematics 150, 151, and 252; Physics 195, 195L, 196, 196L, 197L. Engineering 280 must be taken if students select Engineering 510 in the major. (48-51 units)

**Recommended:** Geological Sciences 105, Physics 197L, Statistics 250.

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 39 upper division units in approved courses to include Geological Sciences 300, 306, 307, 498B, 532, 533, and 560; Mathematics 342A and 342B, or Engineering 510; Physics 311, 350; Physics 400A or Electrical Engineering 340; plus three upper division units of approved courses in geological sciences at the 500 level.

**Emphasis in Hydrogeology**

**Preparation for the Major.** Geological Sciences 105, 200, 221, 224; Biology 100; Chemistry 200, 201; Mathematics 150, 151; Physics 195, 196, 197; Mathematics 252 or Chemistry 231; Statistics 250. (53 units)

**Recommended:** Physics 195L, 196L, 197L.

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 36 upper division units in approved courses to include Geological Sciences 300, 306, 498B, 514, 530, 530L, 532, 536, 551, 552; Mathematics 342A-342B, or Chemistry 571; plus three to six upper division units of departmentally approved courses.

**Emphasis in Marine Geology**

**Preparation for the Major.** Geological Sciences 105, 200, 221, 224; Biology 100 or 101; Chemistry 200, 201; Mathematics 150, 151, 252; Physics 195, 195L, 196, 196L, 197L. (53 units)

**Recommended:** Geological Sciences 537. A foreign language.

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 36 upper division units in approved courses to include Geological Sciences 300, 306, 307, 498B, 530, 530L, 536, 540, 545; and two of the following courses: Geological Sciences 501, 505, 537; Biology 315; plus four upper division units of departmentally approved courses. Recommended: Chemistry 410A-410B for students anticipating postgraduate studies.

**Emphasis in Paleontology**

**Preparation for the Major.** Geological Sciences 105, 200, 221, 224; Biology 201, 202, 215; Chemistry 200, 201; Mathematics 150 or 121 and 122 (alternative of 121 and 122 should not be selected by students planning academic work beyond the B.S. degree); Physics 180A-180B and 182A-182B. (49-50 units)

**Recommended:** Geological Sciences 307.

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 38 upper division units in approved courses to include Geological Sciences 300, 306, 498A, 498B, 501, 508, 516, 536, 537; Biology 515, 517; plus three upper division units of departmentally approved courses.

**Geological Sciences Major**

In preparation for the Single Subject Teaching Credential in Science/Geological Sciences

**With the B.S. Degree in Applied Arts and Sciences (Major Code: 19141)**

One of the requirements for acceptance into the College of Education’s post-baccalaureate credential program is to either pass the appropriate PRAXIS and SSAT examinations or complete an approved academic program. The single subject teaching credential in science subject matter preparation program described below satisfies the academic requirements for a student planning to teach integrated science and geosciences at the secondary level. Entrance into the post-baccalaureate credentialing program in part requires certification of subject matter competency by this department. This certification requires completion of the academic program with the required grades, submission of a satisfactory portfolio, and the recommendation of the department. Contact the subject matter preparation program adviser. In addition, all candidates for a Single Subject Teaching credential at San Diego State University with the Cross-Cultural, Language, and Academic Development (CLAD) emphasis must complete the requirements outlined in the catalog under Teacher Education or Policy Studies. Contact the Center for Careers in Education or the Policy Studies in Language and Cross-Cultural Education Department for up-to-date information on prerequisites.

**General Education Requirements.** Students will complete a minimum of 49 units in General Education to include a minimum of nine upper division units. No more than 12 units may be used for General Education credit from any one department or academic unit. No more than 7 units from one department can be used in Sections II, III, and IV combined (Foundations, American Institutions, and Explorations).

I. Communication and Critical Thinking (9 units)

You may not use Credit/No Credit grades in this section.

1. Oral Communication (3 units) to be satisfied by Africana Studies 140, Chicana and Chicano Studies 111A, or Communication 103.
2. Composition (3 units) to be satisfied by Africana Studies 120, Chicana and Chicano Studies 111B, or Rhetoric and Writing Studies 100.
3. Intermediate Composition and Critical Thinking (3 units) to be satisfied by Africana Studies 200 or Rhetoric and Writing Studies 200.

II. Foundations (28 units)

A. Natural Sciences and Quantitative Reasoning (13 units):
   1. Physical Sciences (6 units) to be satisfied by Chemistry 200 and Physics 180A or 195.
   2-3. Life Sciences and Laboratory (4 units) to be satisfied by Biology 100 and 100L.
   4. Mathematics/Quantitative Reasoning (3 units) to be satisfied by Mathematics 150.

B. Social and Behavioral Sciences (6 units).

C. Humanities (9 units):
   Complete a course in each of the following four areas (1. Literature; 2. Art, Classics, Humanities, Music, and Theatre; 3. Philosophy and Religious Studies; 4. Foreign Language) in the Humanities section of the Foundations component of the regular General
Education program. Refer to General Education course offerings in the Graduation Requirements section of the catalog. One semester of a foreign language is recommended.

III. American Institutions

Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

IV. Explorations (9 units)

A. Upper division Social and Behavioral Sciences (3 units). Linguistics 420 is recommended.

B. Upper division Humanities to be satisfied by History 441 (3 units).

C. Upper division Humanities (3 units). A course in cultural diversity is required. Refer to Part C of Explorations under the General Education requirements section in the catalog.

The Major

Preparation for the Major. Africana Studies 140, Chicana and Chicano Studies 111A, or Communication 103; Africana Studies 120, Chicana and Chicano Studies 111B, or Rhetoric and Writing Studies 100; Africana Studies 200 or Rhetoric and Writing Studies 200; Astronomy 101, 109; Biology 100, 100L; Chemistry 200, 201; Geophysics 103; Geological Sciences 105, 200, 221, 224; Mathematics 150; Physics 180A, 180B, 182A, 182B OR Physics 195, 195L, 196, 196L, 197, 197L; Statistics 250. (61-66 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 units to include Geological Sciences 300, 303 (allowed only in this version of the major in Geological Sciences), 306, 498A, 498B, 501, 536, 537; Biology 319; Oceanography 541; and six units selected from Geological Sciences 307, 351, 505, 508, 514, 520, 521, 530, 540, 545; plus one departmentally approved upper division unit.

Additional Requirements for Subject Matter

Preparation Certification

Satisfactory Grades. At most one course with a C- or lower among the courses listed under Preparation for the Major, and at most one course with a C- or lower among the courses listed under the Major. If a course is repeated, the highest grade will count.

Formative Assessment. Completion of a satisfactory, preliminary portfolio two semesters prior to graduation. Contact the subject matter preparation adviser for information.

Summative Assessment. Completion of a satisfactory, final portfolio, and a positive recommendation from a committee consisting of the senior project supervisor, the Department of Geological Sciences chair, and the subject matter preparation program adviser.

Geological Sciences Minor

The minor in geological sciences consists of a minimum of 20 units in geological sciences, twelve of which must be in upper division courses. Courses include Geological Sciences 100, 101, 105; and twelve units selected from Geological Sciences 301, 302, 303, 304, 306, 307, 351, 502, 505, 514, 536, 537. In addition, Geological Sciences 200, 221, and 224 are appropriate for geology minors.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Oceanography Minor

For a listing of requirements refer to the section of this catalog on Oceanography.

Courses

LOWER DIVISION COURSES

100. Planet Earth (3) I, II
Earth’s global systems. Plate tectonics, earthquakes, and volcanoes; evolution of our planet and life through geologic time; economic resources including fossil fuels and precious minerals; agents of erosion that shape the land.

101. Dynamics of the Earth Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Geological Sciences 100.
Hands-on experience with land forms, rocks, minerals, topographic maps, and aerial photographs. Includes demonstrations and field trips. Designed to accompany and augment Geological Sciences 100.

105. Historical Geology (4) I, II
Three lectures and three hours of laboratory. Arrangement for field study during the semester.
Prerequisites: Geological Sciences 100 and 101.
Theories of earth origin, and the evolutionary history of the earth as traced through rock and fossil records. Consideration of the paleontologic sequence.

200. Geologic Inquiry and Problem Solving (3) I
Two lectures and three hours of laboratory.
Scientific thought process using real problems addressed by student research in field and laboratory. Includes written report and oral presentation.

221. Mineralogy (4) I
Three lectures and three hours of laboratory.
Prerequisites: Credit or concurrent registration in Geological Sciences 200; high school chemistry and trigonometry, or credit or concurrent registration in college chemistry and trigonometry.
Practice in determination of common minerals; their geologic environment, utilization, and economic significance. Introduction to optical techniques in mineral identification.

224. Petrology (4) II
Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 221.
The origin, occurrence, identification, and classification of rocks in hand specimen. Use of optical techniques in mineral identification.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES

(Intended for Undergraduates)

300. Computer Applications in Geology (3)
Two lectures and three hours of laboratory.
Programming and applications of software fundamentals to geological sciences. Applications software will include DOS, Windows, and Macintosh operating systems, word processing, spreadsheets, graphing, contouring, and drawing. Introduction to Internet and overview of geology-specific software.

301. Geology of National Parks and Monuments (3) I, II
Prerequisites: Geological Sciences 100 or completion of the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning.
Geology of a group of national parks and monuments, selected for their geological significance, scenic beauty, and visitor popularity. Not acceptable for a major in geological sciences.
302. **Fossils: Life Through Time** (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning.

Traditional and recently discovered aspects of history of life on earth. Topics from the origin of life to extinctions. Not acceptable for a major in geological sciences.

303. **Natural Disasters** (3) I, II
Prerequisite: Geological Sciences 100 or completion of the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning.

Geologic processes that have dramatically affected the human race: earthquakes, volcanoes, landslides, and floods. Not acceptable for a major in geological sciences.

304. **Planetary Geology** (3)
Prerequisite: Completion of the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning. Recommended: Geological Sciences 100.

Structure, evolution, and surface features of planets from a geological point of view. Insights gained into origin and evolution of planetary bodies provide greater understanding of how planet earth operates and why it is unique. Not acceptable for a major in geological sciences.

306. **Structural Geology and Field Methods** (5) I
Two lectures and three hours of laboratory and six weekends in the field.
Prerequisites: Geological Sciences 224, 300; algebra, trigonometry and at least high school physics. Highly recommended: First semester college physics.

Integrates structural and introductory field geology. Principles, causes, and mechanisms of rock deformation combined with field study. Graphical, computer, and analytical techniques for working with folds and faults are applied in the field. Field observations are presented in geologic maps, cross sections, and reports.

307. **Geophysics and Field Methods** (4) II
Two lectures and three hours of laboratory and a minimum of three weekends in field during semester.
Prerequisites: Geological Sciences 306; Mathematics 150; Physics 195 or 180A.

Principles and field studies of gravity, magnetic, and seismic techniques applied to structure, dynamics, and shallow environment of the earth. Computer-aided data reduction and interpretation.

351. **Environmental Hydrology** (3)
Prerequisites: Geological Sciences 100 or Geography 101 and completion of the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning.

Movement of fresh water on earth. Hydrologic cycling of water from precipitation, runoff, infiltration, stream and groundwater flow to the ocean. Problems caused by over-use of water resources, urbanization, and water pollution examined with case studies. Not acceptable for a major in geological sciences, emphasis in hydrogeology.

496. **Selected Topics in Geology** (1-4)
Prerequisite: Consent of instructor.

Selected topics in geology and related earth sciences. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

498A. **Senior Seminar** (1 Cr/NC) I, II
Prerequisite: Senior standing in geological sciences.
Preparation of written and oral scientific reports and attendance at departmental seminars.

498B. **Senior Thesis** (2) I, II
Prerequisite: Consent of instructor.

Individual research project, written thesis, and oral presentation done under supervision of professor chosen by student.
530. Geochemistry (2) I  
Prerequisites: Geological Sciences 224; Chemistry 201; Mathematics 121 and 122, or 150.  
Relationship of basic chemical principles and isotopic methods to geologic phenomena and environments. Applications to geologic exploration problems, contaminant transport, chemical weathering, and evolution of atmosphere and ocean chemistry.

530L. Geochemistry Laboratory (1) I  
Three hours of laboratory.  
Prerequisite: Credit or concurrent registration in Geological Sciences 530.  
Laboratory methods for determination of chemical concentrations in waters, sediments, and rocks, as well as x-ray diffraction methods for mineralogy.

532. Environmental Geophysics (3) I  
Two lectures and three hours of laboratory.  
Prerequisites: Mathematics 150 and Statistics 250; two semesters of physics. Recommended: Geological Sciences 307 and 551.  
Applications of geophysical methods to hydrologic investigations, including d.c. resistivity, electromagnetics, radar, seismology, and magnetics.

533. Geophysical Analysis (3) I  
Two lectures and three hours of laboratory.  
Prerequisites: Geological Sciences 307, Mathematics 252, Physics 197. Recommended: Physics 195L, 196L, 197L.  
Analog and digital data collection, processing, modeling and error estimation. Computer-aided examples and field tests from seismics, gravity, magnetics, and electromagnetics including magnetotellurics.

536. Sedimentology and Lithostratigraphy (3) I  
Two lectures and three hours of laboratory.  
Prerequisites: Geological Sciences 105 (not required but recommended for Emphases in Geochemistry and Geophysics) and 224.  
Sedimentologic description and interpretation of the textures and structures of sediments and sedimentary rocks. Stratigraphic analysis of stratal succession, age relationships, and correlation on local and global scales.

537. Paleontology and Biostratigraphy (3) II  
Two lectures and three hours of laboratory.  
Prerequisites: Geological Sciences 105 and either Biology 100-100L or 101-101L, and Geological Sciences 536.  
Concepts and methods of paleontology and biostratigraphy. Introduction to fossil record of invertebrate taxa and applications to stratigraphic record. Study of carbonate rocks.

540. Marine Geology (3)  
Prerequisites: Geological Sciences 105, and either Geological Sciences 224, 202, 204, or 537.  
Plate tectonic origin and history of the ocean basins. Formation and distribution of sediments in response to biologic, chemical, and geologic processes.

545. Descriptive Physical Oceanography (3)  
Prerequisites: Mathematics 121 and 122, or 150; Physics 180A or 195.  
Physical environment of oceans including heat, water, and salt budgets, physical properties of sea water, sea ice, air-sea relationships, effects of light and sound, distribution of temperature, salinity, density, surface current, deep circulation, water mass formation, instruments and methods of study.

550. Engineering Geology (3)  
Two lectures and three hours of laboratory.  
Prerequisite: Geological Sciences 306.  
Relationships between geologic processes and works of humans. Topics include rock and soil mechanics, ground water flow, slope stability, seismicity, land subsidence, and evaluation of geologic materials with respect to dam sites, tunnel alignments, and building foundations.

551. Hydrogeology (3) I  
Two lectures and three hours of laboratory.  
Prerequisites: Geological Sciences 306 and Mathematics 150.  
Theory of ground water flow. Exploration for and development of the ground water resource. Aquifer tests, water quality, and water resource management. Occurrence of water in alluvial, sedimentary, volcanic, plutonic, and metamorphic terrains.

552. Field and Laboratory Techniques in Hydrogeology (4) II  
One lecture and nine hours of laboratory.  
Prerequisites: Geological Sciences 551 and credit or concurrent registration in Geological Sciences 530.  
Use and application of common field and laboratory techniques in hydrogeology. Exercises include drilling, coring, and sediment sampling, aquifer testing, unsaturated zone monitoring, fluid level measurement, tracer testing, laboratory measurement of permeability, capillarity, and analysis of inorganic and organic constituents in groundwater.

560. Earthquake Seismology (3)  
Two lectures and three hours of laboratory.  
Prerequisites: Mathematics 252, Physics 197. Recommended: Mathematics 342A.  
Theory of seismic wave excitation, propagation, and recording. Methods of seismogram interpretation and analysis. Applications to tectonics and earthquake hazard analysis.

596. Advanced Topics in Geology (1-4)  
Prerequisite: Consent of instructor.  
Advanced special topics in the geological sciences. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
German
In the College of Arts and Letters

Faculty
Emeritus: Boney, Dunkle, Lawson, Paulin, Wulbern
Chair: Schorr
Professor: Skwara
Associate Professor: Wauchope
Assistant Professor: Yeomans
Lecturer: Brayton

Offered by the Department of European Studies
Major in German with the B.A. degree in liberal arts and sciences.
Emphasis in German studies.
Teaching major in German for the single subject teaching credential in foreign languages.
Major in European studies with emphasis in German. See European Studies.
Major in international business, with emphasis in German. See International Business.
Minor in German.

The Major
The German language is widely spoken in many countries today. It is also a primary language of scholarship in such diverse fields as chemistry, medicine, military science, history, linguistics, art, physics, electronics, photography, and the natural sciences.

Students who major in German will gain proficiency in German language skills, and the department offers a broad variety of courses designed to prepare majors for a number of careers after graduation. A major in German is also a good preparatory curriculum for graduate programs in such areas as international trade, international law, librarianship, public administration, and journalism.

A knowledge of German is a valuable asset in finding positions as interpreters and translators employed by the federal government, the United Nations, international conferences, trade councils, and publishers, as well as with internationally oriented companies, government agencies, the press corps, and the tourism industry.

The German major with an emphasis in German studies offers extensive preparation in the German language while providing students with a broad, interdisciplinary understanding of the history, culture, and society of the countries of Central Europe where German is spoken. This emphasis provides excellent preparation for careers as area specialists for private businesses and agencies or for positions at international organizations, with the federal government, or in cultural institutions.

Students majoring in German are strongly encouraged to participate in California State University International Programs (CSU-IP) and other approved study abroad programs in German-speaking countries.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

German Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 11031)
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in German courses can apply to the degree.

Students majoring in German must complete a minor in another field to be approved by the departmental adviser in German.

Preparation for the Major. German 100A, 100B, 200, 205A, 205B. (21 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through coursework for preparation for the major.

Major. A minimum of 24 upper division units to include German 300, 301, 310, 420, and 12 units in upper division German which may include Comparative Literature 571 (with approval of department).

Emphasis in German Studies
No minor is required with this emphasis.

Preparation for the Major. German 100A, 100B, 200, 205A and 205B. (21 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through coursework for preparation for the major.

Major. A minimum of 30 upper division units to include German 300, 301, 420; six units of electives in German; 12 units (no more than six units in any one department) selected from Art 558, Economics 330, Geography 336, History 440, 517, Humanities 320, 404, Philosophy 414, Political Science 356; and three units of electives selected with approval of department adviser.

German Major
In preparation for the Single Subject Teaching Credential in Foreign Languages
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 11031)
All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under Policy Studies or Teacher Education. For students completing the single subject teaching credential program, no more than 48 units in German courses can apply to the degree.

This major may be used by students in policy studies or teacher education as an undergraduate major for the B.A. degree in liberal arts and sciences. A minor in another field approved by the departmental adviser in German is required for the degree.
Preparation for the Major. German 100A, 100B, 200, 205A, and 205B (21 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through coursework for preparation for the major.

Major. A minimum of 27 upper division units in German to include German 300, 301, 304, 310, 420, 505, and nine upper division units in German.

Proficiency Examination: Before taking a student teaching assignment in German, the candidate for the credential may be required to pass an oral and written proficiency examination in the language, administered by the Department of European Studies. The candidate should consult the chair of the department.

German Minor

The minor in German consists of a minimum of 15 units in German, nine of which must be in upper division courses.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Foreign Language Requirement for the B.A. Degree in Liberal Arts and Sciences

Students electing the study of German to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete German 200, 205A, or 205B or the equivalent level of achievement. The usual sequence of coursework is German 100A, 100B, 200, and 205A, 205B. Refer to section of catalog on “Graduation Requirements” for additional ways to satisfy competency.

High School Equivalents

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

Secondary school language courses can be used as follows:

1. The first two years of high school level language count as the equivalent of the first semester of a college course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.

2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.

3. Four years of high school level language count as the equivalent of three college semesters or five college quarters, thus fulfilling the foreign language requirement.

Courses (GERMN)

LOWER DIVISION COURSES

Native speakers of German will not receive credit for taking lower division courses in German except with advance approval from the department.

All lower division courses in German are taught in German.

No credit will be given for lower division courses taken after successfully completing any upper division German course taught in German.

No credit will be given for German 100A, 100B, 205A, 205B taken out of sequence. German 200 may be taken concurrently with German 205A or 205B.

100A. First Course in German (5) I, II (CAN GERM 2) (100A + 100B: CAN GERM SEQ A)

Pronunciation, oral practice, readings on German culture and civilization, minimum essentials of grammar. Not open to students who have completed three years of high school German unless the first course was completed five or more years ago.

100B. Second Course in German (5) I, II (CAN GERM 4) (100A + 100B: CAN GERM SEQ A)

Prerequisite: German 100A or two years of high school German. Continuation of German 100A. Not open to students who have completed four years of high school German unless the fourth course was completed five or more years ago.

200. German for Oral Proficiency (3)

Three lectures and one hour of laboratory.

Prerequisite: German 100B or three years of high school German. Practice in spoken language; use of modern German through study of cultural materials for proficiency in oral communication.

205A. Third Course in German (4)

Four lectures and one hour of laboratory.

Prerequisite: German 100B or three years of high school German. Continuation of German 100B. Practice of all language skills at intermediate level. Not open to students with credit in German 201 and 202.

205B. Fourth Course in German (4)

Four lectures and one hour of laboratory.

Prerequisite: German 205A. Practice of all language skills at intermediate level. Not open to students with credit in German 210.

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES (Intended for Undergraduates)

All upper division courses in German are taught in German unless otherwise stated.

300. Readings in Contemporary German Culture (3)

Prerequisites: German 200, 205B. Completion of the General Education requirement in Foundations II.C., Humanities required for non-majors.

Development of advanced proficiency in reading comprehension and oral communication through use of cultural materials.
301. Grammar and Composition (3)
Prerequisites: German 200, 205B; and completion of the General Education requirement in Foundations II.C., Humanities required for non-majors. **Proof of completion of prerequisites required:** Copy of transcript.
Grammar and stylistics; intensive writing practice; reports based on outside reading.

303. Business German (3)
Three lectures and one hour of laboratory.
Prerequisites: German 301 and completion of the General Education requirement in Foundations II.C., Humanities required for non-majors.
German language and culture within context of German business and economics. Extensive readings and listening comprehension exercises. Practice in both speaking and writing German.

304. Phonetics of Spoken German (3)
Three lectures and one hour of laboratory.
Prerequisites: German 200 and 205B.
Sounds and intonation of German.

310. Introduction to German Literature (3)
Prerequisites: German 301 and completion of the General Education requirement in Foundations II.C., Humanities required for non-majors.
Introduction to literary study in German, with selected readings representative of different periods and genres.

320. German Film (3)
Two lectures and two hours of activity.
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for non-majors.
Masterpieces of German film. Emphasis on social, political, and cultural changes in modern Germany. Taught in English.

420. Modern German Civilization (3)
Prerequisites: German 200 and 205B.
Culture of German-speaking countries in the nineteenth and twentieth centuries.

496. Experimental Topics (1-4)
Prerequisites: German 310 (for literary topics) or 301 (for linguistics topics).
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

499. Special Study (1-3) I, II
Prerequisites: Fifteen upper division units in the major with an average of B (3.0) or better and consent of instructor. **Proof of completion of prerequisites required:** Copy of transcript.
Individual study. Maximum credit six units.

**UPPER DIVISION COURSES**
(Also Acceptable for Advanced Degrees)

501. Translation (3)
Prerequisite: German 301.
Translation of a variety of texts from German to English and English to German.

505. Applied German Linguistics (3)
Prerequisite: German 301.
Linguistic study of modern German; integration of modern linguistic theory with the language classroom.

520. Modern German Literature (3)
Prerequisite: German 310.
Major authors and genres since Enlightenment.

530. Topics in German Literature (3)
Prerequisite: German 310.
Study of a movement, theme or genre of German literature, such as Romanticism, literature and film, literature of the Holocaust, women’s literature, literature of the German Democratic Republic in retrospect. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

596. Topics in German Studies (3)
Prerequisite: German 310 (for literary topics) or 505 (for linguistics topics). **Proof of completion of prerequisite required:** Copy of transcript.
Topics in German language, literature, or linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

**GRADUATE COURSES**
Refer to Bulletin of the Graduate Division.
Gerontology

In the College of Health and Human Services

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to the section of the catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Gerontology 350, 360, 370, 400A, 400B, 402, 520, 522; Psychology 350; Sociology 350 or 527; and six units selected with approval of the adviser from Anthropology 509; Child and Family Development 335; Communicative Disorders 580; Gerontology 496, 499, and 596 (when appropriate); Exercise and Nutritional Sciences 433; Psychology 456; Recreation 580; Social Work 420*; Sociology 528; Women's Studies 310, 521.

* Prerequisites waived.

Gerontology Minor

The minor in gerontology consists of a minimum of 18 units to include Psychology 350, Sociology 350 or 527; and 12 units selected from Gerontology 101, 350, 360, 370, 400A, 400B, 402, 499, 522, 596; Anthropology 509; Child and Family Development 496*; Communicative Disorders 580; Exercise and Nutritional Sciences 433; Recreation 580; Social Work 120, 420; Sociology 496*, and Women's Studies 521.

Additional prerequisites may be required for the courses in the minor.

Courses in the minor may not be counted toward the major or the certificate, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

* When relevant.

Certificate in Applied Gerontology
(Offered only in Extension)

This program is designed for persons working in the field of aging as well as those interested in obtaining employment in the aging field. Completion of the certificate program will enable participants to assume greater responsibility by broadening their knowledge of and skill in this specialty area. More specifically, the program is designed to provide the following:

1. A broad knowledge base in the bio-psycho-social aspects of aging.
2. Practical knowledge and skills in the application of this information towards services for older people.
3. Knowledge of government programs and program planning and evaluation techniques.
4. Knowledge of programs and services operating in local areas as well as gaps which exist in local programming.
5. Knowledge and skills needed to function in an advocacy capacity to improve services to the elderly.

Certificate Requirements:

1. Complete 18 semester units of coursework with a grade point average of 2.0 or better.
2. Complete coursework within four years after admission to the program.
3. Petition the College of Extended Studies for the certificate upon completion of 18 semester units.
Courses (GERO)

To be admitted to the program, students are expected to show by previous coursework and/or experience some evidence of potential for completing the academic program. Previous courses in gerontology taken at SDSU or at other universities will be considered for credit toward certification on an individual basis, but not to exceed nine units.

The center is responsible for the coordination of the certificate program in conjunction with the College of Extended Studies. Admission applications may be obtained from the College of Extended Studies. Applications may be submitted prior to entering the program or before the completion of nine semester units of coursework.

Students are required to submit an Open University Registration Form each semester to the College of Extended Studies.

Students accepted into the program will be assigned an adviser by the University Center on Aging.

Required Courses for the Certificate Program

A minimum of 12 semester units must be selected from the following five areas inclusive of the practicum:

I. Introduction to Gerontology
   Gerontology 101. Introduction to Human Aging (3)

II. Biological and Health Aspects of Aging
   Anthropology 509. Culture and Biological Aging (3)

III. Psychological Aspects of Aging
   Psychology 350. Abnormal Psychology (3)

IV. Sociological Aspects of Aging
   Gerontology 250. Intergenerational Issues and the Elderly (3)
   Gerontology 350. Social Policy and Aging (3)

V. Practicum
   Gerontology 400A or 400B. Practicum in Gerontology (3) (Cr/NC)

Elective Courses

A minimum of six semester units selected from the following:
   Gerontology 360. Minority and Ethnic Aging (3)
   Gerontology 370. Images of Aging in Contemporary Society (3)
   Gerontology 496. The Aging Network (3)
   Gerontology 499. Special Study (1-3)
   Gerontology 520. An Inside Look at Aging Programs–Program Analysis (3)
   Gerontology 596. Advanced Special Topics in Gerontology (1-4)
   Recreation 580. Leisure and the Aging Process (3)
   Women’s Studies 310. Women in Cross-Cultural Perspective (3)
   Women’s Studies 521. Life Cycles of Women (3)

Foreign Language Requirement for the B.A. Degree in Liberal Arts and Sciences

Students electing the study of Hebrew to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Hebrew 201 or the equivalent level of achievement. The usual sequence of coursework is Hebrew 101 (with 100), 102, 200, and 201. Refer to section of catalog on “Graduation Requirements” for additional ways to satisfy competency.

High School Equivalents

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

Secondary school language courses can be used as follows:
1. The first two years of high school level language count as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.
2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.
3. Four years of high school level language count as the equivalent of three college semesters or five college quarters, thus fulfilling the foreign language requirement.

Courses (HEBRW)

LOWER DIVISION COURSES

All lower division courses in Hebrew are taught in Hebrew.

No credit will be given for Hebrew 101, 102, 201 taken out of sequence.

100. Hebrew Alphabet (1)
Study of Hebrew alphabet; practice with reading and comprehending whole texts (without vowels), as well as pronouncing. Intended for students of Hebrew 101 who have not previously studied the alphabet. May also be taken without Hebrew 101. Does not satisfy foreign language requirement.

101. Elementary Hebrew I (3)
Three lectures and one hour of laboratory. Beginning reading, writing, and conversational skills. Essentials of grammar. Not open to students who have completed three years of high school Hebrew unless the third course was completed five or more years ago.

102. Elementary Hebrew II (3)
Three lectures and one hour of laboratory. Prerequisite: Hebrew 101. Continuation of Hebrew 101. Not open to students who have completed four years of high school Hebrew unless the fourth course was completed five or more years ago.

200. Reading Classical Hebrew (1)
Prerequisite: Knowledge of the Hebrew alphabet. Continuation of Hebrew 100. Reading in Hebrew of short selections from Hebrew Bible and Prayerbook, study of songs, reading of simple stories. Focus on learning Hebrew roots and affixes through readings. Does not satisfy foreign language requirement.

201. Intermediate Hebrew (4)
Four lectures and one hour of laboratory. Prerequisites: Hebrew 102 and 200. Continuation of Hebrew 102. Applications of grammar and reading skills. Additional practice in conversation.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit eight units.

UPPER DIVISION COURSES
(Intended for Undergraduates)

All upper division courses in Hebrew are taught in Hebrew unless otherwise stated.

330. Hebrew Discourse and Literature (3)
Prerequisites: Hebrew 201 and completion of the General Education requirement in Foundations II.C., Humanities. Varied types of modern discourse, and selected highlights of Hebrew literature throughout the ages, to be read in Hebrew. Use of variety of language modalities, including film, drama, translation, and student reports.

496. Topics in Hebraic Studies (1-4)
Topics in Hebraic language, literature, culture, and linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit eight units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Individual study. Maximum credit six units.
History
In the College of Arts and Letters

Faculty
Chair: McDean
The Dwight E. Stanford Chair in American Foreign Relations: Cobbs Hoffman
The Nasatir Professor of Modern Jewish History: Baron
Professors: Baron, Cheek, Chu, Cobbs Hoffman, Davies, Dunn, Ferraro, Hamilton, Heyman, Hoidal, Kornfeld, Kushner, McDean, Vartanian
Associate Professors: Bartholomew, Christian, Colston, Colwill, Oades, Wiese
Assistant Professors: Elkind, Griffiths, Kuefler, Rivera-Garza

Offered by the Department
Master of Arts degree in history.
Major in history with the Bachelor of Arts degree in liberal arts and sciences.
Minor in history.

The Nasatir Professor of Modern Jewish History
The Nasatir Professorship was established in honor of the late Professor Abraham Nasatir, a specialist in European colonial history in North America. Nasatir taught history at SDSU for 46 years and was active in the community as an advocate of Jewish education. The Professorship is now held by a distinguished scholar of European intellectual history and Holocaust studies, Lawrence Baron, director of SDSU’s Lipinsky Institute for Judaic Studies.

The Dwight E. Stanford Chair in American Foreign Relations
A gift from alumnus Dwight E. Stanford, who earned a bachelor’s degree in American history in 1936 from San Diego State College (now SDSU), established The Dwight E. Stanford Chair in American Foreign Relations. The holder of the Chair is Elizabeth Cobbs Hoffman, a distinguished scholar-teacher who is an expert on economic and political relations between the United States and the Third World, and on the history of the Cold War.

The Major
History is the study of humanity’s recorded past, encompassing almost all aspects of human activity and behavior. The arts, sciences, technology, economics, politics, war, ideology, and social attitudes all constitute the subject of history.

The purpose of history education is not primarily the accumulation of information on particular events, regions, or cultures, but rather the development of the knowledge and skills to collect and sift historical evidence, analyze historical understanding to self-transformation and civic participation. Study of the ideas, attitudes, and actions of people in the past sharpens a person’s own sense of values, provides a context for present decision making, and cultivates a more compassionate spirit toward peoples whose way of life may be different from one’s own.

The training in basic skills and the broad range of knowledge students receive in history courses prepare history majors for a wide variety of careers in law, government, politics, journalism, publishing, private charities and foundations, public history, business, and science. Teaching at the primary to university levels also offers opportunity for history majors who continue their education at the graduate level.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

History Major
With the Bachelor of Arts degree in Liberal Arts and Sciences
(Major Code: 22051)
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in history courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major
History 100, 101, and six units selected from History 105, 106, 109, 110, 115, or 116. (12 units)

Foreign Language Requirement. As part of preparation for the major, students will be required to successfully complete the third college semester or fifth college quarter in one foreign language. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. History 400W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units in history to include History 400W; three units from History 450W, 451, or 452, and a minimum of nine units in field (a) Thematic, Comparative and Interdisciplinary History; six units in field (b) The Ancient through Early Modern World; and nine units in field (c) The Modern World. At least nine upper division must be at the 500-level. Up to six units from other departments may be applied to the history major upon written approval of the undergraduate adviser. It is the student’s obligation to determine which courses fulfill his/her field requirements.

History Minor
The minor in history consists of a minimum of 18 units in history to include six sequential units in the lower division. Twelve units must be in upper division history, distributed in no more than two of the fields listed under the history major.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

History Honors Thesis
The department offers undergraduates of superior achievement the opportunity to write a history honors thesis leading to special recognition upon graduation. History 490, Senior Honors Thesis, is open to students who rank in the top 20 percent of senior history majors and who have successfully completed History 400W. Interested students should consult the undergraduate adviser in the History Department.
Courses (HIST)

LOWER DIVISION COURSES

100. World History (3)
Growth of civilizations and interrelationships of peoples of Europe, Asia, Africa, and the Americas to 1500.

101. World History (3)
Modern history from a global perspective, 1500 to present.

105. Western Civilization to the Seventeenth Century (3)
(CAN HIST 2) (105 + 106: CAN HIST SEQ A)
Development of Mediterranean and European cultures, thought, and institutions from ancient times to the seventeenth century. Not open to students with credit in History 305A.

106. Western Civilization Since the Sixteenth Century (3)
(CAN HIST 4) (105 + 106: CAN HIST SEQ A)
Development of European cultures, thought, and institutions from sixteenth century to present. Not open to students with credit in History 305B.

109. American History to Reconstruction (3)
(CAN HIST 8) (109 + 110: CAN HIST SEQ B)
United States history from pre-colonial societies to Reconstruction. Contact of cultures, patterns of settlement, contests over racial, ethnic, religious, class, gender, regional, and national identities and institutions. Satisfies the American Institutions requirement in American history and United States Constitution. (Formerly numbered History 110A.)

110. American History Since the Civil War (3)
(CAN HIST 10) (109 + 110: CAN HIST SEQ B)
United States history since the Civil War. Development of U.S. economy, urbanization, social and cultural change, emergence of U.S. as a world power, struggles over American identities and institutions. Satisfies the American Institutions requirement in American history and California government. (Formerly numbered History 110B.)

115. Comparative History of the Americas (3)
Western hemisphere from ancient times to early national period, with focus on interactions among European, American Indian, and African cultures, institutions, and traditions. Ancient American societies, European colonial systems, creation of new nations. Satisfies the American Institutions requirement in American history and United States Constitution. (Formerly numbered History 115A.)

116. Comparative History of the Americas (3)
Nations and cultures of the Western hemisphere since early national period, with focus on interactions among European, American Indian, and African cultures, institutions, and traditions. Satisfies the American Institutions requirement in American history and California government. (Formerly numbered History 115B.)

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

299. Special Study (3)
Prerequisite: Consent of department chair and instructor. Individual study.

UPPER DIVISION COURSES (Intended for Undergraduates)

308. History of Britain (3)
Prerequisite: Upper division standing.
Survey of British history from its origins to the contemporary age. Emphasis on political institutions, religion, society, economy, the arts. Cannot satisfy requirements for the major or minor; offered only in London Semester program.

400W. Historian's Craft (3) I, II
Prerequisites: Twelve units in history including History 100, 101, and six units selected from History 105, 106, 109, 110, 115, or 116. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.

450W. The Writing of History (3) I, II
Prerequisites: History 400W with a grade of C (2.0) or better and a minimum of 15 upper division units in history. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.

451. Historians and the Public (3)
Prerequisites: History 400W with a Grade of C (2.0) or better and a minimum of 15 upper division units in history. Consent of instructor required for non-history majors.
Analysis and practice of ways historians preserve, research, and interpret past for public audiences. Topics include historic preservation projects, parks, museums, archives, and living history programs. Includes a major analytical essay or public history project. (Formerly numbered History 494.)

452. Advanced Internship in Applied History (3)
Prerequisites: History 400W with a Grade of C (2.0) or better and a minimum of 15 upper division units in history.
Supervised field placement in applied history: campus and community archives, museums, government, and other historical agencies. Emphasis on critical analysis, writing, and historiography.

490. Senior Honors Thesis (3) I, II
Prerequisite: History 400W; open to history majors with senior standing and permission of the honors thesis adviser.
Directed research on a historical topic chosen in consultation with the honors adviser, and completion of a senior honors thesis. Required of students wishing to graduate with a certificate of recognition in history.

499. Special Study (1-3) I, II
Prerequisite: Consent of department chair and instructor. Individual study. Maximum credit six units.

Field (a). Thematic, Comparative, and Interdisciplinary History

UPPER DIVISION COURSES (Intended for Undergraduates)

402. History of Childhood (3)
Prerequisites: Upper division standing. Completion of the General Education requirement in Foundations II.C., Humanities required.
Comparative perspective on the history of infancy and early childhood; childrearing theories and practices; adolescence; education; play; work in slavery, servitude, apprenticeship, and families; immigration and migration; domestic violence and family law; and construction of gender and identity.

406. History of Sexuality (3)
Prerequisite: Upper division standing and completion of General Education requirements in Foundations II.C. Humanities required.
Comparative and historical approach to changing conceptions of the body; regulation of sexual practices, and emergence of sexual identities. Historical perspectives on body parts, sexual practices, and sexual celebrities invested with social and political significance.
422. Southeast Asian and Filipino Experience in America (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors. Prerequisite recommended: Upper division standing.
The history of Filipinos and other Southeast Asians in America from 1898 to present. Topics include changing Southeast Asian-U.S. relations, cultural roots, immigration, comparative community institution and development, racism, discrimination, labor movements, politics, achievements, and contemporary issues.

435. History Through Film (3)
Critical analysis of selected historical problems, eras, and events, using film as the principal historical document. See Class Schedule for specific content. Maximum credit six units.

436. Modern Jewish History in Feature Films (3) I
Two lectures and two hours of activity.
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Representations of twentieth century Jewish history in feature films. Topics include persecutions of Jews in Czarist Russia and Nazi occupied Europe, social mobility in the United States and national sovereignty in Israel.

440. The Holocaust and Western Civilization (3) I
Prerequisites: Upper division standing, and completion of the General Education requirement in Foundations II.C., Humanities.
German campaign to eliminate Jews during World War II. Anti-Semitic background, both Christian and racial; rise of Adolf Hitler and implementation of "the final solution"; responses by Jews and non-Jews in the Western world.

441. Environmental Problems in Historical Perspective (3)
Prerequisites: Upper division standing, and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
A comparative study of the role of religious beliefs, social values, economic practices, and political systems in shaping past attitudes, policies, and behavior toward the environment. International in scope.

442A-442B. People Out of Our Past (3-3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
A biographical approach to American history, Semester I: Through 1865; John Winthrop, Benjamin Franklin, Thomas Jefferson, P.T. Barnum, Lucy Stone, Frederick Douglass, John Brown, Abraham Lincoln. Semester II: 1865 to present; Mark Twain, Jane Addams, Emma Goldman, Woodrow Wilson, Henry Ford, Eleanor Roosevelt, Martin Luther King, Jr., Bob Dylan, Richard Nixon.

455. The City in U.S. History (3)
Prerequisites: Upper division standing and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
A historical approach to urbanization of American society since 1800, with emphasis on forces responsible for change over time. Topics include immigration, race, gender in the city, suburbanization, sunbelt cities, public policy, and urban environment.

480. History of Corporations in the Modern World (3) I, II
Prerequisites: Upper division standing, and completion of the General Education requirement in Foundations II.C., Humanities.
Comparative study of the rise and success of the modern corporation in the United States, Japan, Europe, and developing nations.

484. The Rise of Modern Science (3)
Historical development of scientific ideas from Ancient Greece to the Scientific Revolution of the seventeenth century, concentrating on interaction between science and other aspects of society such as politics, economics, religion, and technology.

485. Science and the Modern World (3)
From Newton to Einstein, from Darwin to DNA: modern development of interaction between science and other aspects of society such as politics, economics, philosophy, religion, and technology.

486. World War II (3)
Causes of World War II, its course, and its legacy for today's world.

488. Modern Jewish History (3) II
Prerequisites: Upper division standing, and completion of the General Education requirement in Foundations II.C., Humanities.
Social, religious, and intellectual life of European Jewry from Middle Ages to present; political struggle for emancipation; anti-Semitism, the Holocaust, and establishment of state of Israel.

495. Internship in Applied History (3)
Nine to ten hours.
Prerequisites: Nine units in history. History 451 for some students (see instructor).
Supervised field placement of students in campus and community archives, historical museums, and other historical agencies. Practical experiences related to studies within history curriculum.

496. Issues in History (1-4)
Examination of selected problems and current issues in history. May be repeated with change of content. Maximum credit six units with change of content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Refer to Class Schedule for specific content.

499. Special Study (1-3) I, II
Prerequisite: Consent of department chair and instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

526. Ideas and Attitudes of Modern Europe (3)
Selected problems in European intellectual history beginning with the eighteenth century, with attention to social and political thought. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

553. History of Genders in Latin America (3)
Prerequisite: History 115 or 116 or 415 or 416.
History of gender constructions throughout Latin America from pre-Columbian times to present, emphasizing definition of masculinity, femininity, and sexual orientations in the region through use of primary and secondary sources.

555. Modernization and Urbanization in Latin America (3)
Historical treatment of the phenomena of urbanization and modernization in Latin America with attention to pre-Colombian and Iberian traditions and influence of education, church, military, and foreign investment.

556. Guerrilla Movements in Latin America (3)
History of sociopolitical conditions which culminated in guerrilla movements in twentieth century Latin America. Use of guerrilla writings and accounts as well as recent Latin American films and U.S. Defense Department counterinsurgency training films.

560. Growing Up Latin American (3)
Prerequisite: History 115 or 116 or 415 or 416.
Historical analysis of life stories of men and women from majority and minority groups in Latin America.

565. Revolution and Social Change in Asia (3)
Comparative study of contemporary problems in Asia emphasizing how indigenous peoples responded to the challenges of nationalism, reform, revolution, modernization, and neo-colonialism. Topics include social structure, education, peasant movements, urbanization, search for cultural identity, and national integration.
596. Selected Studies in History (1-4)
Topics in various fields of history, such as biography, war, science, technology, urbanization, minority groups, immigration, and capitalism. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

Field (b). The Ancient Through Early Modern World

UPPER DIVISION COURSES
(Intended for Undergraduates)

407. Early Modern Europe (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Early modern Europe from Renaissance to French Revolution. Social, cultural, economic, political, and intellectual trends, development of nation-states, and sources of continental conflict. (Formerly numbered History 407A.)

409. United States History for Teachers (3)
Prerequisites: Upper division standing and satisfactory completion of Writing Competency requirement.
United States history from pre-colonial period through Reconstruction with emphasis on historiography, bibliography, and relationship between philosophy of history and teaching. Satisfies the American Institutions requirement in American history and United States constitution. Not open to students with credit in History 310A. (Formerly numbered History 410A.)

411. World History for Teachers (3)
Prerequisites: Upper division standing, satisfactory completion of Writing Competency requirement, and at least three units selected from History 100, 101, 105, 106, 115, or 116.
Topics in world history from paleolithic times to sixteenth century emphasizing comparative analysis, interrelations among societies, and large-scale patterns of change. Various approaches to conceptualizing and teaching world history. Intended primarily for students in teacher preparation programs.

415. Pre-Contact and Colonial Latin America (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Indigenous and colonial history of Latin America, pre-contact through early national period. (Formerly numbered History 415A.)

420. Asia’s Dynamic Traditions (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Emergence and continuing vitality of historic traditions in India, China, and Japan. Topical, comparative survey emphasizing Confucian, Buddhist, and Hindu ideas and the interaction with institutions of family and village.

444. California History Through Early Statehood (3)
California from pre-colonial societies through early statehood. Emphasis on contact of cultures, social, cultural, political, economic and intellectual development, political institutions, Spanish and Mexican periods, gold rush, U.S. Mexico war and early statehood. (Formerly numbered History 541A.)

473. Middle Eastern History from the Advent of Islam to 1500 (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Middle Eastern history, 600 A.D. to 1500 C.E.; spread of Islam through rise of Ottoman Empire. (Formerly numbered History 473A.)

475. History of Africa to the Nineteenth Century (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
History of precolonial Africa north and south of the Sahara. (Formerly numbered History 475A.)

496. Issues in History (1-4)
Examination of selected problems and current issues in history. May be repeated with change of content. Maximum credit six units with change of content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Refer to Class Schedule for specific content.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

501. History of Ancient Near Eastern Civilizations (3)
Major civilizations of Near East from the origin of civilization to Roman Conquest, including Egyptians, Babylonians, Hebrews and Persians. Social, political, and religious problems. (Formerly numbered History 500A.)

502. Ancient Greece (3)
Greek history from prehistoric period through Age of Alexander the Great. Emphasis on political, social, cultural and institutional developments and historiography. Secondary attention to military, economic, and religious topics. (Formerly numbered History 500B.)

503. Ancient Rome (3)
Roman history from origins of Rome to fall of the Empire. Emphasis on political, social, cultural and institutional developments and historiography. Secondary attention to military, economic, and religious topics. (Formerly numbered History 500B.)

504. The Early Middle Ages (3)
Europe and Mediterranean 300-1100 C.E. through various approaches: political, economic, social, and cultural. Collapse of Roman Empire, transformation of classical culture and regions that claimed its heritage: Christian kingdoms of western Europe, Byzantine, and Muslim Arab empires. (Formerly numbered History 503A.)

505. The Later Middle Ages (3)
Europe and the Mediterranean 1100-1450 C.E. through various approaches: political, economic, social, and cultural. Development of Christian kingdoms of western Europe and relationship to Byzantine empire, Muslim Arab and Turkish states. (Formerly numbered History 503B.)

506. The Renaissance (3)
Intellectual, artistic, social, and economic transformation in Europe from fourteenth to seventeenth centuries.

507. The Reformation (3)
Continental Europe, 1500-1648. Split of Christendom; political and intellectual dissent; social fabric of family life; relationship between gender, class, and power; cultural stratification of European society.

513A. Early Scandinavia (3)
The formation and development of the Scandinavian kingdoms from the Viking Age to the end of the Napoleonic Wars.

522. Tudor and Stuart England (3)
Struggle between monarchy, aristocracy, and gentry from Henry VII to Civil War. Reformations and Renaissance, cultural and colonial growth, the Glorious Revolution, parliamentary control, and political stability. (Formerly numbered History 522A-522B.)

528. Social History of Early Modern Europe (3)
Historical survey of European society emphasizing changes in the family, health, diet, standard of living, urbanism, crime, migration, and literacy, from 1350 to beginning of Industrial Revolution.

530. Colonial America (3)
Settlement and development of the English colonies in North America through the mid-eighteenth century. Contact of cultures, social structure, labor systems, religion, popular values, problems of imperial control, and political culture.
532. Topics in Early American History (3)
Prerequisites: Upper division standing and three units in history at the college level.
Variable topics in history of colonial America and the early republic. Possible topics include: Women and the Family; Race, Class and Labor; American Revolution; Religion and Politics; Immigrants' Experiences. See Class Schedule for topic. May be repeated with new content. Maximum credit six units.

550. Colonial Mexico (3)
Prerequisite: History 115, 116, 415, or 416.
Social history of Mexico from pre-contact through early national period using primary and secondary sources. Processes of social and cultural negotiation involving gender, religion, environment, medicine, and urban experience. (Formerly numbered History 551A.)

563. Southeast Asia to 1800 (3)
Cultural traditions of Southeast Asian people. Examines nature of the state, interstate relations, evolution of indigenous institutions, and influences of India, China, Islam, and the West to the end of the eighteenth century. (Formerly numbered History 564A.)

566. Chinese Civilization: The Great Traditions (3)
China's institutional and cultural development from ancient to premodern times. Emphasis on traditional philosophy, religions, literature, and the arts.

569. Japan from Classical Age to Early Modern Era (3)
Historical examination of Japanese civilization as a social construction from creation myths to early modern era. Religion, philosophy, aesthetics, art, literature, and social relations. Customs, practices, myths, and historical precedents that created a shared sense of Japanese culture.

Field (c). The Modern World

UPPER DIVISION COURSES
(Intended for Undergraduates)

408. Modern Europe (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Modern Europe from French Revolution to present. Social, cultural, economic, political, and intellectual trends, development of nation-states, and sources of continental conflict. (Formerly numbered History 407B.)

410. United States History for Teachers (3)
Prerequisites: Upper division standing and satisfactory completion of Writing Competency requirement.
United States history since Civil War with emphasis on historiography, bibliography, and relationship between philosophy of history and teaching. Satisfies the American Institutions requirement in American history and California government. Not open to students with credit in History 310B. (Formerly numbered History 410B.)

412. Perspectives on Modern World History (3)
Prerequisites: Upper division standing, satisfactory completion of Writing Competency requirement, and at least three units selected from History 100, 101, 105, 106, 115, 116.
Topics in modern world history emphasizing world-scale patterns of change, cross-cultural comparison and conceptual frameworks. Of special interest to students preparing to teach history in secondary schools.

416. Modern Latin America (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
History of Latin America, early national period to present. (Formerly numbered History 415B.)

421. Asia's Emerging Nations (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
517. Modern Germany (3)
Political, social, and economic history of Germany from 1848 to present. (Formerly numbered History 517A-517B.)

518A-518B. Russia and the Soviet Union (3-3)
Semester I: Political, social and economic development of Russia in Europe and Asia from the earliest times to the close of the nineteenth century. Semester II: Emphasis on the twentieth century.

519. Modern Italy (3)
The development of Italy from 1815 to the present.

533A. The Jacksonian Era (3)
Territorial expansion, democratic politics, revivalism, and the slavery controversy.

533B. Civil War and Reconstruction (3)
The Civil War and Reconstruction, emphasizing political affairs and the role of Lincoln.

535. The Age of Roosevelt (3)
The United States in Depression, War, and Cold War. (Formerly numbered History 535B.)

536. The United States Since World War II (3) I, II, Major foreign and domestic issues confronting the United States, and the government policies and popular movements generated in response.

539. Topics in the History of the American West (3)
Prerequisites: Upper division standing and three units of history at the college level.

540. Environmental History of the United States (3)
The relationship of Americans to their environment from colonial times to the present with emphasis on how attitudes and values have affected personal behavior and public policy toward the land.

543. American Involvement in Vietnam 1941-75 (3)
Prerequisites: Upper division standing and six units in history. Causes and costs of America's longest war; the war's beginning, United States involvement, role of media and antimwar movement, American withdrawal, impact of war on Southeast Asia and the United States.

544A. Early American Foreign Relations (3)
Development of American foreign relations from Colonial Period to the Spanish-American-Filipino War.

544B. Modern American Foreign Relations (3)
Development of American foreign relations since 1900.

545A-545B. Constitutional History of the United States (3-3)

547A-547B. Intellectual History of the American People (3-3)
American thought since colonial times, focusing on the ideas of individuals, groups and movements in religion, politics, society, the arts and reform. Emphasis on liberal and conservative impulses and their role in the making of the modern American mind. History 547A: To 1865. History 547B: Since 1865. This year course satisfies the graduation requirement in American Institutions.

548A-548B. Social History of the United States (3-3)
Historical survey of American society emphasizing demographic trends, the changing role of the family, social structure, immigration patterns, religious movements, developments in education, the economy, and entertainment.

549. History of San Diego (3)
Prerequisites: Upper division standing and six units in history. Development of San Diego from European contact to the present.

551. Modern Mexico (3)
Prerequisite: History 115, 116, 415, or 416.
Social history of Mexico since early national period using primary and secondary sources. Processes of social and cultural negotiation involving gender, religion, environment, medicine, and urban experience. (Formerly numbered History 551B.)

552. Brazil (3)
Survey of history of Brazil from Portuguese backgrounds to present. Brazil as a tropical society. Recommended for students minoring in Portuguese.

554. The Andean Republics of South America (3)
The historical development of Chile, Bolivia, Peru and Ecuador with emphasis on race relations and social revolutions in the twentieth century.

558. Latin America in World Affairs (3)
History of Latin America's political and economic relations with Europe, the Soviet Union, the United States, and the Third World.

559. Central America (3)
Prerequisites: Upper division standing and six units in history. Historical development of the republics of Central America with emphasis on twentieth century. Contemporary revolutionary movements and role of United States in Central American affairs.

561. Asia and the West (3)
History of twentieth century Asian-Western relations with emphasis on China and Japan.

564. Southeast Asia in the Modern World (3)
Southeast Asian history since 1800 with attention to colonialism, sociocultural change, Chinese diaspora, nationalism and independence, and economic development. Considers transnational comparisons among Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand, and Vietnam. (Formerly numbered History 564B.)

567. China's Century of Modernization (3)
China's modernization process from the early nineteenth-century Opium War through the People's Republic of China.

570. Japan in the Modern World (3)
Japan's emergence as a modern state since the nineteenth century, and ongoing struggle to redefine Japanese identity. Examines Japan's engagement with modernity as seen through changes in political discourse, gender relations, international relations, intellectual trends, and economic development.

574. Arab-Israeli Relations, Past and Present (3)
Arab-Israeli conflict and diplomacy over Palestine from perspectives of Zionism, Arab nationalism, and Great Power relations from nineteenth century to present.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Hospitality and Tourism Management

In the College of Business Administration and the College of Professional Studies and Fine Arts

Faculty

Hospitality and Tourism Management is administered by the Hospitality and Tourism Management Program Committee. The program draws on courses offered by the faculty in the following areas: Accountancy, Communication, Exercise and Nutritional Sciences, Finance, Hospitality and Tourism Management, Information and Decision Systems, Management, Marketing, and Recreation, Parks and Tourism.

Co-Chairs: Butler, M. (Management) and Lamke, G. (Recreation, Parks and Tourism)

Committee: Beck (Recreation, Parks and Tourism), G. Belch (Marketing), Capetini (Accountancy), Chung (Management), Josephson (Exercise and Nutritional Sciences), Kalustian (Theatre), Mueller (Communication), Raafat (Information and Decision Systems)

Offered by Hospitality and Tourism Management

Major in hospitality and tourism management with the B.S. degree in applied arts and sciences.

Emphasis in hotel operations and management.

Emphasis in restaurant operations and management.

Emphasis in global tourism management.

Emphasis in attractions, events, and convention management.

Admission to the Major

Students choosing the hospitality and tourism management major are first admitted to the pre-HTM major for their first two years of University work. During these two years, students should complete general education courses and the 30 unit lower division preparation for the major courses: Accountancy 201 – Financial Accounting Fundamentals; Accountancy 202 – Managerial Accounting Fundamentals; Economics 101 – Principles of Economics; Economics 102 – Principles of Economics; Finance 140 – Introduction to Business Law; Hospitality and Tourism Management 201 – Introduction to Hospitality and Tourism Management; Information and Decision Systems 180 – Principles of Information Systems; and Information and Decision Systems 230 – Business Communication; Mathematics 120 – Calculus for Business Analysis; Statistics 119 – Elementary Statistics in Business. These prerequisite courses may not be taken Cr/NC; the minimum grade in each class is C. All students must have fulfilled the SDSU Mathematics Competency and SDSU Writing Competency requirements and completed a minimum of 56 college units. Supplemental admissions criteria must be met before students may declare an upper division major and be eligible for upper division courses. For current information concerning admissions criteria and procedures, contact the Hospitality and Tourism Management Program Office (PSFA 430).

The Major

Hospitality and tourism management is an interdisciplinary major which culminates in a Bachelor of Science degree offered jointly by the College of Business Administration, a member of the American Assembly of Collegiate Schools of Business, and the College of Professional Studies and Fine Arts. This program provides students with a solid undergraduate program emphasizing basic business management principles and their specific application to the hospitality and tourism industry and its components that make up the industry. The program integrates a significant number of courses from diverse disciplines into a comprehensive theoretical and applied program necessary for success in the hospitality and tourism professions. The program is directed at management positions in the industry, positions that require a broad understanding of management and its application to the businesses and organizations that flourish in this sector of the international, national, state, and local economies.

Students select one of four emphasis areas for in-depth study; Hotel Operations and Management, Restaurant Operations and Management, Global Tourism Management or Attractions, Events, and Convention Management. With a solid core of business management courses and theoretical and applied study of the broad hospitality and tourism industry, students are educated to move readily into management positions in one of the state's, nation's, and world's fastest growing economic sectors. The hotel and restaurant emphases will prepare managers to effectively administer businesses that provide lodging and food services to business and leisure travelers and tourists. The global tourism management emphasis will educate graduates to work in the United States and abroad in developing and managing tourism enterprises that are economically viable as well as consistent with resources available to sustain the industry within regions and locales. And lastly, the emphasis in attractions, events and convention management is aimed at preparing individuals to successfully manage destination based agencies that attract and entertain guests in a host region (convention centers, bureaus, festivals, sporting events, etc.).

Internships

A significant portion of the student’s educational program is dedicated to community-based learning components termed internships. Each student must complete two, 300+ hour internships in hospitality and tourism businesses. These experiential learning components enable students to apply their classroom education to real world experiences in actual businesses. The HTM Program has purposely entered into partnerships with San Diego’s finest hospitality and tourism enterprises to provide students with specialized facilities and experiences that complete a well-rounded and comprehensive educational experience for graduation and entry into this rewarding profession.

Advising

All students admitted to the University with a declared major in hospitality and tourism management are required to attend an advising meeting with the undergraduate advisers during their first semester on campus.
Hospitality and Tourism Management Major

With the B.S. Degree in Applied Arts and Sciences
(Premajor Code: 05080) (Major Code: 05081)

The Hospitality and Tourism management major has been approved by the campus and is pending systemwide approval. For further information, contact Mark C. Butler, Department of Management or Gene G. Lamke, Department of Recreation, Parks and Tourism.

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major. Hospitality and Tourism Management majors may not complete a minor in the College of Business Administration. Preparation for the major courses may not be taken Cr/NC; the minimum grade in each course must be a C.

Emphasis in Hotel Operations and Management

Preparation for the Major. Hospitality and Tourism Management 201, 223; Accountancy 201, 202; Economics 101, 102; Finance 140; Information and Decision Systems 180, 290; Mathematics 120 or 150; and Statistics 119 or Economics 201. (33 Units)

Upper Division Writing Requirement. Passing the Upper Division Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 48 upper division units to include Hospitality and Tourism Management 398, 431, 433 or 435, 450, 460, 490, 498; Communication 307*, Finance 323; Information and Decision Systems 302; Management 350, 352; Marketing 370; Recreation 304, 470, 475.

Emphasis in Restaurant Operations and Management

Preparation for the Major. Hospitality and Tourism Management 201, 223; Accountancy 201, 202; Economics 101, 102; Finance 140; Information and Decision Systems 180, 290; Mathematics 120 or 150; and Statistics 119 or Economics 201. (33 Units)

Upper Division Writing Requirement. Passing the Upper Division Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 48 upper division units to include Hospitality and Tourism Management 398, 421, 425, 427, 450, 460, 490, 499; Communication 307*, Finance 323; Information and Decision Systems 302; Management 350, 352; Marketing 370; Recreation 304, 470.

Emphasis in Global Tourism Management

Preparation for the Major. Hospitality and Tourism Management 201, 223; Accountancy 201, 202; Economics 101, 102; Finance 140; Information and Decision Systems 180, 290; Mathematics 120 or 150; and Statistics 119 or Economics 201. (33 Units)

Upper Division Writing Requirement. Passing the Upper Division Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 48 upper division units to include Hospitality and Tourism Management 398, 411, 450, 460, 490, 498; Communication 307*, Finance 323; Information and Decision Systems 302; Management 350, 352; Marketing 370; Recreation 304, 470, and 477 or Hospitality and Tourism Management 413.

Emphasis in Attractions, Events, and Convention Management

Preparation for the Major. Hospitality and Tourism Management 201, 223; Accountancy 201, 202; Economics 101, 102; Finance 140; Information and Decision Systems 180, 290; Mathematics 120 or 150; and Statistics 119 or Economics 201. (33 Units)

Upper Division Writing Requirement. Passing the Upper Division Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 48 upper division units to include Hospitality and Tourism Management 398, 431, 413 or 435, 450, 460, 490, 498; Communication 307*, Finance 323; Information and Decision Systems 302; Management 350, 352; Marketing 370; Recreation 304, 470, 475.

* Prerequisites waived for this course.

Courses (HTM)

LOWER DIVISION COURSES

201. Introduction to Hospitality and Tourism Management (3) Hospitality and tourism industry with focus on basic management theories and principles as they apply to hospitality and tourism; basic structure, organization, and management of industry components and the services/products they deliver.

223. Hospitality Managerial Accounting and Controls (3) Prerequisites: Accountancy 201 and 202. Integrates areas of managerial accounting and controls with applications in hospitality industry. Internal control and cost management, operations budgeting, occupancy projections and pricing decisions, credit policy and cash flow, and investment decision-making.

296. Experimental Topics (1-4) Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES

(Intended for Undergraduates)

398. Internship I in Hospitality and Tourism (3) Cr/NC Prerequisite: Completion of 15 upper division units in hospitality and tourism management major. Entry level experience in a hotel, restaurant, or tourism agency at a university approved site. Minimum 300 hours of quality work at agency required during semester and completion of agency-based project.

411. Global Tourism Issues (3) Prerequisite: Completion of 15 upper division units in hospitality and tourism management major. Global perspectives of tourism development with emphasis on natural resource characteristics, their sustainability to generating tourist flow, concepts of ecotourism, adventure travel, visitor safety and security, and minimal impact, including economic, cultural, and socio-psychological factors.

413. Cultural Tourism (3) Two lectures and two hours of activity. Prerequisite: Credit or concurrent registration in Hospitality and Tourism Management 490.

421. Restaurant Development and Operations (3) Two lectures and three hours of laboratory. Prerequisite: Credit or concurrent registration in Hospitality and Tourism Management 490.

Restaurant and food service principles to operations of casual and fine dining restaurants with emphasis on cost/volume/profit relationships, forecasting demand and market share, market niche/positioning, sanitation and safety, scheduling, quality management, customer service, technology, and ambiance/environment.
Hospitality and Tourism Management

425. Property Management in Hospitality and Tourism  (3)
Prerequisite: Credit or concurrent registration in Hospitality and Tourism Management 490.
Development, planning, and maintenance of hospitality facilities. Real estate economics, income generation, lease and management contracts, building operations, project development sequencing, conceptual and space planning, financing, asset management, industry practices, renovation, and public relations.

427. Hotel Operations and Management  (3)
Two lectures and two hours of activity.
Prerequisite: Credit or concurrent registration in Hospitality and Tourism Management 490.
Hotel management and operations to include room reservations, housekeeping, front desk management, concierge, sanitation, safety, security, and bellstand. Revenue management, forecasting, measuring performance, transient versus group displacement, service quality, pricing and inventory management, ethics.

431. Convention and Meeting Management  (3)
Two lectures and two hours of activity.
Prerequisite: Credit or concurrent registration in Hospitality and Tourism Management 490.
Conference, convention, and meeting industry. Planning, developing, marketing, and implementing meeting and convention services with emphasis on staffing, budgeting, and logistics.

433. Destination Management Services  (3)
Prerequisite: Credit or concurrent registration in Hospitality and Tourism Management 490.
Role of convention and visitors bureaus and destination management companies in attracting visitors to an area and providing services at a destination including economic impact of visitor markets, incentive travel, marketing techniques, structure, and governance of businesses and services.

435. Sporting Events and Festival Management  (3)
Prerequisite: Credit or concurrent registration in Hospitality and Tourism Management 490.
Organization and administration of attraction-based events focusing on scheduling, financing, budgeting and revenue distribution, logistics, planning techniques, marketing, contracts, and staging considerations.

450. Venture and Entrepreneurial Management in Hospitality and Tourism  (3)
Prerequisites: Finance 323, Information and Decision Systems 302, Management 350, and Marketing 370.
Initiating, expanding, purchasing, and consolidating hospitality and tourism businesses; examination of entrepreneurial approach including concepts, theories, techniques, and practices of managerial innovation/implementation; analysis of entrepreneurial skills.

460. Legal and Policy Issues in Hospitality and Tourism  (3)
Prerequisite: Management 352.
The law as it relates to hospitality and tourism with emphasis on legal/policy matters dealing with disabled and accessibility, consumer issues, safety and risk management, discrimination, business regulation, e-commerce, and ethical practices in the industry.

490. Strategic Management in Hospitality and Tourism  (3)
Prerequisite: Hospitality and Tourism Management 450.
Problems and issues of strategic planning in hospitality and tourism businesses including methods, techniques, and models used to identify strategic issues and generate future-oriented action plans to implement change.

496. Experimental Topics  (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

498. Internship II in Hospitality and Tourism  (3) Cr/NC
Prerequisite: Hospitality and Tourism Management 398 and completion of six units in hospitality and tourism management major emphasis area.
Advanced experience in a hotel, restaurant, or tourism agency in student’s chosen emphasis at a university approved site. Minimum of 300 hours of quality work at agency required during semester in addition to completion of agency-based project.

499. Special Study  (1-3) I, II
Prerequisite: Consent of special study adviser.
Individual study. Maximum credit six units.
Advising

The Major

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Humanities Major

With the B.A. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” Each student must file an individual master plan with the humanities undergraduate adviser and with the Office of the Registrar.

A minor is not required with this major. During their last semester, all seniors majoring in Humanities shall submit to the department a portfolio of their scholarly work.

General Humanities Program

Preparation for the Major, Humanities 101; History 100-101; and three units from Classics 140, Comparative Literature 270A, 270B, English 220, Humanities 140, Philosophy 103, Religious Studies 101, or Women’s Studies 102. (12 units)

Foreign Language Requirement. Five semesters or equivalents in a single foreign language, to include at least one three-unit upper division course; or four semesters or equivalents in a single foreign language, to include at least two three-unit upper division courses. This fulfills foreign language requirement for B.A. degree in Liberal Arts and Sciences.

Upper Division Writing Requirement. Passing the University Writing Examination or English 508W or Rhetoric and Writing Studies 305W or 500W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units to include Humanities 460, 490; Asian Studies 458; 12 units from Classics 340, Humanities 401, 402, 403, 404; nine units from Art (art history), Classics, Comparative Literature, English, History, Humanities, Music 351A, 351B, 351D, 592, Philosophy, Religious Studies, Theatre 460A, 460B, or Women’s Studies, with no more than three units in any discipline (at least three units must be taken in non-Western content; courses in Art, Comparative Literature, English, History, Philosophy, Religious Studies, or Women’s Studies may be taken only with prior permission of major adviser).

Emphasis in European Humanities

Preparation for the Major, Humanities 101; History 105-106; and three units from Comparative Literature 270A, 270B, Humanities 140, Philosophy 103, Religious Studies 101, or Women’s Studies 102. (12 units)

Foreign Language Requirement. Five semesters or equivalents in a single foreign language, to include at least one three-unit upper division course; or four semesters or equivalents in a single foreign language, to include at least two three-unit upper division courses. This fulfills foreign language requirement for B.A. degree in Liberal Arts and Sciences.

Upper Division Writing Requirement. Passing the University Writing Examination or English 508W or Rhetoric and Writing Studies 305W or 500W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units to include Classics 340, Humanities 401, 402, 403, 404; three units from Geography 336, Political Science 301A, 301B, or 302; nine units from European content courses in Art (art history), Comparative Literature, English, History, Humanities, Music 351A, 351B, Philosophy, Religious Studies, Theatre 460A, 460B, or Women’s Studies 340, with no more than three units in any discipline (courses in Art, Comparative Literature, English, History, Philosophy, Religious Studies may be taken only with prior permission of major adviser); and Humanities 490. (Some upper division courses in the major may have prerequisites not included among courses in the preparation for the major.)

Humanities Minor

The minor in humanities consists of a minimum of 15 units, of which at least 12 units must be upper division, at least 12 units must be in Humanities, and three to six units in Humanities 460 and Asian Studies 458. Up to six units may be selected from Asian Studies 458, Classics 140 or Comparative Literature 270A.
Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (HUM)

LOWER DIVISION COURSES

101. Introduction to Humanities (3)
   Preliminary investigation: How values and ideals are expressed in literary, artistic, and intellectual achievements of individuals and civilizations throughout the world.

130. The Jewish Heritage (3)
   Hebraic and Jewish influences on the arts, literature, philosophy, and religion of Western civilization.

140. Mythology (3)
   Comparative themes and figures from various mythologies of the world. Interpretation of myths; their influence on art, culture, and history.

296. Experimental Topics (1-4)
   Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES

(Intended for Undergraduates)

310. French Civilization (3)
   Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities. French civilization from Middle Ages to present. Artistic, intellectual achievements and cultural movements.

320. German Civilization (3)
   Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities. German civilization of medieval, Renaissance-Reformation, and modern periods. Artistic, intellectual achievements and cultural movements.

330. Russian Civilization (3)
   Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities. Russian civilization from Middle Ages to present. Artistic, intellectual achievements and cultural movements.

340. Italian Civilization (3)
   Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities. Italian civilization of medieval, Renaissance, Baroque, and modern periods. Artistic, intellectual achievements and cultural movements.

370. Humanities in America (3)
   Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors. Great literary, artistic, and intellectual traditions and achievements in America. From Neoclassicism to Postmodernism.

401. The Medieval Heritage (3)
   Prerequisites: History 105 or 305A, and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors. European civilization of the Middle Ages. Artistic and intellectual achievements and cultural movements of the Romanesque and Gothic periods.

402. The Renaissance (3) II
   Prerequisites: History 105 or 411, and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors. European civilization of the humanistic Renaissance. Artistic and intellectual achievements and cultural movements from the early Renaissance through the Reformation and Mannerism.

403. The Baroque and the Enlightenment (3) I
   Prerequisites: History 106 or 412, and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors. European civilization of the seventeenth and eighteenth centuries. Artistic and intellectual achievements and cultural movements: Baroque and Rococo, Enlightenment and Neoclassicism.

404. The Modern European Heritage (3) II

460. African Civilizations (3)
   Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors. Interdisciplinary survey of sub-Saharan African civilizations, emphasizing religion, literature, and the arts from ancient times to the present.

490. Senior Seminar in Classics and Humanities (3)
   Prerequisites: Classics or humanities major with more than 90 units; others with consent of department chair. Senior capstone seminar in major. Discussion and research on topic in classics and humanities. Formal research paper.

496. Topics in Humanities (3)
   Selected topics in literature and the arts. Comparative themes and critical approaches. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

UPPER DIVISION COURSES

(Also Acceptable for Advanced Degrees)

596. Topics in Humanities (1-3)
   Prerequisite: Upper division standing and consent of instructor. Special topics on selected aspects of civilization from an interdisciplinary humanities perspective. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. No more than six units of 596 may be applied to either the bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

599. Special Study (1-3)
   Prerequisites: Humanities or European studies major or minor with upper division standing, twelve units in courses acceptable for major or minor, and consent of instructor and program chair, or graduate standing and consent of instructor and program chair. Directed individual study. Maximum credit six units.
Information and Decision Systems

In the College of Business Administration

A Member of AACSB—The International Association for Management Education.

Faculty
Emeritus: Archer, Chen, Feeney, Galbraith, Gibson, Hatch, Langenbach, Norman, Schlesinger, Sherrard, Sondak, Spaulding, Straub
Chair: Penrose
Professors: Beatty, Flatley, Koster, Lackritz, Penrose, Raafat, Vik
Associate Professors: Addo, Easton, A., Easton, G., Lyons-Lawrence, Reingig, Yang
Assistant Professors: Shin, Shu
Lecturer: Tyler

Offered by the Department
Master of Science degree in business administration.
Master of Business Administration.
Major in information systems with the B.S. degree in business administration.
Teaching major in business for the single subject teaching credential.
Minor in information systems.

The Major

Good business decisions require good information. The purpose of an information system is to provide management with the information that is essential to decision making and to assist in interpreting that information.

Information Systems. Students interested in using computers to solve business problems and in devising new and more efficient solutions, should consider a major in information systems. The major is intended to prepare students for their first job in information systems, which is normally as a systems analyst. The systems analyst studies problems, designs solutions, and implements those solutions using computer hardware and software. The major will also prepare students for continued growth as a manager in information systems.

The employment outlook for information systems specialists is currently very good. Positive projections continue into the future. Many graduates who major in information systems assume the following positions: systems analysts plan the activities necessary to solve a business problem by structuring the problem in logical form, identifying the data needed, and specifying the procedures to be followed in programming the data processing; information systems specialists represent various departments of a business in assuring that each department's information processing needs are provided for efficiently and economically; programmers and analysts plan and write computer programs to process business information; computer center managers direct the work of information processing in a company; and technical marketing specialists sell and coordinate the installation of computer systems.

Typical places of employment for information systems graduates include large businesses, government agencies, computer manufacturers, universities, and independent computer service organizations.

Statement on Computers

Before enrolling in upper division courses in the College of Business Administration, students must be competent in the operation of personal computers, including word processing and spreadsheets. Business students are strongly encouraged to have their own computers capable of running word processing, spreadsheet, presentation, e-mail, and Internet applications such as those found in packages sold by major software publishers. Availability of on-campus computing resources can be limited due to increasing demand across the University.

Retention Policy

The College of Business Administration is concerned that each individual upper division student makes reasonable academic progress toward earning a degree. To this end, the College will counsel students who have earned less than a “C” (2.0) average each semester. Further, such students will be warned that continued poor performance may result in their removal from any business major.

Transfer Credit

Lower Division: Courses clearly equivalent in scope and content to San Diego State University courses required for minors or as preparation for all business majors will be accepted from regionally accredited United States institutions and from foreign institutions recognized by San Diego State University and the College of Business Administration.

Upper Division: It is the policy of the San Diego State University College of Business Administration to accept upper division transfer credits where (a) the course content, requirements, and level are equivalent to San Diego State University courses and (b) where the course was taught in an AACSB—The International Association for Management Education accredited program. Exceptions require thorough documentation evidencing the above standards.

Impacted Program

The information systems major is impacted. Students must apply to enter the University under the business administration premajor code (05011). To be admitted to the upper division information and decision systems major, students must meet the following criteria:

a. Complete with a grade of C or higher: Accountancy 201 and 202; Finance 140; Information Decision Systems 180 and 290; Economics 101 and 102; Mathematics 120 (or other approved calculus course); and either Statistics 119 or Economics 201. These courses cannot be taken for credit/no credit (Cr/NC);

b. Clear the competency requirements in mathematics and writing. Refer to Graduation Requirements section of this catalog for details;

c. Complete a minimum of 56 semester units;

d. Have a cumulative and SDSU GPA of 2.90;

e. Students who meet all requirements except the GPA may request to be placed on the waiting list. Students on the waiting list will be admitted on space-availability basis only. Contact the Business Advising Center (BA 448), 619-594-5828, for more information; and

f. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).
Information and Decision Systems

Information Systems Minor
With the B.S. Degree in Business Administration
(Major Code: 07021)
A minor is not required with this major.

Preparation for the Major. Information and Decision Systems 180, 290; Accountancy 201, 202; Finance 140; Economics 101 and 102; Mathematics 120 (or other approved calculus course); and Economics 201 or Statistics 119. (27-29 units)

These prerequisite courses may not be taken Cr/NC; the minimum grade in each class is C. Additional progress requirements must be met before a student is admitted to an upper division major.

Upper Division Writing Requirement. Information and Decision Systems 396W with a grade of C (2.0) or better.

Major. Forty-two upper division units consisting of Information and Decision Systems 302, 306, 315, 375, 396W, 406, 480, 492; Finance 323; Management 350 and 405 or Business Administration 404; Marketing 370; six units selected from Information and Decision Systems 301, 407, 460, 482, 483, 515, 520. A “C” (2.0) average is required in the courses stipulated here for the major.

Of the 128 units required for the degree, at least 60 units must be at the upper division level. This includes the 42 units listed above, nine units of upper division General Education, and at least nine units of upper division electives, chosen from within or outside of Business Administration. A minimum of 64 units of coursework applicable to the bachelor’s degree must be completed outside the areas of business administration, economics, and statistics. This means that at least nine units of electives (upper or lower division) must be completed in areas other than business administration, economics, and statistics. A maximum of six lower division units of accountancy courses may be used to satisfy degree requirements.

Students must complete all upper division courses in the major within seven years prior to graduation. Students who will have completed any of those courses more than seven years before the projected date of graduation must contact the department chair for information about ways to certify knowledge of current course content.

Business Major
In preparation for the Single Subject Teaching Credential
With the B.S. Degree in Business Administration
All candidates for the single subject teaching credential in business must complete all requirements for the applicable specialization as outlined in this section of the catalog under Policy Studies or Teacher Education. Students must complete the requirements of a major in one of the five departments within the College of Business Administration. In consultation with the single subject credential adviser in the College of Business Administration, undergraduate students must develop programs which fulfill the State credential requirements. All undergraduate majors must demonstrate office skills proficiency. Finance 589, Personal Financial Planning, is required of all teaching credential majors. Of the 128 units required for the degree, at least 60 units must be at the upper division level.

Student programs must be approved in advance by the College of Business Administration single subject credential adviser.

Information Systems Minor
The minor in information systems consists of a minimum of 21 units to include Information and Decision Systems 180, 306, 315, 375; and nine units selected from Information and Decision Systems 406, 407, 480, 482, 483, 492, 515, 520.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University. Students with a major in the College of Business Administration, Hospitality and Tourism Management, or International Business may not complete a minor in the College of Business Administration.

Students must officially declare the minor before taking any upper division business courses. Students must meet the prerequisites for the minor in effect at the time that they declare the minor. The current prerequisites for admission to the information systems minor include completion of the following courses with a grade of C or better: Economics 101, 102, and a three unit course in statistics (Statistics 119 is recommended); completion of the SDSU lower division writing and mathematics competency requirements; completion of the General Education requirements in Communication and Critical Thinking; completion of an additional nine units in the department of the student’s major, including at least six units of upper division courses. Students must also meet the GPA requirement in effect at the time that they declare the minor. Contact the Business Advising Center (BA 448) for admissions criteria and procedures.

Courses (IDS)

LOWER DIVISION COURSES
Applications of computerized systems in business organizations. Basic concepts of computer organization, data processing systems, decision support systems and systems analysis. Solving business problems through use of spreadsheet software.

290. Business Communication (3) I, II
Prerequisite: Rhetoric and Writing Studies 100 and SDSU Writing Competency requirement.

Effective communication applied to business letters, memos, and long reports. Includes the organization, writing, and presentation of business documents using word processing software. Incorporates basic principles of speaking effectively for business.

UPPER DIVISION COURSES
(Intended for Undergraduates)
301. Statistical Analysis for Business (3) I, II
Prerequisites: Mathematics 120; Economics 201 or Statistics 119. Approved upper division business major, business minor, or another major approved by the College of Business Administration. Proof of completion of prerequisites required: Copy of transcript. Statistical methods applied to business decision making.

302. Introduction to Operations Management (3) I, II, S
Prerequisites: Mathematics 120; Economics 201 or Statistics 119. Approved upper division business major, business minor, or another major approved by the College of Business Administration. Proof of completion of prerequisites required: Copy of transcript. Production and operations management. Master scheduling, material requirements planning, inventory management, capacity planning, production activity control, location analysis, automation, computerized systems, layout planning, linear programming, decision making, queuing, simulation, quality control, project planning.

306. Information Systems Analysis (3) I, II, S
Prerequisite: Approved upper division business major, business minor, or another approved major by the College of Business Administration. Course development life cycle concept, with emphasis on analysis of requirements using structured methodology. Feasibility study, needs assessment, prototyping, application design alternatives.

315. Business Application Programming (3)
Computer programming for business applications. Appropriate data structures, control structures and program structures. Languages widely used in business applications.
375. Information Systems Technology  (3)
Prerequisite: Approved upper division business major, business minor, or another approved major by the College of Business Administration.

Technologies underlying information systems, including computer organization and components, computer arithmetic, I/O and storage, multimedia processing, data communications fundamentals, local area networks, internetworking, and工作组 computing.

390W. Reporting Techniques for Accountants  (4)
Prerequisites: Credit or concurrent registration in Accountancy 321; fulfillment of Writing Competency requirement, completion of 60 units, and the General Education requirement in Communication and Critical Thinking. Satisfies University Upper Division Writing requirement as specified in the Graduation Requirements section. Proof of completion of prerequisite required: Test score or verification of exemption; copy of transcript.

Advanced preparation of written and oral reports with application to professional needs of accountants.

396W. Reporting Techniques for Business Professionals  (3) I, II
Prerequisites: Information and Decision Systems 290; fulfillment of Writing Competency requirement, completion of 60 units, and the General Education requirement in Communication and Critical Thinking. Satisfies University Upper Division Writing requirement as specified in the Graduation Requirements section. Proof of completion of prerequisite required: Test score or verification of exemption; copy of transcript. Must be admitted to the upper division major in business.

Advanced preparation of oral and written reports used in business and other organizations. Individualized study of reports in student's career field.

406. Information Systems Design  (3) I, II
Prerequisites: Information and Decision Systems 306 and 375, and credit or concurrent registration in Information and Decision Systems 480.

Business information systems design, installation, and implementation as part of the systems development life cycle, with emphasis on structured design methodology.

407. Artificial Intelligence Applications in Business  (3)
Prerequisite: Information and Decision Systems 375.

Basic artificial intelligence concepts, knowledge acquisition and representation, automated problem-solving and goal-seeking techniques, applications of artificial intelligence in business, expert systems, differences between data processing and artificial intelligence methodologies.

460. Project Management  (3)
Prerequisite: Credit or concurrent registration in Information and Decision Systems 302.

Management of small and large projects. Work breakdown structure, project cost estimating and reporting, and single and multiple resource allocation/leveling. Computerized project management software.

461. Operations Planning Strategy  (3)
Prerequisite: Information and Decision Systems 302.

Operations and manufacturing decisions analyzed with respect to process technology, system capacity, location, inventory, and quality assurance. Cases from U.S. and non-U.S. companies used to explore these issues.

462. Logistics and Material Management  (3)
Prerequisite: Information and Decision Systems 302.

Tracking material flow from vendor to customer. Supply chain management, forecast error analysis, plant scheduling, control and distribution requirements planning.

464. Quality and Productivity  (3)
Prerequisite: Information and Decision Systems 302.

Applications of operations management techniques to improvement of quality and productivity. Total quality control and just-in-time systems. Cases from American and Japanese companies.

480. Data Management Systems  (3) I, II
Prerequisite: Information and Decision Systems 375.

Methodology for applying data base management systems in design of information systems. Analysis of data base applications from perspectives of system users and systems analysts.

482. Information and Decision Systems Practicum  (3)
Prerequisite: Completion of at least eighteen units of upper division information and decision systems courses.

Information system design or development project applying knowledge gained in previous coursework done under joint supervision of course instructor and an information systems manager.

483. Networks and Data Communications  (3) I, II
Prerequisite: Information and Decision Systems 375.

Fundamental data communications concepts, including voice communications and carrier service offerings, communications hardware, and network design. Global, enterprise,工作组, and local area networks. Protocols and network operating systems. Network security and control.

492. Management of Information Systems  (3) I, II
Prerequisite: Information and Decision Systems 306 and 480.

Proof of completion of prerequisites required: Copy of transcript.

Role of information systems in organizations from management perspective: strategic information system planning, systems administration, and management of end user computing. Examination of management issues related to systems development and implementation. Management of computer operations and the computer center.

496. Selected Topics in Information Systems  (1-4) I, II
Prerequisite: Consent of department chair.

Selected areas of concern in information systems. See Class Schedule for specific content. May be repeated with new content with consent of department chair. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

498. Investigation and Report  (1-3) I, II
Prerequisites: Senior standing and consent of instructor.

May be repeated with new content. Maximum credit six units.

A comprehensive and original study of a problem connected with information systems under the direction of one or more members of the information systems staff.

499. Special Study  (1-3) I, II
Prerequisite: Consent of instructor.

Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

515. Advanced Programming for Business  (3) I,II
Prerequisite: Information and Decision Systems 315 or knowledge of one computer programming language.

Advanced programming for business applications in widely used programming languages. Advanced concepts of data structures used in business programming, control structures, and program structures. Selection of programming languages for particular purposes. Not open to students with credit in Information and Decision Systems 383 or 384.

520. Java Programming for Business Applications  (3)
Prerequisite: A course in C/C++ programming.

Comprehensive coverage of both Java applications and applets with emphasis on business application programs using graphical user interfaces. Business applications include multimedia programs, network processing, and database connectivity.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Interdisciplinary Programs

Interdisciplinary Programs Offered
Major in interdisciplinary studies in three departments with the B.A. degree in liberal arts and sciences.
Major in urban studies with the B.A. degree in liberal arts and sciences.
Minor in African studies.
Minor in energy studies.
Minor in environment and society.
Minor in middle east studies.
Certificate in environmental studies.

For information on additional interdisciplinary programs, refer to this section of the catalog under the headings of American Studies, Asian Studies, Child and Family Development, European Studies, Gerontology, Humanities, International Business, International Security and Conflict Resolution, Judaic Studies, Latin American Studies, Liberal Studies, and Social Science.

Interdisciplinary Studies in Three Departments
In the Division of Undergraduate Studies
Office: Administration 201
Telephone: (619) 594-5841
FAX: (619) 594-7934

Advising
Preliminary approval of the major must be secured from the Associate Dean of Undergraduate Studies PRIOR TO COMPLETION OF 90 SEMESTER UNITS. Acceptance into the program requires approval from each of three departmental advisers. Information regarding participating departments and procedures for application is available in the Division of Undergraduate Studies.

The Major
Interdisciplinary Studies in Three Departments is a student-designed major incorporating three different disciplines into a unified theme. The application process includes submission of an essay justifying a cohesive and rational master plan and the selection of upper and lower division coursework from three participating departments. Guidelines exist for several possible combinations of themes including Human Services, Performing Arts, and Pre-Health Professions.

Interdisciplinary Studies in Three Departments
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 49993)
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

The student master plan must be approved (AD-201) before this major may be declared.
A minor is not required with this major.

Preparation for the Major. A minimum of two courses (normally defined as six semester units) in each of the three departments selected in the major must be completed in the lower division as foundation for upper division courses. In departments where lower division offerings are insufficient to meet this requirement, the total minimum upper division requirement may be extended.

For students electing biology as one of the three departments for the Interdisciplinary Studies in Three Departments, the minimum requirement for the lower division preparation for the major is Biology 201 and either Biology 100 or 202 (7-8 units). The minimum requirement for the upper division major is an organismal course as described for the biology major, either both Biology 352 and 354 or both Chemistry 365 and Biology 366L, and a 500-level biology course (minimum 10 units). Other biology courses numbered 350 and above may be included as electives.

For students electing French as one of their departments, all lower division preparation for the major or equivalent competency must be completed in addition to French 301, 305A or 305B, and 421 or 422. Students electing Italian must fulfill lower division competency requirements, Italian 301, and two other upper division Italian courses.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units selected from three departments: (a) with no fewer than nine units from each of the three departments; and (b) with no fewer than six units from each of the three departments completed at San Diego State University; and (c) with minimum overall and San Diego State University grade point averages of 2.0 in each of the three departments.
Urban Studies

In the College of Arts and Letters and the College of Professional Studies and Fine Arts

Office: Professional Studies and Fine Arts 105
Telephone: (619) 594-6224

Faculty

Urban studies is administered by the Urban Studies Committee. The program draws upon courses offered by faculty in the Departments of Anthropology, Chicana and Chicano Studies, Economics, Geography, Political Science, Public Administration and Urban Studies, and Sociology.

Chair and Undergraduate Adviser: Caves (Public Administration and Urban Studies)

Committee: Chandler (Sociology), Ford (Geography), Herzog (Public Administration and Urban Studies), Kartman (Economics), Kazimi (Economics), Kennedy (Sociology), Pendleton (Anthropology), Rodriguez (Chicana and Chicano Studies), Terrell (Political Science)

Advising

All urban studies majors must meet at least once each semester with the urban studies program coordinator for advice on meeting general program requirements and for assignment to an urban studies adviser within the department of concentration.

The Major

The major in urban studies is designed to prepare students for career opportunities in the urban milieu by providing an interdisciplinary major focused on the urban community, its environment and problems. The major combines the study of broad issues and theoretical concerns with specialized training in urban analytical research methodologies.

Urban Studies Major

With the B.A. Degree in Liberal Arts and Sciences (Major Code: 22141)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements in the section of this catalog on “Graduation Requirements.” Students are cautioned that several of the required and elective courses have prerequisites.

A minor is not required with this major.

Preparation for the Major. Anthropology 102; Economics 101, 102; Geography 102; Political Science 101 or 102; Sociology 101; and Economics 201 or Political Science 201 or Sociology 201 or Statistics 250. (Students who specialize in economics must take Economics 201 or Statistics 250.) (21 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to the section of this catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units to include 12 units selected from the following: Chicana and Chicano Studies 355; Economics 458; Geography 354; Political Science 422; Public Administration 310; and 18 units in an area of specialization (may include up to three units outside the specialization).

Anthropology. Required: Anthropology 580; and 12 units selected from Anthropology 349, 430, 444, 582, 583.

Economics. Required: Economics 441; and 12 units selected from Economics 320, 321, 401, 489, 507, 565.

Geography. Required: Geography 353 or 585; and 12 units selected from Geography 353, 358, 381, 385, 488, 554, 556, 559, 572, 582, 585, 588.

Mexican American Border Studies. Required: Chicana and Chicano Studies 355; and 12 units selected from Chicana and Chicano Studies 301, 303, 306, 375, 596.
Interdisciplinary Programs

Political Science. Required: Political Science 515A; and 12 units to include Political Science 321, 334, 335, 531.

Public Administration and Urban Studies. Nine units selected from Public Administration 350, 420, 510, 512, 520; and six units selected from one of the following groups: (a) 450, 460, 512, 520; (b) 320, 525.

Sociology. Required: Sociology 406 or 407; and 12 units selected from Sociology 350, 355, 406 or 407 (if not taken as a required course), 443, 455, 456, 487, 505, 527, 537, 543.

Interdisciplinary Minors

African Studies Minor

Dr. Charles H. Cutter, Department of Classics and Humanities, is adviser for this minor.

The minor in African Studies consists of a minimum of 15 upper division units, to include History 475 and 476, Humanities 460; and six units from the following courses in any two departments: Anthropology 449*; Political Science 364; and Religious Studies 340*.

Courses in the minor must not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

* Additional prerequisites may be required.

Energy Studies Minor*

Dr. Alan R. Sweeney, Department of Physics, and Dr. Philip R. Pryde, Department of Geography, are co-advisers for this minor.

The interdisciplinary minor in energy studies consists of a minimum of 15 upper division units, to include Economics 452, Mechanical Engineering 352*, Physics 301; and six units selected from Art 247 or 347, Economics 453, Electrical Engineering 380*, 580*, Mechanical Engineering 582*, 586*, Geography 370, Geological Sciences 521*, Political Science 334, or three units of 499 with the approval of the adviser.

Courses in the minor must not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

* Additional prerequisites may be required.

Environment and Society Minor*

Dr. Philip R. Pryde, Department of Geography, is adviser for this minor.

The minor in environment and society consists of a minimum of 15 units to include nine units selected from Biology 315 or 327, Economics 452, 453, Geography 370, 409, or 573, and History 441 or 540; and six units selected from Biology 315, 324, 327, Economics 452, 453, 454, Geography 370, 570, 573, 574, 575, History 441, 540, Political Science 334, 335, Sociology 350. Also acceptable: Geological Sciences 303, Philosophy 332, Physics 301.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

* Additional prerequisites may be required for courses in the minor.

Middle East Studies Minor

Dr. Ross E. Dunn, Department of History, is adviser for this minor.

The minor in Middle East studies consists of a minimum of 15 units, 12 of which must be upper division, to include Political Science 363; Religious Studies 340*; six units from History 473, 474, 574; and three additional units selected with the approval of the adviser.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

* Additional prerequisites required.

Interdisciplinary Certificate

Environmental Studies Certificate

The Environmental Studies Certificate is designed for students already holding a bachelor’s degree (in any field) who desire to increase their understanding of the theoretical and applied approaches to environmental problems and issues. This is not a certificate program in the hard sciences, but rather is intended to provide diverse ways for students to develop knowledge of the causes and consequences of the human impact on the environment and the impact on humans of philosophical, political, economic, spatial, and natural science perspectives. This professional development program offers a multi-disciplinary approach to environmental studies for natural resource managers, teachers, community activists, and others who are concerned about the interaction of people and the environment.

Students must complete the required units with a 2.5 grade point average. A bachelor’s degree from a university is also required.

The certificate requires 15 units to include nine units selected from Economics 453, Geography 370, 573, International Security and Conflict Resolution 300, Oceanography 320, Political Science 334; and six units selected from Biology 315, 324, 327, Community Health Education 350, Economics 452, 454, 489, Geography 378, 409, 570, 572, 574, Geological Sciences 301, 303, History 441, 540, International Security and Conflict Resolution 301, Oceanography 541, Philosophy 332, Recreation 487. Core courses can be counted in only one category; 500-numbered courses may have substantial prerequisites, but may be counted later for graduate credit toward an M.A. degree. Students interested in the Environmental Studies Certificate will normally enroll in courses through Open University. Prior to enrollment, contact Dr. John R. Weeks, Department of Geography or Dr. Donna L. Ross, School of Teacher Education, to develop an approved program of coursework.
A member of AACSB—The International Association for Management Education.

Faculty

International Business is administered by the International Business Program Committee. The program draws on courses offered by faculty in the following areas: Accountancy, Africana Studies, American Indian Studies, American Studies, Anthropology, Art, Asian Studies, Chicana and Chicano Studies, Chinese, Communication, Comparative Literature, Economics, English, European Studies, Finance, French, Geography, German, History, Humanities, Information and Decision Systems, Italian, Japanese, Latin American Studies, Linguistics, Management, Marketing, Philosophy, Political Science, Portuguese, Public Administration, Religious Studies, Rhetoric and Writing Studies, Russian, Sociology, Spanish, and Women's Studies.

Chair: Loughrin-Sacco (European Studies)
Senior Academic Coordinator: Claudia Allen
Undergraduate Adviser: Mary Ann Dhuyvetter
Internship Director: Adler (Economics)
Committee: Adler (Economics), Butler (Management), Davies (History), Gerber (Economics), Higurashi (Japanese), Krentler (Marketing), Marino (Management), Padmanabhan (Finance), Rhyme (Management), Saghafi (Marketing), Salehizadeh (Finance), Schorr (European Studies)

Offered by International Business

Major in international business with the B.A. degree in liberal arts and sciences.

Emphases in language: Chinese, English, French, German, Italian, Japanese, Portuguese, Russian, and Spanish.

Emphases in regional/cultural studies: Africa, Asia, Latin America, Middle East, North America, Russia and Central Europe, and Western Europe.

The Major

International business is an interdisciplinary major that culminates in a Bachelor of Arts degree offered jointly by the College of Arts and Letters and the College of Business Administration. This program integrates coursework in business administration, foreign language, and regional/cultural studies. It offers students an opportunity to combine two emphases, one in a language and one in regional/cultural studies, and to create a focused program of study suited to their individual interests and career goals.

Students select one of nine emphases in foreign language (chosen from Chinese, English, French, German, Italian, Japanese, Portuguese, Russian, and Spanish) and one of seven emphases in regional/cultural studies (chosen from Africa, Asia, Latin America, Middle East, North America, Russia and Central Europe, and Western Europe). Students also complete the necessary business courses to meet accreditation standards of the AACSB for a major in business administration. A master plan of the courses taken to fulfill the major must be approved by the international business program adviser and filed with the Office of the Registrar one semester before graduation.

The international business program is one of the many activities sponsored by the SDSU Center for International Business Education and Research (CIBER). This Center is funded by the U.S. Department of Education and administered by SDSU's Colleges of Arts and Letters and Business Administration in order to promote international business education in the region and nationwide.

High school students who are planning to select this major are strongly advised to complete the following courses prior to admission to the University: four years of one foreign language; four years of mathematics; and courses in accounting, computer programming, economics, and world history.

Semester Abroad Requirement

All international business majors are required to complete a study abroad or internship abroad experience of at least one semester in length. One semester abroad consists of 180 hours of either coursework or internship. To complete the 180 hours abroad, international business majors studying abroad must complete an international business approved program (for the most current listing, consult the International Business Exchanges and Multiple Degree Programs office). Study abroad programs not among approved international business study abroad programs will not be considered to meet the semester abroad requirement for the major. International business majors interning abroad complete a 180-hour internship with the approval of the international business internship director. The internship abroad will also fulfill the International Business 495 course requirement for the major.

Impacted Program

The international business major is an impacted program. Students must apply to enter the University under the international business premajor code (80000). Before enrolling in any upper division courses in business administration, students must advance to the upper division international business major and be admitted into the international business major code (05131). To be admitted to the international business major, students must meet the following criteria:

a. Complete with a grade of C or higher: Accountancy 201 and 202; Economics 101 and 102; Economics 201 or Statistics 119; Finance 140; and Information and Decision Systems 180. Courses cannot have been taken prior to Fall 1992. These courses cannot be taken for credit/no credit (Cr/NC);

b. Complete or test out of one language sequence: Chinese 101, 102, 201, 202 (20 units); French 100A, 100B, 201, 210, 220, 221 (22 units); German 100A, 100B, 200, 205A, 205B (21 units); Italian 100A, 100B, 201, 210 (16 units); Japanese 111, 112, 211, 212 (24 units); Portuguese 101, 201 (10 units); Russian 100A, 100B, 200A, 200B, 211 (23 units); or Spanish 101, 102, 103, 202, 211, 212 (22 units). For English, Communication 103 and 204, Information and Decision Systems 290 Rhetoric and Writing Studies 100 or Linguistics 100, Rhetoric and Writing Studies 200 or Linguistics 200 (15 units);

c. Complete a minimum of 56 semester units;

d. Clear the competency requirements in mathematics and writing. (Refer to Graduation Requirements section of this catalog for details);

e. Have a cumulative GPA of 2.90 or higher; and

f. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment). To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they
are accepted into the premajor at SDSU (assuming continuous enrollment). After satisfying the above supplementary admissions criteria, students must submit documentation (unofficial transcripts, grade cards, etc.) to the program adviser before they can be admitted to the upper division major.

**MEXUS Dual Degree**

MEXUS is a transnational dual degree program conducted in partnership with Southwestern College (SWC) in Chula Vista, California, and the Centro de Enseñanza Técnica y Superior (CETYS) and the Universidad Autónoma de Baja California (UABC) in Tijuana, Mexico. Students may enter the program at any of the four schools and must spend a minimum of two years of study each in the U.S. and Mexico.

Participants in the MEXUS program are enrolled in the International Business major at San Diego State University. In addition to completing 49 units of General Education requirements at SDSU, students in the MEXUS program must complete 101 units of International Business courses. Approximately one-half of all of these requirements are completed in Spanish while attending school in Mexico. Successful participants earn both the Bachelor of Arts degree in Liberal Arts and Sciences with a major in International Business, Emphases in Spanish and Latin America from SDSU, and the Licenciatura en Negocios Internacionales from either UABC or CETYS.

**SanDiQué Dual Degree**

The SanDiQué program is a partnership between San Diego State University and the University of Quebec. Students may enter the program at either of the two universities and must spend a minimum of one year of study in both the United States and Canada.

Participants in the SanDiQué program are enrolled in the International Business major at San Diego State University. In addition to completing 49 units of General Education requirements at SDSU, students in the SanDiQué program must complete 81 units of international business courses. Approximately one-quarter of all of these requirements are completed in French while attending school in Canada. Students are also required to participate in an internship program, which provides SanDiQué students with the opportunity to work for an international institution and to develop a network of contacts in the private or public community, a vital step toward employment after graduation.

**Project North America**

Project North America is a trinational program designed to increase the educational opportunities for university students to study abroad and participate as internships in the United States, Canada, and Mexico. Students are immersed in the culture and language of each of the NAFTA partners.

Project North America is a consortium of six universities; two each from the United States (San Diego State University and the University of North Carolina, Canada (Bishop’s University and Simon Fraser University), and Mexico (Centro de Enseñanza Técnica y Superior (CETYS) and Universidad de Guadalajara). Students enroll for one semester each in Canada and in Mexico, taking regular academic courses on transacting business in the host countries. The training and exchange curriculum is integrated into the student’s academic plan. Credit is received for all foreign coursework and normal progress toward the degree is maintained.

**Study Abroad Programs**

The international business program currently has direct exchange agreements with: Bishop’s University, Quebec, Canada; Centro de Enseñanza Técnica y Superior (CETYS), Mexico City and Tijuana, Mexico; Ecole Supérieure des Pratiques de Commerce International (Groupe ESSEC), Cergy Pontoise, France; Fachhochschule Reutlingen, Germany; Instituto Tecnológico 7 de Estudios Superiores de Monterrey (ITESM), 26 campuses throughout Mexico; Northeastern University, Shenyang, P.R. China; Pontificia Universidad Católica del Río de Janeiro (PUC-RIO), Rio de Janeiro, Brazil; Simon Fraser University, Vancouver, B.C., Canada; Universidad Autónoma de Baja California (UABC), Tijuana, Mexico; Universidad de Barcelona, Barcelona, Spain; Universidad del CEMA, Buenos Aires, Argentina; Universidad de Concepción, Concepción, Chile; Universidad de Guadalajara, Guadalajara, Mexico; Universidad de Guanajuato, Guanajuato, Mexico; Universidad de San Francisco, Quito, Ecuador; Universidad Técnica Federico Santa María, Valparaíso, Santiago, Rancagua and Talcáhano, Chile; Universidad de Valladolid, Valladolid, Spain; Universidad de Valparaíso, Valparaíso y Viña del Mar, Chile; and Universidad du Québec à Chicoutimi, Québec, Canada. Qualified International Business majors participating in an exchange program make normal progress toward the degree while generally paying SDSU fees only.

**Internships**

Students in the major complete internships in international business in the U.S. and abroad by enrolling in International Business 495. Students are urged to enroll in this course no later than a year prior to their graduation date. Those completing the internship abroad should enroll in the course a semester prior to leaving the United States. Enrollment after the University’s add deadline is not permitted.

**Honors Courses**

Honors courses in business that are independent of the University Honors Program are scheduled regularly. Students should consult the Class Schedule and contact the International Business Program office for information about participation in this program.

**Advising**

All students admitted to the University with a declared major in International Business are required to attend an advising meeting with the program adviser during their first semester on campus.

**International Business Major**

With the B.A. Degree in Liberal Arts and Sciences (Premajor Code: 80000U) (Major Code: 05131)

Applications from new students will be accepted by the University only during the months of August for the following spring semester and November for the following fall semester. Declaration of the preinternational business major will be accepted from continuing students only during August and January.

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major. International Business majors may not normally complete a minor in the College of Business Administration or in the language or regional/cultural emphases used to satisfy major requirements.

Preparation for the major courses in business and language may not be taken for Cr/NC; the minimum grade in each course in lower division business is C.

**Preparation for the Major.** (Complete I, II, and III: 38-51 units)

**I. Business:** Accountancy 201, 202; Economics 101, 102; Economics 201 or Statistics 119; Finance 140; and Information and Decision Systems 180, (21 units)

**II. Language Emphasis** (choose one language): The lower division language course requirements may also be satisfied by successful results on certain standardized language examinations; contact the adviser of the appropriate language department for details. Native speakers are strongly encouraged to avoid emphasizing their first language.

For English (Not open to native speakers of English nor to students who graduated from secondary school where English was the principal language of instruction nor to students with native-like fluency in English.)

Communica­tion 103 and 204; Information and Decision Systems 200; Rhetoric and Writing Studies 100 or Linguistics 100; Rhetoric and Writing Studies 200 or Linguistics 200. (15 units)

† Students choosing Chinese or Japanese language emphasis must complete the Asia regional/cultural emphasis.
French 100A, 100B, 201, 210, 220, 221, (22 units)
German 100A, 100B, 200, 205A, 205B, (21 units)
Italian 100A, 100B, 201, 210, (16 units)
Japanese 111, 112, 211, 212, (24 units) (Not open to speakers of Japanese who have completed compulsory education through junior high school in Japan.)
Portuguese 101, 201, (10 units)
Russian 100A, 100B, 200A, 200B, 211, (23 units)
Spanish 101, 102, 103, 202, 211, 212. Spanish 281 replaces 103 and 211; and Spanish 282 replaces 202 and 212 for U.S. Hispanics. See adviser in Spanish Department. (22 units)

† Students choosing Chinese or Japanese language emphasis must complete the Asia regional/cultural emphasis.
§ Students choosing Russian language emphasis must complete the Russia and Central Europe regional/cultural emphasis.

III. Regional/Cultural Studies Emphasis (choose one region):

Africa: History 100 and 101.
Latin America: Six units selected from History 115, 116 (recommended); Latin American Studies 101 (recommended).
Middle East: History 100 and 101.
North America: Six units selected from Chicana and Chicano Studies 141A-141B, History 109, 110 or 115, 116, or Political Science 101, 102.
Russia and Central Europe: Six units selected from Classics 140; History 105, 106 (recommended).
Western Europe: Six units selected from Classics 140; History 105, 106 (recommended).

Foreign Language Requirement. The language requirement is automatically fulfilled through coursework for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. (Complete I, II, and III below: 53-57 units) A minimum grade point average of 2.0 in each of the three areas is required for graduation.

I. Business. (All preparation for the major in the business and language portions of this major must be completed, plus additional supplementary admissions criteria must be met, before enrolling in any upper division courses in Business Administration):

Specialization: A minimum of 28 upper division units to include Finance 323, 329; Information and Decision Systems 302; Management 350, 405; Marketing 370, 376, and completion of one of the following areas of specialization:

Finance: Two 300 or 400-level courses in finance.
Management: Management 357 and one 300 or 400-level course in management, except Management 457.
Marketing: Two marketing courses at the 300-level or above.

II. Language Emphasis (choose one language): Students who have graduated from a secondary school whose primary language of instruction is the same as the language emphasis chosen in this major must still complete the upper division language courses. Contact International Business for details.

Chinese 301, 302, 431, 434, (12 units)
English (Not open to native speakers of English nor to students with native-like fluency in English.) Communication 307, 371; Linguistics 305W or Rhetoric and Writing Studies 305W or 500W; Information and Decision Systems 396W or Rhetoric and Writing Studies 503W. (12 units)
French 301, 302, 422, and 423. (12 units)
German 300 or 310, 301, 303, 420. (12 units)
Italian 301, 305A, 305B, 421. (12 units)

Japanese 311, 312, 321 or 322, 411. (16 units) (Not open to speakers of Japanese who have completed compulsory education through junior high school in Japan.)
Portuguese 301, 401, 443, 534 (for Western Europe Regional/Cultural Emphasis) or 535 (for Latin America Regional/Cultural Emphasis). (12 units)
Russian 301, 303; and two courses selected from 304, 501, 580. (12 units)
Spanish 301, 302 (or 381 and either 350, 491 or 493), 307, 497 (12 units). Spanish 381 replaces 301 and 302 for U.S. Hispanics; see adviser in Spanish Department.

Language Proficiency Assessment Requirement. Students are required to satisfy the Language Proficiency Assessment Requirement during or immediately following the semester in which they complete their last language course. To clear the language proficiency assessment, students must achieve a passing score on a language examination approved by the international business program. For further information concerning test dates and fees, contact the International Business Office.

III. Regional/Cultural Studies Emphasis (Choose one region. A maximum of five courses may be applied to the major.) All international business majors are required to complete a study abroad or internship abroad experience of at least one semester in length. See the international business adviser to arrange for the study abroad, and the internship adviser to contract for the internship. Students who choose the study abroad option are still required to fulfill International Business 495. Students who choose the internship abroad option may earn credit for International Business 495.

Africa: International Business 495, 498, and a minimum of nine units, with no more than six units from one department selected from Africana Studies 463, 470; Anthropology 449; Communication 371*; Comparative Literature 440; Economics 336, French 425; History 475, 476; Humanities 460; Political Science 364, 496*; Religious Studies 340; Women’s Studies 580*.

Asia: International Business 495, 498, and a minimum of nine units, with no more than two courses from one department selected from Anthropology 450, 452, 453, 582*; Asian Studies 331, 458*, 459*, 483, 560, 581, 596; Chinese 351*, 352, 431, 433*, 450*, 451*, Communication 371*; Comparative Literature 455, 460, 530; Economics 330, 336, 360, 365, 465; History 420, 421, 480, 561, 563, 564, 565, 566, 567, 569, 570; Japanese 321, 322, 412*, 421, 422, 496*; Philosophy 351, 575*; Political Science 362, 393, 496*, 562*, 575*; Religious Studies 401*, 403*.

Latin America: International Business 495, 498, and a minimum of nine units, with no more than six units from one department selected from Anthropology 442, 582*; Chicana and Chicano Studies 306, 310, 350A, 355, 375, 376, 380, 400; Communication 371*; Comparative Literature 445; Economics 336*, 360 (recommended); 365, 464, 565; Geography 323, 324, 353*; History 415, 416, 550, 551, 552, 554, 555, 556, 558, 559*; Latin American Studies 498, 530, 531, 560, 575, 580; Political Science 393, 481*, 496*, 566, 567, 568, 575*; Portuguese 536; Public Administration 580*; Sociology 556*; Spanish 341, 342, 406A, 406B, 491*, 492*, 493*; Women’s Studies 310*, 512, 580*.

* Indicates courses with prerequisites not included in requirements listed above.
+ These courses may be included in the major only with the written approval of the undergraduate adviser for international business.
% Indicates courses that may be used to satisfy the major requirement in regional/cultural studies emphasis when not used to satisfy the language emphasis.
# Two of these courses are required of students choosing Chinese to satisfy the language emphasis of the major.
& Required of students choosing Japanese to satisfy the language emphasis.
Examen Internacional de Negocios en Español

The Center for International Business Education and Research (CIBER) administers the Examen Internacional de Negocios en Español (EXIGE) each semester at SDSU. Students sit for the EXIGE examination during or immediately following the semester they take Spanish 497. Passage of this examination is required to clear the Language Proficiency Assessment Requirement for the Spanish language emphasis in international business.

Zertifikat Deutsch für den Beruf

The German program administers the Zertifikat Deutsch für den Beruf examination at the end of each spring semester. Students taking German 303 normally sit for the Zertifikat examination as a part of the course. Passage of this examination is required to clear the Language Proficiency Assessment Requirement for the German language emphasis in international business. Examination not available to native speakers of German.

Courses (I B)

LOWER DIVISION COURSES

296. Topics in International Business (1-3) Selected topics in international business. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit six units.

299. Special Study (3-6) Prerequisite: Pre-International Business major. Individual study. Maximum credit six units.

UPPER DIVISION COURSES (Intended for Undergraduates)

495. International Business Internship (3) I, II Cr/NC Prerequisites: Consent of instructor; upper division standing in the major. Internships with international business firms, nonprofit organizations, and government agencies in U.S. and abroad. Work done under joint direction of activity sponsor and instructor. Project report and internship conferences required. Maximum credit three units.

498. Doing Business Internationally (1) Cr/NC Prerequisites: Upper division status in the major and one 300-level foreign language course in the language of the student's emphasis. Business customs and protocol pertinent to a foreign language and the regions in which that language is spoken. Taught in Chinese, French, German, Italian, Japanese, Portuguese, Russian, and Spanish. Course is waived for students completing an approved study program or internship abroad and for students completing the language emphasis in English.

499. Special Study (1-6) Prerequisite: International business major. Individual study. Maximum credit six units.

UPPER DIVISION COURSE (Also Acceptable for Advanced Degrees)

596. Topics in International Business (1-3) Prerequisite: Upper division standing. Selected topics in international business. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit six units.
The international security and conflict resolution major is overseen by the Institute for International Security and Conflict Resolution (ISCOR) and administered by the International Security and Conflict Resolution (ISCOR) program committee. The major includes courses offered by faculty in the Colleges of Arts and Letters; Health and Human Services; Professional Studies and Fine Arts; and Sciences.

International security and conflict resolution are seen as involving more than international relations and the more traditional focus on military power and the threat or use of force. They extend into such areas as arms control, economic development, human rights and resources and the environment.

Faculty

ISCOR Program Director and Undergraduate Adviser:

McIlwain (Public Administration and Urban Studies)

ISCOR Curriculum Committee: Gupta (Public Administration and Urban Studies), McIlwain (Public Administration and Urban Studies), Sabbadini (Biology), Sweedler (Physics)

Offered by International Security and Conflict Resolution

Major in international security and conflict resolution with the B.A. degree in liberal arts and sciences.

The Hansen Chair in Peace Studies

International Security and Conflict Resolution plays a central role in the administration of the Hansen Chair in Peace Studies, an endowed chair responsible for organizing and coordinating activities focusing on the impact of resolution of various world and regional disputes. Appointees to the chair also serve as a member of the Advisory Board of the Fred J. Hansen Institute for World Peace.

The Major

International security and conflict resolution is an interdisciplinary program leading to a Bachelor of Arts degree in liberal arts and sciences. The program requires and integrates coursework from natural sciences, social and behavioral sciences, and humanities.

In order to provide both breadth and depth for the courses of study, all students are required to complete a set of courses addressing the major themes of the development of global systems and the nature of conflict and conflict resolution. All students must select an integrated set of courses from different disciplines focused on an area of specialization related to international security and conflict resolution in global systems, in cooperation, conflict and conflict resolution, or in environment and security.

Those completing the major will be prepared for careers in business, government, international relations or nonprofit organizations at the local, state, national or international level as they relate to international security and conflict resolution. Alternatively, majors will be prepared to pursue graduate or professional studies in a particular discipline or area related to international security and conflict resolution.

Advising

Students are required to meet with the undergraduate adviser in order to declare the major. All students admitted to the University with a declared major in international security and conflict resolution are urged to meet with the undergraduate adviser during their first semester on campus.

International Security and Conflict Resolution Major

With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 22103)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

It is strongly recommended that international security and conflict resolution majors consider either a minor or a second major in a foreign language. In addition, international security and conflict resolution majors may wish to obtain language certification in a foreign language or to include a period of study abroad. Many career positions related to an international security and conflict resolution major will require demonstrated competency in a foreign language.

It is also recommended that international security and conflict resolution majors consider either a minor, even a second minor, if a minor in a foreign language is taken, in an area studies programs, e.g., African Studies, Asian Studies, European Studies, Latin American Studies, or Middle East Studies. Many career positions related to an international security and conflict resolution major will require a strong background in a particular region and/or culture, perhaps tied in with a specific foreign language.

Majors should also seriously consider overseas study, whether for an academic year, a semester or during the intersession or the summer. The CSU International Programs offers a wide selection of study locales and learning environments. In addition, SDSU has bilateral agreements with more than one hundred universities throughout the world which may provide for student exchange and overseas study. Courses taken under the auspices of these and other programs may be accepted as part of the ISCOR program. Students should consult with the Undergraduate Adviser before enrolling in overseas study in order to clarify transferability and comparability of courses.

Preparation for the Major, (24 units) Economics 101, 102; History 101; Political Science 103; Religious Studies 101; and three units from each of the following groups:

(a) Anthropology 102 or Geography 102;
(b) Comparative Literature 270B, History 100, or Philosophy 101;
(c) Economics 201, Political Science 201, Psychology 270 or Sociology 201, Statistics 119 or 250.

Recommended for General Education in the Natural Sciences: In the Life Sciences, Biology 100 or 101; in the Physical Sciences, Chemistry 100, Geography 101 or Physics 107.

Foreign Language Requirement. It is strongly recommended that international security and conflict resolution majors consider either a minor or a second major in a foreign language. In addition, international security and conflict resolution majors may wish to obtain language certification in a foreign language. A minimum competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.
Major. A minimum of 36 upper division units to include 18 units in International Security and Conflict Resolution 300, 301, 310, 320 and either 495 or 497; Political Science 375; and 18 units from one of the three specializations: Global Systems; Cooperation, Conflict, and Conflict Resolution; or Environment and Security.

Specialization in Global Systems
This specialization focuses on the political, economic, and social characteristics of global systems, which include the study of international relations, comparative regional studies, and internationally mobile populations. An understanding of global systems will provide the context for analyzing issues of international security, cooperation and conflict.

Requirements for specialization. A minimum of 18 units to include Economics 360; six units selected from Economics 330; History 486; Political Science 577; six additional units from courses listed above or from Aerospace Studies 400B; Anthropology 350; American Studies 561; Chicana and Chicano Studies 306; Economics 336 or 365; Geology 312, 554; History 408 or 486 or 511B or 512A or 512B; History 543 or 544B; Political Science 361 or 478 or 479 or 481 or 555 or 560; Sociology 350; Women’s Studies 580; and three units from Asian Studies 459; Chicana and Chicano Studies 355; History 421, 474, 476, 555, 564, 565; Political Science 363, 364, 566.

Specialization in Cooperation, Conflict, and Conflict Resolution
This specialization is concerned with exploring the causes, nature, consequences, management, and resolution of conflict at the societal level. It will consider the psychology, sociology, economics, politics and history of cooperation, conflict and conflict resolution. It will address issues of war and peace, nationalism, civil war, terrorism and ethnic hostility as they impact international security.

Requirements for specialization. A minimum of 18 units to include nine units selected from Africana Studies 445; Psychology 340; or Sociology 410; Biology 339; Communication 371; Philosophy 512; Political Science 302, 370; Political Science 531; Sociology 457; or Women’s Studies 530; Political Science 577; Religious Studies 354 or Sociology 338; Social Work 350; Sociology 433; 537; and nine units selected from the following courses including at least three units selected from Africana Studies 321, 448; American Indian Studies 400; Geography 337; History 486, 511B, 512A, 514, 533B, 556, 574; Political Science 363, 364, 566; Sociology 355; Women’s Studies 375, 536; and at least three units selected from Africana Studies 325, 452; Communication 408; Philosophy 329; Political Science 479, Public Administration 530.

Specialization in Environment and Security
Issues related to the environment and the utilization of energy and natural resources are important aspects of international security and often are related to cooperation and conflict between nations and groups within states. The purpose of this specialization is to provide the student with the necessary background to better understand this aspect of international security and the management and resolution of conflict.

Requirements for specialization. A minimum of 18 units to include nine units selected from Biology 315; Community Health Education 362; Economics 452; Geography 370; Physics 301; Political Science 334; Sociology 350; and nine units selected from the courses listed above or from Biology 324, 339, 354; Community Health Education 350; Economics 453, 489; Geography 378, 570, 574; History 441; Natural Science 333; Philosophy 329, 332, 333.

Courses (ISCOR)

UPPER DIVISION COURSES
( Intended for Undergraduates)

300. Global Systems (3) I
Prerequisite: Nine units of General Education requirements in Foundations, to include three units each in Natural Sciences and Quantitative Reasoning, in Social and Behavioral Sciences, and in Humanities.
Evolution and development of global systems, characteristics of contemporary and global systems and formulation of criteria for projecting the future of the systems.

301. Conflict and Conflict Resolution (3) II
Prerequisite: Nine units of General Education requirements in Foundations, to include three units each in Natural Sciences and Quantitative Reasoning, in Social and Behavioral Sciences, and in Humanities.
Conflict resolution as an emerging field; theories of conflict; methods and implications of conflict management including group, institutional, and international level analysis.

310. Our Global Future: Values for Survival (3) I
Prerequisite: Completion of the General Education requirement in Foundations II.B. Social and Behavioral Sciences.
Identifies resource and social crises toward which contemporary American values are leading, examines the nature of human action; contrasts other value systems with ours; considers origins of our values and the individual’s potential for changing them. Interdisciplinary; team taught.

320. International Security in the Nuclear Age (3) II
Prerequisites: Upper division standing. Nine units of General Education requirements in Foundations, to include three units each in Natural Sciences and Quantitative Reasoning, in Social and Behavioral Sciences, and in Humanities.
International security issues from historical, ethical, economic and sociopsychological perspectives, including the security environment after the Cold War and current sources of conflict. The proliferation of weapons of mass destruction, including nuclear weapons is discussed.

495. Internship in International Security and Conflict Resolution (3) II
Prerequisites: Senior standing. Nine units of international security and conflict resolution core courses and nine units in selected specialization. Consent of instructor.
Supervised internship of 150 hours in government or nongovernmental agency, office or business in an area directly related to international security and conflict resolution.

496. Selected Topics in International Security and Conflict Resolution (1-3)
Selected topics in international security and conflict resolution. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 496, 496, 596 courses applicable to a bachelor’s degree.

497. Thesis in International Security and Conflict Resolution (3) I, II
Prerequisites: Senior standing. Nine units of international security and conflict resolution core courses and nine units in selected specialization. Consent of instructor.
An original and comprehensive written description and analysis of a problem or problem area in international security and conflict resolution.

499. Special Study (1-3) I, II
Prerequisites: Consent of instructor. Six units of international security and conflict resolution core courses and six units in specialization. Individual study. Maximum credit six units.
Minor in Italian.
Major in international business, with emphasis in Italian.

Interdisciplinary Studies in Three
Italian Minor

Faculty
Emeritus: Vergani, G., Vergani, L.
Chair: Schorr
Assistant Professor: Guidotti
Lecturer: Fellin

Offered by the Department of European Studies
Major in European studies, with emphasis in Italian.
See European Studies.
Major in international business, with emphasis in Italian.
See International Business.
Minor in Italian.

Italian Minor
The minor in Italian consists of a minimum of 15 units in Italian, nine units of which must be in upper division courses in the language, with a minimum of six upper division units completed in residence at San Diego State University.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Students who minor in Italian are strongly encouraged to participate in the California State University International Programs (CSU-IP) and other approved study abroad programs in Italian-speaking countries.

Interdisciplinary Studies in Three Departments
Students selecting Italian as one of their departments in this major must complete Italian 301, all lower division competency requirements, and at least two upper division Italian courses.

Foreign Language Requirement for the B.A. Degree in Liberal Arts and Sciences
Students electing the study of Italian to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Italian 201 or 210 or the equivalent level of achievement. The usual sequence of coursework is Italian 100A, 100B, and 201 or 210. Refer to section of catalog on “Graduation Requirements” for additional ways to satisfy competency.

High School Equivalents
High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

Secondary school language courses can be used as follows:
1. The first two years of high school level language count as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.
2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.
3. Four years of high school level language count as the equivalent of three college semesters or five college quarters, thus fulfilling the foreign language requirement.

Courses (ITAL)

LOWER DIVISION COURSES
Native speakers of Italian will not receive credit for taking lower division courses in Italian except with advance approval from the department.

All lower division courses in Italian are taught in Italian.
No credit will be given for lower division courses taken after successfully completing any upper division Italian course taught in Italian.

No credit will be given when Italian 100A, 100B, 201/210, or 301 are taken concurrently or out of sequence. However, Italian 201 and 210 may be taken in any order or concurrently.

100A. Elementary Italian I (5) I, II
Pronunciation, speaking and writing, readings on Italian culture and civilization, essentials of grammar. Not open to students who have completed three years of high school Italian unless the third course was completed five or more years ago.

100B. Elementary Italian II (5) I, II
Prerequisite: Italian 100A or two years of high school Italian.
Continuation of Italian 100A. Not open to students who have completed four years of high school Italian unless the fourth course was completed five or more years ago.

201. Reading and Speaking Italian (3) I
Prerequisite: Italian 100B or three years of high school Italian. Italian minors and international business majors are encouraged to enroll concurrently in Italian 210 when available. Recommended for students wanting to satisfy the Foreign Language Graduation Requirement (FLGR).
Emphasis on spoken language with readings of cultural material serving as a basis for discussion. (Formerly numbered Italian 200B.)

210. Intermediate Grammar and Composition (3) II
Prerequisites: Italian 100B or three years of high school Italian. Italian minors and international business majors are encouraged to enroll concurrently in Italian 210 when available.
Comprehensive survey of Italian grammar at intermediate level. Study of a variety of prose models and practice in writing. (Formerly numbered Italian 200.)

296. Topics in Italian Studies (1-4)
Prerequisite: Italian 100B or three years of high school Italian.
Topics in Italian language and culture. May be repeated with new content. Taught in Italian. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.
UPPER DIVISION COURSES  
(Intended for Undergraduates)  

All upper division Italian courses are taught in Italian unless otherwise noted.  
Italian 301 is not open to students who hold the Italian secondary school diploma.  

301.  Advanced Oral and Written Composition  (3)  
Prerequisites: Six units of 200-level Italian, and completion of the General Education requirement in Foundations II.C., Humanities.  
Grammar review. Reading of modern Italian prose, with written reports and oral discussions in Italian.  

305A.  Italian Literature  (3)  
Prerequisites: Six units of 200-level Italian, and completion of the General Education requirement in Foundations II.C., Humanities.  
Important movements, authors and works in Italian literature from Middle Ages to the Renaissance.  

305B.  Italian Literature  (3)  
Prerequisites: Six units of 200-level Italian.  
Continuation of Italian 305A from the Renaissance to the present.  

421.  Italian Civilization  (3)  
Prerequisites: Six units of 200-level Italian, and completion of the General Education requirement in Foundations II.C., Humanities.  
Major aspects of Italian civilization with emphasis on art, music, history, and cinema.  

496.  Selected Topics  (1-4)  
Topics in Italian language, literature, culture and linguistics. Conducted in English or in Italian. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit eight units.  

499.  Special Study  (1-3) I, II  
Prerequisites: Italian 301 and 305A or 305B.  
Individual study. Maximum credit six units. This course is intended only for students who are currently enrolled in or who already have credit for all upper division courses in Italian available in any given semester.
Minor in Japanese.

A major in Japanese is also a good preparatory curriculum for graduates an advantage in looking for positions in Japan in such agencies, the press corps, and the tourism industry. It also gives publishers, as well as internationally oriented companies, government the United Nations, international conferences, trade councils, and as interpreters and translators employed by the federal government, the Nationals, international conferences, trade councils, and publishers, as well as internationally oriented companies, government agencies, the press corps, and the tourism industry. It also gives graduates an advantage in looking for positions in Japan in such areas as language teaching, business consulting, or journalism.

The Major

Japanese is the fastest growing language in U.S. higher education. Due to the interdependence between the U.S. and Japan, as well as Japan's role in the world economy, the importance of Japanese has become evident.

Students who major in Japanese will gain proficiency in Japanese language skills, and the department offers a broad variety of courses designed to prepare majors for a number of careers after graduation. A major in Japanese is also a good preparatory curriculum for graduate programs in such areas as international business, international law, librarianship, public administration, and journalism.

A knowledge of Japanese is a valuable asset in finding positions as interpreters and translators employed by the federal government, the United Nations, international conferences, trade councils, and publishers, as well as internationally oriented companies, government agencies, the press corps, and the tourism industry. It also gives graduates an advantage in looking for positions in Japan in such areas as language teaching, business consulting, or journalism.

Advising

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters are declaration or change of major.

Japanese Major

With the B.A. Degree in Liberal Arts and Sciences (Major Code: 11081)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 56 units in Japanese courses can apply to the degree.

Students majoring in Japanese must complete a minor in another field to be approved by the departmental adviser in Japanese.

All students with transfer credits must take placement test at the Test Office at SDSU.

Note: Speakers of Japanese who have completed compulsory education through junior high school in Japan, or those who pass level one of the Japanese Language Proficiency Test, created and edited by The Association of International Education and the Japan Foundation, or equivalent, will receive no credit for Japanese 311, 312, 321, 322, 411, 412, 421, and 422.

Preparation for the Major. Japanese 111, 112, 211, and 212. (24 units) A maximum of 24 lower division units of Japanese courses may be used to satisfy degree requirements.

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through coursework for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 32 upper division units in Japanese to include Japanese 311, 312, 321, 322, 411, 412, 421, and 422.

Japanese Minor

The minor in Japanese consists of a minimum of 24 units in Japanese, at least 12 units of which must be in upper division courses.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of eight upper division units must be completed in residence at San Diego State University, and a proficiency level equal to that of Japanese 411 must be demonstrated.

Foreign Language Requirement for the B.A. Degree in Liberal Arts and Sciences

Students electing the study of Japanese to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Japanese 211 or the equivalent level of achievement. The usual sequence of coursework is Japanese 111, 112, and 211. Refer to section of catalog on “Graduation Requirements” for additional ways to satisfy competency.

High School Equivalents

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

Secondary school language courses can be used as follows:

1. The first two years of high school level language count as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.

2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.

3. Four years of high school level language count as the equivalent of three college semesters or five college quarters, thus fulfilling the foreign language requirement.
Japanese Language Proficiency Test

The Japanese language proficiency test is taken to assess the proficiency level and to place students at the most appropriate level in the curriculum of the Japanese language program at San Diego State University. Students who have special backgrounds, and those SDSU students who took Japanese elsewhere, including SDSU students who participated in exchange programs, are required to meet with the program adviser and to take this examination. Test dates and times are listed in the “Special Tests” section of the current Class Schedule.

Courses (JAPAN)

LOWER DIVISION COURSES

Native speakers of Japanese will not receive credit for taking lower division courses except with advance approval from the department.

All lower division courses in Japanese are taught in Japanese.

No credit will be given for lower division courses taken after successfully completing any upper division Japanese course taught in Japanese.

No credit will be given for Japanese 111, 112, 211, 212 taken out of sequence.

111. Elementary Japanese I (6) I
Six lectures and one hour of laboratory.
Elementary language skills: fundamental grammar, idiomatic expressions, hiragana, katakana, and basic kanji characters. Reading, writing, speaking, oral-aural drills, and relationship between language and culture. Not open to students who have completed three years of high school Japanese unless the third course was completed five or more years ago. (Formerly numbered Japanese 101.)

112. Elementary Japanese II (6) II
Six lectures and one hour of laboratory.
Prerequisite: Japanese 111. Preparation for Japanese 211. Not open to students who have completed four years of high school Japanese unless the fourth course was completed five or more years ago. (Formerly numbered Japanese 102 and 202.)

211. Intermediate Japanese I (6) I
Six lectures and one hour of laboratory.

212. Intermediate Japanese II (6) II
Six lectures and one hour of laboratory.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES

(Intended for Undergraduates)

All upper division courses in Japanese are taught in Japanese unless otherwise stated.

No credit will be given for Japanese 311, 312, 411, 412 taken out of sequence.

311. Third Year Japanese I (4) I
Four Lectures and one hour of laboratory.
Prerequisites: Japanese 212 and completion of the General Education requirement in Foundations II.C., Humanities.

312. Third Year Japanese II (4) II
Four lectures and one hour of laboratory.
Prerequisites: Japanese 311 and completion of the General Education requirement in Foundations II.C., Humanities.
Further strengthening of communication skills in Japanese; various literary styles; introduction of chugaku kanji. Social and economic issues in Japan and the U.S.; cultural values shaping business conduct in Japan; characteristics of Japanese management; intercultural communication. Preparation for Japanese 411.

321. Advanced Japanese Discourse (4)
Prerequisite: Japanese 212.
Varieties of Japanese such as broadcasting Japanese, lectures, business negotiations, and ceremonial discourses. Focus on listening comprehension.

322. Advanced Conversation Through Media (4)
Prerequisite: Japanese 311.
Development of advanced conversation skills through understanding and analysis of social and linguistic aspects of modern Japanese drama. Role play, practical vocabulary, and useful expressions; conversation on assigned topics.

411. Fourth Year Japanese I (4)
Prerequisite: Japanese 312.
Continuation of Japanese 312. Further strengthening of communication skills in Japanese; various literary styles; more chugaku kanji. Social and economic issues in Japan and in the U.S.; cultural values shaping business conduct in Japan; characteristics of Japanese management; intercultural communication. Preparation for Japanese 412.

412. Fourth Year Japanese II (4)
Prerequisite: Japanese 411.
Continuation of Japanese 411. Further strengthening of communication skills in Japanese; various literary styles; all joyo kanji. Social and economic issues in Japan and the U.S.; cultural values shaping business conduct in Japan; characteristics of Japanese management; intercultural communication.

421. Japanese Literature Through Text and Film (4)
Prerequisite: Japanese 312.
Japanese literature from earliest times to present. Major works of modern Japanese fiction as a literary genre and their cinematic interpretation.

422. Newspaper Reading and Advanced Composition (4)
Prerequisite: Japanese 411.
Advanced readings in general and specialized texts selected from current newspapers and magazines published in Japan. Discussion of text and development of related compositions.

496. Topics in Japanese Studies (1-4)
Topics in Japanese language, literature, culture and linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit eight units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.
Faculty
Faculty assigned to teach courses in Judaic studies are drawn from departments in the College of Arts and Letters.
Chair: Baron (History)
Committee: Bar-Lev (Linguistics), Cayleff (Women's Studies), Chandler (Sociology), Cummins-Lewis (English), Grossbard-Shechtman (Economics), Kohn (Religious Studies), Koster (Information and Decision Systems), Moore (Religious Studies), Shapovalov (Russian), Sheres (English and Comparative Literature), Strom (Teacher Education), Wood (Sociology)

Offered by Judaic Studies
Minor in Judaic studies.

San Diego State University is in the process of securing approval for a consortial Jewish studies major within the California State University system. Courses will be drawn from San Diego State University; California State University, Chico; California State University, Long Beach; and San Francisco State University.
For further information, contact Dr. Lawrence Baron, Department of History.

The Minor
The minor in Judaic studies provides a balanced interdisciplinary study of Jewish contributions to world culture and history. It serves the needs of students who plan to (1) specialize in disciplines in which an understanding of Jewish contributions is essential, or (2) follow careers in teaching, community service, foreign service, or the ministry. Students seeking a minor in Judaic studies may want to consider combining it with a major in Social Science with an emphasis on Africa and the Middle East. Many courses relevant to this major are available in anthropology, economics, geography, history, political science, and sociology.

Judaic Studies Minor
Dr. Lawrence Baron, Department of History, is adviser for this minor.

The minor in Judaic studies consists of a minimum of 19-20 units to include seven to eight units selected from Humanities 130 and Hebrew 101, 102, or 201; and 12 upper division units selected from Comparative Literature 405; History 436, 440, 488, 574; Religious Studies 301, 320, 330; Judaic Studies 496; Hebrew 496; and other relevant courses may be counted as part of the 12 upper division units taken with the approval of the adviser for Judaic Studies.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (JUDST)

LOWER DIVISION COURSES
100. New Perspectives in Judaic Studies (1) Cr/NC I, II
New interpretations of Jewish history, culture, and social issues. Presentations from perspective of various disciplines. Contemporary issues.

296. Topics in Judaic Studies (1-3)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)
495. Judaic Studies Internship (3) Cr/NC
Six hours per week at agency and one hour every other week with SDSU supervising faculty member. Prerequisite: Upper division status and consent of supervising instructor. Internship with local Jewish service agencies and non-profit organizations. Work to be done under direction of activity supervisor and SDSU instructor. Written project report and internship conferences required every other week with SDSU faculty adviser. Maximum credit six units.

496. Topics in Judaic Studies (1-3)
Prerequisite: Upper division status. Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

“I would rather fail in a cause that will ultimately triumph than to triumph in a cause that will ultimately fail.”

Latin American Studies
In the College of Arts and Letters

OFFICE: Storm Hall 146
TELEPHONE: (619) 594-1103

Faculty
Latin American studies is administered by the Latin American Studies Committee. Faculty assigned to teach courses in Latin American studies are drawn from the Departments of Anthropology, Art, Chicana and Chicano Studies, Communication, Comparative Literature, Economics, Geography, History, Political Science, Public Administration and Urban Studies, Sociology, Spanish and Portuguese Languages and Literatures, and Women’s Studies; and the College of Business Administration.

Chair and Undergraduate Adviser:
Committee: Amuedo-Dorantes (Economics), Ball (Anthropology), Carruthers (Political Science), De la Luz Ibarra (Chicana and Chicano Studies), Del Castillo (Chicana and Chicano Studies), Espin (Women’s Studies), Fredrich (Geography), Ganster (Institute for Regional Studies of the Californias), Gerber (Economics), Godoy (Spanish), Gorbach (Public Health), Griffin (Geography), Griswold del Castillo (Chicana and Chicano Studies), Hartung (Communication), Herzog (Public Administration and Urban Studies), Hicks (English and Comparative Literature), Hidalgo (Spanish), Iglesias Prieto (Chicana and Chicano Studies), Lipold (Anthropology), Loverman (Political Science), Lyman-Hager (Language Acquisition Resource Center), Martin-Flores (Spanish), Mattingly (Geography and Women’s Studies), Murillo (History), Muzzquiz-Guerrero (Spanish), Nericcio (English and Comparative Literature), Nuñez (Chicana and Chicano Studies), Ojeda (Sociology/Chicana and Chicano Studies), Ortiz (Chicana and Chicano Studies), Rivera-Garza (History), Robinson (Spanish), Rodriguez (Chicana and Chicano Studies), Silverman (Portuguese), Strejilevich (Spanish), Stromberg (Language Acquisition Resource Center), Talavera (Public Health), Villarino (Chicana and Chicano Studies), Waisman (Spanish), Watson, M. (Women’s Studies), Weeks (Geography), Wilson (Spanish), Young (Spanish).

Offered by Latin American Studies
Master of Arts degree in Latin American studies. Major in Latin American studies with the B.A. degree in liberal arts and sciences. Minor in Latin American studies.

The Major
The major in Latin American studies is a multidisciplinary program designed to provide an effective understanding of the cultures and governments of Latin America, offering basic education and training for business or professional careers that require specialized knowledge of this exciting and diverse area of the world.

A major in Latin American studies provides a multitude of career opportunities. Employment possibilities exist not only in Latin America, but throughout the world. Graduates can apply their specialization to service in international organizations and government positions at the federal or state level. Numerous employment situations can be found in the private sector. Private agencies and corporations have significant interests in Latin America and are looking for area specialists. Those students who wish to continue in their studies will find opportunities in teaching at all levels. A major in Latin American studies opens many avenues in the choice of a career.

High school students preparing to enter this program should meet with their department adviser within the first two semesters after declaration or change of major.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible. Students are required to meet with their department adviser within the first two semesters after declaration or change of major.

Latin American Studies Major
With the B.A. Degree in Liberal Arts and Sciences (Major Code: 03081)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

Preparation for the Major.
Portuguese 101, 201, and 301 or Spanish 101, 102, 103, 202, 211, 212 (13-22 units); 12 units selected from Anthropology 102, Economics 101 and 102, Geography 102, History 115, 116, Latin American Studies 101, Political Science 101 and 103.

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units selected from courses in anthropology, art, Chicana and Chicano studies, economics, geography, history, Latin American studies, political science, Portuguese, sociology, Spanish, and women’s studies, with not less than 12 units in one field and nine in each of two other fields. At least 33 units must be in courses having Latin American content.

Courses acceptable for the Latin American studies major include:

Courses numbered 496, 499, and 596 of relevant content in the above departments may be used for the Latin American studies major.

* Indicates course with prerequisites not included in requirements listed above.
* Acceptable when of relevant content.

Latin American Studies Major
(Imperial Valley Campus)
With the B.A. Degree in Liberal Arts and Sciences (Major Code: 03081)

At the Imperial Valley campus the major in Latin American studies is essentially the same as the Latin American studies major offered at the San Diego campus.

It is designed to provide (1) a foundation of understanding of the history, culture and governments of the countries of Latin America.
and the multiple interrelationships among those countries; and (2) a basic education and training for a business or professional career involving understanding of Latin America.

A minor is not required with this major.

Preparation for the Major. The lower division preparation for the major can be fulfilled by taking the following courses at a community college, or their equivalent: elementary Spanish; intermediate Spanish or bilingual Spanish; intermediate conversational Spanish or bilingual oral Spanish; advanced conversational Spanish; and 12 units selected from cultural anthropology, cultural geography, history of the Americas, introduction to political science, comparative politics, and civilization of Spanish America and Brazil.

A minimum grade point average of 2.0 is required for all work attempted.

Foreign Language Requirement. The foreign language requirement for graduation is automatically fulfilled through coursework for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units selected from the courses listed below with not less than 12 units in one field and nine in two other fields. At least 33 units must be in courses having Latin American content: Anthropology 442; Art 496 (when relevant); Chicana and Chicano Studies 335, 350A, 376; Economics 365, 464, 496 (when relevant); Geography 323, 324, 496 (when relevant); History 415, 416, 496 (when relevant); 550, 551, 552, 558; Political Science 566, 567, 568; Sociology 350, 450, 556 (when relevant); Spanish 406A-406B, 513; Women's Studies 310 (when relevant).

Latin American Studies Minor*

The minor in Latin American studies consists of a minimum of 15 units of Latin American content courses. At least 12 of these units must consist of upper division courses. In addition, students must complete Spanish 103 or Portuguese 101 or the equivalent. No more than six units may be drawn from any one department's or program's offerings. Units may be selected from among the following:

Latin American Studies 101, 495, 498, 530, 531, 560, 575, 580; Anthropology 442, 582 (when relevant); Chicana and Chicano Studies 306, 310, 335, 340, 350A, 355, 375, 376, 380, 498; Comparative Literature 445; Economics 336, 360, 365, 464, 565, 592; Geography 323, 324; History 306, 415, 416, 444, 550, 551, 552, 554, 555, 556, 558, 559; Music 596; Political Science 361, 566, 567, 568, 577; Portuguese 535; Public Administration 580 (when relevant); Sociology 350 (when relevant), 450 (when relevant), 555, 556 (when relevant); Spanish 341*, 342*, 406A-406B, 513, 520; Television, Film, and New Media 363 (when relevant), 562; Women's Studies 310 (when relevant), 580 (when relevant).

Courses numbered 496, 499, and 596 of relevant content in the above departments may be used for the Latin American studies minor.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University. In designing their Latin American studies programs for a minor, students may not include courses drawn from their major department.

* Additional prerequisites may be required for courses in the minor.

Courses (LATAM)

LOWER DIVISION COURSE

101. Latin American Heritage (3)
Introduction to Latin American cultures and peoples from an interdisciplinary perspective.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

495. Latin American Studies Internship (3) Cr/NC I, II
Prerequisite: Six upper division units in Latin American content courses.
Opportunity for Latin American studies undergraduates to implement area specialist skills. Placement with a local organization with legal, commercial, or social service functions whose activities are primarily Latin American related.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 496, 496, 596 courses applicable to a bachelor's degree.

498. Seminar on Latin America (3)
Exploration of the interdisciplinary approach to Latin America including evaluation of relevant resources and methods. Taught by a team of instructors representing two or more disciplines.

499. Special Study (1-3)
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

530. Civilization and Culture of Pre-Columbian America (3)
Prerequisite: Upper division standing.
Indigenous cultures of U.S./Mexico border region, Mexico, Central America from a multidisciplinary perspective. Geographical, religious, political, economic, and social realities.

531. Visual Representation of Latin American Culture (3)
Prerequisite: Upper division standing.
Latin American civilization and culture from the Encounter to present. Visual expressions of culture including rituals, ceremonies and festivals, examined from a multi-disciplinary perspective.

560. Latin America After World War II (3)
Prerequisites: Latin American Studies 101; History 115, 116; and either Political Science 566 or consent of instructor.
Major socioeconomic and political changes in Latin America since World War II and inter-American relations during the same period. Includes guest lecturers.

575. Art and Culture in the U.S./Mexico Border Region (3)
Prerequisite: Upper division standing.
Settlement and culture along the U.S./Mexican border seen through a multi-disciplinary study of art, architecture, artists, and patronage.

576. Frida Kahlo and Her Circle: Mexican Artists and the Challenge of Modernity (3)
Prerequisite: Upper division standing.
Work and life of Frida Kahlo, her influence on artists and thinkers who shared her world, and influence she continues to have on art of Mexico and the U.S.

580. Special Topics (1-4)
Prerequisite: Six upper division units in Latin American content courses.
Interdisciplinary study of selected Latin American topics. Credit will vary depending on the scope and nature of the topic. Whenever appropriate, the course will be taught by a team of instructors representing two or more disciplines. May be repeated with different content. See Class Schedule for specific content. Maximum credit eight units.
The liberal studies major is an impacted program. Students must enter the University under the liberal studies premajor code (14012). To be admitted to the liberal studies major, students must meet the following criteria:

Requirements for Subject Matter Preparation Certification

For subject matter certification needed to enter a credential program, a student must complete all the requirements, including a satisfactory portfolio, and earn a “C” or better grade in all but one of the courses in the major and specialization (or minor). If a course is repeated, the higher grade will count.

Impacted Program

The liberal studies major is an impacted program. Students must enter the University under the liberal studies premajor code (14012). To be admitted to the liberal studies major, students must meet the following criteria:

The liberal studies major is an impacted program. Students must enter the University under the liberal studies premajor code (14012). To be admitted to the liberal studies major, students must meet the following criteria:

Requirements for Subject Matter Preparation Certification

For subject matter certification needed to enter a credential program, a student must complete all the requirements, including a satisfactory portfolio, and earn a “C” or better grade in all but one of the courses in the major and specialization (or minor). If a course is repeated, the higher grade will count.

Impacted Program

The liberal studies major is an impacted program. Students must enter the University under the liberal studies premajor code (14012). To be admitted to the liberal studies major, students must meet the following criteria:

a. Complete with a grade of C or higher: Communication 103; Exercise and Nutritional Sciences 241A and 241B, Linguistics 420, Mathematics 210 and 211, and Rhetoric and Writing Studies 200. These courses cannot be taken for credit/no credit (Cr/NC);

b. Clear the competency requirements in mathematics and writing. Refer to Graduation Requirements section of this catalog for details;

c. Complete a minimum of 56 semester units;

d. Have a cumulative GPA of 2.5 or higher;

e. Contact the Advising Center for information about declaring a Liberal Studies major; and

f. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Courses (Lib S)

UPPER DIVISION COURSES (Intended for Undergraduates)

300. Introduction to Liberal Studies (3)
Prerequisites: Preparation for the major completed or to be completed concurrently. Completion of lower division Writing Competency and Entry-Level Mathematics requirements. Introduction to ideas, structures, and values within and among the various disciplines in this interdisciplinary major. Exploration of issues of diversity in contemporary society through directed field experience and required readings. Individual qualitative evaluation process required by major included.

498. Assessment in Liberal Studies (0.5-1) Cr/NC
Prerequisites: Successful completion of two upper division semesters of liberal studies major; upper division major code. Portfolio development including reflections upon educational experiences in each subject area and role as future educator. Students will explore differences between subject areas and reflect upon learning and teaching.

Liberal Studies Major

With the B.A. Degree in Liberal Arts and Sciences
(Premajor Code: 49012) (Major Code: 49015)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” Completion of the Liberal Studies major fulfills General Education requirements.

A minor is not required with this major.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Preparation for the Major. (54 units)

Language and Literature
4. Literature – Three units selected from Comparative Literature 270A, 270B, English 220.

Mathematics

Science
7. Life Sciences – Three units (or four units including laboratory) selected from Biology 100, 100L, 101, 101L.
8. Physical or Earth Sciences – Three units (or four units including laboratory) selected from the physical sciences to include Chemistry 100; Natural Science 100; Physics 107; or three units (or four units including laboratory) selected from earth sciences to include Astronomy 101, 109; Geography 101, 101L, 103; Geological Sciences 100, 101.
9. Laboratory – from either category 7 or 8.

Social Science and History
10. Social/Global Perspective – Anthropology 102, Geography 102, or Sociology 101.
11. Western or World History – Three units selected from History 100, 101, 105, 106.
12. American Institutions – Six units selected from General Education American Institutions courses (see section of catalog on “Graduation Requirements” for approved list).

Visual and Performing Arts and Humanities
14. Art/Dance/Theatre – Three units selected from Art 157, 158, 258, 259; Dance 181; Theatre 100, 120.
15. Values and Ethics – Three units selected from Philosophy 101, 102, 103; Religious Studies 101, 102.

Physical Education
16. Physical Education – Exercise and Nutritional Sciences 241A, 241B.

Human Growth and Development
17b. Child Development – Psychology 230. Upper Division Writing Requirement. English 306W (very strongly recommended) or Rhetoric and Writing Studies 500W, with a grade of C (2.0) or better.

Upper Division Major. (43.5 units) Many courses are open only to students in the upper division Major Code 49015 (see footnotes in the Class Schedule). The requirements for changing from the lower division to the upper division major code are listed above under “Impacted Program.”

Introduction to the Major
18. Liberal Studies 300.

Language and Literature
19, 20. Composition/Literature – English 306A and 306W. (English 306A and 306W must be taken concurrently. Student must achieve a grade of C or higher in English 306W.)

Rhetoric and Writing Studies 500W. (Students must achieve a grade of C or higher.) and three units selected from Africana Studies 460, Chicana and Chicano Studies 335, Comparative Literature 470, English 301, 302, 494, 501, Women's Studies 352.

22. Child Language Acquisition – Linguistics 452.

Mathematics
Science
Courses for the major together with courses for preparation for the major shall include at least one course from each of the three science categories: life science, physical science, earth science.
25. **Science** – Four units selected from:
   - Physical: Natural Science 412A or 412B.
   - Earth: Natural Science 412D.
   - Life: Natural Science 412C.
26. **Science Elective** – Three units selected from:
   - Physical: Natural Science 317, Physics 201 (restricted to students in Communicative Disorders specialization), Physics 301.
   - Earth: Astronomy 301; Geological Sciences 301, 303, Oceanography 320.
   - Interdisciplinary: (May be selected when three categories have been met) Natural Science 315, 316, 333.

Social Science and History
27. Early World History – History 411
28. Early American History – History 409

Visual and Performing Arts and Humanities
29. **Art/Music/Theatre** – Three units selected from Art 387; Music 343; Theatre 310, 315.
30. **Music and Humanities** – Three units selected from number 29 above or from the following: Africana Studies 385, 480; Chicana and Chicano Studies 310, 380; Music 351A, 351B, 351D.

Human Growth and Development
31. **Learning and Development** – Three units selected from Child and Family Development 371; Communicative Disorders 322.

Assessment
32. **Assessment in Liberal Studies** – Liberal Studies 498 and completion of the Liberal Studies Assessment Portfolio.
In order to graduate with the Liberal Studies major, every student must complete a satisfactory portfolio.
To qualify for admission into a credential program in California a student must satisfy subject matter competency. Liberal Studies students must complete all requirements, submit a satisfactory portfolio, and earn a “C” or better grade in all but one of the courses in the major and specialization (or minor); i.e., all required upper division courses. When attempting to improve a grade, any course listed under the requirement may be taken; it is not necessary to repeat the same course.

Approved Specialization (12 units)
33. **Specialization** – (See list of approved specializations below)

Many specializations require selection of lower division prerequisites included in preparation for the major. If additional prerequisites are required, these are noted. Students may not double count courses in the upper division major (Numbers 18-32) and the specialization.

With prior approval of the liberal studies faculty adviser, one of the listed specializations may be converted into a minor or second major if a student chooses to do the additional coursework.

In order to maximize the usefulness of the specialization, students should consult with a liberal studies adviser before choosing specialization courses. By making careful choices, students can often earn a supplementary authorization, which will allow them to teach at the middle school level.

Additional Prerequisites for SDSU Multiple Subject Credential Program
In addition to the requirements listed under preparation for the major and upper division major, students applying to the Multiple Subject Credential program at SDSU must complete Education 451 as a prerequisite. Students applying to the B/CLAD credential program must complete Education 451, Policy Studies in Language and Cross-cultural Education 515, and either Linguistics 550 or Policy Studies in Language and Cross-cultural Education 914 as prerequisites.

Approved Specializations

**Africana Studies**

**American Indian Studies**
American Indian Studies 320, 440, 470, and three units selected from American Indian Studies 303, 420, 430.

**Anthropology**
Prerequisite: Anthropology 102.
Anthropology 350; nine units selected from Anthropology 410, 424, 430, 432, 439; of these nine units, three units may also be selected from Anthropology 442, 444, 445, 446, 448, 449, 450, or 452.

**Art**
**Art History Track**:
Prerequisite: At least three units selected from Art 258, 259 (other prerequisites are waived).

**Studio Arts Track**:
Students with sufficient lower division coursework may request a specialization in Studio Arts to be approved by the Art Department.

**Biology**
Prerequisites: Biology 100, 100L or 101, 101L.
Biology 315, 336, 436 (2 units); and four to six units selected from Natural Science 412C (4 units) or Biology 211, 324, 327, 339.

**Chicana and Chicano Studies**
Twelve units selected from Chicana and Chicano Studies 310 (recommended), 320, 324, 335, 350A, 350B, 376, 464 (recommended), 480 (recommended).

**Child Development**
(Includes one additional upper division unit.)
Prerequisite: Child and Family Development 270 or Psychology 230 (other prerequisites are waived).
Child and Family Development 335*, 375^*, 376B^*, (1 unit), 537^*; three units selected from Child and Family Development 371^*, 575^*; Special Education 500; or Women’s Studies 325.

**Classics**
Classics 310, 320, 330, 340.

**Communicative Disorders**
**Deaf Education Focus**: (Includes one additional upper division unit.) Recommended prerequisites: Communicative Disorders 159, 259, 289.
Communicative Disorders 350, 357^* (1 unit), 550, 562; Communicative Disorders 371 or Special Education 500.

**Comparative Literature**
Prerequisite: Three units selected from Comparative Literature 210, 270A, 270B.
Twelve units selected as follows: three units selected from Comparative Literature 405, 511, 512, 514; three units selected from Comparative Literature 440, 445, 446, 460; three units selected from Comparative Literature 470, 561, 562, 563, 571; three units selected from those above or special topics courses as approved by the adviser.
Liberal Studies

**English**
- Prerequisites: Comparative Literature 270A, 270B; or English 220; and English 306A.
- **Shakespeare**: Three units selected from English 302 (recommended), 533.
- **Genre Studies**: Three units selected from Comparative Literature 470, 561, 562, 563, English 491 (with approval of adviser), 493, 501, 502, 506 (with approval of adviser).
- **Literary History**: Three units selected from English 405, 494, 519, 520, 522, 523, 524, 525, 540B, or 560B.
- **Choice**: Three additional units selected from the Genre Studies or Literary History courses listed above or Africana Studies 460, 463; Chicana and Chicano Studies 335; Women’s Studies 352.

**Foreign Language**
- Twelve upper division units in any foreign language. Students who plan to enter the Bilingual Cross-Cultural Language and Academic Development (B/CLAD) credential program, see specialization in Spanish. Other languages offered at San Diego State University include Chinese, Classics (Greek and Latin), French, German, Italian, Japanese, Portuguese, and Russian. Additional prerequisites may be required.
- **Geography**
  - Prerequisites: Geography 101 and 102.
  - Geography 312, 321, 354, 370.
- **History**
  - **United States History Track**: Six units selected from History 410, 444, 445; six units selected from Africana Studies 471A, 471B, 472; American Indian Studies 440; Chicana and Chicano Studies 350A, 350B; History 442A, 442B, 540, 545A, 545B, 549; Women’s Studies 341A, 341B.
- **Linguistics**
  - Prerequisite: Linguistics 420.
  - Linguistics 550; nine units selected from Linguistics 524, 551, 552, 553.

  + For information on the Applied Linguistics and English as a Second Language (ESL) Certificate, see the linguistics section of the catalog.

**Mathematics**
- Mathematics 121. Nine units selected from Mathematics 302*, 303, 413; Statistics 357*.

  + Mathematics 121 acceptable as prerequisite.

**Music**
- Prerequisites: Music 102; 110A, 110B, 110C, or 110D (1 unit); 115; 240.

  * Consent of instructor required. Previous experience playing an instrument required except for Music 385 and 386.

**Natural Science**
- (Includes one additional upper division unit.)
  - Prerequisites: Biology 100 and 100L; recommend Chemistry 100 or Physics 107.
  - Three units selected from Physics 301, Natural Science 317, 333; three units selected from Biology 336, 341, Geological Sciences 302; three units selected from Geological Sciences 303, Oceanography 320; four units selected from Natural Science 412A, 412B, 412C, 412D.

**Physical Education**
- Prerequisites: Exercise and Nutritional Sciences 241A, 241B.
  - Exercise and Nutritional Sciences 301*, 335*, 347A**, 347B***, 348****, 398* (1 unit).

  + Prerequisite: Exercise and Nutritional Sciences 241A, 241B.
  ** Prerequisite: Exercise and Nutritional Sciences 301.
  *** Prerequisite: Exercise and Nutritional Sciences 347A, 347B.

**Political Science**

**Psychology**
- Prerequisite: Psychology 101.
- Psychology 340; nine units selected from Psychology 350, 351, 380, 432, 452, and Women’s Studies 325.

**Religious Studies**
- Prerequisite: Religious Studies 101 or 102.
- Twelve units selected from Religious Studies 300 (highly recommended), 353, 354, 360, 363, 365 (recommended).

**Social Science**
- Twelve units selected from at least three of the following categories: 1) Geography 312, 321; 2) History 410, 412, 444, 445; 3) Political Science 305, 320*, 321; 4) Sociology 320, 352, 421, 433, 450, 539.

  * Credit will not be allowed if student has already taken Political Science 102 or its equivalent. See adviser.

**Sociology**
- Prerequisite: Sociology 101.
- Twelve units selected from Sociology 320, 352, 355, 410, 421, 433, 441, 444, 445, 455, 517, 537, 539.

**Spanish**
- **Native Speakers** (Defined as high school graduates from a Spanish-speaking country): Choose a different specialization.
- **U.S. Hispanics** (Defined as students who have passed the Spanish Diagnostic Placement Examination. Examination must be passed prior to enrollment in Spanish 281 and 381.)
  - Prerequisite: Spanish 281.
  - Spanish 350, 381; three units selected from Spanish 405A, 405B, 406A, or 406B; and three units selected from Spanish 340, 341, 342 (provided you have not taken Chicana and Chicano Studies 350A or History 415A), or Spanish 448 (recommended).
- **English Speakers** (Defined as native English speakers and other students who cannot pass the Spanish Diagnostic Placement Examination.)
  - Prerequisites: Spanish 202 and 212.
  - Spanish 301, 302, 350, and three units selected from Spanish 405A, 405B, 406A, or 406B.

  * Contact the Department of Policy Studies in Language and Cross-Cultural Education about the Spanish Language Proficiency and Cultural Awareness Examination, a prerequisite for the B/CLAD bilingual credential program.

**Special Education**
- Prerequisites: Psychology 230; Child and Family Development 371 or Communicative Disorders 322; Education 451.
  - Special Education 500, 501*, 502**, 507*, and three units selected from Special Education 524*, 525*, 526*.

  * Prerequisite: Credit or concurrent registration in Special Education 500; concurrent registration in Special Education 502.
  ** Prerequisite: Concurrent registration in Special Education 501.
  * Completion of Special Education 500.

**Theatre**
- Prerequisite: Three units selected from Theatre 100 or 120.
- Theatre 310, 315, 510, 580.

**Women’s Studies**
- Twelve units selected from Women’s Studies 310, 320, 325, 340, 351, 352, 370, 375, 385.
The Major

Linguistics is the scientific study of language. The structure of a wide variety of languages is looked at, not to learn these languages, but to learn about them in order to understand the universal properties of human language.

The linguistics program offers coursework in all areas of linguistic analysis: the core areas of phonology, syntax, semantics, and historical linguistics; and interdisciplinary areas such as applied linguistics, sociolinguistics, psycholinguistics, bilingualism, computational linguistics, and the linguistics of certain languages and language families.

Linguistics majors must complete a minor in another field approved by the adviser in linguistics. Recommended fields include anthropology, communication, communicative disorders, ethnic studies, a foreign language, history, journalism, literature, philosophy, public administration and urban studies, and sociology.

In addition to the major and minor programs, the Department of Linguistics and Oriental Languages offers a Certificate in Applied Linguistics and English as a Second Language (ESL), basic and advanced.

Offered by the Department of Linguistics and Oriental Languages

Master of Arts degree in linguistics.

Major in linguistics with the B.A. degree in liberal arts and sciences.

Teaching major in linguistics for single subject teaching credential in English.

Minor in linguistics.

Certificate in applied linguistics and English as a second language (ESL), basic and advanced.

The Major

Linguistics is the scientific study of language. The structure of a wide variety of languages is looked at, not to learn these languages, but to learn about them in order to understand the universal properties of human language.

The linguistics program offers coursework in all areas of linguistic analysis: the core areas of phonology, syntax, semantics, and historical linguistics; and interdisciplinary areas such as applied linguistics, sociolinguistics, psycholinguistics, bilingualism, computational linguistics, and the linguistics of certain languages and language families.

Linguistics majors must complete a minor in another field approved by the adviser in linguistics. Recommended fields include anthropology, communication, communicative disorders, ethnic studies, a foreign language, history, journalism, literature, philosophy, psychology, public administration and urban studies, and sociology.

In addition to the major and minor programs, the Department of Linguistics and Oriental Languages offers a Certificate in Applied Linguistics and English as a Second Language (ESL). This certificate prepares students to teach English as a second language in adult and private schools and to teach English in foreign countries.

Employment opportunities for linguistics majors exist in the teaching of English as a second language to immigrant and refugee population groups in various locales throughout the southwestern United States. In addition, many students are interested in teaching English in Latin America, the Far East, or other areas outside the United States and continental Europe. Linguistics training can also be used as a valuable skill in conjunction with a California teaching credential in another field. Government work is another alternative, where such divisions as the state department and the foreign service hire trained linguists. Researchers are needed at institutes working in the fields of animal communication, computer science development, disorders of communication, or advanced research in linguistics theory. By combining a linguistics major with courses in accounting, business administration, or related fields, there are jobs available with multinational corporations, particularly those which emphasize trade among the Pacific rim nations. Linguists are also hired in such fields as computer science, advertising, communication media, public relations, and curriculum development.

With a master’s or doctoral degree, linguistics majors may find teaching positions at community colleges or universities.

Advising

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Linguistics Major

With the B.A. Degree in Liberal Arts and Sciences

(Major Code: 15051)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in linguistics courses can apply to the degree.

Students majoring in linguistics must complete a minor in another field approved by the departmental adviser in linguistics. Recommended fields include anthropology, communication, communicative disorders, ethnic studies, a foreign language, history, journalism, literature, philosophy, psychology, public administration and urban studies, and sociology.

Preparation for the Major.

Linguistics 101, 3 units

Linguistics majors with the B.A. degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

Foreign Language Requirement.

Competency equivalent to that which is normally attained through three college semesters of a foreign language with a B(3.0) average, or the equivalent. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement.

Passing the University Writing Examination or Linguistics 305W or 396W or Rhetoric and Writing Studies 305W or 500W with a grade of C(2.0) or better.

Major.

A minimum of 24 upper division units is required: at least 18 of these must be in Linguistics (and those 18 must include Linguistics 420 or 520; Linguistics 521, 522, 550, 551; Linguistics 525 or 530; Linguistics 530 or 552 or Rhetoric and Writing Studies 500W with a grade of C(2.0) or better.

Linguistics Major

In preparation for the Single Subject Teaching Credential in English

With the B.A. Degree in Liberal Arts and Sciences

(Major Code: 15051)

Preparation for the Major.

Linguistics 101; Linguistics 100 or Rhetoric and Writing Studies 100; Linguistics 200 or Rhetoric and Writing Studies 200; Comparative Literature 270A or 270B or English 220; Humanities 140 or Theatre 120; three units selected from Communication 200, English 280, 281, Journalism 220, Theatre 115; and one of the following sequences: English 250A and 250B or English 260A and 260B. (24 units)

Foreign Language Requirement.

Competency equivalent to that which is normally attained through three college semesters of a foreign language with a B(3.0) average, or the equivalent. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement.

Linguistics 305W or 396W or English 500W or Rhetoric and Writing Studies 500W with a grade of C(2.0) or better.

Major.

A minimum of 39 upper division units to include Linguistics 420 or 520; Linguistics 521, 522, 550, 551; Linguistics 525 or 530; Linguistics 452 or 552; Comparative Literature 562 or Theatre 310 or 580;
English 533: Rhetoric and Writing Studies 509. Three units selected from Africana Studies 460, 461, 462, 463, 464; American Indian Studies 430; Chicana and Chicano Studies 335, 464; English 519, 520; Women’s Studies 352. Three units selected from Communication 360, 371, 391, 407, 408, 491; English 541A, 541B, Philosophy 531, Theatre 460B. One course selected from the following area not covered at the lower division level: English 560A or 560B (for students who took English 250A and 250B); English 522, 523, 524, 525 (for students who took English 260A and 260B).

Minor in Linguistics

The minor in linguistics consists of a minimum of 15 units, 12 of which must be upper division and at least 12 of which must be linguistics courses.

Required: Linguistics 101 or 420 or 520. Twelve units to be selected, under the guidance of and with approval of the adviser from Linguistics 101, 242, 296, 354, 410, 420, 430, 452, 453, 496, 499, 520, 521, 522, 524, 525, 530, 550, 551, 552, 553, 555, 596, and no more than one course from Anthropology 410, Chinese 352, Communication 530, French 561, German 505, Philosophy 531, Spanish 448.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Basic Certificate in Applied Linguistics and English as a Second Language (ESL)

The Department of Linguistics and Oriental Languages offers a basic and an advanced Certificate in Applied Linguistics and English as a Second Language (ESL). The basic certificate requires 15 units to include Linguistics 420 or 520, 452 or 552, 550 or 555, and 550. Under certain circumstances comparable courses taken at other institutions may count toward the certificate. Such courses must be evaluated and approved by the certificate adviser. In addition, there is a 15-hour tutoring requirement. In order to enroll, you must contact the certificate adviser in the Department of Linguistics and Oriental Languages. Courses in the certificate may be counted toward the major in linguistics or the major in liberal studies (including the linguistics specialization) but may not be counted toward the minor in linguistics.

Refer to the Bulletin of the Graduate Division for information on the advanced certificate.

Courses (LING)

LOWER DIVISION COURSES

General

99. Writing for Graduate Students (3)
(Offered only in Extension)
To assist graduate students, particularly those for whom English is a second language, in writing theses or other assigned papers for courses in their majors. Focus on students’ writing needs, including writing style, mechanics, grammar, and other issues. Does not apply to undergraduate degrees or credentials. (Formerly numbered Linguistics 397.)

101. Introduction to Language (3)

242. Foreign Language Experiences (1-3)
Use of special method for learning to speak foreign languages, as chosen by individual students. Small group work, innovative study techniques, strong emphasis on speaking. Of particular interest to learning-disabled students and those interested in speaking languages not available in regular courses. May be repeated with different content for maximum credit six units.

250. Directed Language Study (3) I, II
Prerequisite: Consent of instructor.
Directed independent study of a foreign language not offered at San Diego State University with aim of acquiring a developing competency in the language. May include speaking, listening, reading, writing, and grammar. May be repeated with approval of undergraduate adviser. Maximum credit six units.

253. Grammar and Usage for Writers (2)
(Same course as Rhetoric and Writing Studies 253.)
Prerequisite: Passage of EPT or transfer writing assessment.
Instruction in sentence structure with attention to integrating sentences into their logical and rhetorical contexts. Identifying and understanding source of sentence-level writing problems.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

English Composition for International Students

100. English Composition for International Students (3)
Prerequisites: Satisfaction of the English Placement Test and Writing Competency requirements. (See Graduation Requirements section of catalog.) Proof of completion of prerequisites required: Copy of EPT or competency scores (including ISPE) or verification of exemption; proof of Cr in Rhetoric and Writing Studies 92A or 92B or 97A or 97B, or notification from the Department of Rhetoric and Writing Studies.
Introduction to college-level written English; attention to English language/grammar needs of non-native speakers of English; grammatical and rhetorical techniques for effective writing, based in part on study of models of current American writing. Not open to students with credit in Africana Studies 120 or Chicana and Chicano Studies 111B or Rhetoric and Writing Studies 100 or higher-numbered composition course.

200. Advanced English for International Students (3)
Prerequisites: Satisfaction of the English Placement Test and Writing Competency requirements; and Linguistics 100. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.
Further practice in mastering conventions of standard academic writing, with emphasis on strategies for research in writing papers. Focus on language issues specific to non-native speakers of English. Not open to students with credit in Africana Studies 200, Chicana and Chicano Studies 200, or Rhetoric and Writing Studies 200.

UPPER DIVISION COURSES

(Intended for Undergraduates)

305W. Advanced Composition for International Students (3)
Prerequisites: Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.
Advanced expository writing, with practice in the various associated skills (organization, research, presentation, rhetoric). The goal is to enable non-native English speakers to function competently with written English on advanced university levels.

354. Language and Computers (3)
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences.
Computers, computer programming languages, and “artificial intelligence” viewed from perspective of human language.
396W. Writing Proficiency (1)
Prerequisite: Consent of instructor. Limited to linguistics majors. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.
Upper division writing course taken in conjunction with any 500-numbered linguistics course. Emphasizes composition skills in research methods, essay organization, paragraphing, sentence structure, and diction, all related to the particular 500-level linguistics course chosen.

410. History of English (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
The history of English and its present day use.

420. Linguistics and English (3)
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors. Introduction to sound and grammatical structure of language, with special attention to English. Language acquisition and variation. Of special interest to prospective teachers. Not open to students with credit in Linguistics 520.

430. English Grammar for Prospective Teachers (3)
Prerequisites: Linguistics 101 and upper division standing. Core grammatical concepts and facts of English grammar. Parts of speech; grammatical relations; word, sentence, discourse structure. Focus on standard written English. Of special interest to prospective secondary school teachers.

450. Language Acquisition (3)

453. Language Issues in the Secondary School (3)
Prerequisite: Linguistics 420. Linguistic minorities and dialect variation in interethnic communication. Language development from a socio-interactionist perspective. Development of discourse and literacy, and their underlying cognitive and linguistic foundations.

457. Community-Based Language Fieldwork (1)
Two hours of activity.
Prerequisite: Concurrent registration in upper division course requiring term paper on language behavior (e.g. Linguistics 452). Fieldwork in language use in community setting. Students observe, keep field notes, analyze language behavior (e.g. speaking, reading, writing, listening).

496. Experimental Topics in Linguistics (1-4)
Specialized study of a selected topic in linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

520. Fundamentals of Linguistics (3)
Prerequisite: Upper division standing. Principles of modern linguistics, with attention to English grammar (syntax, morphology, phonology). Language change, dialects, sociolinguistics, psycholinguistics, language acquisition.

521. Phonology (3)
Prerequisite: Linguistics 420 or 520. Introduction to the theoretical principles of transformational-generative phonology.

522. Syntax (3)
Prerequisite: Linguistics 420 or 520. Introduction to the theoretical principles of transformational-generative syntax.

524. American Dialectology (3)

525. Semantics and Pragmatics (3)
Prerequisite: Linguistics 420 or 520. Advanced semantic theory; systematic analysis of the interaction of sequences of language with real world context in which they are used.

530. English Grammar (3)
Prerequisite: Six upper division units in linguistics. English morphology, syntax, and discourse structure, including simple and complex sentence structure; lexical categories and subcategories; discourse functions of selected constructions. Problems and solutions in teaching English grammar.

550. Theory and Practice of English as a Second Language (3)
Prerequisite: Linguistics 420 or 520. The nature of language learning; evaluation of techniques and materials for the teaching of English as a second language.

551. Sociolinguistics (3)
Prerequisite: A course in introductory linguistics. Investigation of the correlation of social structure and linguistic behavior.

552. Psycholinguistics (3)
Prerequisite: Linguistics 420 or 520. Psycholinguistic and mental processes related to comprehension, production, perception, and acquisition of language in adults and children.

553. Bilingualism (3)
Prerequisite: Linguistics 420 or 520 or Communicative Disorders 300. Bilingual societies; language choice by bilinguals; bilingual language acquisition; effects of bilingualism on language structure and use.

555. Practical Issues in Teaching English as a Second Language (3)
Prerequisite: Linguistics 420 or 520; and credit or concurrent registration in Linguistics 550. Practical approaches to applications of the theory of English as a Second Language (ESL) and methodology for speaking, reading, listening, writing; techniques for facilitating growth of communicative competence.

596. Selected Topics in Linguistics (1-3)
Prerequisite: Upper division standing. Advanced study of selected topics. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Management
In the College of Business Administration

A Member of the AACSB—The International Association for Management Education.

Faculty
Emeritus: Atchison, Belasco, Brady, Ghorpade, Mitton, Pierson, Robbins, Srbič
Chair: Butler
Professors: Butler, De Noble, Fatemi (IVC), Hampton, Hergert (Dean of the College of Business Administration), Marino (Associate Dean and Director, Graduate Program), Wright
Associate Professors: Dunn, Ehrlich (Executive Director, Entrepreneurial Management Center), Jung, Rhyne
Assistant Professors: Chung, Rodriguez, Singh
Lecturers: Cornforth, Glazer, Williams

Offered by the Department
Master of Science degree in business administration.
Master of Business Administration.
Major in management with the B.S. degree in business administration.
Teaching major in business for the single subject teaching credential.
Minor in management.
Minor in small business management (available at Imperial Valley Campus only).
Certificate in business administration (available at Imperial Valley Campus only).

The Major
Managers are responsible for achieving organizational objectives by coordinating money, materials, machines, and most important of all, the efforts of people. Managers set objectives, establish policies, plan, organize, direct, communicate, and make decisions. Since their principal concern is solving problems, managers are continually defining problems and seeking solutions.

To be an effective manager, an individual needs a broad knowledge of the practice of management, the workings of business and the economy, and the behavior of people. The knowledge obtained in the bachelor’s degree should be sufficient to qualify the student for a broad range of beginning managerial positions in business organizations. The graduate in management is prepared not only for managerial functions, but for those functions set within the context of a particular type of operation.

Recent government and private manpower studies indicate that the demand for professional managers should continue to increase. While the types of employment secured by management graduates are varied, a recent study conducted by the management department showed that many graduates have gone into the following types of positions:

- Production and operations managers supervise manufacturing and service operations, and are responsible for scheduling production and operations activities and controlling operational costs;
- Sales managers, hire, train, and supervise sales personnel, evaluate the work of sales people, and develop incentive programs;
- Financial managers supervise operations in banks, security exchanges, credit unions, and savings and loan associations;
- Merchandising managers supervise operations in retail stores;
- Organization and management analysts design and evaluate organizational structures and jobs;
- International managers supervise foreign-based manufacturing and/or marketing operations for American companies; and
- Corporate planners develop strategic plans for corporations.

Statement on Computers

Before enrolling in upper division courses in the College of Business Administration, students must be competent in the operation of personal computers, including word processing and spreadsheets. Business students are strongly encouraged to have their own computers capable of running word processing, spreadsheet, presentation, e-mail, and Internet applications such as those found in packages sold by major software publishers. Availability of on-campus computing resources can be limited due to increasing demand across the University.

Retention Policy

The College of Business Administration is concerned that each individual upper division student makes reasonable academic progress toward earning a degree. To this end, the College will counsel students who have earned less than a “C” (2.0) average each semester. Further, such students will be warned that continued poor performance may result in their removal from any business major.

Transfer Credit

Lower Division: Courses clearly equivalent in scope and content to San Diego State University courses required for minors or as preparation for all business majors will be accepted from regionally accredited United States institutions and from foreign institutions recognized by San Diego State University and the College of Business Administration.

Upper Division: It is the policy of the San Diego State University College of Business Administration to accept upper division transfer credits where (a) the course content, requirements, and level are equivalent to San Diego State University courses and (b) where the course was taught in an AACSB—The International Association for Management Education accredited program. Exceptions require thorough documentation evidencing the above standards.

Impacted Program

The management major is impacted. Students must apply to enter the University under the business administration premajor code (05011). To be admitted to the upper division management major, students must meet the following criteria:

a. Complete with a grade of C or higher: Accountancy 201 and 202; Finance 140; Information Decision Systems 180 and 290; Economics 101 and 102; Mathematics 120 (or other approved calculus course); and either Statistics 119 or Economics 201. These courses cannot be taken for credit/no credit (Cr/NC);

b. Clear the competency requirements in mathematics and writing. Refer to Graduation Requirements section of this catalog for details;

...
c. Complete a minimum of 56 semester units;

d. Have a cumulative and SDSU GPA of 2.90;

e. Students who meet all requirements except the GPA may request to be placed on the waiting list. Students on the waiting list will be admitted on space-availability basis only. Contact the Business Advising Center (BA 448), 619-594-5828, for more information; and

f. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Management Major
With the B.S. Degree in Business Administration (Major Code: 05061)

A minor is not required with this major.

Preparation for the Major. Accountancy 201, 202; Finance 140; Information and Decision Systems 180, 290; Economics 101, 102; Economics 201 or Statistics 119; and Mathematics 120 (or other approved calculus course). (27-29 units)

These prerequisite courses may not be taken Cr/NC; the minimum grade in each class is C. Additional progress requirements must be met before a student is admitted to an upper division major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. Thirty-six upper division units consisting of Management 350, 352, 356, 401, 451, 454; Finance 323; Information and Decision Systems 301, 302; Marketing 370; three units from Business Administration 404; Management 405, 450 or 458; and three units selected from any upper division course in Management, Accountancy, Economics, Finance, Information and Decision Systems, Marketing, or Africana Studies 445, 452; American Indian Studies 320; Anthropology 350, 444; Chicana and Chicano Studies 320; Communication 307, 371, 406, 407; Geography 353; History 480; Natural Science 333; Philosophy 329, 333; Political Science 346; Psychology 321, 340; Social Work 350; Sociology 355, 401, 403, 410, 430, 531, 532; Women’s Studies 320, 385. A “C” (2.0) average is required in the courses stipulated here for the major.

Of the 128 units required for the degree, at least 60 units must be at the upper division level. This includes the 36 units listed above, nine units of upper division General Education, and at least 15 units of upper division electives, chosen from within or outside of Business Administration. Minimum of 64 units of coursework applicable to the bachelor’s degree must be completed outside the areas of business administration, economics, and statistics. This means that at least six units of electives (upper or lower division) must be completed in areas other than business administration, economics, and statistics. A maximum of six lower division units of accountancy courses may be used to satisfy degree requirements.

Business Major
In preparation for the Single Subject Teaching Credential With the B.S. Degree in Business Administration

All candidates for the single subject teaching credential in business must complete all requirements for the applicable specialization as outlined in this section of the catalog under Policy Studies or Teacher Education. Students must complete the requirements of a major in one of the five departments within the College of Business Administration. In consultation with the single subject credential adviser in the College of Business Administration, undergraduate students must develop programs which fulfill the State credential requirements. All undergraduate majors must demonstrate office skills proficiency. Finance 589, Personal Financial Planning, is required of all teaching credential majors. Of the 128 units required for the degree, at least 60 units must be at the upper division level. Student programs must be approved in advance by the College of Business Administration single subject credential adviser.

Management Minor
The minor in management consists of a minimum of 21 units to include Accountancy 201; Economics 101, 102; Management 350, 352, 356, and 451 or 454.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University. Students with a major in the College of Business Administration, Hospitality and Tourism Management, or in International Business may not complete a minor in the College of Business Administration.

Students must officially declare the minor before taking any upper division business courses. Students must meet the prerequisites for the minor in effect at the time that they declare the minor. The current prerequisites for admission to the management minor include completion of the following courses with a grade of C or better: Economics 101, 102, and a three unit course in statistics (Statistics 119 is recommended); completion of the SDSU lower division writing and mathematics competency requirements; completion of the General Education requirements in Communication and Critical Thinking; completion of an additional nine units in the department of the student’s major, including at least six units of upper division courses. Students must also meet the GPA requirement in effect at the time that they declare the minor. Contact the Business Advising Center (BA 448) for admissions criteria and procedures.

Small Business Management Minor
(Imperial Valley Campus Only)

The minor in small business management consists of a minimum of 24 units to include Economics 101, 102; Accountancy 201, 202; Management 350, 450; Marketing 370; and three units selected from Finance 323, Management 352.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Certificate in Business Administration
(Imperial Valley Campus)

This certificate is designed primarily for persons who want to gain an increased understanding of essential principles through upper division business courses, and for students who decide to go on to pursue the B.S. degree with a major in either management, finance, accounting, marketing, information systems, or real estate at the San Diego campus. For those not seeking the B.S. degree it provides a program designed to give self-improvement opportunities for the purpose of securing employment, promotion or upward mobility on the job.

All students seeking admission to the program must have successfully completed 56 transferable lower division units with a grade point average of 2.0. This includes completion of the lower division preparation required for any business administration major, i.e., Accountancy 201, 202; Finance 140; Information and Decision Systems 180, 290; Economics 101 and 102; Economics 201 or Statistics 119, and Mathematics 120 or 150.

The certificate will be awarded upon successful completion of the following courses: Finance 323; Information and Decision Systems 301 or 302; Management 350; Marketing 370; and three units selected from Finance 321, 589; or Management 356. (15 units)
Courses (MGT)

LOWER DIVISION COURSE

202. Business Professions (1) Cr/NC I, II
Students explore career options, analyze and evaluate career decisions through self assessment and career research. Computer programs and resources in Career Services library used to identify potential career.

UPPER DIVISION COURSES (Intended for Undergraduates)

350. Management and Organizational Behavior (3) I, II
Prerequisite: Approved upper division business major, business minor, or another major approved by the College of Business Administration. Proof of completion of prerequisite required: Change of major form or other evidence of acceptable major code.

Human behavior at individual, interpersonal, and group levels including effect of organization structure on behavior. Emphasis on managerial roles, historical evolution of management, ethics, and behavior in multicultural contexts.

352. Human Resource Management (3) I, II
Prerequisite: Management 350. Recommended: Information and Decision Systems 301.

The employment relationship. Functions and techniques; role of government, unions, behavior, and environmental variables in human resource management.

356. Social and Ethical Issues in Business (3) I, II
Prerequisite: Management 350.

Ethics of various issues in business, including social responsibility, environmental protection, privacy, individual rights, occupational safety and health, product liability, equality of opportunity, and the morality of capitalism.

357. Multinational Business and Comparative Management (3)
Prerequisite: Management 350.

Context of international business, environment, institutions, and business practices. Cultural awareness, sensitivity, interpersonal, and leadership skills needed in an international context.

401. Business Internship (3) Cr/NC I, II
Prerequisites: Management 350 and consent of faculty advisor.

Internship with business firms, nonprofit organizations, or government agencies. Work done under joint supervision of intern organization and course instructor.

405. International Business Strategy and Integration (3) I, II
Prerequisites: Management 350, Finance 323, Information and Decision Systems 301 or 302, Marketing 370. Proof of completion of prerequisites required: Copy of transcript.

Integration of business administration principles and concepts for strategy, design, implementation, and control in domestic, international, and global markets. Establishment of top management policy emphasized through case studies, experiential exercises, and simulations.

450. Venture Management (3) I, II
Prerequisites: Management 350, Finance 323, Information and Decision Systems 301 or 302, Marketing 370. Proof of completion of prerequisites required: Copy of transcript.

Process of initiating, expanding, purchasing, and consolidating businesses. Concepts, theories, and techniques of managerial innovation and implementation.

451. Organization Design and Change (3) I, II
Prerequisite: Management 350.

Management of organization design and development. Internal and external organizational factors such as environment, size, technology, power, politics, strategy, human resources, job design, and organization culture.

454. Interpersonal Processes (3) I, II, S
Prerequisite: Management 350.

Conceptual study and experiential training in interpersonal skills of management; acquisition of personal, managerial, and entrepreneurial behavioral competencies.

456. Conceptual Foundations of Business (3) I, II
Prerequisite: Completion of General Education requirement in Foundations II.B., Social and Behavioral Sciences.

Development and evolution of values and ideas characteristic of the business society: individualism, materialism, rationality, technology, and other major components of business ideology. Capitalism/socialism debate. Majors in the College of Business Administration may not use this course to satisfy requirements for General Education.

457. Applications in Management (1-3) I, II
Prerequisite: Consent of instructor.

Developing specific skills in areas of management. See Class Schedule for specific content.

458. Management Decision Games (1-3) II
Prerequisites: Consent of instructor. Management 350, Finance 323, Information and Decision Systems 301 or 302. Marketing 370. Proof of completion of prerequisites required: Copy of transcript.

Integrated managerial decision making within a dynamic environment through the use of business games.

496. Selected Topics in Management (1-4)
Prerequisite: Consent of department chair.

Selected areas of concern in management; see Class Schedule for specific content. May be repeated with new content with consent of department chair. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

498. Investigation and Report (1-3) I, II
Prerequisites: Senior standing and consent of instructor.

A comprehensive and original study of a problem connected with management under the direction of one or more members of the management staff. May be repeated with new content. Maximum credit six units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.

Individual study. Maximum credit six units.

UPPER DIVISION COURSE (Also Acceptable for Advanced Degrees)

596. Advanced Topics in Management (3)
Prerequisite: Six upper division units in management.
Advanced special topics in management. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
A Member of the AACSB—The International Association for Management Education.

Faculty
Emeritus: Akers, Apple, Barber, Darley, Haas, Hale, Lindgren, McFall, Settle, Vanier, Wotruba
Chair: Belch, G.
Professors: Belch, G., Belch, M., Kreitler, Saghafi, Sciglimpaglia, Stampfl, Tyagi
Assistant Professors: Honea, Russell

Offered by the Department
Master of Science degree in business administration.
Master of Business Administration.
Minor in marketing.
Teaching major for the single subject teaching credential.

The Major
Marketing is defined as “the process of planning and executing the conception, pricing, promotion, and distribution of ideas, goods and services to create exchanges that satisfy individual and organizational objectives.” (American Marketing Association, 1986.)

The marketing major studies how products and services are developed, priced, promoted, distributed and sold. The process requires an understanding of buyer and seller behavior within the context of the overall market environment. Added emphasis is given to the important area of global markets with their own particular nuances.

Marketing is an essential part of every business. Not-for-profit organizations also have to market their products/services, and the marketing discipline addresses the special needs of such organizations.

The employment outlook for graduates in marketing continues to be very favorable in all areas, especially in sales for those who hold the bachelor’s degree. Some of the more common career opportunities for marketing graduates include:

- Sales, which is the most common source of employment for recent marketing graduates. Sales people supervise retailing operation in large department stores, serve as sales representatives for manufacturers and wholesalers, and sell a variety of services and equipment.
- Advertising and promotion specialists such as copywriters assemble information on products and services, study the characteristics of potential consumers, and prepare written materials to attract attention and stimulate interest among customers; advertising managers supervise the promotional activities of retailers, wholesalers, or manufacturers; account executives represent advertising agencies in negotiating contracts with clients for advertising services, offer advice in problem areas, and serve as troubleshooters in disputes between clients and the agency; media directors coordinate the purchasing of space in newspapers and magazines and arrange for commercials on radio and television; and production managers supervise the work of copywriters, artists, and other members of an advertising team.
- Market research specialists collect, analyze, and interpret data to determine potential sales of a product or a service. They organize and supervise surveys, study the results by using statistical tests, and prepare reports with recommendations for management.

Product specialist/managers plan and coordinate the marketing functions specific to particular product(s)/brands.

Physical distribution specialists are responsible for the warehousing of products, the packaging of shipments, and the delivery of orders to retailers or consumers.

Purchasing specialists, commonly known as buyers, acquire the materials and the services that are essential to the operation of a business or organization.

Statement on Computers
Before enrolling in upper division courses in the College of Business Administration, students must be competent in the operation of personal computers, including word processing and spreadsheets. Business students are strongly encouraged to have their own computers capable of running word processing, spreadsheet, presentation, e-mail, and Internet applications such as those found in packages sold by major software publishers. Availability of on-campus computing resources can be limited due to increasing demand across the University.

Retention Policy
The College of Business Administration is concerned that each individual upper division student makes reasonable academic progress toward earning a degree. To this end, the College will counsel students who have earned less than a “C” (2.0) average each semester. Further, such students will be warned that continued poor performance may result in their removal from any business major.

Transfer Credit
Lower Division: Courses clearly equivalent in scope and content to San Diego State University courses required for minors or as preparation for all business majors will be accepted from regionally accredited United States institutions and from foreign institutions recognized by San Diego State University and the College of Business Administration.

Upper Division: It is the policy of the San Diego State University College of Business Administration to accept upper division transfer credits where (a) the course content, requirements, and level are equivalent to San Diego State University courses and (b) where the course was taught in an AACSB—The International Association for Management Education accredited program. Exceptions require thorough documentation evidencing the above standards.

Impacted Program
The majors in the Department of Marketing are impacted. Students must apply to enter the University under the business administration premajor code (05011). To be admitted to the upper division marketing major, students must meet the following criteria:

1. Complete with a grade of C or higher: Accounting 201 and 202; Finance 140; Information Decision Systems 180 and 290; Economics 101 and 102; Mathematics 130 or other approved calculus course; and either Statistics 119 or Economics 201. These courses cannot be taken for credit/no credit (Cr/NC);
Marketing Minor

The minor in marketing consists of a minimum of 20 units, of which 12 units must be in upper division courses. The minor must consist of Marketing 370: Accountancy 201; Economics 102; and 11 to 13 units selected from Information and Decision Systems 301, Marketing 371, 372, 373, 376, 377, 470 and 470L, 472 and 478, 473, 474, 476. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University. Students with a major in the College of Business Administration, Hospitality and Tourism Management, or International Business may not complete a minor in the College of Business Administration. Students must officially declare the minor before taking any upper division business courses. Students must meet the prerequisites for the minor in effect at the time that they declare the minor. The current prerequisites for admission to the marketing minor include completion of the following courses with a grade of C or better: Economics 101, 102, and a three unit course in statistics (Statistics 119 is recommended); completion of the SDSU lower division writing and mathematics competency requirements; completion of the General Education requirements in Communication and Critical Thinking; completion of an additional nine units in the department of the student's major, including at least six units of upper division courses. Students must also meet the GPA requirement in effect at the time that they declare the minor. Contact the Business Advising Center (BA 448) for admissions criteria and procedures.

Courses (MKTG)

370. Marketing (3) I, II
Prerequisite: Approved upper division business major, business minor, or another major approved by the College of Business Administration. Proof of completion of prerequisite required: Change of major form or other evidence of acceptable major code. Marketing majors must complete this course with a minimum grade of C (2.0).
Function of marketing in the organization and in society. Topics include market analysis and consumer behavior, product planning, pricing, promotion, distribution, and international marketing.

371. Consumer and Buyer Behavior (4) I, II
Prerequisite: Marketing 370 with a minimum grade of C (2.0).
Proof of completion of prerequisite required: Copy of transcript.
Personal, social, and cultural factors that distinguish identifiable market segments and influence buyers' and consumers' responses to marketing programs.

372. Retail Marketing Methods (4) I, II
Prerequisite: Marketing 370 with a minimum grade of C (2.0) Proof of completion of prerequisite required: Copy of transcript.
Retail store and direct retail marketing organization, site location, personnel, promotion, purchasing, merchandising, inventory, and control methods.

373. Marketing Communication and Promotion (4)
Prerequisite: Marketing 370 with a minimum grade of C (2.0).
Proof of completion of prerequisite required: Copy of transcript.
Communication and promotion theory; advertising, personal selling, media strategy and tactics, public relations, and publicity strategy, methods, measurement, and ethics.

376. Global Marketing Strategy (4) I, II
Prerequisite: Marketing 370 with a minimum grade of C (2.0).
Proof of completion of prerequisite required: Copy of transcript.
International marketing and trade principles; comparative economic and sociocultural systems; entry, counter-trading, transfer pricing, and promotion.
Prerequisite: Marketing 370 with a minimum grade of C (2.0).
Proof of completion of prerequisite required: Copy of transcript.
Selling strategy and practices as an integral part of the total marketing system, including territory management, consultative selling, negotiation, and system selling.

470. Marketing Research (4) I, II
Prerequisites: Completion of lower division courses in the major or minor. A minimum grade of C (2.0) in Information and Decision Systems 301 and Marketing 370. Proof of completion of prerequisites required: Copy of transcript. Concurrent registration in Marketing 470L.
Methods of information generation and interpretation for marketing decisions; research design, data sources and collection, analysis and reporting techniques.

470L. Marketing Research Laboratory (1) Cr/NC
Two hours of laboratory.
Prerequisites: Completion of lower division courses in the major or minor. A minimum grade of C (2.0) in Information and Decision Systems 301 and Marketing 370. Proof of completion of prerequisites required: Copy of transcript. Concurrent registration in Marketing 470.
Computer practicum. Use of SPSS computer programs for analysis of marketing research survey and experimental data.

472. Advertising and Promotion Management (3)
Prerequisites: Marketing 371 and 373; concurrent registration in Marketing 478. Proof of completion of prerequisites required: Copy of transcript. Management of the advertising and promotion functions. Promotional planning, implementation, and evaluation.

473. Sales Management (4) I, II
Prerequisite: Marketing 370 with a minimum grade of C (2.0).
Proof of completion of prerequisite required: Copy of transcript. Sales force organization, recruitment, selection, training, compensation, evaluation, and control; sales analysis, costs, budgets, and quotas; coordination with personal selling.

474. Business Marketing (4) I, II
Prerequisite: Marketing 370 with a minimum grade of C (2.0).
Proof of completion of prerequisite required: Copy of transcript. Marketing practices and strategy designed for organizational customers; focuses on purchasing practices of organizational customers and development of marketing mixes for private, commercial, institutional, and governmental markets, both domestic and global.

476. Marketing, Computers, and the Internet (4) I, II
Prerequisite: Marketing 370 with a minimum grade of C (2.0).
Proof of completion of prerequisite required: Copy of transcript. Applications of personal computers, information technology, and Internet in business and marketing. Topics include use of computerized reference sources, the world wide web, webpage design, marketing and business on the internet, desktop publishing and computer databases.

478. Advertising and Promotion Management Project (1)
Two hours of activity.
Prerequisite: Concurrent registration in Marketing 472. Proof of completion of prerequisite required: Copy of transcript. Advertising and sales promotion program development project; initial design, pretesting, implementation, and program evaluation.

479. Strategic Marketing Management (4) I, II
Prerequisites: Marketing 371 and 470 with a minimum grade of C (2.0) or an average of 2.0 in both courses. Completion of lower division courses required in the major or minor. Proof of completion of prerequisites required: Copy of transcript. Strategic planning, integration, management, and control of the marketing functions and mix; applying decision techniques for marketing problem solution.

496. Selected Topics in Marketing (1-4) I, II
Prerequisite: Consent of department chair. Selected areas of concern in marketing. See Class Schedule for specific content. May be repeated with new content with consent of department chair. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

498. Investigation and Report (1-3) I, II
Prerequisites: Senior standing and consent of instructor. A comprehensive and original study of a problem connected with marketing under the direction of one or more members of the marketing staff. May be repeated with new content. Maximum credit six units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Individual study. Maximum credit six units.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Mathematics
In the College of Sciences

Faculty
Chair: Elwin
Professors: Anantha, Beck, Branca, Carlson, Carroll, Castillo, Donald, Dunster, Elwin, Geveci, Greer, Grone, Hui, Lesley, Lui, Lutz, Mahaffy, Marovic, McLeod, Pierce, Salamon, Sowder, L., Stewart, Swiniarski, Tarokh, Vuskovic
Associate Professors: Eckberg, Kelly, Kirschvink, Steffey, Whitney
Assistant Professors: Bowers, Lin, Lobato, O’ Sullivan, Palacios
Adjunct: Root

Offered by the Department of Mathematical and Computer Sciences
Master of Arts degree in mathematics.
Master of Science degree in applied mathematics.
Master of Arts for teaching service with a concentration in mathematics.
Minor in mathematics.
Certificate in introductory mathematics.
Certificate in single subject mathematics.

The Majors
Mathematics is the language and instrument for the sciences and technology. It is concerned with a wide range of diverse problems from developing techniques to model real world applications and designing efficient methods for calculating their solutions, to creating new branches of mathematics and theories for as yet unsolved problems. Some students find mathematics stimulating because of its many and varied applications, while others are fascinated and attracted to it for the beauty of its intrinsic order, structure, and form.

Because of its broad scope, degrees in mathematics can prepare students for many different careers and the Department of Mathematical and Computer Sciences offers a variety of such degrees and emphases to provide students with a wide range of tools and specialties according to their interests and goals.

Graduates with a mathematics major have many options for either careers in applications, for further study in graduate school, or for teaching. Mathematics majors are important because their training involves quantitative abilities and critical reasoning that many potential employers can utilize. With a minor in an area of applications, graduates are suited for further graduate study in many areas that heavily depend upon mathematical methods and techniques. Graduates with an interest in the more theoretical aspects of mathematics are sought after in many diverse graduate programs from applied and pure mathematics to computer and computational sciences and statistics. Careers in teaching include positions in secondary schools, for which a teaching credential is additionally required, teaching in two year colleges, for which a master’s degree is required, and teaching at the university level, which requires a doctorate degree and involves research and creation of new mathematics.

Majors will have a faculty member assigned as an adviser/mentor. The faculty member will be available to offer academic advice and assist the student in major course selection.

Mathematics Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 17011)
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in mathematics courses can apply to the degree.
A minor is not required with this major.
Preparation for the Major.
Mathematics 150 and 151; and 245, 252, 254. (19 units)
Recommended: Physics 195, 195L, 196, 196L, 197, 197L.
Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to the section of this catalog on “Graduation Requirements.”
Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.
Major. A minimum of 27 upper division units, selected with approval of the departmental adviser before starting upper division work, including Mathematics 337, 521A, 524, 534A, and one two-semester sequence selected from: Mathematics 521A-521B, 521A and Computer Science 562; Mathematics 337 and 531; 534A-534B; 534A and 535; 541 and 542; 541 and 543; Computer Science 310 and 320 or 520; Statistics 550 and 553, Statistics 551A and 551B; and nine units of electives. Student must complete an outline for the major and file a copy signed by the adviser with the Office of the Registrar.

Mathematics Major
With the B.S. Degree in Applied Arts and Sciences
(Major Code: 17031)
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”
There are four emphases offered in this major: Applied Mathematics, Computational Science, Mathematical Finance, and Science.
A minor is not required with this major.

Emphasis in Applied Mathematics
This emphasis is designed to train the student in those areas of mathematics which may be applied to formulate and solve problems in other disciplines. The program is designed to qualify the student for employment as an applied mathematician, but the graduate would also be well prepared for graduate study in pure or applied mathematics.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Mathematics 337, 521A, 524, 532, 534A, 534B, 541; Statistics 350A or 551A; and 12 units of electives in computer science, mathematics, or statistics (approved by the Applied Mathematics adviser) excluding Mathematics 302, 303, 312, 313, 342A, 342B, 414, 509, and Statistics 357.

Student must complete outline for major and file a copy signed by adviser with the Office of the Registrar.

Auxiliary Area. A minimum of 12 units (lower or upper division) from an area to which mathematics may be applied. A typical program might be Physics 195, 195L, 196, 196L, 197, 197L; or Chemistry 200, 201, and a course for which these are prerequisites; or Economics 101, 102, 320, 321. The intent is to train the student in an area in some depth. Some latitude may be allowed in the choice of department and mix of courses, but all programs must be approved by the Applied Mathematics adviser. The 12 unit requirement is minimal, and a minor in an approved field is highly recommended.

Emphasis in Computational Science

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Mathematics 336, 337, 521A, 524, 534A; at least nine units from Mathematics 525, 532, 537, 541 or 544, 542, 543, Computer Science 558, 575; three units of Mathematics 499 (Senior Project); and nine units of electives from computer science, mathematics, or statistics (approved by the Applied Mathematics adviser) excluding Mathematics 302, 303, 312, 313, 342A, 342B, 414, 509, and Statistics 357. Student must complete outline for major and file a copy signed by adviser with the Office of the Registrar.

Emphasis in Mathematical Finance

This emphasis is designed to train students for work in the field of financial mathematics, focusing on derivative instruments and risk management. The graduate would also be highly qualified for graduate study.

Preparation for the Major. Mathematics 150, 151, 245, 252, 254, Computer Science 107, 108, 109, 206, Accountancy 201, Economics 101, 102. (37 units) The student must complete these courses before being allowed to register for the upper division finance courses.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 39 upper division units to include Mathematics 337, 524, 531, 544, 562, 580, 581, Statistics 551A or 550, and 551B or 553, Finance 323, 326 or Economics 490, Finance 327, 329 or 421. Student must complete outline for major and file a copy signed by adviser with the Office of the Registrar.

Emphasis in Science

This purpose of this emphasis is to allow students with a strong interest in the mathematical aspects of a particular science to apply courses in that science to their major. This will provide a good background for employment or graduate work in applied mathematics or in that science.

Preparation for the Major. Mathematics 150, 151, 245, 252, 254, Computer Science 107, Statistics 250. (25 units) Some lower division courses will probably be prerequisite to science courses applied to the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Mathematics 337, 524, 534A, 534B; at least six units selected from Mathematics 521A, 525, 531, 532, 537; 12 units from a science to which mathematics may be applied (these should be from a single science and must be approved by the B.S. adviser); and six units of electives in computer science, mathematics, or statistics excluding Mathematics 302, 303, 312, 313, 342A, 342B, 414, 509, and Statistics 357. Student must complete outline for major and file a copy signed by adviser with the Office of the Registrar.

Mathematics Major

In preparation for the Single Subject Teaching Credential

With the B.A. Degree in Liberal Arts and Sciences

(Major Code: 17011)

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under Policy Studies or Teacher Education. For students completing the single subject teaching credential program, no more than 48 units in mathematics courses can apply to the degree.

This major may be used by students in teacher education as an undergraduate major for the B.A. degree in liberal arts and sciences.

Preparation for the Major. Mathematics 150 and 151; and 245, 252, 254, Computer Science 107 or 205. (22 units) Recommended: Physics 195, 195L, 196, 196L, 197, 197L. (12 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to the section of the catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in mathematics to include Mathematics 302, 414, 521A, 534A, Statistics 357; an upper division course in geometry; and six units of electives in mathematics approved by the credential adviser. Student must complete outline for major and file a copy signed by adviser with the Office of the Registrar.

Single Subject Waiver Program in Mathematics

Students who wish to satisfy the requirements for the subject matter program in mathematics to prepare for a single subject teaching credential program in mathematics must complete the following requirements. (Students who have completed one or more courses in the preprofessional program before January 1, 1995, should see the adviser since the earlier program is slightly different.)

To be admitted to the program, students must demonstrate competency in high school mathematics (algebra through trigonometry) by passing a mathematics placement test.

Subject Matter Waiver Program. A minimum of 45-46 units to include Mathematics 150, 151, 245, 252, 254, 302, 414, 521A, 534A, Statistics 357; one course selected from Mathematics 510, 511, 512; Computer Science 107 or 205; and six units of upper division electives selected with the approval of the adviser from physical and mathematical sciences. Students may substitute equivalent courses taken at this or other universities only with the approval of the single subject credential adviser. An approved calculus sequence of 12 units may be substituted for the 13-unit calculus sequence (Mathematics 150, 151, 252), thus reducing the total unit requirement from 46 to 45.

Mathematics Minor

The minor in mathematics consists of a minimum of 20-22 units in mathematics to include Mathematics 151; or Mathematics 252 and nine upper division units in mathematics, at least six of which have as
Mathematics

prerequisite Mathematics 151. The courses selected will be subject to the approval of the minor adviser.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

**Introductory Mathematics Certificate**

The purpose of the Introductory Mathematics Certificate program is to provide individuals with appropriate mathematics coursework to qualify them to receive a credential in introductory mathematics from the Commission on Teacher Credentialing. Admission is open to individuals who are majoring or have majored in an area other than mathematics and who have the equivalent of two years of high school mathematics and satisfy the Entry-Level Mathematics Examination. In order to enroll in the program, individuals must complete the required part of the Mathematics Departmental Placement Examination, Part IA.

The program consists of 20 units to include Mathematics 141, 150, 302, 312 (with departmental credential adviser permission), 313, and Statistics 357.

Individuals must complete at least six units at San Diego State University and have a cumulative grade point average of 2.5 in the required courses to qualify for the certificate.

With the approval of the department, a student may apply no more than three units of coursework from the certificate program toward a major. Courses in the certificate may not be counted toward the minor.

**Single Subject Mathematics Certificate**

The purpose of the Single Subject Mathematics Certificate program is to provide individuals with appropriate mathematics coursework to qualify them to receive a credential in single subject mathematics. Admission is open to individuals who are majoring or have majored in an area other than mathematics and who have the equivalent of two years of high school mathematics and satisfy the Entry-Level Mathematics Examination. In order to enroll in the program, individuals must complete the required part of the Mathematics Departmental Placement Examination, Part IA.

The program consists of 46 units to include Computer Science 122, 141, 150 and 151; and 245, 252, 254, 302, 312 (with departmental credential adviser permission), 313, and Statistics 357.

Individuals must complete at least nine upper division units at San Diego State University and have a cumulative grade point average of 2.5 in the required courses to qualify for the certificate.

**Mathematics Departmental Placement Examination**

All students who expect to enroll in Computer Science 106, 107, 108, Mathematics 118, 120, 121, 141, 150, 210, 211, 312, Statistics 119, 250 must satisfy the Entry-Level Mathematics Examination requirement and pass the required part of the Mathematics Departmental Placement Examination. For Mathematics 150, certain prerequisite courses taken at San Diego State University may be used to satisfy the Mathematics Departmental Placement Examination requirement.

**Courses (MATH)**

*(Intermediate algebra is prerequisite to all mathematics courses.)*

**LOWER DIVISION COURSES**

**NOTE:** Proof of completion of Entry-Level Mathematics requirement required for Mathematics 118, 120, 121, 122, 141, 150, 210, 211: Copy of ELM score or verification of exemption.

118. **Topics in Mathematics** *(3) (CAN MATH 2)*

Prerequisites: Satisfaction of Entry-Level Mathematics requirement and qualification on the Mathematics Departmental Placement Examination, Part IA.

Topics selected from algebra, analysis, geometry, logic, probability, or statistics, designed to give student insight into structure of mathematical theories and their applications. Not open to students with credit in Mathematics 140 or higher numbered courses.

120. **Calculus for Business Analysis** *(3) I, II, S (CAN MATH 34)*

Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Departmental Placement Examination, Part IA.

Topics selected from algebra, analysis, geometry, logic, probability, or statistics, designed to give student insight into structure of mathematical theories and their applications. Not open to students with credit in Mathematics 140 or higher numbered courses.

141. **Precalculus** *(3) I, II, S (CAN MATH 16)*

Prerequisites: Knowledge of algebra, geometry, and trigonometry as demonstrated by either (1) satisfactory completion of Mathematics 141 at SDSU with a grade of C (2.0) or above; or (2) satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Departmental Precalculus Proficiency Examination. Proof of completion of Entry-Level Mathematics requirement required: Copy of ELM score or verification of exemption.

Real numbers, inequalities; polynomials; rational, trigonometric, exponential and logarithmic functions; conic sections. Not open to students with credit in Mathematics 140 or higher numbered courses.

150. **Calculus I** *(5) I, II, S (CAN MATH 18)*

*(150 + 151: CAN MATH SEQ B)*

*(150 + 151 + 252: CAN MATH SEQ C)*

Prerequisites: Knowledge of algebra, geometry, and trigonometry as demonstrated by either (1) satisfactory completion of Mathematics 141 at SDSU with a grade of C (2.0) or above; or (2) satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Departmental Precalculus Proficiency Examination. Proof of completion of Entry-Level Mathematics requirement required: Copy of ELM score or verification of exemption.

Real numbers, inequalities; polynomials; rational, trigonometric, exponential and logarithmic functions; conic sections. Not open to students with credit in Mathematics 140 or higher numbered courses.

151. **Calculus II** *(4) I, II, S (CAN MATH 20)*

*(150 + 151: CAN MATH SEQ B)*

*(150 + 151 + 252: CAN MATH SEQ C)*

210. **Number Systems in Elementary Mathematics** (3) I, II
This course or its equivalent is required for students working toward a multiple subject credential in elementary education.
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Departmental Placement Examination, Part C.
Number sense, operation concepts, estimation, mental arithmetic, algorithms, problem solving, whole, rational, real numbers, ratio, and number theory.

211. **Geometry in Elementary Mathematics** (3) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Departmental Placement Examination, Part C; and Mathematics 210.
Two and three dimensional shapes and interrelationships, congruence, similarity and proportional reasoning, measurement of length, angle size, area, volume, metric system, and problem solving.

241. **Mathematics Software Workshop** (1)
Prerequisites: Computer Science 107 and Mathematics 151.
Introduction to mathematical software environment such as MATLAB, MAPLE, MATHEMATICA OR TI-82. May be repeated for credit with different software. See Class Schedule for specific content. Maximum credit two units.

245. **Discrete Mathematics** (3) I, II, S
Prerequisite: Mathematics 121 or 150.
Logic, methods of proof, set theory, number theory, equivalence and order relations, counting (combinations and permutations), solving recurrence relations.

252. **Calculus III** (4) I, II, S (CAN MATH 22)
Prerequisite: Mathematics 151 with minimum grade of C.

254. **Introduction to Linear Algebra** (3) I, II, S
Prerequisite: Mathematics 151.
Matrix algebra, Gaussian elimination, determinants, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors.

296. **Experimental Topics** (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

299. **Special Study** (1-3)
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

**UPPER DIVISION COURSES**

(Extended for Undergraduates)

NOTE: Proof of completion of prerequisites required for all upper division courses: Copy of transcript.

302. **Transition to Higher Mathematics** (3) I, II
Prerequisite: Mathematics 150.
Selected topics in mathematics to emphasize proof writing and problem solving. Intended for those planning to teach secondary school mathematics.

303. **History of Mathematics** (3) I, II
Prerequisites: Mathematics 141 or students using course to satisfy General Education must complete the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning.
Major currents in the development of mathematics from ancient Egypt and Babylon to late nineteenth century Europe.

312. **Topics from Elementary Mathematics** (3) I, II
Prerequisites: Mathematics 211 and satisfactory performance on Mathematics Departmental Placement Examination, Part LS.
Topics from statistics and probability. Enrollment limited to future teachers in grades K-8.

313. **Topics from Elementary Mathematics II** (3)
Prerequisite: Mathematics 312.
Capstone course for prospective K-8 teachers. Advanced topics in mathematics selected from algebra, number systems, transformation geometry, and problem solving. Enrollment limited to future teachers in grades K-8.

336. **Introduction to Mathematical Modeling** (3) I
Prerequisite: Mathematics 254.
Models from the physical, natural, and social sciences including population models and arms race models. Emphasis on classes of models such as equilibrium models and compartment models.

337. **Elementary Differential Equations** (3) I, II
Prerequisite: Mathematics 151.
Integration of first-order differential equations, initial and boundary value problems for second-order equations, series solutions and transform methods, regular singularities.

342A. **Methods of Applied Mathematics I** (3) I, II
Prerequisite: Mathematics 252.
Vector analysis, divergence and Stokes' theorem and related integral theorems. Matrix analysis, eigenvalues and eigenvectors, diagonalization. Introduction to ordinary differential equations. Computer software packages for matrix applications, solving, and graphing differential equations. Not open to students with credit in Physics 340A.

342B. **Methods of Applied Mathematics II** (3) I, II
Prerequisite: Mathematics 342A.

413. **Mathematics for the Middle Grades** (3)
Prerequisites: Senior standing and Mathematics 312.
Teacher-level look at mathematics taught in middle grades, to include proportional reasoning, rational and real numbers, probability, and algebra. Intended for those planning to teach mathematics in middle grades; cannot be used as part of major or minor in mathematical sciences with exception of major for single subject teaching credential. Students in the SSTC major must receive instructor permission.

414. **Mathematics Curriculum and Instruction** (3)
Prerequisites: Senior standing and 12 upper division units in mathematics.
Historical development of mathematics and mathematics curriculum. Principles and procedures of mathematics instruction in secondary schools. For secondary and postsecondary teachers and teacher candidates. Course cannot be used as part of the major or minor in mathematical sciences with exception of major for the single subject teaching credential.

496. **Experimental Topics** (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. **Special Study** (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

**UPPER DIVISION COURSES**

(Also Acceptable for Advanced Degrees)

NOTE: Proof of completion of prerequisites required for all upper division courses: Copy of transcript.

509. **Computers in Teaching Mathematics** (3)
Two lectures and three hours of laboratory.
Prerequisite: Mathematics 252.
Solving mathematical tasks using an appropriate computer interface, and problem-based curricula. Intended for those interested in mathematics teaching.
Mathematics

510. Introduction to the Foundations of Geometry  (3) I, II
Prerequisite: Mathematics 122 or 151.
The foundations of Euclidean and hyperbolic geometries. Highly recommended for all prospective teachers of high school geometry.

511. Projective Geometry  (3)
Prerequisite: Mathematics 254.
Geometry emphasizing relationships between points, lines, and conics. Euclidean geometry and some non-Euclidean geometries as special cases of projective geometry.

512. Non-Euclidean Geometry  (3)
Prerequisite: Mathematics 252.
History of attempts to prove the fifth postulate; emphasis on plane synthetic hyperbolic geometry; brief treatment of other types of non-Euclidean geometry.

521A. Abstract Algebra  (3) I, II
Prerequisites: Mathematics 245 and 252.
Abstract algebra, including elementary number theory, groups, and rings.

521B. Abstract Algebra  (3) II
Prerequisite: Mathematics 521A.
Continuation of Mathematics 521A. Rings, ideals, quotient rings, unique factorization, noncommutative rings, fields, quotient fields, and algebraic extensions.

522. Number Theory  (3) I
Prerequisites: Mathematics 245 and 252.
Theory of numbers to include congruences, Diophantine equations, and a study of prime numbers; cryptography.

523. Mathematical Logic  (3)
Prerequisite: Mathematics 245.
Propositional logic and predicate calculus. Rules of proof and models. Completeness and the undecidability of arithmetic. Not open to students with credit in Philosophy 521.

524. Linear Algebra  (3) I, II
Prerequisites: Mathematics 245 and 254; or 342A.
Vector spaces, linear transformations, orthogonality, eigenvalues and eigenvectors, normal forms for complex matrices, positive definite matrices and congruence.

525. Algebraic Coding Theory  (3) II
Prerequisite: Mathematics 254.
Linear codes, perfect and related codes, cyclic linear codes, BCH codes, burst error-correcting codes.

531. Partial Differential Equations  (3) I
Prerequisites: Mathematics 252 and 337.
Boundary value problems for heat and wave equations: eigenfunction expansions, Sturm-Liouville theory and Fourier series. D’Alembert’s solution to wave equation; characteristics. Laplace’s equation, maximum principles, Bessel functions.

532. Functions of a Complex Variable  (3)
Prerequisite: Mathematics 252.
Analytic functions, Cauchy-Riemann equations, theorem of Cauchy, Laurent series, calculus of residues, and applications.

533. Vector Calculus  (3)
Prerequisite: Mathematics 254 or 342A.
Scalar and vector fields; gradient, divergence, curl, line and surface integrals: Green’s, Stokes’ and divergence theorems. Green’s identities. Applications to potential theory or fluid mechanics or electromagnetism.

534A. Advanced Calculus I  (3) I, II, S
Prerequisites: Mathematics 245 and 254; or 342A.
Completeness of the real numbers and its consequences, sequences of real numbers, continuity, differentiability and integrability of functions of one real variable.

534B. Advanced Calculus II  (3) II
Prerequisite: Mathematics 534A.
Series and sequences of functions and their applications, functions of several variables and their continuity, differentiability and integrability properties.

535. Introduction to Topology  (3) I
Prerequisite: Mathematics 534A.

537. Ordinary Differential Equations  (3)
Prerequisite: Mathematics 337.
Theory of ordinary differential equations: existence and uniqueness, dependence on initial conditions and parameters, linear systems, stability and asymptotic behavior, plane autonomous systems, series solutions at regular singular points.

541. Introduction to Numerical Analysis and Computing  (3) I, II, S
Prerequisites: Mathematics 254 or 342A; and Computer Science 106 or 107 or 205 or Engineering 120.
Solution of equations of one variable, direct methods in numerical algebra, least squares approximation, interpolation and uniform approximation, quadrature.

542. Introduction to Numerical Solutions of Differential Equations  (3) II
Prerequisites: Mathematics 337 and 541.

543. Numerical Matrix Analysis  (3)
Prerequisite: Mathematics 541.

544. Computational Finance  (3)
Prerequisites: Mathematics 531 and Statistics 550.

561. Applied Graph Theory  (3)
Prerequisite: Mathematics 245 or 254.
Undirected and directed graphs, trees, Hamiltonian circuits, classical problems of graph theory including applications to linear systems.

562. Mathematical Methods of Operations Research (3) II
Prerequisites: Mathematics 252 and 254.
Theory and applications concerned with optimization of linear and non-linear functions of several variables subject to constraints, including simplex algorithms, duality, applications to game theory, and descent algorithms.

579. Combinatorics  (3)
Prerequisite: Mathematics 245.
Permutations, combinations, generating functions, recurrence relations, inclusion-exclusion counting. Polya’s theory of counting, other topics and applications.

580. Risk Management: Stocks and Derivative Securities  (3)
Prerequisite: Mathematics 337, Statistics 550, or 551A.
Theory of derivative securities with focus on evolution of stock prices and pricing of options.

581. Risk Management: Portfolio Selection and Other Features of Finance Markets  (3)
Prerequisite: Mathematics 337, Statistics 550 or 551A, Mathematics 580.
Derivatives and term structures, method of principal components, theory of portfolio optimization, some numerical methods.
596. **Advanced Topics in Mathematics** (1-4) I, II
   Prerequisite: Consent of instructor.
   Selected topics in classical and modern mathematical sciences. May be repeated with the approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree.

**Mathematics Specialist Certificate Program**

The Mathematics Specialist Certificate Program for Grades 4-6 is open only to credentialed teachers. The certificate program is described in the Bulletin of the Graduate Division in the Mathematics and Science Education section. Undergraduate mathematics courses for the certificate program are listed below.

**Courses (MATH)**

281A-281B. **Integrated Mathematics** (2-2)
   One lecture and two hours of activity.
   Prerequisites: Mathematics 281A is prerequisite to 281B. Teaching credential and consent of instructor.
   Number systems, geometry, and measurement, selected and sequenced as appropriate for practicing elementary teachers' needs.

383. **Quantitative Reasoning** (1)
   One-half lecture and one hour of activity.
   Prerequisites: Teaching credential and consent of instructor.
   Reasoning about objects and their measurements and the relationships among these quantities. Understand situations that call for additive or multiplicative reasoning; the important role of proportional reasoning in many middle grades topics.

384. **Fostering Algebraic Thinking** (1)
   One-half lecture and one hour of activity.
   Prerequisites: Teaching credential and consent of instructor.
   Topics (e.g. pattern searching, generalizing, graphing) that can prepare elementary and middle school students for algebra.

385. **Representing and Interpreting Data** (1)
   One-half lecture and one hour of activity.
   Prerequisites: Teaching credential and consent of instructor.
   Gathering, representing, and interpreting data sets.

386. **Measuring Uncertainty** (1)
   One-half lecture and one hour of activity.
   Prerequisites: Teaching credential and consent of instructor.
   Prepare teachers to teach probability topics in grades 4-8 textbooks, simulating probabilistic situations, theoretical probabilities, expected values.

487. **Algebra in the Middle Grades** (3)
   One lecture and four hours of activity.
   Prerequisites: Teaching credential and consent of instructor.
   Algebra as a powerful tool for analyzing, describing, and symbolizing physical relationships. Role of functions in algebra and in other areas of mathematics.

**GRADUATE COURSES**

Refer to Bulletin of the Graduate Division.
The undergraduate program in Mechanical Engineering is accredited by the Accreditation Board for Engineering and Technology, Inc.

**Faculty**
Emeritus: Bauer, Bedore, Bilterman, Hoyt, Hussain, Lybarger, Mansfield, Morgan, Murphy, Ohnysty, Rao, Stone
Chair: Thompson
Professors: Bhattacharjee, Craig, Güven, Kline
Associate Professors: Burns, Thompson
Assistant Professors: Impelluso, Lambert, May-Newman, Olevsky

**Offered by the Department**
Doctor of Philosophy degree in engineering sciences/applied mechanics.
Master of Science degree in mechanical engineering.
Major in mechanical engineering with the B.S. degree.

**Transfer Credit**
No credit will be given for upper division engineering coursework taken at an institution having an engineering program which has not been accredited by the Accreditation Board for Engineering and Technology, Inc., unless the student successfully completes the first 12 units of engineering work attempted at this university. At that time, and upon recommendation of the department, credit will be given for the unaccredited work.

**General Education**
Students will complete a minimum of 50 units in General Education, to include a minimum of nine upper division units taken after attaining junior class standing. No more than twelve units may be used for General Education credit from any one department or academic unit. No more than 7 units from one department can be used in Sections II, III, and IV combined (Foundations, American Institutions, and Explorations).

I. Communication and Critical Thinking: 9 units
   1. Oral Communication (3 units)
   2. Composition (3 units)
   3. Intermediate Composition and Critical Thinking (3 units)

II. Foundations: 29 units
   A. Natural Sciences and Quantitative Reasoning (17 units):
      1. Physical Sciences (11 units)
         Engineering students will take Chemistry 200 which includes a laboratory (5 units).
         Physics 195 (3 units)
         Physics 196 (3 units)
      2. Life Sciences (3 units)
      3. Laboratory (satisfied under A.1. above)
   B. Social and Behavioral Sciences (9 units)
      4. Mathematics/Quantitative Reasoning
         Engineering students will take Mathematics 150, 3 units applicable to General Education.
   C. Humanities (9 units)
      Complete three courses in three different areas. One of these courses and the one under IV.A. below must be taken in the same department.

III. American Institutions: Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

IV. Explorations: Total: 9 units; must include one course of cultural diversity.
   A. Upper division Humanities (3 units)
      Three units must be taken from the same department as one of the Humanities courses selected in Foundations.
   B. Upper division Humanities (3 units from a department not selected in A above.)
   C. Upper division Social and Behavioral Sciences (3 units)

**The Major**
Mechanical engineers invent solutions to problems involving a broad spectrum of mechanical/electromechanical devices. They create new devices for solving problems in new and different ways. A newer focus for mechanical engineers is in the area of biomedical engineering, which is the application of quantitative engineering methods to the understanding and solution of biological and physiological problems. Another focus is the design of manufacturing systems. This involves improving quality and speed of manufacture through implementation of computer technology via robots and other automation equipment. Thus, Computer Aided Design (CAD), Computer Aided Manufacturing (CAM), and Computer Integrated Manufacturing (CIM) are all newer aspects of mechanical engineering education.

Jobs in mechanical engineering include developing products to improve air and water quality, inventing more efficient energy sources, designing farm equipment to improve crop yield throughout the world, and developing systems for biological research as well as lifesaving medical equipment. A mechanical engineer, now more than ever, is someone who can translate scientific theories into the real products and processes to improve the quality of life.

Mechanical engineers are designers, and the program is dedicated to teaching engineering through the process of design. Design methodology and design projects are integrated throughout the curriculum, culminating in a capstone, design experience in the senior year where students are members of a design team.

The future depends on solving the worldwide problems of energy shortages, environmental pollution, world health, and inadequate food production. Mechanical engineers are heavily involved in finding solutions for these problems.

**Mechanical Engineering Major**
With the B.S. Degree (Major Code: 09101)

**NOTE:** See following page for recommended sequence of courses for the major in mechanical engineering.

All students in mechanical engineering pursue a common program of basic sciences, engineering, and mechanical engineering fundamentals. The major consists of 53 upper division units. Students are provided with the opportunity to select a pattern of study to satisfy their areas of interest. This pattern of study is indicated in the sequence below as “professional electives” and may be selected from available courses in controls, energy conversion, gas dynamics, heat transfer, machine design, materials, thermodynamics, vibrations, and other areas. The students’ choice of elective courses must be made in consultation with their adviser and documented by the filing of an approved master plan during the second semester of their freshman year.

# Approved as part of the student's master plan.

All mechanical engineering students are required to file a master plan. The purpose of the plan is to facilitate proper academic advice. The plan is to be filed after consultation with a faculty member of the department. Once filed, the plan must be reviewed each semester with the assigned adviser before advanced registration. Transfer students must comply with this requirement prior to enrollment in Mechanical Engineering 310.

Students must complete all upper division courses in the major within seven years prior to graduation. Students who will have completed any of those courses more than seven years before the projected date of graduation must contact the department chair for information about ways to certify knowledge of current course content.

Upper Division Writing Requirement. This requirement can be satisfied by passing the departmental screening examination, a part of Mechanical Engineering 310, or passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.

Courses (ME)

## LOWER DIVISION COURSES

260. Introduction to Engineering Materials (3) I, II (CAN ENGR 4)

Atomic and molecular structure of materials utilized in engineering. Analysis of the relationships between structure of materials and their mechanical, thermal, electrical, corrosion, and radiation properties. Examples of material structure relevant to civil, electrical, aerospace, and mechanical engineering applications.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.
310. Engineering Design: Introduction (3) I, II
Two lectures and three hours of guided design activities. Prerequisites: Mechanical Engineering majors — Africana Studies 200 or Linguistics 200 or Philosophy 110 or Rhetoric and Writing Studies 200 with a grade of C or better; Engineering 120, 296 (Graphic Communication Virtual Reality), and Engineering Mechanics 220. To be eligible for the departmental upper division writing test in this class, students must have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication. Every mechanical engineering student must have a master plan on file before enrolling in Mechanical Engineering 310.

314. Engineering Design: Mechanical Components (3) I, II
Prerequisites: Mechanical Engineering 310 and Civil Engineering 301. Application of mechanics, physical properties of materials, and solid mechanics to the design of machine elements. Student design projects.

340. Materials and Design (3) I, II
Prerequisite: Mechanical Engineering 260. Fabrication and thermomechanical processing effects on properties and service behavior of engineering materials. Fracture mechanics and materials behavior under a range of design conditions. Design criteria for engineering materials including fatigue and creep. Case studies and failure analysis techniques.

350. Thermodynamics (3) I, II
Prerequisites: Mathematics 252 and Engineering Mechanics 200, both with a grade of C or better. Thermodynamic laws are fully developed and analyzed. Emphasis on second law analysis, utilization of computer software such as EES for steam and gas tables in problem solving. Introduction to thermodynamic cycles.

352. Thermodynamics and Heat Transfer (3) I, II
Prerequisites: Mathematics 252 with a grade of C or better, and Engineering Mechanics 202 or 220. First and second laws of thermodynamics; heat conduction, convection and radiation. Not acceptable for mechanical engineering majors.

390. Engineering Systems Laboratory (2) I, II
One lecture and three hours of laboratory. Prerequisites: Rhetoric and Writing Studies 200 or Linguistics 200, Electrical Engineering 203, Engineering 280, all with a grade of C or better; and credit or concurrent registration in Civil Engineering 301. Engineering experimentation. Instrumentation theory, data analysis, technical communication and experiment design. Principles taught in lecture and applied experiments selected from subdisciplines of mechanical engineering. Focus includes vibration measurement analysis, electronics and digital Programmable Logic Control (PLC).

395. Engineering Systems Laboratory (2) I, II
One lecture and three hours of laboratory. Prerequisites: Mechanical Engineering 350 and 390. Advanced experiment design, data acquisition theory and data analysis. Experience in designing, conducting and reporting on experiments to acquire knowledge about engineering systems. Projects include heat transfer and experiments in thermodynamics, material testing and heat treatment.

450. Engineering Thermodynamics (3) I, II
Prerequisites: Mechanical Engineering 350 and credit or concurrent registration in Engineering Mechanics 340. Further development of concepts from classical thermodynamics. Analysis and design of thermodynamics and gas dynamic cycles and other applications of energy conversion. Emphasis on advanced energy systems and problem solving using computers.

470. Principles of Heat Transfer (3) I, II
Prerequisites: Engineering 280 with a grade of C or better, Engineering Mechanics 340, and Mechanical Engineering 350. Heat transfer by conduction, convection, radiation, and combinations thereof. Introduction to heat exchanger analysis and design, along with other applications. Computer-assisted problem solving techniques.

490A-490B. Engineering Design: Senior Project (2-2) I, II
Six hours of guided design activities. Prerequisites for 490A: Mechanical Engineering 314, 395, and credit or concurrent registration in Mechanical Engineering 470, 512, and Electrical Engineering 333. Prerequisites for 490B: Mechanical Engineering 450, 490A. Applications of engineering principles and design techniques to the designing, building, and testing of an engineering system. A single project is completed in this two-course sequence and is judged completed upon presentation of an oral and a written report. In addition, issues related to ethics and engineering practice are discussed.

496. Advanced Mechanical Engineering Topics (1-3) I, II
Prerequisite: Consent of instructor. Proof of completion of prerequisite required: Copy of transcript.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Proof of completion of prerequisite required: Copy of transcript.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)
NOTE: Proof of Completion of prerequisites required for all Mechanical Engineering 300-, 400-, and 500-level courses: Copy of transcript. In addition, Mechanical Engineering 390, 450, 490A, and 530 require evidence of concurrent registration in appropriate courses.

510. Advanced Machine Design (3) I, II
Prerequisites: Mechanical Engineering 314 and 340. Application of advanced mechanics of materials to the design and analysis of mechanical elements. Introduction to probabilistic design and to finite element methods and applications. Design projects involve extensive use of finite element programs.

512. Simulation of Engineering Systems (3) I, II
Two lectures and three hours of laboratory. Prerequisites: Mechanical Engineering 314 and 395. Modeling, simulation, analysis, and design of mechanical engineering dynamics, vibration, electromechanical systems, heat transfer, thermodynamics and control systems. Introduction to virtual instrumentation using software such as LABVIEW.

520. Introduction to Mechanical Vibrations (3)
Prerequisites: Mechanical Engineering 512 and Civil Engineering 301. Analysis of mechanical vibration; single- and multi-degree of freedom systems; free and forced vibrations; vibration isolation; vibration absorbers. Theory of vibration measuring instruments.

306
530. Automatic Control Systems  (3)  
Prerequisites: Engineering 280 with a grade of C or better, and credit or concurrent registration in Mechanical Engineering 512.  
Analysis of the dynamic characteristics of control components and systems. Stability and response of closed loop systems. Design of control systems.

540. Nonmetallic Materials  (3)  
Prerequisites: Mechanical Engineering 314 and 340.  

542. Manufacturing with Nonmetallic Materials  (3)  
Prerequisites: Mechanical Engineering 340 and Engineering 280 with a grade of C or better.  
Engineering polymers and composites, processes, and manufacturing techniques. Polymer flow in extrusion, compression molding, RTM, and calendaring. Hands-on fabrication and test exercises included along with a capstone manufacturing project.

544. Advanced Manufacturing Processes  (3)  
Prerequisites: Mechanical Engineering 314, 340, 350; Engineering 280 with a grade of C or better; and Engineering 296 (Graphic Communication Virtual Reality).  

546. Computer Aided Manufacturing  (3)  
Prerequisites: Mechanical Engineering 314, 340; Engineering 120 and 280, both with a grade of C or better; and Engineering 296 (Graphic Communication Virtual Reality).  
Computer controlled manufacturing and assembly techniques and devices. Databases and special languages. Agile manufacturing soft ware programs and technologies.

570. Thermal Systems Analysis and Design  (3)  
Prerequisite: Mechanical Engineering 470.  
Thermal system component characteristics and their effect on overall system performance. Relationship among thermal sciences in design process. Introduction to thermoeconomic optimization.

580. Elements of Energy Conversion  (3)  
Prerequisite: Mechanical Engineering 350.  
Principles of physics and chemistry applied to design and performance analysis of a broad spectrum of direct and alternative energy systems. Solar photovoltaics, passive and active solar energy conversion, thermoelectrics, thermonics, magnetohydrodynamics, nuclear fusion, wind and wave energy, and fuel cells.

582. Heating, Ventilating, and Air-Conditioning  (3)  
Prerequisite: Mechanical Engineering 470.  

586. Solar Energy Conversion  (3)  
Prerequisites: Engineering Mechanics 340, Mechanical Engineering 450 and 470.  
Application of thermodynamics, fluid mechanics and heat transfer to the thermal design of solar energy conversion systems. Computer simulations utilized.

590. Biomechanics  (3)  
Prerequisites: Civil Engineering 301 and Engineering Mechanics 340.  

596. Advanced Mechanical Engineering Topics  (1-3) I, II  
Prerequisite: Consent of instructor. Proof of completion of prerequisite required; Copy of transcript.  
Modern developments in mechanical engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Mechanical Engineering 496, 499 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Mechanical Engineering 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES  
Refer to Bulletin of the Graduate Division.
Military Science
In the College of Professional Studies and Fine Arts

Faculty
Chair: Guzman
Professor: Guzman
Assistant Professors: Ellingwood, Graef, Hodges, Potter

Offered by the Department
Army ROTC curriculum leading to a commission as a Second Lieutenant in the US Army.
Minor in Military Science.

Curriculum
The Department of Military Science offers both a four-year and a two-year Army Reserve Officers Training Corps (ROTC) program designed to develop future officers in the areas of leadership, management, foreign policy, national security, military history, and military skills. The Army ROTC program also offers a series of optional adventure outings and on-campus activities during the school year. These include orienteering, rappelling, sports programs and social activities. Enrolment in the Army ROTC program is not a requirement for taking military science courses. The Military Science Department offers a varied class schedule to meet students’ requirements.

The Army ROTC program consists of one course per semester along with scheduled leadership laboratories and field training. The four-year program is divided into two parts: the basic course and the advanced course. The basic course is usually taken in the freshman and sophomore years. No military commitment is incurred during this time, and students may withdraw at any time through the end of the second year. The first year consists of two-unit introductory courses each semester. The second year consists of two-unit courses with instruction on organizational leadership theories. Uniforms, necessary military science textbooks, and materials are furnished without cost.

After completing the basic course, students who have demonstrated officer potential, have met physical and scholastic standards and agree to contract are eligible to enroll in the advanced course. This course is normally taken in the final two years of college and consists of outlined military science and designated enrichment courses that include communication skills, military history, and computer literacy. In addition, the advanced course consists of a paid five-week Advanced Camp held during the summer between the junior and senior years. This camp permits students to put into practice the leadership principles and theories acquired in the classroom. All students in the advanced course receive uniforms, necessary military science textbooks, pay for the Advanced Camp, and a living allowance of up to $4,000 each school year.

Upon completion of the advanced course, students are commissioned Second Lieutenants in the US Army. The available options after commissioning are active duty for a minimum of three years or three months active duty for training followed by part-time participation in the US Army Reserve or US Army National Guard.

Several special programs are available for students who have previous ROTC training or active military service. These programs allow for part- or full-placement credit for the basic course. In addition, a program is available for simultaneous participation in both Army ROTC and the Army Reserve or Army National Guard.

Two-Year Commissioning Program
This program offers students the opportunity to be commissioned officers after two years of Army ROTC instead of four years. The two-year program is designed for community and junior college graduates and students who did not take Army ROTC during their first two years or who have prior military experience. The five-week summer basic camp course of instruction (Military Science 221) provides the military skills and leadership training normally taught during the freshman and sophomore on-campus courses. The basic camp is conducted at Fort Knox, Kentucky, and a paid salary, transportation, meals, and lodging will be furnished. Basic camp graduates enroll in Military Science 301 to enter the advanced course.

Cross Enrollment
Students can participate in Army ROTC while attending any other college or university in San Diego County. For further information concerning cross enrollment, contact the Department of Military Science at (619) 594-4943.

Applying for the Program
SDSU students enroll in military science courses by signing up during registration in the same manner as for other University classes. There is no advance application needed for the freshman or sophomore classes. Students need to contact the Department of Military Science to enroll in the Army ROTC program and to receive information on lab schedules and activities.

Students enrolling in other area colleges and universities need to contact the Department of Military Science at SDSU for curriculum requirements and application procedures at (619) 594-4943.

Financial Assistance
All students have the opportunity to compete for three- and two-year scholarships. These scholarships cover all tuition, laboratory, and book fees, and a $350 monthly subsistence allowance during the school year. Scholarship applications are processed by the Department of Military Science. In addition, two-year scholarships are available at the basic camp at Fort Knox, Kentucky, where you will be in competition only with the students attending the basic camp. Contact the department chair for details. Paid positions (part-time) are available through simultaneous membership in local reserve and National Guard units.

Military Science Minor
The minor in military science consists of a minimum of 15 units to include Military Science 301, 302, 411; and six units selected from Military Science 401, 410, 499, and Sociology 499.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.
Courses (MIL S)

LOWER DIVISION COURSES

96. Leadership Laboratory (1) I, II
Application of individual skills and military tasks appropriate to a small unit leader. Prepares cadets for higher level leadership positions. Emphasis is on performance in leader roles which includes instruction. Maximum credit two units. Credit earned in this course not applicable to a bachelor's degree.

100A-100B. Introduction to the US Army (2-2) I, II
Semester I: Structure, organization, and missions of the US Army. Preparation and development for officer status. Semester II: Officer leadership, development, and functions. Emphasizing command responsibilities for a basic foundation of military fundamentals.

210. Contemporary Military Leadership Theories: Individuals and Groups (2) I
Scientific approach to leadership theory and its applicability to military settings through study of human behavior and leadership models at individual and group levels using simulations, case studies, and diagnostic instruments.

211. Contemporary Military Leadership Theories: Organizations (2) II
Leadership at the organizational level with application to military settings with emphasis on developing leader skills and examination of theories and concepts of civil-military relations, using simulations, case studies, and diagnostic instruments.

221-S. Cadet Basic Field Training (3)
Prerequisite: Sophomore standing.
Five-week field training with training in structure, organization, and missions of the US Army; officer leadership, development, and responsibilities; basic military skills; personal conditioning; oral and written military communications.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Skills of Military Leadership (3) I
Techniques and skills required of military leaders. Military methods of instruction, review of essential map reading skills and case studies of military leadership techniques.

302. Theory and Dynamics of the Military Organization (3) II
Current tactical doctrine and military techniques of planning and coordination required to apply doctrine to small unit operations.

401. American Military History (3)
Prerequisite: Senior level standing for Army ROTC students. Open to non-ROTC students with consent of instructor.
Military history from colonial times to present within framework of the nine principles of war, with focus on leadership, weapons, and tactics of US Army.

410. Senior Leadership Seminar (3) I, II
Prerequisites: Military Science 301 and 302.
Leadership and management problems encountered in a mid-level sized organization. Role of the junior officer. Designed to prepare senior cadets for positions as leaders and managers of resources at the platoon/company level.

411. Contemporary Military Policy (3) II
Prerequisites: Military Science 301 and 302.
The military justice system as it has evolved from international law principles and established national security policies. History of military law; the philosophy and structure of the system to include court-martial ethics and decision-making.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of department chair.
Individual study. Maximum credit six units.
Faculty
Director: Chambers
Professors: Almond, Chambers, Dutton, Follingstad, Kolar, Liebowitz, Logan, Meadows, O’Donnell, Peterman, Stauffer, Ward-Steinman, Yeager
Assistant Professors: Friedricks, McDonald
Lecturers: Helzer, Warman

Applied Music Instruction
Piano: Darby, Follingstad, Kolar
Harpischord: Paul
Organ: Plimpton
Voice: Chambers, LaTour, MacKenzie, Nikkel, Tweed, Westbrook
Flute: Payne
Oboe: Reed
Clarinet: Liebowitz
Saxophone: Hart-Jenkins, Rekevics
Early Instruments: Peterman
Bassoon: Simmons
French Horn: Cable, Lorge
Trumpet: Price
Trombone: Fellinger, Reusch, Yeager
Baritone Horn: Dutton
Tuba: Dutton
Percussion: Flood, Shea
Violin: Gaisler, Nykter
Viola: Elaine, Gerard
Cello: Stauffer
Contrabass: G. Biggs
Harp: Hays
Classical Guitar: Benedetti, Romero, Svoboda, Wetzel
Composition: Dutton, Stauffer, Ward-Steinman, D.
Non-Western Instruments: Specialists from specific cultures as available each semester
Jazz Studies: Helzer, Yeager
Opera: Evans-O’Connor

Offered by the School of Music and Dance
Master of Arts degree in music.
Master of Music degree.
Major in music with the B.A. degree in liberal arts and sciences.
Bachelor of Music degree in applied arts and sciences.
Teaching major in music for the single subject teaching credential.
Minor in music.

The Major
Music serves to enhance the lives of all peoples and provides a challenging avenue of creative expression for those who wish to pursue its serious study. The School of Music and Dance offers an innovative and comprehensive musicianship program as part of the curriculum of all music majors that includes the study of music from several different cultures. For students seeking a professional degree (Bachelor of Music) this program is designed to ensure that students learn to function as a conductor, performer, teacher, coach, editor, or arranger. All students receive instruction in sight-reading, sight-singing, improvisation and music composition.

The Bachelor of Music program is for those students who have professional ambitions in music performance, public school teaching, composition, jazz studies, as a music generalist or seek a foundation for graduate study leading to college or university teaching or research positions. This program strongly emphasizes the professional aspects of music. The Bachelor of Music degree, with a specialization in Music Education leads to the California Single Subject Teaching Credential.

The performance of music is the most obvious and frequent use of the musician’s skill. However, graduates may also teach, compose, review, sell, and record music. In addition, inventing, constructing, tuning, and repairing instruments requires skills which are based on understanding the fundamentals of music. Some of the positions that a music graduate might hold include studio instructor; teacher in public or private schools; researcher for libraries, publishers, and museums; music therapist; recording artist, composer, or arranger, professional musician with an orchestra, band, or opera company. The Bachelor of Arts degree is a liberal arts degree for those students who seek an understanding of and an intimate orientation to the discipline of music without professional goals. This degree enables students to obtain this broad understanding.

Several Music Minor options are available for those students whose primary interest is in another department.

Advising
All music majors are required to consult with their music faculty adviser as soon as possible; they are required to meet with their faculty adviser within the first two semesters after acceptance or transfer into the major.

Music Curricula
General Basic Requirements
1. All new students and transfer students who wish to enroll as music majors or minors are given placement examinations in music theory and auditions on their major instrument and piano. The B.A. in Music and the Elementary Music Minor student may, but are not required to have a major instrument. On the basis of these examinations and auditions, recommendations of specific courses will be made by the music faculty adviser. The specific courses are Music 105A, 105B, 106A, 106B, 205A, 205B, 305A, 305B, 405A, 405B, Music 251 and 451 with the appropriate letter suffix; and Music 110A-110B, 110C-110D.
2. Each semester of private instruction concludes with a solo performance before a faculty jury. The jury grade accounts for one-third of the final semester grade; the instructor’s grade accounts for the remaining two-thirds.
3. To qualify for upper division study, music majors must pass a Junior Level Examination. This is a more intensive solo performance before a faculty jury at the close of the fourth semester of study in Music 251. If it is not passed, a grade of “F” (Incomplete) is recorded. This must be resolved before enrollment in upper division study is permitted.
4. The Comprehensive Musicanship Aural Skills Examination is a requirement for graduation in the Bachelor of Music degree program. It is given at the end of each semester and may be retaken until passed. The examination includes sight-singing, melodic and harmonic dictation, error detection, chromatic and modern harmony. A final grade of C (minimum) is required in each semester of the CM courses in order to advance to the next higher course.

5. Students must participate in at least one ensemble each semester of enrollment. Please see each degree program and specialization for specific unit requirements. At least one-half of these requirements must be met by participation in a "large" ensemble in which the major instrument or voice is used. Refer to the Music Student Handbook for more details.

6. Attendance at and performance in recitals is a requirement of all music majors as set forth in the music recital regulations. Refer to the Music Student Handbook for detailed information.

Electives in Music – Non-Majors
The School of Music and Dance offers certain courses for students who are interested in music as an elective study area for the enrichment of their cultural background. Courses particularly suited for these needs are Music 102, 110, 115, 120A, 120B, 120C, 151, 240, 345, 351A, 351B, 351D, 445, and the music courses numbered 170 to 189 and from 369 to 389. Some students will be musically prepared to elect courses which may or may not be included in this group. Enrollment by qualified students who wish to elect these courses is encouraged.

Opportunities to participate in instrumental and vocal ensembles are also available to non-music majors. Music ensemble courses may be repeated. A maximum credit of eight units of ensemble courses (Music 170-189, 369-389, 569-589) may be counted toward a bachelor's degree for non-majors.

Music Major
With the B.A. Degree in Liberal Arts and Sciences (Major Code: 10052)
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." No more than 48 units in music courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major. All majors must fulfill the requirements in one of the following areas of specialization.

(a) General Music. Music 104, 110A-110B, 110C-110D (may be waived in full or in part by examination; Music 115, 151, four units selected from courses numbered 170 through 189; Music 204, 205A, 205B; five units to include Music 220, 225, 230, 235, 240; four units of Music 251; four lower division music electives. (33 units)

(b) Music Education. Music 104, 110A-110B, 110C-110D (may be waived in full or in part by examination); Music 115, 151, four units selected from courses numbered 170 through 189; Music 204, 205A-205B; five units to include Music 220, 225, 230, 235, 240; Music 246A-246B, four units of Music 251. (33 units)

(c) Performance. Music 104, 110A-110B, 110C-110D (may be waived in full or in part by examination); Music 151, six units selected from courses numbered 170 through 189; Music 204, 205A-205B; four to eight units of Music 251. (25-29 units)

(d) Composition. Music 104, 110A-110B, 110C-110D (may be waived in full or in part by examination); Music 151, six units selected from courses numbered 170 through 189; Music 204, 205A-205B; two units of Music 207; four to eight units of Music 251. (27-31 units)

(e) Jazz Studies. Music 104, 151, 166; six units selected from courses numbered 170 through 189; Music 204, 205A-205B; four to eight units of Music 251; Music 266. (25-29 units)

Foreign Language Requirement.
1. Vocalists—competency (equivalent to that which is normally attained in one semester of college study) in French, German, and Italian.
2. Jazz Studies—no foreign language equivalency required.
3. Music Education—competency (equivalent to that which is normally attained in two semesters of college study) in Spanish.
4. All Others—competency (equivalent to that which is normally attained in two semesters of college study) in French, German, or Italian (classical guitar students may substitute Spanish).

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major.
(a) General Music. Music 305A-305B, 308A-308B; Music 347; one unit of Music 348 or 349; four units selected from music courses numbered 369 through 389; Music 405A-405B, 408A-408B; four units of Music 451; seven units of upper division music electives. (37 units)

(b) Music Education. All candidates for a teacher credential must complete all requirements as outlined in this section of the catalog under Policy Studies or Teacher Education. This major may be used by students in Policy Studies or Teacher Education as an undergraduate major for the Bachelor of Music degree. Music 305A-305B, 308A-308B; Music 343 and three upper division music electives, or Music 554A, 554C, and 554E; Music 346, 347; one unit of Music 348 or 349; four units selected from music courses numbered 369 through 389; Music 405A-405B, 408A-408B; Music 446, four units of Music 451. (40 units)

(c) Performance. Music 305A-305B, 308A-308B; Music 347; one unit of Music 348 or 349; Music 367; six units selected from music courses numbered 369 through 389; Music 405A, 408A-408B; eight units of Music 451; Music 497; five units selected from Music 515, 541, 542, 554. (Pianists must include Music 541A and 542A. Vocalists must include Music 541C and 554D). (41 units)

Students specializing in performance must appear in a joint recital during the junior year and must present a solo recital during the senior year. The student must pass an audition of the program to be performed before the music faculty no less than one month in advance of the recitals.

(d) Composition. Music 305A-305B, 308A-308B; Music 310, 347; one unit of Music 348 or 349; six units selected from music courses numbered 369 through 389; Music 405A-405B, 408A-408B; eight units of Music 451; Music 497; two units of Music 507. (42 units)
The specialization may not be formalized until completion of Music 205B, or waiver by examination.

Students specializing in composition are required to present a concert of their compositions during the senior year and present the scores of works to be performed to the music faculty no less than one month in advance of the performance.

(a) Jazz Studies: Music 305A-305B, 308A-308B, 347, 364A-364B, 366, 367; six units selected from music courses numbered 369 through 389; Music 405A, 408A; eight units of Music 451; Music 466, 497, 566A-566B. (45 units)

Performance Studies for Credit

Credit may be allowed for performance studies under the following conditions:

1. Properly enrolled Bachelor of Music majors may enroll for performance studies with resident faculty without an additional fee.
2. Students may under no circumstances change instructors in the middle of a semester without first securing the permission of the director of the School of Music and Dance.
3. Prior to the start of performance studies at San Diego State University, students are required to take a preliminary audition conducted by music faculty which will indicate status at the beginning of their studies.
4. Students who have dropped out of school or have stopped taking performance studies for credit for one semester or more, upon resumption of that instruction for credit are required to present another preliminary audition.
5. At the end of each semester, the School of Music and Dance will sponsor a jury examination to satisfy itself that its standards have been met.
6. Students enrolled in performance studies must be concurrently enrolled in the Comprehensive Musicianship program until such time as the CM requirements are fulfilled.

Music Minor

To be admitted to the minor program, the student must audition to demonstrate vocal or instrumental performing ability.

The minor in music consists of 24 units in music selected from one of the following areas:

Elementary Music Education. Requirements include Music 102, 110A-110B, 115; two units of Music 170-189; four units of Music 220, 225, 230, 235, 240; Music 246A, 343, 345; two units of Music 369-389; and two units of upper division music electives.

Students selecting this minor are not required to audition on an instrument or voice. Students receive a strong multicultural component in Music 343 and 345.

Music (Classical). To be admitted to this area students must take a placement examination in comprehensive musicianship. Requirements include Music 104, 110A-110B, 151; two units selected from Music 170-189; Music 205A, 205B; two units selected from Music 369-389; and eight units of upper division electives selected with the approval of the adviser.

Jazz (Instrumental). Requirements include four units of Music 170 or 370; four units of Music 189 or 389; Music 166, 266, 364A-364B, 366, 466, 566A*, 566B*. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (MUSIC) LOWER DIVISION COURSES

101. Recitals (1) Cr/NC I, II Preparation for individual solo performances and attendance at a minimum of 12 concerts or recitals in accordance with music requirements. Maximum credit four units.
102. Basic Musicianship for Non-Music Majors (3) I, II Two lectures and two hours of activity.

105A. Introduction to Elements of Music I (2) Rudimentary music theory involving the elements of music: melody, rhythm, and harmony. Developing the understanding of these elements through instrumental and vocal experiences which include the use of unison and part-singing, the keyboard, and simple melodic and harmonic instruments. Not open to students with credit in Music 105A.

105B. Introduction to Elements of Music II (2) Prerequisite: Music 105A. Continuation of Music 105A.

105C-105D. Aural Skills (1) Cr/NC Introduction to aural skills. Two hours. Prerequisite: Concurrent registration in Music 185. Mastery of the fundamentals of voice. Not open to voice majors.

110A-110B. Piano — Elementary Class Instruction (1-1) I, II Two hours. Prerequisite: For 110B: Music 110A with a grade of C (2.0) or better. Basic keyboard experience through study of music reading, notation, scales, chords, and sight-reading covering a repertoire of beginning and intermediate songs and piano literature, with emphasis on keyboard harmony. Required of music majors and minors and credential candidates for teaching at the kindergarten-primary level.

110C-110D. Piano — Elementary Class Instruction (1-1) I, II Two hours. Prerequisite: For 110C: Music 110B with a grade of C (2.0) or better. For 110D: Music 110C with a grade of C (2.0) or better. Continuation of Music 110A-110B.

115. Voice — Elementary Class Instruction (1) I, II Two hours. Prerequisite: Concurrent registration in Music 185. Continuation of Music 110A-110B.

120A. Violin and Viola Class Instruction for the Non-Music Major (1) I, II Two hours. Prerequisite: Consent of instructor. Performance studies class in a group lesson environment. Opportunity for observation, instruction, and performance in class situation.

120B. Cello Class Instruction for the Non-Music Major (1) I, II Two hours. Prerequisite: Consent of instructor. Performance studies class in a group lesson environment. Opportunity for observation, instruction, and performance in class situation.
120C. Clarinet Class Instruction for the Non-Music Major (1)  
Prerequisite: Consent of instructor.  
Performance studies class in a group lesson environment. Opportunity for observation, instruction, and performance in the class situation.

151. Introduction to Music (3) I, II  
Practical approach to hearing music with understanding and pleasure, through study of representative compositions of various styles and performance media, great musicians and their art. Music correlated with other arts through lectures, recordings, concerts.

166. Elements of Jazz I (2)  
Fundamental harmonic analysis of basic jazz progressions, common modes and blues scale variations, solo transcription analysis, and ear-training.

Performance Organization Courses (Music 170 through 189)  
The performance organization courses are devoted to the study in detail and the public performance of a wide range of representative literature for each type of ensemble and designed to provide students with practical experience in rehearsal techniques.

170. Chamber Music (1) I, II  
Three hours. Four hours for opera. 
Prerequisite: Consent of instructor.  
Sections for string, woodwind, brass, piano, vocal, and mixed ensemble groups. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

174. Concert Band (1) II  
Five hours.  
Prerequisite: Consent of instructor.  
Study and public performance of representative literature for ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

175. Marching Band (2) I  
More than six hours.  
Prerequisite: Consent of instructor.  
Study and public performance of literature for the ensemble. Practical experience in rehearsal techniques. Maximum combined credit for Music 175 and 375 eight units.

176. Wind Symphony (1) I, II  
Five hours.  
Prerequisite: Consent of instructor.  
Study and performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

180. Symphony Orchestra (1) I, II  
Five hours.  
Prerequisite: Consent of instructor.  
Maximum credit four units.

184. Opera Theatre (2) I, II  
Six or more hours per week.  
The interpretation and characterization of light and grand opera. Specific work in coordination of operatic ensemble. Maximum credit eight units.

185. Concert Choir (1) I, II  
Five hours.  
Prerequisite: Consent of instructor.  
Maximum credit four units.

186. Chamber Singers (1) I, II  
Five hours.  
Prerequisite: Consent of instructor.  
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal technique. Maximum credit four units.

189. Jazz Ensemble (1) I, II  
More than three hours.  
Prerequisite: Consent of instructor.  
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

204. Music Technology II (1)  
Two hours of activity.  
Prerequisite: Music 104.  
Current technology in music composition, ear-training, score preparation, performance, and research practices. Open to music majors and minors only. (Formerly numbered Music 156B.)

205A. Comprehensive Musicianship (3)  
Two lectures and two hours of laboratory.  
Prerequisite: Music 105B or passing placement examination. Concurrent registration in Music 204.  
Music theory, harmony, and musicianship. Instrumentation and notation, composition and arranging. World Music Laboratory: African ensemble and dance. Open to music majors and minors only. (Formerly numbered Music 155A.)

205B. Comprehensive Musicianship (3)  
Two lectures and two hours of laboratory.  
Prerequisite: Music 205A with a grade of C (2.0) or better.  
Tonal harmony in the common-practice period. Composition with ostinato forms. World Music Laboratory: Javanese gamelan. Open to music majors and minors only. (Formerly numbered Music 155B.)

206A-206B. Aural Skills (1-1) Cr/NC  
Prerequisite for Music 206A: Music 106B. Prerequisite for Music 206B: Music 206A.  
Preparation for Junior Level Aural Skills Examination. For music majors only.  
A. Sight Singing  
B. Melodic, Two-Part Contrapuntal and Four-Part Harmonic Dictation

207. Composition Laboratory (1)  
Three hours of laboratory.  
Prerequisite: Consent of instructor.  
Original writing in different homophonic and polyphonic forms for various media. Maximum credit two units.

220. Strings – Elementary Class Instruction (1)  
Two hours.  
Fundamentals of string instruments by lecture and acquisition of elementary skills for purpose of gaining teaching and conducting skills in working with strings. Primarily for music education majors.

225. Woodwinds – Elementary Class Instruction (1)  
Two hours.  
Fundamentals of woodwind instruments by lecture and acquisition of elementary skills for purpose of gaining teaching and conducting skills in working with woodwinds. Primarily for music education majors.

230. Brass – Elementary Class Instruction (1)  
Two hours.  
Fundamentals of brass instruments by lecture and acquisition of elementary skills.

235. Percussion – Elementary Class Instruction (1)  
Two hours.  
Fundamentals of percussion through acquisition of elementary skill on the snare drum and by demonstration and lecture regarding all commonly used percussion instruments of definite and indefinite pitch.

240. Guitar – Elementary Class Instruction (1) I, II  
Two hours.  
Open to all students interested in fundamentals of guitar and elementary music skills.
246A. Practicum in Music I (2) II
One lecture and two hours of activity.
Introduction to music education. Exposure to music teaching profession at all grade levels before choosing an area of specialization. (Formerly numbered Music 146.)
Prerequisite: Music 246A with a grade of C (2.0) or better.

246B. Practicum in Music II (2)
One lecture and two hours of activity.
Prerequisite: Open only to music majors. Audition and approval by music faculty.

251. Performance Studies (1-2) I, II
Fifteen one-half hour private lessons for one unit; fifteen one-hour private lessons for two units.
Prerequisite: Open only to music majors. Audition and approval by music faculty.

266. Elements of Jazz II (2)
Prerequisite: Music 166. Harmonic analysis of standard and bebop repertoire, less common modes and dominant scales, solo transcription, analysis, and ear-training.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES (Intended for Undergraduates)

301. Recitals (1) Cr/NC I, II
Preparation for individual solo performances and attendance at a minimum of 12 concerts or recitals in accordance with music requirements. Maximum credit four units.

305A. Comprehensive Musicianship (3)
Two lectures and two hours of laboratory.
Prerequisites: Music 205B with a grade of C (2.0) or better. Concurrent registration in Music 308A.

305B. Comprehensive Musicianship (3)
Two lectures and two hours of laboratory.
Prerequisites: Music 305A with a grade of C (2.0) or better. Concurrent registration in Music 308B.

308A. Music History: Medieval – Renaissance (2)
One lecture and two hours of activity.
Prerequisites: Music 151. Concurrent registration in Music 305A.
European art music from ancient Greece through the Renaissance. Evolution of musical style in a historical and cultural context. Interrelationships of music, politics, technology, economics, and ideology. Open to music majors and minors only. (Formerly numbered Music 157B, 257A.)

308B. Music History: Baroque – Classic (2)
One lecture and two hours of activity.
Prerequisite: Music 308A. Concurrent registration in Music 305B.
European art music from 1600 to 1830. Evolution of musical style as a response to historical and cultural context. Interrelationships of music, politics, technology, economics, and ideology. Open to music majors and minors only. (Formerly numbered 257B, 357A.)

310. Electronic Music (2)
One lecture and three hours of laboratory.
Prerequisite: Consent of instructor.
Concepts, terminology and history combined with composition and recording projects introducing analog electronic music with multitrack recording and analog synthesizers; or digital electronic music using digital synthesizers and computer software. May be repeated with new content. Maximum credit four units.

343. Music Literature for Children (3) I, II
Prerequisite: Music 102 or 205B.
Analytical study of music suitable for children of all ages. Background information, musical structure and functions of this music in the lives of children.

345. World Music in Contemporary Life (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Folk, ancient, and modern art music of world cultures, including traditional music of Africa, Asia, Latin America, the United States and Europe, as they relate to contemporary culture. Concert attendance required. Not open to music majors.

346. Practicum in Music III (2) I
One lecture and two hours of activity.
Prerequisite: Music 246B with a grade of C (2.0) or better.
Practical teaching applications. Students will develop and teach model lessons evaluated by students, faculty, and master teachers. Students choose a primary area of specialization and a master teacher in preparation for the final semester of the practicum series.

347. Conducting (1)
Prerequisite: Music 205B with a grade of C (2.0) or better.
Basic techniques of conducting. Baton technique, conducting patterns, score reading, elements of performance and interpretation. Practical experience in typical conducting situations.

348. Choral Conducting (1)
Prerequisite: Music 347 with a grade of C (2.0) or better.
Elements of baton technique and development of skills common to choral conducting. Representative literature and techniques for choral organizations studied and performed. Practical experience in typical conducting situations.

349. Instrumental Conducting (1)
Prerequisite: Music 347 with a grade of C (2.0) or better.
Elements of baton technique and development of skills common to instrumental conducting. Representative software and techniques for instrumental organizations studied and performed. Practical experience in typical conducting situations.

351. Great Music (3) I, II
Prerequisite for Music 351A-D: Completion of the General Education requirement in Foundations II.C., Humanities.
Significant music literature of the various historical periods with emphasis on the stylistic characteristics through directed listening. Not open to music majors.
A. Musical Masterpieces of the Eighteenth and Nineteenth Centuries
B. Musical Masterpieces of the Twentieth Century
D. Jazz History and Appreciation

364A-364B. History of Jazz (2-2)
Jazz style and forms as they have evolved historically. Classroom playing experience in jazz styles as a part of study. Designed for music majors and minors.
366. **Elements of Jazz III** (2)
Prerequisite: Music 266.
Post bop repertoire, altered modes and scales, solo transcription, analysis, and ear-training.

367. **Junior Recital** (1) Cr/NC I, II
Prerequisite: Junior standing in music.
Selection of literature for recital program not to exceed 30 minutes in length; theoretical analysis and historical study of scores chosen; preparation and public performance; and examination before committee of music faculty.

**Performance Organization Courses**
(Music 369 through 389)

The performance group courses are devoted to the study in detail and the public performance of a wide range of representative literature for each type of ensemble, and designed to provide students with practical experience in rehearsal techniques.

369. **Collegium Musicum** (1) I, II
Prerequisite: Consent of instructor.
Performance of medieval and renaissance music on reproductions of historical instruments. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

370. **Chamber Music** (1) I, II
Three hours. Four hours for opera.
Prerequisite: Consent of instructor.
Section for string, woodwind, brass, piano, vocal, and mixed ensemble groups. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

374. **Concert Band** (1) II
Five hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

375. **Marching Band** (2) I
More than six hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal technique. Maximum combined credit for Music 175 and 375 eight units.

376. **Wind Symphony** (1) I, II
Five hours per week.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

380. **Symphony Orchestra** (1) I, II
Five hours.
Prerequisite: Consent of instructor.
Maximum credit four units.

384. **Opera Theatre** (2) I, II
Six or more hours per week.
Interpretation and characterization of light and grand opera. Specific work in coordination of opera ensemble. Maximum credit eight units.

385. **Concert Choir** (1) I, II
Five hours.
Prerequisite: Consent of instructor.
Maximum credit four units.

386. **Chamber Singers** (1) I, II
Five hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal technique. Maximum credit four units.

389. **Jazz Ensemble** (1) I, II
More than three hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

397. **Issues in Music Education (Credit to be arranged)**
(Offered only in Extension)
Prerequisites: Consent of instructor and bachelor's degree. Does not apply to undergraduate degrees or completion of teaching credential.

405A. **Comprehensive Musicanship** (3)
Two lectures and two hours of laboratory.
Prerequisites: Music 305B with a grade of C (2.0) or better. Concurrent registration in Music 408A.
Harmony and counterpoint in the 20th century, from Impressionism to post-tonal. Analysis and composition in post-tonal or 12-tone techniques. World Music Laboratory: Asian or folk ensemble. (Formerly numbered Music 455A, 456A.)

405B. **Comprehensive Musicanship** (3)
Two lectures and two hours of laboratory.
Prerequisites: Music 405A with a grade of C (2.0) or better. Concurrent registration in Music 408B.
Musical developments in last half of 20th century. Independent projects in composing and arranging for small and large ensembles. Laboratory: New music ensemble. Open to music majors and minors only. (Formerly numbered Music 455B.)

408A. **Music History: Romantic – Twentieth Century** (2)
One lecture and two hours of laboratory.
Prerequisites: Music 308B. Concurrent registration in Music 405A. European art music from 1800 to present. Evolution of musical style in a historical and cultural context. Interrelationships of music, politics, technology, economics, and ideology. Open to music majors and minors only. (Formerly numbered Music 357B, 457A.)

408B. **Music History: Jazz Survey and Improvisation** (2)
One lecture and two hours of laboratory.
Prerequisites: Music 408A. Concurrent registration in Music 405B. Historical and theoretical overview of jazz art music tradition. Rhythmic, harmonic, and melodic components. Analytical score study. Practical experience in modal and tonal jazz improvisation. Open only to music majors and minors. (Formerly numbered Music 456B, 457B.)

445. **Performing Arts and Culture** (1)
Prerequisite: Upper division standing.
Exploration of traditional performing arts of different contemporary world cultures, with emphasis on kinesthetic and psychological aspects of experience of performance. Open to all upper division students. May be repeated with new content. Maximum credit three units.

446. **Practicum in Music IV** (2) II
One lecture and two hours of activity.
Prerequisite: Music 346 with a grade of C (2.0) or better.
Early field experience. Students will complete 20 hours of public school teaching in their area of specialization. Master teachers will provide on-site guidance and evaluation. Field experience and increased effectiveness will be discussed.
451. Performance Studies (1-2) I, II
Fifteen one-half hour private lessons for one unit; fifteen one-hour private lessons for two units.
Prerequisite: Open only to music majors. Audition and approval by music faculty.
Studies in technical, stylistic, and aesthetic elements of artistic performance. Maximum credit for Music 451 is eight units.
A. Keyboard
B. Voice
C. Woodwinds
D. Brass
E. Percussion
F. Strings
G. Classical Guitar

466. Elements of Jazz IV (2)
Prerequisite: Music 541C with a grade of C (2.0) or better.
Keyboard literature (Schubert to the present) and non-Western literature. Selected topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

497. Senior Recital (2) Cr/NC I, II
Prerequisite: Senior standing in music.
Selection of literature for recital program not to exceed one hour in length; theoretical analysis and historical study of scores chosen; preparation and public performance; and examination before committee of music faculty.

499. Special Study (1-3) I, II
Prerequisite: Consent of the music director.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

507. Composition Laboratory (1)
Three hours of laboratory.
Prerequisite: Consent of instructor.
Continuation of Music 207. Maximum credit two units.

515. Professional Orientation for Music Performers (2)
Prerequisite: Twelve units of upper division or graduate standing in B.M. or M.M. degree. Others by consent of instructor.
Prerequisite: Consent of instructor.
Prerequisite: Consent of instructor. Study and public performance of established repertory as well as new compositions. Sections for string, woodwind, brass, piano and mixed ensemble groups. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

541. Performance Studies Pedagogy (3)
Two lectures and three hours of laboratory.
Teaching beginning and intermediate applied music. Survey and evaluation of teaching materials. Observation of individual or group lessons.
A. Piano
B. Voice

542. Performance Studies Laboratory (2)
One lecture and three hours of laboratory.
Prerequisite: Consent of instructor. Study and public performance of established repertory as well as new compositions. Sections for string, woodwind, brass, piano and mixed ensemble groups. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

543. Dictation (1)
Principles of pronunciation and enunciation. Application to song and opera in English, Italian, German, and French.
589. Jazz Ensemble (1) I, II
Three hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

590. Advanced Practicum in Music (3)
Prerequisite: Consent of instructor in area of practicum.
Students will be assigned to appropriate class sections within selected undergraduate area as instructional assistants under staff supervision.

592. Analogs in Music, Art, and Literature (3)
Prerequisite: At least one survey course in music history or appreciation, art history, or comparative literature.
Cross-influences and correspondences in the arts from the standpoints of style, texture, rhythm, and form.

596. Special Topics in Music (1-3)
A specialized study of selected topics from the several areas of music. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Natural Science
In the College of Sciences

Faculty
Emeritus: Dessel, Dowler, Feher, May, Merzbacher, Shull, Thompson
Program Coordinator: Roeder, P.
Faculty: Carter (Natural Science), Fisher (Biology), Goldberg (Physics), Kimbrough (Geological Sciences), Metzger (Chemistry), Riggs (Geological Sciences), Roeder, S. (Physics), Wallace (Physics)

Offered by Natural Science
Teaching major in physical science for the single subject teaching credential in science.
Minor in history of science and technology.

The Major
The physical science major is offered as an interdisciplinary approach to the study of science. It stresses the interrelationship of physics with chemistry, geology, astronomy, biology, and mathematics. The major is designed primarily for students who intend to become high school teachers of both interdisciplinary science and physics.

Physical Science Major
In preparation for the Single Subject Teaching Credential in Science/Physical Science

With the B.S. Degree in Applied Arts and Sciences (Major Code: 19011)

One of the requirements for acceptance into the College of Education's post-baccalaureate credential program is to either pass the appropriate PRAXIS and SSAT examinations or complete an approved academic program. The single subject teaching credential in science subject matter preparation program described below satisfies the academic requirements for a student planning to teach integrated science and physics at the secondary level. Entrance into the post-baccalaureate credential program in part requires certification of subject matter competency by this program. This certification requires completion of the academic program with the required grades, submission of a satisfactory portfolio, and the recommendation of the department. Contact the subject matter preparation program adviser. In addition, all candidates for a Single Subject Teaching credential at San Diego State University with the Cross-Cultural, Language, and Academic Development (CLAD) emphasis must complete the requirements outlined in the catalog under Teacher Education or Policy Studies. Contact the Center for Careers in Education for more information.

General Education Requirements. Students will complete a minimum of 49 units in General Education to include a minimum of nine upper division units. No more than 12 units may be used for General Education credit from any one department or academic unit. No more than 7 units from one department can be used in Sections II, III, and IV combined (Foundations, American Institutions, and Explorations).

I. Communication and Critical Thinking (9 units)
You may not use Credit/No Credit grades in this section.
1. Oral Communication (3 units) to be satisfied by Africana Studies 140, Chicana and Chicano Studies 111A, or Communication 103.
2. Composition (3 units) to be satisfied by Africana Studies 120, Chicana and Chicano Studies 111B, or Rhetoric and Writing Studies 100.

3. Intermediate Composition and Critical Thinking (3 units) to be satisfied by Africana Studies 200 or Rhetoric and Writing Studies 200.

II. Foundations (28 units)
A. Natural Sciences and Quantitative Reasoning (13 units):
1. Physical Sciences (6 units) to be satisfied by Chemistry 200 and Physics 195
2-3. Life Sciences and Laboratory (4 units) to be satisfied by Biology 201.
B. Mathematics/Quantitative Reasoning (3 units) to be satisfied by Mathematics 150.
B. Social and Behavioral Sciences (6 units). See Graduation Requirements section of the catalog.
C. Humanities (9 units):
Complete a course in each of the following four areas (1. Literature; 2. Art, Classics, Humanities, Music, and Theatre; 3. Philosophy and Religious Studies; 4. Foreign Language) in the Humanities section of the Foundations component of the regular General Education program. Refer to General Education course offerings in the Graduation Requirements section of the catalog. One semester of a foreign language is recommended.

III. American Institutions
Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

IV. Explorations (9 units)
A. Upper division Social and Behavioral Sciences (3 units), Linguistics 420 is recommended.
B. Upper division Humanities to be satisfied by History 441 (3 units)
C. Upper division Humanities (3 units). A course in cultural diversity is required. Refer to Part C of Explorations under the General Education requirements section in the catalog.

The Major
Preparation for the Major. Africana Studies 140, Chicana and Chicano Studies 111A, or Communication 103; Africana Studies 120, Chicana and Chicano Studies 111B, or Rhetoric and Writing Studies 100; Africana Studies 200 or Rhetoric and Writing Studies 200; Astronomy 101, 109; Biology 201, 202; Chemistry 200, 201; Computer Engineering 160 or Computer Science 106 or 205; Geological Sciences 100, 101; Mathematics 150, 151, 252; Physics 195, 195L, 196, 196L, 197, 197L (63 units)
Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Biology 452; Mathematics 342A; Oceanography 541; Physics 311, 317, 350, 354, 357, 400A, 460; three units selected from Natural Science 333 or Physics 301; and three units selected from Natural Science 305, 315, 316, or Physics 400B, 406, 499.

Additional Requirements for Subject Matter Preparation Certification
Satisfactory Grades. At most one course with a C- or lower among the courses listed under Preparation for the Major, and at most one course with a C- or lower among the courses listed under the Major. If a course is repeated, the highest grade will count.

Formative Assessment. Completion of a satisfactory, preliminary portfolio two semesters prior to graduation. Contact the subject matter preparation adviser for information.
**Summative Assessment.** Completion of a satisfactory, final portfolio, and a positive recommendation from a committee consisting of the instructor of Physics 357, the Department of Physics chair, and the subject matter preparation program adviser.

**Minor in History of Science and Technology**

The minor in the history of science and technology consists of a minimum of 18 units to include Natural Science 315 and 316, and 12 units selected from Natural Science 317; History 484, 485; Mathematics 303; Philosophy 537.

Courses in the minor may not be counted toward the major, but may be used to satisfy requirements for preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

**Courses (N SCI)**

**LOWER DIVISION COURSE**

100. Physical Science (3) I, II
Introduction to concepts and processes in science intended to show why science is essential to a liberal education by recognizing relationship with other areas of knowledge such as philosophy, literature, fine arts, economics. Emphasis varies with instructor.

**UPPER DIVISION COURSES**

(Also Acceptable for Advanced Degrees)

305. Quantum Reality - From Quarks to Quasars (3)
Prerequisite: Completion of the General Education requirements in Communication and Critical Thinking and Foundations II.A., Natural Sciences and Quantitative Reasoning.

Universe viewed from small (elementary particles) to very large (cosmology) with emphasis on structural aspects of physical theories of the universe and how they came to be formed.

315. History of Science I (3)
Prerequisites: Completion of the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning, and one of the following courses: Humanities 101, History 100, 101, 105, 106. Recommended: Astronomy 101. General Education prerequisite not required for Physical Science majors.

The growth and development of science from antiquity to the fifteenth century. Emphasis on man's cognitive reactions to his environment through the coalescence of the occult arts, empirical practices and rational thought associated with early scientific theory.

316. History of Science II (3)
Prerequisites: Completion of the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning, and one of the following courses: Humanities 101, History 100, 101, 105, 106. Recommended: Astronomy 101 and a course in chemistry. General Education prerequisite not required for Physical Science majors.

The major developments during the sixteenth through nineteenth centuries of the scientific revolution, the rise of empiricism, the emerging role of scientific societies. Histories of particular theories in both the life sciences and physical sciences.

317. Development of Scientific Thought (3)
Prerequisites: Completion of the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning.

Basic scientific concepts and their historical development with emphasis on the problem of theory construction. The relationship between disciplined imagination and observational fact, as illustrated by selected case histories. Limitations of scientific inquiry.

333. Technology and Human Values (3) II
Prerequisite: Completion of the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning. Recommended: Natural Science 100.

Technologies such as solar and fusion power, lasers, computer services, transport, synthetic food and their impact on values and lifestyles of developed countries. Characteristics of post-industrial society, future shock and biological revolution. Curve extrapolation and simulation by games and computer.

412A-412B-412C-412D. Processes and Inquiry in the Natural Sciences (4-4-4-4) I, II
Three lectures and two hours of activity.

Prerequisite: Completion of the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning. Investigation of processes of inquiry and rational thinking skills characteristic of the sciences.

A. Physical Sciences
B. Properties of Matter and Astronomy
C. Life Sciences
D. Earth Sciences

**GRADUATE COURSES**

Refer to Bulletin of the Graduate Division.
Naval Science
In the College of Professional Studies and Fine Arts

OFFICE: Exercise and Nutritional Sciences 141
TELEPHONE: (619) 594-3730
FAX: (619) 594-7848
FAX: (619) 260-6821

Faculty
Chair: Simpson
Professor: Simpson
Associate Professor: Gurley
Assistant Professors: Brandon, Jordan, Klein, Thompson, Ulses

Offered by the Department
Minor in naval science.

NROTC Curriculum
The naval science program provides college students desiring to become naval or marine corps reserve officers a basic professional background in the areas of leadership, ethics, and management; piloting and celestial navigation; nautical rules of the road; ship characteristics, design and propulsion; theory and employment of weapon systems; and development of warfare and amphibious operations. This curriculum is open to all University students. A graduate will be able to assume, through development of mind and character, the highest responsibilities of command, citizenship, and government.

The primary objectives of the Naval Science Department curriculum are to provide:
1. An understanding of the fundamental concepts and principles of naval science;
2. A basic understanding of associated professional knowledge;
3. An appreciation of the requirements for national security;
4. A strong sense of personal integrity, honor and individual responsibility; and,
5. An educational background which will allow naval science students to undertake successfully, in later periods in their careers, advanced and continuing education in a field of application and interest to the Navy or Marine Corps.

Naval Science Minor
The minor in naval science consists of a minimum of fifteen units in naval science, 12 of which must be upper division.

Courses in the minor may not be counted toward the major, but may be used to satisfy requirements for preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (NAV S)

LOWER DIVISION COURSES

101. Introduction to Naval Science (2) I
Structure, principles, and practices; lines of command and control; logistical organizations; functions and services of major components of the Navy and Marine Corps; shipboard organization; ethics and basic leadership skills.

102. Naval Ships Systems I (3) II
Ship characteristics and types including hull, electrical, auxiliary systems, stability and damage control. Operation advantages and disadvantages of steam, gas turbine, and diesel propulsion engines receive in-depth study. Leadership topics in an engineering setting.

201. Naval Ships Systems II (3) I
Theory and principles of operation of naval weapon systems. Includes radars, gun and missile systems, underwater detection and tracking, and basic naval ordnance. Case studies of weapon systems employment with emphasis on accountability and responsibility of naval leader.

202. Sea Power and Maritime Affairs (3) II
Sea power and maritime affairs; general concept of sea power including Merchant Marine; role of naval warfare components used to support the Navy’s mission; sea power as an instrument of national policy; comparative study of US and Soviet strategies.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Navigation and Naval Operations I (3) I
Piloting, navigation, and maneuvering. Use of charts, visual and electronic aids, operation of magnetic and gyro compasses, relative-motion vector analysis, formation tactics, and ship employment. Other topics include tides, currents, wind and weather, navigation instruments and characteristics of electronic navigation.

302. Navigation and Naval Operations II (3) II
Prerequisite: Naval Science 301.
Rules of nautical road, naval operations and operations analysis, ship handling, and afloat communications. Case analyses stress practical application of skills. Leadership traits in themes of communication counseling, and conflict resolution applicable to navigation and ship movement.

310. Evolution of Strategic Operations (3) II
Forms of warfare through history to formulate sense of historical continuity in evolution of warfare, to develop a basic sense of strategy and alternative military actions, and to explore impact of historical precedent on military thought and actions.

401. Naval Leadership and Management I (3) I
Principles of naval leadership and management. Development of skills in areas of communications, counseling, control, direction, management, and leadership.

402. Naval Leadership and Management II (3) II
Prerequisite: Naval Science 401.
Naval leadership and management with emphasis on military justice administration, naval personnel management, material management, and administration of discipline.

410. Amphibious Operations (3) I
Amphibious warfare, doctrinal origins, and its evolution as an element of naval policy during the twentieth century.

320
Offered by the School of Nursing of the University under the nursing premajor code (12030). To be admitted to the major, minority, bilingual/bicultural persons.

Career opportunities are particularly good for nurses in rural populations. Career opportunities are particularly good for nurses in settings such as acute care hospitals, community health agencies, and organizations that serve underprivileged, minority, and bilingual persons.

Leadership potential and accountability in professional practice; to develop critical thinking and professional decision-making abilities; to utilize specific nursing practice skills and techniques.

The Major

The nursing profession is concerned with the total health care of the individual and the family. It is a profession which believes in the prevention of illness, caring for those who are acutely ill, and helping people with long-term rehabilitative problems to live in the healthiest way possible. Nursing is both a science and an art. It has its foundation in biophysical and behavioral humanistic sciences, as well as in specific nursing practice skills and techniques.

Students in the nursing program are provided opportunities to acquire knowledge from the natural and social sciences; to develop critical thinking and professional decision-making abilities; to utilize current research in the application of the nursing process; to develop leadership potential and accountability in professional practice; to become aware of the emerging roles of the professional nurse and of the social forces and trends affecting health and health care systems; and to learn to balance professional and personal growth and values.

Nurses are in demand throughout the country and are needed in such settings as acute care hospitals, community health agencies, homes, jails, outreach programs, public schools, health maintenance organizations, and clinics which serve underprivileged, minority, and rural populations. Career opportunities are particularly good for minority, bilingual/bicultural persons.

Impacted Program

The nursing major is an impacted program. Students must enter the University under the nursing premajor code (12030). To be admitted to the nursing major, students must meet the following criteria:

a. First-time freshmen must have completed one year of high school college preparatory courses in advanced algebra, biology, and chemistry with laboratory. Transfer students must have completed the same requirements or equivalent college-level courses;

b. Complete with a minimum GPA of 2.50: organic chemistry (1 semester), introductory sociology, introductory psychology, oral communication, general biology, human anatomy with laboratory, and microbiology (1 semester with laboratory) (anatomy and microbiology must total 7 semester units with a minimum grade of B- in each course). These courses cannot be taken for credit/no credit (Cr/NC);

c. Clear the competency requirement in writing. Refer to Graduation Requirements section of this catalog for details;

d. Show evidence of volunteer and health care experience, bilingual ability, and leadership/achievement in school or community organizations;

e. For fall admission, submit the Nursing supplemental application by the second Monday in March;

f. For spring admission, submit the Nursing supplemental application by the third Monday in October; and

g. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajors at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Standards for Admission

Admission to the University

Applicants must be eligible for admission to the University. See “Regulations: Admission and Registration” section of this catalog. Students accepted as nursing majors are subject to further screening to determine their eligibility to be admitted into the professional coursework.

Admission to the Professional Program in Nursing

1. Prerequisite Courses. The following courses, or their equivalents, and course grades are required for admission to the nursing program:

a. Course grade requirement (C or better) in each of these required university courses: Biology 100, Chemistry 130, Psychology 101, Sociology 101, and oral communication.

b. Course grade requirement (B or better) in each of these required university courses: Biology 210 and 212.

2. Minimum Grade Point Average. Applicants must complete the seven prerequisite courses with a minimum overall grade point average of 2.5.

3. Writing Competency Requirement. Prior to admission to the School of Nursing, all students must demonstrate their writing competence on one of the following tests.

b. By a score of 25 on the American College Tests.

c. By a score of 150 on the English Placement Test with score of 7 on essay portion.

d. By a score of 8 on the SDSU Writing Competency Examination or earning credit (Cr) in one of the following courses: Rhetoric and Writing Studies 92A and/or 92B, 94, 95, 97A and/or 97B prior to admission to the nursing program.
4. Additional Point System. Applicants requesting admission to the professional coursework will be ranked and evaluated on the basis of a point system. A maximum of 87 points can be earned in meeting the prerequisite courses, writing competency, recognition of outstanding achievement, health care experience and bilingual ability requirements, and applicants will be ranked in accordance with points earned. Letters of reference will be required to verify specific achievements, leadership, participation and work experience. For specific additional point system allocation, consult the School of Nursing office.

5. Health Requirement. To meet the specific health requirements, a medical examination and immunizations must be completed. The medical examination is in addition to the one required for admission to the University. For specific information concerning medical examination and immunization series, consult the School of Nursing office.

6. Academic Credit Through Examination. Academic credit by examination may be obtained by those whose prior education and/or experience provides the knowledge and skills required to meet the objectives of one or more courses. Students who believe they may be eligible for credit by examination should contact the School of Nursing office for an appointment for special advising prior to submitting their application for admission. For University policy regarding credit-by-examination, consult “Academic Credit Through Examination” in the “General Regulations” section of this catalog.

7. Registered Nurse – Bachelor of Science, Major in Nursing Program. A registered nurse–Bachelor of Science in nursing program is available for registered nurses with either an Associate Degree in Nursing or a Diploma in Nursing. This program gives credit for previous coursework and is designed with flexible class scheduling and innovative teaching strategies for the working nurse. Students eligible for this option should contact the School of Nursing office for special advising and program planning.

8. Formal Application. Applicants must make an application to the School of Nursing office for special advising and program planning.

Special Instructions

1. Impacted Program. The nursing major is designated as an impacted program and specific regulations related to admissions are imposed.

2. Full-Time/Part-Time Study. Students are encouraged to enroll in all of the nursing courses scheduled each semester. However, part-time enrollment can be arranged by contacting the undergraduate adviser within the school.

3. Liability Insurance and Transportation. Students enrolled in the nursing program are required to provide their own professional liability insurance and transportation to off-campus clinical agencies and for home visits.

4. Honors Program. The honors program is available to students in the senior level who meet the criteria. Four units of honors courses constitute the honors program and will be validated as such on the official transcript. Less than four units completed will not be validated as “honors,” but may be credited as a special studies program.

5. Health Insurance. All students are advised to obtain health insurance coverage. Students are responsible for health care cost when services are rendered by a health care agency.

6. CPR Certification. Students are required to be certified prior to admission. American Heart Association (AHA) certification, health care provider course or American Red Cross (ARC) Professional Rescue is required. (Both Level C)

7. Licensure. Students should request consultation with the undergraduate adviser regarding problems of license by endorsement with other states if the R.N. license examination is taken prior to degree completion.

8. Option Open to L.V.N.’s for eligibility to the R.N. license examination. THIS OPTION HAS NO RELATION TO DEGREE REQUIREMENTS AND DEGREE COMPLETION.

General Education Requirements

Students will complete a minimum of 49 units in General Education to include a minimum of nine upper division units. No more than 12 units may be used for General Education credit from any one department or academic unit.

I. Communication and Critical Thinking: 9 units

1. Oral Communication (3 units)
2. Composition (3 units)
3. Intermediate Composition and Critical Thinking (3 units)

II. Foundations: 28 units

A. Natural Sciences and Quantitative Reasoning (10 units)

1. Physical Sciences (3 units) to be satisfied by:
   Chemistry 130 (3 units)
2. Life Sciences (3 units) to be satisfied by:
   Biology 100 (3 units)
3. Laboratory (1 unit) to be satisfied by:
   Biology 210 or Biology 212 or Biology 261
4. Mathematics/Quantitative Reasoning (3 units)

B. Social and Behavioral Sciences (6 units) to be satisfied by:

   Psychology 101 (3 units)
   Sociology 101 (3 units)

C. Humanities (12 units)
   Refer to General Education course offerings in the Graduation Requirements section of the catalog.

III. American Institutions: Three units of the six units of coursework which meet the American Institutions graduation requirement may be used in General Education, excluding courses numbered 500 and above.

IV. Explorations: Nine units to include Psychology 351 and six upper division units in Humanities OR three upper division units in Humanities and three upper division units in Social and Behavioral Sciences OR three upper division units in Humanities and three upper division units in Natural Sciences. Three units must be selected from a course of cultural diversity. Refer to General Education course offerings in the Graduation Requirements section of the catalog.

## Nursing Major

### With the B.S. Degree in Applied Arts and Sciences (Premajor Code: 12030) (Major Code: 12031)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

Nursing majors are eligible to take the State Board Registered Nurse license examination after completing seven semesters of the prescribed curriculum. Graduates are eligible to apply for the California Certificate of Public Health Nursing.

Nursing majors may be part-time students in the curriculum. Consultation with the undergraduate adviser is mandatory.

### Preparation for the Major

Upon acceptance into the program, Nursing 202, 206, 252, 254; three units in statistics should be selected from General Education requirements in Foundations II.A., Mathematics/Quantitative Reasoning; and three units in growth and development or Psychology 230. (23 units)

### NOTE:

A grade of C (2.0) or better is required in all nursing courses except Nursing 453 which, as an elective is exempt from this requirement. No nursing course may be repeated more than once. A grade of C (2.0) or better or Cr is required in corequisite courses. (Biology 261, Psychology 351, growth and development, and statistics).

Progress in the nursing program is dependent upon completion of nursing courses in the prescribed sequence as outlined above. Students will not be permitted to progress to the next semester until nursing courses are completed from the previous semester.

### Upper Division Writing Requirement

Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

### Major

A minimum of 48 upper division units in nursing to include Nursing 307, 308, 314, 354, 356, 414, 416, 456, 458, 460; and 452 or 454.

## School Nurse Services Credential (Credential Code: 00600)

San Diego State University offers curricula leading to the School Nurse Services Credential. This authorizes the holder to serve as a School Nurse. For information concerning the credential, the student is referred to the School of Nursing Office, HT-58.

The School Nurse Services Credential has been approved by the Commission on Teacher Credentialing.

All applicants seeking admission to the School Nurse Services Credential program must be admitted to the University and accepted as a classified postbaccalaureate student.
Nursing

**Standards for Admission**

1. Baccalaureate degree in nursing or related field (including community health nursing).
2. Current California Registered Nurse License.
3. Required admission and planning interview with program adviser.
4. Have a minimum cumulative grade point average of 3.0 on a 4.0 scale in undergraduate upper division courses.
5. One year experience as a registered nurse within five years of application.
6. Undergraduate community health nursing course.

**Program**
The following program elements are required of all school nurse credential candidates: (31 units)

<table>

Electives: Three units to be selected with approval of adviser.

**Courses (NURS)**

**LOWER DIVISION COURSES**

202. **Client Assessment (4)**

Two lectures and six hours of laboratory.
Prerequisites: Admission to nursing program and concurrent registration in Nursing 206 and Biology 261.

206. **Nursing Practice I (5)**

Three lectures and six hours of laboratory.
Prerequisites: Admission to nursing program and concurrent registration in Nursing 202 and Biology 261.

252. **Nursing Practice II (5)**

Three lectures and six hours of laboratory.
Prerequisites: Nursing 202, 206, Biology 261, and concurrent registration in Nursing 254.

254. **Nurse-Client Relationships: Cultural and Mental Health Concepts (3)**

Prerequisites: Nursing 202 and 206; concurrent registration in Nursing 252.

203. **Nursing Practice III (6)**

Three lectures and nine hours of laboratory.
Prerequisites: Admission to nursing program and concurrent registration in Nursing 202 and Biology 261.

254. **Nursing Practice IV (5)**

Three lectures and six hours of laboratory.
Prerequisites: Nursing 252, 254; concurrent registration in Nursing 252 and 254.

**UPPER DIVISION COURSES (Intended for Undergraduates)**

307. **Nursing Research (3)**

Prerequisites: Nursing 308, 314, 456; concurrent registration in Nursing 354 and 356.

Nursing research process. Emphasis on identification of researchable questions and beginning critiquing ability.

308. **Adult Health Nursing (6) I, II**

Three lectures and nine hours of laboratory.
Prerequisites: Nursing 252, 254; concurrent registration in Nursing 314 and 456.

Application of theories of stressors and/or biological responses specifically affecting the adult on the health-illness continuum. Laboratory focuses on the application of the nursing process in implementing preventive, supportive, and restorative therapeutic modalities which assist the adult client to reestablish, maintain, or develop new adaptive responses.

312. **Concepts in Professional Nursing (3) I, II**

Prerequisite: R.N., with Associate Degree or Diploma in nursing. Concepts in professional nursing. Differentiation of professional practice with emphasis on stress theory, therapeutic communication, values clarification, and legal aspects. Not open to generic students.

314. **Gerontological Nursing (3)**

Two lectures and three hours of laboratory.
Prerequisites: Nursing 252, 254; concurrent registration in Nursing 308 and 456.

Theory and selected laboratory experience focusing on stressors affecting elderly on health-illness continuum. Gerontologic nursing in a variety of settings.

350. **Women's Health Across the Lifespan (3)**

Prerequisite: Completion of the General Education requirement in Foundations II.A. Natural Sciences and Quantitative Reasoning.

Explores health issues women face across their lives. Focus on developing knowledgeable users of research on causes of and risk factors for health problems. Not applicable to nursing majors.

354. **Nursing Care of the Childbearing Family (5) I, II**

Two lectures and nine hours of laboratory.
Prerequisites: Nursing 308, 314, 456; concurrent registration in Nursing 307 and 356.

Family-centered focus encompassing adaptive and maladaptive responses to stressors in the maternity cycle and their effect on the neonate. Clinical laboratory focuses on the application of nursing theory and process in providing preventive, supportive and restorative care to mothers and neonates.

356. **Parent-Child Nursing (5) I, II**

Two lectures and nine hours of laboratory.
Prerequisites: Nursing 308, 314, 456; concurrent registration in Nursing 307 and 354.

Stressors affecting the child on health-illness continuum. Nursing theory and laboratory focuses on application of nursing process in providing preventive, supportive and restorative therapeutic modalities in a variety of settings. Emphasis on the child in the family and the necessary intervention to promote adaptation of the child to attain, maintain or regain an optimum level of health.

414. **Community Health Nursing (6) I, II**

Three lectures and nine hours of laboratory.
Prerequisites: Nursing 307, 354, 356; concurrent registration in Nursing 416.

Assessment and utilization of community health care concepts and delivery with emphasis on promotion of health, prevention of illness and individual and group teaching techniques. Consideration given to cultural aspects of health care.
416. Psychiatric-Mental Health Nursing (5)
Three lectures and six hours of laboratory.
Prerequisites: Nursing 307, 354, 356; concurrent registration in Nursing 414.
Theory and clinical laboratory in application of nursing process to care of clients evidencing maladaptive responses to psychosocial stressors. Presentation of theories describing and explaining maladaptive behaviors and application of nursing interventions in a variety of treatment modalities.

452. Basic Concepts in Critical Care Nursing (5) I, II
Three lectures and six hours of laboratory.
Prerequisites: Nursing 414 and 416; concurrent registration in Nursing 453, 458, and 460.
Theory and selected laboratory experience in care of clients with complex health problems requiring intensive nursing care. Consideration given to student's preference for specific clinical area of concentration.

453. Basic EKG Monitoring (1) I, II Cr/NC
Prerequisite recommended: Concurrent registration in Nursing 452.
Basic electrophysiological and interpretive concepts necessary for identification and management of supraventricular and ventricular rhythms.

454. Primary Health Care Nursing (5)
Three lectures and six hours of laboratory.
Prerequisites: Nursing 414 and 416; concurrent registration in Nursing 458 and 460.

456. Clinical Pharmacology in Nursing Practice (3) I, II
Prerequisites: Nursing 308, 314.
Major classifications of drugs; pharmacological and toxicological activity; clinical applications. Role of nurse in assessment, intervention, and patient education.

458. Nursing Management and Leadership (5)
Three lectures and six hours of laboratory.
Prerequisites: Nursing 414 and 416; concurrent registration in Nursing 460 and Nursing 452 or 454.
Theories and functions of nursing management and leadership within health care system. Economics of health care.

460. Professional Development (2)
Prerequisites: Nursing 414 and 416; concurrent registration in Nursing 458 and Nursing 452 or 454.
Preparation for professional role in nursing. Emphasis in socioeconomic, political, and legal aspects of nursing. Discussions of advocacy, ethics, and current issues.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

498. Cooperative Education Supervised Practice (2-6) Cr/NC
Seminar: Two hours biweekly. Clinical hours arranged by student and employer.
Prerequisite: Nursing 308.
Supervised practice in application of previously learned knowledge and skills in selected clinical agencies. Professional interaction with other health care workers to strengthen professional nursing identity. Work under supervision of registered nurse preceptor and faculty coordinator. May be repeated. Maximum credit two units applicable to a bachelor's degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

500. Advanced Health Assessment and Health Promotion (4)
Three lectures and three hours of laboratory.
Prerequisite: Consent of graduate or credential adviser.
Physical and psychosocial assessment techniques, health promotion strategies for select populations.

590. Pathophysiology in Adults and the Elderly (3)
Prerequisite: Consent of graduate adviser.
Physiologic alterations associated with acute and chronic illness in adults and the elderly as a basis for primary prevention and medical and nursing interventions.

596. Special Topics in Nursing (1-3)
Prerequisites: Completion of 30 upper division units in nursing or graduate status; 3.0 grade point average.
Selected topics in the practice of nursing. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum credit of three units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
The major in foods and nutrition offers a comprehensive multidisciplinary study of the nature and quality of the food supply and the nutritional requirements for health in people. Students take core sequences of coursework in the areas of nutrition, food science, and food management founded on prerequisite courses in chemistry, biology, biochemistry, physiology, accounting, management, and the behavioral and social sciences. Course emphasis in the major is placed upon the composition, properties, quality, and safety of foods and food ingredients; the relationships of metabolism and utilization of nutrients in food by the human body to health and disease states; influences of exercise and fitness; the physiological basis for diet therapy; nutrition problems in the community; and organization, management and operation of food service facilities.

This major is planned for students interested in qualifying professionally for diverse careers in the fields of dietetics, food service management, and food industries. The accredited didactic program in foods and nutrition allows students eligibility for membership in the American Dietetic Association (ADA) and for postbaccalaureate dietetic internship or preprofessional practice programs. Students must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” A minor is not required with this major.

Preparation for the Major. Students must be admitted to and complete satisfactorily a postbaccalaureate program and pass the ADA Registration Examination prior to qualifying for registration as dietitians.

Courses (NUTR)

LOWER DIVISION COURSES

101. Professional Issues: Foods and Nutrition (1) I, II
Philosophical basis of foods and nutrition and relations of its specialties to the field as a whole. (Formerly numbered Nutrition 221.)

107. Nutrition Today (3) I, II
Obtaining nutritional needs from a varied food supply. Review of basic diet which will provide nutritional adequacy. Analysis of current theories and practices related to nutrition and athletic performance.

201. Food Preparation (5) I, II
Composition, preparation, preservation, sensory and consumer evaluation of foods.

202. Nutrition for Athletes (3) III
Prerequisite recommended: Nutrition 107.

203. Cultural Aspects of Food and Nutrition (3)
Prerequisite: Completion of a General Education course in 1.) Communication and Critical Thinking, 2.) Composition, or 3.) Intermediate Composition and Critical Thinking.
Food habits and health beliefs about foods and nutrition. Regional and ethnic influences. (Formerly numbered Nutrition 206).

204. Fundamentals of Nutrition (3) I, II
Prerequisites: Biology 100, 100L, Chemistry 100 and 130, or 200 and 201. Proof of completion of prerequisites required: Copy of transcript.

205. Food Preparation (5) I, II
Prerequisite: Grade of C or better in Nutrition 101 and Chemistry 100 and 130 or 200, 201 and concurrent registration in Chemistry 231. Proof of completion of prerequisites required: Copy of transcript.

207. Data Processing in Foods and Nutrition (3) I, II
Prerequisite: Concurrent registration in Nutrition 204 or 205.

326
296. Experimental Topics (1-4)  
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES  
(Intended for Undergraduates)

301. Science of Foods (3) I, II  
Prerequisites: Nutrition 205 and Biology 210. Proof of completion of prerequisites required: Copy of transcript. Physical, chemical, nutritional, and functional properties and quality attributes of foods and food additives; food handling, changes and interactions of food components induced by processing and storage; food laws, regulations, legislation, and food safety issues.

302. Advanced Nutrition (3) I, II  
Prerequisites: Nutrition 204, Biology 336, and one course in biochemistry. Concurrent registration in Nutrition 302L. Proof of completion of prerequisites required: Copy of transcript. Integration of cellular, physiological, and biochemical relationships with human nutrient requirements.

302L. Advanced Nutrition Laboratory (2) I, II  
Six hours of laboratory. Prerequisites: Nutrition 204, Biology 336, and one course in biochemistry. Concurrent registration in Nutrition 302. Proof of completion of prerequisites required: Copy of transcript. Application and evaluation of techniques used to assess nutritional status, including basic methods, experimental animal and human studies.

303. Quantity Food Production (2) I, II  
Prerequisites: Nutrition 205 or Information and Decision Systems 302. Concurrent registration in Nutrition 303L. Quantity food production service delivery systems. Skills for food safety, recipe standardization, menu planning, purchasing, production operations, and quality standards. Intended for majors in foods and nutrition and hospitality and tourism management.

303L. Quantity Food Production (1)  
Three hours of laboratory. Prerequisites: Nutrition 205 or Information and Decision Systems 302. Concurrent registration in Nutrition 303. Practical applications of quantity food production systems and methods with emphasis on food safety (HACCP), menu planning, purchasing, facilities and equipment, and food quality. Intended for majors in foods and nutrition and hospitality and tourism management.

304. Nutrition Throughout the Life Span (3)  
Prerequisite: Nutrition 204. Factors affecting nutrient needs and ways to meet nutrient requirements across the life span. Not open to students with credit in Nutrition 208.

309. Eating Disorders and Weight Control (2) Cr/NC I, II  
Prerequisite: Upper division standing in foods and nutrition or kinesiology or other majors with consent of instructor. Obesity and other eating disorders. Review of etiology, incidence, socioeconomic influences, pathogenesis and treatments. Treatment techniques practiced include modification of diet, activity and behavior. Of interest to those wishing to do weight control counseling.

311. Nutrition for Health and Fitness (3) I, II  
Prerequisites: Biology 100, 212, and Chemistry 100. Food choices for health contrasted with food fads and eating problems. Nutrition labeling, metabolic roles of nutrients, nutrient needs related to exercise and stage of life, professional and legal concerns with dietetics for allied health fields. May not be used toward a degree in foods and nutrition.

388. Dietetic Practice I (1)  
Prerequisites: Nutrition 204, 205, and consent of instructor. Practical experience in food service and medical nutritional therapy for future dietitians.

404. Food Systems Management (3) I, II  
Prerequisites: Nutrition 303 and 303L. Managerial functions in food service systems.

405. Experimental Food Science (3) I, II  
One lecture and six hours of laboratory. Prerequisite: Nutrition 301. Proof of completion of prerequisite required: Copy of transcript. Application of principles and methods of physical and sensory evaluation and food component analysis to conventional and fabricated foods; effects of additives and ingredient variations; project studies; data interpretation and report writing.

406. Diet Therapy (4) I, II  
Prerequisites: Nutrition 302 and 302L. Proof of completion of prerequisites required: Copy of transcript. Dietary management of pathological and debilitating diseases.

407. Medical Nutrition Therapy Laboratory (1)  
Three hours of laboratory. Prerequisites: Nutrition 302, 302L, and concurrent registration in Nutrition 406. Required for Didactic Program in Dietetics competencies established by the American Dietetic Association. Builds multi-level skills for dietetic practice to assess nutritional status and to develop care plans for patients.

488. Dietetic Practice II (1)  
Prerequisites: Nutrition 302, 303, 303L, 388, and consent of instructor. Advanced practical experience in food service and medical nutrition therapy for future dietitians.

491. Research Literature in Foods and Nutrition (1)  
Prerequisites: Nutrition 301, 302, 302L, and consent of instructor. Current research topics in food science and nutrition.

496. Experimental Topics (1-4) I, II  
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II, S  
Prerequisite: Consent of instructor. Individual study. Maximum credit six units.

UPPER DIVISION COURSES  
(Also Acceptable for Advanced Degrees)

510. Nutrition and Community Health (3) I, II  
Two lectures and three hours of activity. Prerequisites: Grade of C or better in Nutrition 302, 302L, Nutrition 207, and consent of instructor. Nutritional problems in the community with consideration of their resolution. Field placement experience required.

596. Advanced Studies in Nutrition (1-6)  
Prerequisite: Nine upper division units in nutrition. Advanced study of selected topics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of nine units of 596. No more than six units of 596 may be applied to either the bachelor’s or master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES  
Refer to Bulletin of the Graduate Division.
San Diego State University provides preparation for ocean-oriented careers by offering marine-related coursework and oceanographic experience within regular degree programs in the Departments of Biology, Chemistry, Economics, Civil and Environmental Engineering, Geology, Geological Sciences, Mechanical Engineering, Natural Science, and Physics. Master's degrees with specialization in marine problems may also be earned in these departments. The Ph.D. degree is offered in biology, chemistry, and ecology, jointly with the University of California. Degrees in general oceanography or marine studies are not offered by the University. The Coastal and Marine Institute coordinates work in the area of marine studies and provides special supporting services to the faculty, staff, and students, including student advising, assistance in research and publication, operation of the University's marine laboratory at San Diego Bay, and a boat operations program.

Courses in general oceanography are offered by faculty from the Departments of Biology and Geological Sciences. Advanced coursework and research in geological and physical oceanography are conducted in the Geological Sciences Department. An option in marine geology is offered as part of the undergraduate major in geological sciences. Advanced courses and research in biological oceanography, marine biology, marine botany, and marine zoology are conducted in the Department of Biology. Similar marine-related coursework and research are offered in the Departments of Economics and Geography and in the College of Engineering. Students who require advising in these areas should inquire at the Coastal and Marine Institute. (See section of this catalog on Colleges, College of Sciences Research Centers and Institutes.)

Oceanography Minor

Offered for undergraduate science students by the Department of Geological Sciences, the minor in oceanography consists of a minimum of 16 upper division units to include Biology 515 or 517; Geological Sciences 540, 545; Oceanography 541; and three additional units selected with the approval of the adviser.

The oceanography minor is intended for students with extensive background in the sciences. Oceanography 320 is not applicable toward the oceanography minor.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirement, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (OCEAN)

UPPER DIVISION COURSES
(Intended for Undergraduates)

305. Scientific Scuba Diving (3)

Two lectures and three hours of laboratory.
Prerequisites: Upper division standing. Swimming competency evaluation, physical examination approval for scuba diving, waiver for scuba diving.
Entry level scientific diver training and certification course. Theory and practical diving skills to include diving physiology, hyperbaric conditions, medical hazards, proper selection, care and operation of diving equipment, marine environment, emergency procedures, scientific diving techniques and regulations. Not open to students with credit in Oceanography 306 or Exercise and Nutritional Sciences 320, 323, 324.

306. Scientific Scuba Diving for Certified Divers (3)

Two lectures and three hours of laboratory.
Prerequisites: Oceanography 305 and Advanced or Scientific Diving Certification, diving skills proficiency evaluation, acceptable openwater diving equipment, physical examination approval for scuba diving, waiver for scuba diving.
Scientific diving operations, techniques and procedures; dive planning and lead diver responsibilities; underwater work, mapping, search and salvage, navigation, deep, night and small boat diving; emergency procedures and rescue. Physics, physiology, medicine, decompression theory, oceanography, marine life and marine environment. Master Diver Certification. Not open to students with credit in Exercise and Nutritional Sciences 324.

320. The Oceans (3) I, II

Prerequisites: One introductory college course in a life science and one in a physical science, and completion of the General Education requirement in Foundations II.A., Natural Sciences and Quantitative Reasoning.

The ocean system, its influence on life, climate, the earth, and humankind.

496. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

541. Oceanography (3)

Prerequisites: Biology 201, 202; Mathematics 121 and 122 or 150; Physics 180A or 195.

Multidisciplinary examination of physical, chemical, biological and geological aspects of marine environment and relationship of humans with the sea. Intended for science majors only.

561. Deep Sea Oceanography (3)

Prerequisites: Biology 515 and Chemistry 365.

Concepts of deep sea oceanography including abyssal biology, physics and chemistry, instruments and methods of deep sea research, biogeochemistry of oceanic ridges, and high-pressure biochemistry.

For additional courses in Marine Studies see:

Biology 513. Marine Microbiology
Biology 515. Marine Invertebrate Biology
Biology 517. Marine Ecology
Biology 519. Aquaculture
Biology 520. Ichthyology
Economics 454. Economics of the Ocean
Geography 504. Coastal and Submarine Physiology
Geography 588. Intermediate Remote Sensing of Environment
Geological Sciences 540. Marine Geology
Geological Sciences 545. Descriptive Physical Oceanography
Advising

The Major

Faculty
Emeritus: Friedman, Howard, McClurg, Nelson, O'Reilly, Ruja, Shields, Snyder, Troxell, Warren, Weissman
Chair: Rosenstein
Professors: Feenberg, Rosenstein, Weber, Weston
Associate Professors: Barbone, Chaffin, Corlett, Francescotti, Wheeler
Lecturer: Berteaux

Offered by the Department
Master of Arts degree in philosophy.
Major in philosophy with the B.A. degree in liberal arts and sciences.
Minor in philosophy.

The Major

The philosophy major explores and seeks to understand values and the nature of reality. Through the study of philosophy, questions are asked about existence and experience: What is truth? What is morally right? What kind of life is best? What kind of society? Is there an ultimate reality? Philosophy studies the types of questions that most other subject areas are unable to address fully.

There are three different ways these questions are characteristically investigated in the philosophy major at San Diego State University. They are approached historically, by studying the history of philosophy from the ancient Greeks to the present; analytically, by carefully examining the meanings and interrelationships of ideas; and critically, by training students in the art of evaluating various claims and the arguments for and against them.

While the analytical and critical approach are part of every course in philosophy, the philosophy curriculum at San Diego State University emphasizes the historical approach. The aim is to provide the philosophy major with a thorough grounding in the development of philosophy so that the student is well prepared to participate in the discussion of contemporary issues.

The education of a philosophy major, along with providing the satisfaction of dealing with fundamental issues which have concerned serious thinkers for many centuries, also provides the student with skills that may be used in a variety of careers. Some students begin graduate work after their B.A., either in philosophy, with the expectation of teaching or writing in the field, or in law, education, or other professional programs. Some enter new fields of research, working on computer problems or artificial intelligence. Other students find that the special skills they have developed as philosophy majors - the ability to read complex material with comprehension, to analyze problems, to find relevant sources, to evaluate evidence, to propose solutions and to examine them self-critically, and to report the results of their inquiries with clarity and coherence - are valued by employers in many different fields. Such students may find career opportunities in government, industry, finance, and social services.

Advising

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Philosophy Major

With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 15091)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in philosophy courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major.
Six lower division units in philosophy including either Philosophy 110 or 120.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or English 508W or Rhetoric and Writing Studies 305W or 500W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units in philosophy at the 400- and 500-level to include Philosophy 411, 412, 413, 414, and 521. Requirements in any one of the four areas of specialization, as listed below, must be completed along with three to six units of electives in philosophy.

A. Current Issues: Twelve units to include three units from each of the following groups, with an additional three units from either Group I or Group II.
   Group I: Philosophy 523, 525, 532, 537
   Group II: Philosophy 510, 512, 528, 541
   Group III: Philosophy 506, 507, 508, 543

B. Aesthetics and Philosophy of Literature: Nine units selected from Philosophy 508, 541, 542, and 543.

C. Legal and Political Philosophy: Philosophy 510, 512, and three units selected from Philosophy 523, 528, 532.

D. Philosophy of Science: Philosophy 537 and six units selected from Philosophy 523, 531, and 536.

Philosophy Minor

The minor in philosophy consists of a minimum of 15-18 upper division units in philosophy. The student must complete the requirements in one of the following areas of specialization:

A. Aesthetics and Philosophy of Literature: Fifteen units to include 12 units selected from Philosophy 334, 508, 541, 542, 543; and three units of electives.

B. Applied Ethics: Eighteen units to include Philosophy 528 and 12 units selected from Philosophy 329, 332, 333, 512; and three units selected from any upper division course in Philosophy or from Communication 500, 589, International Security and Conflict Resolution 310, Management 356, or Natural Science 333.

C. History of Philosophy: Fifteen units to include Philosophy 411 and nine units selected from Philosophy 412, 413, 414, 506, 507, 575; and three units of electives.

D. Legal and Political Philosophy: Fifteen units to include Philosophy 510, 512, six units selected from Philosophy 333, 528, 532, and three units of electives.
E. Philosophy and Cognitive Science: Fifteen units to include Philosophy 521, 523, 531, 536; and three units of electives.

F. Philosophy of Science: Fifteen units to include Philosophy 521, 523, 537, and six units of electives.

Courses (PHIL)

LOWER DIVISION COURSES

101. Introduction to Philosophy: Values (3) I, II (CAN PHIL 4)
Introduction to philosophical inquiry, with emphasis on problems of value. Students are encouraged to think independently and formulate their own tentative conclusions.

102. Introduction to Philosophy: Knowledge and Reality (3) I, II
Introduction to philosophical inquiry with emphasis on problems of knowledge and reality. Students are encouraged to think independently and formulate their own tentative conclusions.

103. Historical Introduction to Philosophy (3) I, II
Introduction to philosophical inquiry through study of the works of major philosophers in their historical contexts.

110. Critical Thinking and Composition (3)
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement.

120. Introduction to Logic (3) I, II
Prerequisite: Satisfaction of the Entry-Level Mathematics requirement.
Introduction to deductive and inductive logic. Logic and language. Analysis of fallacies. Uses of logic in science and in daily life.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

Students taking 300-level courses for the major will be required to do extra work to be arranged with the instructor.

305. Classics of Western Philosophy (3)
Prerequisites: Upper division standing, and completion of the General Education requirement in Foundations II.C., Humanities.
Analysis of major texts selected from diverse historical periods in western philosophy. Texts will illustrate different world views (e.g., Platonism, Stoicism, Skepticism) and their relationship to other disciplines and to present world views.

310. Philosophy and Human Nature (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Concept of human nature. Descriptive and normative aspects of major theories of human nature.

329. Social Ethics (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Ethical issues of contemporary life. Individualism vs. collectivism; democracy vs. dictatorship; ethical problems arising in law, medicine, business, government and interpersonal relationships.

332. Environmental Ethics (3)
Prerequisite: Completion of General Education requirement in Foundations II.C., Humanities.
Development of traditional values concerning the natural environment. Reasons for altering values in light of modern changes in relationship of human beings to the environment. Application of ethical principles to actions affecting the environment.

333. Philosophy of Technology (3)
Prerequisite: Completion of General Education requirement in Foundations II.C., Humanities.
Nature of technology. Ethical aspects of social, political, and environmental problems associated with rapid development of technology over the last century. Responses to these problems by contemporary philosophers.

334. Philosophy of Literature (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Study of literature of philosophical significance, and of philosophical problems of literature.

351. Chinese Philosophy (3)
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities.
Philosophical traditions which have shaped the intellectual life and culture of China. Emphasis on foundational texts surviving from pre-Han China.

411. Ancient Western Philosophy (3) I
Prerequisite: Three units in philosophy.
Ancient western philosophy through the third century A.D.

412. Medieval and Renaissance Philosophy (3) II
Prerequisite: Three units in philosophy.
European philosophy from the fourth century through the sixteenth century.

413. Seventeenth and Eighteenth Century European Philosophy (3) I
Prerequisite: Three units in philosophy.
European philosophy in the seventeenth and eighteenth centuries.

414. Nineteenth Century European Philosophy (3) II
Prerequisite: Three units in philosophy.
European philosophy in the nineteenth century.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

499. Special Study (1-3) I, II
Prerequisites: Six upper division units in philosophy and prior arrangements with a supervising instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

506. Twentieth Century Continental Philosophy (3)
Prerequisite: Six upper division units in philosophy.
Major figures and movements in European philosophy from Husserl to the present.

507. Twentieth Century Anglo-American Philosophy (3)
Prerequisite: Six upper division units in philosophy.
Major movements, issues, or figures of twentieth century Anglo-American philosophy. Course may be repeated with new content. Maximum credit six units.
Philosophy

508. Existentialism (3)
Prerequisite: Six units in philosophy.
The philosophical aspects of existentialism. Major emphasis is on the diversity of thought within a common approach as this is shown in individual thinkers.

510. Philosophy of Law (3)
Prerequisite: Three units from Philosophy 101, 102, or 103; and three units from philosophy or political science.
Nature of law and logic of legal reasoning. Review of certain key legal concepts such as causation, responsibility, personality, and property.

512. Political Philosophy (3)
Prerequisite: Philosophy 101, 102 or 103.
Selected aspects of the political structures within which we live, such as law, power, sovereignty, justice, liberty, welfare.

521. Deductive Logic (3)
Prerequisite: Philosophy 120.
Principles of inference for symbolic deductive systems; connectives, quantifiers, relations and sets. Interpretations of deductive systems in mathematics, science and ordinary language. Not open to students with credit in Mathematics 523.

523. Theory of Knowledge (3)
Prerequisite: Six units in philosophy.
The major theories of human knowledge: mysticism, rationalism, empiricism, pragmatism.

525. Metaphysics (3)
Prerequisite: Six units in philosophy.
Prominent theories of reality, e.g., realism and nominalism, materialism and idealism, teleology and determinism.

528. Theory of Ethics (3)
Prerequisite: Six units in philosophy.
Significant and typical value theories and systems and the concrete problems such theories seek to explain. Emphasis will be on moral values.

531. Philosophy of Language (3)
Prerequisite: Six units in philosophy.
An introduction to theories of meaning for natural languages and formal systems; concepts of truth, synonymy and analyticity; related epistemological and ontological problems.

532. Philosophy of History (3)
Prerequisite: Six units of philosophy.
The nature of history and historical inquiry. As metaphysics: A study of theories of historical development. As methodology: History as science, truth and fact in history, historical objectivity, the purpose of history.

536. Philosophy of Mind (3)
Prerequisite: Three upper division units in philosophy.
Analysis of the concept of mind, intention, behavior, etc. Developments generated by works of such philosophers as Wittgenstein, Wisdom, and Ryle.

537. Philosophy of Science (3)
Prerequisite: Six units in philosophy.
The basic concepts and methods underlying contemporary scientific thought. Contributions of the special sciences to a view of the universe as a whole.

541. History of Aesthetics (3)
Prerequisite: Philosophy 101, 102 or 103.
Major documents in the history of aesthetics.

542. Philosophy of Art (3)
Prerequisite: Six units in philosophy.
The nature of aesthetic experience. Principal contemporary theories of art in relation to actual artistic production and to the function of art in society.

543. Philosophy and Literary Theory (3)
Prerequisites: Three upper division units in philosophy and three upper division units in literature.
Relations between philosophy and literary discourse. Strategies of interpretation offered by major contemporary thinkers.

555. Philosophy of Technology (3)
Prerequisite: Six units in philosophy.
Philosophy of technology in leading thinkers such as Marx, Heidegger and Marcuse.

575. A Major Philosopher (3)
Prerequisite: Six upper division units in philosophy.
The writings of one major philosopher. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to the major. Maximum credit six units applicable to a master's degree.

596. Selected Topics (3)
Prerequisite: Six upper division units in philosophy.
A critical analysis of a major problem or movement in philosophy. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to the major. Maximum credit six units applicable to a master's degree.

599. Special Study (1-3)
Prerequisite: Upper division or graduate standing and consent of instructor.
Directed individual study in philosophy on a theme or topic chosen in consultation with the instructor. Maximum combined credit six units of Philosophy 599 and 798 applicable to the M.A. degree in Philosophy.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.

Physical Education
Refer to “Exercise and Nutritional Sciences” in this section of the catalog.
Physics
In the College of Sciences

Faculty
Emeritus: Cottrell, Day, Feher, Garrison, Lilly, Moe, Nichols, Piserchio, Smith, Teasdale, Templin, Wolter
Chair: Papin
Professors: Burnett, Davis, Goldberg, Morris, Oseroff, Papin, Rehfuss, Roeder, Shore, Sweedler, Torikachvili
Associate Professor: Wallace
Assistant Professors: Anderson, Baljon, Boninsegni
Lecturers: Ferguson, Shackelford
Adjunct: Carlson, Mueller

Offered by the Department
Master of Arts degree in physics.
Master of Science degree in physics.
Master of Science degree in radiological health physics.
Major in chemical physics with the B.S. degree in applied arts and sciences.
Major in physics with the B.A. degree in liberal arts and sciences.
Major in physics with the B.S. degree in applied arts and sciences.
Minor in physics.

The Major
The study of physics is considered the center of modern science. It has fascinated the finest minds of every age – from Newton to Maxwell, Einstein, Bohr, Schroedinger, Oppenheimer and Schwinger. The study of this diverse field encompasses such areas as optics, electricity, magnetism, the properties of the solid state, atomic structure, nuclear structure, motion, relativity, space and time. Physics also plays a significant role in chemistry, biology, astronomy, and geology, and in the applied sciences of engineering and technology.

Students who become physics majors will be selecting a rewarding and vital career. The great burst of activity during the last 20 years has instilled a new excitement in physics. For example, the invention of the laser in the late 1950s revolutionized the field of optics. These advances stimulated whole new areas in physics applications. Superconductivity has led to the search for a high-temperature superconductor so that electrical power might be transmitted without loss; quantum mechanical tunneling has led to the tunnel diode; and solid state physics brought about the transistor and its successors.

The career opportunities for physics graduates are as diverse as the field itself. They include research and development; management or administration in industrial laboratories or government agencies; technical sales; electronic design; laser instrument research; and secondary teaching.

Physics graduates may also enter a wide variety of graduate programs. For example, a radiological health physics master’s degree qualifies students for employment with the Environmental Protection Agency, nuclear power stations, government laboratories, hospitals, Department of Energy, and the Nuclear Regulatory Commission.

Chemical Physics Major
With the B.S. Degree in Applied Arts and Sciences
(Major Code: 19081)
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” Individual master plans for each student are filed with both the physics undergraduate adviser and the Office of the Registrar. No more than 48 units in physics courses can apply to the degree.

Minor is not required with this major.

Preparation for the Major
Physics 195, 195L, 196, 196L, 197, 197L; Chemistry 200, 201, 231, 251; Mathematics 150, 151, and 252.
(44 units)
Recommended: A course in computer programming.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Physics Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 19021)
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” Individual master plans for each student are filed with both the physics undergraduate adviser and the Office of the Registrar. No more than 48 units in physics courses can apply to the degree.

Minor is not required with this major.

Preparation for the Major
Physics 195, 195L, 196, 196L, 197, 197L; Chemistry 200, 201; Computer Engineering 160 or Computer Science 106; Mathematics 150, 151, 252. (38 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to the section of this catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 33 upper division units to include Physics 311, 340A, 340B, 350, 354, 357, 360, 400A-400B, 410.

Physics Major
With the B.S. Degree in Applied Arts and Sciences
(Major Code: 19021)
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” Individual master plans for each student are filed with both the physics undergraduate adviser and the Office of the Registrar.

A minor is not required with this major.

Preparation for the Major
Physics 195, 195L, 196, 196L, 197, 197L; Chemistry 200, 201; Computer Engineering 160 or Computer Science 106; Mathematics 150, 151, 252. (38 units)

Basic Requirements for all Students
Preparation for the Major

With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 19021)
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” Individual master plans for each student are filed with both the physics undergraduate adviser and the Office of the Registrar.

A minor is not required with this major.

Preparation for the Major
Physics 195, 195L, 196, 196L, 197, 197L; Chemistry 200, 201; Computer Engineering 160 or Computer Science 106; Mathematics 150, 151, 252. (38 units)

Basic Requirements for all Students
Preparation for the Major

With the B.S. Degree in Applied Arts and Sciences
(Major Code: 19021)
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” Individual master plans for each student are filed with both the physics undergraduate adviser and the Office of the Registrar.

A minor is not required with this major.

Preparation for the Major
Physics 195, 195L, 196, 196L, 197, 197L; Chemistry 200, 201; Computer Engineering 160 or Computer Science 106; Mathematics 150, 151, 252. (38 units)
Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 45 upper division units to include Physics 311, 340A, 340B, 350, 354, 357, 360, 400A-400B, 410, 498A, 498B.

Areas of Specialization
In addition to the basic requirements, the student must complete the requirements in one of the following areas:

(a) Computational Physics
   Required: Physics 580, 585, and three units of physics electives or Mathematics 541.
   (b) Condensed Matter
      Required: Physics 532, 533, and three units of electives in physics, excluding Physics 301.
      Recommended: Physics 534.
   (c) Foundations
      Required: A minimum of nine units selected from Physics 406, 532, 542, 564, 570.
   (d) Modern Optics
      Required: Physics 406, 552, 553.
      Recommended: Physics 516, 532, 554.
   (e) Radiological Physics
      Required: Physics 560, 561, 564.
      Recommended: Biology 336.
   (f) Scientific Instrumentation
      Required: Physics 513, 516, and three units of physics electives, excluding Physics 301.

Physics Minor
The minor in physics consists of a minimum of 15 units in physics to include 12 upper division units in physics (excluding Physics 301). Courses selected must follow an integrated and coherent pattern of coursework. Courses must be approved by the Physics Department undergraduate adviser and be selected from one of the following areas:

Condensed Matter
Computational Physics
Foundations of Physics
Modern Optics
Radiological Physics
Scientific Instrumentation

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (PHYS)

LOWER DIVISION COURSES

107. Introductory Physics with Laboratory (4) I, II
   Three lectures and three hours of laboratory.
   How physics concepts describe everyday events, and frontier phenomena. Classical mechanics, thermodynamics, electromagnetism, and selected topics from atomic, relativistic, and radioactivity physics. Not open to students with credit in Physics 180A or 195.

149. Special Study (1-2) Cr/NC I, II
   Prerequisite: Consent of supervising instructor.
   Individual study and laboratory work in area of student's major interest. Students will be assigned a member of the staff who will supervise their work. Maximum credit two units.

170. Preparation for Physics (3)
   Prerequisite: Two years of high school algebra. Elemental principles of physics approached from problem-solving and critical thinking perspectives necessary for success in Physics 180A and Physics 195. Not open to students with credit in Physics 107, 180A, or 195.

180A-180B. Fundamentals of Physics (3-3) I, II
   Prerequisite: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Departmental Placement Examination, Part IA. Physics 180A is prerequisite to 180B.
   Recommended: For Physics 180A, concurrent registration in Physics 182A; for Physics 180B, concurrent registration in Physics 182B.
   Semester I: Mechanics, wave motion, sound, and fluids. Semester II: Electricity, magnetism, optics, and modern physics. Presented in a two-semester algebra/trigonometry based sequence. Physics 180A not open to students with credit in Physics 195. Physics 180B not open to students with credit in Physics 196.

182A-182B. Physical Measurements (1-1) I, II
   Three hours of laboratory.
   Prerequisite for 182A: Credit or concurrent registration in Physics 180A.
   Prerequisite for 182B: Credit or concurrent registration in Physics 180B.
   A laboratory course to accompany Physics 180A-180B. Semester I: Properties of matter, mechanics, sound, and wave motion. Semester II: Electricity, DC circuits, oscilloscope measurement techniques, electric and magnetic fields, and optics. 182A: Not open to students with credit in Physics 195L. 182B: Not open to students with credit in Physics 196L.

195. Principles of Physics (3) I, II
   (195 + 195L: CAN PHYS 8)
   (195 + 195L +196 + 196L + 197 +197L: CAN PHYS SEQ B)
   Prerequisites: High school physics or Physics 107 or 170. Mathematics 150.
   Fundamental principles of physics in areas of mechanics and oscillatory motion. Designed for students requiring calculus-based physics.

195L. Principles of Physics Laboratory (1) I, II
   (195 + 195L: CAN PHYS 8)
   (195 + 195L +196 + 196L + 197 +197L: CAN PHYS SEQ B)
   Three hours of laboratory.
   Prerequisite: Credit or concurrent registration in Physics 195. Experiments in mechanics, wave motion, resonance phenomena using precision air tracks. Not open to students with credit in Physics 182A.

196. Principles of Physics (3) I, II
   (196 + 196L: CAN PHYS 12)
   (195 + 195L +196 + 196L + 197 +197L: CAN PHYS SEQ B)
   Prerequisites: Physics 195 and Mathematics 151.
   Fundamental principles of physics in areas of electricity and magnetism. Designed for students requiring calculus-based physics.

196L. Principles of Physics Laboratory (1) I, II
   (196 + 196L: CAN PHYS 12)
   (195 + 195L +196 + 196L + 197 +197L: CAN PHYS SEQ B)
   Three hours of laboratory.
   Prerequisite: Credit or concurrent registration in Physics 196. Experiments in DC circuits, AC circuits, electrical resonance, oscilloscope measurement techniques, and electric and magnetic fields. Not open to students with credit in Physics 182B.
197. Principles of Physics (3) I, II
(197 + 197L: CAN PHYS 14)
(195 + 195L + 196 + 196L + 197 + 197L: CAN PHYS SEQ B)
Prerequisites: Physics 196 and Mathematics 252.
Fundamental principles of physics in areas of wave motion, sound, electromagnetic waves, optics, relativity, and modern physics. Designed for students requiring calculus-based physics.

197L. Principles of Physics Laboratory (1) I, II
(197 + 197L: CAN PHYS 14)
(195 + 195L + 196 + 196L + 197 + 197L: CAN PHYS SEQ B)
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Physics 197.
Experiments in optics, lasers, holography, and nuclear counting.

201. Physics of Sound, Hearing, and Speech (4)
Three lectures and three hours of laboratory.
Prerequisite: Qualification on the Mathematics Departmental Placement Examination, Part IA.
Fundamental nature of sound and applications to hearing and speech.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Energy and the Environment (3)
Prerequisite: Completion of the General Education requirements in Communication and Critical Thinking and Foundations II.A., Natural Sciences and Quantitative Reasoning.
Fundamental physical concepts underlying energy, its conversion, and impact on the environment.

311. Electronics for Scientists (4)
Three lectures and three hours of laboratory.
Prerequisites: Physics 180B and 182B, or 196 and 196L.
AC and DC circuits, diodes, transistors, conventional and operational amplifiers, analog to digital conversion, pulse and digital electronics. Introduce science majors to modern electronic devices and their utilization in scientific instrumentation.

333. Physics Perspectives (3)
Prerequisite: Physics 180B or 197.
Theoretical physics emphasizing basic themes cutting across separate traditional subject divisions. Visualize three-dimensional vector fields, forces and torques. Balance between derivations, conceptual understanding, numerical problem-solving, estimations, and proportional reasoning.

340A-340B. Mathematical Methods in Physics (4-4)
Three lectures and three hours of laboratory.
Prerequisite: Physics 197. Physics 340A is prerequisite to 340B. Recommended: A course in computer programming.
Linear algebra, scalar and vector fields. Complex numbers and analytic functions. Fourier series and integral transforms. Ordinary and partial differential equations. Probability and group theory. Applications to physical theory employing analytical, numerical and computer techniques. Not open to students with credit in Mathematics 342A-342B.

350. Classical Mechanics (3)
Prerequisites: Physics 197. Credit or concurrent registration in Physics 340A.
Newtonian mechanics, gravitation, small oscillations, collisions, motion of rigid bodies, Lagrangian mechanics.

354. Modern Physics (3)
Prerequisites: Physics 197. Credit or concurrent registration in Physics 340A.
Special theory of relativity. Particle properties of electromagnetic radiation, and wave properties of particles. Introduction to quantum theory with applications to atomic structure. Not open to students with credit in Physics 354A or 354B.

357. Advanced Physical Measurements (3)
One lecture and six hours of laboratory.
Prerequisites: Physics 311 and 354.
Stresses both laboratory experiments and techniques of data and error analysis. Experiments are taken from major areas of physics.

360. Thermal Physics (3)
Prerequisites: Physics 350 and 354. Credit or concurrent registration in Physics 340B.
Classical thermodynamics and statistical mechanics. Applications of equilibrium thermodynamics. Introduction to statistical mechanics, including concepts from probability and statistics. Maxwell-Boltzmann, Fermi-Dirac, and Bose-Einstein statistics. Applications of statistical mechanics in calculating macroscopic properties of simple systems. (Formerly numbered Physics 460.)

400A-400B. Classical Electromagnetism (3-3)
Prerequisites: Physics 400A: Physics 197, 340B. Physics 400B: Physics 400A.
Electrostatics, magnetostatics, electromagnetic induction, Maxwell's equations, radiation and wave propagation.

406. Optics (3)
Prerequisites: Physics 197, 197L, 340B.
Reflection, refraction, matrix methods, dispersion, polarization, double refraction, interference, diffraction, Fourier optics, coherence theory, lasers, and holography with applications to optical instruments, wave propagation, and the nature of light.

410. Quantum Mechanics (3)
Prerequisites: Physics 340B, 350, 354.
Mathematical and physical foundations of quantum theory in terms of wave and matrix mechanics. Applications to properties of atoms and solids. (Formerly numbered Physics 510.)

496. Selected Topics in Physics (1-4)
Prerequisite: Consent of instructor.
Selected topics in classical and modern physics. May be repeated with consent of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

498A. Senior Research (1) Cr/NC
Selection and design of individual research project. Oral and written final reports.
Prerequisites: Physics 498A.

498B. Senior Research (2)
Two discussion periods and four additional hours per week to be arranged.
Prerequisite: Physics 498A.
Laboratory work, progress reports, oral and written final reports.

499. Special Study (1-3)
Individual study or laboratory work on a special problem in physics selected by the student. Each student will be assigned a member of the staff who will supervise his/her work. Credit, hours and topics to be arranged in each case. Maximum credit six units.
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

513. Electronic Instrumentation (3)
One lecture and six hours of laboratory.
Prerequisites: Physics 311. Recommended: Credit or concurrent registration in Physics 516.
Computer data acquisition and control, modern signal detection and enhancement techniques; transducer principles and applications; noise and the enhancement of the signal-to-noise ratio.

516. Theory of Scientific Instrumentation (3)
Prerequisites: Physics 311 and 340B.
Fourier analysis with applications to scientific instrumentation, spectroscopy, and image processing; Z transforms and digital filtering; detection systems and their optimization of the signal-to-noise ratio.

532. Condensed Matter Physics (3)
Prerequisite: Physics 410.
Elastic, thermal, electric, magnetic and optical properties of solids. Introduction to the energy band theory of solids, with applications to semiconductors and metals.

533. Experimental Techniques in Condensed Matter Physics (3)
One lecture and six hours of laboratory.
Prerequisites: Physics 357 and credit or concurrent registration in Physics 532.
Experiments in various fields of condensed matter such as x-ray diffraction, Hall effect, superconductivity, and electron paramagnetic resonance.

534. Colloquium in Condensed Matter Physics (1) Cr/NC
Prerequisite: Credit or concurrent registration in Physics 532.
Student and faculty research project presentations. Maximum credit three units.

542. Acoustics (3)
Prerequisites: Physics 340B and 350.
Wave motion, production, reception, transmission and analysis of sound. Special applications such as environmental noise, underwater and seismic waves.

552. Modern Optics and Lasers (3)
Prerequisites: Physics 406 with minimum grade of C; credit or concurrent registration in Physics 400B.
Electromagnetic theory, matrix methods of optics, propagation of Gaussian beams, optical resonators, interaction of radiation and atomic systems, theory of laser oscillation, nonlinear optics, specific laser systems, optical detectors, applications of lasers in physics.

553. Modern Optics Laboratory (3)
One lecture and six hours of laboratory.
Prerequisites: Physics 357 with minimum grade of C; Physics 406 with minimum grade of C; credit or concurrent registration in Physics 552.
Experiments in various fields of modern optics such as holography, physics of lasers, Fourier transform spectroscopy, Raman spectroscopy, light modulation techniques, fiber optics, spatial filtering, diffraction grating, spectroscopy, radiometry, and nonlinear optics.

554. Colloquium in Optics Research (1) Cr/NC
Prerequisites: Concurrent registration in Physics 498A or 498B or 797 and consent of instructor.
Student and faculty research project presentations. Maximum credit three units.

560. Radiological Physics and Dosimetry (3)
Prerequisite: Credit or concurrent registration in Physics 354.
Ionizing radiation fields, interactions of radiation with matter, cavity theory, external radiation dosimetry.

561. Nuclear Instrumentation (3)
Two lectures and three hours of laboratory.
Prerequisites: Credit or concurrent registration in Physics 311 and 560.
Electronics of nuclear instrumentation. Radiation detection and measurement using ionization chambers, GM and proportional counters, and scintillation dosimetry.

564. Nuclear Physics (3)
Prerequisites: Physics 340B and 354.
Nuclear and elementary particle phenomena including nuclear structure, decay, and radioactivity. Nuclear reactions and devices. Experimental methods and applications.

570. Relativity (3)
Prerequisites: Physics 354 and 400B.
Relative coordinates, Lorentz transformation, covariant formation of the laws of physics, applications of special relativity, introduction to curved space time, cosmology.

580. Computational Physics (3)
Prerequisites: Physics 354; Computer Engineering 160 or Computer Science 106; and credit or concurrent registration in Physics 400A.
Computer programming for numerical solution of problems in classical mechanics, electromagnetism, optics, and quantum mechanics. Use of Fortran and C programming languages and the UNIX operating system. Incorporation of standard subroutines for linear algebra and differential equations into student written programs.

585. Computer Simulation in Physical Sciences (3)
Prerequisites: Physics 340B, 350, and 360.
Complex physical systems such as solids, liquids, and macromolecules, by means of computer simulation. Prediction of experimentally measurable physical quantities. Mathematical models. Molecular dynamics and Monte Carlo methods. Interpretation of numerical results. Statistical errors.

596. Special Topics in Physics (1-4)
Prerequisite: Consent of instructor.
Selected topics in classical and modern physics. May be repeated with the consent of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Policy Studies in Language and Cross-Cultural Education
In the College of Education

Offered by the Department
Master of Arts degree in education.

Multiple subject bilingual cross-cultural language and academic development credential (B/CLAD) emphasis: Spanish.
Single subject bilingual cross-cultural language and academic development credential (B/CLAD) emphasis: Spanish.
CLAD or B/CLAD credential in Mexico.
Bilingual cross-cultural language and academic development (B/CLAD) certificate.
Cross-cultural language and academic development (CLAD) certificate.

The Major
The Policy Studies Department offers programs leading toward the Bilingual Cross-Cultural Language and Academic Development (B/CLAD) credential for single and multiple subject (secondary and elementary), as well as the more advanced CLAD Certificate.

With the passage of Proposition 227, requiring all students in public schools be taught in English unless a school has received a waiver, the Policy Studies Department and the College of Education remains committed to the training of teachers for the B/CLAD credentials. The B/CLAD credentials meet all of the requirements of the CLAD credential. The B/CLAD credential remains as the most desirable credential in California. Furthermore, the University is committed with developing leaders in cultural, economic, educational, scientific, social, and technical fields, as well as addressing the linguistic diversity of school communities. The University is primarily responsive to the people of California, as well as to the needs of the regional, national, and international communities it serves.

Multiple Subject Bilingual Cross-Cultural Language and Academic Development Credential (B/CLAD) Emphasis: Spanish
(Credential Code: 00200)
The Multiple Subject Bilingual Cross-Cultural Language and Academic Development credential (B/CLAD) emphasis: Spanish emphasis credential is available to students interested in teaching in a bilingual elementary school classroom. This credential authorizes the holder to teach in any self-contained bilingual or regular classroom in which one teacher is responsible for all the subjects commonly taught in the elementary schools. Because courses on methods of teaching subject areas are taught in Spanish as well as English, candidates must pass the Spanish Language Proficiency and Cultural Awareness Examination given by the department.

Candidates who will pursue this credential need to specify “Spanish emphasis” in the application for admission to SDSU (Code: 00200). Applications for program admission are available from the Campus Store. Packet includes the following information:

Standards for Admission
1. CBEST. Students must pass the California Basic Educational Skills Test prior to admission to the B/CLAD credential program. This examination is required by the Commission on Teacher Credentialing. Booklets containing registration forms and test information are available from the Test Office in SS-2549, (619) 594-5216. Call the PLC department for additional information on CBEST.
2. Major. The Liberal Studies major, Emphasis in Education, Foreign Language Specialization may be selected in preparation for the teaching credential. Students who have academic majors other than liberal studies are required to pass the commission-approved PRAXIS, Multiple Subject Assessment for Teachers (MSAT). Candidates are urged to take this examination as early as possible. This is a prerequisite for admission into B/CLAD Multiple Subject program. These scores must have been received within five years prior to recommendation. Information may be obtained through advisers in the Policy Studies in Language and Cross-Cultural Education Department, ED-152, and registration materials are available in the lobby of the Education building.
3. Prerequisite Courses.
Policy Studies in Language and Cross-Cultural Education 515 ......................................................... 3 units
Education 451 ................................................................. 3 units
Exercise and Nutritional Sciences 241A, 241B ............... 2 units
Linguistics 420 or 520 .................................................... 3 units
Linguistics 452* ............................................................. 3 units
Linguistics 550 or Policy Studies in Language and Cross-Cultural Education 915A ......................... 3 units
Mathematics 210** or 211 or 313 ............................. 3 units
Art 100 or 101 or 387; Music 102 or 343; Theatre 100 or 120 or 310 or 315 ................................. 3 units

* Linguistics 420 and 452 are requirements for the Liberal Studies major.
** With approval of the mathematics adviser, any of the following mathematics courses may be substituted for Mathematics 210: Mathematics 121, 150, 312.
4. Grade Point Average. Candidates must have cumulative grade point averages (GPAs) within the upper one-half of undergraduate students in the candidates’ majors. GPAs vary according to discipline and graduating institution. GPA requirements are available in the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-152. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial SDSU transcripts for GPA calculations.
5. **Letter of Recommendation.** Two professional references and one letter of recommendation must be submitted attesting to the applicants following characteristics: (a) attitude, aptitude and ability to teach children; (b) personality and character; (c) academic ability. At least one letter should be from an elementary school teacher the student has worked with and the others may be from faculty and administrators.

6. **Tuberculin Clearance.** Evidence of a negative tuberculosis test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMOs, or public health agencies.

7. **Early Field Experience.** Applicants must provide evidence of a minimum of 60 hours of experience with students in typical elementary classroom settings within the last five years. Evidence must be documented.

8. **Oral English and Written Statement of Professional Goals and Philosophy.** Have an interview with the admissions and retention committee of the PLC Department.

9. **California Certificate of Clearance.** This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a credential, candidates may submit their clearance application packets and fees to the Credentials office, ED-151.

10. **Credential Advising Appointment.** Each applicant must meet with a faculty adviser to plan an appropriate program, which includes a minimum of 31 units as defined by the Commission on Teacher Credentialing. Make appointment in ED-152, telephone (619) 594-5155.

11. **Language and Culture Examination.** All candidates must pass the PLC Department Spanish Language Proficiency and Cultural Awareness Examination prior to entering the credential program. Please call (619) 594-3218.

12. **Reading Instruction Competence Assessment (RICA).** California Education Code Section 44283 requires that candidates for the preliminary or clear credential multiple subject pass this RICA requirement. The purpose of this assessment is to ensure that the candidate possesses the knowledge and skills important for the provision of effective reading instruction to students. The RICA requirement applies to candidates who did not complete all credential requirements prior to October 1, 1998. Candidates must have passed the RICA in order to be able to file for the credential.

13. **Appeals Process.** Candidates who do not meet all the admission requirements may petition the PLC Department Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the application packets.

14. **Application.** Applicants should complete application procedures the semester prior to beginning the credential program. Call the department for Policy Studies application deadline.

In addition to the minimum admissions standards identified above, the PLC Department Admissions and Retention Committee may also consider qualifications such as previous teaching experience and relevant working experience with children. Due to the number of applicants, application to the program does not ensure admission.

---

### Preliminary Credential Requirements

1. A bachelor’s degree (or higher) with any major other than education.

2. Completion of an approved program of professional education. (See Department of Policy Studies in Language and Cross-Cultural Education for further information.)

3. Passage of PRAXIS Examination, Multiple Subject Assessment for Teachers (MSAT) or approved waiver program (Liberal Studies major, Emphasis in Education).

4. Passage of the Spanish Language Proficiency and Cultural Awareness Examination.

5. Demonstrated knowledge of principles and provisions of United States Constitution through successful completion of three-unit college level course or examination. Courses are listed in General Catalog section on “Graduation Requirements,” IV. American Institutions Requirement, C.3.b.

6. Passage of California Basic Educational Skills Test (CBEST).

7. Passage of Reading Instruction Competence Assessment (RICA) Test.

**NOTE:** Undergraduate students in their final semester prior to obtaining a baccalaureate degree may sign up for concurrent post-baccalaureate credit as explained in the section of this catalog on “General Regulations.”

### Clear Credential Requirements

1. Completion of an approved fifth year program (a minimum of 30 upper division or graduate-level postbaccalaureate units).

2. Coursework/fieldwork to satisfy the Individuals with Disabilities Act. Needs of and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming): Special Education 500 or Teacher Education 526.

3. Demonstrated knowledge of computer hardware, software, and applications to educational/classroom use (computer literacy): Educational Technology 470.
4. Knowledge of health education in California, including substance abuse and nutrition; Community Health Education 101 or 920, and verification of CPR competency.

5. Candidates are required to verify cardiopulmonary resuscitation.

The Professional Clear Multiple Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

Single Subject Bilingual Cross-Cultural Language and Academic Development Credential (B/CLAD) Emphasis: Spanish

(Credential Code: 00100)

The Single Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) Spanish emphasis is available for students interested in teaching in a bilingual secondary school classroom. This credential authorizes the holder to teach in any self-contained bilingual or regular classroom in which one teacher is responsible for teaching the given subject area.

Candidates who will pursue this credential need to specify “Single Subject with (B/CLAD) Spanish emphasis” in the application for admission to SDSU (Code: 00100). Applications for program admission are available from the SDSU Bookstore. Packet includes the following information:

Standards for Admission

1. CBEST. Students must pass the California Basic Educational Skills Test (CBEST) prior to admission to the Single Subject Bilingual Emphasis credential program. Candidates are urged to take this examination as early as possible. This examination is required by the Commission on Teacher Credentialing. Booklets containing registration forms and test information are available from the Test Office in SS-2549, (619) 594-5216. Call the PLC department for additional information on CBEST.

2. Subject Matter Competency. Students must verify competency in a specified single subject area through a university assessment process which consists of reviewing coursework for completion of an approved teaching major or its equivalent at San Diego State University or another approved California teacher-training institution, passing scores on the appropriate PRAXIS/SSAT examinations, or a combination of coursework and examination scores. Competency will be assessed and verified by subject matter departments at SDSU. Requirements for the various single subject majors are listed with the academic majors in the General Catalog.

Test scores submitted for verification of subject matter competency are valid for five years from the date of the examination. Information and registration materials for the current PRAXIS examinations are available in the lobby of the Education building.

4. Grade Point Average. Candidates must have cumulative grade point averages (GPAs) within the upper one-half of undergraduate students in the candidates’ majors. GPAs vary according to discipline and graduating institution. GPA requirements are available in the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-152. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial SDSU transcripts for GPA calculations.

5. Letter of Recommendation. Two professional references and one letter of recommendation must be submitted attesting to the applicant’s following characteristics: (a) attitude, aptitude and ability to teach children; (b) personality and character; (c) academic ability. Letter of recommendation should be from a school teacher with whom the student has worked and the others may be from faculty and administrators.

6. Tuberculin Clearance. Evidence of a negative tuberculosis test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMO’s, or public health agencies.

7. Early Field Experience. Applicants must provide evidence of a minimum of 45 hours of experience with adolescent students in typical classroom settings within the last five years. Evidence must be documented.

8. Oral English and Written Statement of Professional Goals and Philosophy. Have an interview with the admissions and retention committee of the PLC Department.

9. California Certificate of Clearance. This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turn-around time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. Submit clearance application packet and fees to the Credentials office, ED-151.

10. Credential Advising Appointment. Each applicant must meet with a faculty adviser to plan an appropriate program, which includes a minimum of 31 units as defined by the Commission on Teacher Credentialing. Appointments can be made in ED-152, telephone (619) 594-5155.

11. Language and Culture Examination. All candidates must pass the Spanish Language Proficiency and Cultural Awareness Examination prior to entering the credential program. Please call (619) 594-3218.

12. Appeals Process. Candidates who do not meet all the admission requirements may petition the PLC Department Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the application packets.

13. Application. Applicants should complete application procedures the semester prior to beginning the credential program. Call the department for PLC application deadline.

In addition to the minimum admissions standards identified above, the PLC Department Admissions and Retention Committee may also consider qualifications such as previous teaching experience and relevant working experience with children. Due to the number of applicants, application to the program does not ensure admission.
Preliminary Credential Requirements

1. A bachelor's degree with one of the approved single subject majors listed in the School of Teacher Education single subject teaching credential catalog section. Credentials can be granted only in the designated single subject credential areas.

2. Completion of an approved program of professional education. (See Department of Policy Studies in Language and Cross-Cultural Education for further information about the approved programs.)

3. MAJOR ADVISER'S RECOMMENDATION. Passage of subject matter examination(s) or waiver thereof through completion of one of the approved single subject credential majors with a written recommendation from the Ryan major adviser. Candidates applying for the Single Subject Credential program after August 31, 1995 who have not satisfied subject matter competency through coursework or PRAXIS examination(s), must take and pass a new set of examinations for the Single Subject Credential in seven areas: biology#, chemistry #, English, geoscience#, mathematics, physics# and social science. Candidates for the science authorizations (noted with #) must also take and pass a general science examination. Candidates should check with the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-152, to clarify the appropriate means for satisfaction of the subject matter competency requirement.

4. Passage of the Spanish Language Proficiency and Cultural Awareness Examination.

5. Demonstrated knowledge of principles and provisions of United States Constitution through successful completion of three-unit college level course or examination. Courses are listed in General Catalog section on “Graduation Requirements,” IV. American Institutions Requirement, C.3.b.

6. Passage of California Basic Educational Skills Test (CBEST).

NOTE: Undergraduate students in their final semester prior to obtaining a baccalaureate degree may sign up for concurrent postbaccalaureate credit as explained in this catalog.

Clear Credential Requirements

1. Completion of an approved fifth year program (a minimum of 30 upper division or graduate-level postbaccalaureate units).

2. Coursework/fieldwork to satisfy PL 94-142: Needs of, and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming) (TE 526).

3. Demonstrated knowledge of computer hardware, software, and applications to education/classroom use (computer literacy); Educational Technology 470.

4. Knowledge of health education in California, including substance abuse and nutrition, Community Health Education 101 or 920, and verification of current CPR competency.

5. Candidates are required to verify cardiopulmonary resuscitation.

The professional Clear Multiple Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

CLAD or B/CLAD Credential Program in Mexico

In consortium with six other California State Universities and through the auspices of the CSU International Programs Office, SDSU offers a Multiple Subject B/CLAD credential that combines professional educational coursework conducted in California and Querétaro, Mexico, with the experience of cultural and linguistic immersion in the Mexican milieu. The program is designed and coordinated by the CSU International Teacher Education Council (ITEC), which provides oversight, direction, and institutional coordination of the program.

After a brief orientation at SDSU the end of June each year, candidates begin their opening session in Mexico with intensive language study. They complete a majority of their coursework and student teaching in Querétaro, including experiences in both public and indigenous schools. The final semester, beginning in April of each year, is completed in San Diego with coursework in California frameworks and student teaching in local bilingual schools.

Candidates must be admitted to the local CSU campus B/CLAD credential program in all areas except for language. Language proficiency can be at the low intermediate to fully proficient level at admission. Students are eligible for all financial aid that would be available were they to participate in an on-campus program. Cost of the program, including all university fees, room, and board is approximately $12,000. Contact Cristina Alfaro (calfaro@mail.sdsu.edu; (619) 594-2916) or Natalie Kuhlman (nkuhlman@mail.sdsu.edu; (619) 594-1184) or the Policy Studies in Language and Cross-Cultural Education Department (PLC) office (619) 594-5155 for more information.

Cross-Cultural Language and Academic Development (CLAD) Certificate

The Cross-Cultural Language and Academic Development (CLAD) Certificate provides an interdisciplinary approach in linguistics and policy studies to prepare credentialed teachers in theory and application of English Language Development (ELD) and Specially Designed Academic Instruction in English (SDAIE) methodology for linguistically diverse students in grades K-12.
A. Prerequisites: Linguistics 420 or 520.

B. Certificate Requirements:
1. Twelve units including: Policy Studies in Language and Cross-Cultural Studies 601, 602; Linguistics 552; Policy Studies in Language Cross-Cultural Studies 651* or 914 or Linguistics 550.
2. Six units of foreign language at the college level or equivalent.
3. Completion of program with a 3.0 grade point average.
C. Candidates who hold valid basic K-12 teaching credentials will also be able to apply directly to the Commission on Teacher Credentialing for the state's CLAD Certificate for public school service. Apply in the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED 152, or call (619) 594-5155 for more information.

Prerequisite waived for students in this certificate program.

Bilingual Cross-Cultural Language and Academic Development (B/CLAD) Certificate
This experimental certificate program meets California Commission on Teaching Credentialing (CTC) competencies for the B/CLAD (Spanish/English) Certificate through 12 units of coursework conducted in California and Mexico. It addresses the following three domains:
1. Methodology for Primary Language Instruction
2. The Culture of Emphasis
3. The Language of Emphasis

Admission Criteria
Candidates must have an intermediate level of proficiency in Spanish and their CLAD credential/certificate to qualify, plus two letters of recommendation from school or district based personnel. Candidates will be administered a Spanish proficiency pre-and post-examination utilized by Long Beach State University and approved for their B/CLAD credential program.

Coursework
1. Methodology for Primary Language Instruction:
   PLC 652 Multicultural Methods and Curriculum in Language Arts .......................... 3 units
2. The Culture of Emphasis: Latin America:
   PLC 686 Seminar in Multicultural Education: Culture of Latin America ......................... 3 units
3. Practicum/Field Experience: Hands on experience with primary language teaching in Mexico and California:
   PLC 686 Seminar in Multicultural Education:
   Field Experience Seminar in Effective Bilingual Classrooms in California and Mexico ....... 3 units
4. Spanish Language Development, Language of Emphasis:
   PLC 415 Fieldwork in Bilingual Community Context ........................................... 3 units

Courses (PLC)

UPPER DIVISION COURSES
(Reserved for Undergraduates)

397. Problems in Education (Credit to be arranged) I, II
(Offered only in Extension)
Prerequisite: Consent of instructor.
Class study of specially selected problems in education. Does not apply to pattern requirements for credentials. Credit earned in this course not applicable to a bachelor's degree.

400. The Secondary School and Bilingual Education (3) II
Prerequisite: Upper division standing.
Bilingual education at the secondary levels, including roles, curricular models, organization, and legal justification. Must demonstrate bilingual competencies before conclusion of course and admission to program. Taught in Spanish.

415. Fieldwork in Bilingual Community Context (3)
Two lectures and two hours of activity.
Prerequisite: Upper division standing.
Analysis of culturally and linguistically diverse school communities. Participation in bilingual classrooms/schools in preparation for entering B/CLAD credential program.

496. Experimental Topics (1-4) I, II
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Open only to senior and graduate students in education who have shown ability to work independently.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

515. Bilingual Teaching Strategies (3)
Legal and historical context for bilingual education; bilingual program models and teaching strategies; language and academic assessment methods for grouping and evaluating bilingual students. Fieldwork required.

552. Teaching Writing in Multilingual Settings (3)
Methodologies in teaching primarily expository writing to students from various language backgrounds; focusing on skills such as those needed to avoid syntactic, semantic and stylistic language interference.

553. Language Assessment and Evaluation in Multicultural Settings (3)
Theories and methods of assessment and evaluation of diverse student populations including authentic and traditional models. Procedures for identification, placement, and monitoring of linguistically diverse students. Theories, models, and methods for program evaluation, achievement, and decision making.

596. Special Topics in Bilingual and Multicultural Education (1-3)
Prerequisite: Consent of instructor.
Selected topics in bilingual, cross-cultural education and policy studies. See Class Schedule for specific content. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Political Science
In the College of Arts and Letters

Faculty
Emeritus: Andrain, Crain, Feierabend, Gripp, Hobbs, Janssen, Kahng, Lewin, Little, Miles, Padgett, Schultze
Chair: Terrell
Professors: Conniff, Heck, Hofstetter, Johns, Loveman, Soule, Strand, Terrell
Associate Professors: Cutter, Fairlie, Keiser
Assistant Professors: Abdel-Nour, Alexseev, Carruthers, Guang, Hill-Maher, Kennedy
Lecturers: Bergstrom, Brown, Epps, Ingram, Stoddard, Sullivan

Offered by the Department
Master of Arts degree in political science.
Minor in political science.

The Major
Political science is the study of governments. Its concerns, however, are not limited to formal governmental institutions such as the executive and legislative branches or the justice systems. Political science is also interested in other organizations and activities which are part of the process of government, including political parties, interest groups, and the press.

Students who become political science majors will learn about who creates the rules by which people are governed, the attitude and behavior of leaders and members of the public which cause certain decisions to be made, and how these decisions affect such values as liberty, equality, welfare, and justice. Political science is concerned with contemporary public affairs, problems in other political systems and contemporary international politics, as well as with historical growth, evolution, and decline of various types of governments.

The many career opportunities which might be available to political science graduates include teaching at the secondary level; positions with state and local governments, including administrative aide for a city manager, staff assistant for a county supervisor, and assistant to the registrar of voters; administrative positions on the staffs of national, state, and local legislators; claims adjuster or claims representative; statistical technician; marketing supervisor, and assistant to the registrar of voters; claims adjuster or claims representative; statistical technician; marketing researcher; lobbyist for a business or trade organization; political reporter; and title office trainee.

Impacted Program
The political science major is an impacted program. Students must enter the University under the political science premajor code (22070). To be admitted to the political science major, students must meet the following criteria:

a. Complete with a grade of C or higher: Political Science 101, 102 (or 320), 103, 201 (one of the following equivalent courses can be taken in place of Political Science 201: Biology 215, Civil Engineering 160, Economics 201, Psychology 270, Sociology 201, Statistics 119 or 250, or logic course Philosophy 120). These courses cannot be taken for credit/no credit (CR/NC);

b. Complete a minimum of 30 semester units;

c. Have a cumulative GPA of 2.20 or higher; and

d. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser in order to declare or change to the major.

Political Science Major
With the B.A. Degree in Liberal Arts and Sciences
(Premajor Code: 22070) (Major Code: 22071)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” A total of 45 upper division units must be taken, of which 24 must be selected as described in the major. No more than 48 units in political science courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major.
Political Science 101, 102, 103 and three units of either statistics or logic. (12 units)

See Political Science 201 for listing of courses in other departments that fulfill the statistics requirement.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or History 450W, Linguistics 305W, or Rhetoric and Writing Studies 305W or 500W with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units to include (a) three units in Political Science 495, 497, 498, 596, or a 500-level political science course in any one of the four fields; and (b) 21 upper division units in political science, provided that at least three units shall be taken in each field.

Field I: Political Theory. Courses numbered 301A to 305, 406 and 410.
Field II: American Politics. Courses numbered 321 to 338, 346 to 348, 422 to 454, 530 and 531.
Field III: Comparative Politics. Courses numbered 356 to 370, 555 to 568.
Field IV: International Politics. Courses numbered 375, 393, 478 to 485, 575 and 577.

Emphasis in Legal Studies
(Premajor Code: 22070) (Major Code: 22071)

A minor is not required for students majoring in political science with an emphasis in legal studies.

Preparation for the Major.
Political Science 101, 102, 103, and three units in statistics or logic. (12 units) Three units of each of the following or equivalent: Legal Research and Writing, Civil Litigation I, Introduction to the Legal System. Six additional units of paralegal courses. (15 units) Total: 27 units. A course in introduction
to computers and word processing is recommended in preparation for this emphasis. Only baccalaureate-level courses taken through accredited institutions will be considered to meet requirements.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or History 450W, Linguistics 305W, or Rhetoric and Writing Studies 305W or 500W with a grade of C (2.0) or better.

Major. A minimum of 38 upper division units to include:

a. Three units in Political Science 495, 497, or 498; 596 or a 500-level political science course in any one of the four fields;

b. 21 upper division units in political science, provided that at least three units shall be taken in each field.

Field I: Political Theory. Courses numbered 301A to 305, 406 and 410.

Field II: American Politics. Courses numbered 321 to 338, 346 to 348, 422 to 454, 530 and 531.

Field III: Comparative Politics. Courses numbered 356 to 370, 555 to 568.

Field IV: International Politics. Courses numbered 375, 393, 478 to 485, 575 and 577.

c. 14 units in legal studies courses to be taken through SDSU Special Session. Take five out of the following six courses:
   - Political Science 439, Advanced Legal Writing (3)
   - Political Science 340, Alternative Dispute Resolution (2)
   - Political Science 342, Contractual Obligations and the Law (3)
   - Political Science 343, Logic of Trial Argumentation (3)
   - Political Science 344, American Law (3)
   - Political Science 345, Professional Responsibility in the Legal Profession (3)

Additional fees are associated with this program for courses taken in special sessions. Call Extended Studies at (619) 594-2193 for more information.

Political Science Minor

The minor in political science consists of a minimum of 18 units in political science to include Political Science 101 and either 102 or 103; 12 of the 18 units must be in upper division courses and at least nine of these units must be selected from one of the following subject matter areas (a or b or c):

a. Political Theory (Field I)

b. American Politics (Field II)

c. Comparative Politics and International Politics (Fields III and IV)

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (POL S)

LOWER DIVISION COURSES

101. Introduction to Politics and the American Political System (3) I, II

Basic political concepts as applied to the American political system. The American political system as a constitutional democracy with reference to specific topics. When taken with Political Science 102 will satisfy graduation requirement in American Institutions.

102. Introduction to American and California Government and Politics (3) I, II

Political processes and institutions in the United States and California. Considers a variety of public policy issues such as environmental quality, health, education, relation between government and business, taxation, and foreign affairs as reflected in the dynamics of national and state politics. When taken with Political Science 101 will satisfy graduation requirement in American Institutions. Credit will not be allowed for both Political Science 102 and 320.

103. Introduction to Comparative Politics (3) I, II

Analytical models and techniques for examination of problems of decision making and control in various political systems. Emphasis on patterns of political action in various cultural contexts.

201. Elementary Statistics for Political Science (3) I, II

Prerequisites: Course in intermediate algebra; Political Science 101 and 102; satisfaction of the Entry-Level Mathematics requirement. Quantitative methods in political science. Tabular and graphic presentation, measures of central tendency, simple correlation and sampling techniques. Students with credit or concurrent registration in the following lower division statistics courses will be awarded a total of four units for the two (or more) courses: Political Science 201; Biology 215; Civil Engineering 160; Economics 201; Psychology 270; Sociology 201; Statistics 119, 250.

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

Field I: Political Theory

UPPER DIVISION COURSES

(Intended for Undergraduates)

301A-301B. History of Western Political Thought (3-3)

Prerequisites: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.

Development of political ideas from the Golden Age of Greece until the French Revolution. Relevance of theory to a critical understanding of concrete political and social problems involving power, freedom, equality, justice and action. 301A emphasizes Plato, Aristotle, Augustine, Aquinas, and Marsilius of Padua. 301B stresses major political theorists such as Machiavelli, Hobbes, Locke, and Rousseau.

302. Modern Political Thought (3)

Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.

Major writers of political thought in the last two centuries, including Burke, J.S. Mill, Freud, Marx, Weber and Sartre. The following topics may be covered: conservatism, liberalism, utilitarianism, socialism, fascism, positivism and existentialism.

305. American Political Thought (3)

The origin and development of American political ideas from colonial times to the present. Meets the graduation requirement in the United States Constitution. When taken with Political Science 320, 321 or 422, will also satisfy graduation requirements in American Institutions.

406. Democracy and Mass Society (3)

Origin and development of theories of democracy and application of democratic ideas to contemporary political life.

410. Contemporary Political Thought (3)

Prerequisite: Political Science 301B or 302 or 305 or 406.

Contemporary political questions and theoretical attempts to address them. Debates about justice, citizenship, and multiculturalism; as well as controversies over nature and scope of politics.
Field II: American Politics

UPPER DIVISION COURSES (Intended for Undergraduates)

321. State Politics (3)
Politics and policy making at the state and local levels, relations among national, state, and local governments. Emphasis on California problems and politics. Meets the graduation requirement in California government. When taken with Political Science 305 or 320, will also satisfy graduation requirements in American Institutions.

322. Creative Conflict Management (3)
One lecture and four hours of activity.
Facilitate interpersonal and group conflict resolution. New techniques in bargaining used to learn how to reach win-win agreement. The new paradigm taught is interest based negotiation (IBN).

334. Politics of the Environment (3)
Analysis of political process as it shapes environmental policy in a world characterized by finite resources. Emphasis on expanding national and international claims made upon these resources. May include a substantial amount of material about foreign political systems.

335. Public Policy (3)
Prerequisite: Political Science 101 and 102.
Theory and practice of process of formulating public policy; roles of administrators, legislators, courts, interest groups, and political parties; public agencies and public interest; case studies in formulating public policies. May include a substantial amount of material about foreign political systems.

338. The Legislative Process (3)
Detailed analysis of legislatures. Special attention devoted to impact of dynamic factors on formal procedures. May include a substantial amount of material about foreign political systems.

346. Law and the Political System (3)
Forces influencing the making of law; relationship between social and legal change; nature and limits of the judicial function.

347A-347B. American Constitutional Law (3-3)
Substantive principles of American constitutional law. Rights and liberties protected by the Constitution against action of federal and state governments. May include problems of judicial review, federal system, separation of powers, nature of selected congressional-presidential powers. Satisfies graduation requirement in United States Constitution. (Formerly numbered Political Science 547A-547B.)

348. The Supreme Court and Contemporary Issues (3)
Recent decisions of the Supreme Court of the United States and their relationship to contemporary political and social issues. Not open to students with credit in both Political Science 347A and 347B.

422. Urban Politics (3)
Prerequisite: Political Science 101 or 102.
The processes by which social conflicts in American urban areas are represented and regulated. Urban political culture; ecology; group development and activity; power structures; and reform movements are surveyed. The character of the urban political "problem" and proposed solutions are evaluated. Meets graduation requirement in California state and local government. When taken with Political Science 305 or 320, will also satisfy all requirements in American Institutions.

425. Political Behavior (3)
Prerequisites: Political Science 102.
Social and attitudinal variables in political behavior. Quantitative research data as used in electoral studies. May include a substantial amount of material about foreign political systems.

426. Political Communication (3)
Communication as a political process; the effects of political communication on individuals and groups. May include a substantial amount of material about foreign political systems.

Field III: Comparative Politics

UPPER DIVISION COURSES (Intended for Undergraduates)

356. Governments of Continental Europe (3)
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
The political systems of countries of western continental Europe.

357. Politics of England (3)
The structure and functioning of the English parliamentary system with emphasis on present-day political principles and parties.

358. Governments of Continental France and the Commonwealth (3)
Contemporary developments in Russia and states of former Soviet Union. Focus on Gorbachev era and post-Gorbachev transformations of political, economic, and social systems.

361. Governments and Politics of the Developing Areas (3)
Prerequisites: Political Science 101 or 103; and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Internal political systems, governmental structures and the foreign policies of developing nations.

362. Governments and Politics of East Asia (3)
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
The internal political structure and foreign policies of China, Japan, and Korea.

363. Governments and Politics of the Middle East (3)
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
The governmental and political structures of representative states in the Middle East including Turkey, Israel, and the Arab states.

364. Political Change in Modern Africa (3)
Dynamics of social and political change in modern Africa.
370. Political Violence (3)
Prerequisites: Political Science 101, 102 or 103; and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.
Underlying conditions, expressions and consequences of violence within political systems.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

555. Comparative Political Systems (3)
Prerequisite: Political Science 103.
An examination of selected political and governmental systems for purposes of comparative study and analysis to determine similarities, differences and general patterns and universals among political systems.

560. Comparative Public Policy (3)
Prerequisite: Political Science 103 or 335.
Ways that political and social factors shape policy choices, implementation strategies, and policy outcomes in selected countries, emphasis on industrialized nations. Policy areas chosen from: education, health, nutrition, crime, transportation, housing, energy, population control, poverty, unemployment, inflation.

563. Government and Politics of Asian Countries (3)
Prerequisite: Political Science 103 or 362 or Asian Studies 107 or History 566 or 567.
Domestic politics and foreign policies of select Asian countries such as China, India, South Korea, and Taiwan; to include political institutions and change, development politics and external relations in these countries. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

566. Political Change in Latin America (3)
Prerequisite: Political Science 101 or 103.
General pattern of politics and political development in Latin America with an emphasis on those features which condition domestic and foreign policy making.

567. Political Systems of Latin America (3)
Prerequisite: Political Science 566.
Domestic and international politics of selected Latin American states.

568. Mexican Politics (3)
Prerequisite: Political Science 101 or 103.
Principal factors in Mexican governmental decision making. Ideology, political groups, tactics of leaders and governmental structure.

Field IV: International Politics
UPPER DIVISION COURSES
(Intended for Undergraduates)

375. International Relations (3)
Dynamics of conflict and cooperation among national, international and transnational actors; contributing political, economic, and social factors.

393. Institute on World Affairs (3)
Weekly lectures by visiting experts on contemporary international relations. Speakers may include scholars, diplomats, government officials, journalists, military officers and international business executives.

478. Conduct of American Foreign Relations (3)
Institutional arrangements by which American foreign policy decisions are formulated and implemented. Issues confronted by American foreign policy decision makers.

479. National Security Policy (3)
Objectives, instruments, and consequences of national security policy.

481. International Relations of the Developing Nations (3)
Prerequisite: Six units of political science.
Cooperation and conflict between the developing nations and relations of such nations with the developed countries.

482. International Relations of the Latin American States (3)
Foreign policies of Latin American states; the Organization of American States; relationships with the United Nations and the United States.

485. Politics of Globalization (3)
Prerequisite: Political Science 103 or six units of political science.
Ideas and practice of globalization since end of World War II, focusing on political debate around contemporary changes in trade, production, and global social relations, and on impact of globalization on political institutions such as state, civil society, social movements, and democracy.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

575. International Relations of the Pacific Rim (3)
Prerequisite: Political Science 362 or 375 or 481.
Dynamics of conflict and cooperation among nations of the Pacific Rim. Stress on political and economics factors that shape interstate relations.

577. Principles of International Law (3)
The function of law in the international community. The historical development of the ideas and rules of international law and their place in the modern diplomatic and legal structure.

Elective Courses
UPPER DIVISION COURSES
(Intended for Undergraduates)

310. Politics and the Arts (3)
Prerequisites: Political Science 101 and 102.
The contribution of the artistic media to the activity and understanding of politics.

320. American Institutions (3) I, II
The principles of the Constitution of the United States of America, and a survey of the political and social institutions which have developed under the Constitution. Meets the graduation requirement in the United States Constitution and California state and local government. When taken with Political Science 305, 321 or 422, will also satisfy graduation requirements in American Institutions. Credit will not be allowed for both Political Science 102 and 320.

495. Internship in Local Politics (3) I, II
Prerequisites: Limited to senior political science majors; three upper division units within Field II.
Seniors in the major choose internships within San Diego County in government agencies, offices of elected officials, or others approved by instructor. Requires 160 hours of fieldwork and periodic analytical essays.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

497. Investigation and Report (3) I, II
Prerequisite: Limited to senior political science majors with a cumulative 3.0 in upper division political science courses.
Senior thesis. Analysis of special topics.

498. Internship in National Politics (12) I, II
Prerequisite: Consent of instructor.
Students will be assigned to political agencies in Washington, D.C., such as congressional staffs, interest groups, executive agencies, legal/judicial offices and political party committees. Maximum credit three units applicable to the major or minor in political science.
499. Special Study (1-3) I, II
Prerequisites: Twelve upper division units in political science and consent of the instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

515. Research Design and Analysis in Political Science (3)
Prerequisite: Political Science 201.
Conceptual analysis, measurement, and scaling. Elementary statistical analysis of behavioral data using computers and data processing using one of the major statistical packages. (Formerly numbered Political Science 515A.)

516. Statistics for Political Scientists (3)
Prerequisite: Political Science 201.
Basic concepts, theories, and methods that are utilized by political and other social scientists using statistics and microcomputers. Serves as an intermediate level introduction to statistical methods in political science. (Formerly numbered Political Science 515B.)

596. Topics in Political Science (3)
Prerequisite: Upper division or graduate standing.
Selected topics in political science. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596. Maximum credit of three units of 596 applicable to a master's degree. Maximum credit of six units of 596 and 696 applicable to a 30-unit master's degree.

Legal Studies Emphasis

UPPER DIVISION COURSES
(Intended for Undergraduates)

339. Advanced Legal Writing (3)
Prerequisites: Legal Research and Writing, Introduction to the Legal System, and Civil Litigation I.
Logical reasoning and clear, effective writing skills stressed. Will address complex legal issues, perform advanced legal research, write legal analysis papers, and create an appellate brief in compliance with rules of court. Includes practice in techniques of writing legal materials with attention to Plain Language Rule (clear English).

340. Alternative Dispute Resolution (2)
Prerequisites: Legal Research and Writing, Introduction to the Legal System, and Civil Litigation I.
Alternatives to litigation for resolution of disputes. Topics include mandatory settlement conferences, arbitration, mediation, and increasing role of alternative dispute resolution in American legal system and its effects on courts and legal profession.

342. Contractual Obligations and the Law (3)
Prerequisites: Legal Research and Writing, Introduction to the Legal System, and Civil Litigation I.
Development of contract law in context of American legal system. Common law theories, concepts and cases. Contract formation, obligation, and performance discussed with examples from legal dispute scenarios and actual cases.

343. Logic of Trial Argumentation (3)
Prerequisites: Legal Research and Writing, Introduction to the Legal System, and Civil Litigation I.

344. American Law (3)
Prerequisites: Legal Research and Writing, Introduction to the Legal System, and Civil Litigation I.

345. Professional Responsibility in the Legal Profession (3)
Prerequisites: Legal Research and Writing, Introduction to the Legal System, and Civil Litigation I.
Standards of professional conduct in practice of legal profession. Historical development of professional standards from nineteenth century to present Code of Professional Responsibility. Application of standards of legal behavior to both hypothetical and real situations.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.

Portuguese

In the College of Arts and Letters

Faculty
Chair: Kish
Professor: Silverman

Offered by the Department of
Spanish and Portuguese Languages and Literatures
Major in European studies, with emphasis in Portuguese.
See European Studies.
Major in international business, with emphasis in Portuguese.
See International Business.
Minor in Portuguese.

Portuguese Minor
The minor in Portuguese consists of a minimum of 15-17 units in Portuguese, six units of which must be in upper division courses. Recommended: History 535.
Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Foreign Language Requirement for the
B.A. Degree in Liberal Arts and Sciences
Students electing the study of Portuguese to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Portuguese 301 or the equivalent level of achievement. Refer to section of catalog on “Graduation Requirements” for additional ways to satisfy competency.

High School Equivalents
High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation. Secondary school language courses can be used as follows:
1. The first two years of high school level language count as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.
2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit.
3. Four years of high school level language count as the equivalent of three college semesters or five college quarters, thus fulfilling the foreign language requirement.

Courses (PORT)

LOWER DIVISION COURSES
Native speakers of Portuguese will not receive credit for taking lower division courses in Portuguese except with advance approval from the department.

All lower division courses in Portuguese are taught in Portuguese.
No credit will be given for lower division courses taken after successfully completing any upper division Portuguese course.

101. Elementary/Intensive Portuguese I (5) I
Five lectures and one hour of laboratory.
Prerequisite: Three years of high school romance language or two semesters of college romance language.

102. Elementary/Intensive Portuguese II (5) II
Continuation of Portuguese 101.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

299. Special Study (1-3)
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Intended for Undergraduates)

All upper division courses in Portuguese are taught in Portuguese unless otherwise stated.
No credit will be given for lower division courses taken after successfully completing any upper division Portuguese course.

301. Intermediate Portuguese Grammar and Composition (3)
Prerequisites: Portuguese 201; and completion of the General Education requirement in Foundations II.C., Humanities required for non-majors.
Oral and written composition in Portuguese, based on models from modern Portuguese and Brazilian texts. Not open to students who have completed four years of high school Portuguese unless the fourth course was completed five or more years ago.

401. Advanced Portuguese Grammar and Composition (3)
Prerequisites: Portuguese 301; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Oral and written composition in Portuguese, based on models from modern Portuguese and Brazilian texts.

433. Contemporary Luso-Brazilian Civilization (3)
Prerequisite: Portuguese 401.
Historical, cultural socioeconomic, ethnic, geographic, and political factors of modern Brazil and Portugal.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

534. Portuguese Literature (3)
Prerequisite: Portuguese 401.
Important movements, authors and works in the literature of Portugal from its beginnings to the present.

535. Brazilian Literature (3)
Prerequisite: Portuguese 401.
Important movements, authors and works of the literature of Brazil from the colonial period to modern times.
Faculty

Faculty assigned to teach Professional Studies and Fine Arts courses are drawn from the Schools of Art, Design and Art History, Communication, Music and Dance, and the Department of Theatre.

Courses (PSFA)

UPPER DIVISION COURSES
(Intended for Undergraduates)

320. Creativity and Communication in the Arts (3) Cr/NC
One lecture and four hours of activity.
Prerequisite: Upper division standing.
Common elements shared by various artistic forms. Focus on creativity and communication as exemplified in subject, form, function, medium, organization, and style. Attendance at dance, drama, film, music, and visual art events required.

400. Twentieth Century Revolution, the Arts, Society, and the Individual (3)
Two lectures and two hours of activity.
Relationship between society and the arts focusing on three twentieth century political revolutions and how artists reflected or influenced events. Experimental arts activities included.

“Life isn’t a matter of milestones, but of moments.”

— Rose Kennedy
Psychology
In the College of Sciences

Faculty
Chair: Hornbeck
Professors: Atkins-Kaplan, Borges, Bryson, Cronan, Dunn, Fenson, Franzini, Graf, Graham, Hornbeck, Klonoff, Langlais, Litrownik, Marshall, Martin, Matt, McGivern, Mollenauer, Murphy, Prislin, Reed, Reilly, Riley, Saccuzzo, Sallis, Scott, Spinetta
Associate Professors: Castafieda, Defran, Hattrup, Malcarne, McCordick, Price (Joseph), Price (Judy), Scollay, Velasquez, Wilfley
Assistant Professors: Alfonso-Reese, Christensen, Conte, Friend, Mattson, Thomas

Offered by the Department
Doctor of Philosophy degree in clinical psychology.
Master of Arts degree in psychology.
Master of Science degree in psychology.
Minor in psychology.

The Major

What is psychology? Psychology is the scientific discipline that studies human behavior and mental processes: how human beings develop, learn, think and feel. Psychologists study the relative influences of heredity and experience throughout the life span in a wide variety of environments, including the laboratory, home, school, workplace, jury room, hospital and hospice. Faculty of the Department of Psychology at SDSU focus on a number of areas of psychology. Among these are:

• the effects of prenatal environments, including the influence of hormones and drugs on brain development and later functioning,
• the effects of childhood experience on social-emotional and cognitive development,
• the functioning of adults and the elderly in response to biological and environmental challenges,
• the normal processes of learning, memory and cognition,
• the effectiveness of behavioral and cognitive intervention procedures for enhancing physical and mental well-being.

What do psychology graduates do? The majority of students who graduate with a B.A. in psychology enter the job market and find employment in a broad range of settings, including business, state and local government agencies, and health-care services. Because the B.A. in psychology provides a liberal arts education as opposed to technical training, psychology majors will need to acquire job-specific experience or expect additional on-the-job training.

Does the B.A. in psychology prepare students for graduate work in applied areas? Students who have maintained strong academic records in psychology often enter masters degree programs in counseling: Clinical Social Work; Marriage, Family and Child Counseling; and School Psychology. Others pursue graduate work in a number of related fields including Program Evaluation, Industrial and Organizational Psychology, Public Health, Social Ecology, Education, Program Development, Criminal Justice, Law, Administrative Social Work, Human Resource Development, and Medicine.

What is the Ph.D. in psychology? Graduate work which leads to the Ph.D. trains one to be a scientific psychologist, to study human behavior and mental processes, and to teach at the university. The Ph.D. in clinical psychology also includes supervised training in clinical practice. The time commitment for earning a Ph.D. degree is considerable, and these programs are highly competitive. Only a small percentage of psychology graduates will in fact go on to earn the Ph.D. in psychology.

Impacted Program
The psychology major is an impacted program. Students must enter the University under the psychology premajor code (20010). To be admitted to the psychology major, students must meet the following criteria:

a. Complete 12 units in the following courses or equivalent with a grade of C or higher: Psychology 101, 211, 230, 260, 270, 271; and Biology 100. The 12 units must include Psychology 101 and 270, and Biology 100. These courses cannot be taken for credit/no credit (Cr/NC);

b. Clear the competency requirement in mathematics and writing. Refer to Graduation Requirements section of this catalog for details;

c. Complete a minimum of 45 semester units;

d. Have a cumulative GPA of 2.20 or higher; and

e. To gain entry into the major, students must fulfill the premajor requirements described in the catalog in effect at the time they declare the premajor at SDSU (assuming continuous enrollment).

To complete the major, students must fulfill the degree requirements for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment).

Declaration of the Psychology Major
To declare the psychology major, students must report in person to the Psychology Undergraduate Advising Office and provide the Undergraduate Coordinator with evidence of having completed the requirements. Informal transcripts may be used by the Psychology Undergraduate Office to determine declaration of the major. Students should declare the major as soon as they have completed the necessary requirements and should complete no more than 12 units of upper division psychology courses prior to declaring the major. Students who are planning to transfer to SDSU should visit the Psychology Undergraduate Office and declare the major or develop a plan for doing so during the semester prior to enrolling.

Satisfaction of the SDSU Mathematics and Writing Requirements is satisfied by:

a. Complete 12 units in the following courses or equivalent with a grade of C or higher: Psychology 101, 211, 230, 260, 270, 271; and Biology 100. The 12 units must include Psychology 101 and 270, and Biology 100. These courses cannot be taken for credit/no credit (Cr/NC);

b. Clear the competency requirement in mathematics and writing. Refer to Graduation Requirements section of this catalog for details;

c. Complete a minimum of 45 semester units;

Advising

All students planning to major in psychology are urged to make an appointment at the Psychology Undergraduate Advising Office (Life Sciences 116) during their first semester of residence at SDSU. Students who plan to transfer as psychology majors should make an appointment before registering. The Advising Office is open year round.

Psychology Major

With the B.A. Degree in Liberal Arts and Sciences
(Premajor Code: 20010) (Major Code: 20011)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in psychology courses can apply to the degree.

A minor is not required for this major. However, depending on career goals, students may wish to consider minors in areas such as biology, business, public administration, recreation, social work, statistics, and others.

General Requirements for the Major

Preparation for the Major. Psychology 101, 211, 230, 260, 270, 271, and Biology 100. (19 units). Students planning to major in psychology are advised to take these courses for a letter grade and to complete them before progressing to upper division courses in the major. NOTE: Psychology majors may use Psychology 270 to satisfy Mathematics/Quantitative Reasoning General Education requirement.

NOTE ALSO: A college level statistics course will be accepted from another department in lieu of Psychology 270.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section on catalog on “Graduation Requirements.” Psychology majors are urged to discuss scheduling the foreign language requirement with an adviser in the Psychology Undergraduate Advising Office.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

The Major. Methods. All majors must complete Psychology 301 or 410 or both. Psychology 301 is suitable for most psychology majors, including those planning to enter the job market after graduation, those undecided about career plans, and those planning to pursue graduate work in related fields such as counseling.

Students planning to pursue graduate work in psychology should take psychology 370 and 410 as early as possible. Note: Students enrolling in these courses must have earned a B or better in Psychology 270 or its equivalent. Students unsure of their statistical or computer competence may wish to take Psychology 301 before enrolling in Psychology 370 or 410.

Breadth. All majors must complete 12 units selected from a list of content courses covering areas of biological, developmental, abnormal, social, personality, cognitive, and sensation/perception.

Requirements for the Major. A minimum of 31 upper division units in psychology to include Psychology 301 or 410 and 12 units selected from Psychology 331 or 332 or 333, 340, 350, 351, 360 or 361, 380, 388. The remaining 15 elective units may be selected from any psychology courses numbered 300 or above.

Recommendations for Electives

Employment with the B.A. Electives should be selected in accord with general career goals. Students interested in health and human services may take courses that focus on psychological health and well-being or issues related to child development. Those interested in business may take courses that focus on industrial, organizational, and consumer issues or that emphasize computer skills, measurement, data analysis, or some combination of these.

Masters programs in counseling. At SDSU, a Master of Science degree in Counseling is offered by the College of Education and a Master of Social Work degree is offered by the College of Health and Human Services. For these programs students have considerable latitude in the selection of psychology electives, but it is important to develop an appropriate profile of volunteer or work experience.

Graduate programs in psychology. Most masters or doctoral programs in psychology require students to have strong research profiles. SDSU psychology majors can accomplish this by completing Psychology 370, 410, and an advanced laboratory (Psychology 412-418). In addition, students should become involved as early as possible in faculty-sponsored research.

Psychology Minor

The minor in psychology consists of 18-21 units selected from one of the following areas:

- Industrial/Organizational: Psychology 101 and 270 or equivalent; 12 units of upper division psychology to include Psychology 320, 321, 327, and 370. Students with credit in Public Administration may not enroll in Psychology 320, but may select another upper division psychology class. (18 units)
- Personality and Social: Psychology 101, 230 and 211 or 260; 12 units of upper division psychology courses of which nine must be selected from Psychology 331 or 332 or 333, 340, 350 and 351. (21 units)

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Courses (PSY)

Note: Many psychology courses have enforced prerequisites, meaning the student must provide proof of having completed the prerequisite to the instructor in order to remain enrolled. Students who have not completed an enforced prerequisite and who fail to drop the class officially will be assigned the grade of “U,” which is equivalent to an “F.” Before enrolling in psychology courses, students should consult the catalog to determine that they have completed any enforced prerequisites.

LOWER DIVISION COURSES

101. Introductory Psychology (3) I, II
Facts, principles, and concepts which are basic to understanding human behavior.

211. Learning (3) I, II
Prerequisite: Psychology 101.
Basic principles and research in animal and human learning.

230. Developmental Psychology (3) I, II
Prerequisite: Psychology 101
Proof of completion of prerequisite required: Copy of transcript.
Psychological development of normal individual from conception through childhood, adolescence, and maturity. Emphasis on interdependence of various periods of the individual’s life.

250. Faculty Student Mentoring Program (1) Cr/NC
Provides upper class mentors for freshman and community college transfer students. Mentors assist students in locating campus resources, linking them with departmental advisers, identifying tutors in science courses and encouraging students to participate in workshops.

260. Introduction to Physiological Psychology (3) I, II
Prerequisites: Psychology 101 and Biology 100
Proof of completion of prerequisites required: Copy of transcript.
Elementary physiology of the nervous system. Physiological mechanisms underlying the psychological phenomena of sensation, perception, emotion, arousal, motivation, learning and memory, and cortical specialization.

349
270. Statistical Methods in Psychology (3) I, II
Prerequisites: Psychology 101; concurrent registration in Psychology 271; satisfaction of the Entry-Level Mathematics requirement; and qualification on the Mathematics Department Placement Examination, Part IA. Proof of completion of prerequisite required: Copy of ELM score or verification of exemption, and verification of registration in Psychology 271.
Quantitative methods in psychology. Measures of central tendency and variability, graphic methods and percentiles, linear correlation and regression, applications of the normal probability curve, and an introduction to statistical inference including analysis of variance and chi-square. Students with credit or concurrent registration in the following lower division statistics courses will be awarded a total of four units for the two (or more) courses: Psychology 270; Biology 215; Civil Engineering 160; Economics 201; Political Science 201; Sociology 201; Statistics 119 and 250.

271. Data Analysis in Psychology (1) I, II
Two hours of activity in computer laboratory.
Prerequisite: Satisfaction of the Entry-Level Mathematics requirement and credit or concurrent registration in Psychology 270. Proof of completion of prerequisite required: Verification of registration in Psychology 270 or copy of transcript.
Statistical and graphic analysis and interpretation of psychological data using computer technology. Activities involve statistical software such as SPSS for MacIntosh (Windows) as well as standard spreadsheets.

UPPER DIVISION COURSES (Intended for Undergraduates)

301. Introduction to Research Methods in Psychology (4) I, II
Three lectures and two hours of activity.
Prerequisites: Psychology 101, 270, and 271. Proof of completion of prerequisite required: Copy of transcript. Open only to psychology majors.
Methods used to answer questions in psychology; including case study, observation, survey, experimental, and field study procedures. Class projects using these methods, interpreting results and report writing; critically evaluating research findings.

316. Behavior Modification (3)
Prerequisite: Psychology 101. Recommended: Psychology 211.
Contingencies of reinforcement, stimulus control, response shaping, aversive control, and other basic principles of operant behavior applied to understanding and modification of human behavior.

320. Personnel and Industrial Psychology (3) I, II
Prerequisites: Psychology 101, and 270 or statistics in another field. Proof of completion of prerequisites required: Copy of transcript.
Psychological principles applied to industrial problems of selection, placement and training.

321. Organizational Psychology (3) I, II
Prerequisite: Psychology 101.
Human behavior in the context of organizational life. Factors related to effectiveness of individuals and groups within organizations, including organization design, leadership and control, motivation, cooperation and conflict. Not open to students with credit in Public Administration 340.

326. Principles of Personnel Interviewing (3)
Prerequisite: Psychology 101. Open only to Psychology majors and minors.
Psychological factors in interviewing; interviewing techniques. Supervised practice in interviewing for purposes of personnel selection, appraisal and development.

327. Psychology of Leadership Behavior (3)
Prerequisite: Psychology 320 or 321.
Theory, methods, and research in leadership behavior. Emphasis on practical applications in the workplace.

331. Psychology of Infant and Child Development (3) I, II
Prerequisite: Psychology 101 and 230. Proof of completion of prerequisite required for Psychology 230: Copy of transcript.
Psychological development of normal child from infancy through childhood focusing on physical, social, cognitive, and linguistic aspects of development. Not open to students with credit in Psychology 432 covering this topic.

332. Psychology of Adolescent and Adult Development (3) I, II
Prerequisites: Psychology 101 and 230. Proof of completion of prerequisite required for Psychology 230: Copy of transcript.
Psychological development of normal individual from adolescence through early adulthood focusing on physical, social, and cognitive aspects of development.

333. Developmental Psychopathology (3)
Prerequisites: Psychology 101 and 230. Proof of completion of prerequisite required for Psychology 230: Copy of transcript.
Cognitive, affective, and social aspects of abnormal development from childhood through adolescence. Consideration, within a development framework, of etiological theories and factors, problem expression and treatment issues. Not open to students with credit in Psychology 453 covering this topic.

340. Social Psychology (3) I, II
Prerequisites: Psychology 101; completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required.
The major problems and findings concerning group behavior and group membership, the socialization of the individual, and processes of social interaction.

343. Intimate Relationships (1)
Prerequisite: Psychology 101.
Theoretical and empirical research on development, maintenance, and termination of intimate relationships such as friendship and love.

350. Abnormal Psychology (3) I, II, S
Prerequisites: Psychology 101; completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required.
Causes and treatment of abnormal behavior with emphasis on major behavior disorders.

351. Psychology of Personality (3) I, II, S
Prerequisites: Psychology 101; completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required.
Major theoretical approaches to individual differences and the study of the person. Techniques of personality assessment. Selected research findings.

355. Psychology of Human Sexual Behavior (3)
Prerequisite: Psychology 101.
Evaluation of behavioral and physiological data of normal, aberrant, and dysfunctional human sexual behavior, including description of available treatment methods.

360. Behavioral Neuroscience (3)
Prerequisites: Psychology 101 and 260. Proof of completion of prerequisites required: Copy of transcript.
Biological underpinnings of behavior: genetics, hormones, transmitters, plasticity/regeneration, development, and metabolism/nutrition. Analysis of their role in normal behavior, psychopathology, neurological disorders, and treatment of behavioral disturbances.

361. Neuropsychology (3)
Prerequisites: Psychology 101 and 260. Proof of completion of prerequisites required: Copy of transcript.
Characterization of human brain-behavior relationships derived from neuropsychometric studies of healthy, neuropsychiatric and brain damaged populations. Focus on functional neuroanatomy, abnormal brain development and processes such as cognition, memory, language, and visual-spatial function.
365. Drugs and Behavior (3)
Prerequisite: Psychology 260.
Fundamentals of regulation, administration, tolerance, dependence, and physiological activity of drugs. Effects of stimulants, depressants, opiates, psychedelics, and psychotherapeutic drugs on the nervous system and on cognitive, personality, and behavioral functioning.

370. Psychological Testing and Measurement (3) I, II
Prerequisite: Grade of B or better in Psychology 270 or equivalent statistics course. Proof of completion of prerequisite required: Copy of transcript.
Measurement theory and the basic principles of testing. Selection, construction and critical evaluation of group tests of intelligence, personality, aptitude, interest and achievement.

380. Cognitive Psychology (3)
Prerequisite: Psychology 101. Recommended: Psychology 211.
Theory and research on attention, learning, memory, thinking, understanding, and language.

388. Sensation and Perception (3)
Prerequisites: Psychology 101 and 260.
Theory and research in sensory and perceptual processes.

407. Health Psychology (3) I, II
Prerequisites: Psychology 211 and 270. Proof of completion of prerequisites required: Copy of transcript.
Behavioral components of major illnesses and causes of death and disability. Primary prevention of health problems through behavior change and psychological features of the health care system.

410. Laboratory in Experimental Psychology (5) I, II
Two lectures and six hours of activity.
Prerequisites: Psychology 211, a grade of B or better in Psychology 270 or equivalent statistics course, and Psychology 271. Proof of completion of prerequisites required: Copy of transcript.
Experimental literature, assigned and original laboratory projects as they are applied to all areas of psychology.

412. Advanced Laboratory in Social Psychology (5)
Two lectures and six hours of activity.
Prerequisite: Psychology 410. Proof of completion of prerequisite required: Copy of transcript.
Experimental and theoretical literature, assigned and original laboratory projects in field of social psychology.

415. Advanced Laboratory in Personality and Clinical Psychology (5)
Two lectures and six hours of activity.
Prerequisite: Psychology 410. Recommended: Psychology 350 or 351. Proof of completion of prerequisite required: Copy of transcript.
Experimental and theoretical literature, assigned and original laboratory projects in field of personality and clinical psychology.

417. Advanced Laboratory in Primate Behavior (5)
Two lectures and six hours of activity.
Prerequisites: Psychology 101; 260 or three units of biology or three units of anthropology; and Psychology 270. Recommended: Psychology 410. Proof of completion of prerequisites required: Copy of transcript.
Experimental literature, assigned and original observational and experimental projects in field of primate learning and behavior.

418. Advanced Laboratory in Developmental Psychology (5)
Two lectures and six hours of activity.
Prerequisites: Psychology 230 and 410. Proof of completion of prerequisites required: Copy of transcript.
Methods, techniques and principles used in scientific study of child behavior.

419. Advanced Laboratory in Memory and Cognition (5)
Two lectures and six hours of activity.
Prerequisite: Psychology 410. Recommended: Psychology 380. Proof of completion of prerequisite required: Copy of transcript.
Experimental literature, assigned and original laboratory projects in human memory and cognition. Examination of information-processing capacities and processes in perception, learning, memory, and other cognitive activities.

432. Advanced Topics in Developmental Psychology (3)
Prerequisite: Psychology 230. Proof of completion of prerequisite required: Copy of transcript.
Selected areas in developmental psychology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

446. Advanced Topics in Social Psychology (3)
Prerequisite: Psychology 340. Proof of completion of prerequisite required: Copy of transcript.
Selected areas in social psychology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

452. Introduction to Counseling and Therapy (3)
Prerequisite: Psychology 350 or 351. Proof of completion of prerequisite required: Copy of transcript.
Theory, methods, and research in psychological approaches to personality and behavior change. Not open to students with credit in Counseling and School Psychology 660.

456. Psychology of Death and Bereavement (3)
Latest psychological research and clinical practice in the area of death and dying, geared to assisting the student in appropriate ways of aiding both the dying and the bereaved in coming to terms with death.

457. Psychological Factors in Alcoholism (3)
Prerequisites: Six units of psychology and upper division standing.
Theoretical and empirical approaches to alcoholism: causes and treatment.

460. Advanced Topics in Physiological Psychology (3)
Prerequisite: Psychology 260 or six units of biology.
Selected areas within physiological psychology. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units.

491. Academic or Psychological Counseling Experiences (3) Cr/NC
Prerequisites: Upper division psychology major with a 3.0 minimum grade point average and consent of the psychology undergraduate coordinator.
Individual supervision of academic or psychological counseling experiences, geared to the acquisition of counseling and communication skills. May be repeated with the approval of the psychology undergraduate coordinator. Maximum credit six units. No more than 12 units of courses numbered Psychology 491, 495, 497, 499 may be counted toward the major.

492. Responsible Conduct in Scientific Research (1) Cr/NC
Prerequisite: At least one introductory level science course.
Responsible conduct in scientific research. Topics include conflict of interest, plagiarism, reporting of scientific results, authorship, responsible use and care of animals, responsible use of human subjects.

495. Readings and Practice in Companionship Therapy (3) Cr/NC I, II
Prerequisites: Psychology 350 and three units from Psychology 230, 340, or 351. Proof of completion of prerequisites required: Copy of transcript.
Students are paired with troubled or potentially troubled clients from selected community agencies, supervised by both the instructor and the agency. Assigned readings, small group meetings, written
Psychology reports required. May be repeated with new client and agency. Maximum credit six units. No more than 12 units of courses numbered Psychology 491, 495, 497, 499 may be counted toward the major.

496. Selected Topics in Psychology (1-4)
Prerequisite: Psychology 101.
Intensive study in specific areas of psychology. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

497. Senior Project (1-3) I, II
Prerequisites: Twelve units of psychology and consent of instructor. Individual investigation and APA-style report on a research project. Maximum credit six units. No more than 12 units of courses numbered Psychology 491, 495, 497, 499 may be counted toward the major.

498. Undergraduate Honors Thesis (3-6)
Prerequisites: Psychology 410, 3.5 overall GPA, 3.75 GPA in major, and consent of honors coordinator. Directed research in psychology and completion of honors thesis. Required of students graduating with a Certificate of Recognition of Psychology Honors Thesis.

499. Special Study (1-3) Cr/NC I, II
Individual study, including library or laboratory research and a written report. Maximum credit six units. No more than 12 units of courses numbered Psychology 491, 495, 497, 499 may be counted toward the major.

UPPER DIVISION COURSES (Also Acceptable for Advanced Degrees)

501. History of Psychology (3)
Limited to graduate students or psychology majors with senior standing. The historical background of modern psychology.

502. Philosophical Issues in Psychology (3)
Prerequisite: Six units of psychology. Mind-brain relationship and other topics at the interface of psychology and philosophy. (Formerly numbered Psychology 401.)

551. Clinical Psychology: Theory and Practice (3)

552. Psychology of Obesity and Weight Management (3)
Prerequisite: Senior or graduate standing in psychology or related fields. Theory and current research issues on psychology of obesity, weight control, and eating disorders. Social, personality, cognitive, and physiological influences. Use of cognitive behavior modification for weight control.

587. Advanced Principles of Learning and Cognition (3)
Prerequisites: Psychology 211, 270, and 380. Empirical data, basic principles and theoretical positions of major theorists in learning and cognitive psychology.

596. Selected Topics in Psychology (1-3)
Prerequisites: Psychology 101 and consent of instructor. Intensive study in specific areas of psychology. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
A Member of the National Association of Schools of Public Affairs and Administration (NASPAA).

**Faculty**

Emeritus: Bigger, Bigger, Dobson, Henderson, Kitchen, Kochanski
Director: Rea
Professors: Calavita, Caves, Clapp, Gazell, Gilbreath, Gitchoff, Gupta, Herzog, Pugh, Rea, Ryan, Sparrow, Sutton
Associate Professors: Lee, Pearl, Sabath, Stock, Wilson
Assistant Professors: Coates, Mcllwain, Murphy

**Offered by the School of Public Administration and Urban Studies**

Master of Public Administration degree.

Major in public administration with the B.A. degree in liberal arts and sciences.

Concentration in city planning.

Concentration in criminal justice administration.

Master of Science degree in criminal justice and criminology. (Jointly with the College of Arts and Letters.)

Major in criminal justice administration with the B.S. degree in applied arts and sciences. (Refer to this section of the catalog on Criminal Justice Administration.)

Major in public administration with the B.A. degree in applied arts and sciences.

Emphasis in city planning.

Major in urban studies with the B.A. degree in liberal arts and sciences. See Interdisciplinary Programs.

Minor in public administration.

Certificate in public administration (available at Imperial Valley Campus only).

**The Major**

Today, more than ever before, the nation is in need of effective leadership and competence in the administration of public affairs. The growth of all levels of government and public service organizations and their increasing responsibilities in a complex society have led directly to the need for more capable public administrators. The primary purpose of the public administration major is to provide knowledge and skills for students who wish to prepare themselves for management careers in government, community agencies, private not-for-profit organizations, planning and consulting firms, and private sector organizations that work in partnership with the public sector.

The undergraduate public administration major is an interdisciplinary program. In addition to the courses taken within the department, provisions have been made for the student to select additional courses in areas as diverse as economics, sociology, social welfare, political science, and psychology. Required preparatory courses for the major include classes in accountancy, economics, information and decision systems, political science, and statistics.

Career opportunities in public administration can be found throughout the public and private sectors, and the future is represented by an expanding job market. The Public Administration Center within the School of Public Administration and Urban Studies provides a comprehensive file of current job openings locally, throughout California, and across the country.

Upon graduation, students have secured a wide variety of administrative positions within government, the private sector, and community agencies. For example, graduating students have recently been placed with city personnel and finance departments, county operating departments, special districts, hospitals, and consulting firms.

**Public Administration Major**

With the B.A. Degree in Applied Arts and Sciences (Major Code: 21021)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

**Preparation for the Major.** Accountancy 201, Information and Decision Systems 180, Economics 101 and 102, Political Science 102, Public Administration 200, and a three-unit course in statistics. (21 units)

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 36 upper division units to include Public Administration 301, 310 or 312 or 315, 330, 340, 450, 460, 497 or 498; and 15 units selected with the approval of an adviser from the public administration faculty. Within this program, students may specialize in such areas as personnel and labor relations, urban management, urban planning, public finance and budgeting, information systems, and environmental management. Interested students must seek guidance from a public administration program faculty adviser. A master plan of the courses taken to fulfill the major must be approved by a public administration program faculty adviser and filed with the Office of Admissions and Records one semester before graduation.

**Emphasis in City Planning** (Major Code: 21021)

**Preparation for the Major.** Accountancy 201, Economics 101 and 102, Information and Decision Systems 180, Political Science 102, Public Administration 200, and a three-unit course in statistics. (21 units)

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 36 upper division units to include Public Administration 301, 310, 330, 340, 450, 460, 497 or 498; and Public Administration 320, 420, 525, and two courses selected from Public Administration 301, 310, 330, 340, 450, 460, 497 or 498; and Political Science 102, Public Administration 200, and a three-unit course in statistics. (21 units)
Public Administration Minor

The minor in public administration consists of 24 units to include Political Science 102 and a course in statistics or Information and Decision Systems 180. Public Administration 301, 310 or 312 or 315, 330, 450, and two additional public administration courses with the consent of a public administration adviser. Prerequisites for the minor include Economics 101 and 102.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Public Administration Certificate
(Imperial Valley Campus)

To receive the certificate a candidate must complete an approved program of 18 units with a minimum grade point average of 2.5. Up to two public administration courses taken at another institution may be included among the required courses with approval of the program adviser.

Requirements include Public Administration 301, 330; three units selected from Public Administration 340, 341, or 450; and nine units in an area of specialization selected with the approval of the adviser.

Courses (PA)

LOWER DIVISION COURSE

200. The Urban Scene (3) I, II
Key issues in public administration, criminal justice administration, and city planning. Emphasis on government structure and public decision-making process, organizational behavior, effectiveness of criminal justice policies, zoning, and land use considerations.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Concepts and Issues in Public Administration (3) I, II
Theory and practice of governmental administration in differing environments, role of administrators in public policy, issues facing administrators, techniques of administration.

310. Management of Urban Governments (3) I, II
Problems of local units of government in the urban environment. Organization and function of local agencies. Emphasis on California.

312. Management of State Governments (3) I
Administrative and constitutional problems of state management in the American federal system. Emphasis on California.

315. Management of the Federal Government (3) II
Prerequisite: Public Administration 301. Problems in the administration of the federal government. Leadership, specialization, unity of command, and oversight.

320. Introduction to Urban Planning (3) I, II
An introduction to community planning; regional, county, and city. Consideration of the master plan including its purposes, contents, and method of adoption.

330. Public Personnel Administration (3) I, II
Analysis of personnel problems. Supervision and management of public employees and public organizations in an age of change.

340. Administrative Behavior (3) I, II
Social, psychological, and behavioral theories of organization; concepts of administrative leadership; organization and the individual; emphasis on governmental organizations. Not open to students with credit in Psychology 321.

341. Administrative Management (3) I, II
Areas and problems of administrative research. Management and operations in public organizations including forecasting, resource allocation, planning and administration of programs, preparation of administrative reports. Quantitative models of managerial decision making.

350. Contemporary Urban Issues (3)
Focus on urban areas and urbanism from a public policy perspective; course examines and critiques the physical, economic, social and political dimensions of contemporary American cities utilizing a multidisciplinary approach.

420. Methods of Analysis in City Planning (3) II
Prerequisites: Public Administration 320 and basic statistics course.
Methods of primary data collection and analysis of secondary data sources for problem solving in city planning, techniques associated with urban design and urban development.

440. Microcomputer Applications in Criminal Justice and Public Administration (3)
Two lectures and three hours of laboratory. Prerequisite: Limited to criminal justice administration and public administration majors.
Operation and use of microcomputer hardware and software in criminal justice. Laboratory instruction focuses on applicability of programs to criminal justice operations.

450. Fiscal and Budgetary Policy (3) I, II
Prerequisites: Public Administration 301, Economics 101 and 102. Policies of fiscal administration and budgeting; political implications of the governmental budget process; revenue, debt, and treasury management; the functions of accounting and financial reporting.

460. Administration and Public Policy Development (3) I, II
Process of formulating public policy with emphasis on the role of public agencies.

475A. The American City in the Cinema (3)
Two lectures and two hours of activity. Growth of American city and various aspects of urban life, such as immigration, industrialization, anti-urbanism, and the city of the future, as reflected in American films.

475B. The American City in the Cinema (1) Cr/NC
(Offered only in Extension)
Growing of American city and various aspects of urban life, such as immigration, industrialization, anti-urbanism, and the city of the future, as reflected in American films. May be repeated with new content. See Class Schedule for specific content. Maximum credit three units.

480. Leadership and the Public Sector (3)
Prerequisite: Public Administration 301.
Leaders as energizing forces for public administration. Analysis of leadership theories and case studies.

485. Planning and Public Policy in U.S.-Mexico Border Region (3)
Prerequisite: Public Administration 301.
City planning, regional, and public policy issues in the binational Mexico-U.S. border region. Policy analysis: macro/regional and micro/urban.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

497. Investigation and Report (3) I, II
Prerequisite: Consent of instructor.
Analysis of special topics. Admission by permission of instructor.
498. Internship in Public Administration (2-6) Cr/NC I, II
Prerequisites: Public Administration 301, 330, 340, 341, 450, and all lower division required courses; senior standing and a “B” (3.0) average in the major.
Students will be assigned to various government agencies and will work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences. Maximum credit six units.

499. Special Study (1-3) I, II
Prerequisite: Twelve upper division units in public administration. Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

510. Intergovernmental Relations in the United States (3) I
Prerequisite: Public Administration 310 or 312 or 315.
Constitution, political and administrative characteristics of American federalism, including regionalism, interstate compacts, and grants-in-aid.

512. The Metropolitan Area (3)
Prerequisite: Public Administration 310 or 312.
Problems of government and administration arising from population patterns and physical and social structures of metropolitan areas.

520. Decision Making in the Urban Community (3)
Prerequisite: Public Administration 310.
Processes of decision making in the management of urban communities.

525. The U.S. City Planning Process (3) I
Prerequisite: Public Administration 320 or graduate standing.
Description and critique of traditional city planning process; styles and roles of city planner; city planning values and ethics.

530. Negotiation and Bargaining in the Public Service (3)
Prerequisite: Public Administration 301.
Specific issues such as strategies, the effects of threat, the physical setting, use of a third-party observer and theories of advocacy. Emphasis on analyzing simulations of the bargaining process and developing effective negotiation skills.

531. Governmental Employer-Employee Relations (3)
Prerequisite: Public Administration 330.
Historical development, legal basis, and organizational implications of governmental employer-employee relations; emphasis on California local government.

540. Public Administrative Systems Analysis (3)
Prerequisites: Public Administration 301 and a statistics course.
Systems and organization analysis; work standards and units; procedures analysis; administrative planning.

550. Budgetary and Financial Administration in the Public Sector (3) I
Prerequisites: Public Administration 301 and 450.
Management trends in public sector financial administration; budgetary procedures and techniques; control and monitoring systems. Cash management, capital projects management, debt administration, disbursement, funds management, and auditing.

570. Administrative Law (3)
Prerequisite: Public Administration 301.
The law of public office and public officers, powers of administrative authorities, scope and limits of administrative powers, remedies against administrative action.

580. Comparative Public Administration (3)
Prerequisite: Public Administration 301.
Administrative organization and process of selected foreign and American governments. Analysis of the cultural basis of administrative systems.

GRADUATE COURSES IN
PUBLIC ADMINISTRATION AND URBAN STUDIES
and CITY PLANNING
Refer to Bulletin of the Graduate Division.
Accredited by the National Recreation and Parks Association.

(Note: Students graduating from this program are immediately eligible to sit for the examination to become a Certified Leisure Professional and thereby acquire this valuable credential for professional advancement.)

Faculty
Emeritus: Duncan, Geba, Hanson, Hutchinson, Peterson, Rankin
Chair: Lamke
Professors: Beck, L., Dixon, Gattas, Lamke
Lecturers: Beck, A., Scott

Offered by the Department of Recreation, Parks and Tourism

Major in recreation administration with the B.S. degree in applied arts and sciences.
- Emphasis in outdoor recreation.
- Emphasis in recreation systems management.
- Emphasis in recreation therapy.
Minor in recreation.

The Major

A commitment to working with people to enhance the quality of their lives is important to a study of recreation.

Increasingly diverse opportunities are available in the park, recreation and tourism profession. The major offers a sufficiently wide range of courses for students who may wish to enter diverse recreation, park, or human services fields.

Students in this major elect one of three areas of emphasis. The outdoor recreation emphasis stresses conservation, natural science, ecology, and recreation/park administration. Society’s efforts to sustain a balance between the environment and recreational use are studied.

Recreation systems management stresses the effective organization, administration and supervision of recreation, park, and tourism agencies, both public and private.

Recreation therapy prepares students to work in clinical and community settings with the disabled. It stresses elements of both psychology and social science, as well as recreation leadership skills.

Students learn about assessment, intervention, and evaluation for planning recreation programs.

Outdoor recreation graduates serve as naturalists, outdoor education specialists, outdoor recreation planners, park interpreters, and park rangers.

Recreation systems management graduates find employment as administrators and supervisors with public, private or commercial park and recreation agencies. They assume professional positions with youth and family serving agencies, private clubs and condominium associations, a variety of leisure related businesses including tourism agencies, and municipal, county, and state organizations.

Recreation therapy graduates may become therapeutic recreation specialists, registered and certified by state and national certification plans. They are employed typically by hospitals, convalescent and rehabilitation centers, and retirement communities.

Recreation Administration Major

With the B.S. Degree in Applied Arts and Sciences
(Major Code: 21031)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

The major in recreation administration must be planned with an emphasis in one of the following three areas: (1) Outdoor Recreation, (2) Recreation Systems Management, or (3) Recreation Therapy. A minor is not required with this major.

Emphasis in Outdoor Recreation

Preparation for the Major. Recreation 101, 107, 284; Biology 100, 100L; Geography 101; Geological Sciences 100, 101; Psychology 101; Sociology 101, (27 units)

Upper Division Writing Requirement. Passing the University Writing Examination or Recreation 396W with a grade of C (2.0) or better.

Major. A minimum of 54 upper division units to include Recreation 304, 305, 351, 464, 485, 487, 489, 498 (12 units), 560, 565, 575; Geography 370, and nine units selected from Biology 327; Geography 372, 575; Geological Sciences 301; History 441; Political Science 334; Psychology 340; Recreation 450, 496.

Emphasis in Recreation Systems Management

Preparation for the Major. Recreation 101, 107, 284; Information and Decision Systems 180; Psychology 101; Sociology 101; and six units selected from Accountancy 201; Economics 101; Finance 140; Information and Decision Systems 290, (25 units)

Upper Division Writing Requirement. Passing the University Writing Examination or Recreation 396W with a grade of C (2.0) or better.

Major. A minimum of 51 upper division units to include Recreation 304, 305, 351, 464, 498 (12 units), 560, 565, 575; nine units selected from Recreation 340, 450, 460, 470, 475, 477, 485, 498, 580; and nine units selected from Counseling and School Psychology 400; Marketing 370, 371, 373; Psychology 321, 340; Public Administration 301, 340, 350, 460; Sociology 355, 444.

Emphasis in Recreation Therapy

Preparation for the Major. Recreation 101, 107, 284; Information and Decision Systems 290; Psychology 101; Social Work 110; Sociology 101, (26 units)

Upper Division Writing Requirement. Passing the University Writing Examination or Recreation 396W with a grade of C (2.0) or better.

Major. A minimum of 54 upper division units to include Recreation 304, 305, 351, 361, 371, 464, 498 (12 unit section), 560, 565, 575; Biology 336; Psychology 350; and nine units selected from Counseling and School Psychology 400; Exercise and Nutritional Sciences 301; Psychology 333, 351, 452; Sociology 436, 441, 443, 444, 528, 543. Note: To satisfy professional certification programs, completion of nine units should include one upper division course specifically oriented to “human growth and development” and one upper division course in a “helping area” outside of psychology, e.g. counseling, sociology, special education, or human services.
Recreation Minor

The minor in recreation consists of a minimum of 22 units to include Recreation 101, 107, 304, 305, and nine additional upper division units selected from Recreation 340, 351, 361, 371, 464, 475, 485, 496, 575, 580. Prerequisite to the minor includes Biology 100.

Courses (REC)

LOWER DIVISION COURSES

101. Introduction to Recreation Systems (3) I, II (CAN REC 2)
Basic role of recreation and park systems in today’s society. Scope of recreation services, their history, philosophy, facilities, programs, personnel and evaluation.

107. Recreation Planning and Leadership (4) I, II
Three lectures and three hours of laboratory. Theories, principles and techniques of group leadership, group dynamics, communication, problem solving, creativity, program planning, and publicity as they relate to selected recreation systems.

284. Supervised Field Work (3) Cr/NC I, II, S
Prerequisites: Consent of instructor or department chair, credit or concurrent registration in Recreation 107, and 125 hours experience in recreation leadership. Observation and participation in community recreation leadership. Practical experience in a variety of recreational settings. Eight hours per week at an agency.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES (Intended for Undergraduates)

304. Challenges of Leisure (3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences.
Study of leisure and its impact on contemporary life; issues affecting recreation in today’s urbanized society. (Formerly numbered Recreation 204.)

305. Wilderness and the Leisure Experience (3) I, II
Prerequisites: Biology 100; and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences. Use and abuse of natural resources for recreational purposes. Effects of increased leisure on wilderness areas. Field experiences required. (Formerly numbered Recreation 205.)

340. Conduct of Recreational Sports (3) I, II
Three lectures plus outside practical experience in the conduct of recreational sports programs. Organization of competition, community sports programs, administration of intramural athletics, and techniques of officiating.

351. Recreation for Special Populations (3) I, II
Analysis of the sociopsychological aspects of special populations and their implications for leisure pursuits. Field trips may be included.

361. Scientific Foundations of Recreation Therapy (3)
Prerequisite: Recreation 351 required for recreation majors; open to others with consent of instructor.
Theoretical principles of therapy and prevention. Survey of medical and psychiatric pathology and terminology.

371. Professional Foundations of Recreation Therapy (3) I, II
Prerequisite: Recreation 351 required for recreation majors; open to others with consent of instructor.
Analysis of present-day policies, programs, implementation and future aspects of professional principles of recreation therapy.

396W. Writing in Recreation Settings (3) I, II
Prerequisites: Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.
Theory and practice of writing in the field of recreation and parks with application to various settings.

450. Camp and Aquatic Administration (3)
Prerequisite: Recreation 101.
Management of resident, day and travel camps and swimming pools, beaches, lakes and marinas; legal requirements, health and safety standards, finances, programming, maintenance, and planning.

460. Industrial, Corporate, and Military Recreation (3) II
Prerequisites recommended: Recreation 101 and 107. Industrial, corporate, and military recreation services with emphasis on organizational patterns including underlying and theoretical concepts, finances, types of programs, specialized administrative skills, and current trends and issues.

464. Supervision of Recreation and Park Agencies (3) I, II
Prerequisite: Recreation 107.
Interagency relations, personnel policies and procedures, volunteer coordination, supervisory techniques, community organization, public relations in public, private and commercial settings.

470. Recreational Travel and Tourism Management (3) I
Prerequisites recommended: Recreation 101 and 304. Tourism management, economics, marketing and development. Recognizing indicators of tourism’s recreational, social and cultural impact. Organization of tourism industry and its components.

475. Commercial Recreation and Attractions Management (3) I
Analysis of commercial recreation field, including design, development, programming and marketing aspects of various commercial recreation enterprises.

477. Tourism Planning (3)
Prerequisite: Recreation 101.
Nature and scope of tourism planning including planning theory and approaches, principles, and processes. Case studies utilized for analysis of impacts of tourism, amenities, attractions, services, facilities, transportation, and information-direction.

484. Directed Leadership (3) Cr/NC I, II, S
One lecture and eight hours of supervised activity.
Prerequisite: Recreation 284. Supervised leadership experience in public and private recreation agencies. Maximum credit six units.

485. Outdoor Recreation Planning and Policy (3) II
Nature and scope of recreation in nonurban areas. Public demand for recreation and its impact on natural resources. Management, planning, research and operation of regional and national park and recreation areas.

487. Outdoor Education and Environmental Interpretation (3)
Prerequisite: Recreation 101.
Philosophy, theory, methods, and scope of outdoor education and environmental interpretation.
489. Outdoor Leadership and Adventure Programming  (3)
Prerequisite: Recreation 305.
Theoretical principles and experience in leadership, judgment, and decision making in outdoor adventure programming.

496. Experimental Topics  (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

498. Internship in Recreation Systems  (6 or 12) Cr/NC I, II, S
Twenty off-campus hours required per week for 6-unit program, or 40 off-campus hours required per week for 12-unit programs.
Prerequisites: Consent of instructor or department chair, completion of all required lower division recreation courses, and completion of both Standard or Multimedia First Aid certificate and CPR certificate by end of semester.
Students will be assigned to various governmental, commercial, private or medical agencies conducting recreation programs. Variety of experiences in supervision and administration. Maximum credit 12 units.

499. Special Study  (1-3) I, II
Prerequisite: Consent of special study adviser.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

560. Legal and Fiscal Aspects of Park and Recreation Management  (3)
Prerequisite: Recreation 464.
Legal obligations and basic principles of fiscal management pertinent to delivery of leisure services. Budgeting, record keeping, liability, open space acquisition and preservation, constitutional guarantees, administrative regulations, contracts, criminal law, and legal research.

565. Recreation Systems Administration and Research  (3)
Prerequisite: Recreation 464.
Organizational behavior, planning, policy development, and future trends of recreation systems. Methods of investigation, data analysis, and reporting in relation to research needs in recreation, parks, and tourism.

575. Designing Recreation and Park Areas and Facilities  (3) I, II
Prerequisite: Recreation 101.
Design principles and concepts applied to planning and development of park and recreation areas and facilities.

580. Leisure, Recreation Therapy, and the Aging Process  (3) II
Concepts of the relationship between leisure and gerontology are examined. Influence of leisure and recreation on work and life satisfaction of older adults in relationship to recreation therapy services.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Religious Studies

In the College of Arts and Letters

Faculty
Emeritus: Anderson, Downing, Friedman, Gefter, Jordan, Khalil, Sparks
Chair: Holler
Professor: Johnson
Associate Professor: Holler
Assistant Professors: Kohn, Moore
Lecturers: Boni, Mueller, Swayd, Thomas

Offered by the Department
Major in religious studies with the B.A. degree in liberal arts and sciences.
Minor in religious studies.

The Major
Religious studies seeks to explore the role of religion as an important part of human history. It is designed to improve understanding of religion, not to advocate religious belief or any particular religious tradition.

Religious studies students examine the major Eastern and Western religions, their founders and leaders, myths and rituals, theology, creeds and scriptures, and institutional forms, as well as the relationship between religion and literature, the arts, ethics, science, and psychology.

Career opportunities available to religious studies graduates include positions such as university, college, community college, or secondary school teacher (graduate study and/or teaching credential required); counselor and social worker (graduate study required); religious education director, rabbi, priest, or minister in a church or synagogue setting (graduate study required); religion reporter or editor for a newspaper or magazine; textbook editor. The religious studies program is also excellent background for graduate professional programs in such areas as law, business, and foreign service.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major. Students seeking a minor in religious studies under the Individualized Program area must confer with the department adviser in the first semester of their study.

Religious Studies Major
With the B.A. Degree in Liberal Arts and Sciences (Major Code: 15101)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." No more than 48 units in religious studies courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major. Religious Studies 101; Philosophy 101 or 102 or Religious Studies 102. (6 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Religious Studies 396W or, with approval of the department, Rhetoric and Writing Studies 305W with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in religious studies to include Religious Studies 300, either 301 or 305, and at least three units from each of the three areas listed below:

Western Religious Traditions: Religious Studies 318, 320, 325, 330, 331, 340, 390, 580*, 581*, 582*, 583*, 596*

Eastern Religious Traditions: Religious Studies 401, 403, 580*, 581*, 582*, 583*, 596*

* When deemed relevant by the department adviser. Maximum credit six units for any course with variable content.

Religious Studies Minor
The minor in religious studies consists of a minimum of 15 units to include at least three lower division units in religious studies, and 12 units from one of the three areas listed below:

Western Religions: Religious Studies 301, 305, 318, 320, 325, 330, 331, 340, 390, 580*, 581*, 582*, 583*, 596*

Eastern Religious Traditions: Religious Studies 401, 403, 580*, 581*, 582*, 583*, 596*

Or AN INDIVIDUALIZED PROGRAM of 12 upper division units approved in advance by the department adviser. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

* When deemed relevant by the department adviser. Maximum credit six units for any course with variable content.

Courses (REL S)

LOWER DIVISION COURSES

101. World Religions (3) I, II
Major figures, attitudes, and teachings of world religions.

102. Introduction to Religion (3) I, II
Nature, meaning, and presuppositions of religious experience.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

300. Ways of Understanding Religion (3) I
Prerequisite: Three units of religious studies. Major approaches to study of religious phenomena and central issues in methodology.
301. Hebrew Scriptures (3) I, II
Prerequisites: Three units of religious studies; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Problems of composition and historical significance in the context of religious meanings of the scriptures known to Jews as the Tanakh (the Pentateuch, the Prophets and the Writings) and to Christians as the Old Testament.

305. The New Testament (3) I, II
Prerequisite: Three units of religious studies. Recommended: Religious Studies 301.
Problems of composition and historical significance in the context of religious meanings.

318. Modern Religious Thought in the West (3)
Prerequisite: Three units of religious studies.
Selected issues in religious thought in Europe and America during the nineteenth and twentieth centuries.

320. Judaism (3)
Prerequisites: Three units of religious studies; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Major doctrines, practices, and developments from rabbinitic times to present.

325. Christianity (3)
Prerequisites: Three units of religious studies; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Major doctrines, practices and developments from time of Jesus to present.

330. Topics in Judaism (1-3)
Prerequisite: Three units of religious studies.
Selected topics such as early Hebrew religion, the Talmudic period, medieval religious thought, mysticism, modern Judaism from the emancipation to the Holocaust, contemporary thought. May be repeated with different content. See Class Schedule for specific content. Maximum credit six units.

331. Topics in Islam (3)
Prerequisite: Three units of religious studies.
Selected topics such as the Qur’an and its interpretation (tafsir), Prophet Muhammad and his traditions (hadith), and Islamic mysticism (Sufism). May be repeated with new content. Maximum credit six units.

340. Islam (3)
Prerequisites: Three units of religious studies; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Major doctrines, practices and developments from the time of Muhammad to the present.

350. Dynamics of Religious Experience (3)
Prerequisites: Three units of religious studies; and completion of the General Education requirement in Foundations II.C., Humanities.
Chief data and major approaches in the study of individuals’ religious behavior and experiences. Special attention to relevant problems in world religions and philosophical views of man.

353. Religion and Psychology (3)
Prerequisites: Three units of religious studies; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Theological and religious interpretations of psychological dimension of human existence. Critique of psychological inquiry into traditional and contemporary forms of religious life. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units of which three units may be applicable to General Education.

354. Religion and Society (3)
Prerequisites: Three units of religious studies; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Theological and religious interpretations of the social dimension of human existence. Critique of social science inquiry into traditional and contemporary forms of religious life.

355. Love and Marriage in Western Religions (3)
Prerequisite: Three units in religious studies.
Judeo-Christian practice and meaning of love, romance, and marriage based on historical and literary sources. Biblical period to present with emphasis on contemporary values and issues.

360. Religion, Literature, and the Arts (3)
Prerequisite: Three units of religious studies.
The relations between religion, literature, and the arts in major cultural traditions.

363. Religion and the Sciences (3)
Prerequisites: Three units of religious studies; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Relation of the natural sciences to religious questions of nature, humanity, and destiny.

365. Religion and Ethics (3)
Prerequisite: Three units of religious studies.
Values, morality, and responsibility, from religious perspectives. Application to contemporary moral issues.

370. Women and Religion (3)
Prerequisite: Three units of religious studies.
Place and role of women in major religious traditions; historic contributions of women to religion; female deities; feminist responses to male-centered traditions.

380. Shamanism (3)
Prerequisite: Three units of religious studies.
Shamanism from a global perspective, from primal to modern times, its persistence and revitalization in post-industrial religion; its religious forms through comparative study of Amazonian, African, Native American, and Southeast Asian forms.

385. Native American Religions (3)
Prerequisite: Three units of religious studies.
Native American religions with focus on sacred culture, world view, ritual life, community and myth as a basis for interpreting religious experience; encounter of Indian traditions with modernity and revitalization responses.

390. Religion in America (3)
Prerequisite: Three units of religious studies.
Selected topics in religion in America, such as church-state relations, transcendentalism, Black Christianity, pentecostalism, theosophy, oriental movements in America and neo-paganism. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

396W. Writing/Research Methods (1) Cr/NC
Prerequisites: Six upper division units in religious studies. Must be taken concurrently with an upper division course in religious studies.
Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.
Research and writing in field of religious studies.

401. Religions of India (3)
Prerequisites: Three units of religious studies; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Phenomenological studies in the major religious traditions of India, especially Hinduism and Buddhism.
403. Religions of the Far East (3)
Prerequisites: Three units of religious studies; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Phenomenological studies in the major religious traditions of east Asia, especially China and Japan.

496. Experimental Topics (1-4)
Prerequisite: Three units of religious studies.
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

499. Special Study (1-3) I, II
Prerequisite: Twelve upper division units in religious studies.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

580. A Major Figure (3) I, II
Prerequisite: Three units of religious studies.
Life, works and significance of one major figure in a religious tradition. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

581. Major Theme (3) I, II
Prerequisites: Three units of religious studies and upper division or graduate standing.
Advanced systematic study of a theme or motif selected from major religious traditions. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

582. Major Text (1-3)
Prerequisites: Three units of religious studies and upper division or graduate standing.
Advanced systematic study of a selected scripture or classic text(s) selected from one of the major religious traditions. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

583. Major Tradition (3)
Prerequisites: Three units of religious studies and upper division or graduate standing.
Advanced systematic study of the doctrines, practices, and development of a major religious tradition. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

596. Advanced Topics in Religious Studies (1-3)
Prerequisite: Consent of instructor.
Advanced selected topics in religious studies. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Rhetoric and Writing Studies

In the College of Arts and Letters

Faculty
Emerita: Denman
Chair: McClish
Professors: Johns, McClush, Sweedler-Brown
Associate Professors: Boyd, Ornatsowski, Poole, Quandahl, Robinett
Assistant Professors: Bekins, Hindman, Werry
Lecturers: Boeck, Borgen, Brown, Brush, Bryson, Bucky, Cavender, Costello, Emery, Fielden, Finn, Fish, Fox, Hoffman, Kilcrease, Kline, Leftwich-Needham, Mack, Maggio, Manley, Miller, Moorin, Reed, Renner, Sherrman, Sigmon, Slagnano, Taylor, Thompson, Underwood, Weatherford, Williams, J., Williams, T.

Offered by the Department
Master of Arts degree in rhetoric and writing studies.
Certificate in technical and scientific writing.

General Information
The Department of Rhetoric and Writing Studies offers writing programs at all levels for university students. The department works cooperatively with other academic departments and campus groups to plan and develop a comprehensive writing program integrating writing and reading with critical thinking throughout the curriculum.

Developmental Writing Program: Developmental writing courses in this program prepare students to satisfy SDSU's competency requirements in written English. For more information, refer to "Writing Requirements" in the "Graduation Requirements" section of this catalog.

General Education Program: Completion of courses in this program fulfills the "Written Communication" requirements for the Communication and Critical Thinking portion of the SDSU General Education program.

Upper Division Courses: The department offers expository writing ("W") courses which satisfy the University's Upper Division Writing Requirement. The department also offers a required course in the teaching of composition for students in the Single Subject Teaching Credential in English degree program.

Technical and Scientific Writing Certificate
The certificate program in Technical and Scientific Writing prepares students for careers in technical and scientific writing (including medical writing). The program is designed for people who are working on degrees in nontechnical, technical, and scientific fields. It also provides a career-enhancement or career change opportunity for people seeking employment or advancement in different areas of professional writing and who are not enrolled in a degree program. The program consists of 21 units of required and recommended courses that must be approved by the program director prior to enrollment. Students should apply to the program director. To apply, candidates should have good writing skills and basic computer literacy and should present a resume, transcripts of any college-level coursework or degrees, and a writing sample. Students may be required to take additional coursework to improve their writing proficiency.

Required Courses: (9 units)
Rhetoric and Writing Studies 503W, Technical Writing
Rhetoric and Writing Studies 504, Problems in Technical Communication
Rhetoric and Writing Studies 505, Writing Project Management

Recommended Electives: (12 units)
Rhetoric and Writing Studies 500W, Advanced Composition
Rhetoric and Writing Studies 501, Editing
Rhetoric and Writing Studies 502, Tools for Technical Communicators
Rhetoric and Writing Studies 506, Writing Internship
Rhetoric and Writing Studies 507, Technical Communications in Nonprofit Organizations

Other electives may be selected with the approval of the program director. A maximum of six units of transfer credit may be applied to the program. Students should consult with the program director before selecting any courses so that an individualized program of study can be developed.

Courses (RWS)

LOWER DIVISION COURSES
(Non-Baccalaureate Credit)

Rhetoric and writing studies courses numbered below 100 may not be used to satisfy graduation requirements.

92A. Developmental Writing: Fundamentals of Writing (3) Cr/NC/SP I, II, S
Academic prose, emphasizing the purpose, structure, and style of academic essays. Designed to improve student skills in planning, drafting, revising, and editing essays. Open to students who have not satisfied the SDSU lower division writing competency requirement. Students attaining a score of 8 or better on the final examination earn a grade of “CR” and satisfy the SDSU lower division writing competency requirement. Students attaining a score of 7 or less with completion of all course requirements earn a grade of “SP.” Students receiving an “SP” grade should enroll in Rhetoric and Writing Studies 92B. Not open to students with credit in Rhetoric and Writing Studies 97A.

92B. Developmental Writing: Intermediate (3) Cr/NC I, II
Prerequisite: Open only to students who have earned “SP” (satisfactory progress) in Rhetoric and Writing Studies 92A or 99A but have not satisfied the Writing Competency requirement.
Evaluation based on student writing portfolio. Credit in Rhetoric and Writing Studies 92B satisfies the SDSU lower division writing competency requirement.

94. Developmental Writing for International or Bilingual Students (3) Cr/NC/SP I, II
Intermediate written English with emphasis on problems of non-native speakers: discussion of sentence, paragraph, and essay writing skills. Open only to ESL students who have not satisfied the SDSU Writing Competency requirement. Students attaining a score of 8 or better on the final examination earn a grade of “CR” and satisfy the SDSU lower division writing competency requirement. Students attaining a score of 7 or less with completion of all course requirements earn a grade of “SP.” Students receiving an “SP” should enroll in Rhetoric and Writing Studies 95.

* Rhetoric and Writing Studies 92B is not offered at the Imperial Valley Campus. Students who do not attain a Cr in Rhetoric and Writing Studies 92A at the Imperial Valley Campus should repeat Rhetoric and Writing Studies 92A.
95. Developmental Writing for International or Bilingual Students (3) Cr/NC/SP I, II
Advanced written English with emphasis on problems of nonnative speakers; discussion of audience, purpose, and style; advanced grammar and essay writing. For students who have attained Satisfactory Progress (SP) in Rhetoric and Writing Studies 94, but have not satisfied the SDSU lower division writing competency requirement. Students attaining a score of 8 or better on the final examination earn a grade of "Cr" and satisfy the SDSU lower division writing competency requirement.

97A. Developmental Reading and Writing (Integrated Curriculum) (4) Cr/NC/SP I
Three lectures and two hours of activity.
Students enrolled in Rhetoric and Writing Studies 97A must also be enrolled in the Intensive Learning Experience, which integrates instruction in the writing process and academic prose with the content of a General Education course. Rhetoric and Writing Studies 97A is designed to provide students with writing and critical thinking skills essential to academic achievement. Emphasizes individualized instruction to meet the unique needs of each student.

The final examination in Rhetoric and Writing Studies 97A is the Developmental Writing Proficiency Examination. Students attaining a score of 8 or better on the final examination earn a grade of "Cr" and satisfy the SDSU lower division writing competency requirement. Students attaining a score of 7 or less with completion of all course requirements earn a grade of "SP." Students receiving an "SP" grade should enroll in Rhetoric and Writing Studies 97A. Not open to students with credit in Rhetoric and Writing Studies 92A.

97B. Developmental Reading and Writing (Integrated Curriculum) (4) Cr/NC/SP II
Three lectures and two hours of activity.
Prerequisites: Open only to students who earned "SP" (satisfactory progress) in Rhetoric and Writing Studies 97A but have not satisfied the SDSU lower division writing competency requirement.

Individualized instruction in intermediate writing skills. Credit in Rhetoric and Writing Studies 97B satisfies the SDSU writing competency requirement. Not open to students with credit in Rhetoric and Writing Studies 92B.

98. Mini-Course: Selected Topics (1) Cr/NC
Assorted short courses which will meet three hours a week for five weeks and will cover a variety of academic skills through intensive lectures and laboratory work. Evaluation based on student writing portfolio.
Suggested topics: Research paper, communication skills, research tools, vocabulary development, learning skills, spelling, grammar, and speed reading. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

A. Learning Skills
B. Communication Skills

LOWER DIVISION COURSES
(Acceptable for Baccalaureate Credit)

100. Writing and Reading as Critical Inquiry (3) I, II (CAN ENGL 2)
Prerequisites: Open only to students who are not majoring in English or Comparative Literature who have not fulfilled the Upper Division Writing competency requirement by examination.

International students are advised to take Linguistics 101, Africana Studies 120 or Chicana and Chicano Studies 111B or Linguistics 100.

101. Writing and Reading as Critical Inquiry (3)
Prerequisites: A score of 146 or better on EPT; a score of 8 or better on EPT essay.
Follows the prescribed Rhetoric and Writing Studies 100 curriculum. In addition, students are required to attend eight individual tutoring sessions throughout the semester. Not open to students with credit in a higher numbered composition course or Rhetoric and Writing Studies 100, Africana Studies 120 or Chicana and Chicano Studies 111B or Linguistics 100.

200. Writing from Sources (3) I, II
International students are advised to take Linguistics 200.
Prerequisites: Satisfaction of the English Placement Test and Writing Competency requirements and Rhetoric and Writing Studies 100 or Africana Studies 120 or Chicana and Chicano Studies 111B or Linguistics 100. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.

Further practice in academic and professional writing, reading, and critical thinking. Emphasis on using multiple sources, finding relationships among them and generating analytical responses to them through writing. Continued attention to decisions about structure, cohesion, and rhetorical conventions. Not open to students with credit in Africana Studies 200, Chicana and Chicano Studies 200, or Linguistics 200. Completion of Rhetoric and Writing Studies 200 may require completion of the library workbook assignment.

253. Grammar and Usage for Writers (2)
Prerequisites: Satisfies University Upper Division Writing requirements.

UPPER DIVISION COURSES
(Intended for Undergraduates)

305W. Academic Writing (3)
Prerequisites: Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. It is strongly recommended that the course be taken at the beginning of the junior year, so that students have an opportunity to demonstrate their writing proficiency in upper division courses taken after they pass Rhetoric and Writing Studies 305W. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.

To develop proficiency in composing, under time constraints, substantial essays which analyze or explicate subjects previously investigated and discussed. Intended for students not majoring in English or Comparative Literature who have not fulfilled the Upper Division Writing requirement by examination.

496. Topics in Rhetoric and Writing Studies (1-3)
Selected topics. May be repeated once with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Directed Study (1-3) I, II
Prerequisites: Consent of instructor and approval of department chair.
Individual study. Maximum credit six units.
Rhetoric and Writing Studies

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

500W. Advanced Composition (3) I, II
Prerequisites: Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript. The theory and practice of expository writing, including the contributions of semantics, rhetoric, and logic.

501. Editing (3) I
Prerequisites: Rhetoric and Writing Studies 305W or 500W. Fundamentals of professional editing. Functions of an editor. Document development, style, and style guides. Editing tools and technologies. Preparing text for publication and production.

502. Tools for Technical Communicators (3) I, II
Prerequisite: Rhetoric and Writing Studies 503W. Fundamental software tools for technical communicators. Electronic document style and format. Preparing text electronically for publication and production. Developing on-line and Internet documentation. Rhetorical issues in electronic writing technologies.

503W. Technical Writing (3) I, II, S
Prerequisites: Rhetoric and Writing Studies 200. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript. Principles and practices of writing required in technical and scientific fields or professions, including technical writing style and rhetorical strategies of designing technical documents.

504. Problems in Technical Communication (3) II
Prerequisite: Rhetoric and Writing Studies 503W. Recommended: Graphics or drawing course. Problems in technical writing, including graphics, printing, and reproduction of technical documents; types of technical communication, including reports, manuals, and proposals; manuscript editing and proofreading; audience analysis and readability; writing and recognition of clear technical prose.

505. Writing Project Management (3) I

506. Writing Internship (3) Cr/NC I, II, S
Prerequisites: Consent of instructor and successful completion of a 500-level writing course with a grade of B or better. Intensive experience in writing and editing documents while student is under the joint supervision of an academic instructor and a professional coordinator.

507. Technical Communications in Nonprofit Organizations (3) I
Prerequisite: Rhetoric and Writing Studies 503W. Developing specific technical communication skills for nonprofit organizations. Learning nonprofit documentation: proposals, mission statements, advertising, member surveys, capital campaigns. Promoting volunteerism. Interacting with nonprofit boards. Adhering to requisite state and federal regulations.

509. Introduction to the Teaching of Composition (3) I, II
Prerequisite: Consent of instructor based on writing sample and/or test. Techniques for teaching and evaluation of written composition. Provides a theoretical base for these techniques.

509. Introduction to the Teaching of Composition (3) I, II
Prerequisite: Consent of instructor based on writing sample and/or test. Techniques for teaching and evaluation of written composition. Provides a theoretical base for these techniques.

596. Special Topics in Rhetoric and Writing Studies (1-3)
Prerequisite: Consent of instructor. Selected topics in rhetoric and writing studies. May be repeated with new content and consent of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.

NOTE:
Rhetoric and Writing Studies 97A is equivalent to Rhetoric and Writing Studies 92A.
Rhetoric and Writing Studies 97B is equivalent to Rhetoric and Writing Studies 92B.
Enrollment in Rhetoric and Writing Studies 97A and 97B is restricted to students participating in the Integrated Curriculum program.
Advising

The Major

The Major declaration or change of major requires intensive scholarly investigation and may prepare students for careers in which fluency in Russian is essential. Knowledge of Russian, particularly when combined with business related courses, is becoming a valuable asset. Many American firms have opened offices in Moscow and St. Petersburg, and the volume of American trade with Russia has been growing at a rapid pace. As a result, there are indications of an expanding interest in Russian graduates by American business organizations with employment possibilities in the United States and Russia.

Other career possibilities include Russian specialists, generally employed by the federal government: high school teachers, librarians, translators, and interpreters. Russian majors and minors are encouraged to explore the opportunities for study in Russia that are now becoming available.

Advising

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Russian Major

With the B.A. Degree in Liberal Arts and Sciences (Major Code: 11061)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in Russian courses can apply to the degree.

Students majoring in Russian must complete a minor in another field to be approved by the departmental adviser in Russian.

Preparation for the Major. Russian 100A, 100B, 200A, 200B, 211. (23 units)

Foreign Language Requirement. The foreign language requirement for graduation is automatically fulfilled through coursework for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in Russian to include Russian 301, 304, 305A-305B, 430 and nine units in 500-level courses in Russian.

Russian Major

In preparation for the Single Subject Teaching Credential in Foreign Languages

With the B.A. Degree in Liberal Arts and Sciences (Major Code: 11061)

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under Policy Studies or Teacher Education. For students completing the single subject teaching credential program, no more than 54 units in Russian courses can apply to the degree.

Preparation for the Major. Russian 100A, 100B, 200A, 200B, 211. (23 units)

Foreign Language Requirement. The foreign language requirement for graduation is automatically fulfilled through coursework for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units in Russian to include 301, 303, 304, 305A-305B, 430, 501, 580; and six units in 400- or 500-level courses in Russian.

Proficiency Examination. Before taking a student teaching assignment in Russian, the candidate for the credential may be required to pass an oral and written proficiency examination in the language, administered by the Department of European Studies. The candidate must consult with the chair of the department concerning this examination.

Russian Minor

The minor in Russian consists of a minimum of 20 units in Russian to include Russian 200B and six units of upper division courses in Russian.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.
Foreign Language Requirement for the B.A. Degree in Liberal Arts and Sciences

Students electing the study of Russian to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Russian 200A or the equivalent level of achievement. The usual sequence of coursework is Russian 100A, 100B, and 200A. Refer to section of catalog on “Graduation Requirements” for additional ways to satisfy competency.

High School Equivalents

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation. Secondary school language courses can be used as follows:

1. The first two years of high school level language courses as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.
2. The first three years of high school level language courses as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.
3. Four years of high school level language as the equivalent of three college semesters or five college quarters, thus fulfilling the foreign language requirement.

Courses (RUSSN)

LOWER DIVISION COURSES

Native speakers of Russian will not receive credit for taking lower division courses in Russian except with advance approval from the department.

All lower division courses in Russian are taught in Russian. No credit will be given for lower division courses taken after successfully completing any upper division Russian course taught in Russian.

No credit will be given for Russian 100A, 100B, 200A, 200B, 301 taken out of sequence.

100A. First Course in Russian (5) I
Prerequisite: Russian 100A or two years of high school Russian. Continuation of Russian 100A. Not open to students who have completed three years of high school Russian unless the third course was completed five or more years ago.

100B. Second Course in Russian (5) II
Prerequisite: Russian 100A or two years of high school Russian. Continuation of Russian 100A. Not open to students who have completed four years of high school Russian unless the fourth course was completed five or more years ago.

200A. Third Course in Russian (5) I
Prerequisite: Russian 100B or three years of high school Russian. Practical application and review of the basic principles of Russian. Oral practice, reading of cultural material in Russian. (Formerly numbered Russian 201.)

200B. Fourth Course in Russian (5) II
Prerequisite: Russian 200A. Continuation of Russian 200A.

211. Intermediate Conversation (3) II
Prerequisite: Russian 200A. Practice in the spoken language with emphasis on the articulation of Russian sounds; practical vocabulary; conversation on everyday cultural topics.

UPPER DIVISION COURSES

(Also Acceptable for Advanced Degrees)

All upper division courses in Russian are taught in Russian unless otherwise stated.

301. Advanced Grammar and Composition (3)
Prerequisites: Russian 200B, and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors. Proof of completion of prerequisite required: Copy of transcript.

Advanced grammar and stylistics; intensive writing practice; reports based on outside reading.

303. Political and Business Russian (3)
Prerequisite: Russian 301.

Commercial and political Russian, with emphasis on international relations and socioeconomic aspects of contemporary Russia.

304. Phonetics of Spoken Russian (3)
Prerequisites: Russian 200B and 211.

Sound system of Russian with attention to variety of intonation patterns. Training in oral communication and self-expression through practical drills with emphasis on improvement of pronunciation and intonation.

305A-305B. Survey of Russian Literature (3-3)
Prerequisite: Russian 200B and 211.

Survey of Russian literature from its beginnings, with emphasis on nineteenth and twentieth centuries. Taught in English with readings in English.

340. Russian Civilization (3)
Prerequisite: Russian 200B. Proof of completion of prerequisite required: Copy of transcript.

Development of Russian culture; emphasis on painting, music, architecture, and literature within a social context.

499. Special Study (1-3) I, II
Prerequisites: Fifteen upper division units in the major with an average of B (3.0) or better and consent of instructor. Proof of completion of prerequisites required: Copy of transcript.

Individual study. Maximum credit six units.

GRADUATE COURSES

Refer to Bulletin of the Graduate Division.
The Major

Social Science is a multidisciplinary program, encompassing the faculties and courses of 12 departments–Africana Studies, American Indian Studies, Anthropology, Chicana and Chicano Studies, Economics, Geography, History, Political Science, Psychology, Religious Studies, Sociology, and Women's Studies. The major aims are to promote an appreciation for the interrelatedness of these disciplines by exposing students to their varied methodologies. This program, therefore, is especially appropriate for students who wish to be liberally educated in a broad spectrum of understandings, insights, and appreciations. Students may devise their own focus or select either the emphasis outlined in Africa and the Middle East or in Environment.

The social science major is appropriate for many beginning positions in government and, when supplemented with a business administration minor, for careers in business. For students who continue in graduate study after receiving their bachelor's degrees, it is an excellent preparation for graduate and professional programs in law, social work, public administration, librarianship, counseling, business, and the ministry. Students who complete the Single Subject Teaching Credential in Social Science are prepared to teach world history, United States history, geography, government, and economics in high school.

The social science major with an emphasis in environment provides an opportunity for the student to gain an interdisciplinary perspective on some of the major quality of life, public health, and natural resource conservation problems facing the world today. The course offerings available in the emphasis will provide a basic understanding of the nature of the problems, as well as give more specific insights into such practical aspects as the economics and politics associated with these environmental challenges. The large range of courses from which students may choose allows them latitude to pursue their individual interests.

Students selecting the emphasis in environment will be prepared to pursue careers in a wide variety of fields associated with natural resource management, such as county, state, or federal agencies that manage parks, recreation areas, or other public lands. Entry-level jobs with planning or consulting firms are other possibilities. The emphasis will also provide students with a broad background that will be useful in a variety of graduate programs dealing with the natural environment or with natural resource conservation.

Advising

All College of Arts and Letters majors are urged to consult with their department advisor as soon as possible; they are required to meet with their department advisor within the first two semesters after declaration or change of major.

Social Science Major

With the B.A. Degree in Liberal Arts and Sciences (Major Code: 22011)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

A minor is not required with this major.

Preparation for the Major. Three units of statistics selected from Economics 201, Political Science 201, Psychology 270, Sociology 201, or Statistics 250. A six-unit sequence in each of three of the following departments selected from: (1) Anthropology 101, 102; (2) Chicana and Chicano Studies 120A-120B; (3) Economics 100, 101, 102; (4) Geography 101, 102; (5) History 105, 106, 109, 110, 115, 116; (6) Political Science 101, 102, 103; (7) Sociology 101, 150. Statistics courses taken in a social science department may not be used in fulfillment of that department's six-unit sequence. (21 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements." Spanish is recommended for those planning to work in this part of the United States.

Upper Division Writing Requirement. Passing the University Writing Examination with a grade of C (2.0) or better.

Major. A minimum of 33 upper division units to include a 15-unit specialization in one department and the remaining 18 units from among three additional departments. Students may specialize in anthropology, economics, geography, history, political science, sociology, or, under certain conditions listed below, Chicana and Chicano studies. The remaining 18 units must be taken from three separate departments other than the department of specialization. Students who specialize in anthropology, economics, geography, history, political science or sociology may take a maximum of six units in Africana studies or American Indian studies or Chicana and Chicano studies or religious studies or psychology or women's studies from courses listed below.

Students specializing in Chicana and Chicano studies must select courses from Chicana and Chicano Studies 301, 303, 320, 350A-350B, 480. Students with a 15-unit specialization in Chicana and Chicano studies must take the remaining 12 lower division units and 18 upper division units in anthropology, economics, geography, history, political science, or sociology.

Only students with a specialization in anthropology, economics, geography, history, political science or sociology may take a maximum of six units in the major from Africana studies or American Indian studies or Chicana and Chicano studies or psychology or religious studies.
Social Science

studies or women’s studies. These six units can only be selected from the following courses:
African Studies 331, 380, 445, 470, 471A, 471B.
American Indian Studies 303, 400, 440.
Chicana and Chicano Studies 301, 303, 320, 350A-350B, 480.
Women’s Studies 310, 320, 325, 340, 341A-341B, 360, 370, 375, 530, 580.

Emphasis in Africa and the Middle East

The adviser for this emphasis is Dr. Charles H. Cutter, Department of Classics and Humanities.

Preparation for the Major. History 100, 101, and six units selected from Anthropology 101, 102; Comparative Literature 270A, 270B; Economics 101, 102; Geography 101, 102. (12 units)

Students should note that a number of the upper division required and recommended courses listed below have lower division prerequisites, but these prerequisites do not constitute requirements per se for the completion of the major.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Students are encouraged to meet the foreign language competency requirement for the social science major by taking a language appropriate to their interests in African or Middle Eastern studies. Refer to the section of this catalog on “Graduation Requirements.”

A minor is not required with the major.

Upper Division Writing Requirement. Passing the University Writing Examination or Anthropology 396W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units, selected with the consent of the adviser, to include at least 15 units in anthropology, economics, geography, history, political science or religious studies, or a combination of 15 units in art, comparative literature, humanities, and religious studies.

Required courses: Anthropology 449; Humanities 460; six units from History 473, 474, 475, 476, and 574; and Political Science 363 or 364. In addition, the following courses are recommended: Anthropology 350, 424; Economics 365, 489; Political Science 361, 481; Religious Studies 340.

Emphasis in Environment

The advisers for this emphasis are Dr. Philip R. Pryde, Department of Geography and Dr. Sarah S. Elkind, Department of History.

Preparation for the Major. Biology 100 and 100L; a six-unit sequence in each of three of the following fields: (1) anthropology, (2) economics, (3) geography, (4) history, (5) political science, and (6) sociology. (22 units)

Courses recommended for these sequences are as follows: Anthropology 101 and 102, Economics 101 and 102, Geography 101 and 102, History 105, 106, or 109, 110 or 115, 116, Political Science 101 and 102, Sociology 101 and 150. Additional recommended courses include Geological Sciences 100 and 101.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or Anthropology 396W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units to include:
A. Twelve units of core courses to include nine units from three departments selected from Economics 452, 453 or 454, Geography 370 or 573, History 441 or 540, Political Science 334 or 335, plus three additional units from this list; and
B. An additional 18 units from at least three departments selected from Economics 452, 453, or 454; Geography 370, 378, 409, 570, 572, 573, 574, 575, 577; History 441, 540; Political Science 334, 335; Sociology 350. Also acceptable: Biology 315, 324, 327, 540; Geological Sciences 301, 303; Community Health Education 390; Philosophy 332; Physics 301; Recreation 305, 487.

Social Science Major

In preparation for the Single Subject Teaching Credential
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 22011)

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under Policy Studies or Teacher Education.

This major may be used by students in policy studies or teacher education or as undergraduate for the B.A. degree in Liberal Arts and Sciences.

Preparation for the Major. Economics 101, 102; Geography 101, 102; History 100, 101; Political Science 101, 102, Religious Studies 101. (27 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.” Spanish is recommended for those planning to work in this part of the United States.

Upper Division Writing Requirement. Passing the University Writing Examination or Anthropology 396W or History 430W with a grade of C (2.0) or better.

Major. A minimum of 42 upper division units to include:
United States and California History: History 410A-410B and History 541A-541B.
United States Geography: Geography 321.
World History: Nine units distributed as follows:
Three units each selected from two of the following areas:
Africa and the Middle East: History 474, 475, 476, 574.
Asia: History 420, 421, 567, 570.
Latin America: Chicana and Chicano Studies 350A; History 415, 416, 550, 551, 552.
International Politics: Three units selected from International Security and Conflict Resolution 300; Political Science 356, 359, 361, 363, 364, 375, 478, 479, 481, 566, 568; Women’s Studies 580.
Economics: Three units selected from Economics 330, 336, 338, 490.

Additional Social Science Courses:
Three units selected from Africana Studies 331, 420, 445, 452, 453; American Indian Studies 320, Anthropology 350, 410, 432, 529; Chicana and Chicano Studies 303, 320, 480; Psychology 340, 350, 351, 355; Sociology 350, 355, 403, 421, 433, 444, 450, 457, 522, 537; Women’s Studies 310, 320, 385, 515, 521, 522, 536.
Courses (SOCSI)

LOWER DIVISION COURSES

201A. Statistical Computer Package: SPSS (1) Cr/NC I, II
Two hours of laboratory for 11 weeks and 10 hours to be arranged.
Prerequisite: Credit or concurrent registration in an elementary statistics course.
Organization and modification of numerical data for computer analysis. Use of selected statistical procedures from the Statistical Package for the Social Sciences (SPSS) including frequency distributions, crosstabulation, t-tests, correlation and regression. Maximum combined credit of three units of Social Science 201A, 201B, 201C, 201D applicable to a bachelor’s degree.

201B. Computer Database Applications (1) Cr/NC I, II
Four hours of laboratory for 11 weeks.
Introduction to object oriented, relational database software with emphasis on use of databases in social sciences. Create a database, create forms, link database tables via Query, create sub-forms, perform sorts and filters, create reports, and use expressions to generate summary information.

201C. Computer Spreadsheet Applications (1) Cr/NC I, II
Two hours of laboratory for 11 weeks and 10 hours to be arranged.
Introduction to spreadsheet software with emphasis on their use in social sciences. Create a spreadsheet file, customize the appearance of data, work with functions, databases, graphs, arrays, and macros.

201D. Internet Resources (1) Cr/NC I, II
Two hours of laboratory for 11 weeks and 10 hours to be arranged.
Introduction to Internet. Locate information resources, retrieve and translate into appropriate formats, understand electronic mail, explore world wide web, and other resources such as LISTSERV's and USENET newsgroups. Focus on information for social sciences.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Social Work
In the College of Health and Human Services

Accredited by the Council on Social Work Education.

Faculty
Emeritus: Ajemian, Baily, Brennen, Butler, Davis, Dean, Griffin, Guidry, Haworth, Ishikawa, Kahn, Kelley, Kukkonen, Pritchard, Raymer, Reichert, Risman, Sardinas, Valle
Director: Harbert
Associate Director: Siman
Professors: DeGennaro, Harbert, Jones, Landsverk, Stanford, Zuniga
Associate Professors: Clapp, Engstrom, Finnegan, Harris, Hohman, Siman
Assistant Professors: Barrio, Hughes, Min, Packard, Rasmussen, Shillington, Sucato
Lecturers: Fong, Keith, Letourneau, Marsden, Milstein, Newell, Okamura, Segars, Siegel, Stanger, Walden O’Cull

Offered by the School of Social Work
Master of Social Work degree.
Master of Social Work and Juris Doctor degrees (concurrent program).
Master of Social Work and Master of Public Health degrees (concurrent program).
Major in social work with the B.A. degree in liberal arts and sciences.
Minor in social work.
Human services paraprofessional certificate.

The Major
The objective of the School of Social Work is to assist students in acquiring the essential knowledge, philosophy, and basic skills required for beginning professional social work practice; namely, to develop a philosophy which recognizes individual human welfare as the purpose and goal of social policy, to develop an awareness and understanding of human behavior, to attain a level of competence in practice methods and skills, to acquire knowledge in methods of research in social work, and to accept responsibility for continued development of competence in their practice after they have completed their academic education.

The social work major is designed to apply to a wide variety of social work practice settings. Preparatory coursework for the major includes a basis in the liberal arts and sciences. The upper division curriculum is intensive, encompassing coursework in cultural pluralism, human behavior, social policy and program evaluation, social work practice, and social work research. Required field experience is an integral part of the program.

The B.A. degree prepares students for immediate employment in those social work positions which do not require graduate level preparation, as well as providing the foundation for graduate study.

Social Work Major
With the B.A. Degree in Liberal Arts and Sciences (Premajor Code: 21040) (Major Code: 21041)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog entitled “Graduation Requirements.” No more than 51 units in social work courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major.
All new students to this program are considered premajors and are assigned the 21040 premajor code. The code will stay in effect until students complete the 27 unit preparation for the major coursework. Students must come to the Undergraduate Adviser to complete a change of major form to the 21041 major code in order to take the upper division courses (exceptions to this are SWORK 350 and 360 which can be taken without the major code change). Students must change to the major code prior to REG-LINE registration or the computer will not permit access to any social work course. The following nine courses constitute the preparation for the major:
Social Work 110, 120, 130; Biology 100 or any three units in a human biology course; Economics 100 or three units of any economics course; Community Health Education 101; Psychology 101; Sociology 101; Psychology 270 or Sociology 201 or Statistics 250.

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Students must complete this requirement before being permitted to register for Social Work 483A and 489A. The requirement can be met by passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 41 upper division units, in a prescribed course sequence, to include Social Work 350, 360, 361, 370A, 381, 382, 483A-483B, 489A (4 units), 489B (4 units), 491, and six units of upper division electives in social work (3 units may be taken from another department).

Time Limitation: All social work courses taken for the premajor and major must have been taken and completed within seven years of the granting of the undergraduate degree. Courses taken prior to the seven year rule must be repeated. This policy applies to courses taken at SDSU or transferred from another four-year college or university or appropriate courses from a community college. No exceptions will be made to this policy.

Life Experience: No social work premajor or major courses can be waived or credit given towards the undergraduate degree for life experience including but not limited to employment, time spent in the military, training or workshops or volunteer experiences.

Transfer Credit: Transfer credit students may transfer 18 nonsocial work courses in the premajor and nine units of Social Work 110, 120, 130 from a California community college or four year institution with a signed articulation agreement with SDSU. Students from outside the state must have transcripts evaluated to determine if their courses meet SDSU criteria to be accepted for the premajor. The 41 units in the major can only be transferred from a Council on Social Work Education (CSWE) accredited or candidacy status social work undergraduate program.

Prescribed Course Sequence: Students must complete all 300-level social work courses (18 units) before they will be allowed to enroll in Social Work 483A and 489A. There is no required order of the 300-level courses so they may be taken in any combination or in either Fall or Spring semesters.

Junior Year (18 units) Senior Year (23 units)
SWORK 350 SWORK 360 SWORK 483A SWORK 483B

Field Practicum. All students must enroll in field practicum. This is a 16-hour per week internship at a School of Social Work arranged and supervised social work community agency (students are not permitted to locate their own agencies). Students begin field practicum during the fall semester only and must concurrently enroll in Social Work 483A and 489A. The continuation of field practicum is offered in spring semester only when students must concurrently enroll in Social Work 483B and 489B. These courses are sequential and students must complete both “A” courses before going on to the two “B” courses. During the spring semester, preceding enrollment in field practicum, students attend a field orientation meeting and obtain the field application packet from the SDSU Bookstore. Specific date and time is posted on the field bulletin board outside Hepner Hall 119 and announced in class. In addition, students should read the appropriate section in the current student handbook. The section outlines all requirements and processes the student is expected to follow. The coordinator of field instruction evaluates each application to determine whether the student has met all requirements for admission to field practicum and assigns the student to an agency for internship. Students who do not file a field application by the deadline date will not be able to enter field practicum. Specific times and days of field practicum are arranged between the student and the assigned agency, but most agencies require daytime availability. Evening and weekend placements are not available. Students should arrange their schedules appropriately to meet these criteria.

Student Handbook

The School of Social Work has a student handbook for undergraduate majors. The handbook contains policies and procedures not specified in the catalog in addition to information to aid students in completing the social work major. Students must purchase a revised handbook at the beginning of fall semester as long as they are enrolled in a social work program at SDSU. Handbooks are on sale at the SDSU Bookstore under Social Work.

Social Work Minor

The minor in social work consists of 24 units to include Psychology 101, Sociology 101, Social Work 110, 120, 350, 360, 370A, and three units selected from Social Work 351, 400, 410, or 420.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Human Services Paraprofessional Certificate

This certificate is designed specifically for individuals in recovery from any form of substance abuse who wish to pursue paraprofessional career opportunities in this field. A certificate in paraprofessional human services may be sought by ex-offenders and ex-substance abusers who: (a) do not meet the prerequisite requirements for a major in social work for the B.A. degree, but who are interested in pursuing a paraprofessional career in human services; (b) are not interested in or able to complete nonprofessional offerings which are part of the regular degree program; (c) have already earned a bachelor’s degree and are not interested in a second degree.

Students are admitted to the certificate program as regular students of San Diego State University. Students must apply to the program as well as to the university. Candidacy for the certificate program will be established by the undergraduate social work program adviser.

Awarding of the certificate requires completion of an approved pattern of ten courses (30 units) with a minimum grade point average of 2.0. The following is the prescribed 30-unit course sequence for the certificate:

<table>
<thead>
<tr>
<th>Semester 1 (15 units)</th>
<th>Semester 2 (15 units)</th>
</tr>
</thead>
<tbody>

</table>

* Prerequisites waived for these courses.

Course offerings under this program may only be taken in the on-campus program. Fifteen units in the certificate program may be counted toward the major in social work, but may not be counted toward the minor. For further information, consult the undergraduate social work program adviser.

Courses (SWORK)

LOWER DIVISION COURSES

110. Social Work Fields of Service (3) I, II

Fields of services in which social workers perform professional roles. Focus on social work approach to intervention in practice and policy arenas.

120. Introduction to Social Work (3) I, II

Two lectures and three hours of fieldwork. Orientation to field of social work. Develop understanding of social work principles, goals, values, and methods through readings and class discussion. An unpaid assignment in an agency setting is required. Scheduling is flexible.

130. Contemporary Human and Helping Relationships (3) I, II

Positive and negative dimensions of human relationships and how they can require social work intervention through helping process. Develop students’ understanding of themselves in helping relationship.

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES

(Interested for Undergraduates)

350. Cultural Pluralism (3) I, II

Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.

Understanding of the American society as a culturally pluralistic social process and an understanding of social work as a culturally directed profession with emphasis on the concept of cultural identities created by one’s values, ideologies, knowledge and behavior.

351. Perspectives on Life in Urban Communities (3) I, II

Characteristics and processes of contemporary urban communities as they shape the lifestyles of people. Urban communities examined in terms of their functional and dysfunctional capacities for meeting human needs.

360. Perspectives on Human Behavior and the Social Environment (3) I, II

Prerequisite: Completion of General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.

Interdisciplinary, comparative, and critical approach to explanatory theories of human behavior. Focus on interrelatedness of factors that affect the nature and quality of human life with linkage to the social welfare of individuals, families and communities.
361. Human Behavior Across the Life Span (3)
Prerequisites: Social work major and junior standing.
Psycho-social, biological, cultural and environmental influences on individual growth and development and how knowledge is utilized by social work generalist practitioners in assessment and intervention.

370A. Social Policies and Social Issues (3) I, II
Prerequisites: Social Work 110 and 120.
Major social forces and institutions as they relate to and determine social policy emphasizing social welfare services in an industrialized society.

370B. Social Provision and Program Evaluation (3) I, II
Issues and dilemmas related to the provision of social services, and analysis of social programs. Evaluating effectiveness and efficiency of social services programs and social work services.

381. Practice Skills Micro (3) I, II
Prerequisites: Completion of social work preparation for the major. Junior standing.
Micro skills within overall generalist practice framework. Written and verbal communication, interviewing, assessment with individuals and small groups.

382. Practice Skills Macro (3) I, II
Prerequisite: Completion of social work preparation for the major. Junior standing.
Development of social work practice skills at macro level. Written and verbal communication needs assessment and resource development with organizations and communities.

400. Social Work Practice: Child Welfare (3) I, II
Prerequisite: Social Work 370A.
Problems of children and supportive, supplementary and substitute social services which have been developed to meet these needs.

410. Social Work Practice: Family Issues (3) I, II
Prerequisite: Social Work 370A.
Problems of children and supportive, supplementary and substitute social services which have been developed to meet these needs.

420. Aging and the Social Services (3) I, II
Prerequisite: Social Work 370A.
Contemporary status, social problems and needs, and developmental theories of the elderly population. Social services delivery system which serves the elderly.

483A. Generalist Social Work Practice I (3) I, II
Prerequisites: Completion of social preparation for the major, 300-level courses required for major, and concurrent registration in Social Work 489A.
Integration of social work theory, principles, and practice techniques.

483B. Generalist Social Work Practice II (3) I, II
Prerequisites: Social Work 483A, 489A, and concurrent registration in Social Work 489B.
Integrating seminar with emphasis on macro generalist practice theory, principles, and methods.

489A-489B. Field Experience in Social Work (3-9, 3-9) Cr/NC I, II
Prerequisites: Completion of all 300-level social work courses; Social Work 381 with a grade of C or better and consent of instructor; concurrent registration in Social Work 483A for 489A; concurrent registration in Social Work 483B for 489B; arrangements made during prior semester with coordinator of field instruction.
A minimum of 12 units (6 in Social Work 489A and 6 in Social Work 489B) is required. Students spend 16 hours per week per semester in practice field assignments in selected social work agencies or settings.

491. Methods of Social Work Research (3) I, II
Prerequisite: Social Work 370B.
Definition and purpose of research in social welfare and social work. Formulation of research problems, selecting a design and methodology; techniques of collecting, organizing, interpreting and analyzing data.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

497. Investigation and Report (3) I, II
Prerequisite: Consent of instructor.
Analysis of special topics in social welfare.

499. Special Study (1-3) Cr/NC I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSE
(Also Acceptable for Advanced Degrees)

596. Experimental Topics (1-4)
Selected topics in social work. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Impacted Program

The Major

Students must enter the premajor at SDSU (assuming continuous enrollment for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU (assuming continuous enrollment for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU). To be accepted into the premajor at SDSU (assuming continuous enrollment for the major described in the catalog in effect at the time they are accepted into the premajor at SDSU)

To meet with their department adviser within the first two semesters after declaration or change of major.

Sociology Major

With the B.A. Degree in Liberal Arts and Sciences

(Premajor Code: 22080) (Major Code: 22081)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in sociology courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major. Sociology 101, 150, 201 (9 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. Students may elect to major in one of four tracks:

(a) General Sociology

(b) Applied Social Research

(c) Sociology of the Workplace

(d) Social Problems

The Applied Social Research track provides a more rigorous preparation in sociological research methods and students completing this course of study receive a special certificate at graduation. The Sociology of the Workplace track is specifically designed for students interested in personnel and management. The Social Problems track focuses upon sociological theory as applied to the study of crime, juvenile delinquency, mental illness, minority group relations, sex/gender roles, inequality, human sexuality, and other issues. Within these four tracks, upper division course requirements for the sociology major are as follows:

(a) General Sociology

A minimum of 30 upper division units in sociology to include Sociology 301, six units of electives, plus:

Three units from each of the following areas:

Methods: Sociology 406, 407, 408.

Social Psychology: Sociology 310, 410, 412, 441, or 517.

Theory: Sociology 401 or 403.

Twelve units from one of the following areas:

Social Control: Sociology 441, 442, 443, 444, 445, 543.

Social Organization: Sociology 335, 338, 430, 433, 436, 481, 531, 532, 537, 539.

No more than three units of Sociology 499 or 597 and six units of Sociology 496 or 596 may be applied toward the General Sociology track.

(b) Applied Social Research

A minimum of 30 upper division units in sociology to include Sociology 301, 406, 407, 408, and 505 (15 units), plus:

Three units from each of the following areas:

Internship: Sociology 480.

Social Psychology: Sociology 310, 410, 412, 441, or 517.

Theory: Sociology 401 or 403.

Six units of electives in sociology excluding Sociology 499 or Sociology 597.
(c) Sociology of the Workplace
A minimum of 30 upper division units in sociology to include Sociology 301, 320, 355, 430, 480, 531, 532 (21 units), plus:
Three units from each of the following areas:
Social Psychology: Sociology 310, 410, 412, 441, or 517.
Theory: Sociology 401 or 403.
Three units of electives in sociology excluding Sociology 499 or Sociology 597.

(d) Social Problems
A minimum of 30 upper division units in sociology to include Sociology 301 and 18 units selected from Sociology 320, 350, 352, 355, 420, 421, 433, 436, 441, 442, 443, 444, 445, 457, 480, 481, 539, 543, 556, and three units from each of the following areas:
Methods: Sociology 406, 407, or 408.
Social Psychology: Sociology 310, 410, 412, 441, or 517.
Theory: Sociology 401 or 403.

Sociology Minor
The minor in sociology consists of a minimum of 18 units to include Sociology 101 and 150 or 201; three units selected from Sociology 310, 410, 412, 441, or 517; and nine units selected from one of the following areas:
Applied Social Research: Sociology 301 and 505 required; and three units selected from 301, 406, 407, 408.
Sociology of the Workplace: Sociology 320, 355, 430, 480, 531, 532.
Social Control: Sociology 441, 442, 443, 444, 445, 543.
Social Organization: Sociology 335, 338, 430, 433, 436, 481, 531, 532, 537, 539.
Theory and Methods: Sociology 301, 305, 401, 403, 406, 407, 408, 505.
Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Sociology Honors Thesis
The Department of Sociology offers undergraduates of superior achievement the opportunity to write a sociology honors thesis leading to special recognition upon graduation. Sociology 490, Senior Honors Thesis, is open to students who rank in the top twenty percent of senior sociology majors and who have successfully satisfied the Upper Division Writing Requirement. Interested students should consult with the undergraduate advisers in the Sociology Department.

Courses (SOC)

LOWER DIVISION COURSES

101. Introductory Sociology: The Study of Society (3) I, II
(CAN SOC 2)
This course is prerequisite to all upper division courses in sociology. Major ideas, concepts, and methods in the study of society to include socialization, culture, social structure, social stratification, deviance, social control, and social change.

150. Introduction to Social Problems (3) I, II (CAN SOC 4)
Prerequisite: Sociology 101.
Contemporary social problems. Topics may include poverty, inequality, unemployment, crime and deviance, population and ecological problems, health, family issues, and the role of ideology and interest groups in the definition of social problems.

201. Elementary Social Statistics (3) I, II
Prerequisite: Course in intermediate algebra. Sociology 101; satisfaction of the Entry Level Mathematics requirement; and qualification on the Mathematics Departmental Placement Examination, Part IA.

Basic statistical techniques in sociology. Tables and graphs, measures of central tendency and variability, correlations, cross-classification, and introduction to multivariate analysis, sampling and statistical inference. Computer applications may be included. Students with credit or concurrent registration in the following lower division statistics courses will be awarded a total of four units for the two (or more) courses: Sociology 201; Biology 215; Civil Engineering 160; Economics 201; Political Science 201; Psychology 270; Statistics 119, 250.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Introduction to Social Research (3)
Prerequisite: Sociology 101.
Sociological research methodology. Techniques for testing and developing sociological theory, including hypothesis formulation, data collection, data analysis and writing a research report.

305. Sociological Laboratory II (1)
Three hours of laboratory.
Prerequisite: Must be taken in conjunction with a three-unit upper division course.
Application of experimental, quantitative or qualitative methods to sociological problems and the use of experimental, social simulation teaching techniques.

310. Love, Jealousy, and Envy: The Sociology of Emotions (3)
Prerequisite: Sociology 101.
Sociological understanding of human emotions developed through consideration of history of sex and love, social psychology of jealousy, and political implications of envy. Understanding and management of emotions analyzed from a sociological point of view.

320. Sex/Gender Roles in American Society (3) I, II
Prerequisites: Sociology 101; and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Male-female relationships in occupational, educational, and familial settings. Changing concepts of femininity and masculinity. Images of men and women in literature, in the mass media, and in laws and judicial decisions.

335. Mass Communication and Popular Culture (3)
Prerequisites: Sociology 101, and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Development of popular culture as influenced by the growth of mass media of communication, including popular music, television, film, newspapers, and advertising. The power, functions, and effects of the mass media in society and in social change.

338. Sociology of Religion (3)
Prerequisites: Sociology 101 and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Forms of religious belief, knowledge, practice, and experience tied to different social arrangements and historical periods. Consequences of religion for society. Secularization and conversion processes in modern industrial societies.

350. Population and Contemporary Issues (3)
Prerequisites: Sociology 101; and completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for nonmajors.
Analysis of population processes as they affect and are affected by such contemporary issues as rapid world population growth, famine, ecological pressures, abortion, women’s liberation, racial and ethnic relations, and illegal migration.
352. Contemporary Social Problems (3)
Contemporary social problems in North America and other areas of the world.

355. Minority Group Relations (3) I, II
Prerequisites: Sociology 101; and completion of the General Education requirement in Foundations I.I.B., Social and Behavioral Sciences required for nonmajors.
Historical and comparative analysis of race and ethnic relations. Origins and maintenance of ethnic stratification systems; discrimination and prejudice; the adaptation of minority communities; role of social movements and government policies in promoting civil rights and social change.

401. Classical Sociological Theory (3) I
Prerequisite: Sociology 101.
Theories of major European and American sociologists since the mid-nineteenth century, including Comte, Marx, Tocqueville, Spencer, Durkheim, Pareto, Weber, Simmel, Mead, and Park. Relevance of classical social theory to contemporary sociology.

402. Contemporary Sociological Theory (3) II
Prerequisite: Sociology 101.
Major figures and trends in American and European sociological theory since World War II, with emphasis on such schools as structural-functionalism, Marxism, symbolic interactionism, and critical theory.

406. Intermediate Social Statistics (3)
Prerequisites: Sociology 201 and 301.
Statistical techniques in the analysis of social research data and hypothesis testing, including analysis of variance, covariance, partial correlation, multiple regression, logic and log-linear models, discriminant and factor analysis. Practical application with the use of statistical packages.

407. Survey and Experimental Research Methods (3)
Prerequisites: Sociology 201 and 301.
Research process from research design through data processing, analysis, and interpretation. Quantitative research techniques including universe enumeration, sampling, questionnaire construction, scaling techniques, structured interviews, and experimental designs.

408. Qualitative Research Methods (3)
Prerequisite: Sociology 301.
Field research methods including interviewing, observation, participant observation and case studies. Problems in research design, gaining and maintaining rapport, and analysis and interpretation of qualitative data.

410. Social Psychology: Mind, Self, and Society (3)
Prerequisites: Sociology 101; and completion of the General Education requirement in Foundations I.I.B., Social and Behavioral Sciences required for nonmajors.
Major theories, problems, and findings concerning the relationship of the individual and society. Topics include consciousness and construction of meaning, self-concept and social identity, socialization and interaction, group behavior and group membership.

412. Social Construction of Reality (3)
Prerequisite: Sociology 101.

420. Sexuality in Modern Society (3) I, II
Prerequisite: Sociology 101.
Current research on contemporary sexual attitudes and behaviors, including changing norms in premarital, marital, and extramarital relationships. Controversies and implications for the individual and society.

421. The American Family and Its Alternatives (3)
Prerequisites: Sociology 101; and completion of the General Education requirement in Foundations I.I.B., Social and Behavioral Sciences required for nonmajors.
Changes in intimacy in American family. Selection of mating partners, spousal and parenting relationships, and alternatives to traditional family forms. Changing functions of the family viewed in historical perspective. Present realities and future prospects.

430. Social Organization (3)
Prerequisites: Sociology 101; and completion of the General Education requirement in Foundations I.I.B., Social and Behavioral Sciences required for nonmajors.
Social structure analyzed from the micro-level of roles and interaction to groups, institutions, complex organizations, societies, and the world as a social system. Basic concepts of sociology and their application in concrete case studies.

433. Wealth, Status, and Power (3)
Prerequisite: Sociology 101.
Distribution of wealth, power, privilege, and prestige in society. Causes, outcomes, and dynamics of inequality. Processes of upward and downward social mobility. Relationship of social class to politics, the economy, and other institutions.

436. Sociology of Health and Illness (3)
Prerequisite: Sociology 101.

441. Sociology of Mental Illness (3)
Prerequisite: Sociology 101.
Social, cultural, and political factors involved in definition of "madness" and control of mental illness in various societies. Review of research about the incidence, prevalence, and social ecology of mental illness and its distribution by social class.

442. Sociology of Murder (3)
Prerequisite: Sociology 101.
Characteristics and distribution of murder, including historical and cross-cultural comparisons. Social psychological, structural, cultural and situational explanations of causes and consequences of juvenile, gang, domestic, mass, serial and sexual murders.

443. Crime and Society (3) I, II
Prerequisite: Sociology 101.

444. Juvenile Delinquency (3) I, II
Prerequisite: Sociology 101.
Nature and extent of delinquency; the causative factors involved; methods of control and prevention, with special attention to protective and remedial measures offered by the school, home, juvenile court, correctional institutions and camps, probation and parole, and recreational agencies.

445. Sociology of Deviance (3) I, II
Prerequisite: Sociology 101.
Conformity and nonconformity; the relationship between individual liberty and social control; stigma and the labeling of deviant behavior such as prostitution, alcoholism, drug addiction, and crime.

450. Social Change (3)
Prerequisites: Sociology 101; and completion of the General Education requirement in Foundations I.I.B., Social and Behavioral Sciences required for nonmajors.
Social change at the interpersonal, institutional, and societal levels of analysis. Major economic, political, technological, and demographic forces that have shaped the contemporary world. Topics may include modernization, industrialization, urbanization, revolution, and prospects of social change in rich and poor nations.
455. Asian American Communities (3)
Prerequisite: Sociology 101.

456. Collective Behavior: Crowds, Cults, and Crazes (3)
Prerequisite: Sociology 101.
Processes of social behavior in masses and groups, including crowd behavior, mass hysteria, riots, mobs, fads, fashions, crazes, panics, rumors, and scapegoating. Sects and cults; social movements; the effects of mass communications and propaganda.

457. Protests, Reforms, and Revolutions (3)
Prerequisite: Sociology 101.
Revolutionary and reform movements in relationship to the larger society. Conditions leading to development of social movements, emergence of leadership, ideologies, strategies, recruitment of members, and social consequences; case studies.

460. Field Internship (3-6) I, II
Prerequisite: Sociology 101.
Supervised field placement of students in community agencies. Practical experiences related to studies within the sociology curriculum. Maximum credit six units.

481. Community Poverty Workshop (3)
One lecture and six hours of supervision.
Prerequisites: Sociology 101 and 480.
Poverty dynamics in San Diego area: labor market, location of jobs and location of poor people, needs of poor and delivery of social services. Working with poor single parent families.

490. Senior Honors Thesis (3) I, II
Prerequisites: An upper division writing course offered by the College of Arts and Letters. Open to sociology majors with senior standing and permission of the honors thesis adviser.
Directed research on a sociological topic chosen in consultation with the honors adviser, and completion of a senior honors thesis. Required of students wishing to graduate with a Certificate of Recognition in Sociology with Honors.

496. Experimental Topics (1-4)
Prerequisite: Consent of the instructor.
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

505. Applied Sociological Research (3)
Prerequisite: Sociology 407 or 408.
Types and methods of applied sociological research; and an overview of their application in substantive areas. Practical research skills.

517. Life Crises and Coping: Sociological Perspectives (3)
Prerequisite: Sociology 101.
Social variation in the occurrence of life crises, personal and social coping strategies, and psychosocial outcomes.

522. The Family in Comparative and Historical Perspectives (3)
Prerequisite: Sociology 101. Recommended: Sociology 421.
Comparative study of selected family systems in the past and present. Family and parafamily forms in intentional communities of the nineteenth century compared with contemporary communal experiments. Ethnic and class differences in family organization.

527. Aging and Society (3)
Prerequisite: Sociology 101.
Status and roles of men and women in the second half of the life cycle. Ethnic, sex and class variables in aging. Cross-cultural comparisons of occupational, educational, familial, recreational and political opportunities for the aging.

528. Death and Dying (3)
Prerequisite: Sociology 101.
Sociological concepts and theories of the process of dying. Comparative study of death and dying with emphasis on social, psychological and social organization approaches. Consideration of contemporary social-ethical issues surrounding dying in our society.

531. Working and Society (3)
Prerequisite: Sociology 101.
Work and occupations in the division of labor. Paid and unpaid labor; work at home and in the marketplace. The social drama of work: identity, role conflict, and change. Power, pay, and status ranking of occupations; the professionalism of work.

532. Workers, Managers, and Bureaucracy (3)
Prerequisite: Sociology 101.
Sociology of work in formal organizations. From classic theories on division of labor, industrial capitalism, and bureaucracy, to transformation of work in the twentieth century. Experiences of workers and managers in the U.S. and other societies.

537. Political Sociology (3)
Prerequisite: Sociology 101.
Social organization of political processes. Power and authority, social class, primary groups, collective behavior, social change, and other sociological factors considered in their relationships to political processes.

539. Sociology of Education (3)
Prerequisite: Sociology 101.
Social organization of education in the United States and other societies. Structure and functions of educational institutions. Formal and informal education. Class, ethnic, and other social factors affecting the educational process. Implications of educational decision making and testing.

543. Police, Courts, and Corrections: The Sociology of Crime and Punishment (3)
Prerequisite: Sociology 101.

556. Topics in Comparative Societies (3)
Prerequisite: Sociology 101.
Social structures, social problems, and social change in selected areas of the world in comparative and historical perspectives. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

596. Current Topics in Sociology (1-3)
Prerequisite: Sociology 101.
Selected specialized, controversial or currently relevant topics in sociology. Maximum opportunity provided for student initiative in determining course content and procedures. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

597. Investigation and Report (3) I, II
Prerequisites: Fifteen units in sociology and consent of instructor.
Analysis of special topics in sociology. Maximum credit six units.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Advising

and the second most frequently used language in the Southwest.

Spanish is the fourth most widely spoken language in the world

and the second most frequently used language in the Southwest. Because of San Diego's proximity to Mexico and other Spanish-speaking countries, many students here are interested in learning Spanish. Their reasons range from practical application in jobs, travel, reading or recreation to a curiosity about the culture or literature of Spanish-speaking countries. The Department of Spanish and Portugu­ese offers a wide range of courses and programs designed to sat­ify the varied needs of students who enter the Spanish major.

A major in Spanish for the single subject teaching credential can lead directly to a career in secondary teaching. The federal government also employs those with Spanish-speaking ability in both civil service and diplomatic areas. In addition, many fields which involve contact with the public require knowledge of Spanish. These types of public contact fields include law enforcement, medicine, banking, tourism, government, library positions, foreign affairs, public relations, advertising, missionary assignments, and social services.

Advising

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Spanish Major

With the B.A. Degree in Liberal Arts and Sciences

(Major Code: 11051)

All candidates for a degree in liberal arts and sciences must com­

plete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 49 units in Spanish courses can apply to the degree.

Students majoring in Spanish must complete a minor in another field approved by the departmental adviser in Spanish.

Preparation for the Major. Spanish 101, 102, 103, 202, 211, and 212. Spanish 281 replaces 103 and 211 and Spanish 282 replaces 202 and 212 for U.S. Hispanics. These courses are automatically waived for native speakers of Spanish who have a high school diploma or equivalent from a country whose language of instruction is Spanish. See adviser. (14-22 units)

Foreign Language Requirement. The foreign language require­ment for graduation is automatically fulfilled through coursework for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in Spanish to include Spanish 301, 302 (Spanish 381 replaces 301 and 302 for Spanish speakers); six units selected from Spanish 405A, 405B, 406A, 406B; Spanish 340 or 341 or 342; Spanish 448 or 449; Spanish 350; two electives from 300 to 500 level Spanish courses. At least 15 upper division units must be taken in residence at SDSU. Students who have successfully completed courses for upper division credit may not receive credit for lower division courses.

Spanish Major

In preparation for the Single Subject Teaching Credential in Foreign Languages

With the B.A. Degree in Liberal Arts and Sciences

(Major Code: 11051)

All candidates for a teaching credential must complete all require­ments as outlined in this section of the catalog under Policy Studies or Teacher Education. For students completing the single subject teach­ing credential program, no more than 52 units in Spanish courses can apply to the degree.

This major may be used by students in policy studies or teacher education as an undergraduate major for the B.A. degree in liberal arts and sciences. A minor in another field approved by the depart­mental adviser in Spanish is required for the degree.

Preparation for the Major. Spanish 101, 102, 103, 202, 211, and 212. Spanish 281 replaces 103 and 211 and Spanish 282 replaces 202 and 212 for U.S. Hispanics. These courses are automatically waived for native speakers of Spanish who have a high school diploma or equivalent from a country whose language of instruction is Spanish. See adviser. (14-22 units)

Foreign Language Requirement. The foreign language require­ment for graduation is automatically fulfilled through coursework for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units in Spanish to include Spanish 301, 302 (Spanish 381 replaces 301 and 302 for Spanish speakers); six units selected from 405A, 405B, 406A, 406B; Spanish 340 or 341 or 342; Spanish 448; Spanish 350 and 561; two electives from 300 to 500 level Spanish courses. At least 15 upper division units must be taken in residence at SDSU. Students who have successfully completed courses for upper division credit may not receive credit for lower division courses.

OFFICE: Business Administration 403
TELEPHONE: (619) 594-6588
FAX: (619) 594-5293
Spanish Minor

The minor in Spanish consists of a minimum of 18-19 units, at least twelve of which must be in upper division Spanish courses. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

Certificate in Translation Studies

The Department of Spanish and Portuguese Languages and Literatures offers a Certificate in Translation Studies. The certificate requires 15 units in Spanish dealing with translation theory, nonliterary and literary translation, from Spanish to English and from English to Spanish.

A prospective candidate for the certificate should possess a bilingual facility in Spanish and English. The student must complete with a grade of B or better Rhetoric and Writing Studies 305W (or pass the University Upper Division Writing Competency Examination), and Spanish 201, 202, and 350 prior to starting work on the certificate.

After meeting the basic requirements for admission, the student must complete with a GPA of 3.0 or better 15 units to include Spanish 491, 492, 493, 556, and three units from Spanish 307, 495, 497, and either 499 or 596 when offered with appropriate certificate-related content.

Upon completing the 15 units of coursework, the student must take a departmental examination for the certificate. Upon successful completion of the examination, the student will be awarded the certificate. Courses in the certificate may not be counted toward the major or minor in Spanish.

Certificate in Court Interpreting

(Imperial Valley Campus)

The Imperial Valley Campus offers a Certificate in Court Interpreting. The certificate requires 15 units in Spanish dealing with problems of court interpreting and includes interpreting from Spanish to English and from English to Spanish.

A prospective candidate for the certificate should possess a bilingual ability in Spanish and English. The student must complete with a grade of B or better Rhetoric and Writing Studies 305W (or pass the University Upper Division Writing Competency Examination), and Spanish 201, 202, and 350 prior to starting work on the certificate.

After meeting the basic requirements for admission, the student must complete with a GPA of 3.0 or better 15 units to include Spanish 491, 492, 493, 556, and either 499 or 596 when offered with appropriate certificate-related content.

Upon completing the 15 units of coursework, the student must take a departmental examination for the certificate. Upon successful completion of the examination, the student will be awarded the certificate. Courses in the certificate may not be counted toward the major or minor in Spanish.

Foreign Language Requirement for the B.A. Degree in Liberal Arts and Sciences

Students electing the study of Spanish to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Spanish 103 or the equivalent level of achievement. The usual sequence of coursework is Spanish 101, 102, and 103. Refer to section of catalog on “Graduation Requirements” for additional ways to satisfy competency.

High School Equivalents

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

Secondary school language courses can be used as follows:

1. The first two years of high school level language count as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.

2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.

3. Four years of high school level language count as the equivalent of three college semesters or five college quarters, thus fulfilling the foreign language requirement.

International Baccalaureate

Students with the International Baccalaureate in Spanish will be awarded six units of Spanish equal to credit in Spanish 202 and 212. International Baccalaureate students will not receive duplicate credit for Advanced Placement in Spanish scores nor for enrollment in any lower division Spanish courses.

Courses (SPAN)

LOWER DIVISION COURSES

Native speakers of Spanish with a high school diploma or equivalent from a country whose language of instruction is Spanish will not receive credit for lower division Spanish courses.

Any student without a high school diploma from the U.S. OR a Spanish speaking country, but who has taken an English as a Second Language (ESL) class (high school or college) will not receive credit for lower division Spanish completed at SDSU or another college.

All lower division courses in Spanish are taught in Spanish.

No credit will be given for lower division courses taken after successfully completing any upper division Spanish course.

No credit will be given for Spanish 101, 102, 103, 202, 301 taken out of sequence.

101. Introduction to Spanish I (4)

Four hours of lecture plus laboratory. Pronunciation, oral practice, readings on Hispanic culture and civilization, essentials of grammar. Not open to students who have completed three years of high school Spanish unless the third course was completed five or more years ago. Not open to students with credit in Spanish 102, 103 or 202.
102. Introduction to Spanish II (4)
Four hours of lecture plus laboratory.
Prerequisite: Spanish 101 or two years of high school Spanish.
Continuation of Spanish 101. Not open to students who have completed four years of high school Spanish unless the fourth course was completed five or more years ago. Not open to students with credit in Spanish 103 or 202 or higher.

103. Introduction to Spanish III (4)
Four lectures plus laboratory.
Prerequisite: Spanish 102.
Continuation of Spanish 101 and 102. Not open to students who have completed five years of high school Spanish unless the fifth course was completed five or more years ago. Not open to students with credit in Spanish 202 or higher. (Formerly numbered Spanish 201.)

202. Intermediate (4) I, II, S
Prerequisite: Spanish 103.
Review of selected grammatical features supported by study of cultural materials. Emphasis on written and spoken language. Conducted in Spanish. Not open to students with credit in Spanish 282.

211. Intermediate Conversation and Reading (3) I, II, S
Prerequisite: Spanish 102.
Emphasis on oral communication and reading comprehension through intermediate level cultural materials. Some writing will be adjunct to reading. Conducted in Spanish. May be taken concurrently with Spanish 103.

212. Intermediate Conversation and Writing (3) I, II, S
Prerequisite: Spanish 103 or 211.

281. Intermediate Spanish for U.S. Hispanics (3)
Prerequisites: Exposure to Spanish in the home and neighborhood in the U.S. Introduction to written Spanish: orthography, spelling, basic sentence construction, vocabulary enrichment, complex and compound sentence construction, basic principles of writing. Not open to native speakers (with high school diploma from a Spanish speaking country) or students with credit in Spanish 103 or 211 or higher numbered Spanish courses. Replaces Spanish 103 and 211 for Preparation for the Major.

282. Intermediate Spanish for U.S. Hispanics (3)
Prerequisite: Spanish 281 or score on departmental diagnostic examination.
Continuation of Spanish 281. Not open to native speakers (with high school diploma from a Spanish speaking country) or students with credit in Spanish 202 or 212 or higher numbered Spanish courses. Replaces Spanish 202 and 212 for Preparation for the Major.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

297. Reading Spanish for Graduate Students (3) II Cr/NC
Prerequisite: Limited to graduate students.
Techniques of reading expository and critical material for graduate students who have a foreign language requirement.

299. Special Study (1-3)
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Intended for Undergraduates)

All upper division courses in Spanish are taught in Spanish unless otherwise stated.
No credit will be given for lower division courses taken after successfully completing any upper division Spanish course.

301. Advanced Conversation and Reading (3)
Prerequisites: Spanish 202 and 212.
Continued development of oral communication and reading comprehension. Review of selected grammatical structures through use of literary and cultural materials. Some writing will be adjunct to reading. Conducted in Spanish. May be taken concurrently with Spanish 302. Not open to students with credit in Spanish 381.

302. Advanced Conversation and Writing (3)
Prerequisites: Spanish 202 and 212.
Advanced practice at oral communication through conversations and public speaking. Practice of written Spanish through advanced composition. Conducted in Spanish. May be taken concurrently with Spanish 301. Not open to students with credit in Spanish 381.

307. Introduction to Commercial Spanish (3) I
Prerequisite: Spanish 301, 302, or 381.
Terminology and forms of business correspondence and documents.

340. Spanish Civilization (3)
Prerequisites: Spanish 301, 302, or 381; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Spanish culture of the past and present, with emphasis on literature, philosophy and the arts.

341. Spanish American Civilization (3)
Prerequisites: Spanish 301, 302, or 381; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Spanish American cultures, with emphasis on literature, philosophy and the arts.

342. Mexican Civilization (3)
Prerequisites: Spanish 301, 302, or 381; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
The major currents and characteristics of Mexican culture, as expressed through the centuries in literature, philosophy and the arts.

350. Advanced Grammar (3)
Prerequisites: Spanish 301 and 302 or 381.
Significant systematic features of modern Spanish grammar. Required for credential applicants.

381. Advanced Spanish for Spanish Speakers (3)
Prerequisite: Spanish 282 or departmental diagnostic placement examination.
Advanced aspects of Spanish grammar (accentuation rules, intonation, and secondary stress), imperfect subjunctive in combination with other tenses, passive voice and impersonal constructions. Advanced composition of summaries, interpretive essays, and basic research papers. Replaces Spanish 301 and 302 for the Spanish major. Spanish 381 not open to students with credit in either Spanish 301 or 302.

405A-405B. Survey Course in Spanish Literature (3-3)
Prerequisites: Spanish 301 and 302 or 381; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Important movements, authors and works in Spanish literature from the Middle Ages to the present.

406A-406B. Survey of Spanish American Literature (3-3)
Prerequisites: Spanish 301 and 302 or 381; and completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
Reading from representative Spanish American authors during colonial, revolutionary, and modern periods.

448. Spanish Linguistics (3) I, II, S
Prerequisite: Spanish 350.
Structural, historical, and applied Spanish linguistics.
Spanish

449. Phonetics and Phonemics (3) I, II, S
Prerequisite: Spanish 350.
Sounds of Spanish and Spanish phonemic systems. Problems involved in teaching of Spanish pronunciation to English-speaking students.

491. Introduction to Translation Studies (3) I
Prerequisites: Spanish 350 and satisfaction of the University Upper Division Writing requirement. Theoretical grounding and practical problems of literary and non-literary translation; linguistic and cultural obstacles; literary, legal, commercial, medical, social services lexicons in context.

492. Translation Theory (3)
Prerequisite: Spanish 491.

493. Advanced Spanish-English/English-Spanish Translation (3) I, II
Prerequisites: Spanish 350 and 491. Practicum involving methods and techniques in translation of legal or government papers, banking documents, and business contracts from Spanish into English and from English into Spanish. Practice in translation of old Spanish into English (deeds, surveys, baptismal records, manuscripts of books).

495. Internship in Translation and Interpretation (3) I, II
Prerequisites: Spanish 491 and consent of instructor.
Students selectively assigned to legal firms, medical facilities, commercial establishments or public offices that deal routinely with English and Spanish translation and interpretation. Students work 15 hours weekly under joint supervision of site coordinators and instructor. Maximum credit six units.

496. Selected Studies in Spanish (3)
Topics in Spanish or Spanish American language, literature, culture and linguistics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

497. Advanced Commercial Spanish (3) II
Prerequisites: Six units from Spanish 301, 302, or 381 and Spanish 307.
Terminology and techniques used in commercial transactions, including interpretation and writing of business materials.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units. This course is intended only for students who are currently enrolled in or who already have credit for all upper division courses in Spanish available in any given semester.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

501. Genre Studies in Spanish Literature (3)
Prerequisites: Spanish 405A-405B.
A specific literary genre: overview of the genre's development in Spanish literature (Spanish novel, short story, theater) or focus on a narrower period (vanguardista poetry, the "Boom"). May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

502. Genre Studies in Spanish American Literature (3)
Prerequisites: Spanish 406A-406B.
A specific literary genre: overview of the genre's development in Spanish American literature (the Spanish American novel, short story, theater) or focus on a narrower period (vanguardista poetry, the "Boom"). May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

515. Mexican Literature (3)
Prerequisites: Spanish 406A-406B.
Mexican literature from the Romantic period to the present. Special emphasis placed on contemporary era.

520. Caribbean Area Countries Literature (3)
Prerequisites: Spanish 406A-406B.
Literature of Caribbean Islands, Central America, Colombia and Venezuela, from colonial period to present. Special emphasis on contemporary era.

556. Translation of Literary Works: A Critical Comparison (3)
Prerequisite: Spanish 493.
Techniques and methods of translating literary texts from English to Spanish and Spanish to English; textual and stylistic problems in different periods, genres, and dialects, with emphasis on contemporary literature.

561. Methods in Teaching Spanish as a Second Language (3)
Prerequisite: Spanish 350 or 448.
Teaching of Spanish as a second language: contemporary theory and methods. Not open to students with credit or concurrent enrollment in French 561.

572. Spanish American Theater (3)
(Offered only at IVC)
Prerequisites: Spanish 406A-406B.
Principal Spanish American dramatists and movements. Special emphasis on contemporary era.

581. Mexican Sociolinguistics (3)
Prerequisites: Spanish 350; and Spanish 448 or 449.
Sociolinguistic phenomena occurring in Mexico from pre-Columbian times to the present. Language diversity before 1521 and throughout the colony; language contact and bilingualism; language policy and loss of indigenous languages. Emergence of Spanish as the national standard code in the nineteenth century. Regional dialects of Mexican Spanish.

582. Sociolinguistics of U.S. Spanish (3)
Prerequisites: Spanish 350; and Spanish 448 or 449.
Contact of Spanish and English in the U.S. Southwest from 1848 to the present. Spanish language loss in the nineteenth century. Bilingualism in urban and rural communities; language maintenance and shift in the twentieth century. Language attitudes and bilingual education. Varieties of Spanish in the Southwest, the Northeast, and Florida.

596. Selected Studies in Spanish (3)
Prerequisite: Spanish 302 or 381.
Topics in Spanish or Spanish American language, literature, culture and linguistics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.
Faculty
Emeritus: Brady, Doorlag, Forbing, McClard, Singer
Chair: Cegelka
Professors: Cegelka, Graves, Kitano, Lewis, Lynch
Associate Professors: Hall, Valles
Assistant Professors: Alvarado, Johnson

Offered by the Department
Master of Arts degree in education.
Education specialist credentials in special education.
Certificate in bilingual (Spanish) special education (refer to Bulletin of the Graduate Division).
Certificate in developing gifted potential (refer to Bulletin of the Graduate Division).
Certificate in early childhood special education (refer to Bulletin of the Graduate Division).
Certificate in teaching the emotionally disturbed/behaviorally disordered (refer to Bulletin of the Graduate Division).
Resource specialist certificate of competence (refer to Bulletin of the Graduate Division).
Supported employment and transition specialist certificate (refer to Bulletin of the Graduate Division).

Courses (SPED)

UPPER DIVISION COURSES (Also Acceptable for Advanced Degrees)

500. Human Exceptionality (3) I, II, S
Historical, philosophical, and legal aspects of special education that affect identification and programming for diverse learners with exceptionalities. Characteristics of individuals with special needs and implications for adapting living and learning environments. Meets special education mainstreaming requirement for all basic teaching credentials.

501. Typical and Atypical Learning Processes (3)
Prerequisites: Credit or concurrent registration in Special Education 500; concurrent registration in Special Education 502.
Theory, research, and processes in learning in relation to individuals with disabilities. Foundations of learning, development, and intervention.

502. Field Experiences in General and Special Education (1)
Prerequisites: Consent of instructor.
Observation and participation in general and special education classrooms and related school activities for students with disabilities.

505. Educational Services for Students with Serious Emotional Disturbance (1)
Prerequisites: Admission to credential program.
Educational needs and services for students with serious emotional disturbance. Classroom interventions and procedures.

508. Characteristics and Identification of Students Who are Gifted and Talented (3)
Prerequisites: Consent of instructor.
Historical and theoretical foundations, alternative and critical perspectives, characteristics and needs, identification models for a diverse society.

510. Adapting Communication Systems for Students with Severe Disabilities (1)
Prerequisites: Consent of instructor.
Adaptations of communications and communication systems for students with disabilities. Educational strategies that special education teachers can use to augment classroom communications. Alternative approaches to communication for students with moderate/severe disabilities.

524. Characteristics and Education of Students with Mild/Moderate Disabilities (3)
Prerequisites: Special Education 500.
Historical and philosophical perspectives of programs related to students with mild/moderate disabilities. Research on educational programs, curricular approaches, and characteristics.

525. Characteristics and Education of Students with Moderate/Severe Disabilities (3)
Prerequisites: Special Education 500.
Historical and philosophical perspectives of programs related to students with moderate/severe disabilities. Research on educational programs, curricular approaches, and characteristics with emphasis on services in context of school reform.
526. Characteristics and Education of Students with Physical, Health, and Sensory Impairments (3)
Prerequisite: Special Education 500.
Historical and philosophical perspectives, characteristics, needs, and supports for individuals with physical, health, and sensory impair­ments in educational, home, and community settings. Implications of health concerns for programming.

527. Special Education in a Pluralistic Society (3)
Prerequisite: Credit or concurrent registration in Special Education 500.
Historical and philosophical perspectives of cultural pluralism in special education and programs related to diverse students with dis­abilities. Research on curricular approaches and instructional needs. Sociocultural aspects related to disability, race, ethnicity, gender, and language.

528. Young Children with Disabilities and Their Families (3)
Prerequisite: Special Education 500.
Characteristics, needs, and educational programs and services for infants, toddlers, and preschoolers with disabilities and their fami­lies. Legislative requirements, models of service delivery, recom­mended practices, and family diversity.

529. Characteristics and Education of Students with Serious Emotional Disturbances (3) I
Prerequisites: Special Education 500 and 501.
Historical and philosophical perspectives of programs for students with emotional disturbances and behavior disorders, including review of research on student characteristics, educational programs, and curricular approaches.

532. Service Coordination for Infants and Toddlers with Disabilities (2)
Prerequisite: Special Education 528.
Skills and strategies for educators who coordinate services for young children with disabilities and their families. Children with low incidence disabilities and coordination with their primary service providers.

534. Classroom Assessment of Students with Mild/Moderate Disabilities (3)
Prerequisite: Admission to credential program.
Classroom assessment in general and special education for students with mild/moderate disabilities. Curriculum-based data collection strategies. Influences of cultural and linguistic diversity, and implications for curricular and instructional adaptations.

535. Social Networks and Supports for Individuals with Moderate/Severe Disabilities (1)
Prerequisite: Special Education 525 and a minimum of nine units in a credential program.
Developing and maintaining social support networks in the class­room and community for individuals with moderate/severe disabilities. Theoretical, conceptual, and empirical bases for implementation models.

553. Behavioral Strategies and Supports for Students with Disabilities (3)
Prerequisites: Special Education 500 and 501.
Positive behavioral supports for students with disabilities in general and special education settings. Current theories and programs in functional assessment and behavioral change. Applications in educational and community environments with diverse students.

560. Applications of Technology for Individuals with Disabilities (3) I, II
Prerequisite: Special Education 500.
Educational applications of current technologies for learners with disabilities. Selection, modification, and classroom use of technologies to improve or bypass physical, sensory, communicative, learn­ing, and social limitations.

570. Individualized Special Education Program Plans (1)
Prerequisite: Concurrent registration in Special Education 980.
Components of individualized education program plans, individu­alized family service plans, and individualized transition plans. Goals, objectives, and outcomes for program planning. Legal and ethical considerations.

596. Selected Topics in Special Education (1-4) I, II, S
Specialized study of selected topics in special education. May be offered as either a workshop or lecture/discussion. See Class Schedule for specific content. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
The Major

universities. teaching positions in secondary schools, community colleges, and sought for senior positions in industry and government, as well as master's or doctoral level. Statisticians with advanced degrees are

ence, insurance, industrial manufacturing, and market research – in careers in diverse fields – such as biotechnology, environmental sci-

ations. Applied work in statistics, biostatistics, or in that science.

The Major

Statistics is the discipline at the heart of the scientific method of discovery. Statistical principles are used in designing experiments and surveys to collect information, and practical computing skills to carry out statistical analyses of problems in many different areas of applica-

One option within the major allows students with a strong interest in statistical or biostatistical aspects of a particular science to apply courses in that science to their major. This option should provide the interested student with a good background for employment or graduate work in statistics, biostatistics, or in that science.

Statistics is the discipline at the heart of the scientific method of discovery. Statistical principles are used in designing experiments and surveys to collect information, and statistical procedures are applied to summarize information, draw conclusions, and make deci-

Because of the broad applicability of their training in statistical reasoning and data analysis, undergraduate majors are prepared for careers in diverse fields – such as biotechnology, environmental science, insurance, industrial manufacturing, and market research – in which the need for professionally trained statisticians is great.

Graduates who seek to acquire additional skills in applied or theoretical statistics may also consider programs of advanced study at the master’s or doctoral level. Statisticians with advanced degrees are sought for senior positions in industry and government, as well as teaching positions in secondary schools, community colleges, and universities.

Statistics Major

With the B.S. Degree in Applied Arts and Sciences

(Major Code: 17021)

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this cat-

A minor is not required with this major.

Upon entry to the program, the student will be assigned to an undergraduate adviser in statistics. Thereafter, the student will meet with the adviser each semester and discuss his or her academic pro-

In addition to meeting the requirements for undergraduate standing and the basic requirements for the bachelor of science degree as described in this catalog, the student must complete an upper divi-

Preparation for the Major. Statistics 119 or 250; Mathematics 150, 151, 245, 252, and 254; Computer Science 106 or 107. (25 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Statistics 350A, 350B, 551A, 551B, and Mathematics 524; nine units selected (with the approval of the undergraduate adviser in statistics) from Statistics 550, 552, 553, 554A, 554B; 12 upper division units in mathematics (excluding Mathematics 302, 303, 312, 313, 414), computer science, or a science of application (selected with the approval of the undergraduate adviser in statistics).

Statistics Minor

The minor in statistics consists of a minimum of 15 units in statistics to include Statistics 250 (or equivalent), 350A, 350B or 554A, and six units of upper division electives in statistics excluding Statistics 357. For Statistics 550, 551A, 551B, and 553, students must satisfy lower division calculus prerequisites (Mathematics 151 or 252, as appropri-
ate).

The minor program includes a combination of courses in applied statistical methods, computer-oriented data analysis, probability, and mathematical statistics, which can be tailored to the student’s major, academic, or professional interests. For example, business students interested in actuarial science may wish to consider a minor compris-
ing Statistics 350A, 350B, 551A, and 551B. Students in the social, behavioral, and natural sciences who are particularly interested in applications and data analysis may wish to consider a minor compris-
ing Statistics 350A, 350B, 554A, and 554B.

Students considering a minor in statistics are encouraged to con-

Courses (STAT)

(Intermediate algebra is prerequisite to all statistics courses.)

LOWER DIVISION COURSES

NOTE: Proof of completion of Entry-Level Mathematics requirement required for Statistics 119 and 250: Copy of ELM score or verification of exemption.

119. Elementary Statistics for Business (3) I, II, S

Prerequisites: Satisfaction of the Entry-Level Mathematics require-
ment and qualification on the Mathematics Departmental Placement Examination, Part IA.
Measures of central tendency and variability, frequency distributions; probability, Bayes theorem, probability distributions (including binomial, hypergeometric, and normal), sampling distributions, confidence intervals, significance testing, regression and correlation. Not open to students with credit in Statistics 250. Students with credit or concurrent registration in the following lower division statistics courses other than Statistics 250 will be awarded a total of four units for the two (or more) courses: Statistics 119; Biology 215; Civil Engineering 160; Economics 201; Political Science 201; Psychology 270; Sociology 201.

250. Basic Statistical Methods (3) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Departmental Placement Examination, Part IA.
Descriptive statistics: histogram, measures of central tendency and variability, sampling distributions. Estimation and hypothesis tests for means, proportions, variances. Analysis of variance models, linear regression and correlation, nonparametric methods. Not open to students with credit in Statistics 119. Students with credit or concurrent registration in the following lower division statistics courses other than Statistics 119 will be awarded a total of four units for the two (or more) courses: Statistics 250; Biology 215; Civil Engineering 160; Economics 201; Political Science 201; Psychology 270; Sociology 201.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

299. Special Study (1-3)
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES (Intended for Undergraduates)

NOTE: Proof of completion of prerequisites required for all upper division courses: Copy of transcript.

350A. Statistical Methods (3) I
Prerequisite: Statistics 119 or 250 or Biology 215.
One- and two-sample hypothesis tests, paired difference tests, tests for variances, analysis of variance. Linear regression and correlation. Chi-square tests. Simple nonparametric tests. The power of hypothesis tests.

350B. Statistical Methods (3) II
Prerequisite: Statistics 350A.
Multiple regression, factorial models and nonparametric methods, all with emphasis on applications.

357. Probability and Statistics (3) I, II
Prerequisite: Mathematics 150.
Probability, measures of central tendency and dispersion, characteristics of frequency functions of discrete and continuous variables; applications. Highly recommended for all prospective secondary school teachers of mathematics.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

NOTE: Proof of completion of prerequisites required for all upper division courses: Copy of transcript.

550. Applied Probability (3) I, II, S
Prerequisites: Mathematics 151 and 254.
Computation of probabilities via enumeration and simulation, discrete and continuous distributions, moments of random variables. Markov chains, counting and queuing processes, and selected topics.

551A. Mathematical Probability (3) I, II
Prerequisite: Mathematics 252.
Discrete and continuous random variables, probability mass functions and density functions, conditional probability and Bayes’ theorem, moments, properties of expectation and variance, joint and marginal distributions, functions of random variables, moment generating functions. Special distributions and sampling distributions.

551B. Mathematical Statistics (3) II
Prerequisite: Statistics 551A.
Point and interval estimation and hypothesis testing in statistical models with applications to problems in various fields.

552. Sample Surveys (3) I
Prerequisite: Statistics 550 or 551A.
Methods for design and analysis of sample surveys with applications to social and biological sciences. Simple random sampling, stratification and clustering, ratio and regression estimators, subsampling, selected topics in survey methodology.

553. Stochastic Processes (3)
Prerequisite: Statistics 550 or 551A.
Introduction to stochastic processes with selected applications.

554A. Computer Oriented Statistical Analysis (3) I
Prerequisite: Statistics 350A.
Using statistical computer packages such as BMDP and SAS to analyze problems in univariate ANOVA, multiple regression, contingency tables, nonparametric methods and discriminant analysis.

554B. Advanced Computer Oriented Statistical Analysis (3) II
Prerequisite: Statistics 554A.
Analyze problems in multivariate ANOVA, factor analysis, repeated measures, logistic regression, loglinear models, cluster analysis. Using statistical computer packages.

596. Advanced Topics in Statistics (1-4) I, II
Prerequisite: Consent of instructor.
Selected topics in statistics. May be repeated with the approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
A variety of program options, including full-time, part-time, and accelerated models are available to credential candidates. Daytime commitments are required for student teaching placements. Examinations and/or coursework prerequisite to program admission, if not completed within the undergraduate degree program, may extend the total time commitment for credential issuance.

The Single Subject Credential qualifies graduates to teach in grades K-12 in a specific subject area. Most candidates prepare to teach in grades 7-12 (usually junior or senior high school) or in a middle school setting (usually grades 6-8). Students in the program follow a sequence of courses which normally takes two semesters to complete. The first semester of the program emphasizes curriculum theory and development, educational research, and foundations of education and includes a part-time student teaching experience. The second semester focuses on a full-time student teaching experience and accompanying seminar. The program requires a daytime commitment. A part-time program is also available. This program provides more flexibility for students who have additional responsibilities. Coursework in this program is offered in the late afternoon and evenings. Examinations and/or coursework prerequisite to program admission, if not completed within the undergraduate degree program, may extend the total time commitment for credential issuance by one or more semesters.

Multiple Subject Credential
(Elementary Education)  (Credential Code: 00200)

Persons interested in teaching in the traditional elementary school will typically pursue the Multiple Subject credential which authorizes teaching service in self-contained classrooms in preschools, grades K-12, and in classes organized primarily for adults (classrooms in which one teacher is responsible for all the subjects commonly taught). Recommendation for this credential requires:

1. A baccalaureate or higher degree.
2. Completion of an approved program of professional education, including student teaching and coursework in reading methods with a grade point average of 3.0 or higher.
3. Basic skills competency as demonstrated through passing scores on the California Basic Educational Skills Test (CBEST).
4. Demonstrated subject matter competency through completion of an approved waiver program (Liberal Studies or passing scores on the PRAXIS Multiple Subject Assessment for Teachers (MSAT) (must have scores taken within five years prior to recommendation).
5. Demonstrated knowledge of the principles and provisions of the United States Constitution through successful completion of a three-unit collegiate-level course or examination. (Courses are listed in the section of this catalog on “Graduation Requirements.”) IV. American Institutions Requirement, B.2. United States Constitution.
6. Knowledge of health education in California, including substance abuse and nutrition: Community Health Education 101 or 920, and verification of CPR competency.

7. Demonstrated knowledge of the Individuals with Disabilities Act. Needs of and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming), Special Education 500 or Teacher Education 526.

8. Demonstrated knowledge of computer hardware, software, and applications to educational/classroom use (computer literacy): Educational Technology 470.

9. Completion of a fifth year of study (30 units of upper division or graduate-level coursework completed after issuance of the baccalaureate degree; coursework in professional preparation, including student teaching, may apply if completed after the baccalaureate degree).

The Professional Clear Multiple Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

Multiple Subject (Elementary) — Preliminary Credential

Candidates may be recommended for Preliminary Multiple Subject teaching credentials when they have satisfied requirements 1, 2, 3, 4, and 5 listed above. Applicants whose academic programs allow them to meet these requirements concurrently with their baccalaureate degrees will be eligible for preliminary certification. The Preliminary credentials have the same teaching authorizations as the Professional Clear credentials and are valid for five-year periods. Holders of the Preliminary credentials must complete items 7, 8, 9, and 10 within that five-year time period in order to be renewed as Professional Clear credentials. Five-year preliminary credentials may not be extended without completion of the additional requirements within the original five years of issuance.

NOTE: Undergraduate students in the Multiple Subject credential program may register for concurrent postbaccalaureate credit in their final semester prior to obtaining a baccalaureate degree as explained in the section of this catalog on “General Regulations.”

Admission Standards and Qualifications for the Multiple Subject Credential Program

Candidates for the Multiple Subject Credential Program must satisfy the standards and qualifications listed below and submit complete application packets to the School of Teacher Education, ED 100. Contact the School of Teacher Education for application dates.

Completed application packets will include items verifying satisfaction of the following:

1. CBEST Examination. Students must pass the California Basic Educational Skills Test (CBEST) prior to admission to the Multiple Subject credential program. Registration information and materials for the CBEST are available in the lobby of the Education building. Candidates are urged to take this examination as early as possible. Candidates are required to submit a photocopy of the individual score reports.

2. Subject Matter Competency. Students must verify completion of subject matter competency in diversified subjects commonly taught in self-contained classrooms prior to admission to the Multiple Subject Credential Program. This may be done through successful completion of the Liberal Studies major or its equivalent at another California teacher-training institution or passing scores on the PRAXIS Multiple Subject Assessment for Teachers (MSAT). Test scores submitted for verification of subject matter competency are valid for five years from the date of the examination and must be valid at the time of recommendation for the credential. Registration information and materials for the PRAXIS MSAT are available in the lobby of the Education building.

3. Prerequisite Courses. These courses or approved equivalents must be completed with grades of “C,” “CR,” or higher no more than five years prior to admission to the Multiple Subject Credential Program. The courses may be in progress at the time of program application.

   a. Education 451, “Introduction to Multicultural Education.” This course provides an introduction to ethnicity, language, and culture in education, particularly the ways in which those factors differentially affect educational outcomes for children. The course assists in preparing teacher applicants to work with students from diverse backgrounds by examining both societal and personal belief systems and the ways that those beliefs are expressed in public school classrooms.

   b. Mathematics 210, “Number Systems in Elementary Mathematics.” This course covers pre-number concepts; development of whole numbers, integers, and their operations; number theory; geometric concepts of two and three-dimensional spaces; problem-solving strategies. With approval of the mathematics advisor, any of the following courses may be substituted for Mathematics 210: Mathematics 121, 150, 312.

Candidates are required to submit unofficial transcripts from SDSU and official transcripts from all other colleges and universities attended including any current coursework-in-progress to verify completion of or enrollment in these courses.

4. Grade Point Average. Candidates must have attained a grade point average of at least 2.67 in all baccalaureate and postbaccalaureate coursework or a grade point average of at least 2.75 in the last 60 semester units attempted. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial transcripts for SDSU coursework for GPA calculations.

5. Letters of Recommendation. Candidates must submit two letters of recommendation from individuals who know the candidate well (but are not related by blood or marriage) and who can comment directly on factors such as the candidate’s qualifications for a teaching career in a multicultural setting, work or educational experiences, experience teaching or supervising students or other groups of individuals, personal character, and/or potential for success as a teacher. The signed letters may be hand carried and do not need to be confidential or in sealed envelopes, but must be on letterhead stationery (name, address, and phone number of sender included). If the letters are not on letterhead, the name, address, and phone number of the sender must be typed on the letter.

6. TB Clearance. Evidence of a negative tuberculosis test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMO’s, or public health agencies.

7. California Certificate of Clearance. This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a valid credential, candidates may submit their clearance application packets and fees concurrently with program applications.

8. Early Field Experience. Candidate must successfully complete a minimum of 30 hours of observation and participation in a regular classroom in public elementary schools. This documented through the Early Field Experience Guide — Multiple Subject
available in the SDSU Bookstore in the book stacks under “Teacher Education” or for mail delivery by calling (619) 594-7535. The guide is also available for downloading from the School of Teacher Education Web site at http://www.edweb.sdsu.edu/STE/teachecred.htm. Either the original or a photocopy of the Early Field Experience Guide must be turned in as part of the application to the credential program.

9. Personal Narrative. The narrative should address the following items:
   a. The candidate’s interest in and motivation for a teaching career in a multicultural setting;
   b. The candidate’s personal background and experience in working with children in multicultural settings;
   c. Other experiences personally considered important in the teacher preparation process;
   d. Any abilities, knowledge, skills, or experience that will enhance the candidate’s effectiveness as a teacher (e.g., ability to speak another language, play a musical instrument, use technologies, or experience working with individuals with disabilities or special needs).

Further information on the personal narrative is available in the School of Teacher Education, ED-100.

10. Appeals Process. Candidates who do not meet all the admission requirements may petition the Multiple Subject Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the application packets.

In addition to the minimum admissions standards identified above, the Multiple Subject Admissions and Retention Committee also may consider qualifications such as previous teaching experience, relevant working experience with children, and second language ability. Due to the number of applicants, application to the program does not ensure admission.

NOTE: Appointments for discussion of individual concerns relative to the credential program may be made with the Multiple Subject Credential Program Adviser during the academic year through the School of Teacher Education, ED-100, (619) 594-6131. All candidates are urged to attend one of the regularly scheduled group advising sessions prior to making an individual appointment.

Multiple Subject Credential
Cross-Cultural Language and Academic Development (CLAD) Emphasis
(Credential code: 00200)

The program of study leading to the Multiple Subject Credential with an emphasis in Cross-Cultural, Language, and Academic Development (CLAD) prepares candidates to teach in classrooms serving the increasing number of children in our schools with limited English proficiency in situations where bilingual teachers are not available. The CLAD program provides candidates with more training than basic credential candidates in three areas: language acquisition/development, culture, and pedagogical strategies for English language development. This credential will help meet the critical shortage of bilingual teachers in California public schools by preparing entry level teachers to deliver specially-designed academic instruction in English promoting both language development and academic success in all content areas.

Candidates recommended for the Multiple Subject Teaching Credential with a Cross-Cultural, Language and Academic Development Emphasis (CLAD) must meet all the requirements for the Multiple Subject Preliminary Credential and satisfy the admission standards and qualifications for the Multiple Subject Credential program listed above. In addition, they must complete the following requirements:

1. Experience Learning a Second Language
   Six semester units of college coursework in a second language or equivalent experience such as three years of high school foreign language, Peace Corps training and service or residence in a non-English speaking country.*

2. Prerequisite Course
   Education 451 ...................................................... 3 units

3. Corequisite Courses
   Education 516 .................................................... 1 unit
   Policy Studies in Language and Cross-Cultural Education 915A ........................ 3 units
   OR
   Linguistics 550 .................................................... 3 units

* Already required for Liberal Studies major and some Single Subject majors.

Single Subject Credential/CLAD Emphasis
(Secondary Education) (Credential Code: 00100)

Single Subject--Professional Clear Credential

Persons interested in teaching in the traditional secondary school will typically pursue the Single Subject credential which authorizes teaching service in departmentalized, subject matter classrooms in preschools, grades K-12, and in classes organized primarily for adults (classes where instruction is provided in only one subject). Candidates must verify subject matter competency in one of the following subject fields:

ACCEPTABLE SINGLE SUBJECT CREDENTIAL AREAS AND APPLICABLE MAJORS

English: Communication, Comparative Literature, English, Journalism, Linguistics, Theatre

Foreign Languages: Classics (Latin), Spanish

Science: Biology, Chemistry, Geological Sciences, Physical Science

Mathematics: Mathematics

Music: Music

Physical Education: Kinesiology (Specialization in Physical Education)

Social Science: Social Science

Recommendation for this credential requires:

1. A baccalaureate or higher degree.

2. Completion of an approved program of professional education, including student teaching with a grade point average of 3.0 or higher and coursework in reading methods. The required courses at SDSU are Teacher Education 903, 915B, 922, 933, 954, 963, 964.

3. Basic skills competency as demonstrated through passing scores on the California Basic Educational Skills Test (CBEST).

4. Demonstrated subject matter competency through completion of an approved waiver program in one of the California Single Subject areas, through a combination of coursework and competency examinations, or through PRAXIS/SSAT examinations. Candidates should check with the School of Teacher Education, ED-100, to clarify the appropriate means for satisfaction of the subject matter competency requirement in their subject matter area(s). Competency must be verified and assessed by a designated departmental adviser regardless of the means of establishing knowledge proficiency.

5. Demonstrated knowledge of the principles and provisions of the United States Constitution through successful completion of a three-unit collegiate-level course or examination. (Courses are listed in the section of this catalog on “Graduation Requirements,” IV. American Institutions Requirement, C.b.2.)
6. Knowledge of health education in California, including substance abuse and nutrition, Community Health Education 101 or 920, and verification of CPR competency.

7. Demonstrated knowledge of the Individuals with Disabilities Act. Needs of and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming): Special Education 500 or Teacher Education 526.

8. Demonstrated knowledge of computer hardware, software, and applications to educational/classroom use (computer literacy): EDTEC 470.

9. Completion of a fifth year of study (30 units of upper division or graduate-level coursework completed after issuance of the baccalaureate degree; coursework in professional preparation, including student teaching, may be applied if completed after the baccalaureate degree).

The Professional Clear Single Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

Single Subject–Preliminary Credential

Candidates may be recommended for Preliminary Single Subject teaching credentials when they have satisfied requirements 1, 2, 3, 4, and 5 listed above. Applicants whose academic programs allow them to meet these requirements concurrently with their baccalaureate degrees will be eligible for preliminary certification. The Preliminary credentials have the same teaching authorizations as the Professional Clear credentials and are valid for five-year periods. Holders of the Preliminary credentials must complete items 6, 7, 8, and 9 within that five-year time period in order to be renewed as Professional Clear credentials. Five-year Preliminary credentials may not be extended without completion of the additional requirements within the original five years of issuance.

NOTE: Undergraduate students in the Single Subject credential program may register for concurrent postbaccalaureate credit in their final semester prior to obtaining a baccalaureate degree as explained in the section of this catalog on “General Regulations.”

Admission Standards and Qualifications for the Single Subject Credential Program

Candidates for the Single Subject Credential Program must satisfy the standards and qualifications listed below and submit complete application packets to the School of Teacher Education, ED-100. Contact the School of Teacher Education for application dates. Completed application packets will include items verifying satisfaction of the following:

1. CBEST Examination. Students must pass the California Basic Educational Skills Test (CBEST) prior to admission to the Single Subject Credential Program. Information may be obtained from the Test Office, SS-2549. Candidates are urged to take this examination as early as possible. Candidates are required to submit a photocopy of the individual score reports.

2. Subject Matter Competency. Students must verify competency in a specified single subject area through a university assessment process which consists of reviewing coursework for completion of an approved teaching major or its equivalent at San Diego State University or another approved California teacher-training institution, passing scores on the appropriate PRAXIS/SSAT examinations. Competency will be assessed and verified by subject matter departments at SDSU. Requirements for the various single subject majors are listed with the academic majors in this catalog. Early submission of completed application packets is encouraged to facilitate enrollment and preference in block placement. Applicants submitting materials late in the term may be considered on a “space available basis” only. Test scores submitted for verification of subject matter competency are valid for five years from the date of the examination. Information and registration materials for all current examinations are available at the School of Teacher Education, ED-100.

3. Prerequisite Course. This course or its approved equivalent must be completed with grades of ‘C,’ ‘CR,’ or higher no more than five years prior to admission to the Single Subject Credential Program. The course may be in progress at the time of program application.

Education 451, “Introduction to Multicultural Education.” This course provides an introduction to ethnicity, language, and culture in education, particularly the ways in which those factors differentially affect educational outcomes for children. The course assists in preparing teacher applicants to work with students from diverse backgrounds by examining both societal and personal belief systems and the ways that those beliefs are expressed in public school classrooms.

4. Grade Point Average. Candidates must have attained a grade point average of at least 2.67 in all baccalaureate and postbaccalaureate coursework or a grade point average of at least 2.75 in the last 60 semester units attempted. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial copies of transcripts for SDSU coursework for GPA calculations.

5. Letters of Recommendation. Candidates must submit two letters of recommendation from individuals who know the candidate well (but are not related by blood or marriage) and who can comment directly on factors such as the candidate’s qualifications for a teaching career in a multicultural setting, work or educational experiences, experience teaching or supervising students or other groups of individuals, personal character, and/or potential for success as a teacher. The signed letters may be hand carried and do not need to be confidential or in sealed envelopes, but must be on letterhead stationery (name, address, and phone number of sender included). If the letters are not on letterhead, the name, address, and phone number of the sender must be typed on the letter.

6. TB Clearance. Evidence of a negative tuberculosis test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMO’s, or public health agencies.

7. California Certificate of Clearance. This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a valid credential, candidates may submit their clearance application packets and fees concurrently with program applications.

8. Early Field Experience. Candidates must successfully complete a minimum of 50 hours of observation and participation in a “regular” classroom in public secondary schools. This documented through the Early Field Experience Guide – Single Subject available in the SDSU Bookstore in the book stacks under “Teacher Education” or for mail delivery by calling (619) 594-7535. The guide is also available for downloading from the School of Teacher Education Web site at http://www.edweb.sdsu.edu/STE/teachcred.htm. Either the original or a photocopy of the Early Field Experience Guide must be turned in as part of the application to the credential program.
9. **Personal Narrative.** The narrative should address the following items:
   a. The candidate’s personal background and experience working with children in multicultural settings;
   b. The candidate’s other experiences personally considered important in the teacher preparation process;
   c. The candidate’s interest in and motivation for a teaching career in a multicultural setting and;
   d. Any abilities, knowledge, skills, or experience that will enhance the candidate’s effectiveness as a teacher (e.g., ability to speak another language, use technologies, or experience working with individuals with disabilities or special needs).

   Further information on the personal narrative is available in the School of Teacher Education, ED-100.

10. **Appeals Process.** Candidates who do not meet all the admission requirements may petition the Single Subject Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the application packets.

   In addition to the minimum admissions standards identified above, the Single Subject Admissions and Retention Committee also may consider qualifications such as previous teaching experience, relevant working experience with children, and second language ability. A personal interview may also be necessary. Due to the number of applicants, application to the program does not ensure admission.

   **NOTE:** Appointments for discussion of individual concerns relative to the credential program may be made with the Single Subject Credential Program Adviser during the academic year through the School of Teacher Education, ED-100. (619) 594-6131. All candidates are urged to attend one of the regularly scheduled group advising sessions prior to making an individual appointment.

**Single Subject Cross-Cultural Language and Academic Development (CLAD) Emphasis**

*(Credential Code: 00100)*

The program of study leading to the Single Subject with Cross-Cultural Language and Academic Development (CLAD) emphasis prepares candidates to teach in classrooms serving the increasing number of children in our schools with limited English proficiency in situations where bilingual teachers are not available. The CLAD program provides candidates with training in three areas: language acquisition/development, culture, and pedagogical strategies for English language development. This credential will help meet the critical shortage of bilingual teachers in California public schools by preparing entry level teachers to deliver specially-designed academic instruction in English promoting both language development and academic success in all content areas.

Candidates recommended for the Single Subject with Cross-Cultural Language and Academic Development (CLAD) emphasis must meet all the requirements for the Single Subject Preliminary Credential and satisfy the admission standards and qualifications for the Single Subject Credential Program. In addition, they must complete the following prerequisites:

1. **Experience Learning a Second Language.** Six semester units of college coursework in a second language or equivalent experience such as three years of high school foreign language, Peace Corps training and service or residence in a non-English speaking country.

2. **Prerequisite Course.**

   **Total Units:** 30-35

**Information Applicable to Both Multiple Subject and Single Subject Credentials**

Departmental admission to either the Multiple Subject or Single Subject credential program does not constitute admission to the university. Candidates who are entering the university for the first time, or who have graduated or who are graduating, and are planning to re-enroll for the credential program must file a separate application for admission to the university during the regular university application period.

**New Students Who Seek to Complete a Credential**

Teachers with Preliminary Multiple Subject or Single Subject credentials who are working toward Professional Clear certification may have individual programs designed to meet their needs and interest areas. Arrangements for evaluation of college credit and program design can be made through the Credentials Office, ED-151, (619) 594-5964.

**Advanced Standing in Teacher Education**

A student transferring into San Diego State University to complete requirements for either the Preliminary or Professional Clear Multiple Subject or Single Subject credential must complete a minimum of six units of professional education coursework in residence at SDSU in order to be recommended for certification regardless of the extent of education work completed at other institutions.

**Evaluation of Credits**

After an interval of five years, courses in education are reevaluated and subject to reduction in credit, in light of new requirements and changes in educational procedures. All courses taken either at this University or elsewhere must be approved by an official adviser in order to be credited toward meeting credential requirements or pattern requirements for a degree.

**GPA Requirements For Continuation in Multiple Subject / Single Subject Credential Programs**

A grade point average of 3.0 must be maintained each semester to permit a student to continue in the Multiple Subject and Single Subject credential programs.
Supplementary Authorizations

With completion of additional units in certain curriculum areas, both Single and Multiple Subject teachers can be granted supplementary authorizations to teach in generalized areas in middle and junior high schools (e.g., Introductory English). Single subject teaching credential candidates can also be granted supplementary authorizations to teach in specialized areas K-12 (e.g., psychology). Information on requirements for these supplementary authorizations is available through the Credentials Office, ED-151.

Description of Interdepartmental Major for Elementary Teaching

Liberal Studies Major
With the B.A. Degree in Liberal Arts and Sciences
(Premajor Code: 49012) (Major Code: 49015)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

The Liberal Studies major meets all the requirements for the multiple subject/diversified major as specified for the Multiple Subject credential.

Refer to the section of the catalog on “Liberal Studies” for an outline of the requirements for this major.

The following coursework is required for acceptance into the education program and may be included in the Liberal Studies major unless otherwise noted:

- Education 451
- Mathematics 210

Other students who wish to take this major must consult the Dean of the Division of Undergraduate Studies to secure program approval.

General advising for the Liberal Studies major is available at the Academic Advising Center.

Children’s Literature Certificate

This certificate attests that the student has successfully completed 18 units (minimum GPA 3.0) of planned, advised, coherent, and articulated study in the field of literature for children. Prerequisites include admission to the University and to upper division or graduate standing. The Certificate in Children’s Literature may be earned with a specialization in Education or in English and Comparative Literature. Nine units in the certificate program may be counted toward the major in English, and six units may be counted toward the minor in English.

Specialization in Education. Nine units from courses in group A, six units from group B, and three units of an appropriate elective chosen with the approval of a faculty adviser.

Specialization in English and Comparative Literature. Nine units from courses in group B, six units from group A, and three units of an appropriate elective chosen with the approval of a faculty adviser.

Group A, Education: Educational Technology 596; Teacher Education 496*, 530.

Group B, English and Comparative Literature: Comparative Literature 561 (when offered as European Children’s Literature); English 496*, 501, 526*, 527*, 528*, 549*.

* With adviser’s permission when the subject is closely related to children’s literature.

Courses (TE)

Note to all Multiple Subject and Single Subject credential candidates: All credential courses are listed and described in the Graduate Bulletin under the 900-series courses.

UPPER DIVISION COURSES
(Intended for Undergraduates)

303. The Teaching Profession: First Clinical Experience (4) [Offered only at IVC]
Three lectures and three hours of laboratory. Prerequisite: Requires clearance for all legally mandated fingerprint requirements.
Social science concepts and theories for the teaching profession; guided student observation and participation in public school classrooms.

362. Fieldwork in Community Settings (1-4)
One lecture and two to six hours of activity. Prerequisites: Consent of instructor and intent to enroll in teaching credential programs. Tutoring process and teaching strategies for the content being tutored. Maximum credit six units.

397. Problems in Education (Credit to be arranged) I, II [Offered only in Extension]
Prerequisite: Consent of instructor. Class study of specially selected problems in education. Does not apply to pattern requirements for credentials. Credit earned in this course not applicable to a bachelor’s degree.

402. Foundations of Education (3) I, II [Offered only at IVC]
Prerequisite: Admission to multiple or single subject teaching credential program.
Combines disciplines of anthropology, economics, history, philosophy, political science, psychology, and sociology to introduce student to concepts and generalizations informing the teaching and learning process in modern classrooms.

415. Methods and Materials of Instruction (3) I, II [Offered only at IVC]
Prerequisites: Admission to single subject teaching credential program.
Teaching concerns, instructional planning and materials, classroom management, measurement and evaluation, effective discipline, curriculum, computer literacy, special problems encountered in teaching, career planning, school-community communication processes.

434. Teaching of Reading (3) I, II [Offered only at IVC]
Two lectures and two hours of laboratory. Nature of reading as a human behavior; various approaches and materials used to facilitate student growth in learning to read.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Open only to senior and graduate students in education who have shown ability to work independently. Individual study. Maximum credit six units.

390
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

511. Diagnosis and Remediation of Difficulties in Mathematics (3)
The assessment and remediation of underachievers in mathematics. Techniques in determining difficulties in mathematics and prescrib- ing remedial work; for use by elementary and secondary classroom teachers and mathematics education specialists.

525. Discipline and Classroom Management (3) I, II
Prerequisite: Six upper division units in education, psychology or sociology.
Analysis of research and theories of classroom discipline, management, and teaching effectiveness, with practical application to the elementary and secondary classroom setting.

526. Teaching the Special Child in the Regular Classroom (2)
Prerequisite: Teaching credential or admission to multiple or single subject credential programs.
Knowledge, skills, and instructional programs for teaching handicapped students in the regular classroom. Meets the mainstreaming requirements for the California Multiple Subject credential (clear). Not open to students with credit in Special Education 550, Teaching the Special Child in the Regular Classroom.

530. Children's/Adolescents' Literature (3) I, II
Survey of children's/adolescents' literature and its incorporation into the classroom curriculum.

596. Topics in Teacher Education (1-3 or 6) SP* I, II
Designed to meet the needs of individuals or groups of teachers who wish to develop or continue the study of some problem. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum six units of 596 and 696 applicable to a 30-unit master's degree.

* Specified sections.

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Theatre
In the College of Professional Studies and Fine Arts

Offered by the Department rewarding undergraduate major, even for those who do not plan a
to enrich their present and future lives by learning to understand
teaching, or teaching. Our second, and equally important mis-
career in theatre, whether that career be in acting, directing, design,
Blaze Powell Chair in Scene Design was established through
The Don W. Powell Chair in Scene Design: Funicello
The Don W. Powell Chair in Scene Design: Funicello

The Major

The bachelor's degree in theatre arts prepares students for careers in the practical, theoretical, scholarly, and teaching areas of theatre. To achieve that goal, the department offers a rich variety of courses and a six-play production season open to the San Diego community with many creative design and performance opportunities for the student. In addition, professional growth opportunities are provided through association with a number of regional professional theatre companies as well as campus visits by professional theatre managers, directors, stage managers, designers, playwrights, and performers. The program is structured in a manner which involves students in all aspects of theatre. Students have the option of pursuing either a general emphasis in theatre arts or specializing in a single emphasis area.

The Department of Theatre offers students a wide variety of courses taught by a highly qualified faculty. The mission of the department is twofold. First, we wish to provide quality education on the undergraduate and graduate levels for students who desire to pursue a career in theatre, whether that career be in acting, directing, design, technical theatre, or teaching. Our second, and equally important mission, is a strong commitment to the philosophy of the University as a liberal arts institution. We provide undergraduate students an opportunity to enrich their present and future lives by learning to understand and enjoy the art of theatre.

The faculty of the Department of Theatre believes that theatre is a rewarding undergraduate major, even for those who do not plan a career in the field. The study of theatre enriches the lives of men and women because it helps them to know themselves and to interact effectively with one another. Through the art of theatre, we experience the work of some of the greatest writers, thinkers, and artists our civilization has ever known. As we learn about theatre, we understand more about ourselves and develop a strong respect for the human spirit.

The Department of Theatre's training is specifically geared toward assisting students in their efforts to seek professional work in various fields of theatre arts, to seek teaching positions in various levels of educational theatre, to contribute to the cultural life of the community by participating in civic and community theatre work, and to further their awareness of drama as a significant art form in order to become informed and discriminating members of the theatre public.

In addition, the Department of Theatre offers a wide variety of courses which provide excellent enrichment opportunities for the non-theatre major. Students pursuing study in "people/service related" disciplines such as education, business administration, telecommunications and film, counseling, advertising, journalism, and prelaw are encouraged to explore the many courses available in the department's curriculum which will prove rewarding and beneficial to their career objectives.
**Theatre Arts Major**

A minimum of 39 upper division units in theatre to include Theatre 310, 315, 325, 359, 425, 442A, 442B, 446A (one unit), 446B (one unit), 460A, 460B, 510, 580; Teacher Education 530; and three units selected from Theatre 329A, 329B, 440, 447, 452, 459, 475A, 475B.

**Emphasis in Design and Technology for the Theatre**

**Preparation for the Major.** Theatre 100, 107, 110, 120, 130, 240A, 240B, 240C, (20 units)

**Upper Division Writing Requirement.** Passing the University Writing Examination or Rhetoric and Writing Studies 503W with a grade of C (2.0) or better.

**Major.** A minimum of 42 upper division units in theatre to include Theatre 325, 359, 425, 440, 442A, 442B, 446A (one unit), 446B (one unit), 447, 452, 460A, 460B, 530; and three units selected from Theatre 448, 540, 547, 548, or 552; and six units selected from Theatre 349, 539, 541, 543, 545, 546, 549, 550, 554A, or 554B. Recommended electives: Theatre 345, 475A, 551, 570A, 570B.

**Emphasis in Design for Television and Film**

**Preparation for the Major.** Theatre 100, 107, 130, 240A, 240B, 240C, (18 units)

**Upper Division Writing Requirement.** Passing the University Writing Examination or Rhetoric and Writing Studies 503W with a grade of C (2.0) or better.

**Major.** A minimum of 55 upper division units in theatre to include Theatre 325, 359, 425, 440, 442A, 442B, 446A (one unit), 446B (one unit), 447, 452, 460A, 460B, 530; Television, Film and New Media 320, 324, 325, 550; and six units selected from Theatre 448, 540, 547, 548, 552, Television, Film and New Media 401 or Television, Film and New Media 551; and four units selected from Theatre 539, 541, 543, 545, 546, 549, 550, 554A, or 554B.

**Emphasis in Performance**

**Preparation for the Major.** Theatre 100, 107, 110, 120, 130, 231, 240A, 240B, 240C, (27 units)

**Upper Division Writing Requirement.** Passing the University Writing Examination or Rhetoric and Writing Studies 503W or 500W with a grade of C (2.0) or better.

**Major.** A minimum of 42 upper division units in theatre to include Theatre 320, 325, 332, 355, 359, 425, 442A, 442B, 446A (one unit), 446B (one unit), 447, 452, 460A, 460B, 530; Television, Film and New Media 320, 324, 325, 550; and six units selected from Theatre 448, 540, 547, 548, 552, Television, Film and New Media 401 or Television, Film and New Media 551; and four units selected from Theatre 539, 541, 543, 545, 546, 549, 550, 554A, or 554B.

**Upper Division Writing Requirement.** Passing the University Writing Examination or Rhetoric and Writing Studies 500W with a grade of C (2.0) or better.

**Major.** A minimum of 39 upper division units to include Theatre 325, 359, 425, 460A, 460B, 580, and Theatre 310 or Comparative Literature 562; English 533 and Rhetoric and Writing Studies 509; three units selected from English 522, 523, 524, or 525 (for those students who previously selected English 260A and 260B), or three units selected from English 560A or 560B (for those students who previously selected English 250A and 250B); and nine units selected from one of the following sequences:

- **Children’s Drama:** Theatre 315, 459, 510.
- **Design for Theatre:** Theatre 440, 447, 452, 546, 548.
- **Musical Theatre:** Theatre 350, 351, 355, 555.
- **Performance/Stage Management:** Theatre 110, 231, 355 or 555, 459, 475A.

An additional six units selected from the following: Africana Studies 460, 461, 462, 463, 464; American Indian Studies 430; Chicana and Chicano Studies 335, 464; Communication 360, 371, 391, 407, 408, 491; English 519 or 520 and 541A or 541B; Linguistics 420, 530, 550.

**Theatre Arts Minor**

Theatre 100 is prerequisite to the theatre arts minor and does not count towards the units required for the minor.

The minor in theatre arts consists of 24 units in theatre to include Theatre 107, 120; 115 or 345, 460A or 460B; and three units selected from Theatre 240A, 240B, or 240C; three units selected from Theatre 310, 315, or 325; and six units selected from Theatre 355, 442A, 442B, 475A, or 555.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and General Education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

**Courses (THEA)**

**LOWER DIVISION COURSES**

(Unless otherwise noted, all Drama courses are now listed as Theatre courses.)

100. **Theatre and Civilization (3) I, II**

Introduction to theatre as a reflection of society and a contributor to development of civilization. Emphasis on theatre’s continuing relevance to contemporary world. Attendance at selected theatre events required.

107. **Design Communication and the Audience Response (3) I, II**

Use of visual and aural design components by the actor, director, and designer in relation to audience response. Preparatory to theatre arts major sequence.

110. **Voice and Speech I (3) I, II (CAN DRAM 6)**

Exercises and drills to improve the quality, flexibility and effectiveness of the speaking voice leading to good usage in standard American speech.

115. **Acting for Nonmajors (3) I, II**

Improvisational exercises (verbal and nonverbal) in sensory awareness, observation, concentration, listening, and response skills with application to other fields. Individual presentation techniques for the preprofessional in other disciplines. Not open to theatre arts major.

120. **Heritage of Dramatic Literature (3) I, II**

Three lectures and attendance at selected performances. Survey of dramatic literature from classical to the modern period, including classical, medieval, Renaissance, Restoration, neoclassical, romantic, realistic and modern plays.
130. Acting I (3) I, II (CAN DRAM 8)
Development of individual's ability to express thought and emotion through effective use of the voice and body. These fundamental concepts may be applied to stage, film, and television acting.

231. Acting II (3) I
Prerequisite: Theatre 130.
Continuation of Theatre 130, emphasizing application of fundamental skills to problems of text analysis, subtext, playing action, characterization, and ensemble work.

240A. Theatre Design and Technology I (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Theatre 100 and 107. Proof of completion of prerequisite required: Copy of transcript.
Design, technical practices, and production organization for the theatre; scenery and stagecraft.

240B. Theatre Design and Technology II (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Theatre 100 and 107. Proof of completion of prerequisite required: Copy of transcript.
Design, technical practices, and production organization for the theatre: costume and makeup.

240C. Theatre Design and Technology III (3)
Two lectures and three hours of laboratory.
Prerequisite: Theatre 240A. Proof of completion of prerequisite required: Copy of transcript.
Design, technical practices, and production organization for the theatre: lighting and sound.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

310. Creative Drama I (3) I, II, S
Current philosophies, principles, and techniques of creative drama. Development of the individual through use of dramatic play, imaging, improvisation, and theatre games. Applicable to classroom teaching, counseling, recreation, and senior citizen programs.

315. Theatre for Young Audiences (3) I, II
Current philosophies and practices in theatre for young audiences. Techniques of selecting and producing plays for and with youth. Theatre styles, script analysis, and functions of the production team.

320. Voice and Speech II (3) II
Prerequisite: Theatre 110.
Techniques of vocal expression in the theatre, primarily in plays of Shakespeare and classical Greek drama. Emphasis on individualized instruction and vocal problem solving.

325. Play Analysis (3) I, II
Prerequisites: Theatre 100, 120, and completion of lower division writing competency requirement. Proof of completion of prerequisite required: Copy of transcript.
Analysis of representative plays with emphasis on plot and character development, dramatic structure, action, and style.

329A-329B. Practicum in Theatre for Young Audiences Cr/NC
(329A: 2 units) (329B: 1 unit)
Two hours of activity per unit.
Prerequisite: Theatre 315.
Practical experience in department public performances of plays for young audiences.
A. Rehearsal
B. Performance

332. Acting III (3) I, II
Prerequisites: Theatre 110, 130, 231, and by audition.
Continuation of Theatre 231, emphasizing analysis of literary text in process of creating characters. Scene study and role preparation of significant texts by modern playwrights.

345. Theatre Marketing and Publicity (3) I, II
One lecture and four hours of activity.
Prerequisite: Theatre 100 or 107.
Practical experience in marketing and publicity for theatres, including PSA’s, press releases, layout-graphics for written materials, magazine and newspaper advertisements, marketing strategy and campaign development for a full theatre season. (Formerly numbered Drama 245.)

349. Theatreical Makeup (2) I
Two hours per unit.
Prerequisite: Theatre 240B.
Planning and application of makeup for stage, film, and television.
Classroom exercises and production-related activities.

350. Musical Theatre Performance I (3) I
Two lectures and two hours of activity.
Prerequisites: Theatre 332 and by audition.
Basic performance techniques in musical theatre. Emphasis on application of acting theory to musical theatre literature. Maximum credit six units.

351. Musical Theatre Performance II (3) II
Two lectures and two hours of activity.
Prerequisites: Theatre 332 and by audition.
Vocal selections and scenes in musical theatre. Emphasis on characteristics and performance styles. Maximum credit six units.

355. Movement for the Theatre I (2) II
Two hours of activity per unit.
Prerequisites: Theatre 332 and by audition.
Locomotor and axial body movement for the stage director and actor; introduction to mime. Relationship between body expression and character portrayal.

359. Directing I (3) I, II
Prerequisites: Theatre 130, 240B, 240C, 325. Proof of completion of prerequisite required: Copy of transcript.
Principles and techniques of directing for the stage: play selection, analysis, and interpretation; casting methods; stage composition and movement; and rehearsal procedures.

397. Shakespeare at the Globe: Onstage and Backstage (1-3) S
(Offered only in Extension)
Study of Old Globe Theatre's annual summer Shakespeare Festival. Does not apply to undergraduate degrees or credentials.

425. Production Synthesis (3) I, II
Prerequisites: Theatre 240B, 359. Proof of completion of prerequisites required: Copy of transcript.
Capstone course integrating artistic vision and production considerations through synthesis of text analysis, performance, and design in collaborative process unique to the theatre.

431. Workshop in Improvisational Acting (3) I
Prerequisite: Theatre 332 and by audition.
Theories and principles of improvisational acting.

434. Audition Techniques for the Actor (3) II
Two lectures and two hours of activity.
Prerequisite: Theatre 332 and by audition.
Techniques of auditioning and interviewing in the theatre, film, and television; selecting audition pieces, rehearsing, and performing auditions.

440. Scene Design I (3) II
Two lectures and three hours of laboratory.
Prerequisites: Theatre 240A and 325.
Techniques and procedures in application of design, color, and perspective in designing scenery.
442A-442B. Practicum in Theatrical Production  (2-2)  I, II
Two hours of activity per unit.
Prerequisite for 442A: Theatre 240A. Prerequisite for 442B: Theatre 240B.
Technical theatre production experience for departmental public performances.
A. Scenery Construction
B. Costume Construction

446A-446B. Practicum in Performance  (1-1) Cr/NC  I, II
446C. Practicum in Performance  (1-3) Cr/NC  I, II
Two hours per unit.
Prerequisite for 446A: Theatre 240A. Prerequisite for 446B: Theatre 240B.
Prerequisite for 446C: Theatre 100.
Practical experience in departmental public performances. Maximum credit three units for Theatre 446A. Maximum credit three units for Theatre 446B. Maximum credit six units for Theatre 446C. (Theatre 446C formerly numbered Theatre 445A; Theatre 446A and 446B formerly numbered Theatre 445B.)
A. Stage Crew
B. Costume Crew
C. Cast Member

447. Lighting Design I  (3) II
Two lectures and three hours of laboratory.
Prerequisites: Theatre 240C and 325.
Concepts and technologies in lighting for theatre and related performance areas. Emphasis on mechanics of stage lighting, color, instruments, and control. Laboratory and production related activities.

448. Theatre Technology  (2) I
Two lectures and three hours of laboratory.
Prerequisite: Theatre 240A.
Current materials and practices of theatre technology. Advanced construction techniques; stage machinery design and control; special effects; computer applications for stage operations; budget, research, and management procedures.

452. Costume Design I  (3) II
Two lectures and three hours of laboratory.
Prerequisites: Theatre 240B and 325.
Theory and creative application of principles of costume design for various types of production. Emphasis on concept development, character interpretation, research methods, color organization, and fabric selection. Laboratory and production related activities.

459. Directing II  (3) II
Two lectures and two hours of activity.
Prerequisites: Theatre 359 and consent of instructor.
Experience and group evaluation in directing one-act plays before an audience. Attendance at selected public performances required. Maximum credit six units.

460A-460B. History of the Theatre  (3-3) I, II
Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities. Prerequisite not required for theatre arts majors.
Theatre from primitive times to the present. Special attention given to the theatre as a mirror of the social and cultural background of various countries and periods in which it is studied. Theatre 460A is not prerequisite to 460B.

465. Theatre of Diversity  (3) II
Prerequisite: Theatre 325 for theatre majors. Completion of the General Education requirement in Foundations II.C., Humanities for nonmajors.
Racial, ethnic, political, and social diversity of American landscape as reflected in works of major playwrights of diversity.

475B. Stage Management–Practicum  (3) I, II
Six hours of activity.
Prerequisite: Theatre 475A.
Practical experience in stage managing department productions. Maximum credit six units.

496. Experimental Topics  (1-4) I, II
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study  (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

510. Creative Drama and Language Arts  (3) I
Advanced techniques in using creative drama to teach literature and language. Emphasis on use of drama in teaching of reading and world literature. Practical experience through fieldwork in elementary or middle school classrooms.

520A-520B. History of Musical Theatre  (3-3) I
Prerequisite: Upper division standing.
Chronological survey of representative works from musical theatre history including major productions, personalities, styles, and genres. (Formerly numbered Theatre 520.)
A. Nineteenth Century Viennese Operetta through 1950
B. 1950 to Present

523. Stage Combat  (2) II
Four hours of activity.
Prerequisites: Theatre 332 and by audition.
Skills and choreography of armed and unarmed stage combat. Performance application to selected scenes from world drama.

530. Period Dress and Decor  (3) I
Prerequisite: Theatre 240B or graduate standing.
Visual survey of relationships and cultural significance of period dress, architecture, and decorative arts as applied to theatrical productions. Emphasis on significant historic periods in dramatic literature.

532. Advanced Acting and Directing  (3) I
Prerequisites: Theatre 332 and by audition.
Problems in characterization in contemporary drama, and in plays of Ibsen, Strindberg, Chekhov, and Shaw.

533A-533B. Theory and Styles in Acting and Directing I and II  (3-3)
Prerequisites: Theatre 332 and by audition.
Acting and directing problems in theory and style related to the production of plays from great periods in theatre history, with attention to characterization, dramatic values, creative directing and production approaches.

539. Theatre Rendering  (2) II
Four hours of activity.
Prerequisite: Theatre 240B.
Rendering for scenic, costume, and lighting designer. Techniques, media, and portfolio preparation. Maximum credit four units.

540. Scene Design II  (3) I
Prerequisites: Theatre 440 and 530.
History of scene design and application of contemporary styles to various types of dramatic production.

541. Scene Painting  (2) II
Four hours of activity.
Prerequisite: Theatre 530.
Theories and techniques of scene painting, including both historical backgrounds and modern procedures. Full-scale projects executed in scenery studio.

Women’s Studies
In the College of Arts and Letters

OFFICE: Adams Humanities 3138
TELEPHONE: (619) 594-6524

Faculty
Chair: Cayleff
Professors: Cayleff, Espin, Huckle, Jones, Watson, Zimmerman
Associate Professor: Kohen
Assistant Professor: Ghosh, Mattingly, Washington

Offered by Women’s Studies
Major of Arts degree in women’s studies.
Major in women’s studies.
Minor in women’s studies.

The Major
Women’s studies explores who women were, who women are, who they might be, and how their lives and human interactions are affected by society's values, traditions, and institutions. SDSU has offered courses in women’s studies since 1969 and has one of the strongest academic programs in the nation. Its origins are in the women’s movement, and its vision includes a world free of sexual, racial, age, and class distinctions and other inequalities.

Courses are designed to provide students with a coherent, integrated, and academically rigorous education. Content areas include concepts of self and family, theories of sex differences, history, cultural contributions, and the study of society's institutions. The emphasis is on increasing the awareness of objective conditions in women's lives throughout the world, and on developing critical analytical skills.

A degree in women's studies may be used as preparation for a wide range of careers. Professional opportunities exist in political and social agencies working with women and developing public policy on women's issues such as health care, employment, family violence, and education. Women's studies students prepare for careers in such fields as law, journalism, public administration, social services, personnel, and psychology. The skills that women's studies majors develop in critical thinking and analysis are highly valued in many additional occupations and professions today. A women's studies major may also go on to advanced academic work preparing for a career as a women's studies scholar.

Many women's studies majors plan double majors to enhance their career opportunities.

Women’s Studies Major
With the B.A. Degree in Liberal Arts and Sciences
(Major Code: 49991)

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” No more than 48 units in women's studies courses can apply to the degree.

Students majoring in women's studies must complete a minor in another field to be approved by the chair or major advisor of the department.

Preparation for the Major. Women's Studies 101 and 102. (6 units)

Foreign Language Requirement. Competency (successfully completing the third college semester or fifth college quarter) is required in one foreign language as part of the preparation for the major. Refer to the section of this catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units to include 12 units from Group I; nine units from Group II; and Women's Studies 590 and 597.

Group II: Three upper division units in Women's Studies 512, 515, 521, 522, 530, 535, 536, 553, 565, 572, 580, 582, 590, 595, 596, 598.

*No more than three units may be applied to the minor in women's studies.

Women’s Studies Minor
The minor in women’s studies consists of a minimum of 18 units in women's studies, of which 12 units must be upper division to include:

Three to six units selected from Women's Studies 512, 515, 521, 522, 530, 535, 536, 553, 565, 572, 580, 582, 590, 595, 596, 598.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. A minimum of six upper division units must be completed in residence at San Diego State University.

*No more than three units may be applied to the minor in women's studies.

Women’s Studies Dual Degree
The MEXUS/Women's Studies program is a partnership between San Diego State University (SDSU) and the Universidad Autonoma de Baja California (UABC) located at Tijuana, Baja California, Mexico. Students may enter the program at either of the two universities, and must spend a minimum of two years in both the United States and Mexico.

Participants in the MEXUS/Women’s Studies program are enrolled in the Women's Studies major at San Diego State University.

In addition to completing 49 units of General Education requirements at SDSU, students in the MEXUS/Women's Studies program must complete 33 units of women’s studies courses, and either 68 units of economics, or 60 units of psychology, or 68 units of sociology. Approximately one-half of all of these requirements are completed in Spanish while attending school in Mexico. Students are also required to participate in an internship program, which provides MEXUS/Women's Studies students with the opportunity to work for an international institution and to develop a network of contacts in the private or public community, a vital step towards employment after graduation.

Successful participants in the MEXUS/Women’s Studies program will earn both the Bachelor of Arts degree in women's studies from San Diego State University and either the Licenciatura in sociologia or economia from UABC.
## Courses (WMNST)

### LOWER DIVISION COURSES

**101. Women and the Social Sciences (3) I, II**
- Interdisciplinary introduction to women's studies thought and scholarship in the social sciences, to include such areas as gender-based language, personality development and self-concept, social evolution, family structures, and economic life. (Formerly numbered Women's Studies 201.)

**102. Women in the Humanities (3) I, II**
- Major cultural representations of women in ancient through contemporary societies from perspectives in the humanities, including philosophy, religion, art, literature, and history. (Formerly numbered Women's Studies 205.)

**296. Experimental Topics (1-4)**
- Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

### UPPER DIVISION COURSES (Intended for Undergraduates)

**310. Women in Cross-Cultural Perspective (3) I, II**
- Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.
- Women from an anthropological perspective; social, economic, legal and ideological aspects of women's position in selected preindustrial or transitional (compared with industrial) societies.

**320. Socialization of Women (3) I, II**
- Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.
- Theories of socialization; summary of studies on the impact of formal and informal social institutions on female development.

**325. Psychology of Women (3) I, II**
- Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.
- Theories of the psychological development of women; investigation of biological and cultural factors influencing personality and behavior.

**331. Women in Asian Societies (3)**
- (Same course as Asian Studies 331.)
- Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.
- Socio-economic status of women in Asia. Feminism and the status of women in China, India, Japan, Korea, Philippines, and other countries. Feminist movements in Asia and women's status as affected by changing social, economic, and political orders in Asia.

**340. Women in Modern European History (3) I, II**
- Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
- Social, cultural, economic, political and ideological aspects of women's history in the modern period. Impact of modernization on roles of women in family and society from the eighteenth to the mid-twentieth centuries in Europe.

**341A-341B. Women in American History (3-3) I, II**
- History of American social, cultural, economic, political, and intellectual institutions, focusing on the role and perspective of women. Semester I: From colonization to 1860; Semester II: From 1860 to the present. Satisfies the graduation requirement in American Institutions.

**351. Women in the Arts (3)**
- Images of women in society as reflected in the plastic, graphic and performing arts; artistic contribution of women. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

**352. Women in Literature (3) I, II**
- Prerequisite: Completion of the General Education requirement in Foundations II.C., Humanities required for nonmajors.
- Literature by and about women; appraisals of women's place in various literary genres; historical and contemporary themes; evolution of forms and techniques.

**360. Women's Sexuality (3)**
- Historical changes in women's perceived sexual natures; role of medical and scientific expertise; research and theory on psychological, social, and cultural aspects of women's sexuality; relationships among social beliefs, expectations, customs and traditions, and among sexual behavior responses and identity.

**370. Women and the Law (3) I, II**
- Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.
- Legal factors affecting women in employment, education, health and welfare, property ownership and criminal justice, including investigation of public policy issues which affect women's lives.

**375. Sex, Power, and Politics (3) I, II**
- Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.
- Social, economic and political factors which explain women's political status and participation. Topics include institutional structures, leadership and ideology, power and authority, and the women's movement as a political movement.

**385. Women's Work (3)**
- Prerequisite: Completion of the General Education requirement in Foundations II.B., Social and Behavioral Sciences required for non-majors.
- Conditions and factors affecting women's paid and unpaid work. Marriage, divorce, fertility, and childcare; women's occupations, earnings and education; economics of sex discrimination; government economic policies and women's welfare.

**496. Experimental Topics (1-4)**
- Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

**499. Special Study (1-3)**
- Prerequisites: Three upper division units and consent of the department chair and instructor.
- Individual study. Maximum credit six units.

### UPPER DIVISION COURSES (Also Acceptable for Advanced Degrees)

**512. Women of Latin America (3)**
- Prerequisite: Three upper division units in women's studies.
- How social and other factors impact the lives of Latin American women. Theoretical frameworks illuminate their situation. Sociocultural perspectives are offered on Latin American women's life narratives.

**515. Women: Mythology and Ritual (3)**
- Prerequisite: Three upper division units in women's studies.
- Meanings and functions of myths and rituals in their sacred and secular aspects, emphasizing their impact on women's lives and relationships in differing cultural contexts, past and present.

**521. Life Cycles of Women (3)**
- Prerequisite: Three upper division units in women's studies.
- Women's developmental processes across the life cycle; their impact on women, men, and the family, including life passages related to adolescence, marriage, motherhood, divorce, widowhood, "second careers," and aging in varying socioeconomic and cultural contexts.
522. Women: Madness and Sanity (3)  
Prerequisite: Three upper division units in women’s studies.  
Concepts of mental health and mental illness as applied to women. Theory of psychotherapy, both traditional and feminist. Alternative approaches to mental health.

530. International Women’s Movements (3)  
Prerequisite: Three upper division units in women’s studies.  
Comparative study of women’s movements worldwide in past and present, to include discussion of issues such as female bonding, leadership, and women’s goals and strategies to achieve them within local, national, and global contexts.

535. Lesbian Lives and Cultures (3)  
Historical, cultural, and social exploration of lesbianism. Topics include myths and stereotypes, history and literature, social and political movements, theoretical explanations, and current conditions.

536. Women, Race, and Class (3)  
Prerequisite: Three upper division units in women’s studies.  
Major issues and themes in the history, culture, and contemporary lives of women of color in the U.S. Analysis of theories explaining similarities and differences in opportunities and life choices. Roles within social and political movements.

553. Women Writers (3)  
Prerequisite: Three upper division units in women’s studies.  
Literary, historical, and social consideration of women writers; may focus on one author, era, or theme. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units. Limit of three units applicable to the major in women’s studies.

565. Women, Health, and Medicine (3)  
Prerequisite: Three upper division units in women’s studies.  
historical and contemporary relationship of women to alternative and traditional healing systems. Illness labeling, folk-healing beliefs, sectarian medicine, reproduction, birth control, life-cycle events, roles as practitioners and patients, ethical controversies, and aging.

572. Women and Violence (3)  
Prerequisite: Three upper division units in women’s studies.  
Forms of violence against and by women. Processes which shape women’s resistance to, and collusion in, social, economic, political, and sexual violence.

580. Women and International Development (3)  
Prerequisite: Three upper division units in women’s studies.  
Women’s roles as agents and recipients of change worldwide, focusing on such issues as self-determination, education, family and work, food and hunger, and reproduction.

582. Science and Technology in Women’s Lives (3)  
Prerequisite: Three upper division units in women’s studies.  
Role of science and technology in women’s lives to include historical participation, contemporary opportunities and barriers; public policies; feminist critiques and alternative strategies for thinking about and doing science.

590. Feminist Thought (3) I  
Prerequisite: Six upper division units in women’s studies.  
Readings in feminist theory and contemporary theoretical perspectives on core concepts and issues in feminist scholarship. Focus on understanding from a feminist perspective and on the significance of analyzing female experiences.

595. Seminar in Women’s Studies (3) II  
Prerequisites: Six upper division units in women’s studies and consent of instructor.  
Directed research in women’s studies. Field of investigation will vary with instructor. Methods of investigation, development of bibliography, presentation of paper based on original research. See Class Schedule for specific content.

596. Topics in Women’s Studies (3)  
Prerequisite: Consent of instructor.  
Advanced topics in women’s studies. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

597. Research Project (3) I, II  
Prerequisites: Six upper division units in women’s studies and consent of adviser.  
Individual research project. May be taken in place of Women’s Studies 595, Seminar in Women’s Studies.

598. Women’s Studies Internship (3) II Cr/NC  
Prerequisite: Three upper division units in women’s studies and consent of instructor.  
Application of women’s studies theories and scholarship to community service and activism through combination of classroom discussion and field internship. Internship includes 80 hours of work in local public and private agencies dealing primarily with women and girls. Maximum credit six units. (Formerly numbered Women’s Studies 498.)

GRADUATE COURSES
Refer to Bulletin of the Graduate Division.
Special Programs and Services

Academic Computing
The SDSU computing environment provides access to scores of software products including Word Wide Web browsers, programming languages, word-processing, spreadsheets, presentation packages, relational databases, statistical software, and large databases such as IMF and CRSP. The University provides access to a Sun SPARC Server (running SOLARIS) and a 1152 Processor IBM RS/6000 SP Supercomputer. Both the Sun SPARC Server and the IBM RS/6000 SP computers are available to the university community via the campus Internet which also links students to specialty computing centers located at other California State Universities.

The University has over 1,800 microcomputers as well as a significant number of X-Terminals located in 80 departmental/college computer laboratories. There are also three large computer labs open to all students; all machines in those labs are connected to the Internet. The open computer labs are (1) the Love Library Student Computer Lab located in Love Library 200 which has PCs, Macintoshes, X-Terminals, and laser printing; (2) the Social Science Research Lab located in PSFA 140 has PCs, Macintoshes, and laser printing; and (3) the Terminal Labs in BA-110 and BA-113 have X-Terminals and laser printing.

Student computing and e-mail accounts are available through a student account system. This system allows enrolled SDSU students to create their own accounts via the Internet from a computer or terminal on campus or via a modem from off campus.

A Web site is available at www.sdsu.edu.

Alumni Association
The SDSU Alumni Association is a non-profit organization dedicated to connecting SDSU alumni to the University and each other. Membership in the San Diego State University Alumni Association is open to those individuals who have an abiding interest and commitment to the growth and future of SDSU and the community it serves.

The Alumni Association is a dynamic, exciting organization whose purpose is to serve and support the University and its graduates. It offers a number of programs and services designed to meet the variety of needs and interests of its alumni, including library privileges, reduced admission to many cultural activities and sporting events, discounts on purchases at the Aztec Store and More, access to SDSU’s Career Services for a nominal fee, and a subscription to SDSU Magazine, a monthly electronic newsletter, and Aztec update: publications for alumni and friends of the University.

In addition, the Alumni Association sponsors The Montys (annual awards event honoring alumni and faculty of the University), provides scholarships for students, organizes Homecoming, sponsors Career Panels, provides input regarding University programs and policies, and provides excellent networking opportunities through a myriad of events.

For further information, a Web site is available at www.sdsualumni.org or phone the Alumni Office at (619) 594-2586.

Associated Students of San Diego State University
The Associated Students of San Diego State University (A.S.) is a unique, full-service organization. The A.S. provides a variety of programs, services and activities for SDSU students as well as faculty, staff, alumni, and the public. Directed by elected student executives, the Associated Students offers programs ranging from recreation to entertainment and child care. An independent, not-for-profit corporation, it is funded by the student activities fee and revenues collected from programs and services. Associated Students can be reached by calling (619) 594-6555, or on the Web site at as.sdsu.edu.

Student Government. The Associated Students sponsors extensive student leadership programs designed to encourage active student participation in the decision-making policies of the University. The A.S. Council is the voice of the SDSU student body. Composed of one representative per 1500 students, four executive officers, and representatives of some student organizations, the Council is responsible for the A.S. $12 million annual budget and for formulating policy. Elections held each year allow for the selection of individuals to fill one-year terms on the Council. Meetings of the A.S. Council are weekly, open sessions.

Other student government activities include monitoring academic policies, programs, and services; appointments to educational or campus-related committees; lobbying to provide student input to city, county, state and federal governments; and representing SDSU’s interests with the California State Student Association. Call (619) 594-6487 for more details about student government programs.

Aztec Center. The hub of student activity at SDSU, Aztec Center is the headquarters of the Associated Students and its staff. Aztec Center features study lounges, meeting and conference rooms, the Campus Information Center, the Ticket Office and businesses that include Council Travel, Enterprise Rent-A-Car, Postal Annex, and USE Credit Union. The Center also houses Monty’s Den, a popular campus eatery and meeting place that offers many food selections. For more information, call (619) 594-6551.

Cox Arena at Aztec Bowl. This facility features seating for over 12,000 people and hosts SDSU basketball and volleyball games in addition to community events, concerts, graduation ceremonies, conferences, sports shows, and more. It features state-of-the-art staging and sound systems, along with deluxe dressing rooms. VIP lounges and meeting rooms are also available for rental. On site is a full-service box office and TicketMaster location for events throughout California. The Cox Arena is adjacent to the Aztec Recreation Center in the heart of the SDSU campus with nearby parking for 2,000 vehicles. Call (619) 594-0234.

Recreation Programs. Associated Students manages most of SDSU’s recreation and leisure programs. Offered at affordable prices, they are also open to the public, as well as students, faculty, staff, and alumni.

Aztec Recreation Center (ARC). The ARC features four full-size gyms; a 30-foot climbing wall; 21,000 square feet of cardio, aerobic, dance, and weight rooms; outdoor equipment rentals; a 52” TV and lounge area; plus locker rooms with full towel service and saunas. Membership includes unlimited access to recreation facilities, aerobics, cardio and weight rooms, racquetball, wallyball, intramural sports, and bowling. Additional programming is offered at minimal fees with a wide variety of recreation classes such as the arts, dance and music, food and beverage, health and fitness, martial arts, horseback riding, tennis and rock climbing. Economical membership fees start at only $13.00 per month for students. Call (619) 594-6424 or 594-PLAY for complete schedules and membership information.

Aztec Center Bowling and Games. One of the most affordable places on campus. This facility includes AMF computer-automated scoring, over 40 video games, billiards, table tennis, and leagues. Also available for parties. Call (619) 594-6561.

Mission Bay Aquatic Center. The world’s largest instructional waterfront facility, located at 1001 Santa Clara Point in Mission Bay Park, offers classes and recreational opportunities in surfing, sailing, windsurfing, waterskiing, rowing, wake boarding, and more. Equipment rentals and facilities for group meetings or barbecues are also available. Bus transportation from SDSU available on Transit Route 81. Call (619) 488-1036.
Aztec Adventures. Located in the Aztec Recreation Center complex, this outdoor adventure program offers camping, backpacking, rock climbing, canoeing, sea kayaking, and skiing outings. Also features excursions such as Baja whale watching, surfing safaris, and nature awareness weekends. Trips are always led by experienced guides or instructors. Most outings include transportation, food, group equipment, and all permits or fees. Outdoor rental equipment services are also available. Call (619) 594-6222 for more information and trip schedules.

Recreational Sports. An extension of the Aztec Recreation Center (ARC), Recreational Sports offers free racquetball and wallyball to ARC members. The golf driving range, batting cage, and equipment rentals are also available for minimal fees. Non-ARC members can participate in all programs at slightly higher prices. Recreational Sports is located at SDSU on the west end of Peterson Gym. For more information, call (619) 594-6424 or 594-PLAY.

Sports Clubs. Sports Clubs are organized, funded, and managed by SDSU students. The collective efforts and organization of the students comprising each team determine each club’s success. Sports Clubs practice weekly, from two to five times per week, in preparation for organized intercollegiate competitions at local, state, regional, and national levels. Both new and experienced athletes are actively recruited. In fact, many of our athletes are new to their sports. Sport Club teams are an excellent setting for the development of athletic skills, student leadership skills, and social opportunities. Groups interested in starting a new club or want information on an existing club should call the ARC at (619) 594-0200.

Child Care Programs. Associated Students provides child care and preschool learning programs through two facilities: the Campus Children’s Center and the Faculty/Staff Children’s Center. Programs range from part-time to full-time care for children ages six months to five years, with all programming provided by expertly trained teachers and staff members. For more information, call (619) 594-7941 or 594-6359.

Open Air Theatre and Entertainment. A.S. offers multiple programs that provide fun and versatile entertainment. The 5,100 seat Open Air Theatre features regular performances to sellout crowds including concerts, lectures, and symphony performances. Call Aztec Center Ticket Office, (619) 594-6947 for performance schedules.

Athletics

San Diego State University sponsors a broad array of varsity intercollegiate athletics for women and men. SDSU’s commitment to gender equity in athletics includes 12 sports for women (basketball, crew, cross country, golf, soccer, softball, swimming, tennis, indoor/outdoor track and field, volleyball, and water polo) and six for men (baseball, basketball, football, golf, soccer, and tennis). As a National Collegiate Athletic Association (NCAA) Division I program, Aztec athletic teams compete at the highest level of intercollegiate competition. All of the teams except soccer compete in the 8-member Mountain West Conference. Men’s soccer is a member of the Mountain Pacific Sports Federation.

Athletics serves a number of important roles on campus and within the larger San Diego community. In addition to encouraging student-athletes to expand their competitive capabilities to the fullest, San Diego State teams provide a catalyst which helps generate pride and a shared esprit de corps among students, faculty, staff, and alumni. This also helps link these groups from generation to generation. Similarly, with nearly a hundred-thousand alumnae and former students and tens of thousands of supporters in the county with no other direct connection to the University, Aztec teams frequently carry the aspirations of San Diego in the forum of NCAA Division I Athletics. On-campus athletic events attract both students and members of the community to campus and this reinforces many mutually beneficial town–gown relationships.

Student Athlete Support Services

Involvement with inter-collegiate athletics on campus presents many challenges for students. This office provides guidance and assistance for these student-athletes in the areas of admission, registration, new student orientation, counseling, study hall, mentoring, tutoring, and academic advising. This individualized program is designed to create an academic support network to ensure all student-athletes comply with University requirements while working toward completion of a degree.

Aztec Shops, Ltd.

(Academic Services and Food Services)

Aztec Shops, Ltd. is a non-profit auxiliary that was established to serve the San Diego State University community in 1931. It operates on-campus services such as the SDSU Bookstore and all food service operations, and off-campus it operates Aztec Store and More in Fashion Valley Center. It also operates stores at SDSU/IVC, CSU San Marcos, and Imperial Valley College. It is governed by a Board of Directors composed of faculty, students, and staff of SDSU. Aztec Shops is not funded by the State of California or the University.

The SDSU Bookstore houses more than 5,000 required textbook titles each semester (which includes the largest selection of used textbooks in the state), as well as assigned class materials, reference works, school supplies, computer supplies, software and hardware (most at educational prices), SDSU items, and a selection of over 35,000 general interest books. A large selection of art supplies may be found at Art Etc., which is located in the Art Building on campus.

Aztec Shops Food Services operates over 17 restaurants on the SDSU campus. This includes a newly-renovated East Commons building that houses Aunt Mary’s Corner Bakery, a coffee and pastry bar; Sub Connection, offering freshly-made deli sandwiches; Rickshaw Express, an Asian restaurant; College Ave. Diner, down-home food; Krispy Kreme Doughnuts, and a McDonald’s. Also available on campus are Sub Connection, KFC, and Taco Bell in West End Plaza and Betty’s Hotdogger near the Art Building. Aztec Shops leases space to Sbarro and Daphne’s Greek to Go, and self-operates Steak Escape in Aztec Center, as well as Allegro Coffee Shop in West End Plaza. The residential dining program is housed at West Commons and features an all-you-care-to-eat dinner program. Questions on this program can be directed to the Meal Plan Office on the lower floor of the East Commons building.

In addition to the varied restaurant options, the SDSU campus has four Monty’s Market convenience stores, including a 3,000-square foot “mega-store” in East Commons. All stores carry a wide variety of grab-n-go salads and sandwiches; Monty’s Market at Chupultepec also features a grill.

Aztec Shops is dedicated to providing quality services to the campus community. Questions or concerns may be directed to the corporate offices on the second floor of the East Commons building

The Center for Bio/Pharmaceutical and Biodevice Development

A. Stephen Dahms, Director
Robert Wang, Associate Director

The Center is a new interdisciplinary organization focusing on the research, development, manufacturing, production, processing, and marketing of biotechnological, biopharmaceutical, pharmaceutical, in vitro diagnostic and medical device products. As an administrative, instructional, and research entity, it incorporates faculty and programs from key partnering departments within the Colleges of Sciences, Engineering, Business Administration, Health and Human Services, Professional Studies and Fine Arts, Education, and Arts and Letters. The Center addresses research and workforce needs of companies in their transition from research and development into manufacturing and production, with an additional focus on the overarching legal, ethical, and regulatory elements that both guide and restrict the industry. The Center has a management structure similar to a bioscience
company, with section directors for regulatory affairs, biopharmaceuti
cal marketing, bioprocessing/manufacturing, QA/QC, etc., each with
research and capstone professional graduate degrees overlaying a
cluster of specific certificate programs, and degree emphases, as
well as continuing education programs for existing corporate employ­
ees. Activities under the Center also include regional economic devel­
opment, workforce development, the acquisition of new training and
research facilities, in some cases, fermentation, cell culture, small mol­
ecule synthetic, and pilot plant scale facilities, as well as biotechnol­
gy business incubation. The Center employs long-distance telecommunications to corporate, government, and other university
sites within California, between its academic partners, and with sev­
eral international partners. The Center interfaces intensively with the
California State University Program for Education and Research in Bio­
technology (CSUPERB) providing novel capstone training experi­
cences for CSU biotechnology students.

California State University Program for
Education and Research in Biotechnology
(CSUPERB)

A. Stephen Dahms, Executive Director

The California State University Program for Education and Research in Biotechnology (CSUPERB) is based at San Diego State University. It exists to provide a coordinated and amplified develop­ment of biotechnology research and education within the university
system; to foster competitiveness both on the state and national lev­els; to facilitate training of a sufficient number of biotechnology techni­cians and scientists; to catalyze technology transfer and enhance intellectual property protection; and to facilitate the acquisition and
long-term maintenance of state-of-the-art biotechnology resource
facilities across the university, such as the Microchemical Core Facility and the Macromolecular Structural Analysis Resource Center, both localized at SDSU. It facilitates interdisciplinary cooperative activities
between the Colleges of Sciences and Engineering, and key depart­ments on all campuses, as well as between faculty and from a number
of allied academic and research units such as bioengineering, agri­
cultural biotechnology, environmental and natural resources, molecu­lar ecology, and marine biotechnology. It also operates a grants
program of over $1 million annually for programmatic development and for joint corporate research ventures with industry. It also serves
as the official liaison between the CSU and industry, government, the
Congressional Biotechnology Caucus, and the public arena in bio­
technological matters. CSUPERB operates through an Executive
Director, two Associate Directors, a Director of Operations and Work­force Development, a Strategic Planning Council composed of five

The June Burnett Institute was created in 1985 at the San Diego
State University Foundation from a $1.5 million bequest from the estate of June Estelle Burnett. The Institute is dedicated to developing
the potential of all children, youth, and parents in a manner that is sensitive and responsive to cultural, social, and economic differences and
needs. The Institute fosters cooperation and collaboration through
interdisciplinary/interprofessional approaches that promote the well­being of children, youth, and families through prevention, intervention, and volunteer-based services and that incorporate training and evalu­
ation as integral elements. An advisory board composed of SDSU fac­ulty and community members directs the activities of the Institute in
cooperation with 10 core staff, 65 project staff, 122 stipended volun­teers, eight doctoral level consultants, three graduate interns, and 18
subcontracts with community service organizations.

The Institute’s Prevention Services Division coordinates the Fami­lies and Schools Together Program (FAST) for parents of elementary
students and the Home/School Partnership for parents of Middle
School students. Both parent projects entail collaborative partner­ships with community agencies, ethnically identified organizations
and PTA’s.

The Institute’s Volunteer Services Division administers the Califor­nia YMCA/CSU PRYDE AmeriCorps Consortium (a collaboration of four urban YMCA’s and CSU campus training partners in Los Angeles, Long Beach and San Francisco), the Safe Zones for Learning-Ameri­Corps Evaluation Project (a collaboration of 15 agencies in the Mid­City/City Heights area of San Diego), and an evaluation project focus­ing on Mid-City for Youth, a collaboration of over 100 organizations in the Mid-City area. The Institute’s new California Parent Center com­bines the efforts of the Prevention Services Division and the Volunteer Services Division to promote three “best practice” parent training

The Institute’s Intervention Services Division, in cooperation with the San Diego Juvenile Court, the County of San Diego, and the Wein­gart Foundation, coordinates the San Diego Choice Program which
serves approximately 500 court-involved delinquent youth annually
who are referred by the County departments of Probation and Social
Services, and who reside in the areas of Mid-City/City Heights, National City, Chula Vista, Escondido, and Vista.

The Burnett Institute Faculty Fellows Program, in conjunction with
the Provost and Vice President for Academic Affairs and each fellow’s
college dean, sponsors between four and six faculty members annu­ally who wish to assist the Institute strengthen service, training or evalu­ation efforts in the community.

Center for Community-Based Service
Learning (CCBSL)

The mission of the Center for Community-Based Service Learning is
to enhance learning and civic responsibility through community
engagement. The Center serves faculty, students, and community
organizations by providing a link to integrate community service pro­grams with classwork, giving students unparalleled insight into com­munity needs. The CCBSL is a supportive and collaborative force for
the campus and the community to come together for shared endeav­
ors and goals.

Community-based learning, also known as service learning is a
form of experiential education combined with the ethic of giving back
to the community. The goals of the CCBSL include assisting and
supporting faculty as they make community service part of their

classwork, and helping individual students and student organizations
identify places where they can directly address community needs.

The CCBSL serves as a central location on campus for students,
their clubs, faculty and staff to plan and implement community
projects. To aid in those efforts, the CCBSL has developed several
resources and services to include:

- Relational databases of faculty and courses involved in commun­ity-based learning;
- A listing of community activities meeting student volunteer or ser­vice needs;
- A bank of community projects suitable for faculty to include in their
courses;
- A listing of grants related to community-based and experiential
learning;
- A resource library for research, assessment, grant writing, course
design, focusing upon experiential and community-based learning;
- A place for faculty and staff to meet to discuss service-learning
curriculum;

The CCBSL is located in the Office of Student Life and Develop­ment.
For more information, contact the CCBSL at (619) 594-0807 or
www.sa.sdstate.edu/ccbl.

The June Burnett Institute for Children, Youth, and Families
6310 Alvarado Court, San Diego, CA 92120, (619) 594-4756

The Institute’s Volunteer Services Division administers the Califor­nia YMCA/CSU PRYDE AmeriCorps Consortium (a collaboration of four urban YMCA’s and CSU campus training partners in Los Angeles, Long Beach and San Francisco), the Safe Zones for Learning-Ameri­Corps Evaluation Project (a collaboration of 15 agencies in the Mid­City/City Heights area of San Diego), and an evaluation project focus­ing on Mid-City for Youth, a collaboration of over 100 organizations in the Mid-City area. Special Programs and Services

Childrens Centers

The Associated Students’ Campus Children’s Center and Faculty Staff Children’s Center provide child care for children of SDSU students, faculty, and staff. The academic year program is a parent participation program and gives priority to children of students. Other factors that determine priority are financial need and application date. The Campus Center serves children six months through five years of age, who are in good health. The year-round program serves children 18 months to six years of age and gives priority to children of faculty and staff. All applications are considered regardless of race, religion, creed, sex, national origin, or handicap.

Tuition for children enrolled during the academic year is determined on a sliding fee scale based on family size and income. The year-round program fees are a set fee.

The program is designed so that a variety of activities are offered that will foster the child’s social, emotional, intellectual, and physical development and help the child view himself/herself and the environment positively.

The programs are staffed by professional and student employees, volunteers, and Child Development majors. Parents of children enrolled in the academic year program make a weekly contribution of time as teachers in the classroom and serve on a fundraising/publicity committee. Parent participation is not required in the Faculty/Staff Children’s Center. Parents have the opportunity to serve on the Children’s Center Board, which is composed of parents and other campus representatives.

The hours of operation are: Campus Preschool 7:30 a.m. to 5:30 p.m., Monday through Thursday; 7:30 a.m. to 4:00 p.m., Friday; Toddler Classroom 8:00 a.m. to 4:00 p.m. The Infant Classroom is open Monday through Friday 8:00 a.m. to 2:00 p.m. The Faculty/Staff Preschool is open 7:00 a.m. to 6:00 p.m., Monday through Friday. Call (619) 594-6359 for more information.

Communications Clinic for Speech, Language, and Hearing Disorders

Administered by the Department of Communicative Disorders, the Clinic provides assessment and remediation services for SDSU students, staff, faculty, and the community. Comprehensive diagnostic and treatment programs are available for children and adults, who may present such communicative difficulties as delayed speech/language development, voice, fluency or articulation disorders, aphasia, cleft palate, cerebral palsy, loss of communication function, augumentative communication needs, hearing loss and deafness. Also provided are services for bilingual/multicultural clients and speakers of English as a second language. Audiologic services provided by the Clinic include hearing assessment, hearing aid evaluation and selection, assistive listening device evaluations, earmolds, ear protectors, hearing conservation and speech reading/aural rehabilitation therapy. The clinic is located at 6330 Alvarado Court, Suite 100, San Diego, CA 92120-4917, (619) 594-6477.

Developmental Writing Program

The Developmental Writing program, in the Department of Rhetoric and Writing Studies, offers assistance to all students at any university level, including bilingual and international students, who wish to improve reading and writing skills. The program’s services are available on an enrollment basis only.

In addition, the program assists students in completing the University’s writing competency requirement. The University requires students to demonstrate writing proficiency consistent with its established standards and, accordingly, requires all entering students to pass various writing competency tests. Students who fail any of these tests must enroll in appropriate developmental writing coursework in the Department of Rhetoric and Writing Studies during their first semester at SDSU. As of fall 1998, incoming freshmen have two academic semesters in which to complete developmental writing requirements.

General Mathematics Studies

The General Mathematics Studies program offers assistance to all students at any university level who wish to improve their mathematics skills. These services, which are available on an enrollment basis only, are designed to assist students in completing the CSU ELM and SDSU Mathematics Competency requirements. The University requires all students to demonstrate mathematics proficiency consistent with its established standards, and accordingly, requires all entering students to pass these mathematics competency requirements. In particular, students who fail the ELM must enroll in the appropriate General Mathematics Studies course in their first semester at SDSU and continue until they have satisfied this requirement; students have two semesters only to complete this requirement.

Honors Council

The Honors Council was formed in 1991. It comprises representatives of the Honors Program and of Golden Key, Mortar Board, Phi Beta Kappa, Phi Eta Sigma, and Phi Kappa Phi interdisciplinary honor societies.

The purposes of the Honors Council are:

- To act as an advisory and coordinating resource center for the interdisciplinary honor societies on campus;
- To promote the specific interests of the above listed honor societies;
- To promote the common concerns of all honor societies and honors programs at San Diego State University;
- To cooperate with the faculty and administrative officers in developing and maintaining high academic standards;
- To recognize students and faculty for their achievements in scholarship, leadership, and service.

For meetings and events and to house honors insignia and regalia, the Honors Council has the Henry L. Janssen Honors Council Room in Student Services, Room 1624. The telephone number is (619) 594-3130

Honor Societies

An academic honor society is a campus organization that values scholarship, leadership, and service.

Multidisciplinary Academic Honor Societies

Golden Key is a national and worldwide undergraduate honor society whose purpose is to recognize and encourage scholastic achievement and excellence in all undergraduate fields of study, to unite with collegiate faculties and administrative officers in developing and maintaining high standards of education, to provide economic assistance to outstanding members by means of annual scholarships, and to promote scholastic achievement and altruistic conduct through voluntary service. Golden Key National Honor Society has about 285 active chapters. It also publishes an annual magazine and a regular newsletter. San Diego State University’s chapter was chartered in 1984.

Each fall, the chapter invites to membership juniors and seniors in the upper 15 percent of their classes who have completed their last 24 units at SDSU. Elected student officers set all agendas and direct activities.

The faculty adviser is Dr. E. Nicholas Genovese, Department of Classics and Humanities.

Mortar Board, a national honor society for college seniors, was founded in 1918. The society recognizes in its membership the qualifications of superior scholastic ability, outstanding and continual leadership, and dedicated service to the University community. The SDSU chapter of Mortar Board had its beginning in 1932 as Cap and Gown. In 1965 the local honorary was recognized as a member of the national organization. Nationwide there are over 200 active chapters with a membership in excess of 200,000.
Mortar Board membership means active involvement to benefit the campus and community. Current projects include presentation of annual emeritus faculty and staff Outstanding Service Awards to recognize individuals whose work contributed significantly to this university; an annual faculty/staff appreciation dinner; projects with the local schools; support of activities and projects of the San Diego Alumni Chapter; and the sale of the Mortar Board Datebook—a daily planning calendar and information booklet for the university community.

To be considered for election to membership, students must have senior standing for the fall semester with an overall GPA of 3.00 and must have participated and excelled in the areas of scholarship, service, and leadership. All prospective members must be making satisfactory progress toward the degree. Admission to Mortar Board is competitive and is restricted to no more than 40 students per year.

Advisers for the honor society are Dr. Ronald Young, Associate Professor of Spanish; Dr. E. Nicholas Genovese, Professor of Classics and Humanities; and Jessica Savalla. The administrative liaison is Dr. Jane K. Smith, Assistant Vice President for Academic Services (AD-220). Information is available at www.rohan.sdsu.edu/~mortarbd/ or www.mortarboard.org.

**Phi Beta Kappa** was founded in 1776, is the oldest national honor society in America, with about 260 chapters. It recognizes academic excellence in the liberal arts and sciences. Nu chapter was established at SDSU in 1974, the first CSU campus to be so honored. Those considered for membership each spring are usually enrolled in the College of Arts and Letters or the College of Sciences and are or will be eligible for the Bachelor of Arts or Bachelor of Science degree. They must have junior or senior status with both an overall GPA of 3.75 or better for juniors or 3.50 or better for seniors, and a GPA in liberal arts and sciences courses of 3.50 or better. These GPAs must be maintained with minimal use of Cr/NC. All candidates must have demonstrated university-level proficiency in mathematics and in a foreign language at the third semester level. In addition, juniors must have completed 75 units of liberal arts and sciences courses, and seniors must have completed at least 45 liberal arts and sciences units at SDSU, and must have demonstrated university-level proficiency in written English as shown by coursework or satisfaction of the upper division writing competency requirement. Finally, candidates must show significant depth and breadth of scholarly interests as evidenced by the number, variety, and rigor of upper division courses taken outside the major. Election, after careful examination of the student’s record, is by vote of the members of SDSU’s Nu Chapter of Phi Beta Kappa.

Chapter activities include the annual initiation banquet, at which several scholarships are awarded; the annual Phi Beta Kappa Lecture honoring an outstanding faculty member; lectures by visiting scholars; active participation in the University Honors Council; supportive interaction with local schools; and active participation in the University Honors Council. Phi Beta Kappa Lambda chapter was formed in 1965.

**Phi Eta Sigma** is a national freshman honor society. The national chapter was formed in 1923; the local chapter was formed in 1955.

Phi Eta Sigma was established to encourage and reward high scholastic achievement among freshmen in institutions of higher education. There are over 300 chapters throughout the United States and more than 50,000 members. All freshmen, both men and women, who have a cumulative grade point average of at least 3.50 on a 4.0 scale with at least 12 units at the close of either semester during their freshman year are eligible to join. Students who were eligible but missed induction after their freshman year may join at any time thereafter.

Among its activities are induction ceremonies, community service involvement, social events, and national conventions.

The adviser for the honor society is Carl F. Emerich, Associate Vice President for Student Affairs. The associate adviser is Candice Cheeseman. For more information, call (619) 594-5211.

**Phi Kappa Phi** was founded in 1897 to promote the pursuit of excellence in all fields of higher education and to recognize outstanding achievement by students, faculty, and others through election to membership and through various awards for distinguished achievement. Activities of the organization include the awarding of two thousand dollars in scholarships annually, the recognition of outstanding faculty and students through nominations for national awards and scholarships, spring initiation, and sponsorship of the SDSU Emeritus Lecture Series. The national organization publishes a newsletter and a scholarly journal and sponsors the National Scholar and National Artist awards and the Graduate Fellowship program. Nationally there are 275 active chapters. San Diego State University’s chapter was chartered in 1965.

Membership is based on, but not limited to, the following criteria: Juniors must have completed a minimum of 75 units with a GPA of 3.60 overall and at SDSU; seniors must have completed a minimum of 90 units with a 3.50 GPA overall and at SDSU; graduate students must have completed a minimum of 15 units of graduate work at SDSU and have a GPA of 3.90 or better in graduate work overall and at SDSU. All prospective members must have made satisfactory progress toward the degree.

President of the society is Dr. Penny L. Wright, Department of Management.

**Disciplinary Honor Societies**

The national honor societies at San Diego State University which accord recognition to students who demonstrate superior scholarship and leadership in specific academic fields include:

- Alpha Epsilon Delta (Pre-Medical)
- Alpha Kappa Delta (Sociology)
- American Medical Student Association (Pre-Medical)
- Beta Alpha Psi (Accountancy)
- Beta Gamma Sigma (Business)
- Chi Epsilon (Civil Engineering)
- Eta Sigma Phi (Classics)
- Honors Council (General)
- Kappa Delta Pi (Education)
- Phi Alpha Theta (History)
- Phi Beta Delta (International Studies)
- Phi Mu Alpha Sinfonia (Music)
- Pi Lambda Lambda (Music)
- Pi Sigma Alpha (Political Science)
- Pi Tau Sigma (Mechanical Engineering)
- Psi Chi (Psychology)
- Sigma Delta Pi (Spanish)
- Sigma Gamma Tau (Aerospace Engineering)
- Sigma Iota Epsilon (Management)
- Sigma Tau Delta (English)
- Sigma Theta Tau (Nursing)
- Tau Beta Pi (Engineering)

**Instructional Technology Services**

Instructional Technology Services provides support to faculty in the design, selection, production, and distribution of instructional technology. Service and support are provided in the areas of Instructional Development, Multimedia Production, Instructional Resources, Technology Systems and Baseline Access, Training and Support (BATS).

The Instructional Development program offers professional assistance in instructional design, course design, teaching techniques and assessment. Services include: assistance in development of instructional materials; assessing and selecting instructional methods; facilitating course design; assistance to faculty who wish to analyze their instruction; workshops on teaching skills and techniques; and a facility for faculty to produce their own media and to learn about new technologies.
Multimedia Production assists in the design and production of instructional, research, and other campus related materials. Services include development and production of instructional videotapes; graphic and photographic support of instruction, research and publication; and assistance in development of multimedia materials.

Instructional Resources provides support in the selection, use and distribution of instructional materials and audio-visual equipment. Services include consultation on selection and use of media and equipment for instruction; check-out of media and equipment for classroom use; acquisition of new videotapes, DVD’s, and CD-ROM’s for instructional use; on-line access to the media catalog containing more than 7,000 titles; and maintenance and repair of audiovisual equipment.

Technology Systems provides support in the design, installation, maintenance, and operation of audiovisual systems in classrooms. Services include operation of the closed-circuit television system; installation and maintenance of audiovisual equipment in classrooms; design and installation of “Smart Classroom” systems; operation of videoconferencing systems for instructional and administrative use; and operation of a presentation room for high-quality video and data projection.

The Baseline Access, Training and Support (BATS) program provides students, faculty, and staff with training in the uses of hardware and software systems, and ongoing professional and technical support for utilization of computer resources at SDSU. Services include operation of computer training facilities, “hands-on” workshops for faculty, staff and students, and operation of Computer Help Desks for faculty and staff.

Office of International Programs

In recognition of the rapidly expanding number and importance of international activities on the San Diego State University campus, the Office of International Programs has specific responsibility for coordinating and facilitating the development of the diverse international programs and activities of the University. The Office of International Programs is the primary contact for international programs and represents the University on international matters to external agencies and institutions. In addition to coordinating all international faculty and student exchange programs, the Office of International Programs serves as an information clearinghouse regarding international projects, funding opportunities, and academic programs and services that have an international component.

International Faculty Exchanges

In order to enhance the international character of instruction and research, San Diego State University has developed a continuing program of faculty exchanges with partner universities worldwide. Currently, the University has formal arrangements to exchange faculty and administrators periodically with universities across the globe. Over 100 international scholars visit the San Diego State University campus each year to pursue scholarly research, participate in academic or professional programs, and share their international perspectives with the university community.

International Student Exchanges

In addition to the CSU International Programs, San Diego State University has entered into special institutional arrangements with selected universities that provide both undergraduate and graduate students the opportunity for study, research, and internships abroad. Currently San Diego State University has student exchange agreements with many international partners. SDSU’s International Student Center assists students who wish to participate in an exchange. For detailed information, contact the International Student Center at (619) 594-1982.

For more information about the University’s international programs, contact the Office of International Programs, (619) 594-1354. EMAIL: oip@mail.sdsu.edu or visit our Web site at www-rohan.sdsu.edu/~oip.

Library and Information Access

Administration
Dean, Library and Information Access: Connie Vinita Dowell
Director of Information and Collection Services:
Director of Information Systems and Technology: John B. Ross
Director of Administrative Operations: Helen Henry
Director of Development: Leslie F. DiBona

Library Faculty
Emeritus: Barclay, Chan, Crisley, Dickinson, Fields, Goodwin, Hoard, Greene, Harris, Hoover, Johns, Kowalczyk, Palster, Martinez, McAmis, Murdock, Neyendorf, Pease, Posner, Sandelin, Schalles, Shira, Sonntag, Szabo
Librarians: Cargille, Coleman, Dittrone, Fikes, Harkanyi, Muroi, Perkins, Turhollow, White
Associate Librarians: Barber, Carande, Goyne, Harley, McPhail, Paissong, Puerto, Rogers, Wilson
Senior Assistant Librarians: Dreger, Hall, Hudson, Stover, Sullivan, Tumlin

The Library supports the curricular and research needs of the University community through the development of collections and the provision of services designed to facilitate access to information. Service desks are located in these units: Circulation, General Reference, Government Publications and Maps, Media Center, Current Periodicals and Microforms Center, Reserve Book Room, Science, and Special Collections. The Library also has a comprehensive instruction program, which includes course-related instruction and tours.

The Libweb (http://libweb.sdsu.edu) provides access, within the library and remotely, to the library’s catalog and more than 50 databases. Interlibrary loan services are provided to obtain materials not held in the library. In addition, students and faculty can place unmediated requests for books from San Diego and selected California academic libraries through Circuit and Link+. The Information Systems and Technology group provides computer accounts to all students, as well as hosting WorldWideWeb pages for students, the University, and the Library. It also operates a student computing facility with over 200 PCs and the student computing help desk which assists students with a variety of computer questions.

The Library’s holdings include 1,273,603 monographs and bound periodicals; 639,547 government documents; 4,097,317 microforms; 176,535 maps; 9,534 sound recordings; and 5,233.89 linear feet of archival papers. The Library receives 5,079 periodical and serial titles, including government publications. It is a depository for United States and California government publications, and receives selected United Nations publications.

Navy Officer Programs and Scholarships

San Diego State University maintains a liaison with the Navy Officer Programs Office in San Diego. This liaison provides students with access to the many opportunities available to college students throughout the Navy, including scholarships for up to $42,000. Call 1-800-USA-NAVY for additional information.

Baccalaureate Degree Completion Program. Sophomores, juniors and seniors who qualify can earn up to $1200 each month while they finish their last one, two or three years of college – no uniforms or drill required. Scholarships are available to sophomores, juniors and seniors in all majors who have a 2.7 grade point average or above.

Positions in aviation, surface warfare, business management, personnel management, and information systems is guaranteed after college graduation.

Navy Engineering Programs. Scholarships are available to students in technical majors who have at least a 3.0 grade point average. Those who are interested and qualified receive more than $1300 each month plus benefits while they finish their last one or two years of undergraduate study. The scholarship leads to a position as an instructor, research or operating engineer for the Navy, and a commission as a naval officer.
Special Programs and Services

Medical School and Dental School Scholarships. For students applying to medical or dental school, a scholarship is available which will cover the cost of tuition and books and provide a monthly payment while in medical school. Initial requirements are application to an accredited medical school and competitive GPA and MCAT/DAT scores.

Allied Health Profession Opportunities. The Navy Medical Service Corps offers commissions to clinical, scientific and administrative professionals in the health care field. It is comprised of several specialties that require either a baccalaureate, masters of doctorate degree.

Nurse Corps. Limited scholarships are available for junior and senior nursing students with top scholastic performance.

Students are encouraged to seek information and plan ahead if they are interested in adding any of these programs to their career options. More information on all programs is available by calling or writing to the Officer Programs Office, NRD San Diego, NTC BLDG 335, San Diego, CA 92133-6800; telephone (619) 524-6710.

Parking and Transportation
Where possible, carpooling or use of alternate modes of transportation is recommended. For carpool registration, contact School Pool (1-800-COMMUTE). For additional carpool information call (619) 594-5224.

San Diego Transit has six bus routes connecting the metropolitan area with service to the University Transit Center. These are routes 11, 13, 55, 81, 115, and 936. Monthly bus passes can be purchased at the Aztec Center Ticket Office. San Diego Transit information at 1-800-COMMUTE will provide further information concerning bus routes, fares, and services, or use the free online transit information service at www.sdcommute.com.

On-campus parking for students and employees is by permit only. Purchase possession of a parking permit does not guarantee a parking space. Parking structures are located on the perimeters of the campus in addition to surface parking lots. A free shuttle bus service to remote parking lots operates daily during the academic year. Major events at Cox Arena may require parking location adjustment. Visitor parking is available in metered lots. Visitors are directed to the Information Booth at the College Avenue entrance to the campus for directions to appropriate metered parking areas. For further information on parking at the San Diego campus, contact the Department of Public Safety, (619) 594-6671. For visitor parking at the Imperial Valley Campus, call (760) 768-5500.

San Diego State University Foundation
San Diego State University Foundation was incorporated in 1943 as an auxiliary organization authorized by the Education Code of the State of California. It is a nonprofit corporation, self-financed, and chartered to augment the educational, research, and community services objectives of the University. San Diego State University Foundation serves the University in the following major areas:

- Develops and administers grants and contracts for faculty and staff research and educational projects and community service programs;
- Administers a technology transfer program for San Diego State University;
- Develops and administers several major centers, institutes, and community partnerships, such as the June Burnett Institute for Children, Youth, and Families, and the Fred J. Hansen Institute for World Peace, and the Defense Conversion Center;
- Develops property adjacent to the campus, and manages a real property program whereby SDSU Foundation acquires and provides space for grant and contract activity and leases property to the University and other campus auxiliaries;
- Oversees KPBS TV and FM stations.

San Diego State University Foundation, as a nonprofit corporation, is governed by a board of directors in accordance with its articles of incorporation and bylaws. The principal function of the directors is to establish policies and guide the corporation in achieving its objectives.

San Diego State University Press
As the scholarly press for San Diego State University, San Diego State University Press publishes works of original research, as well as other notable academic and creative works that will further the intellectual mission of the University. The current focus of the Press is in these areas: Latin America and the United States-Mexico border; regional studies of the Pacific Southwest; and postmodernism. In addition to books, the Press also publishes under its imprint the journals Fiction International, Poetry International, and the Journal of Borderland Studies.

San Diego State University Press imprint is controlled by an editorial committee of scholars, appointed by the Provost and Vice President for Academic Affairs and the Senate. Financial accounting and coordination are provided by the San Diego State University Foundation.

Semester Study Abroad Programs

London Semester Academic Program
The London Semester academic program operates through a consortium of CSU campuses. It is jointly administered by the Division of Undergraduate Studies and the Colleges and offers students the opportunity to study for a semester in London, while earning SDSU resident credit. Courses satisfying General Education requirements are taught by SDSU and other CSU faculty. To be eligible, students must be sophomores, juniors, or seniors in good academic standing.

Paris Semester Academic Program
The Paris Semester academic program is administered by the Department of European Studies. It offers students the opportunity to study for a semester in Paris, while earning 12 units of SDSU resident credit. Courses satisfying General Education, French, and International Business requirements are taught by SDSU and Paris-based faculty. To be eligible, students must be sophomores, juniors, or seniors in good academic standing with a minimum of two college semesters of French. For further information, contact the Department of European Studies, Business Administration, Room 304.

Salamanca Semester Academic Program
The Salamanca Semester academic program is administered by the Department of Spanish and Portuguese and the Division of Undergraduate Studies. It offers students the opportunity to study for a semester in Salamanca (Spain) while earning 12 units of SDSU resident credit. Courses satisfying Spanish major and minor requirements are taught by SDSU and Salamanca-based faculty. To be eligible, students must be sophomores, juniors, or seniors in good standing with a minimum of two college semesters of Spanish. For further information, contact the Department of Spanish and Portuguese Languages and Literatures, Business Administration, Room 403.

Student Recruitment and School Relations
Student Services, Room 1580, (619) 594-6336
FAX: (619) 594-1511 www.rohan.sdsu.edu/~sos/

Student Recruitment and School Relations is SDSU’s official representative linking the University with prospective students, community colleges, and high schools. The department fosters relationships with schools, colleges, and community organizations to ensure high quality and diverse students apply to San Diego State University. Student
Recruitment and School Relations provides guidance on college selection, preparation for college, admission requirements, academic programs, and student services. Special programs and activities are then conducted to assist admitted students.

Specific services include visitations and presentations to students, counselors, and parents at high schools and community colleges, and administration of special programs including counselor conferences, Preview Day for prospective students, and Future Aztecs Day for admitted students.

**Student Success Programs**

**Thomas B. Day Freshman Success Programs**

Endowed by Bernard and Dorris Lipinsky, the Thomas B. Day Freshman Success Programs were designed to offer new freshmen opportunities which will help lay a strong foundation for them to be successful in their college work. TBDFSP is a partnership program sponsored by both Academic and Student Affairs.

**University Seminar.** Offered each fall semester, this one-unit elective course (General Studies 100) provides new students the opportunity to interact with faculty in a small group setting within an academic framework. Students acquire study and interpersonal skills necessary for academic and personal success. They hone their critical thinking abilities, learn how to communicate effectively with professors and gain experience in goal-setting and academic planning. The curriculum includes special sessions giving students knowledge of campus resources including the library, academic advising, career planning, health and wellness services. For more information, contact the Thomas B. Day Freshman Success Programs office, Administration, Room 201, (619) 594-3212.

**Integrated Curriculum.** Offered in conjunction with various colleges, the Integrated Curriculum is an academic package of courses designed to help freshmen adapt to SDSU’s academic standards and achieve their academic goals. Students enroll in one of the packages which then becomes their set of classes for the semester. Some of the IC packages are designed for specific majors and include core courses for that particular major. Others feature General Education courses as their academic centerpiece. Also included is a section of the University Seminar course as well as partner courses in writing and mathematics. For more information, contact the Thomas B. Day Freshman Success Programs office, Administration, Room 201, (619) 594-3212.

**Living/Learning Center.** The LLC is a residence hall option in which freshmen live together in Maya and Olmeca Residence Halls. LLC students enjoy comfortable living accommodations, a computer room, study lounge, recreation, and television rooms. Participants in this option are automatically enrolled in an Integrated Curriculum which includes the University Seminar course. In the LLC students take advantage of special advising, workshops, and study information. Contact the Housing and Residential Life office, 6050 Montezuma Road, (619) 594-5742 for more information.

**Freshman Leadership Connection.** This program is designed for freshmen who are interested in developing their leadership potential and becoming active and involved on campus and in the community. Students attend seminars dealing with issues concerning team building, values, ethics, multicultural awareness, personal responsibility, global opportunities, and effective communication. They participate in the SDSU Leadership Institute conference and community service projects. For more information, contact the Student Life and Development office, Student Services, Room 1602, (619) 594-5221.

**Faculty/Student Mentoring Program**

**Randi E. McKenzie, Director**

The Faculty/Student Mentoring Program is designed to provide academic and personal support to students who are striving to achieve their full potential under economic, educational, and/or environmental challenges. The program brings together faculty and student mentors to assist incoming freshmen and first-time transfer students adjust to the campus culture. The program seeks to strengthen and sustain students in their educational and career goals and help make college a rewarding experience. Each College has a unique Faculty/Student Mentoring Program. In addition, there are opportunities for students who have yet to decide upon a major and a program for those studying at the Imperial Valley Campus. For more information, call (619) 594-0474.

**Veterans Affairs**

Student Services, Room 1590, (619) 594-5813

Students who are eligible for veterans, dependents, or reservists V.A. education benefits should visit SDSU’s Veterans Affairs Office (VAO). Services available through the VAO include assistance in applying for education benefits, coordinating the V.A. work/study program, and processing tutorial assistance paperwork.

Students planning to attend SDSU should contact the Veterans Affairs Office two months before the beginning of their first semester to be advised on how to file for benefits. For additional information about the VAO or the services provided, please telephone or visit the office.
University Policies

Student Responsibility for Catalog Information

Students are held individually responsible for the information contained in this catalog. The requirements listed in the “Graduation Requirements” section of the catalog are those requirements which the University will make every effort to preserve for students subject to this catalog. All other parts of the catalog, including this “University Policies” section, are subject to change from year to year as University rules, policies, and curricula change. Failure to keep informed of such changes will not exempt students from whatever penalties they may incur.

Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or designee of San Diego State University. Further, it is not possible in this publication to include all of the rules, policies, and other information which pertain to the student, San Diego State University, and the California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office. Each semester, the Class Schedule and Student Information Handbook outlines changes in academic policy and procedure and current deadlines which are of importance to students.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of San Diego State University. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies that apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and San Diego State University or the California State University. The relationship of the student to San Diego State University is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President and their duly authorized designees.

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect the privacy of students concerning their records maintained by the campus. Specifically, the statute and regulations govern access to student records maintained by the campus and the release of such records. In brief, the law provides that the campus must provide students access to records directly related to their campus and the release of such records. In brief, the law provides that the campus must provide students access to records directly related to their campus or other related academic responsibilities. Disclosure may also be made to other persons or organizations under such conditions as part of accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; to other institutions to which the student is transferring.

Nondiscrimination Policies

Discrimination Prohibited

San Diego State University maintains and promotes a policy of nondiscrimination on the basis of race, religion, color, sex, age, disability, marital status, sexual orientation, and national origin. This policy incorporates the requirements of federal Executive Orders 11246 and 11375; Titles VI, VII, and IX of the Civil Rights Act of 1964; Sections 503 and 504 of the Rehabilitation Act of 1973; the Americans with Disabilities Act; as well as pertinent laws and regulations in Title 5 of the California Code of Regulations. Students may file a complaint if they have reason to believe they have been discriminated against on the basis of any of the above-prohibited reasons. Procedures for filing complaints are available in the Office of the Ombudsman, (619) 594-6578.
**Definition of Grades for Undergraduate Students**

Grades and grade points per unit used in reporting are as follows:

- **A** (outstanding achievement; available only for the highest accomplishment), 4 points;
- **B** (average; awarded for satisfactory performance), 3 points;
- **C** (minimally passing), 2 points;
- **D** ( unacceptable for graduate credit, course must be repeated), 1 point;
- **F** (failing), 0 points;
- **SP** (satisfactory progress), not counted in the grade point average;
- **W** (withdrawal), not counted in the grade point average;
- **AU** (audit), no credit earned and not counted in the grade point average;
- **CR** (credit), signifying units earned, but not counted in the grade point average;
- **NC** (no credit) no credit earned and not counted in the grade point average;
- **U** (unauthorized withdrawal), counted as "F" for grade point average computation;
- **P** (passing), 1 point;
- **NC** (importance of each instructor and the approval of the dean or designee of the college in which the class is located). If you wish to withdraw from all classes during this period, you must obtain the signature of each instructor and the approval of the dean or designee of the college in which the class is located.

**Withdrawal Grade – “W”**

The symbol “W” indicates that you were permitted to drop a course after the first four weeks of instruction because of a verified serious and compelling reason, and you have obtained the signature of the instructor and the approval of the dean or designee of the college in which the class is located. The grade for average undergraduate achievement is C.

**Plus/Minus Grading**

A plus/minus grading system is utilized at San Diego State University. Plus/minus grading is not mandated, but is utilized at the discretion of the individual instructor. The grades of A+, F+, and F– are not issued. The decimal values of plus and/or minus grades are utilized in the calculation of grade point averages as follows:

- **A** = 4.0
- **A–** = 3.7
- **B+** = 3.3
- **B–** = 3.0
- **C+** = 2.3
- **C–** = 2.0
- **D+** = 1.7
- **D–** = 1.4
- **F** = 0
- **F+** = 0
- **F–** = 0

Faculty members use all grades from A through F to distinguish among levels of academic accomplishment. The grade for average undergraduate achievement is C.

**Immigration Requirements for Licensure**

On August 27, 1996, state Executive Order W-135-96 directed that the CSU and other state agencies implement “as expeditiously as reasonably practicable” the provision of The Personal Responsibility and Work Opportunity Reconciliation Act (PRAWORA) of 1996 (P.L. 104-193). The Act, also known as the Welfare Reform Act, included provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the new Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure.

**Prohibition of Sex Discrimination**

San Diego State University is committed to providing equal opportunities to men and women students in all CSU education programs and activities including intercollegiate athletics under Title IX. Any inquiries regarding discrimination in any educational program or activity can be directed to the Director, Office of Diversity and Equity, (619) 594-1937.

**Sexual Harassment is Prohibited Sex Discrimination**

San Diego State University is committed to creating and maintaining a positive learning and working environment for its students and employees and will not tolerate sexual harassment. It is discrimination prohibited under the Civil Rights Act of 1964; California Education Code, and CSU Executive Order 345. Sexual harassment is defined by its behaviors and their consequences, and the gender or sexual orientation of the harasser or the harassed is irrelevant to that definition. For any inquiries, or to file a complaint, students are directed to the Director, Office of Diversity and Equity, (619) 594-2221.

**Disability Discrimination Prohibited**

No otherwise qualified handicapped person shall, on the basis of handicap, be excluded from participation in, or be denied the benefits of, or otherwise be subjected to discrimination under any academic or other postsecondary education program receiving federal funds. A student is considered qualified who meets the academic and technical standards requisite to admission or participation in the education programs or activities of SDSU. San Diego State University is committed to providing reasonable accommodation for students with disabilities to permit them to carry out their educational responsibilities. Requests for assistance and accommodation can be directed to the Director, Disabled Student Services, (619) 594-6473, TDD (619) 594-2929.

**University Policies**

San Diego State University is committed to providing equal opportunities to men and women students in all CSU education programs and activities including intercollegiate athletics under Title IX. Any inquiries regarding discrimination in any educational program or activity can be directed to the Director, Office of Diversity and Equity, (619) 594-4646.
beginning of instruction. All such requests must be accompanied by appropriate verification. Ordinarily, withdrawals in this category will involve total withdrawal from the University, except that credit, or an Incomplete, may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made. Requests to withdraw under such circumstances must be signed by each instructor, who indicates your grade status in the class, and approved by the dean or designee of the college of your major.

After the last day of the semester, if you wish to change assigned grades to “W” grades you must request to withdraw from the full semester’s work; no requests for individual classes will be accepted. Such requests may be granted only in verified cases such as accident or serious illness where the cause for substandard performance was due to circumstances clearly beyond your control. Only those retroactive changes from an assigned grade to a “W” which are approved by the instructor who assigned the original grade will be made, except that (a) the dean or designee of the college of your major may authorize the change of “U” to “W,” and (b) department chairs shall act on behalf of instructors no longer affiliated with the University.

Auditing – “AU”

Enrollment as an auditor is subject to permission of the instructor, provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. Failure to meet required class attendance may result in an administrative drop of the course. To enroll as an auditor, obtain the Change to Audit Grade form from the Office of the Registrar. Obtain instructor approval and return the completed form on or before the fifteenth day of instruction to the Office of the Registrar. Once enrolled as an auditor, you may not change to credit status unless such a change is requested prior to the end of the fifteenth day of instruction. If you are enrolled for credit, you may not change to audit after the end of the fifteenth day of instruction.

Credit/No Credit
(Undergraduate Student Option) – “Cr/NC”

An undergraduate student may elect to be graded credit/no credit in particular courses, subject to the following conditions:

1. Upper division courses graded credit/no credit (Cr/NC), whether taken at this or at another institution, may not be used to satisfy requirements for your major or minor except for those courses identified in the course listing as graded “Cr/NC.”
2. Courses graded credit/no credit may not be used to satisfy the Communication and Analytical Reasoning section of General Education.
3. No more than 15 units graded credit/no credit may be offered in satisfaction of the total units required in a bachelor’s degree program, except that all units accepted as transfer credit from another institution at the time of your admission may be used. If 15 or more units graded credit/no credit are transferred, you may not use additional courses graded credit/no credit to satisfy total units required for a bachelor’s degree. Exceptions to this rule will be made only if you are required to take an SDSU course on a credit/no credit basis.
4. Units for courses required for graduation which are offered for Cr/NC only will not be counted as part of the 15 elective units of Cr/NC allowed.
5. If for any reason (change of major or minor or transfer from another institution) upper division courses graded credit/no credit are offered to satisfy requirements in the major, you may be required by the major department to pass competency examinations at an acceptable level or take prescribed alternate courses before being allowed to continue in the major.

6. Change in grading basis may be made by calling RegLine (619-594-7800) on or before the fifteenth day of instruction. No changes in grading basis are permitted after that date.
7. A grade of “Credit” is awarded for work equivalent to all grades which earn 2.0 or more grade points (A through C). “No Credit” is awarded for work equivalent to all grades which earn less than 2.0 grade points (C– through F).
8. The only courses which may be repeated with a credit/no credit option are those in which you previously received a grade of “No Credit.” If a course previously taken for a grade is repeated for a grade of “Credit,” the original grade will continue to be used in computation of the grade point average.

NOTE: “NC” is not calculated in the grade point average at San Diego State University. However, some institutions, particularly for graduate admissions, calculate an “NC” as an “F.”

Authorized Incomplete Grade – “I”

The symbol “I” (incomplete authorized) indicates that a portion of required coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. It is your responsibility to bring pertinent information to the instructor and to reach agreement on the means by which the remaining course requirements will be satisfied. The conditions for removal of the Incomplete shall be reduced to writing by the instructor and given to you with a copy placed on file with the department chair until the Incomplete is removed or the time limit for removal has passed. A final grade is assigned when the work agreed upon has been completed and evaluated. An Incomplete shall not be assigned when the only way you could make up the work would be to attend a major portion of the class when it is next offered. Contract forms for Incompletes are available at department offices.

An Incomplete must be made up within one calendar year immediately following the end of the term in which it was assigned. This limitation prevails whether or not you maintain continuous enrollment. Failure to complete the assigned work within one calendar year will result in an Incomplete being computed into the grade point average as an “F” (or a “NC” if the course was taken Cr/NC). After one calendar year, the only way you may eliminate that grade from the grade point calculation is to repeat the course and file a petition for course “forgiveness” (see “Repeated Courses” below). In any case, because your record must provide an accurate and complete accounting of your academic history, the notation of “Incomplete” will remain on the record.

An incomplete may not be made up after you have graduated.

Unauthorized Withdrawal Grade – “U”

The symbol “U” indicates that you enrolled in a course, did not withdraw from the course, but failed to complete course requirements. It is used when, in the opinion of the instructor, the number of completed assignments or course activities or both were insufficient to make possible a normal evaluation of academic performance. For purposes of grade point average computation, this symbol is equivalent to an “F.”

If you attend a portion of a course and then, after receiving failing grades, stop attending without officially withdrawing, you should normally receive a final grade of “F” and not “U.”

Computation of Grade Point Average

To compute the grade point average, the total number of grade points earned is divided by the number of units attempted. Units earned with a Cr (Credit) are not included in the computation. A grade of “I” (authorized incomplete) is not counted in the grade point computation until one calendar year has expired, at which time it will count as an “F.” The minimum GPA for a bachelor’s degree is 2.0 (C); in other words, you must have earned at least twice as many grade points as units attempted.
Good Standing
Academic standing for undergraduate students at San Diego State University is determined by the grade point average a student earns in University areas. At the undergraduate level, good academic standing means that the student has an overall cumulative GPA and an SDSU cumulative GPA of 2.0 or better. (Students should note that in order to graduate, they also need a GPA of 2.0 in the major.)

Repeated Courses
Course “Forgiveness” and Course Repeat Policy: Undergraduate students are subject to the following conditions and requirements. If you receive a grade of C- or lower (fewer than 2.0 grade points per unit) you may request that the course repeat policy for grade forgiveness be applied to that course. The course repeat policy can be applied to as many as four repetitions of lower division courses and one upper division course taken at San Diego State University, except in cases where enrollment is restricted and you no longer qualify for admission to a course.
1. In the semester in which you are repeating a course for which you want an earlier grade “forgiven,” you must file a Course Forgiveness Form in the Office of the Registrar before the end of the add period (or before noon of the third day of Summer Term classes). While the original grade(s) will remain on your record, the grade earned in the repeat, whether higher or lower than the original grade, will be used in place of the earlier grade in calculation of grade point averages.
2. A course may be repeated only twice for grade forgiveness. Courses repeated more than once including repeats of those originally taken at another institution all count as part of the five-course maximum. Although the original grade(s) will remain on the transcript, only the latest grade will be used in calculating grade point averages.
3. The course “forgiveness” and course repeat policy applies only to repeats of the same course (same number, same title, and, for Experimental Topics courses, same subtitle). Exceptions will be made only in those cases where the course number changes and the change is documented in the General Catalog.
4. In some cases, admission to courses may have become restricted due to impaction, limitation by major code, enrollment of prerequisites, or sequence requirements (e.g., mathematics and foreign language); in those cases, you are prohibited from repeating those courses.
5. The only courses which may be repeated Credit/No Credit are those in which you previously received No Credit; if a course previously taken for a grade is repeated Credit/No Credit, the original grade will continue to be calculated in grade point averages. Repeating courses in which the original grade was “NC” does not require the filing of the Course Forgiveness Petition, nor does it subtract from the five forgivable repeats permitted, since the No Credit grade does not affect your GPA.
6. The course “forgiveness” policy may be extended to courses originally taken elsewhere and repeated at San Diego State University, in which case the original transfer grade will no longer be used in the calculation of the overall grade point average. However, the “forgiveness” policy applies only to courses repeated at San Diego State University.
7. The course “forgiveness” policy applies to courses repeated at San Diego State University in Summer Term and to courses repeated through Open University during Summer Term, Fall and/or Spring semesters.
8. If courses with C- or lower grades are repeated without appropriate notification having been filed by the deadline or in excess of course repeat limitations (no more than two repeats per course, no more than five repeats total), course “forgiveness” will not be applied; all grades for those courses will be calculated in grade point averages. Units for a course will be counted only once toward graduation, regardless of number of repeats.
9. If you repeat a course in which a grade of C or better was received, only the original grade and units earned will be used for calculation of grade point averages and units needed for a degree.

Assignment of Grades and Grade Appeals
1. Faculty have the right and responsibility to provide evaluation and timely assignment of appropriate grades.
2. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise.
3. If you believe that an appropriate grade has not been assigned you should first seek to resolve the matter with the instructor of record. If the matter cannot be resolved informally, you may present the case to the appropriate campus entity, have it reviewed and, where justified, receive a grade correction.
4. It is your responsibility to attempt to resolve grade disputes in a timely manner, typically during the semester following the semester the questioned grade was received. If twelve or more months have elapsed since the grade was issued, or you have graduated, no grade change will be considered.

Courses
Satisfaction of Requirements
Except as permitted in the Graduation Requirements section of the catalog, a course cannot be used to satisfy more than one requirement.

Numbering of Courses
Courses numbered 80 through 99 are nonbaccalaureate level and are not acceptable for a bachelor’s degree; those numbered 100 through 299 are in the lower division (freshman and sophomore years); those numbered 300 through 499 are in the upper division (junior and senior years) and intended for undergraduates; those numbered 500 through 599 are in the upper division and are also acceptable for advanced degrees when taken by students admitted to graduate standing; those numbered 600 through 799 are graduate courses; and those numbered 800 through 899 are doctoral courses.
Courses numbered at the 900 level are reserved for graduate courses in certain professional curricula as part of advanced certificate, credential, and licensure programs and are specifically intended for students admitted to the University with post-baccalaureate classified standing. Courses numbered at the 900 level are not applicable to other graduate programs.
Courses numbered 397 offered in regular sessions are professional advancement training or tutorial/discussion classes that accompany other credit courses and are not acceptable towards an undergraduate or graduate degree.
Courses numbered X-01 through X-79 and X-397 are professional advancement units offered only through Extension to meet specific academic needs of community groups and are not acceptable toward an undergraduate or graduate degree.

Undergraduate Enrollment in 600-, 700-, and 800-Numbered Courses
1. You must obtain permission of the instructor.
2. You must be a senior in good standing and have a B (3.0) GPA average.
3. Undergraduate enrollments may not cause the exclusion of a qualified graduate student in a graduate course.
4. Undergraduate students must complete a petition for request to enroll which is available in the Graduate Division.
California Articulation Number (CAN)

The California Articulation Number (CAN) identifies some of the transferable, lower division, introductory (preparatory) courses commonly taught within each academic discipline on California college campuses.

The system assures students that CAN courses on one participating campus will be accepted “in lieu of” the comparable CAN course on another participating campus. For example: CAN ECON 2 on one campus will be accepted for CAN ECON 2 on another participating campus.

Courses at San Diego State University that have qualified for CAN designations are listed parenthetically by the course description in the Courses and Curricula section of this catalog.

Final Examinations

No final examination shall be given to individual students before the regular time. If you find it impossible to take a final examination on the date scheduled you must make arrangements with the instructor to have an incomplete grade reported and must take the deferred final examination within the time allowed for making up incomplete grades.

Academic Credit Through Coursework

Credit for Upper Division Courses

Normally, only juniors, seniors and graduate students enroll in upper division courses (numbered 300 through 599). However, a freshman or sophomore may enroll in an upper division course for upper division credit if the instructor consents. Article 40405.2 of Title 5, California Code of Regulations specifically limits upper division general education credit to students who have achieved upper division status.

Community College Credit

A maximum of 70 semester units earned in a community college may be applied toward the degree, with the following limitations: (a) no upper division credit may be allowed for courses taken in a community college; (b) no credit may be allowed for professional courses in education taken in a community college, other than an introduction to education course.

Concurrent Master’s Degree Credit

The bachelor’s degree must be completed at the end of the semester or term in which the concurrent credit is earned.

A senior who has met all of the required competencies in writing and mathematics and who is within 12 units of completing requirements for the bachelor’s degree and whose grade point average in the last 60 semester units attempted is 3.0 or above may petition the Graduate Council to take for concurrent master’s degree credit 500-numbered courses listed in the Bulletin of the Graduate Division as acceptable for master’s degree programs, and certain 600- and 700-numbered courses approved by the department, with the remaining requirements for the bachelor’s degree. Petitions may be obtained from the Graduate Division and must be submitted to the Office of the Registrar by the end of the third week of classes of the semester or term in which the concurrent credit is earned, and you must have on file a current graduation application for the bachelor’s degree. The maximum number of units which may be earned as concurrent master’s degree credit is determined by the difference between the number of units remaining for the bachelor’s degree and 15.

Concurrent Postbaccalaureate Credit

Applicable to the “Fifth Year” Credential Requirement Only.

Concurrent postbaccalaureate credit may be earned during the final semester or summer term by seniors admitted to the College of Education who meet all of the following qualifications:

1. Have a minimum grade point average of 2.5 on the last 60 units attempted.
2. Complete coursework in excess of graduation requirements during the semester (or summer term) when graduation occurs.
3. Attempt no more than 18 units during the final undergraduate semester (or 15 units during summer term).
4. Request no more than a maximum of 12 units of 300-, 400-, or 500-numbered courses for postbaccalaureate credit.
5. Submit petition before the end of the first week of classes (or the first week of summer Term A) of the final undergraduate semester (or term) when graduation occurs.
6. Petition the Dean of the College of Education.
7. Graduate at the end of the semester (or summer term) the petition is made.

Extension courses are not acceptable for concurrent postbaccalaureate credit. Concurrent postbaccalaureate credit will not be granted retroactively.

Petition forms are available in the Office of the Registrar, SS-1563.

Credit for Extension Courses

The maximum amount of extension and correspondence credit which may be accepted toward the minimum requirements for the bachelor’s degree is 24 semester units. Extension and correspondence credit are not counted in satisfaction of the minimum residence requirement. A maximum of nine units in extension courses at San Diego State University may be accepted as part of the requirements for the master’s degree, subject to limitations described in the Bulletin of the Graduate Division.

Continuing education courses offered by departments are of two kinds. The first includes regular courses listed in the General Catalog which are available for use by students in meeting college and university credit requirements of various kinds, and are usually at the upper division level. A second kind is offered by some departments at the X-01 through X-79 and X-397 level and serves to meet the needs of specific community groups.

Courses numbered 80 through 99 are nonbaccalaureate level and are not acceptable for a bachelor’s degree; those numbered 100 through 299 are in the lower division (freshman and sophomore years); those numbered 300 through 499 are in the upper division (junior and senior years) and intended for undergraduates; those numbered 500 through 599 are in the upper division and are also acceptable for advanced degrees when taken by students admitted to graduate standing; those numbered 600 through 799 are graduate courses; and those numbered 800 through 899 are doctoral courses. Courses numbered at the 900 level are reserved for graduate courses in certain professional curricula as part of advanced certificate, credential, and licensure programs and are specifically intended for students admitted to the University with postbaccalaureate classified standing. Courses numbered at the 900 level are not applicable to other graduate programs.

Courses numbered X-01 through X-79 and X-397 are professional advancement units offered only through Extension to meet specific academic needs of community groups and are not acceptable toward an undergraduate or graduate degree.
Academic Credit Through Examination

San Diego State University grants credit for passing scores on The College Board Advanced Placement Examinations, on certain tests in the College-Level Examination Program, and on Higher Level subjects in the International Baccalaureate program. It also grants credit for locally administered “credit by examination” tests. A total of 30 units will be allowed for credit earned through examination (excluding Advanced Placement). The details in each case are provided below.

Credit for Advanced Placement Examinations

San Diego State University grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of The College Board. Students who present scores of three or better may be granted college credit.

High school students who intend to participate in this program should make the necessary arrangements with their high schools and should indicate at the time they take the Advanced Placement Examinations that their test scores be sent to San Diego State University. To obtain credit and advanced placement, you should contact the Office of Advising and Evaluations.

The Advanced Placement Credit table on the next page indicates the units granted for the score attained and the course equivalents for each of the examinations offered.

Credit for College-Level Examination Program (CLEP)

The University grants credit (see table above) on four of the five CLEP General Examinations (Humanities, Mathematics, Natural Sciences, and Social Sciences) and on four of the CLEP Subject Examinations (Calculus with Elementary Functions, College Algebra and Trigonometry, General Chemistry).

Credit for International Baccalaureate Certificates or Diplomas

San Diego State University normally grants six units of credit for each International Baccalaureate Higher Level subject examination passed with a score of 4 or better. To receive credit, you must request that your International Baccalaureate transcript of grades be sent to San Diego State University’s Office of Advising and Evaluations. The following table identifies established course equivalencies. Subject examinations not listed in the table will be evaluated for appropriate course credit by the departmental adviser.

Credit by Examination

Students may challenge courses by taking examinations developed at San Diego State University. Up to 30 units will be awarded to those who pass the examinations successfully, and the grade(s) earned, including “F,” will be used in San Diego State University grade point calculations. At the discretion of the department a grade of Cr/NC may be awarded instead of a letter grade; a maximum of 15 total Cr units may be applied toward an undergraduate degree.

If you are interested in applying for credit-by-examination, you need to check with the appropriate department(s) since each department has the option of excluding any or all of its courses from credit by examination or of setting special conditions on the student requesting this option.

Approval to receive undergraduate credit-by-examination is granted at the discretion of the appropriate college authorities and under the following conditions:

1. You must be matriculated, in good standing (not on probation), be registered in at least one regular course (not Extension) at the time credit-by-examination is authorized, and pay for additional units if cost exceeds fees already paid.
2. You must register in the course for which credit by examination is being requested within the time limits for filing a change of program as listed in the Academic Calendar each semester.
3. Approval of the department chair and the dean of the college concerned is required prior to taking the examination. Forms for approval may be obtained from the Office of the Registrar.
4. Credit-by-examination is restricted to regular undergraduate courses listed in the General Catalog, does not include 600- and 700-numbered or Extension courses, and does not count toward the 30-unit minimum residency requirement.
5. Credit-by-examination is not treated as part of your study load and, therefore, is not considered by the Veterans Administration in the application of their regulations; and is not always accepted as transfer credit between collegiate institutions.
6. Credit-by-examination is restricted to the regular summer, fall, or spring semester. It is not allowed during summer term.

Credit for Noncollegiate Instruction

San Diego State University grants undergraduate degree credit for successful completion of noncollegiate instruction, either military or civilian, appropriate to the baccalaureate, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

*Credit may not be earned at SDSU for courses which duplicate credit already allowed for examinations as listed under SDSU course equivalents.

Credit will be considered to be elective units in most cases. Petitions for acceptance of credits toward specific requirements are available in the Office of the Registrar. Appropriability to specific degree requirements (General Education, Major, Minor, etc.) is subject to approval of the appropriate campus authority.

### Academic Credit for Military Service

The University is guided by the recommendations of the American Council on Education in granting undergraduate credit toward the bachelor's degree for military service. Postgraduate credit is not granted.

To obtain credit for military service, you must be fully matriculated, be enrolled at the University, and submit Form DD-214 or DD-295.

### Student Classification

A matriculated student is one who has complied with all requirements for admission to the University and has received an official Notice of Admission. All students taking courses in any regular semester must be matriculated students.

- **Freshman.** A student who has earned a total of fewer than 30 semester units.
- **Sophomore.** A student who has earned a total of 30 to 59 semester units, inclusive.
- **Junior.** A student who has earned a total of 60 to 89 semester units, inclusive.
- **Senior.** A student who has earned a total of 90 semester units or more.
- **Graduate.** A student who has completed a four-year college course with an acceptable baccalaureate degree from an accredited institution and who has been admitted to the University with postbaccalaureate standing. For information on classification of graduate students, see the Bulletin of the Graduate Division.

### Student Program and Records

#### Transcripts of Record

You may obtain an official transcript of your record by filing a transcript request form at the University Cashiers Office. A fee is charged for all transcripts and must be paid in advance. Five to seven working days should be allowed for the processing and mailing of the transcript. Transcripts from other schools or colleges become the property of this university and will not be released or copied.

#### Unofficial Transcripts

You may obtain an unofficial copy of your SDSU transcript by paying the unofficial transcript fee at the Office of the Registrar. These transcripts are usually available on an immediate basis. These records do not bear the seal of the University and are not suitable for transfer purposes. Unofficial copies will be made ONLY of the SDSU transcript.

#### Full-Time Student Status

Full-time student status for undergraduates at SDSU is 12 units per semester. Full-time enrollment for a graduate student is nine units of coursework numbered 500 through 999. You can obtain verification of your enrollment from the Office of the Registrar by any of the following methods: (1) in person with proper photo identification in Room 1563 of the Student Services building; (2) by mailing the request with your authorization and signature, and a stamped, self-addressed envelope to Office of the Registrar, San Diego State University, San Diego, CA. 92182-7453.

#### Prerequisites

Students must satisfy course prerequisites (or their equivalent) prior to beginning the course requiring the prerequisite. Faculty have the authority to enforce prerequisites listed in the catalog, to evaluate equivalent preparation, and to require proof that such prerequisites/
preparation have been completed. Faculty may, during the first week of classes, request students without the prerequisites or equivalent preparation to take formal action to drop the course. Failure to comply will result in a failing grade.

Change of Program
San Diego State University provides for change of program beginning the first day of classes every term. Change of program includes: dropping a class, adding a class, adding or reducing units of a class for which the student is already registered, changing a section of the same class, or changing grading options. Change of program is done on RegLine, the SDSU touchtone registration system, until the deadline for each activity. For example, students drop classes by calling RegLine through the tenth day of instruction.

You are responsible for every course in which you are registered. If you do not attend the first class meeting of the semester and you are not present at the start of the second meeting, the professor may give your place to another student. If this occurs, you have forfeited your place and the instructor has the right to request that you take formal drop action; you must take this action personally, it is not automatic, and does not happen simply because you do not attend class. If you do not drop the class, you will receive a failing grade.

Dropping a class after the end of the tenth day of instruction and prior to the last three weeks of instruction is permissible only for serious and compelling reasons. Permission to drop a class during this period is granted only with the signature of the instructor, who indicates your grade status in the class, and the approval of the dean or designee of the college in which the class is located. Approvals are made in writing on an add/drop card. After the fourth week of classes, the grade of “W” will appear on your permanent record for courses on which an official drop has been approved.

Students are not permitted to drop a class during the final three weeks of instruction, except in cases such as accident or serious illness where the cause of dropping the class is due to circumstances clearly beyond the student’s control and the assignment of an Incomplete is not practicable. All such requests must be accompanied by appropriate verification. Ordinarily, withdrawals in this category will involve total withdrawal from the University, except that credit, or an Incomplete, may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made. Requests to withdraw under such circumstances must be approved by the dean (or designee) of the college of the student’s major.

Deadlines
1. Students may drop courses, without penalty or restriction, until the end of the tenth day of classes. For the Fall 2001 semester, the drop deadline is September 17, 2001. For the Spring 2002 semester, the drop deadline is February 4, 2002.
2. Students may add courses until the end of the fifteenth day of classes. For the Fall 2001 semester, the add deadline is September 24, 2001. For the Spring 2002 semester, the add deadline is February 11, 2002.
3. Students may completely withdraw from SDSU, without penalty or restriction, until the fifteenth day of classes. For the Fall 2001 semester, the withdrawal deadline is September 24, 2001. For the Spring 2002 semester, the withdrawal deadline is February 11, 2002.
4. Students may elect to change the grading option of courses until the fifteenth day of classes. No changes will be made after this deadline. For the Fall 2001 semester, the change in grading option deadline is September 24, 2001. For the Spring 2002 semester, the change in grading option deadline is February 11-15, 2002.

Change of Major
Based on your application for admission, you are admitted to a premajor, major, or designated as an undeclared major. If, after registration, you wish to change your major, you should check with the department of your intended major for requirements and filing periods. Change of Major forms are available at the Office of the Registrar, and required approval of the change by the new major department.

After approval, return the form to the Registrar’s Office. You will be required to meet the major and minor requirements stated in the General Catalog that are in effect when you submit your change or declaration.

If you are a veteran using veteran benefits, you must obtain appropriate approval from the Veterans Administration for necessary changes in letters of eligibility.

Academic Renewal
Under certain circumstances the campus may disregard up to two semesters or three quarters of previous undergraduate coursework taken at any college from all considerations associated with requirements for the baccalaureate degree. These circumstances are:
1. You are a candidate for the baccalaureate degree at San Diego State University.
2. You have requested the action formally and have presented evidence that work completed in the term(s) under consideration is substandard and not representative of present scholastic ability and level of performance; and
3. The level of performance represented by the term(s) under consideration was due to extenuating circumstances; and
4. There is every evidence that you would find it necessary to complete additional units and enroll for one or more additional terms in order to qualify for the baccalaureate degree if the request were not approved.

Final determination that one or more terms shall be disregarded in determination of eligibility for graduation shall be based upon a careful review of evidence by a committee appointed by the President which shall include the Vice President for Academic Affairs and consist of at least three members. Such final determination shall be made only when:
1. Five years have elapsed since the most recent work to be disregarded was completed; and
2. You have completed at SDSU, since the most recent work to be disregarded was completed, 15 semester units with at least a 3.0 GPA, 30 semester units with at least a 2.5 GPA, or 45 semester units with at least a 2.0 GPA. Work completed at another institution cannot be used to satisfy this requirement.

When such action is taken, your permanent academic record shall be annotated so that it is readily evident to all users of the record that no work taken during the disregarded term(s), even if satisfactory, may apply toward baccalaureate requirements. However, all work must remain legible on the record ensuring a true and complete academic history.

The procedure for filing Petition for Academic Renewal is as follows:
1. Obtain the petition from the Division of Undergraduate Studies, AD-201.
2. Fill in the form carefully and completely.
3. Attach statements and documentary evidence from doctors, lawyers, employers, parents, professors, or other appropriate persons to substantiate your claim that the request is justified.
4. Obtain all necessary clearances and signatures.
5. Return all materials to the Division of Undergraduate Studies, AD-201.

Withdrawal, Leaves of Absence, Readmission, and Evaluation

Withdrawal
Students who find it necessary to withdraw from the University after enrolling for any academic term must initiate action formally through the Office of the Registrar and follow the official withdrawal procedures. Failure to follow formal withdrawal procedures will result in a failing grade in all courses and may require the student to apply for readmission before being permitted to enroll in another academic
term. A student who has not paid fees and is not enrolled in at least one class (other than for audit) at the end of the fourth week of instruc-
tion (census date) is no longer considered a continuing student and may be required to apply for readmission. Refunds are obtainable only for the first 11 class days after the start of classes. In order to receive a refund, you must file an official withdrawal form and refund request at the Office of the Registrar within the first 11 class days of the term.

A course will not appear on the permanent record if withdrawal occurs before the end of the fourth week of classes. After the fourth week, a grade of “W” will appear for courses on which an official drop has been approved. During the final three weeks of instruction, withdrawals are not permitted except in cases where the cause of withdrawal is due to circumstances clearly beyond your control. Credit or an incomplete may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made. Refer to the Class Schedule for appropriate dates for the deadlines indicated above.

After the last day of the semester, if you wish to change assigned grades to “W” grades you must request to withdraw from the full semester’s work; no requests for individual classes will be accepted. Such requests may be granted only in verified cases such as accident or serious illness where the cause for substandard performance was due to circumstances clearly beyond your control.

Students who are receiving financial aid funds must consult with the Office of Financial Aid prior to withdrawing from the University regarding any required return or repayments of grant or loan assis-
tance received for that academic term. If a recipient of financial assis-
tance under federal Title IV financial aid programs withdraws from the institution during a payment period, the amount of grant or loan assis-
tance received is subject to return and repayment provisions gov-
erned by federal law.

Unofficial Withdrawal

If you withdraw unofficially from classes or from the University you will receive failing grades in all courses that you stop attending. An unofficial withdrawal is one in which you stop attending classes with-
out filing official withdrawal forms within the established deadlines.

Veterans unofficially withdrawing will have veteran’s allowances immediately suspended and will be subject to full repayment of allow-
ces received after date of unofficial withdrawal.

Leaves of Absence

One-Semester Stop Out. With certain exceptions, matriculated undergraduate and graduate students may stop out of the University one semester in a calendar year and maintain their continuing student status. Continuing status includes the maintenance of catalog require-
ments for graduation. Disqualified students, students absent for more than ten class days without an approved leave of absence, and those who attend another institution for more than one semester must apply for readmission should they wish to return to San Diego State University. Students who are disqualified are not eligible for a one-
semester stop out.

Educational Leave of Absence. Students are permitted to take up to four semesters of approved leave of absence. An educational leave of absence is appropriate in those cases where students will be engaged for the majority of the leave time in an activity, other than attending an accredited college or university, that is directly related to their formal academic careers or otherwise contributes to specific academic goals. Students must apply for the particular semester they wish to be absent from school. If they wish to take leave for additional semesters, they must do so on a semester-by-semester basis. Stu-
dents may take a leave of absence or cancel it by calling the Regis-

ter’s Office Touchtone Information System at (619) 594-7800.

The Class Schedule and Student Information Handbook lists specific deadlines. For students participating in the CSU visitors’ pro-
gram, units completed at the visitor campus will be considered resi-
dent units; they will not, however, be calculated into the San Diego State University grade point average after the start date.

Approval for educational leaves of absence will be granted only to undergraduate students who have completed a minimum of one semester at San Diego State University, who are in good academic standing, and who are eligible to register. Leaves will not be granted to students on probation, students who are subject to disqualification or have been disqualified, students who qualify for a change from undergraduate to graduate status, or students who have a registration hold.

Credit and Study List Limits

A unit or credit hour represents 50 minutes of lecture or recitation combined with two hours of preparation per week throughout one semester of 16 weeks. Two hours of activity (as in physical education) or three hours of laboratory (as in the sciences) are considered equiva-

lent to one hour of lecture. During initial RegLine registration, students can enroll in a maxi-
mum of 16 units. During the last three days of RegLine and during the add-drop process, this limit is removed. You are strongly advised to consider all aspects of your situation before adding additional courses. If you work or have family obligations that will limit the time you can devote to your studies, you are strongly urged to reduce the number of units you attempt each semester.

You should expect to spend a total of three hours per week, in class and study time, for each unit of college work attempted. A nor-
mal 16-unit load, therefore, represents a 48-hour week. You should also keep in mind that some courses require more than the average number of time, and that your workload in all courses will vary throughout the semester as examinations and major papers or projects come due.

Graduation With Honors and Distinction

Graduation with honors is granted to undergraduate students who achieve high grade point averages. Excellence is recognized at three levels: cum laude (3.50-3.64), magna cum laude (3.65-3.79), and summa cum laude (3.80-4.00).

For determination of eligibility, two grade point averages are com-
pared; both must satisfy the minimum grade point average for appro-

priate honors designation. They are the GPA calculated on all units taken at this institution (a minimum of 24 graded units), and the overall (cumulative) grade point average (including both SDSU and transfer units).

Grades for the final semester’s work are included in calculation of eligibility for graduation with honors. Students are tentatively desig-
nated as eligible for graduation with honors if both grade point aver-
ages meet required standards at the beginning of the fall semester for midyear graduates and at the end of the fall semester for May and

Readmission

An evaluation is a summary of college work completed and of requirements to be completed for a bachelor’s degree. To be eligible for an evaluation, a student must be currently enrolled, have com-

pleted at least 56 units of acceptable college work, and have a declared major. An evaluation will not be done until official copies of all transfer credit are on file in the Office of Admissions and Records. Only one evaluation will be done for each major.

A student who has earned 56 semester units or more and has not received an evaluation should request an official evaluation. Forms are available in the Office of the Registrar. The evaluation is made on the regulations in effect at the time the student declares the major. Pro-
vided continuous enrollment has been maintained, except as other-

wise provided in the California Code of Regulations, Chapter 5, Section 40401, Election of Regulations. (Further information is given in the section of this catalog on Graduation Requirements.)

Information on readmission is given in the section of this catalog on Admission and Registration.
Academic Probation, Disqualification, and Readmission of Undergraduate Students

Academic Probation

The purpose of probation is to warn students that their academic performance is below the state minimum required for graduation and to indicate that improvement is required before a degree can be granted.

An undergraduate student whose grade point average falls below a C average (2.0) for either all baccalaureate level college work attempted or all work attempted at San Diego State University will be placed on academic probation at the end of the semester.

Provided a student earns a C average (2.0) or better in San Diego State University work during the semester while on academic probation, academic probation may be continued up to a maximum of three semesters.

Academic probation will be lifted when the student has attained a C (2.0) average or better on all baccalaureate level college work attempted and on all work attempted at San Diego State University.

Summer Term and Open University courses are included in the SDSU grade point average; Extension courses are calculated only in the overall grade point average.

Grade point average is computed by dividing the number of grade points accumulated by the number of graded units attempted (see chart under “Plus/Minus Grading” for number of grade points assigned per unit in each grade category.)

Academic Disqualification

Students who are admitted to SDSU in good standing will not be disqualified at the end of their first semester of coursework at San Diego State University. After the first semester, students will be disqualified at the end of the fall or spring semesters if the following conditions exist:

1. A student on probation fails to earn at least a 2.0 grade point average (C average) in San Diego State University work for any semester while on probation, or
2. A student on academic probation still has less than a 2.0 grade point average in all work attempted at San Diego State University at the end of the third semester on probation.

Administrative Probation and Disqualification

Administrative Probation

An undergraduate or graduate student may be placed on administrative probation by action of appropriate campus officials for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive terms or in any three terms.
2. Repeated failure to progress toward the stated degree or objective or other program objective (when such failure appears to be due to circumstances within the control of the student).
3. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students (examples: failure to list all colleges attended on the application for admission, failure to take placement tests, failure to complete a required practicum).

Administrative Disqualification

A student who has been placed on administrative probation may be disqualified from further attendance if:

1. The conditions for removal of administrative probation are not met within the period specified.
2. The student becomes subject to academic probation while on administrative probation.
3. The student becomes subject to administrative probation for same or similar reason for which the student has been placed on administrative probation previously, although not currently in such status.

Student-Athlete Satisfactory Academic Progress Requirement

In order to remain eligible for intercollegiate competition, a student-athlete must be enrolled in an academic program leading to a recognized degree, must be making satisfactory progress toward that degree under the rules of the institution and the NCAA.

Student Discipline and Grievances

Inappropriate conduct by students or by applicants for admission is subject to discipline on the San Diego State University campus. The Office of Judicial Procedures coordinates the discipline process and establishes standards and procedures in accordance with regulations contained in Sections 41301 through 41304 of Title 5, California Code of Regulations. These sections are as follows:

41301. Expulsion, Suspension and Probation of Students.

Following procedures consonant with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation or given a lesser sanction for one or more of the following causes which must be campus related:

(a) Cheating or plagiarism in connection with an academic program at a campus.
(b) Forgery, alteration or misuse of campus documents, records, or identification or knowingly furnishing false information to a campus.
(c) Misrepresentation of oneself or of an organization to be an agent of the campus.
For purposes of this Article, the following terms are defined:

1. The term “member of the campus community” is defined as meaning California State University Trustees, academic, nonacademic and administrative personnel, students, and other persons while such other persons are on campus property or at a campus function.

2. The term “campus property” includes:
   a) real or personal property in the possession of, or under the control of, the Board of Trustees of The California State University, and
   b) all campus feeding, retail or residence facilities whether operated by a campus or by a campus auxiliary organization.

3. The term “deadly weapons” includes any instrument or weapon of the kind commonly known as a blackjack, slingshot, billy, sandclub, sandbag, metal knuckles; any dirk, dagger, switchblade knife, pistol, revolver, or any other firearm; any knife having a blade longer than five inches; any razor with an unguarded blade, and any metal pipe or bar used or intended to be used as a club.

4. The term “behavior” includes conduct and expression.

5. The term “hazing” means any method of initiation into a student organization or any pastime or amusement engaged in with regard to such an organization which causes, or is likely to cause, bodily danger or physical or emotional harm to any member of the campus community; but the term “hazing” does not include customary athletic events or other similar contests or competitions.

This Section is not adopted pursuant to Education Code Section 89031.

(p) Notwithstanding any amendment or repeal pursuant to the resolution by which any provision of this Article is amended, all acts and omissions occurring prior to that effective date shall be subject to the provisions of this Article as in effect immediately prior to such effective date.

41302. Disposition of Fees:
   Campus Emergency; Interim Suspension.

   The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester or summer term in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

   During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations or procedures, and exercise other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

   The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to ensure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

41303. Conduct by Applicants for Admission.

   Notwithstanding any provision in this Chapter 1 to the contrary, admission or readmission may be qualified or denied to any person who, while not enrolled as a student, commits acts which, were he enrolled as a student, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any person who, while a student commits acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases shall be determined under procedures adopted pursuant to Section 41304.

41304. Student Disciplinary Procedures for the California State University.

   The Chancellor shall prescribe, and may from time to time revise, a code of student disciplinary procedures for the California State University. Subject to other applicable law, this code shall provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admission or denial of admission under Section 41303; the authority of the campus President in such matters; conduct related determinations on financial aid eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a Hearing Officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record, and review; and such other related matters as may be appropriate. The Chancellor shall report to the Board actions taken under this section.

Student Grievances

If a student believes that a professor’s treatment is grossly unfair or that a professor’s behavior is clearly unprofessional, the student may bring the complaint to the proper University authorities and official reviewing bodies by following the Procedures for Handling Student Grievances Against Members of the Faculty, adopted by the Faculty Senate. A copy of the procedures may be obtained from the Ombudsman’s Office in the Student Services building.
Plagiarism

Plagiarism is formal work publicly misrepresented as original; it is any activity wherein one person knowingly, directly, and for lucre, status, recognition, or any public gain resorts to the published or unpublished work of another in order to represent it as one’s own. Work shall be deemed plagiarism: (1) when prior work of another has been demonstrated as the accessible source; (2) when substantial or material parts of the source have been literally or evasively appropriated (substance denoting quantity; matter denoting qualitative formalism or style); and (3) when the work lacks sufficient or unequivocal citation so as to indicate or imply that the work was neither a copy nor an imitation. This definition comprises oral, written, and crafted pieces. In short, if one purports to present an original piece but copies ideas word for word or by paraphrase, those ideas should be duly noted.

San Diego State University is a publicly assisted institution legislatively empowered to certify competence and accomplishment in general and discrete categories of knowledge. The President and faculty of this University are therefore obligated not only to society at large but to the citizenry of the State of California to guarantee honest and substantive knowledge in those to whom they assign grades and whom they recommend for degrees. Wittingly or willfully to ignore or to allow students’ ascription of others’ work to themselves is to condone dishonesty, to deny the purpose of formal education, and to fail the public trust.

The objective of university endeavor is to advance humanity by increasing and refining knowledge and is, therefore, ill served by students who indulge in plagiarism. Accordingly, one who is suspected or accused of cheating, or committing plagiarism must, because of the gravity of the offense, be assured of thorough, impartial, and conclusive investigation of any accusation. Likewise, one must be liable to an appropriate penalty, even severance from the University and in some cases revocation of an advanced degree, should the demonstrated plagiarism clearly call into question one’s general competence or accomplishments.

SDSU Alcohol and Substance Abuse Policies

To become dependent upon chemicals such as alcohol and/or illicit drugs is to put your health and life at risk. Chemical dependency is a condition in which the use of mood altering substances, such as drugs or alcohol, affect any area of life on a continuing basis.

Keeping yourself informed is an important step in developing a healthy lifestyle and in knowing how to cope with problems as they arise. SDSU provides useful and informative prevention education programs throughout the year. A variety of departments sponsor workshops and lectures on alcohol and drug related issues to support and encourage healthy, productive lifestyles. These programs are available through: Counseling & Psychological Services, (619) 594-5220; Housing & Residential Life Office, (619) 594-5742; Student Services, (619) 594-5803; Student Health Services, (619) 594-4133; Public Safety Department, (619) 594-1987.

For students with substance abuse problems or concerns, assistance is available at SDSU’s Counseling & Psychological Services (CPS) located in the Student Services Building, Room 2109. Students who prefer an appointment with a health care provider (e.g. nurse or physician), may contact Student Health Services. If you are aware of problems with friends, roommates, or family members, we encourage you to act responsibly by consulting with Counseling & Psychological Services. Remaining silent or waiting until a situation has escalated is not responsible behavior. SDSU supports the notion of students helping one another to cooperatively solve alcohol and substance abuse problems as they occur.

One does not, however, have to be addicted or chemically dependent to suffer health risks from the use of illicit drugs or alcohol. These substances can diminish clarity of thinking, physical coordination, mental alertness, and control over impulsive behavior, and can cause short and long term health consequences.

Alcohol related illness now represents the third leading cause of death in the United States. Medical research has established very strong evidence that alcohol abuse contributes significantly to cancer and heart disease. There is clear evidence of serious negative effects on babies due to use of illicit drugs and alcohol by the mother during pregnancy.

Campus standards of conduct prohibit the unlawful possession, use, or distribution of drugs and alcohol by students on University property or as any part of the University’s activities. To enforce SDSU’s commitment to these principles, the University will exercise the full measure of its disciplinary powers and cooperate completely with governmental authorities in criminal and civil actions. The University does not accept alcohol or substance abuse as an excuse, reason, or rationale for any act of abuse, harassment, intimidation, violence, or vandalism.

Possession or consumption of distilled liquor on University property is prohibited at all times. Possession, consumption, or sale of beer or wine is permitted at designated campus locations and events only with prior approval of the Vice President for Student Affairs.

On campus property, the sale, distribution, knowing possession, and use of dangerous drugs or narcotics are prohibited. You are also forbidden by State and Federal laws to sell, distribute, possess, or use those drugs.

As a student at SDSU, you are responsible for your behavior and are fully accountable for your actions. Violation of this policy statement will not go unchallenged within the SDSU community. Any University student may be expelled, suspended, or placed on probation for violating University regulations regarding alcohol or drugs. Additionally, using alcohol or drugs negatively affects your academic performance.

Students who possess, use, or distribute substances such as marijuana, cocaine, methamphetamines, or other hallucinogens and narcotics, or who violate statutes regarding alcoholic beverages, are subject to arrest, imprisonment, or a fine according to State law. The SDSU Department of Public Safety is empowered to enforce all State and Federal laws, including public drunkenness, driving under the influence, and possession of alcohol by a minor.

The University’s commitment to exercising disciplinary powers in cases of illegal alcohol and drug abuse complements its full measure of support for students who seek help for themselves or their acquaintances. These two approaches, combined with an active prevention education program, provide a strong basis for maintaining University expectations for a safe, healthy, and productive campus community. We hope that you will take advantage of the programs and services available to you, and that you will join with us in creating a viable learning community.

SDSU Smoke Free Policy

This policy implements CSU Executive Order 599, in accordance with Education Code 89031.

Smoking is prohibited in all San Diego State University buildings or leased spaces and motor pool vehicles.

Smoking is prohibited in those outdoor areas which are either connected to or in close proximity of SDSU buildings or leased space if the smoke can readily enter the building through open doors, windows, or ventilation system intakes.

Smoking is prohibited in outdoor areas immediately adjacent to SDSU owned or leased food establishments unless designated as a smoking area, consistent with the overall goals of this policy; smoking is prohibited in outdoor SDSU owned or leased constructed seating
areas where people are likely to congregate, unless designated as a smoking area.

The success of this policy depends upon the thoughtfulness, consideration, and cooperation of everyone. Deans, Directors, and Department Chairs are responsible for implementing this policy. The Associate Vice President for Faculty Affairs and the Director of the Center for Human Resources are available to assist in the policy interpretation and to ensure its consistent application.

To aid persons desiring to stop smoking, the University offers smoking cessation programs for students through Student Health Services and for faculty and staff through Personnel Services. The SDSU auxiliary organizations shall operate in conformity with this campus policy.
General Information

Availability of Institutional and Financial Assistance Information

The following information concerning student financial assistance may be obtained from the Financial Aid Office, Student Services, Room 3605, (619) 594-6323.

1. Student financial assistance programs, including state grants, available to students who enroll at San Diego State University;
2. The procedures and forms by which application for student financial assistance is made;
3. The student eligibility requirements for financial assistance and the criteria used in determining how financial assistance is distributed among eligible applicants who enroll at San Diego State University; and
4. The rights and responsibilities of students receiving financial assistance including aid provided under federal Title IV student assistance programs.

Information concerning the cost of attending San Diego State University is available from the Financial Aid Office, Student Services, Room 3605, (619) 594-6323, and includes fees and tuition; the estimated costs of books and supplies; estimates of typical student room and board costs and typical commuting costs; and, if requested, additional costs for specific programs.

Information concerning the refund policies of San Diego State University for the return of unearned tuition and fees or other refundable portions of institutional charges is available from the University Cashiers Office, Student Services, Room 2620, (619) 594-5253.

Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulation is available from the Financial Aid Office, Student Services, Room 3605, (619) 594-6323.

Information regarding special facilities and services available to students with disabilities may be obtained from Disabled Student Services, Student Services, Room 1661, (619) 594-1991.

Information concerning San Diego State University policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from Public Safety, Student Services, Room 1410, (619) 594-1991.

Information concerning San Diego State University annual campus security report may be obtained from Public Safety, Student Services, Room 1410, (619) 594-1991.

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from Counseling and Psychological Services, (619) 594-5220.

Information regarding student retention and graduation rates of students enrolled at San Diego State University and, if available, the number and percentage of students completing the program in which the student is enrolled or expresses interest may be obtained from Institutional Research, Student Services, Room 3630, (619) 594-6846.

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that San Diego State University dedicates to its men's and women's teams may be obtained from the Director of Intercollegiate Athletics, Athletics, Room 117, (619) 594-6357.

Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices and procedures, or its faculty and staff may be obtained from the Ombudsmen, Student Services, Room 3635, (619) 594-6578.

The federal Military Selective Service Act (the “Act”) requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrant. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at www.sss.gov.

Career Placement

Career Services may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in the California State University. Information is available at www.career.sdsu.edu.

Faculty Office Hours

All faculty members are required to hold regularly scheduled office hours during the week to allow for student consultation. A schedule of those hours is posted outside each faculty member's office door.

Accreditation

San Diego State University is accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges, P.O. Box 9990, Mills College, Oakland, CA 94613-0990, (510) 632-5000. It is also approved to train veterans under the G.I. Bill.

San Diego State University's programmatic accreditation is through membership in the following associations:

Accreditation Council for Graduate Medical Education (Preventive Medicine Residency Program)
515 N. State Street, Suite 2000
Chicago, IL 60610
(312) 464-4972

American Association of Colleges for Teacher Education

In addition, San Diego State University is accredited by the following agencies:

The College of Business Administration and the School of Accountancy are accredited by the AACSB – International Association for Management Education, 600 Emerson Road, Suite 300, St. Louis, MO 63141-6762, (314) 872-8481, at both the undergraduate and graduate levels. The M.S. in Financial and Tax Planning and the Certificate in Personal Financial Planning are registered with the Certified Financial Planner Board of Standards, 1700 Broadway, Suite 2100, Denver, CO 80290-2101, (303) 830-7500.

The College of Engineering undergraduate programs in aerospace, civil, electrical and mechanical engineering are accredited by the Accreditation Board for Engineering and Technology, Inc., 111 Market Place, Suite 1050, Baltimore, MD 21202, (410) 347-7700.

The School of Nursing is accredited by the California Board of Registered Nursing, State of California, Department of Consumer Affairs, 400 R Street., Suite 4030, Sacramento, CA 95814, (916) 322-3350.

Concentrations in Environmental Health and Occupational Health, in the Graduate School of Public Health are accredited by the Accreditation Board for Engineering and Technology, Inc., 111 Market Place, Suite 1050, Baltimore, MD 21202, (410) 347-7700.

The Didactic Program in Dietetics and the Preprofessional Practice Program in Dietetics in the Department of Exercise and Nutritional Sciences are approved by the American Dietetic Association, P.O. Box 97215, Chicago, IL 60678-7215, (312) 899-0040.

Undergraduate programs in Athletic Training and Kinesiotherapy, in the Department of Exercise and Nutritional Sciences are accredited by the Commission on Accreditation of Allied Health Education Programs, 333 East Wacker Drive, Suite 1970, Chicago, IL, (312) 553-9355, caahep@mls.net.
Degrees and Certificates
San Diego State University offers the following degrees and certificates:
- Bachelor of Arts
- Bachelor of Science
- Bachelor of Music
- Bachelor of Vocational Education
- Master of Arts
- Master of Science
- Master of Business Administration
- Master of City Planning
- Master of Fine Arts (Art, Creative Writing, Theatre Arts)
- Master of Music
- Master of Public Administration
- Master of Public Health
- Master of Social Work
- Master of Social Work and Juris Doctor
- Doctor of Education
- Doctor of Philosophy
Nondegree programs leading to certificates are offered in Accounting, Applied Gerontology, Applied Linguistics and English as a Second Language (ESL), Art (Imperial Valley Campus only), Bilingual (Spanish) Special Education, Business Administration (Imperial Valley Campus only), Children's Literature, Cross-Cultural Language and Academic Development (CLAD), Developing Gifted Potential, Early Childhood Special Education, Early Intervention, Environmental Studies, Exercise Leadership, Family Life Education, Geographic Information Science, Instructional Software Design, Human Services Paraprofessional, Instructional Technology, Introductory Mathematics, Mexico B/Clad, Personal Financial Planning, Preventative Medicine Residency, Professional Services Bilingual/Multicultural, Public Administration (Imperial Valley Campus only), Recombinant DNA Technology, Rehabilitation Administration, Rehabilitation Technology, Resource Specialist of Competence, Single Subject Mathematics, Spanish Court Interpreting (Imperial Valley Campus only), Spanish Translation Studies, Supported Employment and Transition Specialist, Teaching the Emotionally Disturbed, Technical and Scientific Writing, United States-Mexico Border Studies, and Workforce Education and Lifelong Learning.

Types of Curricula Offered
San Diego State University offers the following types of curricula:
Undergraduate Curricula. Undergraduate curricula provide the following opportunities for study:
- (1) Liberal arts and sciences: Curricula in the academic major fields, leading to the Bachelor of Arts degree in liberal arts and sciences.
- (2) Applied arts and sciences: Curricula in major fields leading to the Bachelor of Science, Bachelor of Arts, or Bachelor of Music degree in applied arts and sciences.
- (3) Professional curricula: The College of Business Administration offers the Bachelor of Science degree in business administration with majors in seven fields; the College of Engineering offers the Bachelor of Science degree in engineering with majors in four fields; and the College of Education offers curricula in teacher education leading to graduate credentials at all levels of public school teaching.
The Department of Communicative Disorders offers curricula leading to graduate credentials in Education of the Deaf and Deaf-Blind; clinical certification and graduate credentials in speech pathology, audiology and communicative disorders.
School of Nursing offers the Bachelor of Science degree and the Master of Science degree in Nursing (areas of concentration are advanced practice nursing of adults and the elderly, community health nursing, and nursing systems administration) and offers a curriculum leading to registered nurse licensure and public health nurse credential, and health services credential (school nurse services).
- (4) Preprofessional and nondegree curricula: Programs are offered in allied health, preental, prelegal, premedical, and preveterinary leading to transfer to professional schools. Air Force, Army, and Naval ROTC programs are also available.
Graduate Curricula. The Graduate Division offers curricula in the various colleges and departments leading to the Master of Arts and Master of Science degrees in a wide variety of fields, the Master of Business Administration, the Master of City Planning, the Master of Fine Arts in Art, the Master of Fine Arts in Creative Writing, the Master of Fine Arts in Theatre Arts, the Master of Music, the Master of Public Administration, the Master of Public Health, the Master of Social Work, Master of Social Work and Juris Doctor, the Doctor of Education in educational administration, educational technology, teaching and learning, and the Doctor of Philosophy in biology, chemistry, clinical psychology, ecology, education, engineering sciences/ applied mechanics, geography, language and communicative disorders, mathematics and science education, and public health/epidemiology.
The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972 the system became The California State University and Colleges, and in 1982 the system became The California State University. Today the campuses of the CSU include comprehensive and polytechnic universities and, since July 1995, the California Maritime Academy, a specialized campus.

The oldest campus–San José State University–was founded in 1857 and became the first institution of public higher education in California. The most recently opened campus–California State University, Monterey Bay, began admitting students in the fall of 1995. A new site has been conveyed and a 23rd campus, CSU Channel Islands, is being formally established in Ventura County with plans to open in 2002.

Responsibility for The California State University is vested in the Board of Trustees, whose members are appointed by the Governor. The Trustees appoint the Chancellor, who is the chief executive officer of the system, and the Presidents, who are the chief executive officers of the respective campuses.

The Trustees, the Chancellor, and the Presidents develop systemwide policy, with actual implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of The California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by The California State University through a distinguished faculty, whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education. All of the campuses require for graduation a basic program of “General Education Requirements,” regardless of the type of bachelor’s degree or major field selected by the student.

The CSU offers more than 1,600 bachelor’s and master’s degree programs in some 240 subject areas. Many of these programs are offered so that students can complete all upper division and graduate requirements by part-time, late afternoon and evening study. In addition, a variety of teaching and school service credential programs are available. A limited number of doctoral degrees are offered jointly with the University of California and with private institutions in California.

Enrollments in fall 1999 totaled 359,719 students, who were taught by over 20,600 faculty. The system awards more than half of the bachelor’s degrees and 30 percent of the master’s degrees granted in California. Some 1.94 million persons have been graduated from CSU campuses since 1960.

### Average Annual Cost of Education and Sources of Funds per Full-time Equivalent Student

The 23 campuses and the Chancellor’s Office of The California State University are financed primarily through funding provided by the taxpayers of California. The total State appropriation to the CSU for 2000/2001 (not including capital outlay funding in the amount of $260,033,000) is $2,252,941,000. However, the total cost of education for CSU, is $3,015,710,000, which must provide support for a projected 279,403 full-time equivalent students (FTES). The number of full-time equivalent students is determined by dividing the total academic student load by 15 units per term (the figure used here to define a full-time student’s academic load).

The total cost of education in the CSU is defined as the expenditures for current operations, including payments made to students in the form of financial aid and all fully reimbursed programs contained in state appropriations, but excluding capital outlay appropriations and lottery funds. The average cost of education is determined by dividing the total cost by the total FTES. The average cost is further differentiated into three categories: State Support (the State appropriation, excluding capital outlay), Student Fee Support, and Support from Other Sources (including Federal Funds).

Thus, excluding costs that relate to capital outlay, the average cost of education per FTE student is $10,793. Of this amount, the average student fee support per FTE is $1,831. (The State University Fee, application fee, and student body fees are included in the average costs paid by the students; individual students may pay less or more than $1,831, depending on whether they are part-time, full-time, resident, or nonresident students.)

Dr. Charles B. Reed ........................................... Chancellor—CSU System
Dr. David S. Spence .................................................. Executive Vice Chancellor and
Chief Academic Officer
Dr. Charles W. Lindahl ............................................. Associate Vice Chancellor,
Academic Affairs
Ms. Jackie McClain ................................. Vice Chancellor, Human Resources
Mr. Richard P. West ......................................... Executive Vice Chancellor and
Chief Business Officer
Dr. Douglas X. Patiño ........ Vice Chancellor, University Advancement
Ms. Christine Helwick ................................. General Counsel
Faculty and Administration
2000–2001

Weber, Stephen L. (1996) ........................................... President, Professor of Philosophy
B.A., Bowling Green State University; Ph.D., University of Notre Dame.
Abbott, Barry S. (2000) ........................................... Professor of Aerospace Studies
B.S., United States Air Force Academy; M.S., University of Arkansas.
Abbott, Patrick L. (1971) ........................................... Professor of Geologic Sciences
B.S., San Diego State University; M.A., Ph.D., University of Texas at Austin.
Abdel-Nour, Farid (2000) ........................................... Assistant Professor of Political Science
B.S., Ph.D., Rutgers, The State University of New Jersey.
Abut, Huseyin (1981) ........................................... Professor of Electrical and Computer Engineering
B.S.E.E., Robert College; M.S.E.E., Ph.D., North Carolina State University.
Addo, Theophilus (1987) ........................................... Associate Professor of Information
Science and Decision Systems
B.Sc., University of Ghana; M.S.T.M., American University, Washington, D.C.;
M.B.A., Ph.D., Indiana University, Bloomington.
Adler, Renatte K. (1982) ........................................... Professor of Economics
B.S., University of New Mexico.
Aguado, Edward (1982) ........................................... Professor of Geography
B.A., M.A., University of California, Los Angeles; Ph.D., University of Wisconsin.
Aguilar, Isabel (1972) ........................................... Director, Outreach and Career Counseling,
Imperial Valley Campus
A.B., M.S., San Diego State University.
Ahiken, Stuart C. (1986) ........................................... Professor of Geography
B.Sc., Glasgow University; M.A., Miami University; Ph.D., University of Western Ontario.
Alcorn, John E. (1993) ........................................... Assistant Professor of Public Health
B.A., M.A., Ph.D., San Diego State University.
Alcosser, Sandra B. (1986) ........................................... Professor of English
B.A., Purdue University; M.F.A., University of Montana.
Alegria, Adelina V. (1999) ........................................... Assistant Professor of Policy Studies
in Language and Cross-Cultural Education
B.A., California State University, Dominguez Hills; Ph.D., University of California, Santa Barbara.
Alexseev, Mikhail A. (2000) ........................................... Assistant Professor of Political Science
B.A., M.A., Kiew State University; Ph.D., University of Washington.
Alfonso-Reese, Leila A. (1999) ........................................... Assistant Professor of Psychology
S.B., Massachusetts Institute of Technology; Ph.D., University of California, Santa Barbara.
Allen, Barbara E. (1969, except S’70) .................................... Assistant Dean for Student Affairs,
College of Education
A.B., M.A., San Diego State University.
Allen, Brockenbrough S. (1982) ........................................... Professor of Educational Technology
A.B., M.A., University of California, Berkeley; Ph.D., University of Southern California.
Allen, Elizabeth J. (1971) ........................................... Professor of Communicative Disorders
A.B., Seattle Pacific College; M.A., Ph.D., Louisiana State University.
Allison, Alida L. (1990) ........................................... Professor of English and Comparative Literature
B.A., M.A., San Diego State University; Ph.D., University of California, Riverside.
Almond, Frank W. (1968) ........................................... Professor of Music
A.B., San Diego State University; Ph.D., Florida State University.
Alvarado, Elizabeth R. (1974) ........................................... Counselor, Educational Opportunity
and Ethnic Affairs
A.B., California State University, Northridge; M.S., San Diego State University.
Alvarado, Josel. L. (1999) ........................................... Assistant Professor of Special Education
B.A., San Diego State University; Ph.D., University of Virginia.
Amara, Olga M. (1996) ........................................... Assistant Professor of Teacher Education,
Imperial Valley Campus
B.A., Westfield State College; M.A., Ed.D., University of Massachusetts at Amherst.
Ambrose, Rebecca (1999) ........................................... Assistant Professor of Teacher Education
A.B., Dartmouth College; M.A., Ph.D., University of Wisconsin.
Ambrose, Lauren (1997) ........................................... Associate Professor of English
B.A., University of California, Irvine; M.A., Ph.D., University of Washington.
Amuedo-Dorantes, Catalina (1999) .................................... Assistant Professor of Economics
B.A., University of Sevilla, Spain; M.A., Ph.D., Western Michigan University.
Ananthan, Kasi (1981) ........................................... Professor of Mathematical and Computer Sciences
B.A., M.S., Ph.D., Madras University.
Anderson, Janis F. (1981) ........................................... Associate Vice President for Community Services,
Graduate and Research Affairs; Associate Dean for Policy and Curriculum, Graduate Division;
Professor of Communication
B.A., M.A., Bradley University; Ed.D., West Virginia University.
Anderson, Peter A. (1981, except 1983-85) .................................... Professor of Communication
B.A., University of Illinois; M.S., Illinois State University; Ph.D., Florida State University.
Anderson, Bonnie M. (1988) ........................................... Assistant Dean, Undergraduate Studies;
Lecturer in Theatre
B.A., Mills College; M.A., California State University, Fullerton; Ph.D., University of California, Santa Barbara.
Anderson, Hayes L. (1966) ........................................... Associate Dean, College of Professional Studies
and Fine Arts; Professor of Communication
A.B., Oregon State University; M.A., Ph.D., Michigan State University.
Anderson, Matthew E. (2000) ........................................... Assistant Professor of Physics
B.S., University of California, San Diego; Ph.D., University of Oregon.
Anderson, Todd W. (1999) ........................................... Assistant Professor of Biology
B.S., M.A., California State University, Fresno; Ph.D., University of California, Santa Barbara.
Angione, Ronald J. (1969) ........................................... Professor of Astronomy
A.B., M.S., San Diego State University; Ph.D., University of Texas.
Archibald, J. David (1983) ........................................... Professor of Biology
B.S., Kent State University; Ph.D., University of California, Berkeley.
Atkins, Bobbie J. (1989) ........................................... Professor of Administration, Rehabilitation
and Postsecondary Education
B.A., Southern University in Baton Rouge; M.S., Ph.D., University of Wisconsin, Madison.
Atkins-Kaplan, Catherine J. (1988) .................................... Associate Dean for Undergraduate Studies,
College of Sciences; Professor of Psychology
A.B., M.S., San Diego State University; Ph.D., University of California, Riverside.
Auffesser, Peter M. (1975) ........................................... Professor of Exercise and Nutritional Sciences
B.S., Springfield College; Ed.M., State University of New York, Buffalo; Ph.D., University of Maryland.
Austin, Joan F. (1978) ........................................... Professor of Art, Design and Art History
B.S., San Diego State University; Long Beach; M.F.A., Cranbrook Academy of Art.
Avila, Vernon L. (1973) ........................................... Associate Professor of Biology
B.S., University of New Mexico; M.A., Northern Arizona University; Ph.D., University of Colorado.
Baber, Carolyn D. (1987) ........................................... Associate Librarian
B.S., Illinois State University; M.S., University of Illinois at Urbana-Champaign.
Badrinath, Swaminathan G. (2000) .................................... Associate Professor of Finance
B.A., M.A., Delhi University; M.B.A., Indian Institute of Management; Ph.D., Purdue University.
Badriya, Badri (2000) ........................................... Assistant Professor of Civil and Environmental Engineering
B.S., M.S., University of Baghdad, Iraq; Ph.D., University of Southern California.
Bailey, Allan R. (1968) ........................................... Professor of Accountancy
B.S., San Diego State University; M.B.A., Ph.D., University of California, Los Angeles.
Bailey, Greg W. (1982) ........................................... Assistant Dean for Student Affairs, College of Engineering;
Associate Professor of Electrical and Computer Engineering
B.A., M.A., San Diego State University; Ed.D., Arizona State University.
Baker, Richard J. (1978) ........................................... Professor of Art, Design and Art History
B.F.A., Kansas City Art Institute; M.F.A., University of Cincinnati.
Baljon, Arlette R.C. (1999) ........................................... Assistant Professor of Physics
M.S., University of Utrecht, The Netherlands; Ph.D., University of Chicago.
Balkwell, Carolyn K. (1981) ........................................... Professor of Child and Family Development
B.S., Michigan State University; M.S., Kansas State University; Ph.D., University of Georgia.

Chin, Marilyn (1987) .................................................. Professor of English and Comparative Literature B.A., University of Massachusetts at Amherst; M.F.A., University of Iowa.

Chizhik, Alexander W. (2000) .................................. Assistant Professor of Teacher Education B.A., B.S., University of California, Irvine; Ph.D., University of California, Los Angeles.

Chizhik, Estella W. (1997) ............................................. Assistant Professor of Teacher Education B.A., University of California, Riverside; M.A., Ph.D., University of California, Los Angeles.

Choi, Soonja (1987) ..................................................... Professor of Linguistics B.A., Sacred Heart Women's College; M.A., Seoul National University; Ph.D., State University of New York.

Chou, Fang-Hui (1969) ............................................... Professor of Civil and Environmental Engineering B.S., National Taiwan University; M.S., University of Minnesota; Ph.D., Northwestern University. Registered Professional Engineer.

Chow, Chee W. (1984) .................................................. The Vern E. Oldmark Chair in Accountancy; Professor of Accountancy A.B., Dartmouth College; M.B.A., Amos Tuck School, Dartmouth; M.S., University of Rochester; Ph.D., University of Oregon.

Christensen, Kathie M. (1978) ...................................... Professor of Communicative Disorders A.B., MacMurray College; I.M., University of Wisconsin; Ph.D., Claremont Graduate School.

Christensen, P. Niels (1999) .......................................... Assistant Professor of Psychology B.A., University of Notre Dame; M.S., Ph.D., Texas A&M University.

Christian, David (2001) ............................................... Associate Professor of History A.B., University of the Pacific; M.A., University of Western Ontario; Ph.D., Oxford University.

Chu, Paochin (1967) .................................................... Professor of History A.B., National Taiwan University; M.A., Ph.D., University of Pennsylvania.

Chung, Beth G. (2000) .................................................. Professor of Economic Development B.A., College of William and Mary; M.A., San Diego State University; Ph.D., University of Texas at Arlington.

Chung, William H. (1972) .............................................. Professor of Teacher Education B.S., Rensselaer Polytechnic Institute; Ph.D., Cornell University.

Clapp, James A. (1968) ................................................. Professor of Public Administration and Urban Studies B.S., LeMoyne College; M.R.P., Ph.D., Syracuse University.

Clapp, John D. (1997) .................................................. Associate Professor of Social Work B.A., M.S.W., San Diego State University; Ph.D., The Ohio State University.

Clement, Lisa L. (1998) .................................................. Assistant Professor of Teacher Education B.S., College of William and Mary; M.A., San Diego State University; Ph.D., University of California, San Diego.

Cotes, Brenna E. (2000) ............................................... Assistant Professor of Public Administration and Urban Studies B.A., Calcutta University; M.P.A., Ph.D., University of Pittsburgh.

Cobb, Larry G. (1975) .................................................. Assistant Dean for Special Sessions, Extension and Professional Development, College of Extended Studies A.B., M.A., University of Iowa.

Coble, James W. (1973) .............................................. Vice President for Research and Dean, Graduate Division; Professor of Chemistry A.B., Northern Arizona University; M.S., University of Southern California; Ph.D., University of Tennessee and Oak Ridge Institute of Nuclear Studies.

Cobb Hoffman, Elizabeth (1998) .................. The Dwight E. Stanford Chair in American Foreign Relations; Professor of History B.A., University of California, San Diego; M.A., Ph.D., Stanford University.

Cole, Thomas E. (1986) ............................................. Associate Professor of Chemistry B.S., Purdue University; Ph.D., University of Texas at Austin.

Coleman, Kathleen L. (1973) ...................................... Librarian A.B., Stanford University; M.A., M.S.L.S., University of Wisconsin.

Colquitt, Clare (1986) ............................................... Associate Professor of English B.A., Texas Christian University; M.A., Ph.D., University of Texas at Austin.

Colston, Stephen A. (1977) ........................................ Associate Professor of History B.A., University of San Diego; M.A., University of Chicago; M.L.S., Ph.D., University of California, Los Angeles.

Conniff, James J. (1968) .......................................... Professor of Political Science A.B., M.A., Rutgers University; Ph.D., Columbia University.

Conte, Jeffrey M. (1998) ............................................ Assistant Professor of Psychology B.A., University of Virginia; M.S., Ph.D., Pennsylvania State University.

Cook, Sandra A. (1994) ............................................. Interim Executive Director, Enrollment Services B.S., M.A., Ph.D., Loyola University of Chicago.

Cooksey, Andrew L. (1999) ...................................... Assistant Professor of Chemistry B.A., Harvard University; Ph.D., University of California, Berkeley.

Corlett, J. Angelo (1997) ........................................... Associate Professor of Philosophy B.A., Azusa Pacific University; M.A., University of California, Santa Barbara; Ph.D., University of Arizona.

Cornejo, Ricardo J. (1978) ........................................ Professor of Teacher Education B.A., University of Chile; M.A., Michigan State University; Ph.D., University of Texas at Austin.

Cornford, Brian D. (1996) .......................................... Lecturer in Management B.A., University of Pennsylvania; M.S., Boston University; M.B.A., San Diego State University; Ph.D., University of Texas at Arlington.

Cornwell, JoAnne (1984) ........................................... Associate Professor of French and Africana Studies B.A., M.A., Ph.D., University of California, Irvine.

Cotten, Walter E. (1978) ............................................. Professor of History B.A., University of California, Santa Barbara;

Craig, George T. (1966) ........................................... Associate Professor of Mechanical Engineering B.S., Pennsylvania State University; M.S., Ph.D., Louisiana State University.

Croan, Theresa A. (1985) ......................................... Professor of Psychology B.A., M.A., San Diego State University; Ph.D., Michigan State University.

Cummings-Lewis, June (1996) .................. Assistant Professor of English B.A., University of California, Berkeley; M.A., Ph.D., Columbia University.

Cutler, Charles H. (1968) ...................................... Associate Professor of Humanities and Political Science A.B., University of California, Berkeley; Ph.D., University of California, Los Angeles.

Dahms, A. Stephen (1972) ...................................... Professor of Chemistry B.S., College of St. Thomas; Ph.D., Michigan State University.

Darby, Jaye T. (2000) ............................................... Assistant Professor of Teacher Education B.A., University of Arizona; M.Ed., Ph.D., University of California, Los Angeles.

Daugherty, Joan S. (1994) ...................................... Lecturer in Nursing B.S., Millsaps College; B.S.N., University of Mississippi; M.S.N., Ph.D., University of California, San Francisco.

Davies, Thomas M. Jr. (1968) .................................... Professor of History A.B., M.A., University of Nebraska; Ph.D., University of Michigan.

Davis, Glover T., II (1966) ....................................... Professor of English A.B., California State University, Fresno; M.F.A., University of Iowa.

Davis, Jeffrey A. (1977) ........................................... Professor of Physics B.S., Rensselaer Polytechnic Institute; Ph.D., Cornell University.

Davis, Joel J. (1990) .................................................. Associate Professor of Communication B.S., University of Illinois at Urbana-Champaign; Ph.D., University of Chicago.

Davis, Roger A. (1992) ............................................. Professor of Biology B.S., University of Delaware; M.S., University of Minnesota; Ph.D., Washington State University.

Day, Steven M. (1998) .................. The Rollin and Caroline Eckis Chair in Seismology; Professor of Geological Sciences B.S., University of Southern California; Ph.D., University of California, San Diego.

DeFran, Richard H. (1970) ........................................ Associate Professor of Geology A.B., Loyola University; M.A., Ph.D., Bowling Green State University.

DeGennaro, Maria R. (1980) ......................... Professor of Social Work B.A., M.S.W., University of Minnesota; Ph.D., University of Texas.

De la Luz Ibarra, Maria (1997) .................. Assistant Professor of Chicana and Chicano Studies B.A., M.A., Ph.D., University of California, Santa Barbara.

439
Del Castillo, Adelaida R. (1990) …………… Associate Professor of Chicana and Chicano Studies
A.B., M.A., Ph.D., University of California, Los Angeles.

Dennen, Vanessa P. (2000) …………………… Assistant Professor of Educational Technology
B.S., Northwestern University; M.S., Syracuse University.

De Noble, Alex F. (1983) ………………………. Professor of Management
B.S., Monmouth College; M.A., Ph.D., Virginia Polytechnic Institute.

De Peyster, Ann (1983) ……………………….. Professor of Public Health
B.A., Pomona College; M.S., Ph.D., University of California, Berkeley.

Deutschman, Douglas H. (1997) …………………. Assistant Professor of Biology
B.A., University of Pennsylvania; M.S., Bowing Green State University; Ph.D., Cornell University.

Dexter, Deborah M. (1967) …………………………. Assistant Professor of Biology
A.B., M.A., Stanford University; Ph.D., University of North Carolina.

Dibona, Leslie F. (1994) ………………………… Director of Development, Library
A.B., Simmons College.

Diffendorfer, James (1998) ……………………. Assistant Professor of Biology
B.S., University of Kansas; Ph.D., University of California, Berkeley.

Dintron, Charles W. (1972) ……………………. Librarian
A.B., M.A., University of California, Los Angeles; M.L.S., University of California, Berkeley.

Dintron, Patricia N. L. (1989) …………………. Assistant Dean for Student Affairs,
College of Business Administration
A.B., University of California, Los Angeles; M.A., University of California; M.B.A., San Diego State University; Ph.D., University of Virginia.

Dionisopoulos, George N. (1985) ………………. Professor of Communication
B.A., San Francisco State University; Ph.D., Purdue University.

Dixon, Jesse T. (1979) ………………………… Professor of Recreation, Parks and Tourism
B.S., Michigan State University; M.S., Ph.D., University of Illinois.

Do, Andrew Q. (1990) …………………………. Professor of Finance
B.S., Emporia State University; B.S., Kansas State University; M.S., M.B.A., Ph.D., Louisiana State University.

Dodge, Bernard J. (1980) ………… Professor of Educational Technology
B.S., Worcester Polytechnic Institute; M.S., Ph.D., Syracuse University.

Dominguez, Jesus Y. (1976) ……………………. Professor of Art, Design and Art History

Donahue, Thomas S. (1968) ……………………. Professor of Linguistics
B.A., Denison University; M.A., Miami University; Ph.D., Ohio State University.

Donald, John D. (1978) ………………………… Professor of Mathematical and Computer Sciences
A.B., Harvard University; Ph.D., University of California, Berkeley.

Doran, Martha S. (1996) …………………… Assistant Professor of Accountancy
B.A., Stephens College; M.S., Ph.D., Arizona State University.

Dorman, Clive E. (1974) …………………………. Professor of Geological Sciences
A.B., University of California, Riverside; M.S., Ph.D., Oregon State University.

Dowell, Connie V. (1999) ……………………. Dean, Library and Information Access
B.S., Middle Tennessee State University; M.L.S., Vanderbilt University.

Downey, Carolyn J. (1988) ……………………. Associate Professor of Administration,
Rehabilitation and Postsecondary Education
B.A., Pasadena College; M.S., University of Southern California; Ph.D., Arizona State University.

Dozier, David M. (1980) ……………………. Professor of Communication
B.S., University of California, Berkeley; M.A., California State University, Fresno; Ph.D., Stanford University.

Dreger, Megan (1997) ……………………. Senior Assistant Librarian
B.A., University of Oregon; M.L.S., University of North Carolina at Chapel Hill.

Dunn, Craig P. (1991) …………………………. Associate Professor of Management
B.S., California State University, Long Beach; M.B.A., California State University, Bakersfield; Ph.D., Indiana University at Bloomington.

Dunn, Roger M. (1983) …………………………. Professor of Psychology
B.A., San Diego State University; M.A., Ph.D., University of California, San Diego.

Dunn, Ross E. (1968) …………………………. Professor of History
A.B., State University of New York at Albany; M.A., Ph.D., University of Wisconsin.

Dunster, T. Marc (1988) …………………………. Professor of Mathematical and Computer Sciences
B.S., University of Reading; M.S., University of Bristol.

Durbin, Gregory C. (1989) ……………………. Professor of Communication
B.A., M.F.A., University of California, San Diego.

Dutton, Brenton P. (1981) …………………………. Professor of Music

Easton, Annette C. (1987) ……………………. Associate Professor of Information and Decision Systems
B.S., California State University, Fresno; Ph.D., University of Arizona.

Easton, George K. (1987) ……………………. Associate Professor of Information and Decision Systems
A.B., San Diego State University; M.I.M., American Graduate School of International Management; Ph.D., University of Arizona.

Eckberg, Carl F. (1969) ……………………. Associate Professor of Mathematical and Computer Sciences
A.B., Cornell University; M.S., Ph.D., Purdue University.

Edson, Laurie D. (1988) …………………………. Professor of English and Comparative Literature
B.A., University of Wisconsin; M.A., University of California, Irvine; Ph.D., Stanford University.

Eger, John M. (1990) ……………………. The Lionel Van Deeren Professor of Communication and Public Policy

Ehrlich, Sanford B. (1986) ……………………. Associate Professor of Management
B.A., State University College at Fredonia; M.A., George Washington University; M.B.A., Ph.D., State University of New York at Buffalo.

Eisner, Robert E. (1970) …………………………. Professor of Classics and Humanities
A.B., St. Peter’s College; M.A., Ph.D., Stanford University.

Elder, John P. (1984) …………………………. Professor of Physical Science
B.A., University of Nebraska; M.A., West Virginia University; M.P.H., Boston University.

Elizondo, Sergio D. (1994) ……………………. Professor of Spanish
B.A., Findlay College; M.A., Ph.D., University of North Carolina at Chapel Hill.

Elkind, Sarah S. (2000) ……………………. Associate Professor of History
B.A., Wesleyan University; M.A., Ph.D., University of Michigan.

Ellingwood, Kevin D. (2000) ……………………. Assistant Professor of Military Science
B.A., Eastern Washington University.

Elwin, John D. (1969) ……………………. Professor of Mathematical and Computer Sciences
B.S., University of Washington; Ph.D., Oregon State University.

Ely, David P. (1996) …………………………. Professor of Finance
B.S., West Virginia University; M.S., Ph.D., Ohio State University.

Emerich, Carl F. (1974) ……………………. Associate Vice President for Student Affairs
Administration
A.B., M.S., University of Southern California.

Emerick, Robert E. (1968) ……………………. Professor of Sociology
A.B., University of California, Santa Barbara; Ph.D., Northwestern University.

Engstrom, David W. (2000) ……………………. Associate Professor of Social Work
B.A., Wesleyan University; M.A., Ph.D., University of Chicago.

Espin, Oliva M. (1990) …………………………. Professor of Women’s Studies

Espinosa, Ruben W. (1978) ……………………. Professor of Policy Studies in Language
A.B., University of California, Riverside; M.A., Ph.D., Stanford University.

Ezel, Paul B. (1986) …………………………. Professor of Astronomy
B.S., Washburn University of Topeka; M.S., San Diego State University; Ph.D., University of California, Los Angeles.

Evans, Ronald W. (1989) ……………………. Professor of Teacher Education
B.A., M.S., Oklahoma State University; Ed.D., Stanford University.

Fairlie, Lyndelle D. (1973) ……………………. Associate Professor of Political Science
B.A., Drew University; M.A., Johns Hopkins University; Ph.D., Indiana University.

Farber, Gerald H. (1968) ……………………. Professor of English and Comparative Literature
A.B., University of California, Los Angeles; M.A., California State University, Los Angeles; Ph.D., Occidental College.

Farnam, Nancy (1989) …………………………. Professor of Teacher Education
B.S., Wright State University; M.A., San Diego State University; Ph.D., San Diego State University and Claremont Graduate University.

Fatemi, Khourow (1996) ……………………. Dean, Imperial Valley Campus; Professor of Management
Imperial Valley Campus
B.A., Abadan Institute of Technology; M.B.A., Ph.D., University of Southern California.

Fearn, Leif (1967) …………………………. Professor of Teacher Education

Feenberg, Andrew L. (1969) ……………………. Professor of Philosophy
A.B., Johns Hopkins University; M.A., Ph.D., University of California, San Diego.
Feinberg, Lawrence B. (1977) Associate Vice President for Research and Technology; Graduate Research Affairs; Professor of Counseling and School Psychology A.B., University of Buffalo; M.S., Ph.D., State University of New York at Buffalo.

Fenske, Larry (1975) Associate Professor of Psychology A.B., M.A., University of New Mexico; Ph.D., University of Iowa.

Field, Margaret (1999) Assistant Professor of American Indian Studies B.Ed., University of Alaska, Fairbanks; M.A., Ph.D., University of California, Santa Barbara.

Fikes, Robert, Jr. (1977) Assistant Professor of Business Administration B.S., M.S., San Diego State University.

Flagg, Joan M. (1969) Associate Professor of Nursing B.S.N., University of Iowa; M.S., University of California, San Francisco; Ph.D., San Diego State University and Claremont Graduate University.

Fisher, Douglas (1998) Assistant Professor of Educational Psychology B.A., San Diego State University; M.Ed., Claremont Graduate University; Ph.D., San Diego State University.

Fisher, Kathleen M. (1988) Associate Professor of Psychology B.S., Rutgers University; Ph.D., University of California, Davis.

Fitzsimmons, Lorraine T. (1985) Associate Professor of Nursing B.A., Marymount Manhattan College; M.A., Ball State University; D.N.S., Indiana University – Purdue University at Indianapolis.

Flagg, Joan M. (1969) Associate Professor of Nursing B.S.N., University of Iowa; M.S., University of California, San Francisco; Ph.D., University of Texas at Austin.

Fitzsimmons, Lorraine T. (1985) Associate Professor of Nursing B.A., Marymount Manhattan College; M.A., Ball State University; D.N.S., Indiana University - Purdue University at Indianapolis.

Flagg, Joan M. (1969) Associate Professor of Nursing B.S.N., University of Iowa; M.S., University of California, San Francisco; Ph.D., University of Texas at Austin.

Floyd, James (1978) Professor of Education A.B., Catholic University of America; M.A., New York University; Ph.D., Stanford University.

Follingstad, Karen J. (1984) Professor of Music B.M., Curtis Institute of Music; M.M., Indiana University; D.M.A., University of Texas at Austin.

Ford, Lawrence R. (1970) Professor of Geography B.Sc., M.A., Ohio State University; Ph.D., University of Oregon.

Francis, Peter R. (1981) Professor of Exercise and Nutritional Sciences B.S., University of Durham, England; M.A., University of Iowa; Ph.D., University of Oregon.

Franklin, Janet (1988) Professor of Geography B.A., M.A., Ph.D., University of California, Santa Barbara.

Frantz, Roger S. (1978) Associate Professor of Economics A.B., M.A., Pace University; Ph.D., Washington State University.

Franz, Edward P. (1965) Associate Professor of Exercise and Nutritional Sciences B.S., M.A., Washington University.

Franzini, Louis R. (1969) Professor of Psychology B.S., University of Pittsburgh; M.A., University of Toledo; Ph.D., University of Pittsburgh.

Fredrich, Barbara E. (1972) Professor of Geography A.B., University of Wisconsin; M.A., Ph.D., University of California, Los Angeles.

Freitas, Lorraine (1984) Associate Professor of Nursing B.S.N., Catholic University of America; M.A.Ed., University of California, Los Angeles; Ph.D., University of Texas at Austin.

Frey, Terrence G. (1986) Professor of Biology B.S., Ohio State University; Ph.D., University of California, Los Angeles.

Friedrichs, Charles J. (1983) Assistant Professor of Music B.A., California State University, Fullerton; M.A., San Diego State University.

Friend, Margaret (1997) Assistant Professor of Psychology B.A., University of South Florida; M.S., Ph.D., University of Florida.

Frost, Eric G. (1980) Associate Professor of Geological Sciences A.B., University of Washington; M.S., University of Arizona; Ph.D., University of Southern California.

Gallego, Margaret Anne (1999) Associate Professor of Teacher Education B.A., M.Ed., Ph.D., University of Arizona.

Gamble, Lynn H. (1997) Associate Professor of Anthropology B.A., University of California, Berkeley; M.A., Ph.D., University of California, Santa Barbara.

Ganster, Paul (1984) Director, Institute for Regional Studies of the Californias B.A., Yale University; M.A., University of California, Riverside; Ph.D., University of California, Los Angeles.

Garrison, Leslie (1991) Associate Professor of Education, Imperial Valley Campus B.S., M.S., University of Oregon; Ed.D., Boston University.

Gay, Phillip T. (1976) Associate Professor of Sociology A.B., Case Western Reserve University; M.A., Ph.D., Harvard University.

Geist, Patricia J. (1990) Professor of Communication B.A., University of Iowa; M.A., University of Northern Iowa; Ph.D., Purdue University.

Genovese, E. Nicholas (1970) Professor of Classics and Humanities A.B., Xavier University; Ph.D., Ohio State University.

Gerber, James B. (1985) Professor of Economics B.A., California State University, Chico; Ph.D., University of California, Davis.

Gensberg, Richard M. (1968) Professor of Public Health B.S., The City College of the City University of New York; M.S., University of Houston; Ph.D., University of California, Davis.

Gervais, Ronald J. (1990) Professor of English A.B., M.A., Michigan State University; Ph.D., University of Oregon.

Gelis, Arthur (1990) The Stephen and Mary Birch Foundation Chair in Geographical Studies; Professor of Geography B.S., M.S., Pennsylvania State University; Ph.D., University of Michigan.

Gevacic, Tune (1988) Professor of Mathematical and Computer Sciences B.S., Middle East Technical University; M.A., Ph.D., University of California, San Diego.

Ghosh, Huma Ahmed (1994) Assistant Professor of Women's Studies B.A., University of Delhi; M.A., Jawaharlal Nehru University; Ph.D., Syracuse University.

Gibson, Rich (2000) Associate Professor of Teacher Education B.A., Western Michigan University; M.A., Wayne State University; Ph.D., Pennsylvania State University.

Gilbert, Kay R. (1979, except F80-S81 and F83-S86) Assistant Professor of Nursing B.S.N., University of Alabama in Birmingham; Ph.D., University of Texas at Austin.

Gilbreath, Stuart H. (1968) Professor of Public Administration and Urban Studies A.B., Pacific Lutheran College; B.D., Pacific Lutheran Theological Seminary; Ph.D., Michigan State University.

441
Full-Time Faculty

Gitchoff, G. Thomas (1969) ........................................... Professor of Public Administration and Urban Studies
A.B., Central Methodist College; M.Crim., D.Crim., University of California, Berkeley.

Gittman, Lawrence J. (1989) ........................................... Professor of Finance
B.S., Purdue University; M.B.A., University of Dayton; Ph.D., University of Cincinnati.

Glazer, Jeffrey W. (1994) ........................................... Assistant Dean for Student Relations,
College of Business Administration; Lecturer in Management
B.A., University of Iowa; M.B.A., San Diego State University; Ed.D., University of San Diego.

Giembicki, Christopher C. (1986) .................................... Professor of Biology
B.S., California Polytechnic State University; Ph.D., University of California, Los Angeles.

Godoy, Juan M. (1999) .................................................. Assistant Professor of Spanish
B.A., University of California, Riverside; Ph.D., University of California, Berkeley.

Goldberg, Fred M. (1986) ........................................... Professor of Physics
B.S., M.S., Ph.D., University of Michigan.

Gomez, M. Cristina (1999) ........................................... Assistant Professor of Policy Studies in Language
and Cross-Cultural Education
B.A., M.A., University of San Diego; Ed.D., University of San Francisco.

Gorbach, Pamina M. (1999) ........................................... Professor of Physics
B.S., M.A., Ph.D., University of California, Los Angeles.

Grob, Carol L. (1969) .................................................... Associate Librarian
A.B., M.A., San Diego State University; M.S.L.S., University of Southern California.

Grew, Katherine J. (1998) ........................................... Assistant Professor of Military Science
B.A., University of Texas at Austin.

Graf, Richard G. (1968) .................................................. Professor of Psychology
B.A., Fairleigh Dickinson University; M.A., Connecticut College; Ph.D., University of Massachusetts.

Graham, William K. (1973) ........................................... Professor of Psychology
B.A., Willamette University; M.A., University of Illinois; Ph.D., Wayne State University.

Graham, Alton (1985) .................................................... Professor of Psychology
A.B., M.A., Ph.D., University of California, Los Angeles.

Green, Louis C. (1978) ........................................... Professor of Economics
A.B., California State University, Los Angeles; Ph.D., University of California, Berkeley.

Greenfield, Philip J. (1989) ........................................... Professor of Anthropology
A.B., Pasadena College; M.A., Ph.D., University of Arizona.

Greer, G. Brian (2000) ........................................... Professor of Mathematical and Computer Sciences
B.A., Cambridge University; M.S., Ph.D., Queen’s University, Belfast.

Gregory, Linda J. (1977, except S’84) ................................. Professor of English
B.A., University of New Mexico; M.A., Ph.D., University of Illinois.

Griffin, Ernst C. (1972) ........................................... Special Assistant to the Associate Vice President
for Academic Affairs; Professor of Geography
A.B., San Diego State University; M.A., University of Denver; Ph.D., Michigan State University.

Griffiths, Owen (1999) ........................................... Assistant Professor of History
B.A., University of Victoria; M.A., Ph.D., University of British Columbia.

Grisham, Dana (1997) ........................................... Associate Professor of Teacher Education
B.A., California State University, Long Beach; M.A., Ph.D., University of California, Riverside.

Grishold, Jerome J. (1980) ........................................... Professor of English
B.A., Seattle University; M.A., Ph.D., University of Connecticut.

Grishold del Castillo, Ricardo (1974) ............................... Professor of Chicano and Chicano Studies
B.A., M.A., Ph.D., University of California, Los Angeles.

Grone, Robert D. (1986) ........................................... Professor of Mathematical and Computer Sciences
B.A., M.S., California State University, Northridge; Ph.D., University of California, Santa Barbara.

Grossbard-Shechtman, Shoshana A. (1981) .......................... Professor of Economics
B.A., Hebrew University; Ph.D., University of Chicago.

Grotjahn, Douglas B. (1997) ........................................... Associate Professor of Chemistry
B.A., Reed College; Ph.D., University of California, Berkeley.

Gudinitski, Gary M. (1988) ........................................... Professor of Accountancy
B.Comm., M.B.A., University of Saskatchewan; Ph.D., University of Massachusetts.

Guang, Lei (1999) ........................................... Assistant Professor of Political Science
B.A., Luoyang University, China; M.A., Johns Hopkins University; Ph.D., University of Minnesota.

Guanipa, Carmen L. (1996) ........................................... Assistant Professor of Counseling and
School Psychology
B.A., University of Zulia Maracaibo, Venezuela; M.A., Ph.D., McGill University.

Guenther, William D. (1968) ........................................... Director of Engineering Outreach and Internships;
Professor of Industrial Technology
B.S., M.A., Kent State University; Ph.D., The Ohio State University.

Guidotti, Richard W. (1996) ........................................... Assistant Professor of Italian
B.A., University of New Hampshire; M.A., Middlebury College; Ph.D., University of California, Berkeley.

Gumbiner, Judith G. (1967) ........................................... Director, Career Services; Student Affairs
A.B., M.A., San Diego State University.

Gupta, Dipak K. (1977) ........................................... Professor of Public Administration and Urban Studies
A.B., University of Calcutta; M.A., Visva-Bharati University; M.A., Ph.D., University of Pittsburgh.

Gupta, Madhu S. (2000) ........................................... Professor of Electrical and Computer Engineering
B.S., Lucknow University; M.S., Allahabad University; Ph.D., Florida State University; Ph.D., University of Michigan.

Gurlay, Michael J. (1998) ........................................... Associate Professor of Naval Science
B.A., Santa Clara University; M.B.A., University of La Verne; M.A., Naval Postgraduate School.

Guro, Mirat D. (1997) ........................................... The Blasker Chair in Environmental Engineering;
Professor of Civil and Environmental Engineering
B.S., M.S., Middle East Technical University, Ankara; M.S.E.E., Ph.D., University of North Carolina at Chapel Hill.

Gutierrez-Clellen, Vera F. (1990) .................................... Associate Professor of Communicative Disorders
M.A., Universidad del Museo Social Argentino; Ph.D., Temple University.

Guven, Halil M. (1984) ........................................... Professor of Mechanical Engineering
B.S., Bosphoglu University, Turkey; M.S., Mississippi State University; Ph.D., University of Houston.

Guzman, David T. (2000) ........................................... Professor of Military Science
B.S., Texas A & M University; M.A., Webster University.

Haddad, Kamal M. (1991) ........................................... Professor of Finance
B.B.A., American University of Beirut; M.S., Ph.D., University of Nebraska.

Hadley, Sue A. (1985) ........................................... Associate Professor of Nursing
B.S., University of Texas at San Antonio; M.S., Ball State University; D.N.S., Indiana University – Purdue University at Indianapolis.

Hall, Laura J. (1998) ........................................... Associate Professor of Special Education
B.A., Rutgers, The State University of New Jersey; M.A., Lesley College; Ph.D., University of Massachusetts.

Hall, Marilyn E. (1999) ........................................... Senior Assistant Librarian
B.A., Queen’s University; M.L.I.S., University of Western Ontario.

Hamblen, John W. (1979) ........................................... Associate Professor of Economics
A.B., Boston College; M.A., Ph.D., University of Wisconsin.

Hamilton, Charles D. (1974) ........................................... Professor of History and Classics
A.B., Fordham University; M.A., Ph.D., Cornell University.

Hampton, David R. (1964) ........................................... Professor of Management
A.B., University of Michigan; M.B.A., University of Southern California; Ph.D., Columbia University; J.D., Western State University.

Hanen, Barry B. (1989) ........................................... Resident Isotope Geochemist in Geological Sciences
B.S., University of Kansas; M.S., Ph.D., Virginia Polytechnic Institute and State University.

Handysides, Gail (1985, except F’91-S’92) .......................... Lecturer in Nursing
B.S., Andrews University; M.S., Boston University; M.A., San Diego State University.

Hanscom, Zac, III (1978) ........................................... Associate Professor of Biology
B.S., California Polytechnic State University; Ph.D., University of California, Riverside.

Hant, Teresa A. (1979) ........................................... Director, Student Life and Development;
Student Affairs

Harbert, Anila S. (1979) ........................................... Professor of Social Work
A.B., Fairmont State College; M.S.W., West Virginia University; Ph.D., Brandeis University.

Harkey, Thomas A. (1986) ........................................... Professor of Psychology
B.S., San Diego State University; Ph.D., California State University, Northridge.

Harley, Bruce L. (1990) ........................................... Associate Librarian
B.A., Pennsylvania State University; M.A., State University of New York at Binghamton; M.L.S., San Jose State University.
Harris, Fredric J. (1968) ..................................................... Professor of Electrical and Computer Engineering
B.E.E., Polytechnic Institute of Brooklyn; M.S.E.E., San Diego State University.
Registered Professional Engineer.

Harris, Greg L. (1989) .................................................. Associate Professor of Biology
B.A., Case Western Reserve University; Ph.D., University of North Carolina.

Harris, Jay H. (1980) .................................................. Professor of Electrical and Computer Engineering
B.E.E., Polytechnic Institute of Brooklyn; M.S., California Institute of Technology; Ph.D.,
University of California, Los Angeles.

Harris, Olita D. (1979) ............................................... Associate Dean, College of Health and Human Services;
Associate Professor of Social Work
B.S., Rocky Mountain College; M.S.W., Ph.D., University of Denver.

Hartung, Barbara W. (1976) ........................................ Executive Assistant to the President;
Professor of Communication
A.B., M.S., San Diego State University; Ph.D., United States International University.

Harvey, Anne-Charlotte (1984) ..................................... Professor of Theatre
B.A., Scripps College; B.A., University of Stockholm, Sweden; M.A., Ph.D., University of
Minnesota.

Hatrup, Keith (1995) .................................................. Associate Professor of Psychology
B.A., University of California, Santa Barbara; M.A., Ph.D., Michigan State University.

Hawes, Laura D. (2000) ............................................. Assistant Professor of Communicative Disorders
B.S., M.S., Pennsylvania State University, Ph.D., Northwestern University.

Hayakawa, Joanne (1982) ........................................... Professor of Art, Design and Art History
B.A., University of California, Santa Barbara; M.A., Ph.D., University of Washington.

Hayes, Charlotte E. (1972) ....................................... Counselor
A.B., Texas Technological University; M.S., East Texas State University.

Heck, Edward V. (1983) ............................................ Professor of Political Science
B.A., University of the South; M.A., University of Virginia; Ph.D., Johns Hopkins University.

Hedin, Marshall C. (1999) ......................................... Assistant Professor of Biology
B.A., Humboldt State University; M.S., Texas A & M University; Ph.D., Washington University.

Heineken, Janet R. (1980) ......................................... Professor of Nursing
B.S., San Diego State University; M.S., Washington University; Ph.D., University of Denver.

Helenurm, Kais (1991) ............................................... Assistant Professor of Biology
B.A., B.S., University of Toronto; M.S., University of British Columbia; Ph.D., Washington University.

Hellweg, Susan A. (1979) .......................................... Professor of Communication
A.B., University of California, Los Angeles; M.A., California State University, Dominguez Hills;
Ph.D., University of Southern California.

Hemmingsen, Barbara B. (1973) ................................. Professor of Biology
A.B., M.A., University of California, Berkeley; Ph.D., University of California, San Diego.

Hempel, Graham (1979) ........................................... Associate Professor of Dance
B.A., San Francisco State University.

Henry, Edward D. (1974) ........................................... Professor of Anthropology
B.S., G.M., Institute of Technology; M.A., Ph.D., Michigan State University.

Henry, Helen (1977) .................................................. Director of Administrative Operations

Hentschel, Brian (2000) ........................................... Assistant Professor of Biology
B.S., University of Southern California; Ph.D., University of Washington.

Hergert, Michael L. (1985) ........................................ Dean, College of Business Administration;
Professor of Management
B.A., Kalamazoo College; M.A., Ph.D., Harvard University.

Herman, Peter C. (1996) ........................................... Associate Professor of English
B.A., McGill University; M.A., Ph.D., Columbia University.

Herrera, Carlos R. (2000) ........................................ Assistant Professor of History
Imperial Valley Campus
B.A., M.A., University of San Diego; Ph.D., University of New Mexico.

Herzog, Lawrence A. (1989) .................................... Professor of Public Administration and Urban Studies
B.A., State University of New York at Albany; M.A., Ph.D., Syracuse University.

Heyman, Neil M. (1969) ........................................... Professor of History
A.B., Yale University; M.A., Ph.D., Stanford University.

Hicks, Darlene Emily (1984) ................................. Professor of English and Comparative Literature
B.A., University of California, San Diego.

Hidalgo, Margarita G. (1987) ............................... Professor of Spanish
B.A., Instituto Tecnico de Monterrey; M.A., Michigan State University; Ph.D., University of New Mexico.

Higurashi, Yoshiko (1983) ....................................... Professor of Japanese
B.A., Waseda University, Tokyo; M.A., University of Oregon; Ph.D., University of Texas
at Austin.

Hill, Linda L. (1989) ............................................ Co-Director, UCSF-SDSU Preventive Medicine
Residency Program
M.P.H., San Diego State University; M.D., University of Ottawa.

Hill-Maher, Kristen (1999) .................................. Assistant Professor of Political Science
B.A., Illinois State University; M.A., University of Iowa; Ph.D., University of California,
Irvine.

Himes, Ronald S. (1969) ....................................... Professor of Anthropology
B.S., Georgetown University; M.A., Ateneo de Manila University, Philippines; Ph.D.,
University of Hawaii.

Hindman, Jane E. (1996) ...................................... Assistant Professor of Rhetoric and Writing Studies
B.A., Mansfield University; M.A., Ph.D., University of Arizona.

Hodges, Kim J. (2000) ........................................... Assistant Professor of Military Science
B.S., Utah State University.

Hoffman, Robert P. (1995) .................................. Associate Professor of Educational Technology
B.A., University of Pittsburgh; M.A., San Diego State University; Ph.D., Claremont
Graduate University and San Diego State University.

Hotherr, Louise K. (1987) ................................... Associate Professor of Public Health
B.S., California State University, Long Beach; M.P.H., Ph.D., University of Minnesota.

Holtzclaw, C. Richard (1983) .................................. Professor of Political Science
B.A., University of Oregon; M.A., Ph.D., Indiana University.

Hohn, Charles F. (1973) ........................................ Associate Dean, Undergraduate Studies;
Professor of Sociology
A.B., M.A., Ph.D., University of Southern California.

Hohnem, Malinda M. (1995) .................................. Associate Professor of Social Work
B.A.S.W., M.S.W., University of Pittsburgh; Ph.D., Arizona State University.

Hoidal, Oddvar K. (1967) .................................. Professor of History
B.A., San Diego State University; Ph.D., University of Southern California.

Hokoda, Audrey (1999) ........................................ Assistant Professor of Child and Family Development
B.S., University of California, Los Angeles; M.A., Ph.D., University of Illinois at Urbana-
Champaign.

Holler, Linda D. (1991) ..................................... Associate Professor of Religious Studies
B.A., California State University, Chico; M.A., Ph.D., Vanderbilt University.

Holly, Dianne J. (1984, except F'84 and F'85-'86) .......................... Lecturer in Theatre
A.B., M.A., San Diego State University.

Honea, Heather L. (2000) ..................................... Assistant Professor of Marketing
B.S., University of California, San Diego; M.S., University of California, Berkeley.

Hope, Allen S. (1986) ............................................ Professor of Geography
B.S., M.Sc,Eng., University of Natal, South Africa; Ph.D., University of Maryland.

Horneck, Frederick W. (1968) .................................. Professor of Psychology
A.B., M.S., Yale University; Ph.D., University of California, Los Angeles.

Hough, Richard L. (1983) ....................................... Professor of Sociology
B.A., Texas Christian University; M.Div., Iliff School of Theology; M.A., Ph.D., University
of Illinois.

Houston, Arthur L., Jr. (1986) ................................. Associate Professor of Finance
B.A., Miami University; M.A.B., Pepperdine University; Ph.D., Washington University.

Houston, Carol O. (1986) ...................................... Professor of Accountancy
B.A., M.B.A., Pacific Lutheran University; Ph.D., University of Washington.

Hovell, Melbourne F. (1982) .................................. Professor of Public Health
B.A., San Francisco State University; M.A., Western Michigan University; M.P.H.,
University of California, Berkeley; Ph.D., University of Kansas.

Huckie, Patricia (1975) ........................................... Professor of Women's Studies
A.B., Ohio University; M.P.A., University of Washington; Ph.D., University of Southern
California.

Hudson, Laura A. (2000) ...................................... Senior Assistant Librarian
B.A., University of Oregon; M.L.I.S., University of Michigan.

Hughes, Judy B. (1999) ...................................... Assistant Professor of Public Administration
and Urban Studies
B.A., California State University, Stanislaus; M.S., Arizona State University.

Hughes, Margaret Jean (1997) .......................... Assistant Professor of Social Work
B.A., California State University, Dominguez Hills; M.S.W., California State University,
San Bernardino; Ph.D., Brandeis University.

Hui, Stelen (1988) .................................................. Professor of Mathematical and Computer Sciences
B.A., University of California, Berkeley; M.S., Ph.D., University of Washington.
Full-Time Faculty

Huntley, David (1987) ................................................................. Professor of Geographical Sciences A.B., University of California, Santa Barbara; Ph.D., Colorado School of Mines, Golden.

Hurlbert, Stuart H. (1970) ......................................................... Professor of Biology B.A., Amherst College; Ph.D., Cornell University.

Iglesias Prieto, Norma V. (2000) .................................................. Assistant Professor of Chicano and Chicano Studies M.A., Universidad Iberoamericana; Mexico City; Ph.D., Universidad Complutense de Madrid, Spain.

Imazeki, Jennifer (2000) ......................................................... Assistant Professor of Economics B.A., Pomona College; M.S., Ph.D., University of Wisconsin.

Impelluso, Thomas J. (1998) ...................................................... Assistant Professor of Mechanical Engineering B.S.C.E., M.S., Columbia University; Ph.D., University of California, San Diego.

Ingram, Colette L. (1985) ......................................................... Associate Professor of Counseling and School Psychology B.A. (American Studies), B.A. (Psychology), University of California, Davis; M.A., Ph.D., University of California, Berkeley.

Ingram, Rick E. (1983) ............................................................... Professor of Psychology B.A., San Diego State University; M.A., Ph.D., University of Kansas.

Isosipovic, Alexander (1978) .................................................. Professor of Electrical and Computer Engineering B.S., Technion, I.I.T., Israel; Ph.D., Syracuse University.

Irwin, Michael A. (1964) .......................................................... Director, Test Office, Student Affairs A.B., M.A., San Diego State University.

Jacobs, Ron (1982) ................................................................. Professor of Administration, Rehabilitation and Postsecondary Education B.S., Pennsylvania State University; M.A., California State University, Norridge; Ph.D., University of Arizona.

Jacobs, Victoria R. (1998) ......................................................... Assistant Professor of Teacher Education B.A., Dartmouth College; M.S., Ph.D., University of Wisconsin.

Jaffe, Harold (1962) ................................................................. Professor of English B.A., Grinnell College; M.A., Ph.D., New York University.

Jassy, Sharon L. (1980) ............................................................ Assistant Vice President for Student Affairs M.P.A., San Diego State University.

Jiracek, George R. (1980) ......................................................... Professor of Geological Sciences B.S., M.S., University of Wisconsin; Ph.D., University of California, Berkeley.

Joh, Gun-Do (1988) ............................................................... Associate Professor of Accountancy B.A., Seoul National University; M.A., University of Iowa; Ph.D., University of Pennsylvania.

Johns, Ann M. (1975) .............................................................. Professor of Rhetoric and Writing Studies and Linguistics A.B., Carlton College; M.A., University of Chicago; M.A., American University in Cairo; Ph.D., University of Southern California.

Johns, David H. (1965) ............................................................ Professor of Political Science A.B., Dartmouth College; M.A., Ph.D., University of Chicago.

Johnson, Gerald G. (1978) ....................................................... Professor of Biology B.S., Bowling Green; M.S., Wayne State University; Ph.D., Case Western Reserve University.

Johnson, Hiroko (2000) ........................................................... Assistant Professor of Art, Design and Art History B.A., M.A., California State University, Norridge; Ph.D., University of Southern California.

Johnson, John R. (2000) ........................................................... Assistant Professor of Special Education B.S., M.Ed., University of Cincinnati; Ph.D., University of Illinois.

Johnson, Kenneth D. (1972) .................................................... Professor of Biology A.B., Ph.D., University of California, Santa Barbara.

Johnson, Leslie S. (1990) .......................................................... Assistant Dean for Student Affairs, College of Arts and Letters B.A., University of South Carolina; M.S., San Diego State University.

Johnson, Willard L. (1977, except F'80-S'81 and S'83) .................................................. Professor of Religious Studies B.A., Oberlin College; M.A., Ph.D., University of Wisconsin.

Jones, Evangelina B. (1990) ..................................................... Assistant Professor of Policy Studies in Language and Cross-Cultural Education B.A., M.A., Arizona State University; Ph.D., Claremont Graduate University and San Diego State University.

Jones, Loring P. (1989) ......................................................... Professor of Social Work B.A., Belmont Abbey College; M.S.W., Virginia Commonwealth University; D.S.W., University of California, Los Angeles.

Josephson, Ronald V. (1975) ................................................... Professor of Exercise and Nutritional Sciences B.S., Pennsylvania State University; M.S., Ph.D., University of Minnesota.

Jung, Dong I. (1997) ............................................................... Associate Professor of Management B.A., Korea University; M.B.A., Bowling Green State University; Ph.D., State University of New York at Binghamton.

Kahan, David (2000) ............................................................. Assistant Professor of Exercise and Nutritional Sciences B.S., M.Ed., University of California, Los Angeles; Ph.D., The Ohio State University.

Kaplan, Jeffrey P. (1976) ......................................................... Professor of Linguistics A.B., University of Chicago; M.A., Ph.D., University of Pennsylvania.

Kartalija, Michael A. (1976) ..................................................... Professor of Marketing B.S., Pennsylvania State University; M.B.A., Drexel University; Ph.D., University of Pittsburgh.

Kartalija, Arthur E. (1968) ........................................................ Professor of Economics B.A., MacMurray College; M.A., Ph.D., University of Washington.

Keely, Richard C. (2000) ....................................................... Assistant Professor of Art, Design and Art History B.A., California State University, Chico; M.F.A., San Diego State University.

Keiser, R. Robert (1968) ......................................................... Associate Professor of Political Science A.B., Brown University; Ph.D., University of North Carolina.

Kelly, Colleen (1997) ............................................................ Associate Professor of Mathematical and Computer Sciences B.A., M.A., University of California, San Diego.

Kelly, Patricia R. (1999) .......................................................... Professor of Teacher Education B.S., Simmons College; M.A., San Diego State University; Ph.D., Claremont Graduate University and San Diego State University.

Kennedy, Carole (1998) .......................................................... Assistant Professor of Political Science A.B., University of Michigan; M.A., Ph.D., University of California, Riverside.

Kern, Mark J. (1995) .............................................................. Assistant Professor of Exercise and Nutritional Sciences B.S., M.S., Indiana University; Ph.D., Purdue University.

Kilpatrick, Alan E. (1993) ....................................................... Professor of American Indian Studies B.A., Northeastern State University; M.A., Loyola Marymount University; M.A., Ph.D., University of California, Los Angeles.

Kimbrough, David L. (1989) .................................................... Professor of Geological Sciences B.S., University of California, Santa Cruz; Ph.D., University of California, Santa Barbara.

Kirpatrick, R. George (1972) ................................................... Associate Professor of Sociology A.B., M.A., Ph.D., University of Texas at Austin.

Kirschvink, Stephen J. (1987) .................................................. Associate Professor of Mathematical and Computer Sciences B.S., Arizona State University; M.A., Ph.D., University of California, San Diego.

Kish, Kathleen V. (1999) ......................................................... Professor of Spanish B.A., University of California, Berkeley; M.A., Ph.D., University of Wisconsin.

Kitaigama, Ryu (1992) ............................................................. Assistant Professor of Japanese B.A., Osaka Prefectural Women's University; Japan; M.A., Nara National Women's University; Japan; Ph.D., State University of New York at Buffalo.

Kilano, Margie K. (1988) ......................................................... Professor of Special Education B.A., M.A., Ph.D., University of California, Los Angeles.

Kitchen, James R. (2000) ........................................................ Vice President for Student Affairs B.S., M.S., Eastern Illinois University; Ed.D., Northern Arizona University.
Klein, Jeffrey B. (1999) .............................  Assistant Professor of Naval Science B.S., Oregon State University.

Kline, Ronald A. (1997) ............................ Professor of Mechanical Engineering B.S., M.S.E., Ph.D., Johns Hopkins University.

Klonoff, Elizabeth A. (2000) .......................... Professor of Psychology A.B., Brandeis University; M.A., Ph.D., University of Oregon.

Koch, Alma L. (1983) ............................. Professor of Public Health B.S., Cornell University; S.M., Massachusetts Institute of Technology; M.P.H., Ph.D., University of California, Los Angeles.

Kohen, Janet A. (1980) ............................. Associate Professor of Women's Studies A.B., M.A., Ph.D., University of Iowa.

Kohn, Risa Levi (1997) .............................. Assistant Professor of Religious Studies B.A., York University, Toronto; M.A., University of Toronto; M.A., Ph.D., University of California, San Diego.

Kolar, Jane M. (1975) ............................... Professor of Music B.M., University of Montana; M.A., Ph.D., Columbia University.

Kolen, Paul T. (1987) .............................. Professor of Electrical and Computer Engineering B.S., University of Michigan; M.S., San Diego State University; Ph.D., Utah State University.

Kolkhorst, Fred W. (1998) ......................... Associate Professor of Exercise and Nutritional Sciences B.S., M.S., University of Missouri – Columbia.

Kolody, Bohdan (1972) ............................. Professor of Sociology B.S., Clemson University; M.A., Bowling Green State University; Ph.D., University of Oregon.

Koolish, Lynda L. (1983) ............................ Associate Professor of English B.A., University of California, Berkeley; M.A., San Francisco State University; Ph.D., Stanford University.

Kornfeld, Eve (1986) ................................. Professor of History B.A., Princeton University; M.A., Ph.D., Harvard University.

Koster, Alexis (1963) ............................. Professor of Information and Decision Systems B.S., University of Paris; Certificate in Business Administration, University of Toulouse, France; Ph.D., University of North Carolina.

Kramer, Steven J. (1985) ............................ Professor of Communicative Disorders B.A., University of California, Santa Barbara; M.A., Ph.D., Florida University.

Kreukarian, Neil (1977) ........................... Professor of Biology A.B., M.A., California State University, Los Angeles; Ph.D., University of Toronto.

Krisans, Skaidrite (1969) ......................... Associate Dean for Student Services, Graduate Division; Professor of Biology B.S., Eastern Michigan University; M.S., Ph.D., University of Michigan.

Krishnamoorthy, Govindarajulu (1998) .................... Professor of Civil and Environmental Engineering B.E., College of Engineering, India; M.S.C.E., Ph.D., Illinois Institute of Technology.

Kroncke, Patricia (1992) .......................... Associate Director for Operations and Conferences, Housing and Residential Life B.A., University of California, Los Angeles; M.P.A., San Diego State University.

Kuefler, Matthew S. (1998) .......................... Assistant Professor of History Stanford University.

Kuhiman, Natalia A. (1979) ....................... Professor of Policy Studies in Language and Cross-Cultural Education A.B., California State College, Los Angeles; M.A., San Francisco State College; Ph.D., University of Arizona.

Kushner, Howard I. (1980) ......................... John R. Adams Professor of Graduate Interdisciplinary Studies; Professor of History A.B., Rutgers University; M.A., Ph.D., Cornell University.

Lackritz, James R. (1977) ............................ Professor of Information and Decision Systems B.S., Bucknell University; M.S., Ph.D., University of Florida, Gainesville.

LaMaster, Kathryn J. (1996) ....................... Associate Professor of Exercise and Nutritional Sciences B.S., M.S., Texas Christian University; Ph.D., Ohio State University.

Lambert, Michael A. (2000) ..................... Assistant Professor of Mechanical Engineering B.S., M.S., Ph.D., Texas A&M University.

Lamke, Gene G. (1973) ............................. Professor of Recreation, Parks and Tourism A.B., M.A., San Diego State University.

Langlais, Philip J. (1988) ......................... Associate Dean for Research and Graduate Studies, College of Sciences; Professor of Psychology B.A., Salem State College; M.A., University of Texas Medical Branch; Ph.D., Northeastern University.

Lapp, Diane K. (1978) ............................. Professor of Teacher Education B.S., Ohio Northern University; M.A., Western Michigan University; Ed.D., Indiana University.

Larham, Peter F. (1987) ............................ Professor of Theatre B.A., M.A., University of Natal, Durban; Ph.D., New York University.

Lathrop, John W. (1995) ............................ Assistant Professor of Military Science B.A., University of California, Riverside.

Latta, Raymond F. (1977) ......................... Professor of Administration, Rehabilitation and Postsecondary Education B.S., University of British Columbia; M.Ed., Western Washington State College; Ph.D., Florida State University.

Lauzen, Martha M. (1988) .......................... Professor of Communication B.A., M.A., University of Iowa; Ph.D., University of Maryland.

Leach, Larry L. (1968) .............................. Professor of Anthropology A.B., M.A., Ph.D., University of Colorado.

Lee, Dalton S. (1985) ............................. Associate Professor of Public Administration and Urban Studies A.B., University of California, Berkeley; M.S.W., University of Michigan; M.P.A., D.P.A., Arizona State University.

Lee, Gordon K. (2000) ............................. Associate Dean and Director of Doctoral Program, College of Engineering; Professor of Electrical and Computer Engineering B.S.E.E., University of Hawaii; M.S.E.E., Ph.D., University of Connecticut.

Lee, Long C. (1982) ............................... Professor of Electrical and Computer Engineering B.S., Taiwan Normal University; A.M., Ph.D., University of Southern California.

Lesley, Frank D. (1970) .......................... Professor of Mathematical and Computer Sciences B.S., Stanford University; M.A., Ph.D., University of California, San Diego.

Lewis, Rena B. (1978) .............................. Professor of Special Education A.B., Northern Arizona University; M.Ed., Ph.D., University of Arizona.

Lichtenstein, Greg A. (1984) .................. Director, Clinical Services; M.O., Student Health Services B.S., Stanford University; M.D., Tufts University.

Liebowitz, Marlin (1984) ......................... Professor of Music B.M., Eastman School of Music; M.A., Smith College; D.M.A., University of Southern California.

Lightner, Kevin M. (1968) ....................... Professor of Accountancy B.A., San Jose State University; M.B.A., Ph.D., University of California, Los Angeles.

Lightner, Sharon M. (1978) .................. Associate Professor of Accountancy B.S., University of Montana; M.S., San Diego State University; Ph.D., University of Oregon. Certified Public Accountant.

Lin, Chi-Dean (1998) ............................ Assistant Professor of Mathematical and Computer Sciences B.A., National Chiao Tung University, Taiwan; M.S., New Jersey Institute of Technology; Ph.D., Texas A & M University.

Lin, Mao-Shiu (1966) ............................. Professor of Electrical and Computer Engineering B.S.E., National Taiwan University, Taiwan; M.S.E., Ph.D., University of Michigan.

Lippold, Lois K. (1968) ............................ Professor of Anthropology B.S., M.S., Ph.D., University of Wisconsin.

Lischke, Nancy L. (1980) ....................... Lecturer in Nursing B.S., M.S., University of California, Los Angeles.

Litrowink, Alan J. (1971) ....................... Professor of Psychology A.B., University of California, Los Angeles; M.A., Ph.D., University of Illinois.

Liu, Ruth Xiaoru (1997) ......................... Assistant Professor of Sociology B.A., Hangzhou University, China; M.A., Ph.D., Texas A & M University.

Lobato, Joanne (1996) ......................... Assistant Professor of Mathematical and Computer Sciences B.S., St. Cloud State University; M.A., San Diego State University; Ph.D., University of California, Berkeley.
Locke, William P. (1974)................................................. Dean, Global Program Development, College of Extended Studies; Assistant Professor of Public Administration and Urban Studies A.B., Westminster College; M.Ed., Ph.D., St. Louis University.

Loewy, Michael I. (1995)............................................. Assistant Professor of Counseling and School Psychology B.A., University of Nevada, Las Vegas; M.A., Ph.D., University of California, Santa Barbara.

Logan, Jack D. (1969).................................................. Professor of Music B.M., M.M., Southern Methodist University; Ph.D., University of California, San Diego.

Long, Linda M. (1985)................................................... Lecturer in Nursing B.S.N., M.S.N., California State University, Los Angeles.

Loughrin-Sacco, Steven J. (1997)................................... Professor of French B.A., Western Illinois University; M.A.T., University of Illinois at Urbana-Champaign; Ph.D., Ohio State University.

Love, John J. (2001)...................................................... Assistant Professor of Chemistry B.S., State University of New York; Ph.D., University of California, San Diego.

Loveman, Brian E. (1973).............................................. Professor of Political Science A.B., University of California, Berkeley; M.A., Ph.D., Indiana University.

Loveridge, Catherine E. (1983)....................................... Professor of Nursing B.S., Boston College; M.S., Ph.D., University of Colorado.

Lui, Kung-Jong (1990)................................................... Professor of Mathematical and Computer Sciences B.S., Fu-Jen University; M.S., Ph.D., California State University, Los Angeles.

Lujan, Jaime L. (1976).................................................. Associate Professor of Teacher Education A.B., M.A. (Anthropology), M.A. (Education), Ph.D., Stanford University.

Lustig, Myron W. (1978)................................................. Professor of Communication A.B., Pennsylvania State University; M.S., Portland State University; Ph.D., University of Wisconsin.

Lutz, Donald A. (1986).................................................. Professor of Mathematical and Computer Sciences B.S., M.S., Ph.D., Syracuse University.

Lyman-Hager, Mary Ann (1997)................................... Professor of French B.A., M.A., Cornell College; Ph.D., University of Idaho.

Lynch, Eleanor W. (1979).............................................. Professor of Special Education B.S., M.A., Ph.D., Ohio State University.

Lyons-Lawrence, Carolena L. (1987)................................. Associate Professor of Information and Decision Systems B.S., The University of Akron; M.S., Kent State University; Ph.D., Ohio State University.

Mackeraie, Carol L. (1996)........................................... Assistant Professor of Communicative Disorders B.A., University of Michigan; M.A., San Diego State University; Ph.D., The City University of New York.

Mahaffy, Joseph M. (1985).......................................... Professor of Mathematical and Computer Sciences B.S., University of Nebraska; Sc.M., Ph.D., Brown University.

Malcarne, Vanessa L. (1990)......................................... Associate Professor of Psychology A.B., Stanford University; Ph.D., University of Vermont.

Mansfield, Robert A. (1976)......................................... Associate Professor of Art, Design and Art History A.B., St. Cloud State College; M.F.A., University of Massachusetts.

Marino, Kenneth E. (1986).......................................... Associate Dean and Director of Graduate Program, College of Business Administration; Professor of Management B.S., University of Maryland; M.B.A., University of Maine; Ph.D., University of Massachusetts.

Marino, Leonard R. (1973).......................................... Professor of Electrical and Computer Engineering B.S., Carnegie-Mellon University; M.S.; Ph.D., Case Western Reserve University.

Marlin, Nancy A. (1998)............................................. Provost; Professor of Psychology B.A., State University of New York at Binghamton; M.S., Oklahoma State University; Ph.D., City University of New York.

Marovac, Nenad (1980).............................................. Professor of Mathematical and Computer Sciences Diploma, University of Belgrade; Ph.D., Imperial College, London University.

Marshall, C. Monte (1975)............................................ Professor of Geological Sciences A.B., Villanova University and San Diego State University; Ph.D., Stanford University.

Marshall, Sandra P. (1985).......................................... Professor of Psychology B.A., Boston University; Ph.D., University of California, Santa Barbara.

Martin, Donald R. (1969)............................................ Associate Professor of Communication A.B., Otterbein College; M.S., Syracuse University; Ph.D., State University of Ohio.
McLeod, Douglas B. (1972) ………… Professor of Mathematical and Computer Sciences
A.B., University of North Dakota; M.A., Ph.D., University of Wisconsin.

Mcnett, Stephen A. (2000) ………… Associate Dean for Academic Affairs and Lecturer in
Accomplishment, Imperial Valley Campus
B.A., M.S., Wichita State University; Ph.D., University of Missouri–Columbia.

McPhail, Martha E. (1988) ………… Associate Librarian
B.A., M.S.L.S., University of North Carolina, Chapel Hill; M.A., San Diego State University.

Meadows, Eddie S. (1972) ………… Professor of Exercise and Nutritional Sciences
B.A., M.A., California State University, Long Beach; Ph.D., Ohio State University.

Mechikoff, Robert A. (1981) ………… Professor of Exercise and Nutritional Sciences
B.A., M.A., California State University, Long Beach; Ph.D., Ohio State University.

Medeiros, Frank A. (1977, except F’96-S’98) ………… Professor of Education, Imperial Valley Campus
B.A., M.A., San Francisco State University; Ph.D., Stanford University.

Mellors, Robert J. (1997) ………… Resident Computer Geoscientist in Geological Sciences
B.S., Ohio State University; M.S., Cornell University; Ph.D., Indiana University.

Mendez, Gilbert (2000) ………… Assistant Professor of Teacher Education, Imperial Valley Campus
B.A., University of California, Los Angeles; M.A., San Diego State University; Ph.D., Claremont Graduate University and San Diego State University.

Mendoza, Theresa M. (1998) ………… Assistant Professor of Teacher Education
B.A., Colgate University; M.S., State University of New York College at Oswego; Ph.D., University of Rochester.

Merino, Alfred (1974) ………… Associate Dean, Imperial Valley Campus; Professor of Administration, Rehabilitation and Postsecondary Education
B.S., M.S., Western New Mexico University; Ed.D., University of Massachusetts.

Merrill, Susan C. (1986) ………… Associate Professor of Art, Design and Art History
B.A., Queens College; M.A., Kunstgewerbgeschule-Basel, Switzerland.

Metzger, Robert P. (1968) ………… Professor of Chemistry
B.S., University of California, Los Angeles; M.S., San Diego State University; Ph.D., San Diego State University and University of California, San Diego.

Mikita, Kathleen E. (1974) ………… Professor of Teacher Education
A.B., Arizona State University; M.S., Kansas State University; Ph.D., Boston College.

Miller, Allan W. (1963) ………… Professor of Art, Design and Art History
A.B., M.A., University of California, Los Angeles.

Min, Jong Won (2000) ………… Assistant Professor of Social Work
B.A., Yonsei Un, Seoul, Korea; M.S.W., University of Hong Kong; Ph.D., University of Colorado.

Moffatt, Ron (1984) ………… Director, International Student Services, Student Affairs
B.A., University of North Carolina, Chapel Hill; M.Ed., University of Delaware, Newark.

Mollenauer, Sandra O. (1970) ………… Professor of Psychology
B.A., Chatham College; Ph.D., State University of New York at Buffalo.

Monk, Gerald (2000) ………… Associate Professor of Counseling and School Psychology
B.A., Massey University; M.A., University of Otago, New Zealand; Ph.D., University of Waikato, New Zealand.

Moore, Mary Jane (1972) ………… Associate Professor of Anthropology
A.B., Agnes Scott College; B.S., University of Tennessee; Ph.D., University of Wisconsin, Madison.

Moore, Rebecca E. (1999) ………… Assistant Professor of Religious Studies
B.A., Antioch College; M.A., Ph.D., Marquette University.

Moore, Robert (1968) ………… Professor of Exercise and Nutritional Sciences
B.S., M.S., University of Illinois at Urbana-Champaign; Ph.D., University of Oregon.

Mora, Jill K. (1994) ………… Associate Professor of Teacher Education
B.A., Sam Houston State University; M.A., Ed.D., University of Houston.

Moramarco, Fred S. (1969) ………… Professor of English
A.B., Long Island University; M.A., Ph.D., University of Utah.

Moreno, Rosa Elena (1999) ………… Assistant Dean for Student Affairs, Imperial Valley Campus
B.A., California State University, Northridge; M.A., Holy Names College.

Morey, Ann I. (1985) ………… Distinguished Research Professor; Director, Center for Educational Leadership, Innovation and Policy
B.A., M.Ed., Pennsylvania State University; Ph.D., University of California, Berkeley.

Morris, Richard H. (1957) ………… Professor of Physics
A.B., Ph.D., University of California, Berkeley.

Morris, Rita I. (1990) ………… Associate Professor of Nursing
B.S.C., The Madras University, India; M.Sc., The Catholic University of America; Ph.D., The American University.

Moss, Susan (1996) ………… Director of Diversity and Equity
B.A., Lewis and Clark College; J.D., The American University; Ph.D., University of Wisconsin-Madison.

Mueller, Barbara (1987) ………… Professor of Communication
B.A., M.A., Ph.D., University of Washington.

Muroi, Linda S. (1985) ………… Librarian
B.A., M.L.S., University of Illinois at Urbana-Champaign.

Murphy, Claire (1964) ………… Professor of Psychology
B.S., Loyola University; M.S., Ph.D., University of Massachusetts.

Murphy, Dana W. (1960) ………… Lecturer in Political Science, Imperial Valley Campus
A.B., M.P.A., Harvard University; Ph.D., University of Washington.

Murphy, Melissa (1999) ………… Assistant Professor of Public Administration and Urban Studies
B.A., University of California, Los Angeles; M.P.A., George Washington University; Ph.D., Florida Atlantic University.

Múzquiz-Guerrero, Darlene (1998) ………… Assistant Professor of Spanish
B.A., M.A., San Diego State University; Ph.D., University of California, San Diego.

Nagel, Anne L. (1971, except F’71-F’73) ………… Lecturer in Teacher Education
B.A., Willamette University; M.Ed., University of Oregon; Ph.D., University of Wisconsin, Madison.

Nakamura, Kotaro (1980) ………… Assistant Professor of Art, Design and Art History
B.A., Kanto-Gakuen University; Yokohama, Japan; M.A., San Diego State University.

Narang, Balbir S. (1968) ………… Professor of Aerospace Engineering and Engineering Mechanics
B.S., M.S., Ph.D., University of Illinois.

Nelson, Kerry A. (1988) ………… Assistant Professor of Art, Design and Art History
B.A., University of Delaware; M.S., Drexel University.

Nerio, William A. (1991) ………… Associate Professor of English and Comparative Literature
B.A., University of Texas at Austin; M.A., Ph.D., Cornell University.

Nesbitt, Francis N. (2000) ………… Assistant Professor of Africana Studies
B.A., University of Nairobi; M.A., University of Massachusetts.

Neuber, Frank (1970) ………… Career Counselor
A.B., M.P.A., San Diego State University.

Neumann, Richard (1991) ………… Associate Professor of Education, Imperial Valley Campus
B.S., Central Connecticut State University; M.A., Ph.D., University of Colorado, Boulder.

Nichols-Bernhard, Jeanne F. (1985) ………… Professor of Exercise and Nutritional Sciences
B.S., Northeastern University; M.S., University of New Hampshire; Ph.D., University of Michigan.

Nieto, Jesus (1989) ………… Assistant Professor of Teacher Education
B.A., Wayne State University; M.S., San Diego State University; Ph.D., San Diego State University and Claremont Graduate University.

Nosseir, Nagy (1983) ………… Associate Professor of Policy Studies in Language and Cross-Cultural Education
B.S., University of California, Los Angeles; M.A., Occidental College; Ph.D., Claremont Graduate University and San Diego State University.

Nossel, Nagy (1983) ………… Professor of Aerospace Engineering and Engineering Mechanics
B.S., M.S., Cairo University; M.A., University of Toronto; Ph.D., University of Southern California.

Noto, James V. (1969) ………… Associate Professor of Public Health
B.S., Slippery Rock State College; M.S., H.S.D., Indiana University.

Ochoa, Alberto M. (1975) ………… Professor of Policy Studies in Language and Cross-Cultural Education
B.A., California State University, Los Angeles; M.S., University of Southern California; B.Ed., University of Massachusetts.

O’Donnell, Terry L. (1975) ………… Professor of Music and Theatre
A.B., M.A., San Diego State University; D.M.A., University of Arizona.

Oechel, Walter C. (1978) ………… Professor of Biology
A.B., San Diego State University; Ph.D., University of California, Riverside.

447
Full-Time Faculty

Oestreich, Nathan A. (1985) ............................... Professor of Accountancy
B.A., Texas Lutheran College; M.S., Ph.D., University of Houston.

Ojeda, Norma (1999) ................................. Assistant Professor of Sociology and
Chicana and Chicano Studies
M.A., El Colegio de Mexico; Ph.D., University of Texas at Austin.

O’Leary, John F. (1985) .............................. Professor of Geography
A.B., University of California, Riverside; M.A., Ph.D., University of California, Los Angeles.

Olevsky, Eugene A. (1998) .......................... Assistant Professor of Mechanical Engineering
B.S., M.S., Kiev Institute of Technology, Ukraine; B.S., M.S., University of Kiev, Ukraine;
Ph.D., National Academy of Sciences, Ukraine.

Olson, Lois B. (1994) ................................. Lecturer in Marketing
B.A., Albright College; M.S., Cornell University; M.B.A., Boston College; D.B.A., United States International University.

Ombreg, Edward (1989) .............................. Professor of Finance
B.S., University of Santa Clara; M.B.A., Ph.D., University of California, Los Angeles.

Ornatowski, Cezar M. (1992) .... Associate Professor of Rhetoric and Writing Studies
B.A., Mickiewicz University; M.A., Boston College; Ph.D., University of California, Los Angeles.

Ortiz, Isidro D. (1986) ................................. Professor of Economics
B.S., Texas A & I University; M.A., Ph.D., Stanford University.

Oseroff, Saul B. (1984) ............................... Professor of Physics
M.S., Ph.D., Institute of Physics, University of Cuyo, Argentina.

O’Sullivan, Michael (2000) ........................ Assistant Professor of Mathematical and
Computer Sciences
B.A., Reed College; M.S., Portland State University; Ph.D., University of California, Berkeley.

Ozturk, Yusuf (1998) ................................. Associate Professor of Electrical and Computer Engineering
B.S., Middle East Technical University, Turkey; M.S., Ph.D., Ege University, Turkey.

Pachecho, Richard (1979) ............................ Professor of Policy Studies
B.A., M.Ed., University of Nevada, Reno; Ph.D., University of Illinois.

Packard, Thomas R. (1983) ........................... Assistant Professor of Social Work
B.A., M.S.W., San Diego State University; D.S.W., University of California, Los Angeles.

Padmanabhan, Prasad (1995) ......................... Associate Professor of Finance,
Imperial Valley Campus
B.Tech., Indian Institute of Technology; M.B.A., Ph.D., McGill University.

Palacios, Antonio (1999) ............................. Assistant Professor of Mathematical and
Computer Sciences
B.S., La Salle University; M.S., Ph.D., Arizona State University.

Palsson, Gerald D. (1976) ............................ Associate Librarian
B.Sc., B.L.S., University of British Columbia; M.A., University of Arizona.

Pang, Valerie O. (1989) ............................... Professor of Teacher Education
B.Ed., Seattle University; M.Ed., Central Washington University; Ph.D., University of Washington.

Paolini, Paul J., Jr. (1978) ............................ Professor of Biology
B.S., M.S., Rensselaer Polytechnic Institute; Ph.D., University of California, Davis.

Papin, Patrick J. (1985) ............................... Professor of Physics
B.S., Cleveland State University; M.S., San Diego State University; Ph.D., University of California, Los Angeles.

Park, Cynthia Darche (1977) ......................... Associate Professor of Teacher Education
A.B., George Washington University; M.A., Ph.D., University of Kansas.

Park, Jong-Min (1998) ............................... Assistant Professor of Electrical and Computer Engineering
Korea University; M.S., Ph.D., University of Wisconsin-Madison.

Parker, Linda S. (1985) ............................... Professor of American Indian Studies
B.A., Oral Roberts University; M.A., Ph.D., University of Oklahoma.

Parr, Mary Beth (1998) .............................. Lecturer in Nursing
B.S., Keuka College; M.S., University of Virginia.

Patrick, Kevin M. (1983) ............................ Director, Student Health Services;
Co-Director, UCSD-SDSU Preventive Medicine Residency Program
B.A., Baylor University; M.S., University of Utah; M.D., Baylor College of Medicine.

Patterson, Patricia (1985) ............................ Professor of Exercise and Nutritional Sciences
B.S., M.S., Ph.D., University of Wisconsin.

Pearl, Natalie (1996) ................................. Associate Professor of Public Administration and Urban Studies
B.A., University of California, Irvine; M.S.W., San Diego State University; Ph.D., Brandeis University.

Peddecord, K. Michael (1981) .......................... Professor of Public Health
B.S., M.S., Arizona State University; Dr.P.H., University of Texas Health Science Center at Houston.

Pendleton, Wade C. (1969) .......................... Professor of Anthropology
A.B., Ph.D., University of California, Berkeley.

Penrose, John M. (1988) ............................. Professor of Information and Decision Systems
B.S., M.S., Ohio University; Ph.D., University of Texas at Austin.

Perkins, Michael J. (1986) .......................... Librarian
B.B.A., St. Norbert College; M.L.S., University of Wisconsin.

Perrault, Jacques (1984) ............................. Professor of Biology
B.S., McGill University; Ph.D., University of California, San Diego.

Pershing, Jana L. (1997) ............................. Assistant Professor of Sociology
B.A., Indiana University; M.A., Ph.D., University of Washington.

PETERMAN, Lewis E., Jr. (1976) .......................... Professor of Music
B.A., San Diego State University; M.M., Northwestern University; Ph.D., University of Cincinnati.

Peterson, Gary L. (1963) .............................. Professor of Geological Sciences
A.B., University of Colorado; M.S., Ph.D., University of Washington.

Phan, Tan T. (2000) ................................. Assistant Professor of Teacher Education
B.A., St. Mary’s University; M.A., Dalhousie University, Nova Scotia; Ph.D., University of British Columbia.

Philipp, Randolph A. (1990) .......................... Professor of Teacher Education
B.A., M.S., California State University, Northridge; Ph.D., University of Wisconsin, Madison.

Pfeifer, Charles F. (1971) ............................ Professor of Biology
A.B., Stanford University; M.A., San Diego State University; Ph.D., University of California, San Diego.

Pierce, Stephen J. (1984) ............................ Professor of Mathematical and Computer Sciences
B.S., Stanford University; Ph.D., University of California, Santa Barbara.

Pierson, Paula (1995) ................................. Lecturer in Theatre
B.F.A., United States International University; M.F.A., San Diego State University.

Pierucci, Mauro (1979) .............................. Professor of Aerospace Engineering and
Engineering Mechanics
B.S., M.S., Ph.D., Polytechnic Institute of New York.

Piland, William E. (1987) ............................ Professor of Administration, Rehabilitation
and Postsecondary Education
B.S., M.S., Ed.D., Northern Illinois University.

Pliotkin, Allen (1985) ............................... Professor of Aerospace Engineering and
Engineering Mechanics
B.S., M.S., Columbia University; Ph.D., Stanford University.

Poh, Cathy A. (1996) ............................... Associate Professor of Teacher Education
B.A., M.A., California State University; Fresno; Ph.D., University of Nebraska.

Pohl, Molly M. (1999) ............................... Assistant Professor of Geography
B.S., University of California, Davis; M.A., Ph.D., Arizona State University.

Pointer, Dennis D. (1991) .......................... The John J. Honton Chair in Health Services
Research and Policy; Professor of Public Health
B.S., Iowa State University of Science and Technology; Ph.D., University of Iowa.

Polkinnhorn, Harry (1984) .......................... Professor of English; Director, SDSU Press
B.A., University of California, Berkeley; M.A. (English), M.A. (Art), San Diego State University;
M.A. (Counseling Psychology), Pacifica Graduate Institute; Ph.D., New York University.

Ponce, Victor M. (1980) .............................. Professor of Civil and Environmental Engineering
B.S., National University of Engineering, Peru; M.S., Ph.D., Colorado State University.

Poole, Deborah (1989) .............................. Associate Professor of Rhetoric and Writing Studies
B.A., Emory University; M.A., Ph.D., University of Southern California.

Popp, Dean O. (1969) ............................... Associate Vice President for Faculty Affairs;
Professor of Economics
A.B., Willamette University; M.S., Ph.D., Purdue University.

Potter, Gregory S. (1998) .......................... Assistant Professor of Military Science
B.S., California State University, Stanislaus.

POZES, Robert S. (1994) ............................. Professor of Biology
B.S., St. Mary’s College; M.S.; Ph.D., Southern Illinois University.

Price, Joseph M. (1989) .............................. Associate Professor of Psychology
B.A., Rockmont College; M.A., University of Colorado; Ph.D., Purdue University.

Price, Judy M. (1972) ............................... Associate Professor of Psychology
B.A., Stanford University; M.A., Ph.D., Columbia University.
Prijina, Radmila (1996)  Professor of Psychology
B.A., M.Sc., Ph.D., University of Zagreb.

Pryde, Philip R. (1969)  Professor of Geography
A.B., Amherst College; M.A., Ph.D., University of Washington.

Puerto, Cecilia (1994)  Associate Librarian
B.A., Sangamon State University; M.A., University of California, Santa Barbara; M.S., University of Illinois at Urbana-Champaign.

Pugh, Darrel L. (1981)  Professor of Public Administration and Urban Studies
B.S., M.P.A., San Diego State University; B.A., M.A., Ph.D., University of Southern California.

Pullman, David P. (1994)  Associate Professor of Chemistry
A.B., Princeton University; M.A., Ph.D., Harvard University.

Pumpian, Ian R. (1978)  Professor of Administration, Rehabilitation and Postsecondary Education
B.S., M.S., Ph.D., University of Wisconsin.

Purandare, Sanjay V. (1996)  Assistant Professor of Military Science
B.S., United States Military Academy.

Quandahl, Ellen (1994)  Associate Professor of Rhetoric and Writing Studies
B.A., Luther College; Ph.D., University of Iowa.

Quastler, Imre E. (1967)  Professor of Geography
A.B., Wayne State University; M.A., Northwestern University; Ph.D., University of Kansas.

Quinn, Rebecca A. (1971)  Assistant Professor of Exercise and Nutritional Sciences
B.S.E., M.S., Central Missouri State College; Ph.D., University of Iowa.

Quinta, P.J.E. (Jenny) (1995)  Assistant Professor of Public Health
B.S., University of California, Davis; M.P.H., San Diego State University; Ph.D., University of California, Berkeley.

Rafat, Feraldoon (1986)  Professor of Information and Decision Systems
B.S., B.S., M.S., M.I.E., Ph.D., Oklahoma State University.

Rahiotis, Miguel (1984)  Counselor, Imperial Valley Campus
A.B., M.S., San Diego State University.

Rapps, Jane A. (1983, except F 92-S 93)  Assistant Professor of Nursing
B.S.N., California State University, Fresno; M.S.Ed., University of Southern California; M.S.N., University of Maryland; D.N.Sc., University of San Diego.

Rasmussen, Lucinda A. (1995)  Assistant Professor of Social Work
B.S., Brigham Young University; M.S.W., Ph.D., University of Utah.

Rayle, David L. (1970)  Professor of Biology
A.B., Ph.D., University of California, Santa Barbara.

Rea, Louis M. (1975)  Professor of Public Administration and Urban Studies
A.B., Colgate University; M.R.P., Ph.D., Syracuse University.

Reed, Richard C. (1984)  Associate Professor of Nursing
B.A., Kent State University; B.S.N., M.S., St. Mary College; M.Ed., Columbia University; Ed.D., University of Tulsa.

Reed, Selma E. (2000)  Assistant Dean for Student Affairs, College of Health and Human Services
B.A., University of Colorado; M.B.A., San Diego State University; M.A., Ph.D., California School of Professional Psychology.

Reed, Stephen K. (1983)  Professor of Psychology
B.A., University of Wisconsin; Ph.D., University of California, Los Angeles.

Reeder, Ted W. (1996)  Assistant Professor of Biology
B.S., Phillips University; M.S., University of Missouri; Ph.D., University of Texas at Austin.

Rehuss, Donald E. (1962)  Professor of Physics
B.A., Reed College; M.A., Ph.D., University of Oregon.

Reid, William N. (1983)  Associate Professor of Theatre
B.S., West Texas State University; M.A., University of Arizona; M.F.A., California State University; Long Beach.

Reilly, Jody S. (1986)  Professor of Psychology
A.B., M.A., Ph.D., University of California, Los Angeles.

Reinholz, Randy (1997)  Assistant Professor of Theatre

Reinig, Bruce A. (2000)  Assistant Professor of Information and Decision Systems
B.S., Truman State University; Ph.D., University of Arizona.

Reneger, Valerie R. (2000)  Assistant Professor of Communication
B.A., University of Notre Dame; M.A., Kansas State University.

Reese, Thomas A. (1998)  Assistant Professor of Aerospace Studies
B.A., Boise State University; M.A., Embry-Riddle Aeronautical University.

Rey, Sergio J., Jr. (1992)  Associate Professor of Geography
B.S., Stockton State College; M.A., Ph.D., University of California, Santa Barbara.

Reyes, Rogelio (1986)  Professor of Linguistics, Imperial Valley Campus
B.A., Mexico City College; Ph.D., Harvard University.

Rhyme, Lawrence C. (1987)  Associate Professor of Management
B.S., M.B.A., University of Missouri; Ph.D., Northwestern University.

Riegl, Barbara Jean (1984, except F 87-S 95)  Professor of Nursing
B.S.N., San Diego State University; M.S.N., D.N.Sc., University of California, Los Angeles.

Rigby, Ida K. (1976)  Professor of Art, Design and Art History
A.B., M.A., Stanford University; Ph.D., University of California, Berkeley.

Riggs, Eric M. (2000)  Assistant Professor of Geological Sciences
B.A., Pomona College; Ph.D., University of California, Riverside.

Riley, Edward P. (1988)  Professor of Psychology
B.A., Rutgers University; M.Sc., Ph.D., Tulane University.

Ritholtz, Shalom N. (1994)  Assistant Professor of Child and Family Development
B.A., M.A., Tel-Aviv University, Israel; Ph.D., Florida State University.

Ritchie, Don C. (1990)  Professor of Educational Technology
B.S., University of Akron; M.S., University of Wyoming; Ph.D., Utah State University.

Rivera-Garza, Cristina (1997)  Assistant Professor of History
B.A., National Autonomous University of Mexico; M.A., Ph.D., University of Houston.

Robacciotti, Carole A. (1980)  Assistant Dean for Student Affairs, College of Professional Studies and Fine Arts; Lecturer in Exercise and Nutritional Sciences
B.S., University of West Florida; M.S., Kansas State University.

Roberts, Thomas W. (1999)  Professor of Child and Family Development
B.A., Birmingham-Southern College; M.Div., Emory University; Ed.S., Georgia State University; Ph.D., University of Georgia.

Roberts-Fields, Gail C. (1976)  Professor of Art, Design and Art History
B.A., M.A., University of New Mexico.

Robertson, David C. (1986)  Associate Director, Student Resource Center
A.B., M.S., San Diego State University.

Robin, Donald A. (1999)  Professor of Communicative Disorders
B.A., Boston University; M.S., Ph.D., Case Western Reserve University.

Robbinet, E. Jane (1993)  Associate Professor of Rhetoric and Writing Studies
B.A., Goshen College; M.A., Ph.D., University of Notre Dame.

Robinson, Gail L. (1989)  Professor of Spanish and Linguistics
B.A., Stanford University; M.A., University of Hawaii; Ph.D., Stanford University.

Robinson-Zahartu, Carol A. (1980)  Professor of Counselling and School Psychology
B.A., West Virginia Wesleyan College; M.Ed., Boston University; Ph.D., University of Pittsburgh.

Rockwell, Thomas K. (1983)  Professor of Geological Sciences
B.S., University of Nevada; Ph.D., University of California, Santa Barbara.

Rodriguez, James L. (1980)  Assistant Professor of Teacher Education
B.A., Pomona College; Ph.D., Stanford University.

Rodriguez, Josè D. (1977)  Associate Professor of Chicana and Chicano Studies
B.S., San Diego State University; M.P.A., Arizona State University; Ph.D., University of Nebraska.

Roedern, Stephen B. W. (1968)  Professor of Physics and Chemistry
A.B., Dartmouth College; Ph.D., University of Wisconsin.

Rogers, Gloria H. (1985)  Associate Librarian
B.A., National Taiwan University; M.L.S., University of California, Berkeley; M.A., San Diego State University.

Rogers, William H. (1968)  Professor of English and Comparative Literature
A.B., Stanford University; M.A., Ph.D., University of California, Berkeley.

Rohrl, Vivian J. (1966)  Professor of Anthropology
A.B., M.A., University of Chicago; Ph.D., University of Minnesota.

Root, William A. (1998)  Staff Scientist in Mathematical and Computer Sciences
B.A., M.S., San Diego State University.

Rosenstein, Leon (1969)  Professor of Philosophy
A.B., Ph.D., Columbia University.

Ross, Donna L. (1998)  Assistant Professor of Teacher Education
B.A., Lewis and Clark College; M.S., San Diego State University; Ph.D., University of Washington.

Ross, Kathleen H. (1968) ........................................ Director, Scholarship Office, Student Affairs A.B., M.S., San Diego State University.

Ross, Pamela J. (1977) ..................................................... Professor of Teacher Education B.A., Lake Erie College; M.A., M.S., Ph.D., University of Pennsylvania.

Rossett, Allison (1977) ..................................................... Professor of Educational Technology A.B., M.A., McGill University; Ph.D., University of California, Santa Barbara.

Rother, James (1969) ..................................................... Professor of English and Comparative Literature A.B., M.A., University of Pittsburgh; Ph.D., University of California, Santa Barbara.

Ryan, Richard W. (1982) ............................................. Professor of Public Administration and Urban Studies, Imperial Valley Campus B.A., The Citadel, Charleston, South Carolina; M.P.A., California State University, Hayward; Ph.D., University of Southern California.

Saarmann, Lembi (1986) ............................................. Associate Professor of Nursing B.S.N., M.S.N., Adelphi University; Ed.D., Teachers College, Columbia University.

Sabath, Michael J. (1993) ............................................. Associate Professor of Public Administration and Urban Studies, Imperial Valley Campus B.S., University of California, Berkeley; M.P.A., California State University, Chico; Ph.D., University of Pittsburgh.

Sabbadini, Roger A. (1977) ............................................. Professor of Biology A.B., Ph.D., University of California, Davis.

Saccuzzo, Dennis P. (1975) ............................................. Professor of Psychology A.B., Sonoma State University; M.A., Ph.D., Kent State University; J.D., California Western School of Law.

Sachdeva, Kanwal S. (1976) ............................................. Associate Professor of Finance B.Com., Delhi University; M.B.A., D.B.A., Indiana University.

Saghafi, Massoud M. (1987) ............................................. Professor of Marketing B.A., National University of Iran; M.A., Ph.D., University of Southern California.

Salomon, Peter (1980) ............................................. Professor of Mathematical and Computer Sciences A.B., Lindenwood College; M.S., Drexel University; Ph.D., University of Chicago.

Salehzadeh, Mehdi (1980) ............................................. Professor of Finance B.S., M.B.A., Ph.D., University of Wisconsin.

Salley, Brian D. (1999) ............................................. Assistant Professor of Aerospace Studies B.S., University of South Carolina.

Salis, James F., Jr. (1983) ............................................. Professor of Psychology B.S., Belhaven College; M.S., Ph.D., Memphis State University.

Samimi, Behzad S. (1994) ............................................. Professor of Public Health B.S., M.S.P.H., Tehran University; M.S.P.H., Ph.D., Tulane University. Certified Industrial Hygienist.

Sanchez, Maria C. (1999) ............................................. Assistant Professor of English B.A., Harvard University; M.A., University of Michigan; Ph.D., University of California, Irvine.

Sandback, Patricia R. (1974) ............................................. Professor of Dance B.S., University of Minnesota; M.A., San Diego State University; M.F.A., University of California, Irvine.

Sandquist, Eric L. (1999) ............................................. Assistant Professor of Astronomy B.A., University of Virginia; M.S., Ph.D., University of California, Santa Cruz.

Santa Cruz, Rafaella M. (1980) ........................................ Associate Professor of Teacher Education B.S., M.S., University of Southern California; Ph.D., University of Arizona.

Sawas, Minas (1968) ............................................. Professor of English and Comparative Literature A.B., M.A., University of Illinois; Ph.D., University of California, Santa Barbara.

Sax, Caren L. (1991) ............................................. Assistant Professor of Administration, Rehabilitation and Postsecondary Education B.S., Northern Illinois University; M.S., University of Arizona; Ed.D., University of San Diego.

Scheck, Dennis C. (1965) ............................................. Professor of Sociology A.B., MacMurray College; M.S., Ph.D., Purdue University.

Scheidel, Mary (1977) ............................................. Test Officer B.S., Pennsylvania State University; M.S., San Diego State University.

Schneider, P. Ryan (1999) ............................................. Assistant Professor of English A.B., Harvard University; M.A., Ph.D., Duke University.

Schorr, James L. (1983) ............................................. Professor of French B.A., M.A., Ph.D., University of Texas at Austin.

Sciglioppa, Donald (1977) ............................................. Professor of Marketing B.S.I.E., University of Florida; M.S., University of West Florida; D.B.A., University of Colorado, Boulder.

Scollay, Patricia A. (1972) ............................................. Associate Professor of Psychology A.B., University of California, Berkeley; M.A., Ph.D., University of California, Davis.

Scott, Carolie A. (1969) ............................................. Dean, Undergraduate Studies; Associate Professor of English A.B., M.A., McGill University; Ph.D., University of California, Santa Barbara.

Scott, Thomas R. (2000) ............................................. Dean, College of Sciences; Professor of Psychology B.A., Princeton University; Ph.D., Duke University.

Segall, Anca Mara (1994) ............................................. Associate Professor of Biology B.S., University of Maryland; Ph.D., University of Utah.

Seidman, Robert L. (1981) ............................................. Associate Professor of Public Health A.B., San Diego State University; M.A., Ph.D., Johns Hopkins University.

Sene, Karen L. (1977) ............................................. Professor of Public Health A.B., Marygrove College; Ed.D., Temple University; M.P.H., University of Minnesota.

Senour, Maria Nieto (1977) ............................................. Professor of Counseling and School Psychology A.B., Mangrove College; M.Ed., University of Toledo; Ph.D., Wayne State University.

Shaffer, Richard A. (2000) ............................................. Associate Professor of Public Health B.A., Jacksonville University; M.P.H., Ph.D., University of South Carolina.

Shaffer, Allen W. (1989) ............................................. Professor of Astronomy B.A., University of California, Irvine; M.A., Ph.D., University of California, Los Angeles.

Shapiro, Lewis P. (1995) ............................................. Professor of Communicative Disorders B.A., University of Florida; M.A., Memphis State University; Ph.D., Brandeis University.

Shapovalov, Veronica (1988) ............................................. Associate Professor of Russian Diploma, Leningrad State University; M.A., Sangamon State University; Ph.D., University of Illinois at Urbana-Champaign.

Sharabi, M. Nazmi (1981) ............................................. Associate Professor of Civil and Environmental Engineering B.S., University of Damascus; M.S., University of Minnesota; Ph.D., University of Texas.

Sharpe, David M. (1977) ............................................. Director, Instructional Technology Services A.B., M.A., San Diego State University; Ed.D., Indiana University.

Shaw, Larry J. (1968) ............................................. Professor of Teacher Education A.B., Sierra Falls College; M.Ed., Ed.D., University of Nebraska.

Sheres, Ilga G. (1971) ............................................. Professor of English and Comparative Literature A.B., Hebrew University; M.A., Ph.D., University of Wisconsin.

Sherr, Steven D. (1969) ............................................. Counselor A.B., City College of New York; M.A., Temple University; Ph.D., University of Missouri.

Shillington, Audrey M. (1997) ............................................. Assistant Professor of Social Work B.A., Drury College; M.S.W., M.P.E., Ph.D., Washington University.

Shin, Bongsik (1999) ............................................. Assistant Professor of Information and Decision Systems B.A., Sogang University; M.S., Bernard M. Baruch College, The City University of New York; Ph.D., University of Arizona.

Shirk, Helen Z. (1976) ............................................. Professor of Art, Design and Art History B.S., Skidmore College; M.F.A., Indiana University.

Shively, Martha J. (1978) ............................................. Professor of Nursing B.S.N., University of Maryland; M.A., University of Washington; Ph.D., University of Texas at Austin.

Shively, Martha J. (1978) ............................................. Professor of Nursing B.S.N., University of Maryland; M.A., University of Washington; Ph.D., University of Texas at Austin.
Shojai, Donald A. (1971) ............................... Professor of English and Comparative Literature
A.B., Harvard University; M.A., Ph.D., University of Michigan.

Shore, Herbert B. (1975) .............................. Professor of Physics
B.S., Massachusetts Institute of Technology; Ph.D., University of California, Berkeley.

Short, James L. (1973) ................................. Professor of Finance
B.S., M.S., Ph.D., University of California, Los Angeles.

Shu, Wesley Szu-Way (2000) ......................... Assistant Professor of Information and Decision Systems
B.A., National Taiwan University; M.S.; Indiana University; Ph.D., University of Arizona.

Shumaker, Jeannette (1992) ......................... Associate Professor of English, Imperial Valley Campus
B.A., University of Redlands; M.A., Ph.D., Claremont Graduate University.

Silverman, Malcolm N. (1975) ...................... Associate Professor of Spanish and Portuguese
A.B., The City University of New York; M.A., Ph.D., University of Illinois.

Siman, Alan E. (1974) ................................. Associate Professor of Social Work
A.B., Franklin and Marshall College; M.S.S., Ph.D., Bryn Mawr College.

Simas, Rick A. (1992) ................................. Lecturer in Theatre
B.A., San Francisco State University; M.A., University of California, Los Angeles; Ph.D., University of California, Berkeley.

Simmons, Roger (1976) .............................. Professor of Exercise and Nutritional Sciences
M.S., University of Wyoming; Ph.D., University of Iowa.

Simpson, Michael D. (1999) ......................... Professor of Naval Science
B.S., United States Naval Academy; M.A., Naval Postgraduate School.

Simpson, Michael G. (1986) ......................... Professor of Biology
B.S., University of Florida; M.S., University of North Carolina; Ph.D., Duke University.

Singer, Ethan A. (1979) ............................... Associate Vice President for Academic Affairs; Professor of Business Administration
A.B., University of Connecticut; M.P.A., Ph.D., University of Southern California.

Singh, Gangaram (1999) ............................. Assistant Professor of Management
B.Com., University of Windsor, Canada; M.B.A., M.I.R., Ph.D., University of Toronto.

Singh, Rahul (1998) ................................. Assistant Professor of Electrical and Computer Engineering
B.S., E.E., Purdue University; M.S.E.E., University of Illinois at Urbana-Champaign; Ph.D., University of California, San Diego.

Siprut, Mark J. (1989) ............................... Assistant Professor of Art, Design and Art History
B.A., M.A., Humboldt State University; M.F.A., University of California, Santa Barbara.

Skwara, Eric W. (1986) .............................. Professor of Humanities and German
B.A., University of Linz; M.A., University of Salzburg; Ph.D., State University of New York at Albany.

Slymen, Donald J. (1998) ............................ Professor of Public Health
B.A., University of California, Berkeley; M.S., University of California, Los Angeles; Ph.D., University of Iowa.

Smith, Diane K. (1990) .............................. Associate Professor of Chemistry
B.S., Lewis and Clark College; Ph.D., Massachusetts Institute of Technology.

Smith, Jane K. (1968, except 1970) ............... Assistant Vice President for Academic Services
B.S., West Virginia University; M.A., Northwestern University; Ph.D., University of Southern California.

Smith, Joseph A. (1997) ............................. Assistant Professor of Classics
B.A., University of Rochester; M.A., University of California, Berkeley; Ph.D., University of Southern California.

Smith, Linda D. (1996) .............................. Counselor Coordinator for Internship Program
B.S., University of California, Irvine; Ph.D., University of Southern California.

Snyder, William S., Jr. (1984, except S'85) ......... Lecturer in Accountancy
B.S., M.S., University of Southern California.

Song, Moon H. (1988) ............................... Professor of Finance
B.B.A., Seoul National University; M.A., Ph.D., Ohio State University.

Soule, John W. (1970) .............................. Professor of Political Science
A.B., M.A., Michigan State University; Ph.D., University of Kentucky.

Sowder, Larry K. (1986) ........................... Professor of Mathematical and Computer Sciences
B.S., M.A.T., Indiana University; Ph.D., University of Wisconsin.

Sparrow, Glen W. (1980) .............................. Professor of Public Administration and Urban Studies
B.A., M.A., San Jose State University; Ph.D., Claremont Graduate University.

Spavak, Joseph E. (1969) .......................... Assistant Professor of Communication
B.S., Kent State University; M.S., Boston University; Ph.D., University of Iowa.

Spindler, Audrey A. (1977) ......................... Professor of Exercise and Nutritional Sciences
B.S., George Washington University; M.S.; Ph.D., Colorado State University.

Spinetta, John J. (1972) ............................ Professor of Psychology
A.B., M.A., Gonzaga University; Ph.D., University of Southern California.

Spitzerberg, Brian H. (1989) ........................ Professor of Communication
B.A., University of Texas at Arlington; M.A., Ph.D., University of Southern California.

Stampfl, Barry G. (1982) ......................... Associate Professor of English, Imperial Valley Campus
B.A., Yale University; M.A., University of New Mexico; Ph.D., University of California, Santa Barbara.

Stampfl, Ronald W. (1988) ......................... Professor of Marketing
B.B.A., M.B.A., University of Wisconsin; Milwaukee; Ph.D. University of Wisconsin, Madison.

Stanford, E. Percy (1973) ......................... Professor of Social Work
A.B., Morgan State College; M.S., Ph.D., Iowa State University.

Stautner, Thomas David (1964) .................. Professor of Music
B.A., University of California, Riverside; M.M., Music Academy of Zagreb, Zagreb, Yugoslavia; M.A., University of California, Davis.

Stefley, Duane L. (1988) ............................ Associate Professor of Mathematical and Computer Sciences
B.S., M.S., Ph.D., Carnegie-Mellon University.

Sterk, William E. (1978) ............................ Professor of Finance
B.S.E., University of Michigan; M.B.A., Ph.D., University of Wisconsin.

Stewart, Douglas B. (1971) ........................... Professor of Economics
B.S., University of Portland; M.S., Ph.D., University of Oregon.

Stewart, Kris W. (1984) .............................. Professor of Mathematical and Computer Sciences
B.A., University of California, San Diego; M.S., San Diego State University; Ph.D., University of New Mexico.

Stock, Robert L. (1975) .............................. Associate Professor of Public Administration and Urban Studies
A.B., M.P.A., Ph.D., University of Pittsburgh.

Stover, Mark (1999) .................................. Senior Assistant Librarian
B.A., Biola University; M.A., Westminster Theological Seminary; M.L.S., University of California, Los Angeles; Ph.D., Nova Southeastern University.

Stow, Douglas A. (1983) ............................ Professor of Geography
B.A., M.A., Ph.D., University of California, Santa Barbara.

Strand, Paul J. (1977) ............................... Dean, College of Arts and Letters; Professor of Political Science
B.A., Macalester College; M.A., University of Illinois, Chicago; Ph.D., Ohio State University.

Strejilevich, Nora (2000) ......................... Assistant Professor of Spanish
M.A., University of Buenos Aires; Ph.D., University of British Columbia.

Strom, David W. (1968) ............................. Professor of Teacher Education
A.B., M.A., Ed.D., Wayne State University.

Stumpf, William E. (1983) ......................... Professor of Chemistry
B.S., Purdue University; Ph.D., California Institute of Technology.

Stutz, Frederick P. (1970) ........................... Professor of Geography
A.B., Valparaiso University; M.S., Northwestern University; Ph.D., Michigan State University.

Sucato, Vincent (1974) .............................. Assistant Professor of Social Work
A.B., State University of New York; M.S.W., Fordham University; Ph.D., Rutgers State University.

Suess, Anthony A. (1967) .......................... Professor of Exercise and Nutritional Sciences
A.B., San Diego State University; Ed.D., University of California, San Diego.

Sullivan, Patrick (2000) ............................ Senior Assistant Librarian
B.A., California Polytechnic State University; M.L.I.S., San Jose State University.

Sun, Litang (2000) ................................ Senior Assistant Professor of Chemistry
B.S., East China Metallurgical Engineering Institute, Peoples Republic of China; Ph.D., University of Minnesota, Minneapolis.

Supernak, Janusz C. (1984) ....................... Professor of Civil and Environmental Engineering
B.A., University of Kansas; M.A., Ph.D., State University of New York.

Sweeder, Alan R. (1980) ........................... Assistant Vice President, International Programs; Professor of Physics
B.S.C., The City University of New York; Ph.D., University of California, San Diego.

Sweeder-Brown, Carol D. (1979) ................. Associate Dean, College of Arts and Letters; Professor of Rhetoric and Writing Studies
B.A., University of Massachusetts at Amherst; Ph.D., University of California, San Diego.

Sweeney, Nancy M. (1999) .......................... Lecturer in Nursing
B.S.N., Cornell University; M.A., New York University; D.N.Sc., Widener University.

Swiniarski, Roman W. (1988) ..................... Professor of Mathematical and Computer Sciences
M.S.; Ph.D., Warsaw Technical University.

</table>
Weston, Thomas S. (1974) Assistant Professor of Astronomy
Werry, Christopher (2000) Assistant Professor of Rhetoric and Writing Studies
B.S., University of Waterloo; M.A., University of California, Los Angeles.

Westerno, Bruce D. (1980) Professor of Civil and Environmental Engineering
B.S., Illinois Institute of Technology; M.S., Ph.D., California Institute of Technology.

Weston, Thomas S. (1974) Professor of Philosophy
B.S., Ph.D., Massachusetts Institute of Technology.

Wheeler, Mark R. (1985) Associate Professor of Philosophy
B.A., Colgate University; M.A., Ph.D., University of Rochester.

Whisenant, John D. (1995) Assistant Professor of Aerospace Studies
B.S., United States Air Force Academy; M.B.A., University of Phoenix.

White, Phillip M. (1985) Librarian
B.A., University of Houston; M.L.S., University of Texas.

Whitney, Roger E. (1985) Associate Professor of Mathematical and Computer Sciences
B.S., North Dakota State University; Ph.D., University of California, San Diego.

Whittenburg, Gerald E. (1976) Professor of Accountancy
B.S., M.S., Ph.D., University of Houston. Certified Public Accountant.

Wiese, Andrew (1996) Associate Professor of History
B.A., University of Iowa; M.A., Ph.D., Columbia University.

Wixten, Denise A. (1994) Associate Professor of Exercise and Nutritional Sciences
B.S., Central Michigan University; M.E., Ph.D., University of Virginia.

Wilbur, Robert W. (1974) Associate Dean for Academic Affairs, College of Business Administration; Associate Professor of Finance
A.B., University of California, Riverside; M.S., San Diego State University; Ph.D., University of Washington.

Willey, Denise E. (1996) Associate Professor of Psychology
B.S., Central Missouri State University; M.A., Ph.D., University of Missouri.

Williams, Candace M. (1989) Lecturer in Business Administration
E.M.B.A., Claremont Graduate School.

Williams, Diane R. (1975) Associate Professor of Communicative Disorders
A.B., University of Kentucky; M.A., Northwestern University.

Williams, Kathy S. (1987) Associate Professor of Biology
B.A., University of Texas at Austin; Ph.D., Stanford University.

Williams, Richard K., Jr. (1995) Lecturer in Management
B.S., Pennsylvania State University; M.B.A., Ph.D., Claremont Graduate School.

Williams, Stephen J. (1960) Professor of Public Health
B.S., Carnegie-Mellon University; M.S., Massachusetts Institute of Technology; S.M., Sc.D., Harvard University.

Williams, Susan L. (1990) Professor of Biology
B.S., University of Michigan; M.S., University of Alaska; Ph.D., University of Maryland.

Williams, Terry A. (1986) Lecturer in Rhetoric and Writing Studies
B.A., College of Wooster; M.A., San Diego State University.

Williamson, James E. (1968) Professor of Accountancy
A.B., Northland College; M.S., Ph.D., University of Minnesota. Certified Public Accountant.

Willis, Winnie O. (1984) Professor of Public Health
B.A., Jersey City State College; M.S., Harvard University; Sc.D., Johns Hopkins University.

Wilson, Carlos G. (1992) Professor of Spanish
B.A., Loyola Marymount University; M.A., Ph.D., University of California, Los Angeles.

Wilson, Carole (1981) Associate Librarian
B.A., Ohio Wesleyan University; M.R.E., Union Theological Seminary, New York City; M.L.S., University of California, Los Angeles.

Wilson, Patricia A. (1990) Associate Professor of Public Administration and Urban Studies
B.A., M.A., University of Michigan; D.P.A., George Mason University.

Wolf, R. Craig (1987) Professor of Theatre
B.A., Knox College; M.F.A., Stanford University.

Wood, James L. (1975) Professor of Sociology
A.B., M.A., Ph.D., University of California, Berkeley.

Wood, Janet H. (2001) Assistant Professor of Astronomy
B.Sc., University of Leicester; Ph.D., University of Cambridge.

Woodrow, William G. (1975) Associate Director for Facilities, Housing and Residential Life
B.S., University of California, Davis; M.Ed., University of Missouri-Columbia.

Wozniak, Dolores A. (1976) Dean, College of Health and Human Services; Professor of Nursing

Wright, Penny L. (1972) Professor of Management
A.B., M.B.A., San Diego State University; Ph.D., University of California, Irvine.

Wright, Richard D. (1964) Professor of Geography
A.B., A.M., Indiana University; Ph.D., University of Kansas.

Wu, Ruey-Juan Regina (1999) Assistant Professor of Chinese
B.A., National Taiwan Normal University; M.A., National Taiwan University.

Wulkeck, Beverly B. (1994) Associate Professor of Communicative Disorders
B.A., University of California, Santa Barbara; Ph.D., University of California, San Diego.

Wulffemeyer, K. Tim (1976, except F80-87) Professor of Communication
A.B., San Diego State University; M.S., Iowa State University; Ed.D., University of California, Los Angeles.

Yagie, James (1992) Assistant Professor of Exercise and Nutritional Sciences
B.S., M.S., Ph.D., University of Toledo.

Yang, Yoong-Ling (1988) Associate Professor of Information and Decision Systems
B.A., Cheng-Kung University, Taiwan; M.S., Ph.D., University of Florida.

Yapelli, Tamie Marie (1985) Professor of Art, Design and Art History
B.A., Loyola Marymount University; M.A., California State University, Fullerton.

Yeager, Bill (1985) Professor of Music
B.M., M.M., North Texas State University.

Yerkes, Diane M. (1999) Associate Professor of Administration, Rehabilitation and Postsecondary Education
B.A., University of Kentucky; M.A., San Diego State University; Ed.D., United States International University.

Yerrick, Randy K. (1999) Associate Professor of Teacher Education
B.S., M.A., Ph.D., Michigan State University.

Young, Ronald R. (1971) Associate Professor of Spanish
B.A., Wisconsin State University; A.M., Ph.D., University of Illinois.

Young, Russell L. (1987) Professor of Policy Studies in Language and Cross-Cultural Education
B.A., University of California, San Diego; M.Ed., University of Hawaii; Ph.D., San Diego State University and Claremont Graduate University.

Yu, Elena S. H. (1990) Professor of Public Health
M.S., University of Notre Dame; M.P.H., Columbia University in the City of New York; Ph.D., University of Notre Dame.

Zeller, Robert W. (2001) Assistant Professor of Biology
B.A., Boston University; Ph.D., California Institute of Technology.

Zhang, Zheng-sheng (1990) Associate Professor of Chinese
B.A., Beijing Teacher’s College, Peoples Republic of China; M.A., Ph.D., Ohio State University.

Zhong, Mei (1999) Assistant Professor of Communication
B.A., University of Guar; M.A., Southern Illinois University; Ph.D., Kent State University.

Zimmerman, Bonnie (1978) Professor of Women’s Studies
A.B., Indiana University; Ph.D., State University of New York at Buffalo.

Zumiga, Maria E. (1985) Professor of Social Work
B.A., University of San Diego; M.S.W., University of California, Berkeley; Ph.D., Brandeis University.

Zykind, Judith W. (1982) Professor of Biology
B.S., University of Dayton; M.S., Ph.D., Iowa State University.
Emeritus Faculty

Day, Thomas B., Ph.D., President (1978-1996) ...................... Professor of Physics

Capp, Martin P., M.S. (1953-1975)  Dean, School of Engineering

Carmichael, Nancy M., Ph.D. (1968-1995)  Assistant Professor of Biology

Carnevale, James P., Ph.D. (1967-1992)  Professor of Counseling and School Psychology

Carpenter, Roger E., Ph.D. (1963-1993)  Professor of Biology

Carver, J. E., Lindsay, Ph.D. (1962-1992)  Professor of Physical Education

Case, Thomas E., Ph.D. (1961-1998)  Professor of Spanish

Castro (Castillo), Susan D., Ph.D. (1985-1994)  Professor of Spanish

Cave, Mary F., M.A. (1946-1977)  Associate Professor of Physical Education

Chan, S. Yun, Ph.D. (1961-1979)  Professor of Electrical Engineering

Charles, Carol M., Ph.D. (1961-1988)  Professor of Teacher Education

Chatner, Elizabeth E. (1964-1977)  Professor of English

Chen, Milton M., Ph.D. (1977-2000)  Professor of Information and Decision Systems

Christensen, C. Ben, Ph.D. (1968-2000)  Professor of Biology

Clark, Mary E., Ph.D. (1969-1986)  Professor of Biology

Clement, Norris C., Ph.D. (1968-2000)  Professor of Economics

Coffey, Jr., Dewitt, Ph.D. (1968-1998)  Professor of Chemistry

Cohn, Theodore J., Ph.D. (1964-1992)  Professor of Teacher Education

Collier, Boyd D., Ph.D. (1966-1998)  Professor of Physics

Collier, Gerald, Ph.D. (1961-1995)  Professor of Biology

Conway, John B., Ph.D. (1981-1992)  Professor of Public Health

Cooke, Gwen C., Ph.D. (1978-1992)  Professor of Family Studies and Consumer Sciences

Cottrell, Ann B., Ph.D. (1967-1999)  Professor of Sociology

Cottrell, Don M., Ph.D. (1967-1998)  Professor of Physics

Covington, Donald P., M.A. (1965-1992)  Professor of Art

Cox, George W., Ph.D. (1962-1996)  Professor of Biology

Cox, Thomas J., Ph.D. (1975-2000)  Professor of French

Cox, Thomas R., Ph.D. (1967-1996)  Professor of History

Crain, Melvin, Ph.D. (1959-1983)  Professor of Political Science

Criley, Cornelius J., M.S. (1962-1990)  Senior Assistant Librarian

Cullen, F. Patricia, Ph.D. (1964-1995)  Professor of Physical Education

Cumlit, Roger L., Ph.D. (1967-2000)  Professor of History

Curry, Joan F., Ed.D. (1972-1997)  Professor of Teacher Education

Darley, Richard D., Ph.D. (1961-1980)  Professor of Marketing

Daub, Jr., Clarence T., Ph.D. (1967-1999)  Professor of Astronomy

Daughtery, Jr., Wayne F., Ph.D. (1966-2000)  Associate Professor of Biology

Davies, Darlene G., Ed.S. (1976-1994)  Assistant Professor of Communicative Disorders

Davis, Craig H., Ph.D. (1967-1991)  Assistant Professor of Biology

Deaton, Edmund I., Ph.D. (1960-1992)  Professor of Mathematical Sciences

DeLora, Jack R., Ph.D. (1955-1986)  Professor of Sociology

Demman, Mary Edel, M.A. (1966-1992)  Professor of Academic Skills

Dessler, Norman F., Ph.D. (1961-1992)  Professor of Natural Science

Deutsch, Francine, Ph.D. (1981-1999)  Professor of Child and Family Development

Dharmarajan, Sangiah Nadar, Ph.D. (1960-1997)  Professor of Aerospace Engineering and Engineering Mechanics

Dicken, Charles F., Ph.D. (1962-1995)  Professor of Psychology

Dickerson, Mary E., Ph.D. (1967-1990)  Assistant Professor of Family Studies and Consumer Sciences

Diehl, William P., Ph.D. (1968-1993)  Associate Professor of Biology

Dillon (Salerno), M. Constance, M.S. (1964-1992)  Professor of Nursing

Dirks, John H., M.F.A. (1947-1976)  Professor of Art

Doobis, Matti F., Ph.D. (1990-1999)  Associate Professor of Public Administration and Urban Studies

Doorlag, Donald H., Ph.D. (1970-1998)  Professor of Special Education

Dorris, Helen L., M.S. (1952-1982)  Professor of Family Studies and Consumer Sciences

Dowler, Michael J., Ph.D. (1971-2001)  Professor of Biology

Droheins, Saul I., Ph.D. (1963-1994)  Professor of Mathematical Sciences

Duckworth, Joseph B., Ed.D. (1968-1998)  Professor of Teacher Education

DuFaut, David V., Ph.D. (1962-1999)  Associate Professor of History

Dukas, Vytas, Ph.D. (1959-1988)  Professor of Russian

Dumiao, Gerald C., M.F.A. (1977-1998)  Professor of Art

Duncan, Mary R., Ph.D. (1973-2001)  Professor of Recreation, Parks and Tourism

Dunkle, Harvey I., Ph.D. (1963-1987)  Associate Professor of German

Earnest, Sue W., Ph.D. (1947-1973)  Professor of Speech Pathology and Audiology

Ebert, Thomas A., Ph.D. (1969-1999)  Professor of Biology

Eidemiller, Donald L., Ph.D. (1956-1983)  Professor of Geography

Eisenman, Kurt, Ph.D. (1982-1992)  Professor of Mathematical Sciences

El-Asall, Mohamed M., Ph.D. (1967-1992)  Professor of Sociology

Elgin, Suzanne, Ph.D. (1972-1981)  Associate Professor of Linguistics

Elliott, Rosalie C., Ph.D. (1968-1982)  Professor of Elementary Education

Erickson, Paul, Ed.D. (1963-1986)  Professor of Teacher Education

Erzen, Paul E., Ph.D. (1978-1987)  Associate Professor of Management, Imperial Valley Campus

Esser, Janet B., Ph.D. (1970-1999)  Professor of Art

Etheridge, Richard E., Ph.D. (1961-1992)  Professor of Biology

Feene, William R., Ph.D. (1974-1997)  Associate Professor of Information and Decision Systems

Fehler, Elsa, Ph.D. (1957-1991)  Professor of Physics

Feierabend, Ivo, K., Ph.D. (1959-1992)  Professor of Political Science

Ferrel, Dale B., M.B.A. (1957-1977)  Professor of Accounting

Fetzer, Leland A., Ph.D. (1966-1992)  Professor of Russian

Fields, Carolyn B., M.S. (1985-1997)  Associate Librarian

Fisher, Horace H., Ph.D. (1955-1977)  Professor of Finance

Flemon, Philip, Ph.D. (1968-1998)  Professor of History

Ford, David H., Ed.D. (1967-1994)  Associate Professor of Teacher Education

Ford, Richard P., Ph.D. (1964-1997)  Professor of Biology

Foster, Robert B., Ed.D. (1963-1985)  Professor of Music

Fountain, Leonard D., Ph.D. (1960-1990)  Professor of Mathematical Sciences

Fox, Kathleen, Ph.D. (1962-1986)  Professor of Physical Education

Franklin, Robert J., Ph.D. (1967-1988)  Associate Professor of History, Imperial Valley Campus

Frey, Leonard H., Ph.D. (1956-1989)  Professor of Linguistics

Frick, Fay A., Ph.D. (1970-1990)  Associate Professor of Art

Friedman, Abraham M., Ph.D. (1963-1983)  Associate Professor of Physical Education

Friedman, Maurice Stanley, Ph.D. (1973-1991)  Professor of Religious Studies, Philosophy, and Comparative Literature

Furtch, David G., Ph.D. (1967-1998)  Associate Professor of Biology

Galbraith, III, Oliver, Ph.D. (1955-1992)  Professor of Information and Decision Systems

Gaillo, Jr., Philip S., Ph.D. (1963-1996)  Professor of Psychology
Emeritus Faculty

Garrison, Betty B., Ph.D. (1962-1996) ......................Professor of Mathematical Sciences
Garrison, John D., Ph.D. (1956-1993) .........................Professor of Physics
Gast, David K., Ed.D. (1963-1991) .........................Professor of Teacher Education
Gastil, R. Gordon, Ph.D. (1959-1993) ..................Professor of Geological Sciences
Gates, Gerald F., Ed.D. (1955-1986) .........................Professor of Teacher Education
Geba, Bruno Hans, Ph.D. (1975-1992) ..................Professor of Recreation, Parks and Tourism
Gefter, Irving, Ph.D. (1970-1992) .........................Assistant Professor of Religious Studies
Gega, Peter C., Ed.D. (1953-1967) .....................Professor of Teacher Education
Ghilbert, Jeanne S., M.A. (1965-1982) ..................Assistant Professor of French
Ghorpade, Jaisingh V., Ph.D. (1965-2000) ..........Professor of Information Systems
Gillford, Adam, Ph.D. (1954-1989) .......................Professor of Economics
Gillette, Thomas L., Ph.D. (1961-1989) ..................Professor of Sociology
Gindler, Herbert A., Ph.D. (1968-1992) ...................Professor of Mathematical Sciences
Glanno, Janis M., Ph.D. (1962-1994) ......................Professor of French
Goldkind, Victor D., Ph.D. (1961-1992) ................Professor of Anthropology
Granard, Carolyn A., B.S.L.S. (1960-1987) ............Senior Assistant Librarian
Grant-Henry, Sharon, Ph.D. (1986-1998) ..............Associate Professor of Counseling and School Psychology
Grawunder, Ralph M., Ed.D. (1955-1991) ..............Professor of Physical Education
Gray, Robert T., Ed.D. (1956-1987) ......................Professor of Teacher Education
Greene, Joanne M., M.S.L.S., M.A. (1967-1986) ..Catalog Librarian
Greenwood, Ned H., Ph.D. (1964-1995) ..................Professor of Geography
Griffith, Herschel E., M.D. (1980-1987) .................Professor of Public Health
Griffith, Ronald W., Ph.D. (1967-2001) .................Professor of Social Work
Gripp, Richard C., Ph.D. (1958-1985) ..................Professor of Political Science
Gross, George C., Ph.D. (1961-1985) .....................Professor of English and Comparative Literature
Grossberg, John M., Ph.D. (1962-1995) .................Professor of Psychology
Grudda, Edward J., Ph.D. (1961-1987) .................Professor of Chemistry
Guidry, Rosalind, Ph.D. (1970-1989) .....................Associate Professor of Social Work
Gunning, Barbara E., Ph.D. (1969-1988) ..............Professor of Family Studies and Consumer Sciences
Gutowski, Jr., Julius P., A.B. (1967-1991) ..............Assistant Professor of Physical Education
Haas, Robert W., Ph.D. (1967-1997) .....................Professor of Marketing
Hager, Richard A., Ph.D. (1967-2000) ..................Professor of Mathematical and Computer Sciences
Hale, E. Alan, Ph.D. (1957-1987) ......................Professor of Marketing
Hammer, Gerald K., Ed.D. (1963-1992) .................Professor of Industrial Technology
Handchet, William F., Ph.D. (1956-1987) .............Professor of History
Hanson, Robert F., Rec.D. (1962-1983) .................Professor of Recreation
Harari, Herbert, Ph.D. (1986-1997) ....................Professor of Psychology
Harder, Donald F., Ed.D. (1960-1983) .................Counselor, Counseling Services
Harmon, James E., Ph.D. (1964-1981) ..................Associate Professor of Political Science, Imperial Valley Campus
Harris, Mary E., M.A.L.S. (1982-1992) .................Associate Librarian
Harrison, Patrick J., Ph.D. (1970-2000) ...............Professor of Educational Technology
Harvey, A. Raymond, Ph.D. (1949-1983) ............Professor of Mathematical Sciences
Harvey, Michael L., Ph.D. (1969-2001) .................Professor of Theatre
Hatch, Richard A., Ph.D. (1975-2000) .................Professor of Information and Decision Systems
Hawley, Peggy J., Ph.D. (1968-1988) .................Professor of Counselor Education
Hazen, William E., Ph.D. (1962-1988) .................Professor of Biology
Head, Gerald L., Ph.D. (1964-1999) .....................Professor of Spanish
Heighton, Elizabeth J., M.S. (1966-1992) .............Professor of Telecommunications and Film
Heinrichs, Waido, Ph.D. (1991-1996) .....................Professor of History
Hellberg, Lars H., Ph.D. (1956-1992) ..................Professor of Chemistry
Henderson, Joel H., Ph.D. (1971-2000) .................Professor of Public Administration and Urban Studies
Hewes, Dorothy W., Ph.D. (1974-1992) .................Professor of Family Studies and Consumer Sciences
Higgins, Winifred H., Ph.D. (1964-1983) ............Professor of Art
Hill, Howard, M.A. (1967-2000) .........................Associate Professor of Music
Hill, Jr., Richard B., Ph.D. (1969-1999) ..............Associate Professor of Sociology, Imperial Valley Campus
Hill, Wayne O., Ed.D. (1955-1983) ......................Professor of Elementary Education
Hines, Jeanette D., D.N.S. (1977-1991) ..............Associate Professor of Nursing
Hinzman, William R., Ph.D. (1969-2000) ............Associate Professor of Mathematical and Computer Sciences
Hipka, William H., Jr., D.S.W. (1957-1990) ..........Professor of Finance
Ho, Hung-Ta, Ph.D. (1966-1991) .........................Professor of Mathematical Sciences
Hobbs, John A., Ph.D. (1964-1998) .....................Associate Professor of Political Science
Hogg, Merle E., Ph.D. (1962-1992) .....................Professor of Music
Holmes, Calvin V., Ph.D. (1956-1992) ................Professor of Mathematics
Holowach, Frank S., M.A. (1960-1966) ...............Professor of Journalism
Hoofer, Grace V., B.S.L.S. (1956-1981) ..............Associate Librarian
Hopkins, Ronald H., Ph.D. (1991-1998) .............Professor of Psychology
Howard, Edgar J., Ph.D. (1966-1997) ................Professor of Mathematical and Computer Sciences
Howard, Gordon S., Ph.D. (1968-1983) .................Professor of Drama
Howard, Roy J., Ph.D. (1963-1988) .......................Professor of Philosophy
Hoyt, Jack W., Ph.D. (1981-1992) ......................Professor of Mechanical Engineering
Huffman, Edward W., Ph.D. (1955-1980) ..............Professor of Zoology
Hungate, Robert P., Ph.D. (1961-1987, except 1965-1969) ...Professor of Finance
Hunnich, William A., Ph.D. (1957-1985) ............Professor of Psychology
Hunsaker, Il, Don, Ph.D. (1960-1996) .................Professor of Biology
Hunter, Lawrence B., M.A. (1963-1989) ..........Professor of Art
Hussain, Nihad A., Ph.D. (1969-2000) ..............Professor of Mechanical Engineering
Hutchins, Robert C., D.B.A. (1968-1998) ............Professor of Finance
Hutchinson, George, Ph.D. (1973-1994) ..............Associate Professor of Recreation, Parks and Tourism
Ima, Kenji, Ph.D. (1972-2000) .........................Professor of Sociology
Ingham, Muriel B., Ph.D. (1967-1981) ..............Professor of English
Ingmanson, Dale E., Ed.D. (1968-1999) ..............Professor of Teacher Education
Inskip, Jr., James E., Ph.D. (1960-1990) ..........Professor of Teacher Education
Irgang, Frank J., Ph.D. (1956-1982) ....................Professor of Industrial Studies
Isenesee, Robert W., Ph.D. (1948-1982) ...............Professor of Chemistry
Jackson, Elizabeth R., Doctoral (1969-1986) ..........Professor of French
Jameson, K. Charles, Ph.D. (1965-1995) .............Professor of Communication
Janssen, Henry L., Ph.D. (1953-1988) .................Professor of Political Science
Jencks, Clinton E., Ph.D. (1964-1986) .................Professor of Economics
Jensen, Reilly C., Ph.D. (1958-1992) ..................Professor of Chemistry
Johns, Gerald E., M.S.L.S. (1967-1986) ...............Associate Librarian
McLoney, Wirt, Ed.D. (1949-1974)  Professor of Industrial Studies

McTaggart, Aubrey C., Ph.D. (1962-1992)  Professor of Health Science

Meador, Thomas C., M.A. (1966-2001)  Associate Professor of Communication

Meaffy, George L., Ph.D. (1986-1994)  Professor of Teacher Education

Meier, Robert A., Ph.D. (1972-1986)  Professor of Accountancy

Meigs, Robert F., Ph.D. (1972-1996)  Professor of Accountancy

Merzbacher, Claude F., Ed.D. (1947-1978)  Professor of Natural Science

Miles, E. Walter, Ph.D. (1966-1998)  Professor of Political Science

Miller, Ralph Llewellyn, Ph.D. (1963-1996)  Professor of Counseling and School Psychology

Miller, Richard H., Ph.D. (1977-2001)  Professor of Geological Sciences

Mills, David S., Ph.D. (1946-1976)  Professor of Sociology

Milne, Thair S., M.A. (1968-1979)  Associate Professor of Family Studies and Consumer Sciences

Mitchell, Danlee G., M.S. (1964-2000)  Professor of Music

Mitton, Daryl G., Ph.D. (1966-1991)  Professor of Management

Moaney, Eric R., M.F.A., M.S. (1968-1998)  Assistant Professor of Art

Moe, Cherney R., Ph.D. (1931-1972)  Professor of Physics

Moe, Jean T., M.A. (1966-1983)  Associate Professor of Music

Moffett, Myrna J., Ph.D. (1968-1998)  Assistant Professor of Nursing

Monteverte, John P., Ph.D. (1954-1986)  Professor of English and Comparative Literature

Moore, Harold B., Ph.D. (1960-1991)  Professor of Biology

Moran, Charles M., Ph.D. (1949-1985)  Professor of Mechanical Engineering

Mosley, Joseph M., Ph.D. (1956-1998)  Professor of Mathematical and Computer Sciences

Mouratides, Nicos N., Ph.D. (1960-1992)  Professor of Sociology

Munter, Robert L., Ph.D. (1964-1991)  Professor of History

Murdock, Doris G., B.S.L.S. (1960-1972)  Catalog Librarian

Murphy, Monica A., Ph.D. (1969-1992)  Professor of Teacher Education

Murphy, Robert J., Ph.D., Professional Degree in Mechanical Engineering (1964-1996)  Professor of Mechanical Engineering

Nagel, Thomas S., Ph.D. (1969-1995)  Professor of Teacher Education

Nam, Woo Hyun, Ph.D. (1968-1998)  Professor of Economics

Neal, James W., Ph.D. (1963-1993)  Associate Dean, College of Sciences; Professor of Biology

Nelson, Bert, Ph.D. (1967-1988)  Director of the Mt. Laguna Observatory; Professor of Astronomy

Nelson, Hilda B., Ph.D. (1965-1988)  Professor of French

Nelson, Sherwood M., Ph.D. (1956-1992)  Professor of Philosophy

Neumeyer, Peter F., Ph.D. (1978-1993)  Professor of English and Comparative Literature

Neuner, Jr., Edward J., Ph.D. (1957-1986)  Professor of Economics

Neydorff, Hans, Doctorandus (1962-1983)  Senior Assistant Librarian

Nichols, Alan C., Ph.D. (1964-2000)  Professor of Communicative Disorders

Nichols, Paul F., Ph.D. (1965-1992)  Professor of Physics

Noorany, Iraj, Ph.D., Professional Degree in Civil Engineering (1963-1997)  Professor of Civil and Environmental Engineering

Norland, Calvert E., M.S. (1947-1976)  Professor of Zoology

Norman, Nelson F., Ph.D. (1960-1983)  Professor of History

Norman, Ronald J., Ph.D. (1956-2000)  Professor of Information and Decision Systems

Nowe, Leon P., Ph.D. (1963-1990)  Associate Professor of Mathematical Sciences

Nye, William A., Ph.D. (1962-1996)  Professor of Finance

O’Brien, Albert C., Ph.D. (1965-2000)  Professor of History

O’Brien, Mary E., Ph.D. (1966-2000)  Associate Professor of Spanish

O’Day, Edward F., Ph.D. (1957-1986)  Professor of Psychology

Odenthal, Eric M., Ph.D. (1964-1992)  Professor of Journalism

Oglesby, Allan C., M.D. (1984-1990)  Professor of Public Health

Ohnysty, Basil, M.S., Professional Degree in Mechanical Engineering (1967-1997)  Professor of Mechanical Engineering

Olson, Jr., Andrew C., Ph.D. (1946-1989)  Professor of Zoology

O’Reilly, Nathalia Crane, Special Study at Barnard College, University of Madrid, and Sorbonne (1958-1983)  Assistant Professor of English and Comparative Literature

O’Reilly, Peter, Ph.D. (1968-1983)  Professor of Philosophy

Orth, Frederick J., M.F.A. (1965-1989)  Professor of Art, Design and Art History

Padgett, L. Vincent, Ph.D. (1956-1992)  Professor of Political Science

Palmer, Dennis, A.B. (1965-1997)  Associate Professor of French

Panos, Nicholas, M.S.E.E., Professional Degree in Electrical and Computer Engineering (1968-2001)  Professor of Electrical and Computer Engineering

Park, Chong Jin, Ph.D. (1972-1999)  Professor of Mathematical and Computer Sciences

Parsons, John A., Ph.D. (1965-1991)  Professor of Biology

Paulin, Harry W., Ph.D. (1962-1991)  Professor of German

Pehrsen, Robert B., Ph.D. (1969-1996)  Professor of Teacher Education

Penne, Robert, Ph.D. (1960-1991)  Professor of Psychology

Perczel, Csilla F., Ph.D. (1970-1996)  Associate Professor of Art

Perkins, William A., Ph.D. (1955-1984)  Professor of English and Comparative Literature

Persson, Gerald A., Ph.D. (1957-1981)  Professor of Secondary Education

Peterson, Donald W., Ph.D. (1974-1992)  Associate Professor of Recreation, Parks and Tourism

Peterson, Richard H., Ph.D. (1978-1998)  Professor of History

Phep, Leroy N., Ph.D. (1966-1990)  Associate Professor of Biology

Piers, Albert Chad, Ph.D. (1954-1983)  Professor of Management

Pincelli, Jr., Stanley J., Ph.D. (1955-1996)  Professor of History

Pisani, Roberto, Ph.D. (1966-2000)  Professor of Physics

Piotnike, Rod, Ph.D. (1970-1998)  Professor of Psychology

Plymale, Harry, D.V.M. (1962-1991)  Associate Professor of Biology

Polich, John L., Ph.D. (1969-1999)  Associate Professor of History

Pomeroy, John M., Ph.D. (1963-1977)  Professor of History

Pomroy, Ibrahim I., Ph.D. (1967-1987)  Professor of Economics

Preston, David C., Ph.D. (1978-1996)  Professor of Biology

Pritchard, David L., Ph.D. (1971-2001)  Professor of Secondary Education

Psomas, Thelmo Tobias, Ph.D. (1952-1982)  Associate Professor of Psychology

Placket, Anton D., Ph.D. (1965-1992)  Associate Professor of Biological Sciences

Quinn, Frederick T., M.S., J.D. (1957-1981)  Professor of Civil Engineering

Rader, Daniel L., Ph.D. (1954-1983)  Professor of History

Radlow, Robert, Ph.D. (1968-1989)  Professor of Psychology

Ramage, Jean C., Ph.D. (1975-1989)  Professor of Counselor Education

Rankin, Janna S., J.D. (1986-1994)  Professor of Recreation, Parks and Tourism

Rao, M. V. Ramas, Ph.D. (1974-1982)  Professor of Mechanical Engineering

Rasmussen, Aaron P., Ph.D. (1971-1990)  Associate Professor of Industrial Studies

Ratta, Frank J., Ph.D. (1954-1984)  Professor of Biology

Real, Michael R., Ph.D. (1980-2000)  Professor of Communication
Emeritus Faculty

Redding, Mary Worden, Ph.D. (1967-1983)  Associate Professor of English and Comparative Literature
Redding, Robert W., Ph.D. (1966-1985)  Associate Professor of English and Comparative Literature
Reel, Jane E., Ph.D. (1958-1991)  Associate Professor of Teacher Education
Reints, William W., Ph.D. (1966-1992)  Professor of Finance
Retson, James N., Ed.D. (1968-1992)  Professor of Teacher Education
Richardson, William H., Ph.D. (1963-1994)  Professor of Chemistry
Riggs, Dorothy J., Ed.D. (1966-1986)  Professor of Teacher Education
Riggs, Lester G., Ph.D. (1950-1978, except 1951-1952)  Professor of Mathematical Sciences
Rinehart, Robert R., Ph.D. (1964-1994)  Professor of Biology
Ring, Morey A., Ph.D. (1962-1995)  Professor of Chemistry
Rixman, Eunice E., D.M.A. (1960-1991)  Professor of Teacher Education
Robbins, Stephen P., Ph.D. (1979-1993)  Professor of Management
Roberts, Ellis E., Ph.D. (1949-1979)  Professor of Social Work
Rosenbaum, Gerald, Ph.D. (1989-1994)  Professor of Biology
Riggs, Dorothy J., Ed.D. (1966-1986)  Professor of Teacher Education
Sanderlin, George W., Ph.D. (1954-1983)  Professor of Comparative Literature
Sandlin, Mary Lee, M.L.S. (1968-1983)  Senior Assistant Librarian
Sandlin, Joann S., Ph.D. (1967-1994)  Professor of Sociology
Sandstrom, Glenn A., Ph.D. (1956-1983)  Professor of English and Comparative Literature
Sanner, Frederick C., Ph.D. (1967-1981)  Associate Professor of Speech Communication
Sandlin, Joann S., Ph.D. (1967-1994)  Professor of Sociology
Sandstrom, Glenn A., Ph.D. (1956-1983)  Professor of English and Comparative Literature
Santangelo, Gennaro A., Ph.D. (1967-1992)  Professor of English and Comparative Literature
Sardinas, Maria A., M.T., M.S.W. (1968-1989)  Associate Professor of Social Work
Sattler, Jerome M., Ph.D. (1965-1994)  Professor of Psychology
Schapiro, Harriette C., Ph.D. (1966-1990)  Professor of Biology
Schatz, Arthur W., Ph.D. (1963-1992)  Assistant Dean, Graduate Division and Research, Professor of History
Schlesinger, Robert J., Ph.D. (1984-1997)  Professor of Information and Decision Systems
Schmier, Walter D., J.D. (1967-1975)  Associate Professor of Business Law
Schulte, Richard H., Ph.D. (1965-2001)  Professor of Psychology
Schultze, William A., Ph.D. (1968-2000)  Professor of Political Science
Schulz, Roll H.K., Ph.D. (1969-1998)  Professor of Sociology
Schwob, Marion L., M.S. (1934-1960)  Associate Professor of Physical Education
Sebold, Frederick D., Ph.D. (1969-1987)  Professor of Economics
Segade, Gustavo V., Ph.D. (1967-2000)  Professor of Spanish
Segal, Evelyn F., Ph.D. (1973-1983)  Professor of Psychology
Selder, Dennis J., Ph.D. (1968-2000)  Professor of Exercise and Nutritional Sciences
Seright, Oris D., Ph.D. (1967-1997)  Associate Professor of Linguistics
Settle, Robert B., Ph.D. (1972-1988)  Professor of Marketing
Shepard, David C., Ph.D. (1956-1991)  Professor of Biology
Shepsho, John P., Ph.D. (1968-2000)  Professor of Psychology
Shira, Jr., Donald W., M.A.L.S. (1958-1986)  Senior Assistant Librarian
Short, Jr., Donald R., Ph.D. (1969-2001)  Professor of Mathematical and Computer Sciences
Shull, Jr., Charles M., Ph.D. (1969-1983)  Professor of Natural Science
Shutts, William H., Ph.D. (1958-1977)  Professor of Aerospace Engineering
Singer, Jr., Arthur, Ph.D. (1959-1983)  Professor of Special Education
Skaal, Donald L., M.S. (1960-1981)  Professor of Electrical and Computer Engineering
Sleet, David A., Ph.D. (1974-1997)  Professor of Exercise and Nutritional Sciences
Sloan, William C., Ph.D. (1961-1990)  Professor of Biology
Smith, Beverly A., M.S. (1967-1986)  Assistant Professor of Exercise and Nutritional Sciences
Smith, Jr., Charles D., Ph.D. (1967-1992)  Professor of History
Smith, John R., Ph.D. (1957-1986)  Associate Professor of Psychology
Smith, Jr., Louis E., Ph.D. (1946-1979)  Professor of Physics
Smith, Newton B., Ph.D. (1954-1986)  Professor of Mathematical Sciences
Smith, Jr., Ray T., Ph.D. (1964-1996)  Professor of History
Smith, Jr., Robert D., Ph.D. (1963-1994)  Professor of Teacher Education
Snyder, Mervin S., M.A. (1953-1983)  Professor of Music
Snyder, William S., Ph.D. (1960-1990)  Professor of Philosophy
Sorensen, George W., Ph.D. (1967-1986)  Professor of Journalism and Sociology
Sorensen, George N., M.A. (1946-1976)  Professor of Art
Sowder, Judith T., Ph.D. (1986-2000)  Professor of Mathematical and Computer Sciences
Sparks, Irving Alan, Ph.D. (1974-1999)  Professor of Religious Studies
Spaulding, Jr., William E., Ph.D. (1970-1985)  Professor of Information Systems
Spencer, Marjorie J., M.A. (1969-1978)  Associate Professor of Art, Imperial Valley Campus
Springer, Arthur, Ph.D. (1968-2001)  Associate Professor of Mathematical and Computer Sciences
Stibich, Alexander L., Ph.D. (1959-1983)  Professor of Management
Starr, Raymond G., Ph.D. (1964-1999)  Professor of History
Stauffer, Sigurd, Ph.D. (1966-1991)  Professor of Teacher Education
Steckbauer, Mark J., Ed.D. (1967-1992)  Professor of Teacher Education
Steele, Richard W., Ph.D. (1967-1992)  Professor of History
Steen, Paul J., M.A. (1970-1992)  Professor of Telecommunications and Film; Director of University Telecommunications
Steinberg, Dan, Ph.D. (1989-1998)  Associate Professor of Economics
Stephenson, Clarence E., Ph.D. (1963-1991)  Professor of Drama
Emeritus Faculty

Stephenson, III, John S., Ph.D. (1969-1986) .......................... Professor of Sociology

Stevens, Larry P., Ed.D. (1986-1991) .......................... Assistant Professor of Administration, Rehabilitation and Postsecondary Education

Stevens, Walter R., Ph.D (1956-1990) .......................... Professor of Psychology

Stewart, Charles J., Ph.D. (1955-1992) .......................... Professor of Chemistry

Stiehl, Harry C., Ph.D. (1969-1992) .......................... Professor of English

Stites, Francis N., Ph.D. (1968-2000) .......................... Professor of History

Stoddart, Jess L., Ph.D. (1966-1998) .......................... Professor of History

Stone, Hamilton L., B.S. (1947-1971) .......................... Associate Professor of Mechanical Engineering

Stone, Sanford H., M.S.E., M.S. (1955-1990) .......................... Professor of Civil Engineering

Storm, Alvena S., M.A. (1926-1965) .......................... Professor of Geography

Stout, Zoe E., Ph.D. (1965-1977) .......................... Associate Professor of Family Studies and Consumer Sciences

Strand, Marguerite R., Ph.D. (1955-1977) .......................... Counselor, Professor of Secondary Education

Straton, Frank E., Ph.D., Professional Degree in Civil Engineering (1956-1957) .......................... Professor of Civil and Environmental Engineering

Straub, Laura Lynn, M.G.S. (1948-1976) .......................... Professor of Information Systems

Strahly, William A., Ph.D. (1990-2000) .......................... Professor of Administration, Rehabilitation and Postsecondary Education

Strong, Douglas H., Ph.D. (1964-1990) .......................... Professor of History

Stuart, Robert J., Ph.D. (1969-1987) .......................... Professor of Electrical and Computer Engineering

Sullivan, Edward D. S., Ph.D. (1967-1983) .......................... Assistant Professor of English and Comparative Literature

Szabo, Andrew, Ph.D. (1955-1978) .......................... Collection Development Librarian

Talamanes, Florence W., Ph.D. (1962-1992) .......................... Associate Professor of Spanish

Tanner, JoAnn L., Ed.D. (1956-1986) .......................... Professor of Art

Taylor, James W., Ph.D. (1950-1980) .......................... Professor of Geography

Taylor, Kenneth M., Ph.D. (1949-1978) .......................... Professor of Biology

Teasdale, John G., Ph.D. (1956-1982) .......................... Professor of Physical Science

Templin, Jacques D., Ph.D. (1962-1999) .......................... Professor of Physics

Thiel, Donald W., Ph.D. (1957-1986) .......................... Professor of Industrial Studies

Thile, Edmund L., Ph.D. (1967-1998) .......................... Professor of Communicative Disorders

Thomas, Beatrice A., M.A. (1954-1977) .......................... Professor of Nursing

Thompson, Patrick W., Ed.D. (1990-1999) .......................... Professor of Mathematical and Computer Sciences

Thompson, Willis H., M.A. (1967-1991) .......................... Assistant Professor of Natural Science

Thwaites, William M. Ph.D. (1965-1995) .......................... Associate Professor of Biology

Thyagarajan, Kadayam S., Doctorate of Engineering (1980-1999) .......................... Professor of Electrical and Computer Engineering

Tollefsen, Dorothy J., M.A. (1946-1972) .......................... Assistant Professor of Physical Education

Tossas, Leila de Irazary, Ed.D. (1961-1977) .......................... Professor of Elementary Education

Tozer, Lowell, Ph.D. (1954-1986) .......................... Professor of English and Comparative Literature

Troxell, Eugene A., Ph.D. (1968-2000) .......................... Associate Professor of Philosophy

Turner, Marjorie S., Ph.D. (1954-1977) .......................... Professor of Economics

Turner, Merlie B., Ph.D. (1950-1974) .......................... Professor of Psychology

Vails-Weber, Dorothy M., Ph.D. (1972-2000) .......................... Associate Professor of Nursing

Verderber, Anne, Ph.D. (1971-1992) .......................... Associate Professor of Nursing

Vergani, GianAngelo, Dottorato in Lettere (1963-1992) .......................... Professor of Italian

Vergani, Luisa M., Dottorato in Lettere (1969-1983) .......................... Professor of Italian

Villone, Arnold L., Ph.D. (1968-1998) .......................... Professor of Mathematical and Computer Sciences

Vinge, Vernor S., Ph.D. (1972-2000) .......................... Associate Professor of Mathematical and Computer Sciences

Walawender, Michael J., Ph.D. (1972-2001) .......................... Professor of Geological Sciences

Walba, Harold, Ph.D. (1949-1986) .......................... Professor of Chemistry

Walch, Jr., Henry A., Ph.D. (1955-1985) .......................... Professor of Biology

Wallace, Robert D., Ph.D. (1957-1986) .......................... Professor of Art

Ward, John T., Ed.D. (1968-1982) .......................... Associate Professor of Educational Administration

Warren, Edward W., Ph.D. (1963-1990) .......................... Professor of Philosophy and Classics

Watson, Lawrence C., Ph.D. (1967-1992) .......................... Professor of Anthropology

Webb, Charles R., Ph.D. (1949-1972, except 1965) .......................... Professor of History

Wedberg, Hale L., Ph.D. (1959-1983) .......................... Professor of Botany

Weeter, Raymond D., Ph.D. (1966-1991) .......................... Associate Professor of Spanish

Weissman, Stanley H., Ph.D. (1962-1991) .......................... Professor of Philosophy

Weil, Richard W., M.A. (1961-1994) .......................... Associate Professor of Physical Education

Wending, Aubrey, Ph.D. (1954-1982) .......................... Professor of Sociology

Werner, Joan T., Ph.D. (1965-1995) .......................... Assistant Professor of Sociology

West, John J., M.S. (1969-1989) .......................... Senior Assistant Librarian

Wetherill, William H., Ph.D. (1957-1982) .......................... Professor of Educational Administration

Wheeler, James L., Ph.D. (1968-1999) .......................... Associate Professor of English and Comparative Literature

Whitby, Joan A., M.S. (1968-1998) .......................... Assistant Professor of Exercise and Nutritional Sciences

Whitman, David G., Ph.D. (1969-2001) .......................... Associate Professor of Mathematical and Computer Sciences

Whitney, Dan, Ph.D., J.D. (1966-2000) .......................... Professor of Anthropology

Whittington, O. Ray, Ph.D., Certified Public Accountant (1978-1999) .......................... Professor of Accountancy

Widmer, Kingsley, Ph.D. (1956-1991) .......................... Professor of English and Comparative Literature

Willing, John H., Ed.D. (1960-1986) .......................... Professor of Teacher Education

Wilhelm, Betty Jane, M.A. (1961-1980) .......................... Associate Professor of Physical Education

Willerding, Margaret F., Ph.D. (1956-1976) .......................... Professor of Mathematics

Williamson, Gloria R., M.A. (1961-1979) .......................... Associate Professor of Physical Education

Willis, George C., M.F.A. (1967-2001) .......................... Associate Professor of Dance

Wilson, Donald G., Ph.D. (1982-1992) .......................... Lecturer in Electrical and Computer Engineering

Wilson, Willfred J., Ph.D. (1963-1992) .......................... Professor of Biology

Winslow, Robert W., Ph.D. (1965-2000) .......................... Professor of Sociology

Witherspoon, John P., M.A. (1979-1980) .......................... Professor of Telecommunications and Film

Wither, Gerhard, M.S. (1957-1975) .......................... Professor of Physics

Woodson, John H., Ph.D. (1961-1998) .......................... Professor of Chemistry

Wotrubas, Thomas R., Ph.D. (1962-2000) .......................... Professor of Marketing

Wulbern, Julian H., Ph.D. (1966-1993) .......................... Professor of German

Wylie, Donald G., Ph.D. (1966-1992) .......................... Professor of Telecommunications and Film

Yahr, Charles C., Ph.D. (1955-1988) .......................... Professor of Geography

Yessian, Charlotte B., Ph.D. (1967-1988) .......................... Professor of Teacher Education

Young, Arthur, Ph.D. (1967-2000) .......................... Professor of Astronomy

Zedler, Joy B., Ph.D. (1972-1998) .......................... Professor of Biology

Zedler, Paul H., Ph.D. (1969-1998) .......................... Professor of Biology

Ziegenfuss, George, Ed.D. (1948-1988) .......................... Professor of Physical Education
Part-Time Faculty
2000–2001
