Welcome to San Diego State University’s FAST program! As your admission letter explained, you must attend and complete the FAST online coursework in order to enroll in fall 2015 classes at SDSU. This program will provide you with the tools and resources necessary to clear your remediation requirements before the school year begins so that you can embark upon a successful college journey.

You must fulfill six requirements to ensure successful completion of the program. Details about each requirement are online at www.sdsu.edu/collegeready.

1. Pay your FAST basic tuition and fees (or finalize your financial aid) by Friday, June 19.

2. Set up your computer to prepare for online courses and install any required software.

3. Fill out the San Diego City College application, which is a requirement because SDSU FAST online courses are offered in partnership with City College.

4. Log in to SDSU’s Blackboard site, blackboard.sdsu.edu, and confirm you have access.

5. Attend FAST classes online from July 6 to August 7. You will be automatically registered in two three-unit classes.

6. Make your New Student Orientation reservation at www.sdsu.edu/orientation. You are expected to attend New Student Orientation, which takes place in July and August.

Again, please go immediately to www.sdsu.edu/collegeready to find detailed instructions for each of the FAST requirements above.

If you have questions regarding New Student Orientation you may contact the Office of New Student and Parent Programs at (619) 594-1509. For any other questions, please contact the Office of Admissions at (619) 594-6336.

We look forward to you joining us this summer.
